RIS	FEDERAL POWER COMMISSION REGULATORY INFORMATION SYSTEM	
DETAILED INSTRUCTIONS: SCHEDULE 0161	DETAILED ACCOUNT DATA - PART I	6 of 8

Accounts 187.00, & 256.00

Report information related to deferrals of losses or gains to disposition of utility plant. Losses or gains on property with an original cost of less than $50,000 may be grouped. For grouped items, enter the word "Other" in data field 2 with the number of items grouped, i.e., Other (12). Report data for the grouped items in data fields 3, 4 and 5.

Data Field Number	Instructions
1 (Key)	Account Number (N3.2): (ACCTML)
2 (Key)	Description (A50): Give a brief description of the property creating the deferred loss or gain and the date the loss or gain was originally recognized. Enter "Total" as last entry for each account. (IDDESC)
3	Debits - Amount (N9) DOL: For Account 187.00, enter the total amount of losses incurred from the disposition of utility plant during the year. For Account 256.00, enter the total amount of amortizations (to Account 411.60) of previously recorded gains during the year.
4	Credits - Amount (N9) DOL: For Account 187.00, enter the amount of amortizations during the year (to Account 411.70) of previously recorded losses. For Account 256.00, enter the total amount of gains resulting from the disposition of utility plant during the year.
5	Balance End of Year (N9) DOL.
6	Particulars (A60): Give the date of Commission approval of journal entries. Where approval has not been received, give explanation. (IDDESC)
10	Amount of Loss (N9) DOL: For Account 187.00, enter the amount of original loss on the disposition of the property.
11	Amount of Gain (N9) DOL: For Account 256.00, enter the amount of original gain on the disposition of the property.

Accounts 189.00 & 257.00

Report information on reacquired debt. Gains or losses of less than $25,000 may be grouped. For grouped items, enter the word "Other" in data field 2 with the number of items grouped, i.e., Other (12). Report data for the grouped items in data fields 3, 4 and 5.

If certain series of debt were reacquired at different times during the year, the information should be summarized and the totals reported in data fields 2-11.

FPC Form 151
(3-76)

FEDERAL REGISTER, VOL. 41, NO. 168—FRIDAY, AUGUST 27, 1976

Gains and losses on particular class and series of debt reacquired during a year should not be netted, but the resulting gain or loss amounts should be classified and reported as either Account 189.00 or 257.00

Data Field Number	Instructions
1 (Key)	Account Number (N3.2): (ACCTML)
2 (Key)	Description (A50): Enter the type, class of debt and the year(s) the debt was reacquired, i.e., Sinking Fund Debentures - 5% - 1974 Sinking Fund Debentures - 5% - 1975 Enter "Total" as last entry for each account. (IDDESC)
3	Debits - Amount (N9) DOL.
4	Credits - Amount (N9) DOL.
5	Balance End of Year (N9) DOL.
6	Particulars (A60): If gain or loss resulted from a refunding transaction, state the maturity date of the new issue. (IDDESC) Explain any debits and credits other than amortization debited to Account 428.10, Amortization of Loss on Reacquired Debt or credited to Account 429.10, Amortization of Gain on Reacquired Debt - Credit.
7	Principal Amount (N9) DOL: Enter the principal amount of debt listed in data field 2 above, reacquired during the year.
9	Date of Maturity (N6): Enter the maturity date of long-term debt, in the format MMDDYY. (TMDATE)
10	Amount of Loss (N9) DOL: Enter the amount of loss realized for the year for each class and series of debt listed in data field 2 above.
11	Amount of Gain (N9) DOL: Enter the amount of gain realized from the year for each class and series of debt listed in data field 2 above.

Account 215.00

Report information on appropriations of retained earnings.

PROPOSED RULES

36452

I. DESCRIPTION

This schedule is used to collect detailed information supporting the accounting entries to certain balance sheet and retained earning accounts of the Uniform System of Accounts and the Supplemental Accounts.

II. GENERAL INFORMATION

A. This schedule shall be submitted by Class A, Class B, Class C and Class D Natural Gas and Electric respondents.

B. The following accounts are included on this schedule:

Uniform System of Accounts	Supplemental Accounts	Description
114.00		Utility plant acquisition adjustments
115.00		Accumulated provision for amortization of utility plant acquisition adjustments
116.00		Other utility plant adjustments
120.10		Nuclear fuel in process of refinement, conversion, enrichment and fabrication
	120.11	Nuclear fuel in process - fabrication
	120.12	Nuclear fuel in process - nuclear materials
	120.13	Nuclear fuel in process - allowance for funds used during construction
	120.14	Nuclear fuel in process - other overhead
120.20		Nuclear fuel materials and assemblies - stock account
120.30		Nuclear fuel assemblies in reactor
120.40		Spent nuclear fuel
120.50		Accumulated provision for amortization of nuclear fuel assemblies
121.00		Nonutility property
122.00		Accumulated provision for depreciation and amortization of nonutility property
	144.10	Accumulated provision for uncollectable accounts - utility customers
	144.20	Accumulated provision for uncollectable accounts - merchandise, jobbing, and contract work
	144.30	Accumulated provision for uncollectable accounts - officers and employees
	144.40	Accumulated provision for uncollectable accounts - other
157.00		Nuclear materials held for sale
	157.10	Nuclear materials held for sale - uranium
	157.20	Nuclear materials held for sale - plutonium
	157.30	Nuclear materials held for sale - other
182.00		Extraordinary property losses
183.00		Preliminary survey and investigation charges
183.10		Preliminary natural gas survey and investigation charges

FPC Form 151
(3-76)

Uniform System of Accounts	Supplemental Accounts	Description
183.20		Other preliminary survey and investigation charges
186.00		Miscellaneous deferred debits
209.00		Reduction in par or stated value of capital stock
210.00		Gain on resale or cancellation of reacquired capital stock
~~211.00~~		~~Miscellaneous paid-in-capital~~
213.00		Discount on capital stock
214.00		Capital stock expense
216.10		Unappropriated undistributed subsidiary earnings
253.00		Other deferred credits
	255.10	Accumulated deferred investment tax credits - electric or gas department
	255.20	Accumulated deferred investment tax credits - other departments
261.00		Property insurance reserve
262.00		Injuries and damages reserve
263.00		Pensions and benefits reserve
264.00		Amortization reserve - Federal
265.00		Miscellaneous operating reserves
437.00		Dividends declared - preferred stock
438.00		Dividends declared - common stock
439.00		Adjustments to retained earnings

Class A and Class B Electric respondents report the detail for all accounts above except Accounts 183.10 and 183.20.

Class A and Class B Natural Gas respondents report the detail for all accounts above except Accounts 120.10 through 120.50, 157.00 through 157.30, 183.00 and 264.00.

Class C and Class D Natural Gas and Electric respondents report only the detail for Accounts 216.00, 255.10, 255.20, 437.00, 438.00 and 439.00.

C. Respondents shall report the information for each account as specified in Part III, Detailed Instructions. Not every data field is required for every account. The data fields for each account shall be reported annually.

D. Data fields 5 or 6 provide space for entry of one account number. If more than one account has been debited or credited for the item listed in data field 2, list the major account in data field 5 or 6 and the remaining accounts in data field 8, Particulars.

III. DETAILED INSTRUCTIONS

Instructions, cross-referenced to the schedule layout by data field number, are given below for each account to be reported.

FPC Form 151
(3-76)

PROPOSED RULES

36453

RAS	FEDERAL POWER COMMISSION REGULATORY INFORMATION SYSTEM	
DETAILED INSTRUCTIONS: SCHEDULE 0162	DETAILED ACCOUNT DATA - PART II	3 of 12

Accounts 114.00, 115.00 & 116.00

Report particulars for utility plant acquisition or other adjustments.

Data Field Number	Instructions
1 (Key)	Account Number (N3.2): (ACCTML)
2 (Key)	Description (A50): Explain the nature of each plant acquisition adjustment in Account 114.00 and plant adjustment in Account 116.00. For companies who utilize Account 115.00, provide the same description for each acquisition adjustment as provided under Account 114.00. Include the name of the company from which the property was acquired. (IDDESC)
3	Debits - Amount (N9) DOL.
4	Credits - Amount (N9) DOL.
5	Contra Account Credited (N3.2): (ACCTML)
6	Contra Account Debited (N3.2): (ACCTML)
8	Particulars (A60): For acquisition adjustments occuring during the year, state date of transaction and date journal entries clearing Account 102.00, Plant Purchased or Sold, were accepted for filing by the Commission. Give the date Commission authorized the amortization of acquisition adjustments. Explain the plan of disposition of any acquisition adjustments not currently being amortized. (IDDESC)
9	Balance End of Year (N10) DOL.
10	Period of Amortization (A5): Enter the period of amortization by years, in the format YY-YY, i.e., 74-79. (IDDESC)

Accounts 120.10 through 120.14, 120.20 through 120.50, & 157.00 through 157.30

Report the costs incurred for nuclear fuel materials on hand, in reactor, and in cooling owned by the respondent.

If the nuclear fuel stock is obtained under leasing arrangements, details of the leasing arrangements should be included on Schedules 0170 and 0171.

Data Field Number	Instructions
1 (Key)	Account Number (N3.2): (ACCTML)
3	Debits - Amount (N9) DOL: Enter the amount of additions during year.

FPC Form 131
(3-76)

RAS	FEDERAL POWER COMMISSION REGULATORY INFORMATION SYSTEM	
DETAILED INSTRUCTIONS: SCHEDULE 0162	DETAILED ACCOUNT DATA - PART II	4 of 12

Data Field Number	Instructions
4	Credits - Amount (N9) DOL: Enter the amount transferred, amortized during year or the amount of other reductions to the cost of nuclear fuel made during the year.
8	Particulars (A60): Explain the nature of all credit entries to Accounts 120.10 through 120.14, except transfers to Account 120.20. For Accounts 120.20, 120.30 and 120.40, state the estimated net salvage value of nuclear materials related to nuclear fuel included in each account. Explain the reason for any adjustments (data field 7) to the cost previously recorded in these accounts. (IDDESC)
9	Balance End of Year (N10) DOL.

Account 121.00

Report particulars for nonutility property.

Information on specific property having a cost under $100,000 should be grouped. For grouped items, enter the word "Other" in data field 2 with the number of item grouped, i.e., Other (12). Report data for the grouped items in data field 3, 4, and 9. Properties previously devoted to public service are separate and distinct from those allowed to be grouped under this instruction.

Total debits and credits should be provided for in data fields 3 and 4. Report the word "Total" as the last item in data field 2, in the first five spaces, and in data field 3, the total debits to the account and in data field 4, the total credits to the account.

Data Field Number	Instructions
1 (Key)	Account Number (N3.2): (ACCTML)
2 (Key)	Description (A50): Give a brief description and state the location (city, state) of nonutility property. (IDDESC)
3	Debits - Amount (N9) DOL: Enter the cost of any property described in data field 2 above, which was purchased or otherwise transferred to Account 121.00 during the year.
4	Credits - Amount (N9) DOL: Enter the cost of property described in data field 2 above, which was sold or otherwise transferred from Account 121.00 during the year.
8	Particulars (A60): List details of sales, purchases or transfers of nonutility property. For all property previously devoted to public service list date of transfer to Account 121.00. (IDDESC)
9	Balance End of Year (N10) DOL.

FPC Form 131

DETAILED INSTRUCTIONS: SCHEDULE 0162	DETAILED ACCOUNT DATA - PART II	5 of 12

Data Field Number	Instructions
11	Name of Company/Department (A35): If property is leased to another company, enter the name of lessee in this data field. (IDNAME)

Account 122.00

Report particulars for depreciation and amortization of nonutility property.

Data Field Number	Instructions
1 (Key)	Account Number (N3.2): (ACCTML)
2 (Key)	Description (A50): Enter the word "Total". (IDDESC)
3	Debits - Amount (N9) DOL: Enter the total debits to Account 122.00 for the year. Total debits include the book cost of plant retired, the cost of removal and any other debit adjustments to the reserve.
4	Credits - Amount (N9) DOL: Enter the total credits to Account 122.00 for the year. Total credits include depreciation and amortization accruals for the year, salvage and any other credit adjustments by the reserve.
9	Balance End of Year (N10) DOL: Enter the end of year balance for accumulated depreciation and amortization of nonutility property.

Accounts 144.10 through 144.40

Report particulars for uncollectable accounts.

Data Field Number	Instructions
1 (Key)	Account Number (N3.2): (ACCTML)
3	Debits - Amount (N9) DOL: Enter the total debits for the year to each supplemental account listed in data field 1 above. Total debits include all accounts written off and other debit adjustment to the reserve.
4	Credits - Amount (N9) DOL: Enter the total credits for the year to each supplemental account listed in data field 1 above. Total credits include the annual provision for uncollectable accounts for the year, collections of accounts previously written off and any other credit adjustments to the reserve.
9	Balance End of Year (N10) DOL.

FPC Form 131
(3-76)

RAS	FEDERAL POWER COMMISSION REGULATORY INFORMATION SYSTEM	
DETAILED INSTRUCTIONS: SCHEDULE 0162	DETAILED ACCOUNT DATA - PART II	6 of 12

Account 182.00

Report particulars for extraordinary property losses.

Total debits and credits should be provided for in data fields 3 and 4. Report the word "Total" as the last item in data field 2, in the first five space, and in data field 3, the total debits to the account and in data field 4, the total credits to the account.

Data Field Number	Instructions
1 (Key)	Account Number (N3.2): (ACCTML)
2 (Key)	Description (A50): Provide a description of each property loss included in this account. (IDDESC)
3	Debits - Amount (N9) DOL: Enter the amount of any additional extraordinary property losses incurred during the year from property described in data field 2 above.
4	Credits - Amount (N9) DOL: Enter the amount of extraordinary property losses charged off during the current year relative to property described in data field 2 above.
6	Contra Account Debited (N3.2): Enter the contra account debited with losses charged off during the year (data field 4 above). (ACCTML)
8	Particulars (A60): Enter date of abandonment or loss and date of Commission authorizing for use of Account 182.00. (IDDESC)
9	Balance End of Year (N10) DOL.
10	Period of Amortization (A5): Enter period of amortization by year, in the format YY-YY, i.e., 74-84. (IDDESC)

Accounts 183.00 or 183.10 and 183.20

Report particulars for expenditures for preliminary survey.

Preliminary survey items with total expenditures to date under $50,000 should be grouped. For grouped items, enter the word "Other" in data field 2 with the number of items grouped, i.e., Other (12). Report data for the grouped items in data fields 3, 4 and 9.

Total debits and credits should be provided for in data field 3 and 4. Report the word "Total" as the last item in data field 2, in the first five spaces, and in data field 3 the total debits to the account and in data field 4 the total credits to the account.

DETAILED INSTRUCTIONS: SCHEDULE 0163	DETAILED ACCOUNT DATA - PART III	1 of 9

I. DESCRIPTION

This schedule is used to collect detailed information supporting end of year balances or amounts for certain of the Uniform System of Accounts and the Supplemental Accounts.

II. GENERAL INFORMATION

A. This schedule shall be submitted by Class A, Class B, Class C and Class D Natural Gas and Electric respondents.

B. The following accounts are included on this schedule:

Uniform System of Accounts	Supplemental Accounts	Description
154.00		Plant materials and operating supplies
	165.10	Prepaid insurance
	165.20	Prepaid rent
	165.30	Prepaid taxes
	165.40	Prepaid interest
	165.50	Gas prepayments
	165.60	Other prepayments
174.00		Miscellaneous current and accrued assets
202.00		Common stock subscribed
203.00		Common stock liability for conversion
205.00		Preferred stock subscribed
206.00		Preferred stock liability for conversion
207.00		Premium on capital stock
208.00		Donations received from stockholders
212.00		Installments received on capital stock
242.00		Miscellaneous current and accrued liability
	252.10	Customer advances for construction - electric department
	252.20	Customer advances for construction - gas department
	252.30	Customer advances for construction - other
419.00		Interest and dividend income
421.00		Miscellaneous nonoperating income
	421.10	Gain on disposition of property
	421.20	Loss on disposition of property
425.00		Miscellaneous amortization
	426.10	Miscellaneous income deductions - donations
	426.20	Miscellaneous income deductions - insurance
	426.30	Miscellaneous income deductions - penalties
	426.41	Expenditures for certain civic, political and related activities - radio, television, and motion picture advertising
	426.42	Expenditures for certain civic, political and related activities - newspaper, magazine and pamphlet advertising
	426.43	Expenditures for certain civic, political and related activities - inserts in customers' bills or reports to stockholders

Uniform System of Accounts	Supplemental Accounts	Description
	426.44	Expenditures for certain civic, political and related activities - newspaper and magazine editorial services
	426.45	Expenditures for certain civic, political and related activities - other advertising
	426.46	Expenditures for certain civic, political and related activities - expenses other than advertising
426.50		Miscellaneous income deductions - other deductions
430.00		Income on debt to associated companies
431.00		Other interest expenses
436.00		Appropriations of retained earnings
813.00		Other gas supply expenses
858.00		Transmission and compression of gas by others
930.30		Industry association dues
930.40		Nuclear power, experimental and general research expenses
930.50		Stockholder expenses
930.60		Other expenses

Class A and Class B Electric respondents report detail for all accounts listed above except Account 165.10 through 165.60, 491.00, 813.00 and 858.00.

Class A and Class B Natural Gas respondents report detail for all accounts listed above.

Class C and Class D Electric and Natural Gas respondents report detail for Accounts 426.41 through 426.46 and 436.00.

C. Respondents shall report the information for each account as specified in Part III, Detailed Instructions. Not every data field is required for every account. The data fields for every account shall be reported annually.

III. DETAILED INSTRUCTIONS

Instructions, cross-referenced to the schedule layout by data field number, are given below for each account to be reported.

Account 154.00

Report information for plant materials and operating supplies.

UMI

RIS	FEDERAL POWER COMMISSION REGULATORY INFORMATION SYSTEM	
DETAILED INSTRUCTIONS: SCHEDULE 0163	DETAILED ACCOUNT DATA - PART III	3 of 9

Data Field Number	Instructions
1 (Key)	Account Number (N3.2): Refer to General Information, II-B. (ACCTML)
2 (Key)	Description (A50): Furnish a breakdown of plant materials and operating supplies included in Account 154.00, according to the general character of the items. Examples: (IDDESC) Electric: Poles and pole materials; Steel tower and fittings; Conductor-wire-cable-insulators; Substation materials; Underground materials; Other operations: Maintenance materials, Auto parts & supplies, Stationery & supplies, Production M&S and spare Gas: Steel pipe line; Well casing; Valves and fittings; Meters, regulators and parts; Miscellaneous machine parts, tools & electrical supplies; Compressor station engine parts; Building materials, poles, paint, etc.; Miscellaneous equipment & supplies
3	Balance End of Year (N10) DOL.
4	Particulars (A60): State the amount of any important inventory adjustment made during the year to the classes of material listed in data field 2 above. For any class of material listed in data field 2 above, that pertains to other than the primary department, state in this data field the department affected. (IDDESC)

Accounts 165.10 - 165.60

Natural Gas respondents report information on prepayments.

Data Field Number	Instructions
1 (Key)	Account Number (N3.2): Refer to General Information, II-B. (ACCTML)
2	Description (A50): Furnish a description for any prepayment reported in Supplemental Account 165.60, Other Prepayments. (IDDESC)
3	Balance End of Year (N10) DOL.

Accounts 174.00 & 242.00

Report information on miscellaneous current and accrued assets and liabilities or liabilities of less than $25,000 may be grouped. For grouped items, enter the word

FPC Form 131
(3-76)

RIS	FEDERAL POWER COMMISSION REGULATORY INFORMATION SYSTEM	
DETAILED INSTRUCTIONS: SCHEDULE 0163	DETAILED ACCOUNT DATA - PART III	4 of 9

"Other" in data field 2 with the number of items grouped, i.e., Other (12). Report data for the grouped items in data field 3.

Data Field Number	Instructions
1 (Key)	Account Number (N3.2): Refer to General Information, II-B. (ACCTML)
2 (Key)	Description (A50): Describe current and accrued assets or liabilities. (IDDESC)
3	Balance End of Year (N10) DOL.

Accounts 202.00, 203.00, 205.00, 206.00, 207.00, 208.00 and 212.00

Report information on other capital stock accounts.

Data Field Number	Instructions
1 (Key)	Account Number (N3.2): Refer to General Information, II-B. (ACCTML)
2	Description (A50): For Accounts 202.00 and 205.00, enter the subscription price on each class of stock at year end. For Accounts 203.00 and 206.00, describe the agreement under which a conversion liability existed at end of year. For Account 208.00, provide an explanation of the origin and purpose of each donation. For Account 212.00, state each class and series of capital stock with an outstanding installment at year end. For Account 207.00, state the class and series of stock giving rise to the premium. Provide a brief explanation of any premiums arising from transactions with associated companies. If additional information is required for adequate disclosure, use data field 4, Particulars. (IDDESC)
3	Balance End of Year (N10) DOL: Enter the balance end of year associated with the item listed in data field 2 above.
4	Particulars (A60): Enter the number of shares at year end, if applicable. (IDDESC)

Accounts 252.10 - 252.30

For respondents with more than one utility department, report information on customer advances by departments.

Data Field Number	Instructions
1 (Key)	Account Number (N3.2): Refer to General Information, II-B. (ACCTML)
3	Balance End of Year (N10) DOL: Enter the balance of customer advances at the end of year for each account listed in data field 1 above.

FPC Form 131
(3-76)

3	Amount for Year (N10) DOL.

Account 430.00

Report information related to interest on associated company debt.

Data Field Number	Instructions
1 (Key)	Account Number (N3.2): (ACCTML)
2 (Key)	Description (A50): List the name of the associated company, the type of debt involved and interest rate: (IDDESC) Jones Company - Advance - 6% Ace Company - Note - 8%
3	Amount for Year (N10) DOL.

Account 431.00

Report information on other interest expense.

Amounts of less than $10,000 may be grouped. For grouped items, enter the word "Other" in data field 2 with the number of items grouped, i.e., Other (12). Report data for the grouped items in data field 3.

FPC Form 131 (3-76)

Data Field Number	Instructions
1 (Key)	Account Number (N3.2): (ACCTML)
2 (Key)	Description (A50): Describe the nature of the selected debt or other interest expense item. Include also the interest rate, if not provided elsewhere in this filing. Examples: (IDDESC) Customer Deposits - 7% Notes Payable - Banks - 8-9% Notes Payable - Commercial Paper - 7% Notes Payable - Other Other
3	Amount for Year (N10) DOL.

Account 436.00

Report information on appropriations of retained earnings made during the year.

Data Field Number	Instructions
1 (Key)	Account Number (N3.2): (ACCTML)
2 (Key)	Description (A50): State purpose of any appropriation of retained earnings made during the year. (IDDESC)
3	Amount for Year (N10) DOL.

Account 813.00

Natural Gas repondents only report information on other gas supply expenses.

Data Field Number	Instructions
1 (Key)	Account Number (N3.2): (ACCTML)
2 (Key)	Description (A50): Provide a description of the nature of the other gas supply expense item. (IDDESC)
3	Amount for Year (N10) DOL.

Account 858.00

Natural Gas respondents only report information on expenses paid for transmission and compression of gas by others.

FPC Form 131 (3-76)

Data Field Number	Instructions
1 (Key)	Account Number (N3.2): (ACCTML)
2 (Key)	Description (A50): State name of company and a description of the service performed. (IDDESC)
3	Amount for Year (N10) DOL.

Accounts 930.30 - 930.60

Report information on miscellaneous general expenses.

For Accounts 930.30 - 930.50, complete data fields 1 and 3 only.

Account 930.50, Stockholder Expenses, includes publishing and distributing information to stockholders.

For Account 930.60, list seperately in data field 2 each item of miscellaneous other expense of $500 or more. Amounts of less than $500 may be grouped. For grouped items, enter the word "Other" in data field 2 with the number of items grouped, i.e., Other (12). Report data for the grouped items in data field 3.

Data Field Number	Instructions
1 (Key)	Account Number (N3.2): Refer to General Information, II-B. (ACCTML)
2 (Key)	Description (A50): Describe each item of miscellaneous other expenses. (IDDESC)
3	Amount for Year (N10) DOL.

DETAILED INSTRUCTIONS: ACCUMULATED PROVISION FOR DEPRECIATION, SCHEDULE 0188 DEPLETION, AND AMORTIZATION OF UTILITY PLANT		1 of 2

I. DESCRIPTION

This schedule is used to collect data relating to changes in accumulated provisions for depreciation, depletion and amortization of utility plants for the year according to utility departments.

II. GENERAL INFORMATION

A. This schedule shall be submitted by Class C and Class D Natural Gas and Electric respondents.

B. Respondents shall complete all data fields on this schedule annually.

C. The following Supplemental Account numbers are to be used as a means of grouping information for reporting purposes:

Uniform System of Accounts	Supplemental Accounts	Description
Natural Gas respondents		
	110.10	Accumulated provision for depreciation, deplation and amortization of utility plant - gas
	110.20	Accumulated provision for depreciation, deplation and amortization of utility plant - other
Electric respondents		
	110.10	Accumulated provision for depreciation, deplation and amortization of utility plant - electric
	110.20	Accumulated provision for depreciation, deplation and amortization of utility plant - other

III. DETAILED INSTRUCTIONS

The following data field-by-data field instructions are cross-referenced to the corresponding schedule layout by data field number:

Data Field Number	Instructions
1 (Key)	Account Number (N3.2): State the Supplemental Account number listed in General Information, II-C. (ACCTML)
2 (Key)	Total Depreciation Accruals for the Year (N8) DOL: Report the total amount accruals for the year.
3	Net Charges for Plant Retired During Year (N8) DOL: State the net charges for plant retired, to include: book cost of plant, salvage and cost of removal.
4	Other Items - Net (N8) DOL: State the net amount of any other entries to the reserva during the year.

DETAILED INSTRUCTIONS: SCHEDULE 0000 FOOTNOTES TO FPC PUBLIC USE SCHEDULES		1 of 2

1. DESCRIPTION

This schedule is used to collect the text for all footnote references for a respondent submission.

II. GENERAL INFORMATION

A. This schedule shall be submitted when applicable by all respondents for reporting footnotes to FPC Public Use Schedules.

B. The footnote reference numbers must be unique within a particular submission.

C. The respondent has to indicate two major types of footnotes.

1. General Footnote - The General Footnote can refer to either the entire schedule or one data field on the schedule, i.e. all data which is reported for data field 5 on the schedule not just one specific value for data field 5.

2. Specific Footnote - The Specific Footnote can refer either to an entire logical entry, i.e. group of related data which separates as an entity on a schedule or a data item within the logical entry.

The following entries are provided as an example:

Type Footnote	Data Field 2 (Footnote No.)	Data Field 3 (Ref. ID)
1. General Footnote		
a. Entire schedule	001	GEN
b. All data values for data field 5 entries on this schedule	001	005
All data values for data field 6 entries on this schedule	001	006
2. Specific Footnote		
a. Entire logical entry	002	GEN
b. Data item entry	002	004
	002	006
	002	008

III. DETAILED INSTRUCTIONS

The following data field-by-data field instructions are cross-referenced to the corresponding schedule layout by data field number.

0106	Security Holders and Voting Powers	3	-	Data to be filed on a one-time basis, see proposed 0101 above. Covers data presently required by page 3 instruction, no reporting requirement changes, only format.
0111	Notes to Security Holders and Voting Powers	3	-	Covers data presently required by page 3 instruction, no reporting requirement changes.
0112	Notes of Financial Data	4, 5, 9	-	This schedule is proposed so as to collect important information deemed necessary for adequate disclosure to support the data presently reported on the pages listed in column 3 and on the new proposed schedules containing financial data. No new or additional requirement, only the format and location of the notes to various schedules is proposed.
0124	List of Accounts - Pg.III			
	1. Balance Sheet Accounts	4, 5	101-299	Report only the balance end of year, by account number, for each account within the Uniform System of Accounts. Deleted the requirement for reporting Balance Beginning of year and Amount of Increase or (Decrease). Notes are to be reporting at proposed 0112. Detailed reporting by account in a few places which required Aggregate reporting on old schedule. Supplemental Account numbers have been established for reporting purposes.
	2. Income Statement Accounts	8, 9	400-433, 433, 434-435	Report only the amount for the year, by account number. Deleted reporting of "Change from Prior Year." Supplemental account numbers have been established for reporting purposes.
	3. Retained Earnings Account	10	433, 436-439	Report only amount for year for each account listed. Details to be reported on proposed 0161.
	4. Other E, Electric Operating Revenues	7	440-459	Report only amount for year for each account listed, details to be reported on proposed 0159.
	b. Electric Operation and Maintenance Expense Account	7	500-599, 900-949	Supplemental account numbers assigned for coding purposes. No new reporting requirements.
	5. Departmental Account	8, 9	400-411	Supplemental account numbers have been assigned to indicate the various departments, e.g., electric, gas, common, steam, other. Total for current year to be reported only. Deleted requirement for reporting "Change from Prior Year."

Proposed ORIS Schedule No.	Title	Replaces (whole or in part) Schedule Page No.	U. S. of A. Account No. Reference	Highlights of Proposed Changes from Previous Reporting Requirements
0112	Capital Stock	6	201, 204, 217	No new reporting requirements, only format.
0113	Long-Term Debt	6	221	No new reporting requirements, only format.
0141	Investment Tax Credits	13	-	Data to be filed on a one-time basis, with only changes, additions and deletions submitted thereafter, see proposed 0101, above. Information on the accounts for investment tax credits will be reported on proposed 0112.
0144	Plant in Service or all Utility Plants Class C and D - Part II	11	101-105.107, 118,119,118, 300,399	Deleted reporting of balance beginning of year. Supplemental account numbers have been assigned to "total" for reporting purposes.
0159	Operating Revenues	7	440, 442, 444, 447, 448, 449	This schedule reports only quantity and number of customers. Supplemental account numbers assigned for reporting purposes.
0161	Detailed Account Data - Part I	10	215	No new reporting requirements, only format.
0162	Detailed Account Data - Part II	10, 14	216, 255, 437, 438, 439	No new reporting requirements, only format. Supplemental account numbers have been assigned for reporting purposes only of different departments. Balance beginning of year has been deleted.
0163	Detailed Account Data - Part III	10, 15	438, 428.4	Supplemental account numbers have been assigned to the 428.4 account for reporting purposes. Deleted requirement of reporting accounting entries for account 438.
0188	Accumulated Provision for Depreciation, Depletion and Amortization of Utility Plant	6	-	Supplemental account numbers have been assigned for reporting purposes. No new reporting requirements.

{ The number of copies to be filed has been changed from "original and one" to "original and four." }

reminders

(The items in this list were editorially compiled as an aid to FEDERAL REGISTER users. Inclusion or exclusion from this list has no legal significance. Since this list is intended as a reminder, it does not include effective dates that occur within 14 days of publication.)

Rules Going Into Effect Today

CAB—Air transportation competition; unfair methods..... 30112; 7–22–76
Post flight accounting reports. 31811; 7–30–76
DOT/CG—Drawbridge operations; Tex. 31534; 7–29–76
FHA—Construction contract equal opportunity compliance procedures. 34239; 8–13–76
Interior/FWS—Hunting; Mont..... 31539; 7–29–76

Rules Going Into Effect August 28, 1976

INT/FWS—Hunting; certain National wildlife refuges in Ore..... 32750; 8–5–76
Hunting; National wildlife refuges in certain states..... 32752; 8–5–76

List of Public Laws

NOTE: No public bills which have become law were received by the Office of the Federal Register for inclusion in today's LIST OF PUBLIC LAWS.

AGENCY PUBLICATION ON ASSIGNED DAYS OF THE WEEK

The six-month trial period ended August 6. The program is being continued on a voluntary basis (see OFR notice, 41 FR 32914, August 6, 1976). The following agencies have agreed to remain in the program:

Monday	Tuesday	Wednesday	Thursday	Friday
NRC	USDA/ASCS		NRC	USDA/ASCS
DOT/COAST GUARD	USDA/APHIS		DOT/COAST GUARD	USDA/APHIS
DOT/NHTSA	USDA/FNS		DOT/NHTSA	USDA/FNS
DOT/FAA	USDA/REA		DOT/FAA	USDA/REA
DOT/OHMO	CSC		DOT/OHMO	CSC
DOT/OPSO	LABOR		DOT/OPSO	LABOR

Documents normally scheduled on a day that will be a Federal holiday will be published the next work day following the holiday.

Comments on this program are still invited. Comments should be submitted to the Day-of-the-Week Program Coordinator, National Archives and Records Service, General Services Administration, Washington, D.C. 20408.

ATTENTION: Questions, corrections, or requests for information regarding the contents of this issue only may be made by dialing 202–523–5286. For information on obtaining extra copies, please call 202–523–5240. To obtain advance information from recorded highlights of selected documents to appear in the next issue, dial 202–523–5022.

federal register

Area Code 202 Phone 523–5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $5.00 per month or $50 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

FREEDOM OF INFORMATION AND PRIVACY ACTS

National Study Commission on Records and Documents of Federal Officials proposals on implementation; comments by 9–29–76 36514
DOD issues proposed guidelines for responding to requests for information or assistance; comments by 9–29–76 36523

MEETINGS—

Advisory Council on Historic Preservation, 9–14–76 36552
DOD/AF: Scientific Advisory Board, 9–21 through 9–24–76 (2 documents) 36523
EPA: Science Advisory Board, Environmental Health Advisory Board, 9–16 and 9–17–76 36538
Technology Assessment and Pollution Control Advisory Committee, 9–13 through 9–15–76 36539
FCC: 1979 WARC Broadcast Service Working Groups, 9–14, 9–15, 9–29, 9–30–76 36544
FPC: National Gas Survey, Transmission, Distribution and Storage-Technical Advisory Task Force–Rate Design, 9–14–76 36547
HEW/ADAMHA: Minority Advisory Committee, comments by 9–15 through 9–17–76 36530
CDC: Feasibility of Certifying Component Parts for Self-Contained Breathing Apparatus, 10–22–76 36530
Interior/NPS: Canaveral National Seashore Advisory Commission, 9–16–76 36528
NASA: Space Program Advisory Council, Space Systems Committee, 9–20 and 9–21–76 36553
NSF: Advisory Panel for Astronomy, Subpanel on Optical and Infrared Astronomy, 9–17 and 9–18–76 36553
State: Advisory Committee to the United States National Section of the International North Pacific Fisheries Commission, 9–27 and 9–28–76 36520
Study Group 1 of the U.S. National Committee for the International Radio Consultative Committee (CCIR), 9–28–76 36520

PART II:

DEVELOPMENTAL DISABILITIES PROGRAM

HEW proposal on grants to States and non-profit organizations to improve and coordinate services to the disabled; comments by 10–14–76 36581

PART III:

STATIONARY SOURCES

EPA proposes revision to capacity standard of performance for new, modified and reconstructed petroleum refinery fluid catalytic cracking unit catalyst regenerators; comments by 10–29–76 36599

PART IV:

MUTUAL MORTGAGE INSURANCE AND INSURED HOME IMPROVEMENT LOANS

HUD proposes to update rules and include servicing requirements; comments by 10–1–76 36603

PART V:

BUDGET RESCISSIONS AND DEFERRALS

OMB reports revisions 36613

PART VI:

NATIONAL FLOOD INSURANCE PROGRAM

HUD/FIA proposes clarification of Administrator and contractor-agent roles; comments by 9–29–76 36619

PART VII:

LOCAL PUBLIC WORKS CAPITAL DEVELOPMENT AND INVESTMENT PROGRAM

Commerce/EDA amends regulations on implementation.. 36635

contents

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 76–NW–8–AD; Amdt. 39–2706]

PART 39—AIRWORTHINESS DIRECTIVES

Boeing Model 727–100 Series Airplanes

A proposal to amend Part 39 of the Federal Aviation Regulations to include an airworthiness directive requiring either the reactivation of the static port heater or replacement of the deactivated heater with an elbow fitting and enlarging the static sensor holes on Boeing Model 727–100 series airplanes was published in FEDERAL REGISTER, Vol. 41, No. 113, page 23419, on Thursday, June 10, 1976.

Interested persons have been afforded an opportunity to participate in the making of the amendment. A number of comments requested additional time for compliance which has been provided. Some comments were against enlarging the static sense holes. However, tests conducted by the manufacturer indicate a need for hole enlargement whether heated or not, because water can be retained by the small holes under certain conditions.

A notice of proposed rule making will be issued in the near future to propose amending this AD to require enlargement of the .047 inch diameter static port sense holes to .125 inch diameter in all 727–100/200 series airplanes unless already accomplished.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (31 FR 13697), § 39.13 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

BOEING: Applies to Boeing Model 727–100 series airplanes certificated in all categories with static port heater circuits deactivated.

Compliance required as indicated unless already accomplished.

To prevent the loss of altitude and airspeed reference due to a small amount of water freezing in the static port system, accomplish either of (1) or (2) below:

(1) Within the next 1,000 hours time in service after the effective date of this AD reactivate the static port heater circuits to the original FAA approved Boeing 727–100 configuration; or

(2) Within the next 2,000 hours time in service after the effective date of this AD replace the deactivated heater assembly, P/N 10–60723–1, with elbow fitting MS21906D6 in accordance with Boeing Service Bulletin 725–34–95 dated September 2, 1976, or later FAA approved service bulletins, and enlarge the static port sensing holes from .047 inch diameter to .125 inch diameter in accordance with Boeing Service Bulletin 727–34–94 (to be released) or later FAA approved service bulletins.

Notwithstanding the provisions of the above paragraph (1) the heater elements in one static system may be inoperative provided the aircraft is not flown in icing or precipitation conditions.

Boeing 727–100 airplanes already incorporating Boeing Service Bulletin 727–25–42, Revision 1, dated March 4, 1968, with elbow fitting MS21908D6 and Boeing Service Bulletin 727–34–57 dated April 7, 1968, enlarging the static sense holes are in compliance with this AD.

Equivalent modifications may be approved by the Chief, Engineering and Manufacturing Branch, FAA Northwest Region.

The manufacturer's specifications and procedures identified and described in this directive are incorporated herein and made a part hereof pursuant to 5 U.S.C. 552(a)(1).

All persons affected by this directive, who have not already received these documents from the manufacturer, may obtain copies upon request to Boeing Commercial Airplane Company, P.O. Box 3707, Seattle, Washington 98124. The documents may also be examined at FAA Northwest Region, 9010 East Marginal Way South, Seattle, Washington.

This amendment becomes effective October 1, 1976.

(Secs. 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423) and of Section 6(c) of the Department of Transportation Act (49 U.S.C. 1655 (c).))

The incorporation by reference provisions in the document were approved by the Director of the Federal Register on June 19, 1967.

Issued in Seattle, Washington on August 20, 1976.

J. H. TANNER,
Acting Director, Northwest Region.

[FR Doc.76–25105 Filed 8–27–76;8:45 am]

[Docket No. 76–NW–5–AD; Amdt. 39–2698]

PART 39—AIRWORTHINESS DIRECTIVES

Boeing Model 747 Series Airplanes

A proposal to amend Part 39 of the Federal Aviation Regulations, Amendment 39–2538 AD 76–05–05 to provide a repeat inspection requirement for all fuselage skin lap splices under the wing-to-body fairings on Boeing Model 747 airplanes was published in 41 CFR 27084.

Interested persons have been afforded an opportunity to participate in the making of the amendment. One operator requested an expansion of the inspection interval for certain airplanes to 8,000 hours or 24 months and for certain other airplanes to 16,000 hours or 48 months. Several operators requested an extension of the 4,000 hour interval. Based on service experience, an expansion of the proposed inspection interval cannot be justified at this time.

One operator requested that terminating action be referenced in the AD. The AD may be amended to reflect terminating action when the proper terminating action is developed.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (31 FR 13697), § 39.13 of the Federal Aviation Regulations, Amendment 39–2538 AD 76–05–05 is amended as follows:

A. Delete paragraph "D" and add the following paragraph:

"D. Repeat the inspection required in paragraph A above at an interval not to exceed 4,000 flight hours or 15 months whichever comes first."

B. Add the following paragraph:

"E. Upon request of the operator, an FAA Maintenance Inspector, subject to prior approval of the Chief, Engineering and Manufacturing Branch, FAA Northwest Region, may adjust the repetitive inspection intervals specified in this AD to permit compliance at an established inspection period of the operator, if the request contains substantiating data to justify the adjustment period."

The manufacturer's specifications and procedures identified and described in this directive are incorporated herein and made a part hereof pursuant to 5 U.S.C. 552(a)(1).

All persons affected by this directive who have not already received these documents from the manufacturer, may obtain copies upon request to Boeing Commercial Airplane Company, P.O. Box 3707, Seattle, Washington 98124. The documents may also be examined at FAA Northwest Region, 9010 East Marginal Way South, Seattle, Washington.

This amendment becomes effective September 24, 1976.

(Secs. 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423) and of Section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)))

The incorporation by reference provisions in the document were approved by the Director of the Federal Register on June 19, 1967.

Issued in Seattle, Washington, August 11, 1976.

J. H. TANNER,
Acting Director, Northwest Region.

[FR Doc.76–25107 Filed 8–27–76;8:45 am]

V41I169 AUG 30 76 UMI

[Docket No. 15692; Amdt. 39-2710]

PART 39—AIRWORTHINESS DIRECTIVES

Societe Nationale Industrielle Aerospatiale (Formerly Sud Aviation) Alouette III Helicopter Models SE-3160, SA-316B, SA-316C and SA-319B

A proposal to amend Part 39 of the Federal Aviation Regulations to include an airworthiness directive requiring the incorporation of tail rotor control cables, fittings, and guides, of improved design and repetitive inspections of the new cables for proper tension and condition on certain Societe Nationale Industrielle Aerospatiale (SNIAS) Alouette III helicopters was published in the FEDERAL REGISTER on May 6, 1976 (41 FR 18681).

Interested persons have been afforded an opportunity to participate in the making of the amendment and no objections were received.

(Secs. 313(a), 601 and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423) and of sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)))

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator (14 CFR 11.89), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

SOCIETE NATIONALE INDUSTRIELLE AEROSPATIALE (formerly SUD AVIATION). Applies to Alouette III Models SE-3160, SA-316B, SA-316C, and SA-319B helicopters, Serial Nos. 2032 and below, certificated in all categories.

Compliance is required as indicated.

To prevent failure of tail rotor control cables and the consequent loss of directional control, accomplish the following:

(a) Within the next 300 hours time in service after the effective date of this AD, unless already accomplished, replace tail rotor control cables, fittings, and guides with improved cables, fittings, and guides in accordance with Alouette Service Bulletin No. 65.72, dated March 29, 1971, and Alouette Service Bulletin No. 65.93, dated November 14, 1972, or their equivalents approved by the Chief, Aircraft Certification Staff, c/o American Embassy, APO New York, N.Y. 09667.

(b) Within the next 100 hours time in service after the accomplishment of the modification specified in paragraph (a) of this AD, or within the next 100 hours after the effective date of this AD, whichever occurs later, and thereafter at intervals not to exceed 100 hours time in service from the last inspection, inspect the cables for the proper tension, for exposed or broken wire strands, and for tearing of the wirelon coating.

NOTE.—During the inspection required by paragraph (b) of this AD, particular attention should be directed to condition of cables in the areas of the fittings, pulleys, and cable guides.

(c) If an exposed wire strand or a broken wire strand is found in any cable or tearing of the wirelon coating of any cable is found as a result of any inspection required by paragraph (b) or (c) of this AD, before further flight, replace that cable with a serviceable cable of same part number and continue to inspect the cables in accordance with paragraph (b) of this AD at intervals not to exceed 100 hours time in service from the last inspection.

(d) If, as a result of any of the inspections required by this AD, improper tension is found in any cable, adjust that cable for proper tension and continue to inspect the cables in accordance with paragraph (b) of this AD at intervals not to exceed 100 hours time in service from the last inspection.

This amendment becomes effective on September 29, 1976.

Issued in Washington, D.C. on August 23, 1976.

J. A. FERRARESE,
Acting Director,
Flight Standards Service.

[FR Doc.76-25270 Filed 8-27-76;8:45 am]

[Docket No. 76-NE-25; Amdt. 39-2702]

PART 39—AIRWORTHINESS DIRECTIVES

General Electric Engine Models CT58-100-2, CT58-110-1, CT58-110-2, CT58-140-1 Series A&L, CT58-140-1, and CT58-140-2

A proposal to amend Part 39 of the Federal Aviation Regulations to include an airworthiness directive reducing the cyclic and hourly life limits of certain compressor rear shafts in CT58 engines used in external lift operations was published in 41 FR 27084.

Interested persons have been afforded an opportunity to participate in the making of the amendment. One operator, Evergreen Helicopters, Incorporated, registered its objections on the grounds that:

1. The load being external, rather than internal, has no effect on the operation of the engine, and
2. The record-keeping requirements are unduly burdensome.

FAA file documentation shows that the two occurrences of CT58 engine compressor rear shaft failure were associated with external lift operations. CT58 engines in nonexternal lift operations have performed satisfactorily. Analysis indicates that the flight profile of external lift operations, which includes many partial cycles, differs sufficiently from nonexternal lift operations to have a cumulative effect on the engines' total cycle count. In regard to record keeping, it is FAA's judgment that the associated inconvenience will be far outweighed by the continued airworthiness of the engines. Accordingly, adjustment of the life limits for external lift operations is required.

GENERAL ELECTRIC CO. Applies to all Genreal Electric Company Models CT58-100-2, CT58-110-1, CT58-110-2, CT58-140-1 Series A&L, CT58-140-1, and CT58-140-2 turboshaft engines incorporating compressor rear shafts, P/N 4000T29P01, P/N 4000T29P03, P/N 4010T54P01, P/N 5013T86P03, or P/N 573D384P003, and subject to external lift operation conditions which comprise more than five percent (5%) of the total time recorded on the shaft.

To ensure adequate life limit margin of compressor rear shafts listed above, the cyclic and hourly life limits for these shafts, when used in external lift operations, have been reduced below the figures currently approved. Remove from service the compressor rear shafts prior to exceeding the revised life limits listed below:

Previous Life Limit	*Revised Life Limit*
5,200 hours	3,000 hours.
9,600 cycles	5,500 cycles.

As of the effective date of this AD, shafts which are within 100 hours or 200 cycles of the revised limits, or exceed the revised limits, must be removed within 100 hours time in service or 200 cycles whichever occurs first.

NOTE 1.—Operational time in hours is defined as the time from liftoff to touchdown. A cycle is defined as any engine operating sequence involving engine start, at least one acceleration to a power required for takeoff and a shutdown. The controlling life limit is the limit that occurs first (cycles or hours).

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (31 FR 13697), § 39.13 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

NOTE 2.—General Electric Company Alert Service Bulletin No. (CT58) A72-146, titled "Compressor Section-Reduction of Service Life of Compressor Rear Shaft for External Lift Operators Only," pertains to this subject.

This amendment becomes effective September 7, 1976.

(Secs. 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423) and of Section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).)

Issued in Burlington, Massachusetts, on August 18, 1976.

QUENTIN S. TAYLOR,
Director, New England Region.

[FR Doc.76-25103 Filed 8-27-76;8:45 am]

[Airworthiness Docket No. 76-WE-16-AD; Amdt. 39-2704]

PART 39—AIRWORTHINESS DIRECTIVES

Lockheed L-1011-385 Series Airplanes

There have been three incidents involving service damage to electrical wiring which resulted in fires in L-1011-385 series airplanes. Two of these incidents are believed to have been caused by electrical ignition of titanium bleed air ducting from the No. 2 engine, in the fuselage afterbody, Fuselage Station 1965, Waterline 310, on lefthand side. The third incident is believed to have been caused by the electrical ignition of hydraulic fluid just aft of the fuselage station 1860 bulkhead, left lower side in the area of the horizontal stabilizer servo, adjacent to the APU bleed air duct.

Since these conditions are likely to exist or develop in other airplanes of the same type, an airworthiness directive is being issued to require on a one-time basis: (a) Inspection of the electrical wire bundles for integrity and proper clearance in the aft fuselage as described in Lockheed Alert Service Bulletin 093-24-A058; and (b) inspection of electrical wire bundle outboard of access door at Fuselage Station 1860 and Buttock Line

240, left side; and (c) inspection during or after pressurization of the left and right hand horizontal stabilizer servo units and related hydraulic systems in Lockheed L-1011-385 airplanes. Reports of the inspection results are requested from the operators.

Since a situation exists that requires immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (31 FR 13697), § 39.13 of Part 39 of the Federal Aviation Regulations, is amended by adding the following new airworthiness directive:

LOCKHEED-CALIFORNIA. Applies to Lockheed L-1011-385 Series airplanes certificated in all categories.

Compliance required as indicated, unless already accomplished.

To prevent fires which may be ignited by damaged electrical wires, accomplish the following:

(a) Within the next 300 hours time in service after the effective date of this AD.

(1) Inspect the No. 2 generator feeder cables located in the 1519938-103 ECS duct area on the left side of the No. 2 engine S-duct, between FS-1956 and FS-1975, at approximately WL-310, for a minimum clearance of one-half inch between the cables and the closest part of the ECS duct insulated cover in accordance with Lockheed Alert Service Bulletin 093-24-A058, dated June 3, 1976 or later FAA-approved revision.

(2) If the clearance is less than one-half inch, adjust to provide adequate clearance before further flight in accordance with Lockheed Service Bulletin 093-24-A058, dated June 3, 1976 or later FAA-approved revision.

(b) Within the next 300 hours time in service after the effective date of this AD.

(1) Inspect the electrical wire bundles just aft of the lower left hand side of FS-1860 bulkhead which are routed adjacent to the APU bleed air duct, for proper clamping and condition of insulation. If insulation damage is found, check closely for wire damage.

(2) If damage to insulation or wires is found, before further flight, repair in accordance with FAA-approved maintenance procedures.

(c) Within the next 300 hours time in service after the effective date of this AD.

(1) Inspect the left hand and right hand horizontal stabilizer servo units by applying 3,000 PSI hydraulic pressure to each hydraulic system and observing for signs of hydraulic fluid misting of spraying type of leakage, or examine left hand and right hand horizontal servo unit transfer tube areas for signs of external leakage immediately after hydraulic systems have been shut down.

(2) If hydraulic leaks are found, before further flight, repair in accordance with FAA-approved maintenance procedures.

(d) It is requested that a written report on the results of the inspections required by paragraphs (b) and (c), either positive or negative, be forwarded to:

Chief, Aircraft Engineering Division, Federal Aviation Administration, Western Region, P.O. Box 92007, World Way Postal Center, Los Angeles, CA 90009.

(Reporting approved by the Office of Management and Budget under OMB 04-RO174).

(e) Equivalent procedures may be approved by the Chief, Aircraft Engineering Division, FAA Western Region.

(f) Special flight permits may be issued per FAR's 21.197 and 21.199, to authorize flights to a base for accomplishment of the inspections required by this AD.

This amendment becomes effective September 2, 1976.

(Secs. 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423) and of Section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).)

Issued in Los Angeles, California on August 18, 1976.

ROBERT H. STANTON,
Director, FAA Western Region.

[FR Doc.76-25104 Filed 8-27-76;8:45 am]

[Airworthiness Docket No. 75-WE-25-AD; Amdt. 39-2703]

PART 39—AIRWORTHINESS DIRECTIVES

Lockheed L-1011-385 Series Airplanes Excluding L-1011-385-1-14 and L-1011-385-1-15

Amendment 39-2186 (40 FR 17833), AD 75-09-12, requires that the autopilot be disconnected during a go-around in L-1011-385 series airplanes. After issuing Amendment 39-2186, the agency has determined that corrective equipment design changes developed by the Lockheed-California Company will preclude recurrence of the type of malfunction which resulted in the issuance of AD 75-09-12.

Therefore, the AD is being amended to (1) revise the applicability statement and (2) to permit an operator of Model L-1011-385 series airplanes to eliminate the operating limitation by removing the cockpit placard which states: "Autopilot must be disconnected for go-around," after complying with Lockheed Service Bulletins No. 093-22-077, dated December 11, 1975, and No. 093-22-082, dated May 5, 1976, or later FAA-approved revisions.

Lockheed models L-1011-385-1-14 and L-1011-385-1-15 were not type certificated at the time Amendment 39-2186 was published; these models were subsequently type certificated with, as part of type design, a placard like the one specified in paragraph number 1 of Amendment 39-2186 and with a corresponding Airplane Flight Manual Limitation. For these two airplane models, a type design change has been approved to permit removal of the limitation and placard after accomplishment of the appropriate modifications. Therefore, this amendment specifically excludes these models.

Since this amendment relieves a restriction, and imposes no additional burden on any person, notice and public procedure hereon are unnecessary and the amendment may be made effective in less than 30 days.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (31 FR 13697), § 39.13 of Part 39 of the Federal Aviation Regulations, Amendment 39-2186 (40 FR 17833), AD 75-09-12 is amended as follows:

(a) Revise the applicability statement to read:

"*Lockheed-California.* Applies to Lockheed L-1011-385 series airplanes, except models L-1011-385-1-14 and L-1011-385-1-15, certificated in all categories with Collins FCS-110 autopilot installed".

(b) Add a new paragraph 3:

"3. The operating limitation specified in paragraph 2. no longer applies and the cockpit placard may be removed by accomplishment of the following:

i. Replacing the AFCS Trim Augmentation Computer, Lockheed P/N 672443-109 or -113 with 672443-115 computer, in accordance with Lockheed Service Bulletin 093-22-077, dated December 11, 1975, or later FAA-approved revisions; and

ii. Replacing both AFCS Pitch Computers, Lockheed P/N672314-177, -179, -181, -183 and -185 with 672314-157, -159, -161, -163 and -165 computers, respectively, in accordance with Lockheed Service Bulletin 093-22-082, dated May 5, 1976, or later FAA-approved revisions".

This amendment becomes effective September 2, 1976.

(Secs. 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423) and of Section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).)

Issued in Los Angeles, California on August 18, 1976.

ROBERT H. STANTON,
Director, FAA Western Region.

[FR Doc.76-25100 Filed 8-27-76;8:45 am]

[Airspace Docket No. 76-WE-20]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Designation of Transition Area

On July 19, 1976, a notice of proposed rule making was published in the FEDERAL REGISTER (41 FR 29715) stating that the Federal Aviation Administration was considering an amendment to Part 71 of the Federal Aviation Regulations that would designate a new transition area for Window Rock Airport, Window Rock, Arizona.

Interested persons were given 30 days in which to submit written comments, suggestions, or objections. No objections have been received and the proposed amendment is hereby adopted without change.

Effective date. This amendment shall be effective 0901 Gmt, November 4, 1976.

(Sec. 307(a) of the Federal Aviation Act of 1958, as amended, (49 U.S.C. 1348(a)), and of Sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).)

Issued in Los Angeles, California on August 19, 1976.

LYNN L. HINK,
Acting Director, Western Region.

V41169 AUG 30 76 UMI

In consideration of the foregoing, the FAA proposes the following airspace action.

In § 71.181 (41 FR 440) the following transition area is added:

WINDOW ROCK, ARIZONA

That airspace extending upward from 700 feet above the surface within a 5-mile radius of Window Rock Airport (latitude 35°39'29" N, longitude 109°03'28" W) and within 3 miles each side of the Gallup VORTAC 318° radial, extending from the 5-mile radius area to the Gallup VORTAC.

(Sec. 307(a) of the Federal Aviation Act of 1958, as amended (49 U.S.C. 1348(a)) and of sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).)

Issued in Los Angeles, California on July 6, 1976.

LYNN L. HINK,
Acting Director, Western Region.

[FR Doc.76-25102 Filed 8-27-76;8:45 am]

[Airspace Docket No. 76-NW-19]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Modification of Control Zone

On July 12, 1976, a notice of proposed rulemaking was published in the FEDERAL REGISTER (41 FR 28535) stating that the Federal Aviation Administration was considering an amendment to Part 71 of the Federal Aviation Regulations that would modify the description of the Port Angeles, Washington, Control Zone.

Interested persons were given 30 days in which to submit written data, views, or arguments. No objections were received.

In consideration of the foregoing, the amendment is hereby adopted without change.

Effective Date: This amendment shall be effective 0901 Gmt, November 4, 1976.

(Secs. 307(a) of the Federal Aviation Act of 1958, as amended (49 U.S.C. 1348(a)) and of Section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).)

Issued in Seattle, Washington, on August 18, 1976.

J. H. TANNER,
Acting Director, Northwest Region.

In § 71.171 (41 FR 418), amend the description of the Port Angeles control zone to read:

PORT ANGELES, WASHINGTON

Within a 5-mile radius of Williams R. Fairchild International Airport (Latitude 48°07'10" N, Longitude 123°29'44" W), including the airspace within 2 miles either side of the Port Angeles VOR 083° radial extending from the 5-mile radius zone to 4 miles east of the VOR. This control zone is effective during specific dates and times established in advance by a Notice to Airmen. Effective date and time will thereafter be continuously published in the Airman's Information Manual.

[FR Doc.76-25106 Filed 8-27-76;8:45 am]

[Airspace Docket No. 76-EA-58]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE AND REPORTING POINTS

Revocation of Transition Area

The Federal Aviation Administration is amending § 71.181 of Part 71 of the Federal Aviation Regulations so as to revoke the New Castle, Pa., Transition Area (41 FR 556).

The New Castle, Pennsylvania TVOR facility will be decommissioned on November 4, 1976. Two VOR instrument approach procedures to the New Castle Municipal Airport have been cancelled. Therefore, there is no longer a requirement for the 700-foot floor transition area.

Since the amendment relieves a restriction and imposes no additional burden on anyone, notice and public procedure hereon are unnecessary.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 Gmt, November 4, 1976.

1. Amend § 71.181 of Part 71, Federal Aviation Regulations, so as to revoke the New Castle, Pennsylvania, 700-foot floor transition area in its entirety.

(Sec. 307(a) of the Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348) and section 6(c) of the DOT Act (49 U.S.C. 1655(c)).)

Issued in Jamaica, N.Y., on August 10, 1976.

L. J. CARDINALI,
Acting Director, Eastern Region.

[FR Doc.76-25099 Filed 8-27-76;8:45 am]

[Docket No. 16031; Amdt. No. 1035]

PART 97—STANDARD INSTRUMENT APPROACH PROCEDURES

Recent Changes and Additions

This amendment to Part 97 of the Federal Aviation Regulations incorporates by reference therein changes and additions to the Standard Instrument Approach Procedures (SIAPs) that were recently adopted by the Administrator to promote safety at the airports concerned.

The complete SIAPs for the changes and additions covered by this amendment are described in FAA Forms 8260-3, 8260-4, or 8260-5 and made a part of the public rule making dockets of the FAA in accordance with the procedures set forth in Amendment No. 97-696 (35 FR 5609).

SIAPS are available for examination at the Rules Docket and at the National Flight Data Center, Federal Aviation Administration, 800 Independence Avenue, S.W., Washington, D.C. 20591. Copies of SIAPs adopted in a particular region are also available for examination at the headquarters of that region. Individual copies of SIAPs may be purchased from the FAA Public Information Center, AIS-230, 800 Independence Avenue, S.W., Washington, D.C. 20591 or from the applicable FAA regional office in accordance with the fee schedule prescribed in 49 CFR 7.85. This fee is payable in advance and may be paid by check, draft, or postal money order payable to the Treasurer of the United States. A weekly transmittal of all SIAP changes and additions may be obtained by subscription at an annual rate of $150.00 per annum from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Additional copies mailed to the same address may be ordered for $30.00 each.

Since a situation exists that requires immediate adoption of this amendment, I find that further notice and public procedure hereon is impracticable and good cause exists for making it effective in less than 30 days.

In consideration of the foregoing, Part 97 of the Federal Aviation Regulations is amended as follows, effective on the dates specified:

1. Section 97.23 is amended by originating, amending, or canceling the following VOR-VOR/DME SIAPs, effective October 7, 1976.

CHAPTER II—CIVIL AERONAUTICS BOARD

SUBCHAPTER B—PROCEDURAL REGULATIONS

[Reg. PR-155, Amdt. 28]

PART 302—RULES OF PRACTICE IN ECONOMIC PROCEEDINGS

Public Participation

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., August 24, 1976.

The Civil Aeronautics Board hereby amends its rules of practice, 14 CFR Part 302, to add a provision that the rule for intervention will be liberally construed to facilitate public participation.

Under existing practice, the criteria for determining the propriety of formal intervention in hearing cases, as set forth in Rule 15(b), have been liberally construed with respect to public-interest groups. However, in order to remove any doubt as to whether the Board intends for its intervention rule to be so applied, we have determined to amend the rule so as to provide explicitly that it is to be interpreted liberally to facilitate participation by any members of the public.

Because this amendment merely clarifies existing practice and is interpretative in nature, it is found for good cause that notice and public procedure thereon are unnecessary, and an immediate effective date is in the public interest.

In light of the foregoing, in 14 CFR Part 302, Rules of Practice in Economic Proceedings, the following sentence is added at the end of § 302.15(b), effective August 24, 1976:

§ 302.15 [Amended]

• • • • • •

(b) • • •

These criteria will be liberally interpreted to facilitate the effective partici-

V 41 169

Title 27—Alcohol, Tobacco Products and Firearms

CHAPTER I—BUREAU OF ALCOHOL, TOBACCO AND FIREARMS, DEPARTMENT OF THE TREASURY

[T.D. ATF-29; Reference No. 296]

PART 201—DISTILLED SPIRITS PLANTS

Corporate Officers and Directors

On May 6, 1976, there was published in the FEDERAL REGISTER (41 FR 18676) a notice of proposed rulemaking setting forth proposed amendments to 27 CFR 201.148 and 201.163b. The purpose of the proposals was to relax the provisions relating to submission of supporting information in connection with applications for registration of distilled spirits plants. Specifically, it was proposed to replace the requirement for submission of certified extracts or digests of corporate minutes, showing election of officers and directors, with a simplified requirement for the submission of a certified list of officers and directors. Interested parties were given the opportunity to submit, not later than June 7, 1976, data, views, and recommendations regarding the proposed amendments.

No unfavorable comments have been received, and the proposed amendments are hereby adopted without change and are set forth below.

Effective date: August 30, 1976.

The regulations are to be issued under the authority contained in 26 U.S.C. 7805 (68A Stat. 917).

Signed: August 12, 1976.

REX D. DAVIS,
Director.

Approved: August 19, 1976.

JAMES J. FEATHERSTONE,
Acting Assistant Secretary of the Treasury.

(1) The regulations in 27 CFR 201.148 are amended to replace the requirement for submission of certified extracts or digests of corporate minutes, showing election of officers and directors, with a requirement for the submission of a certified list of officers and directors, showing their names and addresses. Subsection (a) (4) is amended, subsections (a) (6) and (a) (8) are deleted, and the other subsections are re-numbered accordingly. As amended, the pertinent parts of § 201.148 read as follows:

§ 201.148 Organizational documents.

• • • • •

(a) *Corporate documents.*

• • • • •

(4) Certified list of directors and officers, showing their names and addresses.

(5) Certified true copy of bylaws.

(6) Certified extracts or digests of minutes of meetings of board of directors, authorizing certain individuals to sign for the corporation.

(7) Statement showing the number of shares of each class of stock or other evidence of ownership, authorized and outstanding, the par value thereof, and the voting rights of the respective owners or holders.

• • • • •

(2) Section 201.163b is amended to add a requirement that any application for amended registration on form 2607, filed because of a change in the officers, must be accompanied by a new certified list of such officers. Also, the term, "assistant regional director" is replaced by the term "regional director". As amended, § 201.163b reads as follows:

§ 201.163b Changes in officers.

Where there is any change in the list of officers furnished under the provisions of § 201.148(a)(4), the proprietor shall submit, within 10 days of any such change, an application on Form 2607 for

amended registration, supported by a new certified list of officers and a statement of the changes reflected in such list: *Provided*, That, where the operations of a distilled spirits plant are conducted pursuant to an operating permit, but not a basic permit, the regional director may extend to 30 days the time within which applications for amended registration to cover such changes in officers shall be filed. Where the proprietor has shown to the satisfaction of the regional director that certain corporate officers listed on the original application have no responsibilities in connection with the operations covered by the registration, the regional director may waive the requirements for submitting applications for amended registration to cover changes in such corporate officers.

[FR Doc.76-25355 Filed 8-27-76;8:45 am]

Title 38—Pensions, Bonuses, and Veterans' Relief

CHAPTER I—VETERANS ADMINISTRATION

PART 3—ADJUDICATION

Pension, Compensation, and Dependency and Indemnity Compensation; Effective Date of Awards

On page 27391 of the FEDERAL REGISTER of July 2, 1976, there was published a notice of proposed regulatory development to amend §§ 3.401 and 3.403 relating to effective dates of awards of benefits.

Interested persons were given 30 days in which to submit comments, suggestions, or objections regarding the proposed regulations.

No written comments have been received and the proposed regulations are hereby adopted without change and are set forth below.

NOTE.—It is hereby certified that the economic and inflationary impacts of this proposed regulation have been carefully evaluated in accordance with OMB Circular A-107.

(72 Stat. 1114; 38 U.S.C. 210.)

Effective date. These VA Regulations are effective August 24, 1976.

Approved: August 24, 1976.

By direction of the Administrator.

A. J. SCHULTZ,
Associate Deputy Administrator.

§ 3.401 Veterans.

Awards of pension or compensation payable to or for a veteran will be effective as follows:

• • • • • •

(d) *Institutional awards* (§ 3.852).

• • •

(2) *Director of a Veterans Administration hospital or domiciliary.* From day following date of last payment to veteran where veteran previously received payments. On initial or resumed payments from date of entitlement to benefits subject to any amounts payable to or withheld for apportionments for dependents.

• • • • •

(g) *Tuberculosis, special compensation for arrested.* As of the date the graduated evaluation of the disability or compensation for that degree of disablement combined with other service-connected disabilities would provide compensation payable at a rate less than $67. See § 3.350(g).

(h) *Temporary increase—"General Policy in Rating," 1945 Schedule for Rating Disabilities*—(1) *Section 4.29 of this chapter.* Date of entrance into hospital, after 21 days of continuous hospitalization for treatment.

(2) *Section 4.30 of this chapter.* Date of entrance into hospital, after discharge from hospitalization (regular or release to non-bed care).

2. In § 3.403, paragraph (b) is revised to read as follows:

§ 3.403 Children.

Awards of pension, compensation, or dependency and indemnity compensation to or for a child, or to or for a veteran or widow (widower) on behalf of such child, will be effective as follows:

• • • • • •

(b) *Majority* (§ 3.854). Direct payment to child if competent, from date of majority or, date of last payment, whichever is the earlier date.

• • • • • •

[FR Doc.76-25323 Filed 8-27-76;8:45 am]

Title 41—Public Contracts and Property Management

CHAPTER 4—DEPARTMENT OF AGRICULTURE

PART 4-1—GENERAL

Procurement; Miscellaneous Amendments

This amendment involves matters relating to agency management and contracting and, while not subject by law to the notice and public procedure requirements for rulemaking under 5 U.S.C. 553, is subject to the Secretary's Statement of Policy (36 FR 13804). The amendment corrects or clarifies existing policy. No useful purpose would be served by public participation, and it is found upon good cause, in accordance with the Secretary's Policy Statement, that notice and other public procedures with respect to the amendment are impracticable and unnecessary.

§ 4-1.453 [Amended]

1. Section 4-1.453 is amended by deleting paragraph (c) (3).

Effective date: August 30, 1976.

(5 U.S.C. 301, 40 U.S.C. 486(c))

Done at Washington, D.C., this 20th day of August 1976.

GEORGE C. KNAPP,
Acting Director, Office of Operations.

[FR Doc.76-25296 Filed 8-27-76;8:45 am]

Title 49—Transportation

CHAPTER V—NATIONAL HIGHWAY TRAFFIC SAFETY ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 69-29; Notice 5]

PART 571—FEDERAL MOTOR VEHICLE SAFETY STANDARDS

Windshield Mounting

This notice amends Motor Vehicle Safety Standard No. 212, 49 CFR 571.212, Windshield Mounting, to extend its applicability to multipurpose passenger vehicles, trucks, and buses having a gross vehicle weight rating (GVWR) of 10,000 pounds or less, except for forward control vehicles and open-body type vehicles with folding or removable windshields, and to coordinate its test procedures with those of Standard No. 208, 49 CFR 571.208, Occupant Crash Protection.

An advance notice of proposed rulemaking was published September 16, 1969 (34 FR 14438), followed by notices of proposed rulemaking published on August 23, 1972 (37 FR 16979) and January 18, 1974 (39 FR 2274). This notice is based on the latter notice of proposed rulemaking, and responds to the comments submitted thereto.

The final rule retains the proposed rule's extension to multipurpose passenger vehicles, trucks, and buses having a gross vehicle weight rating (GVWR) of 10,000 pounds or less. However, forward control vehicles and open-body vehicles with fold-down windshields are excluded from the application of the standard because of the impracticability of complying with the requirements.

Many manufacturers objected to the requirement in the proposal that the dummies used in the test vehicle not be restrained by active restraint systems. Upon impact in a crash test, unrestrained dummies tend to fly about the passenger compartment, damaging the dummies.

In 1972 the NHTSA proposed the amendment of Standard No. 212 (37 FR 16979) to specify a 75 percent retention requirement using restrained dummies. The purpose of the proposal was to eliminate optional retention requirements and to permit dynamic testing consistent wih other safety standards. In 1974 another approach was taken with the NHTSA proposing (39 FR 2274) a 50 percent retention requirement using unrestrained dummies, in anticipation of the passive restraint requirements that were to be included in Standard No. 208. Having the benefit of a large number of comments on both proposals, the NHTSA has determined that both are suitable, the 1972 approach for vehicles equipped with active restraints, where dummy damage would be great if the dummy were unrestrained, and the 1974 approach for vehicles equipped with passive restraints, since the dummy would not contact the windshield.

The frontal barrier crash test conditions specified in the final rule are substantially similar to those of Standard

V 41 169
AUG 30 76
UMI

No. 208, Occupant Crash Protection, Standard No. 219, Windshield Zone Intrusion, and Standard No. 301, Fuel System Integrity. This will allow compliance testing for these standards in one crash test under certain circumstances. In this way, much of the expense associated with crash testing can be reduced.

Most of the manufacturers who commented on the proposal objected to the requirement that the vehicle be tested at a temperature range of 15° F to 110° F. Some manufacturers objected that the higher temperatures would damage sensitive instrumentation. Others argued that the range should be coordinated with that of Standard No. 301 (49 CFR 571.301) or with ISO regulations. Some asserted that they would have to build expensive test facilities in order to conduct tests at the temperature extremes. The NHTSA has determined that testing over the specified range is necessary, in light of the fact that windshield moldings have significantly different retention capabilities at different temperatures. The NHTSA recognizes that certain additional expenses may be entailed in testing over the specified temperature range. However, the safety need to ensure adequate windshield retention justifies the additional expense.

Effective date: September 1, 1977.

(Sec. 103, 119, Pub. L. 89563, 80 Stat. 718 (15 U.S.C. 1392, 1407); delegation of authority at 49 CFR 1.50)

Issued on: August 23, 1976.

JOHN W. SNOW,
Administrator.

In consideration of the foregoing, Standard No. 212, 49 CFR 571.212, is revised to read as set forth below.

§ 571.212 Standard No. 212; Windshield mounting.

S1. *Scope.* This standard establishes windshield retention requirements for motor vehicles during crashes.

S2. *Purpose.* The purpose of this standard is to reduce crash injuries and fatalities by providing for retention of the vehicle windshield during a crash, thereby utilizing fully the penetration-resistance and injury-avoidance properties of the windshield glazing material and preventing the ejection of occupants from the vehicle.

S3. *Application.* This standard applies to passenger cars, and to multipurpose passenger vehicles, trucks, and buses having a gross vehicle weight rating of 10,000 pounds or less. However, this standard does not apply to open-body type vehicles with a folding or removable windshield, or to forward control vehicles.

S4. *Definition.* "Passive restraint system" means a system meeting the occupant crash protection requirements of S5 of Standard No. 208 by means that require no action by vehicle occupants.

S5. *Requirements.* When the vehicle traveling longitudinally forward at any speed up to and including 30 mph impacts a fixed collision barrier that is perpendicular to the line of travel of the vehicle, under the conditions of S6, the windshield mounting of the vehicle shall retain not less than the minimum portion of the windshield periphery specified in S5.1 and S5.2.

S5.1 *Vehicles equipped with passive restraints.* Vehicles equipped with passive restraint systems shall retain not less than 50 percent of the portion of the windshield periphery on each side of the vehicle longitudinal centerline.

S5.2 *Vehicles not equipped with passive restraints.* Vehicles not equipped with passive restraint systems shall retain not less than 75 percent of the windshield periphery.

S6. *Test conditions.* The requirements of S5 shall be met under the following conditions:

S6.1 The vehicle, including test devices and instrumentation, is loaded as follows:

(a) Except as specified in S6.2, a passenger car is loaded to its unloaded vehicle weight plus its cargo and luggage capacity weight, secured in the luggage area, plus a 50th-percentile test dummy as specified in Part 572 of this chapter at each front outboard designated seating position and at any other position whose protection system is required to be tested by a dummy under the provisions of Standard No. 208. Each dummy is restrained only by means that are installed for protection at its seating position.

(b) Except as specified in S6.2, a multipurpose passenger vehicle, truck, or bus is loaded to its unloaded vehicle weight, plus 300 pounds or its rated cargo and luggage capacity, whichever is less, secured to the vehicle, plus a 50th-percentile test dummy as specified in Part 572 of this chapter at each front outboard designated seating position and at any other position whose protection system is required to be tested by a dummy under the provisions of Standard No. 208. Each dummy is restrained only by means that are installed for protection at its seating position. The load is distributed so that the weight on each axle as measured at the tire-ground interface is in proportion to its GAWR. If the weight on any axle when the vehicle is loaded to its unloaded vehicle weight plus dummy weight exceeds the axle's proportional share of the test weight, the remaining weight is placed so that the weight on that axle remains the same. For the purposes of this section, unloaded vehicle weight does not include the weight of work-performing accessories.

S6.2 The fuel tank is filled to any level from 90 to 95 percent of capacity.

S6.3 The parking brake is disengaged and the transmission is in neutral.

S6.4 Tires are inflated to the vehicle manufacturer's specifications.

S6.5 The ambient temperature is any level between 15° F. and 110° F.

[FR Doc.76-25151 Filed 8-27-76;8:45 am]

[Docket No. 74-14; Notice 06]

PART 571—FEDERAL MOTOR VEHICLE SAFETY STANDARDS

Occupant Crash Protection

This notice amends Standard No. 208, Occupant Crash Protection, to continue until August 31, 1977, the present three options available for occupant crash protection in passenger cars.

This extension of the present occupant crash protection options of Standard No. 208 (49 CFR 571.208) was proposed July 19, 1976 (41 FR 29715), along with several other subjects that will be the subject of a future notice. Vehicle manufacturers supported the proposal but requested that the options be extended indefinitely instead of being limited to a 1-year extension. Mr. Benjamin Redmond advocated the use of an interlock system to increase usage of active belt systems. Ms. Lucie Kirylak expressed a preference for active occupant crash protection systems. The National Motor Vehicle Safety Advisory Council did not take a position on the proposal.

The Secretary of Transportation has initiated a process for the establishment of future occupant crash protection requirements under Standard No. 208 (41 FR 24070, June 14, 1976). The Secretary's proposal addresses the long term issues involved, and this 1-year extension of requirements is intended to provide the time necessary to reach that decision. Because a 1-year extension is consistent with the process that has been established and because a longer extension was not proposed for comment, the NHTSA declines to extend the existing requirements as recommended by the manufacturers.

Other matters proposed in the notice that underlies this action will be treated at a later date, following the receipt of comments that are due on October 20, 1976.

The NHTSA notes that no effective date was proposed for the other matters addressed by the proposal. Those matters involve modification of the existing passive protection options so that they conform to the proposal of the Department of Transportation, and to reduce somewhat the femur force requirement. Also, further specification of dummy positioning in the vehicle was addressed. The agency proposes an immediate effective date for these changes, because they represent relaxation of the requirements. However, the views of interested persons, particularly Volkswagen (which is certifying compliance under one passive option), are solicited by October 20, 1976.

In consideration of the foregoing, the heading and text of S4.1.2 of Standard No. 208 (49 CFR 571.208) are amended by changing the date "August 31, 1976" to "August 31, 1977" wherever it appears.

Effective date: August 26, 1976.

(Secs. 103, 119, Pub. L. 89-563, 80 Stat. 718 (15 U.S.C. 1392, 1407); delegation of authority at 49 CFR 1.50.)

Issued on August 26, 1976.

JOHN W. SNOW,
Administrator.

[FR Doc.76-25428 Filed 8-26-76;1:15 pm]

Title 50—Wildlife and Fisheries

CHAPTER I—UNITED STATES FISH AND WILDLIFE SERVICE, DEPARTMENT OF THE INTERIOR

PART 32—HUNTING

Opening of Ouray National Wildlife Refuge, Utah to Hunting of Migratory Game Birds

On July 7, 1976, there was published in the FEDERAL REGISTER 41 FR 27844 a notice of proposed ruelmaking adding Ouray National Wildlife Refuge, Utah to the list of refuge areas which are open for the hunting of migratory game birds. This list is published at 50 CFR 32.11. As a general rule, most areas within the National Wildlife Refuge System are closed to hunting until officially opened by regulation.

Pursuant to the authority of 16 U.S.C. 668dd(d), as redelegated to the Director of the United States Fish and Wildlife Service at DM 242.1.1, the Director has determined that the opening of Ouray National Wildlife Refuge to public hunting would not be contrary to the provisions of law applicable to the area, would be compatible with the principles of sound wildlife management, would be in the public interest and would not be detrimental to the objectives for which the area was established.

The public was provided a 30-day comment period and was advised that an environmental assessment had been prepared on the proposal and was available for public inspection.

Two comments were received on the proposed rulemaking. Both supported the proposal.

Based on the preceding and an evaluation of the environmental assessment, it has been determined that the hunting of migratory game birds on the Ouray National Wildlife Refuge, Utah is not a major Federal action which would significantly affect the quality of the human environment within the meaning of section 102(2)(C) of the National Environmental Policy Act of 1969 (42 U.S.C. 4332(2)(c)). The preparation of an environmental impact statement on the proposed actions is, therefore, not required.

Accordingly, the proposed rulemaking is hereby adopted without change and § 32.11 is amended as set forth below:

§ 32.11 List of open areas; migratory game birds.

UTAH

OURAY NATIONAL WILDLIFE REFUGE

Effective date: August 30, 1976.

LYNN A. GREENWALT,
Director, Fish and Wildlife Service.

AUGUST 25, 1976.

[FR Doc.76-25324 Filed 8-27-76;8:45 am]

PART 32—HUNTING

Sand Lake National Wildlife Refuge, South Dakota

The following special regulation is issued and is effective on August 30, 1976.

§ 32.32 Special regulations; big game; for individual wildlife refuge areas.

SOUTH DAKOTA

SAND LAKE NATIONAL WILDLIFE REFUGE

Public hunting of big game on the Sand Lake National Wildlife Refuge, South Dakota, is permitted only on the area designated by signs as open to hunting. This open area, comprising 20,000 acres, is delineated on a map available at the Refuge Headquarters and from the Area Manager, U.S. Fish and Wildlife Service, P.O. Box 250, Pierre, South Dakota 57501. Hunting shall be in accordance with all applicable state regulations covering the hunting of deer, subject to the following conditions:

(1) Archery season—November 1 to November 19, 1976 and December 13 to December 31, 1976, all dates inclusive.

(2) Firearms season—Muzzle Loaders; November 20 to November 26, 1976 and rifle; November 27 to November 30, 1976, December 1 to December 5, 1976 and December 6 to December 12, 1976, all dates inclusive.

(3) All hunters must exhibit their hunting license, deer tag and vehicle contents to Federal and State officers upon request.

(4) Hunters will not be allowed to drive on refuge maintained trails but may park their vehicles outside the refuge and hunt on foot.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally, which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through December 31, 1976.

WILLIAM C. BAIR,
Refuge Manager, Sand Lake National Wildlife Refuge.

AUGUST 19, 1976.

[FR Doc.76-25351 Filed 8-27-76;8:45 am]

PART 32—HUNTING

Sand Lake National Wildlife Refuge, South Dakota

The following special regulation is issued and is effective on August 30, 1976.

§ 32.12 Special regulations; migratory game birds; for individual wildlife refuge areas.

SOUTH DAKOTA

SAND LAKE NATIONAL WILDLIFE REFUGE

Public hunting of waterfowl on the Sand Lake National Wildlife Refuge is permitted only on the areas designated by signs as open to hunting. These open areas, totalling 275 acres, are designated on a map available from the refuge headquarters and from the Area Manager, U.S. Fish and Wildlife Service, P.O. Box 250, Pierre, South Dakota 57501.

Hunting shall be in accordance with all applicable State regulations concerning the hunting of waterfowl subject to the following conditions:

(1) The open season for hunting snow geese on the refuge is from October 2, 1976 through December 26, 1976 inclusive. The open season for hunting Canada and white front geese on the refuge is from October 2, 1976 through November 28, 1976, inclusive. The open season for hunting ducks and coots on the refuge is from October 2, 1976 through November 30, 1976, inclusive.

(2) Hunting will be from established blind sites only, without cost, with each site restricted to not exceed two hunters, and on a first-come, first-served basis. Blind sites and their use are more specifically described on a map and a list of regulations available at Refuge Headquarters and each of the hunting sites.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through December 26, 1976.

WILLIAM C. BAIR,
Refuge Manager, Sand Lake National Wildlife Refuge.

AUGUST 19, 1976.

[FR Doc.76-25352 Filed 8-27-76;8:45 am]

PART 32—HUNTING

Sand Lake National Wildlife Refuge, South Dakota

The following special regulation is issued and is effective on August 30, 1976.

V 41 169 AUG 30 76 UMI

§ 32.22 Special regulations; upland game, for individual wildlife refuge areas.

SOUTH DAKOTA

SAND LAKE NATIONAL WILDLIFE REFUGE

Public hunting of pheasants on the Sand Lake National Wildlife Refuge, South Dakota, is permitted only on the area designated by signs as open to hunting. This open area, comprising 20,000 acres, is delineated on a map available at the Refuge Headquarters and from the Area Manager, U.S. Fish and Wildlife Service, P.O. Box 250, Pierre, South Dakota 57501. Hunting shall be in accordance with all applicable state regulations covering the hunting of pheasants subject to the following conditions:

(1) The open season for hunting pheasants on the refuge is from December 13, 1976, through December 31, 1976, both dates inclusive.

(2) Hunters will not be allowed to drive on refuge maintained trails, but may park their vehicles outside the refuge and hunt on foot.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through December 31, 1976.

WILLIAM C. BAIR,
Refuge Manager, Sand Lake National Wildlife Refuge.

AUGUST 19, 1976.

[FR Doc.76-25353 Filed 8-27-76;8:45 am]

PART 33—SPORT FISHING

The following special regulation is issued and is effective on August 30, 1976.

§ 33.5 Special regulations; sport fishing, for individual wildlife refuge areas.

SOUTH DAKOTA

SAND LAKE NATIONAL WILDLIFE REFUGE

Sport fishing on the Sand Lake National Wildlife Refuge, South Dakota is permitted only on the areas designated by signs as open to fishing. These open areas, comprising 150 acres, are delineated on a map available at the refuge headquarters and from the office of the Area Manager, U.S. Fish and Wildlife Service, P.O. Box 250, Pierre, South Dakota 57501. Sport fishing shall be in accordance with all applicable State regulations subject to the following conditions:

(1) The open season for sport fishing on the refuge extends from January 1 through December 31, 1977, inclusive.

(2) The use of boats is not permitted.

The provisions of this special regulation supplement the regulations which govern fishing on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 33, and are effective through December 31, 1977.

WILLIAM C. BAIR,
Refuge Manager, Sand Lake National Wildlife Refuge.

AUGUST 19, 1976.

CHAPTER II—NATIONAL MARINE FISHERIES SERVICE, NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION, DEPARTMENT OF COMMERCE

PART 216—REGULATIONS GOVERNING THE TAKING AND IMPORTING OF MARINE MAMMALS

Cape Fur Seal Management; Waiver of the Moratorium

On February 19, 1976, the Director, National Marine Fisheries Service (hereinafter the "Director") published: (1) A decision to waive the moratorium imposed by the Marine Mammal Protection Act of 1972, 16 U.S.C. 1361 et seq., to allow the importation of up to 19,180 skins of Cape fur seals harvested from each annual harvest commencing with the 1975 harvest within the Republic of South Africa, and (2) regulations to govern the waiver (41 FR 7510–7512 and 7537–7540).

The waiver provides for a monitoring mechanism, an annual review of the South African management program and a number of activities conducted thereunder.

On July 23, 1976, the Director published notice in the FEDERAL REGISTER (41 FR 30337) that he had received information from the Government of the Republic of South Africa pertaining to the annual review and invited the public to review and to comment on it. A copy of this information was forwarded to the Marine Mammal Commission for its review and comment.

The notice also indicated that the Director had received a petition from the Fouke Company, Greenville, South Carolina, which requested that the waiver of the moratorium be amended to allow an annual harvest level of 76,965 Cape fur seals rather than the 70,000 animal level currently provided in the waiver. Because an assessment of the Fouke Company's petition and materials submitted in support thereof required a review of scientific information which, in substantial part, would be the subject of the annual review, the Director indicated that consideration of the petition would occur in conjunction with the annual review. The public was invited to review and comment on the petition and supporting materials which included the Marine Mammal Commission's comments on the petition. Public comments received by August 11 on both the materials submitted for the annual review and the petition would be considered.

Public comments were received from the following: Lawyers' Committee for Civil Rights under Law on behalf of various Congressmen and others; Center for Law and Social Policy on behalf of Monitor, Inc.; the Society for Animal Rights, Inc.; and, the Committee for Humane Legislation, Inc. For various reasons all groups commenting on the Fouke Company's petition to amend the waiver recommended that either it be denied or, if there was a decision to proceed, any proposed amendments be the subject of a formal rule-making procedure. The Marine Mammal Commission opposed the Fouke Company's petition to amend the waiver retroactively so as to allow importation of skins from seals harvested in 1975.

None of the public comments directly addressed the information provided pertaining to the annual review. A number of groups reasserted their objection, raised at the public hearings held in September 1975 in connection with the initial waiver proposal, that no skins of Cape fur seals should be imported.

Having considered the petition of the Fouke Company and materials submitted in connection therewith, the information submitted by the Government of the Republic of South Africa pertaining to the Director's annual review, the comments received from the public, the comments received from the Marine Mammal Commission, and the record pertaining to the decision to waive the moratorium, the Director has (a) denied the petition and, therefore, will not propose rulemaking to implement the amendments requested by the Fouke Company in its petition; and (b) determined that conditions which gave rise to the Director's decision to waive the moratorium on the importation of skins of Cape fur seals continue to exist and, therefore, there is no reason to consider amending or revoking the waiver.

The decision on the petition is based primarily on the following:

Evidence of the increased Cape fur seal pup population (from 211,300 pups to 219,000 pups) submitted by the Fouke Company cannot be considered sufficient to support a conclusion that the pup population has increased. The evidence indicates an increase in pup population of 4 percent. However, because of the sampling methods used to determine the pup count, experience indicates that there may be as much as a 10 percent variance in the pup count from year to year. Taking this into consideration, one must, on the basis of a scientific approach, conclude that the pup population figures are in essence the same.

In summary, the information provided by South Africa for the annual review established that the scope of the South African inspection program pertaining to the humaneness of harvests has been expanded to include all rookeries, that additional tagging and aerial survey programs have been developed and that, in general, additional means to continue to implement a sound scientific management program consistent with the Marine Mammal Protection Act of 1972, as amended, have been provided.

The level of harvest in 1975 was 74,945 Cape fur seals. This exceeded the level of 70,000 animals established by the waiver. Consequently, no one can qualify for an application to import skins from Cape fur seals harvested in 1975.

The excess harvest (4,945 animals) is not considered adversely significant from a scientific point of view so as to constitute evidence of inadequate management practices. There is no evidence that the seal populations will be adversely affected by this one incident of an excess harvest; nor can the excess harvest be viewed as evidence of a disregard for appropriate harvest levels in view of the fact that the Director's decision on the harvest level was made after the harvest was complete.

The Director's decision is available for review at the Office of the Director, National Marine Fisheries Service, National Oceanic and Atmospheric Administration, 3300 Whitehaven Street, NW, Washington, D.C.

JACK W. GEHRINGER,
Deputy Director, National Marine Fisheries Service.

AUGUST 25, 1976.

Title 19—Customs Duties

CHAPTER I—UNITED STATES CUSTOMS SERVICE, DEPARTMENT OF THE TREASURY

[T.D. 76-241]

PART 6—AIR COMMERCE REGULATIONS

Alternative Procedure for Filing Shipper's Export Declaration

Section 6.8(a) of the Customs Regulations (19 CFR 6.8(a)) presently provides for the filing with Customs of certain specified documents including individual shipper's export declarations on Department of Commerce Form 7525–V at the time of departure of an aircraft from any area from which clearance is required. Regulations of the Bureau of the Census and of the Office of Export Administration now provide an alternative procedure whereby certain qualified exporters may be exempt from filing individual shipper's export declarations if they have obtained approval to file summary monthly reports instead on a Shipper's Summary Export Declaration (Commerce Form 7525–M). In order to conform the Customs Regulations to the regulations of the Bureau of the Census and the Office of Export Administration, it is necessary to amend § 6.8(a) of the Customs Regulations to provide for this alternative procedure.

Accordingly, § 6.8(a) of the Customs Regulations (19 CFR 6.8(a)) is amended as follows:

§ 6.8 Documents for clearance, or for certain departures.

(a) At the time of departure of any aircraft from any area from which clearance is required by § 6.3 or § 6.5, the aircraft commander or an authorized person shall deliver to the Customs officer in charge an outward general declaration, a cargo manifest and any required shipper's export declarations for all cargo on the aircraft (also for the aircraft itself if it is being exported from the United States for foreign account). If required, any shipper's export declarations and cargo manifest may be filed pro forma if the aircraft is departing from the United States and prior to departure a proper bond is given, in which case completed shipper's export declarations and the completed cargo manifest are to be delivered pursuant to the bond not later than the fourth day after departure: *Provided*, That, during any period covered by a proclamation of the President that a state of war exists between foreign nations, no aircraft shall be cleared for a foreign destination until the completed cargo manifest and all required shipper's export declarations shall have been filed with the Customs officer in charge: *And provided further*, That no aircraft shall be cleared until the completed cargo manifest and all required shipper's export declarations have been filed with the Customs officer in charge if the aircraft is departing on a flight from the United States directly or indirectly to a country or other destination in country groups designated W, Y, or Z of the Export Regulations (15 CFR Part 370, Supplement No. 1). At the time of departure of an aircraft not required to clear which is transporting merchandise from one to another area or from an area to possessions of the United States, the documents prescribed in the regulations of the Bureau of the Census (15 CFR Part 30) must be filed before departure or a bond to produce the required documents timely and pro forma documents, when required by the district director, as prescribed in 15 CFR 30.24 must be filed. Clearance of the aircraft on such a flight is not required unless foreign residue cargo is being carried (see § 6.9), or unless the aircraft is of foreign registry and is not departing under the procedure provided for in § 6.2 (d) or unless the aircraft is to proceed to a foreign destination thereafter.

* * * * * *

(R.S. 251, as amended, secs. 624, 644, 46 Stat. 759, 761, as amended, sec. 1109, 72 Stat. 799, as amended (19 U.S.C. 66, 1624, 1644, 49 U.S.C. 1509).)

Inasmuch as this amendment merely conforms the Customs Regulations to pre-existing regulations of the Bureau of the Census and of the Office of the Export Administration, notice and public procedure thereon is found to be unnecessary, and good cause exists for dispensing with a delayed effective date under the provisions of 5 U.S.C. 553.

Effective date. This amendment will become effective on August 30, 1976.

VERNON D. ACREE,
Commissioner of Customs.

Approved: August 20, 1976.

JAMES J. FEATHERSTONE,
Acting Assistant Secretary of the Treasury.

[T.D. 76-240]

PART 153—ANTIDUMPING

Acrylic Sheet From Japan

The Secretary of the Treasury makes public a finding of dumping with respect to acrylic sheet from Japan. Section 153.46, Customs Regulations, amended.

Section 201(a) of the Antidumping Act, 1921, as amended (19 U.S.C. 160(a)), gives the Secretary of the Treasury responsibility for determination of sales at less than fair value. Pursuant to this authority the Secretary of the Treasury has determined that acrylic sheet from Japan, other than that produced and sold by Mitsubishi Rayon Company, Ltd., is being, or is likely to be, sold at less than fair value within the meaning of section 201(a) of the Antidumping Act, 1921, as amended (19 U.S.C. 160(a)). (Published in the FEDERAL REGISTER of April 29, 1976 (41 FR 17948)).

Section 201(a) of the Antidumping Act, 1921, as amended (19 U.S.C. 160(a)), gives the United States International Trade Commission responsibility for determination of injury or likelihood of injury. The United States International Trade Commission has determined, and on July 26, 1976, it notified the Secretary of the Treasury that an industry in the United States is being injured by reason of the importation of acrylic sheet from Japan, other than that produced and sold by Mitsubishi Rayon Company, Ltd., that is being, or is likely to be, sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended. (Published in the FEDERAL REGISTER of August 2, 1976 (41 FR 32294)).

On behalf of the Secretary of the Treasury, I hereby make public these determinations, which constitute a finding of dumping with respect to acrylic sheet from Japan, other than that produced and sold by Mitsubishi Rayon Company, Ltd.

Section 153.46 of the Customs Regulations is amended by adding the following to the list of findings of dumping currently in effect:

§ 153.46 [Amended]

Merchandise	Country	T.D.
Acrylic sheet, other than that produced and sold by Mitsubishi Rayon Company, Ltd	Japan	76-240

(Secs. 201, 407, 42 Stat. 11, as amended, 16; 19 U.S.C. 160, 173.)

PETER O. SUCHMAN,
Acting Assistant Secretary of the Treasury.

AUGUST 20, 1976.

V 41 169 AUG 30 76 UMI

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF THE TREASURY

Bureau of Alcohol, Tobacco and Firearms

[27 CFR Part 4]

[Notice No. 301]

IMPORTED WINE

Certificates of Origin, Identity, and Analysis

The Director of the Bureau of Alcohol, Tobacco and Firearms, with the approval of the Secretary of the Treasury, is considering rulemaking with respect to 27 CFR Part 4, Labeling and Advertising of Wine Regulations, to require, as a condition for release of imported wine from customs custody for consumption, a full and accurate certificate of origin, identity, and analysis. At the option of the producer, in lieu of the filing of a certificate as stated above, ATF may be invited to inspect the producers records and operations for compliance.

The Bureau of Alcohol, Tobacco and Firearms has significant responsibilities, imposed by the Federal Alcohol Administration Act, to prevent consumer deception. Recently we have become aware of the need for further protection with respect to the contents of wines bottled abroad. The existing Bureau regulations under the Federal Alcohol Administration Act (27 CFR Part 4, Labeling and Advertising of Wine) do not appear to provide adequate protection to the consumer against mislabeling of imported wine, particularly as to the origin and contents.

In order to assure compliance with its responsibilities for insuring the accuracy of labeled information on domestically produced wine, ATF inspects domestic wine producers' facilities, books and records. However, as to imported wines, 27 CFR 4.45 presently requires a certificate of origin and identity issued by a duly authorized official of the appropriate foreign government regulating the production of such wine for home consumption, only if the issuance of such certificates has been authorized by that government.

The proposed amended certificate of origin, identity, and analysis would place domestic and imported wine on an equal footing. The certificate would apply to foreign producers regardless of whether their governments had authorized such certificates, and would be in lieu of ATF inspection of their facilities, books and records. This information would be required for importations of wine in lots of more than five cases, intended for consumption in the United States. The foreign producer would be relieved of this requirement if he invited ATF to inspect his facilities, books and records. Effective governmental control of wine labeling practices, in the United States or abroad, depends upon on-site inspections, certifying that U.S. statutory requirements concerning packaging, marking, branding, and labeling have been complied with, that the wine contains no substances deemed injurious to the health by the Food and Drug Administration, and that enological practices prohibited in the U.S. were not used in the production of the wine. The latter requirement, however, will be flexible enough to allow, by waiver, for enological practices traditionally used by foreign countries to continue to be used upon a showing that such use presents no health implications.

The proposed certificate of origin, identity and analysis would require that: (1) Wine labeled with a grape type designation was produced from at least 51 percent of the particular variety of grape indicated by such designation, and that the predominant taste, aroma, and other characteristics were derived from such grapes; (2) in the case of nonvintage wine labeled with an appellation or origin, that such wine was produced from grapes at least 75 percent of which were grown in the appellation area; and (3) in the case of vintage wine labeled with a viticultural area, that such wine was produced from grapes at least 95 percent of which were grown in that viticultural area during that vintage year.

Furthermore, the certificate would list all flavors (including nature-identical flavors), colors, and processing aids used in the production of wine, and, where considered necessary to enforce the provisions of the F.A.A. Act, would information as to the analysis of the following constituents: (1) Residual sugar; (2) alcohol content; (3) total solids; (4) total carbon dioxide; (5) volatile acid; (6) total sulfur dioxide; (7) extract; (8) fixed acid.

Persons who wish to participate in the rulemaking process are invited to submit written comments or suggestions on the proposed regulatory change. The written material should be submitted, in duplicate, to the Director, Bureau of Alcohol, Tobacco and Firearms, Washington, D.C. 20226 (Attn: Chief, Regulations and Procedures Division) by October 29, 1976. The provisions of 27 CFR 71.31(b) shall apply with respect to the designation of portions of comments as exempt from disclosure. Written comments which are not exempt from disclosure, may be inspected by any person upon compliance with 27 CFR 71.22. Any interested person submitting comments or suggestions who desires an opportunity to comment orally at a public hearing on these proposed regulations should submit his/her request, in writing, to the Director by October 29, 1976.

The proposed regulations are to be issued under the authority contained in section 27 U.S.C. 205 (49 Stat. 981, as amended).

In consideration of the foregoing, it is proposed that 27 CFR 4.45, Certificates of origin and identity, be amended to read as follows:

§ 4.45 Certificates of origin, identity and analysis.

(a) *Origin.* Imported wine in lots of more than five cases shall not be released from customs custody unless the invoice is accompanied by a certificate of origin, identity and analysis certified by a duly authorized official (subject to ATF concurrence) of the appropriate foreign governmental agency vested with the authority to perform on-site inspections. The certificate shall state that: (1) The wine has been produced in compliance with the laws and regulations of the appropriate foreign government regulating the production of wine for home consumption, has been packaged, marked, branded and labeled in compliance with the Federal Alcohol Administration Act and regulations promulgated thereunder, and has not been subjected to enological practices which are prohibited by U.S. regulations; (2) the wine contains no substance which the Food and Drug Administration has determined to be injurious to health; (3) wine labeled with a grape type designation was produced from at least 51 percent of the particular variety of grape indicated by such designation, and that the predominant taste, aroma, and other characteristics were derived from such grapes; (4) nonvintage wine labeled with an appellation of origin was produced from grapes at least 75 percent of which were grown in the appellation area; and (5) vintage wine labeled with a viticultural area was produced from grapes at least 95 percent of which were grown in that viticultural area during that vintage year.

(b) *Identity.* The certificate shall also list, by their common and usual names, all flavors, colors, and processing aids used in the production of wine. Synthetic or artificial colors and flavors shall be listed as such, even if nature-identical.

(c) *Analysis.* Where it is considered necessary for the enforcement of provisions of the F.A.A. Act, a certificate of analysis containing the following information may be required: (1) Residual sugar expressed as mg./100 ml; (2) Alcohol content expressed as percent by volume, (7 percent minimum and 24 percent maximum); (3) Total solids—expressed as grams per 100 cubic centimeters, (22 gr./100cc. maximum); (4) Total carbon dioxide—expressed as grams carbon dioxide per 100 milliliters, (.393 gr. C02/100 ml. maximum for still wine); (5) Volatile acid—expressed as grams of volatile acid per 100 cubic centimeters calculated as acetic and exclusive of sulfur dioxide, (0.14 percent maximum for all wines); (6) Total sulfur dioxide—expressed as parts per million, (350 ppm. maximum for all wines); (7) Extract—expressed as grams per 100 milliliters (1.7 gr./100 ml. minimum for white wine and 1.8 gr./100 ml. for red wine); (8) Fixed acid—expressed as grams per 100 milliliters. (Total acid less volatile acid and calculated as tartaric, eight parts per thousand maximum calculated as tartaric if the wine acid has been corrected and five parts per thousand minimum if the wine has been ameliorated).

(d) *Exception.* (1) Imported wine in lots of more than five cases may be released from Customs custody without the certificate required by this section if accompanied by a statement signed by a person who has authority to authorize ATF officers the right of entry to the premises of the producing or bottling winery, as the case may be, and the right to examine the records thereof for the purpose of ensuring that such wine meets the origin and identity requirements of this section; (2) In lieu of an individual statement accompanying or being filed to cover each lot of wine, a continuing statement if authorization may be filed with ATF; (3) Upon petition of the appropriate foreign government, a waiver may be given by ATF to allow the use of enological practices prohibited in this country: *Provided,* That such practices are traditionally used in that country and present no health implications.

Signed: August 13, 1976.

REX D. DAVIS,
Director.

Approved: August 23, 1976.

DAVID R. MACDONALD,
Assistant Secretary of the Treasury.

[FR Doc.76-25358 Filed 8-27-76;8:45 am]

[27 CFR Parts 170, 173, 194, 201, 250, 251, and 252]

[Notice No. 302]

IMPLEMENTATION OF METRIC STANDARDS OF FILL FOR DISTILLED SPIRITS

Proposed Rulemaking

The Bureau of Alcohol, Tobacco and Firearms proposes to revise Parts 170, 173, 194, 201, 250, 251, and 252 to implement the recent adoption of metric standards of fill for distilled spirits.

BACKGROUND

On March 10, 1976, ATF published Treasury Decision ATF-25 in the FEDERAL REGISTER (41 FR 10217). That Treasury decision established metric standards of fill for distilled spirits which will eventually replace the current standards expressed in U.S. measure. Under the provisions of T.D. ATF-25, a bottler may optionally use the six new metric sizes during a transition period beginning on October 1, 1976. After December 31, 1979, which is the date the transition period ends, the metric standards of fill become mandatory, and bottlers will be prohibited from filling distilled spirits bottles according to non-metric standards.

Current ATF regulations require bottlers, liquor dealers, importers, and exporters to record and report transactions involving bottled distilled spirits in proof gallons, wine gallons, or the number of bottles or cases. With the adoption of metric standards of fill, a number of conforming changes are necessary to ATF regulations relating to recordkeeping requirements.

In addition to recordkeeping revisions, ATF regulations need to be amended in the following areas: (1) Case markings—to prescribe new marking requirements on cases of metric size bottles; (2) strip stamps—to require that standard size strip stamps be affixed on metric size bottles of 200 ml capacity or more; (3) liquor bottles—to replace the ½ pint size with the 200 ml standard as the maximum or minimum volume in the applicable sections of regulations; (4) conversion factor—to prescribe the method for converting liters to wine gallons; and (5) other areas—to show the metric equivalent of quantities stated in U.S. measurement, to update obsolete terminology, to add a definition of "liter", and to correct or revise references and statutory citations.

PROPOSALS

ATF proposes to implement the adoption of metric standards of fill for distilled spirits by amending its regulations as follows:

1. *Recordkeeping.* The recordkeeping changes proposed in this notice will, generally speaking, continue to call for amounts in proof gallons where current regulations now call for these amounts and, again generally speaking, will give proprietors the option of recording either wine gallon or liter amounts where current regulations now call for wine gallons.

Since current tax determination and payment procedures are based on proof gallon units, many of the present ATF required records, forms, reports and returns covering bottled goods prescribe reporting in proof gallons. Proposed regulations call for no changes in this area, and any metric units will have to be converted to wine gallons and then to proof gallons for the purpose of preparing such records, reports, etc.

Regulations which currently prescribe quantities to be recorded in wine gallons are being revised to allow proprietors to show these amounts in either wine gallons or in liters, to accommodate metrication. This flexibility is carried over to commercial records which may be maintained by proprietors in either unit of measure. It is our intent to permit enough flexibility in the proposed revisions to allow a proprietor to maintain his records in whichever unit (gallons or liters or a combination thereof) best suits his individual records system. It must be remembered, however, that these commercial record systems must be designed to facilitate conversion to proof gallons if and when required. A bottler, for example, would be given the option of maintaining his commercial records relating to his controlled stock inventory either in proof gallons or a combination of proof gallons and liters and proof. Since this is one of the most critical matters in these proposed revisions we particularly invite comments on and suggestions for improvement in this area. Please bear in mind, however, that any final regulation which ATF adopts must be versatile enough to apply to the entire industry—it cannot be tailored to suit the needs of an individual or a few proprietors.

[§§ *170.60, 170.61, 194.221, 201.618, 201.625, 201.626, and 252.250 are amended.*]

2. *Conversion factor.* As the transition to metric standards of fill takes place, it will become necessary for proprietors to convert from metric to U.S. measurements. Where a proprietor chooses to record metric sizes in U.S. measure, the liter quantities will have to be converted to wine gallons. Whenever quantities of distilled spirits in metric size bottles are required (by law, forms or regulations) to be shown in wine gallons or proof gallons, the quantity in liters will again have to be converted to wine gallons. For these reasons, and to achieve uniformity and accuracy in all conversions, ATF is proposing to add conversion factor sections in Parts 170, 194 and 201. These new sections will require that the quantity in liters be multiplied by 0.264172 to determine the equivalent volume in wine gallons whenever a conversion is required by regulations or optionally chosen by the proprietor. The resulting wine gallon figure is to be rounded to the nearest one-hundredth.

[§§ *170.64, 194.232 and 201.611a added.*]

3. *Strip stamps.* Red, green and blue strip stamps are currently printed in two sizes: the standard size strip stamp and the small, "less than ½-pint" size strip stamp. Since metric standards of fill will soon be in effect, ATF is removing the "less than ½-pint" designation from small strip stamps. After September 30, 1976, bottlers will be required to affix the new small strip stamp to the 50 ml size bottle and to all sizes less than ½-pint which are stated in U.S. measure. ATF proposes to revise the affected regulatory sections by eliminating references to "less than ½-pint" strip stamps and by requiring that small size strip stamps be affixed to sizes of less than 200 ml capacity.

[§§ *201.542, 250.137, 250.143, 250.146, 250.232, and 251.63 amended.*]

4. *Strip stamp records and reports.* ATF proposes to amend its regulations

V 41 1169 AUG 30 76 UMI

by requiring that the usage of strip stamps on metric size bottles be recorded separately from U.S. sizes. The proposed regulations specifically will require that all stamps used on bottles filled in accordance with the metric standards of fill prescribed by § 5.47a(a), must be recorded separately for each bottle size. Similarly, stamps used on bottles filled in accordance with the existing U.S. standards of fill prescribed by § 5.47(a), must continue to be recorded separately for each bottle size. The regulations will, however, continue to allow U.S. sizes of less than ½ point capacity to be recorded as one item.

[§§ *201.624, 250.270, and 251.130 amended.*]

ATF does not intend to revise those sections which prescribe regulations for strip stamp reports. The revised reporting format, which will require separate reporting of all metric sizes, will be accomplished by revising the quarterly strip stamp reports and by adding appropriate instructions to those forms. Proprietors, however, are advised that although these revised strip stamp reports will not have to be submitted until January, 1977, their strip stamp records covering the quarter beginning on October 1, 1976, will have to be kept in a manner which will enable them to prepare the new report forms. To adequately prepare the new strip stamp reports, a proprietor, who commences bottling distilled spirits according to metric standards on October 1, 1976, will have to record separately by size the usage of strip stamps on each metric size bottle. In effect, two separate reports of usage will be required; one covering the usage of stamps on bottles filled to the current U.S. standards and the other covering the usage of stamps on bottles filled in accordance with the metric standards of fill prescribed by § 5.47a(a).

5. *Case markings.* (a) The proposed regulations will require that cases of distilled spirits, containing bottles filled according to metric standards of fill, will show liters and proof in place of proof gallons. ATF is proposing this change to take advantage of one of the aspects of the metric system, i.e., working with whole numbers. For example, a case of liter bottles will show "12 liters—80 proof" and not "2.536 proof gallons" (12 liters x 0.264172 x .8 approximately equal 2.536 proof gallons). To eliminate having to show proof gallon amounts carried to three or more decimal places, cases of spirits bottled in metric measure will show "liters and proof" in place of proof gallons.

[§§ *201.527, 201.528, 250.40, 250.205, and 250.206 amended.*]

(b) Based upon ATF's experience with wine metrication, the proposed regulations will allow (but not require) bottlers to show on the government side of a case a statement indicating what U.S. size is replaced by a metric size.

[§§ *201.527 and 201.528 amended.*]

6. *Other proposals.* (a) ***Definition of liter.***—A definition of liter is proposed to be added to Parts 194, 201 and 252. (A definition of liter will be added to Parts 250 and 251 in a separate document relating to wine metrication.)

[§§ *194.11, 201.11 and 252.11 amended.*]

(b) *Equivalent volumes in metric measures.*—The proposed regulations show the metric equivalent of U.S. measurements where appropriate. For example, the phrase "20 wine gallons" appears in several sections in Part 194. ATF proposes to add, in parentheses, the metric equivalent of 20 wine gallons—75.7 liters. The quantities "1 gallon" and "10 gallons" also appear in Parts covered by this notice. The metric equivalents of those two amounts, 3.785 liters and 37.85 liters, will similarly be added to the appropriate regulatory sections. ATF is proposing these parenthetical references to metric equivalents to assist persons bottling or handling metric bottles.

[§§ *194.28, 194.188, 194.236, 194.239, 194.-251, 201.502, 201.503, 250.38, 250.99, 250.135, 250.185, 250.203, 250.203a, 250.312, 251.58, 251.120, 251.202, and 252.201 amended.*]

(c) *Applicability of liquor bottle regulations.*—Current liquor bottle regulations, in Parts 173, 201, 250, and 251, use the ½-pint standard in determining the applicability of certain requirements of those Parts. As an illustration, the liquor bottle regulations in Part 173 apply only to bottles of "½-pint capacity or more" unless a particular provision of Part 173 is expressly applied to bottles of "less than ½-pint capacity". Since the 200 ml standard is intended to replace the ½-pint standard, ATF is proposing that the phrases "200 ml capacity or more" and "less than 20 ml capacity" be substituted for the phrases "½-pint capacity or more" and "less than ½-pint capacity" in sections where those latter terms appear.

[§§ *173.31, 173.41, 173.42, 173.43, 201.-540a, 201.540b, 201.540f, 201.540i, 201.542, 250.137, 250.232, 250.311, 250.312, 250.316, 251.63, 251.201, 251.202, and 251.206 amended.*]

(d) *The 4 ounce, intrastate size.*—Section 201.540b allows proprietors to bottle distilled spirits in a 4 ounce size for intrastate sale only. One of the most important results from adopting metric standards of fill is the reduction in the number of bottle sizes. Because of cost considerations, reduction in the number of bottle sizes was supported by industry members when the metric standards were under consideration. Consumers will also benefit by the reduced number of bottle sizes available. These benefits include having the cost savings realized by the industry, passed on to the consumer in the form of lower prices (or at least a negation of price increases), and also, fewer standards of fill, with larger net contents spread between the sizes, should lessen the chances of consumer deception. For these reasons, AFT is proposing to eliminate the exception to standards of fill currently allowed in the case of 4 ounce bottles for intrastate sale only. ATF proposes to eliminate this exception so that 4 ounce bottles may only be used through December 31, 1979.

[§ *201.540b amended*]

(e) *Wine metrication changes in Part 201.*—Several sections in Part 201 are proposed to be amended to implement the adoption of wine metric standards of fill. Although a separate document is being prepared by ATF to implement most of the changes made necessary by the new metric wine sizes, ATF has decided to make the revisions for wine in Part 201 along with the changes proposed in this notice. ATF feels this is appropriate since several of the same sections in Part 201 are affected by both the wine and distilled spirits metric standards of fill. The proposed changes would require packages and cases of wine in metric sizes to show liters in place of wine gallons. The proposals would also allow the required wine records to be shown either in wine gallons or in liters.

[§§ *201.526, 201.527, 201.528, and 201.618 amended.*]

(f) *Proprietor's equipment.*—ATF is proposing to amend § 201.246 to reflect the adoption of metric standards of fill. New equipment may be needed in order to determine metric volumes.

[§ *201.246 amended.*]

(g) *Lables on spirits bottled for export.*—Current regulations require bottlers to provide the assigned officer with a statement of the equivalent U.S. units when net contents and proof are in the units of measurement of the foreign country to which the spirits are being exported. ATF proposes to amend this requirement by having this statement show the equivalent units as would be required on bottles for domestic consumption. Thus, the equivalent units for net contents could be ounces, liters or milliliters (or any other U.S. unit currently permitted on bottles for domestic consumption).

[§§ *201.331 and 201.467 amended.*]

(h) *Incorrect references and obsolete terms.*—ATF proposes to correct two references to "Subpart H of 27 CFR Part 5" in Parts 250 and 251 and to update terminology in Part 252.

[§§ *250.312, 251.202, 252.11, and 252.250 amended.*]

(i) *Samples.*—ATF is proposing that the limit on samples of beer, wine and distilled spirits, imported for quality control purposes, be raised from containers of 40 ounces to containers of 1.75 liters (59.2 ounces). ATF has decided upon the 1.75 liter size rather than the smaller size (33.8 ounces) in order to accommodate the "imperial quart", which contains 38.4 ounces.

[§ *251.75 amended*]

WRITTEN COMMENTS

ATF invites interested parties to submit written comments, data or arguments on any of the proposals contained in this notice. All written comments should be submitted in duplicate on or before September 29, 1976. Comments should be addressed to the Director, Bureau of Alcohol, Tobacco and Firearms, Washington, D.C. 20226, Attn: Chief, Regulations and Procedures Division. Any written comments, arguments or data received in response to this notice will be made available for public inspection unless exempt from disclosure under 27 CFR 71.21(b).

Any interested person submitting comments or suggestions who desires an opportunity to comment orally at a public hearing on these proposed regulations should submit his/her request, in writing, to the Director by September 29, 1976.

The following proposed regulations are issued under the authority contained in 26 U.S.C. 7805 and would become effective on October 1, 1976.

PROPOSED REGULATIONS

Based upon the foregoing considerations, ATF proposes to amend 27 CFR Chapter I, as follows:

PART 170—MISCELLANEOUS REGULATIONS RELATING TO LIQUORS

Paragraph 1. Paragraphs (a) and (b) of § 170.60 are amended to read as follows:

§ 170.60 Record of inventories.

* * * * *

(a) As to containers (including uncased bottles), the kind, size, and serial number where applicable, of each container, and the kind, and quantity either in proof gallons or in liters and degree of proof, of spirits contained therein;

(b) As to cases of bottled spirits, the kind of spirits therein, the number and size of bottles per case, either the proof gallons per case or the liters per case and degree of proof, and the number of such cases; and

* * * * *

§ 170.61 [Amended]

Paragraph 2. Paragraph (b) of § 170.61 is amended by inserting the phrase "or liters" between the words "gallons" and "per".

Paragraph 3. A new Section, § 170.64, is added to read as follows:

§ 170.64 Conversion between metric and U.S. units.

Whenever it is necessary to convert liters to wine gallons on any required record or report, the quantity in liters shall be multiplied by 0.264172 to determine the equivalent quantity in wine gallons. The resulting wine gallon figure is to be rounded to the nearest one-hundredth.

PART 173—RETURNS OF SUBSTANCES, ARTICLES OR CONTAINERS

§§ 173.31, 173.41, 173.42, and 173.43 [Amended]

Paragraph 4. Sections 173.31, 173.41, 173.42, and 173.43 are amended by substituting the phrase "200 ml" for the phrase "½-pint" wherever the latter term appears in those sections.

PART 194—LIQUOR DEALERS

Paragraph 5. Section 194.11 is amended by adding, in alphabetical order, a definition of "liter" to read as follows:

§ 194.11 Meaning of terms.

* * * * *

Liter. A metric unit of capacity equal to 1,000 cubic centimeters of alcoholic beverage, and equivalent to 33.814 fluid ounces. A liter is divided into 1,000 milliliters. Milliliter or milliliters may be abbreviated as "ml".

* * * * *

Paragraph 6. Sections 194.28 and 194.188 are amended (a) by inserting the phrase "(75.7 liters)" immediately after the phrase "20 wine gallons" wherever the latter term appears and (b) by revising the statutory citations at the end of each section. As amended, §§ 194.28 and 194.188 read as follows:

§ 194.28 Sales of 20 wine gallons (75.7 liters) or more.

Any person who sells or offers for sale distilled spirits, wines, or beer, in quantities of 20 wine gallons (75.7 liters) or more, to the same person at the same time, shall be presumed and held to be a wholesale dealer in liquors or a wholesale dealer in beer, as the case may be, unless such person shows by satisfactory evidence that such sale, or offer for sale, was made to a person other than a dealer.

(Sec. 201, Pub. L. 85-859, 72 Stat. 1413 (26 U.S.C. 5691).)

§ 194.188 Persons making casual sales.

* * * * *

(a) Administrators, executors, receivers, and other fiduciaries who receive distilled spirits, wines, or beer in their fiduciary capacities and sell such liquors in one parcel, or at a public auction in parcels of not less than 20 wine gallons (75.7 liters);

(b) Creditors who receive distilled spirits, wines, or beer as security for, or in payment of, debts and sell such liquors in one parcel, or at public auction in parcels of not less than 20 wine gallons (75.7 liters);

(c) Public officers or court officials who levy on distilled spirits, wines, or beer under order or process of any court or magistrate and sell such liquors in one parcel, or at public auction in parcels of not less than 20 wine gallons (75.7 liters); or

* * * * *

(Sec. 201, Pub. L. 85-859, 72 Stat. 1340 (26 U.S.C. 5113).)

Paragraph 7. Section 194.221 is amended (a) by inserting the phrase "or liters" between the words "wine gallons" and "if" and (b) by revising the statutory citation at the end of the section. As amended, § 194.221 reads as follows:

§ 194.221 General requirements as to distilled spirits.

Except as provided in §§ 194.223 and 194.224, every wholesale dealer in liquors shall, daily, prepare records of the physical receipt and disposition, as prescribed in §§ 194.225 and 194.226, respectively, of distilled spirits by him, and shall, daily, prepare a recapitulation record, as prescribed in § 194.230, showing the total wine gallons or liters if in bottles, or proof gallons if in packages, of distilled spirits received and disposed of during the day.

(Sec. 201, Pub. L. 85-859, 72 Stat. 1342, 1395 (26 U.S.C. 5114, 5555).)

Paragraph 8. A new section, § 194.232, is added to read as follows:

§ 194.232 Conversion between metric and U.S. units.

Whenever it is necessary to convert liters to wine gallons on any required record or report, the quantity in liters shall be multiplied by 0.264172 to determine the equivalent quantity in wine gallons. The resulting wine gallon figure is to be rounded to the nearest one-hundredth.

Paragraph 9. Section 194.236 is amended (a) by inserting the phrase "(37.85 liters)" at the end of the first sentence and (b) by revising the statutory citation at the end of the section. As amended, § 194.236 reads as follows:

§ 194.236 Entry of miscellaneous items.

Wholesale dealers in liquors may report on Form 52B as one item the total quantity of different kinds of distilled spirits made up from broken cases disposed of to the same person on the same day, provided such total quantity is not in excess of 10 gallons (37.85 liters). The entry of such items shall be stated as "Miscellaneous" or "Misc." and shall show the date, the name and address of the person to whom sold, and the quantity.

(Sec. 201, Pub. L. 85-859, 72 Stat. 1342, 1395 (26 U.S.C. 5114).)

Paragraph 10. Section 194.239 is amended (a) by inserting in paragraph (b) the phrase "(75.7 liters)" immediately after the phrase "20 wine gallons" wherever the latter term appears and (b) by revising the statutory citation at the end of the section. As amended, § 194.239 reads as follows:

§ 194.239 Requirements for retail dealers.

* * * * *

(b) *Records of sales of 20 wine gallons (75.7 liters) or more.* Every retail dealer who makes sales of distilled spirits, of wines, or of beer in quantities of 20 wine gallons (75.7 liters) or more to the same person at the same time shall prepare and keep a record of each such sale, which shall show (1) the date of sale, (2) the name and address of the purchaser, (3) the kind and quantity of each kind of liquors sold, and (4) the serial numbers of all full cases of distilled spirits included in the sale. Each entry on such record shall be supported by a corresponding delivery receipt (which may be executed on a copy of the sales slip) signed by the purchaser or his agent.

(Sec. 201, Pub. L. 85-859, 72 Stat. 1345, 1348, 1395, 1413 (26 U.S.C. 5124, 5146, 5555, 5691).)

V 41 169 AUG 30 76 UMI

Paragraph 11. Section 194.251 is amended (a) by inserting the phrase "(3.785 liters)" between the words "gallon" and "or" and (b) by revising the statutory citation at the end of the section. As amended, § 194.251 reads as follows:

§ 194.251 Strip stamps required on all bottles.

Except as provided in §§ 194.264, 194.271, and 194.272, all distilled spirits in the possession of wholesale or retail dealers in liquors shall be in bottles or similar containers of a capacity of 1 gallon (3.785 liters) or less which shall bear the prescribed strip stamps evidencing bottling in compliance with internal revenue law. The strip stamps shall be affixed in such manner as to be broken when the containers are opened.

(Sec. 201, Pub. L. 85–859, 72 Stat. 1358 (26 U.S.C. 5206).)

PART 201—DISTILLED SPIRITS PLANTS

Paragraph 12. Section 201.11 is amended by adding, in alphabetical order, a definition of "liter" to read as follows:

§ 201.11 Meaning of terms.

• • • • • •

Liter. A metric unit of capacity equal to 1,000 cubic centimeters of alcoholic beverage, and equivalent to 33.814 fluid ounces. A liter is divided into 1,000 milliliters. Milliliter of milliliters may be abbrevated as "ml".

• • • • • •

Paragraph 13. Section 201.246 is amended (a) by revising the last sentence and (b) by revising the statutory citation at the end of the section. As amended, § 201.246 reads as follows:

§ 201.246 Measuring devices and proofing instruments.

• • • The proprietor shall provide, for his own use, accurate hydrometers, thermometers, and other necessary equipment for determining proof or volume in either the U.S. or metric units of measure as may be required.

(Sec. 201, Pub. L. 85–859, 72 Stat. 1358 (26 U.S.C. 5204).)

Paragraph 14. Sections 201.331 and 201.467 are amended (a) by revising the third sentence in the final paragraph of both sections and (b) by revising the statutory citations at the end of those sections. As amended, §§ 201.331 and 201.467 read as follows:

§ 201.331 Labeling of spirits bottled for export.

• • • • • •

(e) The plant number where bottled, unless the markings on the bottle indicate such number. The bottler may place on the label any additional information, including his name or trade name, that he may desire if it is not inconsistent with the required information. The label information may be stated in the language of the country to which the spirits are to be exported provided the assigned officer is furnished an English translation of the information. The net contents and proof may be stated in the units of measurement of the foreign country provided the assigned officer is furnished a statement of the equivalent units as they would be required to be expressed if bottled for domestic consumption. The Director may waive the requirement of showing any of the information required by this section, other than the kind of spirits, upon a showing that the country to which the spirits are to be exported prohibits the showing of such information.

(Sec. 201, Pub. L. 85–859, 72 Stat. 1356, 1374 (26 U.S.C. 5201, 5301).)

Paragraph 15. Sections 201.502 and 201.503 are amended (a) by inserting the phrase "(3.785 liters)" immediately after the phrase "1 gallon" wherever the latter term appears in both sections and (b) by revising the statutory citations at the end of those sections. As amended, §§ 201.502 and 201.503 read as follows:

§ 201.502 Containers of 1 gallon (3.785 liters) or less.

The provisions of Subpart K of this part govern the containers to be used in bottling spirits in bond before determination of tax for export under section 5233, I.R.C., and bottling alcohol on bonded premises under section 5235, I.R.C. The provisions of Subpart Na of this part govern the containers to be used in bottling spirits in bond for export in accordance with the conditions and requirements of section 5233, I.R.C., but after determination of tax. The provisions of Subpart Pa of this part govern the containers to be used in bottling spirits in bond for domestic use under, or in accordance with, section 5233, I.R.C. The provisions of Subpart N of this part govern the bottling of spirits, other than spirits bottled in bond, and wines on bottling premises. Denatured spirits may be filled on bonded premises into metal or glass containers of a capacity of 1 gallon (3.785 liters) or less. Liquor bottles shall not be used for bottling denatured spirits. Spirits in bottles of a capacity of 1 gallon (3.785 liters) or less, except anhydrous spirits and spirits to be withdrawn from bond free of tax, are deemed to be for nonindustrial use.

(Sec. 201, Pub. L. 85–859, 72 Stat. 1315, 1360, 1374 (26 U.S.C. 5002, 5206, 5301).)

§ 201.503 Cases.

Spirits, denatured spirits, or wines which have been filled in containers of 1 gallon (3.785 liters) or less, in accordance with the provisions of § 201.502, shall be placed in cases so constructed as to afford reasonable protection against breakage or theft. • • •

(Sec. 201, Pub. L. 85–859, 72 Stat. 1360 (26 U.S.C. 5206).)

Paragraph 16. Section 201.526 is amended (a) by revising paragraph (b) of that section and (b) by revising the statutory citation at the end of the section. As amended, § 201.526 reads as follows:

§ 201.526 Packages filled at bottling premises.

• • • • • •

(b) *Wine.* Packages of wine filled at bottling premises shall be marked with the following information:

(1) Tare, percent alcohol by volume, and wine gallons or, for containers filled according to metric measure, liters. In the case of rectified wine, proof gallons will be shown;

(2) Serial number;

(3) Kind of wine;

(4) Date of filling;

(5) If a rectified product, number of the approved formula under which rectified and the plant number of the rectifier, if other than the packaging proprietor;

(6) Name (or trade name) of proprietor; and

(7) Plant number.

(Sec. 201, Pub. L. 85–859, 72 Stat. 1360, 1381 (26 U.S.C. 5206, 5368).)

Paragraph 17. Sections 201.527 and 201.528 are revised to read as follows:

§ 201.527 Marks on cases of bottled-in-bond spirits.

(a) • • •

(4) Liters (if bottled according to the standards of fill prescribed by § 5.47a of this chapter);

(5) Proof gallons (if bottled according to the standards of fill prescribed by § 5.47 of this chapter);

(6) Plant number of bottler;

(7) Proof (if bottled in bond for export);

(8) Date filled.

Cases withdrawn for export, transfer to customs bonded warehouses or customs manufacturing bonded warehouses, transfer to foreign-trade zones, or for use as supplies on certain vessels and aircraft, shall bear the additional marks required by Part 252 of this chapter. Cases withdrawn tax-free shall be

marked to show the number of the permit of the tax-free user and the purpose of the withdrawal as provided in § 201.524(c).

(b) *Other marks.* In addition to the required marks, the proprietor may include on the Government side of bottled-in-bond cases other marks as follows:

(1) The real name and/or trade name of the producer of the spirits;

(2) For cases containing bottles filled according to metric measure, the term "Replaces" followed by an appropriate designation of the bottle size replaced (i.e. "Replaces Fifth", "Replaces Quart", etc.);

(3) Other material required by Federal, State, or local law and regulations.

The marks authorized by this paragraph shall not interfere with or detract from the mandatory marks prescribed in paragraph (a) of this section. No other marks may be placed on the Government side except as authorized by the Director as provided in § 201.530.

(Sec. 201, Pub. L. 85–859, 72 Stat. 1360, 1366 (26 U.S.C. 5206, 5233); Sec. 3(a), Pub. L. 91–659, 84 Stat. 1965 (26 U.S.C. 5066).)

§ 201.528 Marks on cases filled on bottling premises.

(a) *Mandatory marks.* The following information shall be plainly marked on the Government side of each case of wine or spirits filled on bottling premises, except cases of spirits bottled in bond under the provisions of Subpart Na of this part:

(1) Serial number;

(2) Kind of wine, or kind of spirits;

(3) Plant number where bottled;

(4) Date filled;

(5) Proof (for spirits);

(6) Percent of alcohol by volume (for wines);

(7) Proof gallons for:

(i) Spirits bottled according to the standards of fill prescribed by § 5.47 of this chapter or exempt from such standards under the provisions of § 5.48(b) of this chapter; and

(ii) Rectified wines bottled according to the standards of fill prescribed by § 4.72 of this chapter;

(8) Wine gallons (for unrectified wine bottled according to the standards of fill prescribed by § 4.72 of this chapter;

(9) Liters for:

(i) Rectified or unrectified wines bottled according to the metric standards of fill prescribed by § 4.73 of this chapter; and

(ii) Spirits bottled according to the metric standards of fill prescribed by § 5.47a of this chapter. Cases removed for export, transfer to customs bonded warehouses or customs manufacturing bonded warehouses, transfer to foreign-trade zones, or for use as supplies on certain vessels and aircraft, shall bear the additional marks required by Part 252 of this chapter.

(b) • • •

(5) For cases containing bottles filled according to metric measure, the term "Replaces" followed by an appropriate designation of the bottle size replaced (i.e., "Replaces Fifth", "Replaces Quart", etc.);

(6) Other material required by Federal or State law and regulations.

The marks authorized by this paragraph shall not interfere with or detract from the mandatory marks prescribed in paragraph (a) of this section. No other marks may be placed on the Government side except as authorized by the Director as provided in § 201.530.

(Sec. 201, Pub. L. 85–859, 72 Stat. 1360, 1381 (26 U.S.C. 5206, 5363); Sec. 3(a), Pub. L. 91–659, 84 Stat. 1965 (26 U.S.C. 5066).)

§ 201.540a [Amended]

Paragraph 18. Section 201.540a is amended by substituting the phrase "200 ml" for the phrase "½-pint" wherever the latter term appears.

Paragraph 19. Section 201.540b is amended (a) by substituting the phrase "200 ml" for the phrase "½-pint" in the first sentence and (b) by inserting the phrase "through December 31, 1979," between the words "used" and "for" in the second sentence. As amended, § 201.540b reads as follows:

§ 201.540b Bottles authorized.

Liquor bottles shall conform to the applicable standards of fill provided in Subpart E of 27 CFR Part 5, including those for liquor bottles of less than 200 ml capacity. The use of any bottle size other than as authorized in Subpart E of 27 CFR Part 5 is prohibited for the packaging of distilled spirits for domestic purposes, except that 4-ounce liquor bottles may be used through December 31, 1979, for packaging any distilled spirits, other than spirits bottled in bond after determination of tax, on bottling premises for sale in intrastate commerce only. Bottles bearing the indicia required under Part 173 of this chapter may be used, but need not be used, in bottling spirits for export.

§§ 201.540f and 201.540i [Amended]

Paragraph 20. Sections 201.540f and 201.540i are amended by substituting the phrase "200 ml" for the phrase "½-pint" wherever the latter term appears in those sections.

Paragraph 21. Section 201.542 is amended (a) by substituting the phrase "200 ml" for the phrase "one-half pint" wherever the latter term appears and (b) by revising the statutory citation at the end of the section. As amended, § 201.542 reads as follows:

§ 201.542 Strip stamp format.

All prescribed strip stamps, with the exception of the white alcohol stamp, shall be issued in (a) a standard size, serially numbered, for bottles or containers of 200 ml capacity or more, and in (b) a small size for bottles or containers of less than 200 ml capacity. The white alcohol stamp shall be issued in a standard size only, serially numbered.

(Sec. 201, Pub. L. 85–859, 72 Stat. 1358 (26 U.S.C. 5205).)

Paragraph 22. A new section, § 201.611a, is added to read as follows:

§ 201.611a Conversion between metric and U.S. units.

Whenever it is necessary to convert liters to wine gallons on any required record or report, the quantity in liters shall be multiplied by 0.264172 to determine the equivalent quantity in wine gallons. The resulting wine gallon figure is to be rounded to the nearest one-hundredth.

Paragraph 23. Section 201.618 is amended (a) by revising paragraphs (a) and (d) and (b) by revising the statutory citation at the end of the section. As amended, § 201.618 reads as follows:

§ 201.618 Details of daily records.

The daily records required by this part shall conform to the following requirements:

(a) Spirits shall be recorded by kind and by quantity in proof gallons, or tax gallons if required by instructions on transaction forms, except that removals of bottled products from bottling premises shall be either in wine gallons or liters.

• • • • • •

(d) Wines shall be recorded by kind, by percent of alcohol by volume, and by quantity in wine gallons. For wines bottled or packaged according to metric measure, the quantity may be recorded either in liters or in wine gallons. Wines received for and used in rectification shall be recorded by quantity in proof gallons.

• • • • • •

(Sec. 201, Pub. L. 85–859, 72 Stat. 1361 (26 U.S.C. 5207).)

Paragraph 24. Section 201.624 is amended (a) by revising the last sentence; (b) by adding a new sentence at the end of the section; and (c) by revising the statutory citation at the end of the section. As amended, § 201.624 reads as follows:

§ 201.624 Daily strip stamp record.

• • • The record shall also show, by size of bottle, the number of bottles to which each kind of strip stamps (green, blue, red, and white) were affixed. The record shall be in sufficient detail to enable proprietors to prepare the required quarterly strip stamp report.

(Sec. 201, Pub. L. 85–859, 72 Stat. 1358, 1361 (26 U.S.C. 5205, 5207).)

Paragraph 25. Section 201.625 is amended (a) by revising paragraph (a) (3) and (b) by revising the statutory citation at the end of the section. As amended, § 201.625 reads as follows:

§ 201.625 Daily record of wholesale liquor dealer and taxpaid storeroom operations.

• • • • • •

(a) • • •

(3) The actual quantity of distilled spirits involved (proof gallons if in packages, wine gallons or liters if in bottles).

• • • • • •

(Sec. 201, Pub. L. 85–859, 72 Stat. 1343, 1361 (26 U.S.C. 5114, 5207).)

V 41 169 AUG 30 76 UMI

Paragraph 26. Section 201.626 is amended (a) by inserting the phrase "or liters" immediately after the phrase "wine gallons" and (b) by revising the statutory citation at the end of the section. As amended, § 201.626 reads as follows:

§ 201.626 Sample record for bonded premises.

Proprietors shall maintain daily records of samples taken by them from bonded premises to show (a) the date taken, (b) the kind of spirits (formula number in the case of denatured spirits), (c) the quantity in wine gallons or liters, (d) the container from which taken, (e) the place from which taken, (f) the purpose for which taken, (g) the name and address of the consignee when samples are sent out, and (h) whether such samples are tax-free or tax-determined and if tax-determined, the proof and tax gallons.

(Sec. 201, Pub. L. 85–859, 72 Stat. 1361 (26 U.S.C. 5207))

PART 250—LIQUORS AND ARTICLES FROM PUERTO RICO AND THE VIRGIN ISLANDS

Paragraph 27. Section 250.38 is amended (a) by inserting the phrase "(3.785 liters)" between the words "gallon" and "shall" and (b) by revising the statutory citation at the end of the section. As amended, § 250.38 reads as follows:

§ 250.38 Containers of distilled spirits.

Containers of distilled spirits brought into the United States from Puerto Rico, having a capacity of not more than 1 gallon (3.785 liters), shall conform to the requirements of Subpart P of this part.

(Sec. 201, Pub. L. 85–859, 72 Stat. 1374 (26 U.S.C. 5301))

Paragraph 28. Section 250.40 is amended by adding a sentence at the end of the section to read as follows:

§ 250.40 Marking containers of distilled spirits.

* * * Cases containing bottles filled according to the standards of fill prescribed by § 5.47a of this chapter shall, in lieu of the wine gallon and proof gallon contents, be marked with the liter contents of the case and the proof of the spirits therein.

§ 250.99 [Amended]

Paragraph 29. Paragraph (c) of § 250.99 is amended by inserting the phrase "(3.785 liters)" immediately after the phrase "1 gallon" in the last sentence of that paragraph.

Paragraph 30. Section 250.135 is amended (a) by inserting the phrase "(3.785 liters)" immediately after the phrase "1 gallon" whever the latter term appears and; (b) by revising the second sentence and (c) by revising the statutory citation at the end of the section. As amended, § 250.135 reads as follows:

§ 250.135 Containers of distilled spirits to bear red strip stamps.

Immediate containers of 1 gallon (3.785 liters) or less of distilled spirits, upon which all Federal internal revenue taxes have been paid or deferred in Puerto Rico under the provisions of this part, shall have red strip stamps affixed thereto in accordance with the provisions of this subpart, prior to shipment to the United States. Except as provided in § 250.185, containers having a capacity of 1 gallon (3.785 liters) or less, containing distilled spirits which have not been taxpaid in Puerto Rico, may not have a red strip stamp affixed.

(Sec. 201, Pub. L. 85–859, 72 Stat. 1358 (26 U.S.C. 5205))

Paragraph 31. Section 250.137 is amended (a) by substituting the phrase "200 ml" for the phrase "½-pint" wherever the latter term appears and (b) by revising the statutory citation. As amended, § 250.137 reads as follows:

§ 250.137 Size of red strip stamps.

Red strip stamps shall be issued in a standard size, serially numbered, for bottles or containers of 200 ml capacity or more, and in a small size for bottles or containers of less than 200 ml capacity.

(Sec. 201, Pub. L. 85–859, 72 Stat. 1358 (26 U.S.C. 5205))

Paragraph 32. Section 250.143 is amended (a) by deleting the phrase "(less than one-half pint)" from the second sentence of paragraph (b) and (b) by revising the statutory citation at the end of the section. As amended, § 250.143 reads as follows:

§ 250.143 Procurement and custody of red strip stamps.

* * * * *

(b) *Alternative method.* When the Chief, Puerto Rican Operations, determines that the interest of the government will be best served thereby, the stamps may be shipped directly to the insular revenue agent at the plant from the Bureau of Engraving and Printing. In such case, orders for standard size red strip stamps shall be in multiples of 100,000 stamps, and orders for small size shall be in multiples of 50 stamps (one sheet). * * *

(Sec. 201, Pub. L. 85–859, 72 Stat. 1358 (26 U.S.C. 5205))

Paragraph 33. Section 250.146 is amended (a) by revising the second and third sentences and (b) by revising the statutory citation at the end of the section. As amended, § 250.146 reads as follows:

§ 250.146 Record and report of red strip stamps.

Revenue agents having custody of red strip stamps shall maintain for each day a transaction in red strip stamps occurs a daily record of such stamps by size (small or standard), showing the number received, used, lost, mutilated, destroyed or otherwise disposed of, and on hand at the beginning and at the end of the day. The record shall also show the number and size of bottles to which the stamps were affixed. No form is prescribed for the daily records but such records shall be in sufficient detail and retained to support the quarterly report. * * *

(Sec. 201, Pub. L. 85–859, 72 Stat. 1358 (26 U.S.C. 5205))

Paragraph 34. Section 250.185 is amended (a) by inserting the phrase "(3.785 liters)" immediately after the phrase "1 gallon" in the last sentence of the section and (b) by revising the statutory citation. As amended, § 250.185 reads as follows:

§ 250.185 Stamps.

* * * Where taxpaid distilled spirits intended for shipment to the United States are in containers of more than 1 gallon (3.785 liters), distilled spirits stamps shall be procured and affixed, and the containers released, as provided in §§ 250.88 through 250.91.

(Sec. 201, Pub. L. 85–859, 72 Stat. 1358 (26 U.S.C. 5205))

Paragraph 35. Section 250.203 is amended (a) by inserting the phrase "(3.785 liters)" immediately after the phrase "1 gallon" wherever the latter term appears and (b) by revising the statutory citation. As amended, § 250.203 reads as follows:

§ 250.203 Containers of 1 gallon (3.785 liters) or less.

Containers of distilled spirits brought into the United States from the Virgin Islands, having a capacity of not more than 1 gallon (3.785 liters), shall conform to the requirements of Subpart P of this part.

(Sec. 201, Pub. L. 85–859, 72 Stat. 1374 (26 U.S.C. 5301))

§ 250.203a [Amended]

Paragraph 36. Section 250.203a is amended by inserting the phrase "(3.785 liters)" immediately after the phrase "1 gallon" wherever the latter term appears in § 250.203a.

Paragraph 37. Section 250.205 is amended by revising paragraph (c)(1) to read as follows:

§ 250.205 Certificate.

* * * * *

(c) The quantity thereof as follows:

(1) If distilled spirits—

(i) The wine and proof gallons, or

(ii) The liters and degree of proof for cases containing bottles filled according to the standards of fill prescribed by § 5.47a of this chapter.

* * * * *

Paragraph 38. Section 250.206 is amended by adding a sentence at the end of the section to read as follows:

§ 250.206 Marking packages and cases.

* * * Cases containnig bottles filled according to the standards of fill prescribed by § 5.47a of this chapter shall, in lieu of the wine and proof gallon contents, be marked with the liter contents of the cases and the proof of the spirits therein.

Paragraph 39. Section 250.232 is amendde (a) by substituting the phrase "200 ml" for the phrase "½-pint" wherever the latter term appears and (b) by revising the statutory citation. As amended, § 250.232 reads as follows:

§ 250.232 Size of red strip stamps.

Red strip stamps shall be issued in a standard size, serially numbered, for bottles or containers of 200 ml capacity or more, and in a small size for bottles or containers of less than 200 ml capacity.

(Sec. 201, Pub. L. 85–859, 72 Stat. 1358 (26 U.S.C. 5205))

Paragraph 40. Section 250.270 is amended (a) by revising the fourth sentence and (b) by revising the statutory citation at the end of the section. As amended, § 250.270 reads as follows:

§ 250.270 Daily record of strip stamps.

For each day during which a transaction in red strip stamps occurs, the importer shall maintain a daily record accounting for all strip stamps procured by him and by his agents. The record shall show by size (small or standard) the number received, used, lost, mutilated, destroyed or otherwise disposed of, and outstanding at the beginning and end of the day. Stamps shown in the record as received shall be supported by the related Form 428, which shall be identified by date and serial number. The record shall also show the number and size of bottles to which the stamps were affixed and shall be in sufficient detail to enable the importer to prepare the required quarterly strip stamp report. * * *

(Sec. 201, Pub. L. 85–859, 72 Stat. 1358 (26 U.S.C. 5205))

§ 250.311 [Amended]

Paragraph 41. Section 250.311 is amended by substituting the phrase "200 ml" for the phrase "½-pint" wherever the latter term appears.

Paragraph 42. Section 250.312 is revised (a) by inserting the phrase "(3.785 liters)" between the words "gallon" and "or" in the first sentence; (b) by substituting the phrase "200 ml" for the phrase "½-pint" wherever the latter term appears; and (c) by revising the references to Part 5. As amended, § 250.312 reads as follows:

§ 250.312 Standards of fill.

Distilled spirits brought into the United States from Puerto Rico or the Virgin Islands in containers of 1 gallon (3.785 liters) or less for sale shall be in liquor bottles, including liquor bottles of less than 200 ml capacity, which conform to the applicable standards of fill provided in §§ 5.47 or 5.47a of this chapter. Empty liquor bottles, including liquor bottles of less than 200 ml capacity, which conform to the provisions of Subpart E of Part 5 or § 201.540b of this chapter, may be brought into the United States for packaging distilled spirits as provided in Part 201 of this chapter.

Paragraph 43. The first sentence of § 250.316 is amended (a) by substituting the term "Bureau of Alcohol, Tobacco and Firearms" for the obsolete term "Alcohol, Tobacco and Firearms Division" and (b) by substituting the phrase "200 ml" for the phrase "½-pint". As amended, § 250.316 reads as follows:

§ 250.316 Bottles not constituting approved containers.

The Director, Bureau of Alcohol, Tobacco and Firearms, is authorized to disapprove any bottle, including a bottle of less than 200 ml capacity, for use as a liquor bottle which he determines to be deceptive. * * *

PART 251—IMPORTATION OF DISTILLED SPIRITS, WINES AND BEER

§ 251.58 [Amended]

Paragraph 44. Section 251.58 is amended by inserting the phrase "(3.785 liters)" immediately after the phrase "1 gallon" in the heading of the section.

Paragraph 45. Section 251.63 is amended (a) by substituting the phrase "200 ml" for the phrase "½-pint" wherever the latter term appears and (b) by revising the statutory citation. As amended, § 251.63 reads as follows:

§ 251.63 Size of red strip stamps.

Red strip stamps shall be issued in a standard size, serially numbered, for bottles or containers of 200 ml capacity or more, and in a small size for bottles or containers of less than 200 ml capacity.

(Sec. 201, Pub. L. 85–859, 72 Stat. 1358 (26 U.S.C. 5205).)

§ 251.75 [Amended]

Paragraph 46. Section 251.75 is amended by substituting the phrase "1.75 liters" for the phrase "40 ounces" in the first sentence.

Paragraph 47. Section 251.120 is amended (a) by inserting the phrase "(3.785 liters)" immediately after the phrase "1 gallon"; (b) by substituting the word "through" for the word "to" in the last sentence and (c) by revising the statutory citation at the end of the section. As amended, § 251.120 reads as follows:

§ 251.120 Persons authorized to receive distilled spirits imported in bulk.

Distilled spirits imported in bulk (i.e., in containers having a capacity in excess of 1 gallon (3.785 liters)) may be entered into a class 8 customs bonded warehouse for bottling, or may be withdrawn from customs custody only if entered for exportation or if withdrawn by a person to whom it is lawful to sell or otherwise dispose of distilled spirits in bulk pursuant to the Federal Alcohol Administration Act (49 Stat. 985, as amended; 27 U.S.C. 206) and Regulation 3 (27 CFR Part 3). The importation and disposition of distilled spirits imported in bulk shall be reported as prescribed by §§ 251.133 through 251.134.

(Sec. 201, Pub. L. 85–859, 72 Stat. 1342, 1361, 1374, 1395 (26 U.S.C. 5114, 5207, 5301, 5555).)

Paragraph 48. Section 251.130 is amended (a) by revising the fourth sentence and (b) by revising the statutory citation at the end of the section. As amended, § 251.130 reads as follows:

§ 251.130 Daily record of strip stamps.

For each day during which a transaction in red strip stamps occurs, the importer shall maintain a daily record accounting for all strip stamps procured by him and by his agents. The record shall show by size (small or standard) the number received, used, lost, multilated, destroyed or otherwise disposed of, and outstanding at the beginning and end of the day. Stamps shown in the record as received shall be supported by the related Form 428, which shall be identified by date and serial number. The record shall also show the number and size of bottles to which the stamps were affixed and shall be in sufficient detail to enable the importer to prepare the required quarterly strip stamp report. * * *

(Sec. 201, Pub. L. 85–859, 72 Stat. 1358 (26 U.S.C. 5205).)

§ 251.201 [Amended]

Paragraph 49. Section 251.201 is amended by substituting the phrase "200 ml" for the phrase "½-pint" wherever the latter term appears.

Paragraph 50. Section 251.202 is amended (a) by inserting the phrase "(3.785 liters)" immediately after the phrase "1 gallon"; (b) by substituting the phrase "200 ml" for the phrase "½-pint" wherever the latter term appears; and (c) by revising the references to Part 5. As amended, § 251.202 reads as follows:

§ 251.202 Standards of fill.

Distilled spirits imported into the United States in containers of 1 gallon (3.785 liters) or less for sale shall be imported only in liquor bottles, including liquor bottles of less than 200 ml capacity, which conform to the applicable standards of fill provided in §§ 5.47 or 5.47a of this chapter. Empty liquor bottles, including liquor bottles of less than 200 ml capacity, which conform to the provisions of Subpart E of Part 5 or § 201.540b of this chapter, may be imported for packaging distilled spirits in the United States as provided in Part 201 of this chapter.

Paragraph 51. Section 251.206 is amended (a) by substituting the term "Bureau of Alcohol, Tobacco and Firearms" for the obsolete term "Alcohol, Tobacco and Firearms Division" and (b) by substituting the phrase "200 ml" for the phrase "½-pint". As amended, § 251.206 reads as follows:

§ 251.206 Bottles not constituting approved containers.

The Director, Bureau of Alcohol, Tobacco and Firearms, is authorized to disapprove any bottle, including a bottle of less than 200 ml capacity, for use as a liquor bottle which he determines to be deceptive. * * *

V 41 169 AUG 30 76 UMI

PART 252—EXPORTATION OF LIQUORS

Paragraph 52. Section 252.11 is amended (a) by revising the definitions of "Assistant regional commissioner" and "Director, Alcohol, Tobacco and Firearms Division"; and (b) by adding, in alphabetical order, definitions of "Director", "Liter", and "Regional director". As amended, § 252.11 reads as follows:

§ 252.11 Meaning of terms.

• • • • •

Assistant regional commissioner. A regional director as defined in this section.

• • • • •

Director. The Director, Bureau of Alcohol, Tobacco and Firearms, Department of the Treasury, Washington, D.C.

Director, Alcohol, Tobacco and Firearms Division. The Director as defined in this section.

• • • • •

Liter. A metric unit of capacity equal to 1,000 cubic centimeters of alcoholic beverage, and equivalent to 33.814 fluid ounces. A liter is divided into 1,000 milliliters. Milliliter or milliliters may be abbreviated as "ml".

• • • • •

Regional director. A regional director who is responsible to, and functions under the direction and supervision of, the Director.

• • • • •

Paragraph 53. Section 252.201 is amended (a) by inserting the phrase "(75.7 liters)" immediately after the phrase "20 wine gallons" and (b) by revising the statutory citation. As amended, § 252.201 reads as follows:

§ 252.20 General.

On the exportation, or deposit in a foreign-trade zone for exportation or for storage pending exportation, of distilled spirits in casks or packages filled in internal revenue bond and containing not less tha 20 wine gallons (75.7 liters) each, on which all taxes have been paid or determined, drawback of the internal revenue tax paid or determined may be allowed, subject to compliance with the provisions of this subpart.

(Sec. 3, 48 Stat. 999, as amended (19 U.S.C. 81c); Sec. 201, Pub. L. 85–859, 72 Stat. 1327 (26 U.S.C. 5009).)

Paragraph 54. Section 252.250 is amended (a) by substituting the term "regional director" for the obsolete term "assistant regional commissioner" in the first sentence of the section; (b) by inserting, in paragraph (a) (5), the phrase "or liters" immediately after the word "gallons"; and (c) by revising the statutory citation at the end of the section. As amended, § 252.250 reads as follows:

§ 252.250 Bills of lading required.

A copy of the export bill of lading covering transportation from the port of export to the foreign destination, or a copy of the through bill of lading to the foreign destination, if so shipped, covering the acceptance of the shipment by a carrier for such transportation, shall be obtained and filed by the claimant or exporter with the regional director. • • •

(a) • • •

(5) The total quantity in wine gallons or liters.

• • • • •

(Sec. 201, Pub. L. 85–859, 72 Stat. 1334, 1335, 1336, as amended, 1362, 1380, (26 U.S.C. 5053, 5055, 5062, 5214, 5362); Sec. 3(a), Pub. L. 91–659, 84 Stat. 1965 (26 U.S.C. 5066).)

Signed: August 5, 1976.

REX D. DAVIS,
Director.

Approved: August 20, 1976.

DAVID R. MACDONALD,
Assistant Secretary of the Treasury.

TOXIC CHEMICAL HAZARDS OR COMBINED TOXIC AND EXPLOSIVES HAZARDS SAFETY STANDARDS

Proposed Toxic Chemical Safety Standards

There was published in the FEDERAL REGISTER (41 FR 20686, May 20, 1976) FR Doc. 76–14845, proposed toxic chemical safety standards. The purpose of this miscellaneous amendment to the proposed standards is to change the subject of Part 251 from "TOXIC CHEMICAL HAZARDS OR COMBINED TOXIC AND EXPLOSIVES HAZARDS SAFETY STANDARDSS to DoD AMMUNITION AND EXPLOSIVES SAFETY STANDARDS".

MAURICE W. ROCHE,
Director, Correspondence and Directives OASD (Comptroller).

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 981]

HANDLING OF ALMONDS GROWN IN CALIFORNIA

Proposed Salable, Reserve, and Export Percentages for 1976–77 Crop Year

Notice is given of a proposal to establish salable, reserve, and export percentages of 96.8 percent, 3.2 percent, and 0 percent, respectively, for marketable California almonds delivered to handlers during the 1976–77 crop year. The proposal is in accordance with the provisions of the marketing agreement, as amended, and Order No. 981, as amended (7 CFR Part 981; 41 FR 26852, 27827) regulating the handling of almonds grown in California. The amended agreement and order are effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). The proposal was unanimously recommended by the Almond Board of California.

All persons who desire to file written data, views, or arguments in connection with the aforesaid proposal should file the same, in quadruplicate, with the Hearing Clerk, United States Department of Agriculture, Room 112, Administration Building, Washington, D.C. 20250, to be received not later than September 17, 1976. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during official hours of business (7 CFR 1.27(b)).

This proposal would make 96.8 percent of the 1976 marketable almond production delivered to handlers 255.7 million pounds, available to supply normal domestic and export outlets, and to provide adequate carryover. The Board's marketable production estimate of 264 million pounds, is based upon its 1976 crop estimate of 280 million pounds minus an estimated weight loss of 16 million pounds. This weight loss is expected from the removal of inedible kernels from the crop by handlers and various manufacturing processes.

Trade demand is estimated at 215 million pounds—95 million pounds for domestic needs and 120 million pounds for export needs. A carryover adjustment of 40.7 million pounds is the result of an estimate of 100 million pounds for desirable handler carryover from the 1976 crop minus the 59.3 million pounds handlers carried over from the 1975 crop. Adding the inventory adjustment to the total trade demand estimate equals 255.7 million pounds, the quantity of almonds from the estimated marketable production made available for trade demand needs by the proposal.

The balance of 3.2 percent (8.3 million pounds) of the estimated marketable production delivered to handlers, would be available to develop new outlets noncompetitive with existing normal domestic and export outlets. The development of such new outlets is a long-term necessity for the industry because of anticipated larger crops.

The recent order amendment permits the Board to include export requirements with domestic requirements in its estimate of trade demand when recommending the establishment of salable and reserve percentages for any crop year. This year, the Board included estimated exports in trade demand thereby making export a salable outlet, rather than a reserve outlet. Because of this action, no reserve almonds will be exported pursuant to § 981.66 and an export percentage of 0 is proposed.

On the basis of the foregoing, salable, reserve, and export percentages of 96.8 percent, 3.2 percent, and 0 percent, respectively, appear to be appropriate for the 1976–77 crop year.

The proposal is as follows:

§ 981.226 Salable, reserve, and export percentages for almonds during the crop year, beginning July 1, 1976.

The salable, reserve, and export percentages during the crop year beginning July 1, 1976, shall be 96.8 percent, 3.2 percent, and 0 percent, respectively.

NOTE.—It is hereby certified that the economic and inflationary impacts of this regulation have been carefully evaluated in accordance with OMB Circular A–107.

Dated: August 24, 1976.

CHARLES R. BRADER,
Deputy Director, Fruit and Vegetable Division.

National Oceanic and Atmospheric Administration

[50 CFR Part 215]

PRIBILOF ISLANDS

Proposed Rulemaking

The Fur Seal Act of 1966, 16 U.S.C. 1151–1187 (the Act), among other things, implements the Interim Convention on Conservation of North Pacific Fur Seals, 8 U.S.T. 2283, T.I.A.S. 3948.

On August 19, 1969, regulations (50 CFR Part 215) were published in the FEDERAL REGISTER (34 FR 13371), implementing certain provisions of the Act. These regulations addressed primarily the administration of the Pribilof Islands.

Section 103 of the Act provides for the taking, transportation, and possession of northern fur seals or their parts for educational, scientific or exhibition purposes. These provisions of the Act have not been implemented by regulations. It is proposed to revise 50 CFR Part 215 to implement them.

The proposed revision of Part 215 provides for three subparts. Subpart A sets forth the purpose of the regulations, several definitions and the penalties for violating the Act and regulations. Subpart B sets forth the procedures for authorizing the possession and transportation of fur seals for purposes of education or exhibition and the means by which fur seals may be acquired for this purpose. Subpart C provides for the administration of the Pribilof Islands.

More specifically, § 215.1 states that the purpose of these regulations is to implement the provisions of the Fur Seal Act of 1966. Section 215.2 defines, among other things, fur seal and public display. Section 215.3 sets forth the various penalties which apply for violations of different provisions of the Act and these regulations. Sections 215.4 thru 215.10 are reserved.

Section 215.11 provides that permits are required for obtaining fur seals and sets forth the fee to be charged for the capture, care and holding of the animal.

Section 215.12 authorizes the Director to issue permits and sets forth the information required in an application for a permit. Provision is made for a review of an application by the Marine Mammal Commission.

Section 215.13 sets forth the procedure for the issuance and modification, suspension or revocation of permits. This section provides for notice of receipt of an application for a permit to be published in the FEDERAL REGISTER and an opportunity for the public to submit comments on the application. It also provides for a hearing in the event the Director decides to issue, modify, suspend or revoke a permit.

Section 215.14 sets forth the requirement that a permit must be in the possession of whoever accompanies a fur seal in transit and affixed to the container carrying the fur seal.

Application and permit issuance requirements closely parallel the requirements for obtaining a permit for a marine mammal pursuant to the Marine Mammal Protection Act of 1972, as amended.

Subpart C, §§ 215.21 through 215.26, is a re-publication of the provisions that currently exist for administration of the Pribilof Islands. Generally, this subsection sets limitations on when there may be visits to fur seal rookeries, prohibits dogs on the islands, limits the importation of birds or other marine mammals, provides for the hunting of reindeer and foxes, and provides for the promulgation of local regulations.

Interested persons may submit written comments or views on this proposed rulemaking on or before September 29, 1976. Comments should be submitted to the Director, National Marine Fisheries Service, National Oceanic and Atmospheric Administration, Washington, D.C. 20235.

PART 215—PRIBILOF ISLANDS

Subpart A—General

Sec.
215.1 Purpose and scope.
215.2 Definitions.
215.3 Penalties.

Subpart B—Public Display of Fur Seals

215.11 Taking of fur seals for public display.
215.12 Public display permits.
215.13 Procedures for the issuance, modification, suspension or revocation of permits.
215.14 Possession of permits.

Subpart C—Administration of Pribilof Islands

215.21 Visits to fur seal rookeries.
215.22 Dogs prohibited.
215.23 Importation of birds or mammals.
215.24 Reindeer and foxes.
215.25 Walrus and Otter Islands.
215.26 Local regulations.

AUTHORITY: Pub. L. 89–702, 80 Stat. 1091 (16 U.S.C. 1151–1187); Reorganization Plan No. 4 of 1970, 84 Stat. 2090.

Subpart A—General

§ 215.1 Purpose and scope.

The purpose of these regulations is to implement the provisions of the Fur Seal Act of 1966. The provisions of these regulations apply to the administration of the Pribilof Islands, the take of fur seals, and the procedures for issuing, amending or rescinding display permits for fur seals.

§ 215.2 Definitions.

In addition to definitions contained in the Act, and unless the context otherwise requires, in this Part 215:

(a) Act means the Fur Seal Act of 1966, 80 Stat. 1091, 16 U.S.C. 1151–1187, Pub. L. 89–702.

(b) Convention means the Interim Convention on Conservation of North Pacific Fur Seals, signed at Washington on February 9, 1957, as amended by the Protocol signed at Washington on October 8, 1963, and as extended by Agreement of September 3, 1969. T.I.A.S. 3948, 5558, 6774; 8 U.S.T. 2283; 15 U.S.T. 316; 20 U.S.T. 2992.

(c) Director means the Director of the National Marine Fisheries Service, National Oceanic and Atmospheric Administration, U.S. Department of Commerce.

(d) Fur seal means Northern fur seal scientifically known as *Callorhinus ursinus*.

(e) Public display means, with respect to fur seals, the display, whether or not for profit, of fur seals or fur seal parts for the purposes of education or exhibition.

§ 215.3 Penalties.

Any person who violates the provisions of Title I of the Act which relate to the protection of fur seals, or regulations thereunder as set forth in Subpart B of this part, shall be fined not more than $2000 or be imprisoned not more than one year, or both. Any person who violates or fails to comply with the regulations relating to the use and management of the Pribilof Islands or to the conservation and protection of the fur seals or wildlife or other natural resources located thereon, as set forth in Subpart C of this part, shall be fined not more than $500 or be imprisoned not more than six months, or both.

Subpart B—Public Display of Fur Seals

§ 215.11 Taking of fur seals for public display.

(a) Fur seals will be made available for public display only to holders of public display permits issued pursuant to § 215.13. All takings of fur seals will be by personnel of the National Marine Fisheries Service. The fur seals will thereafter be made available to a permit holder at a place and under such conditions as determined by the Director.

(b) A fee of $600 per animal will be charged for the services provided by the National Marine Fisheries Service in capturing, caring for and holding animals taken for public display, which shall include the fee for permit issuance. The fee is based upon a reasonable approximation of the costs involved in labor, supervision, administration, and overhead. The Director may change the amount of the fee at any time he determines that a different fee is reasonable. A change in fee may be accomplished by publication in the FEDERAL REGISTER of the new amount, without the necessity of amending these regulations.

§ 215.12 Public display permits.

(a) The Director may issue permits authorizing the possession and transportation of fur seals for public display. Any person desiring to obtain such a per-

V 41 169 AUG 30 76 UMI

mit may make application to the Director. The sufficiency of the application shall be determined by the Director and, in that connection, he may waive any requirement for information, or require any elaboration or further information deemed necessary. The information requested will be used as the basis for determining whether an application is complete and whether a public display permit should be issued. An original and two copies of the complete application shall be submitted to the Director, National Marine Fisheries Service, National Oceanic and Atmospheric Administration, U.S. Department of Commerce, Washington, D.C. 20235. Assistance in preparing the application may be obtained by writing the above address to the attention of the Marine Mammals and Endangered Species Division, or by calling the Marine Mammals and Endangered Species Division, in Washington, D.C. (a/c 202/634–7529). In preparing an application for a public display permit, provide the following information:

(1) *Title:* Application for Public Display Permit pursuant to the Fur Seal Act of 1966;

(2) List the date of the application;

(3) If the applicant is a partnership or a corporate entity, set forth the details. If the fur seal to be displayed is to be displayed by a party in addition to the applicant, set forth the name of the party and such other information as would be required if such party were an applicant.

(4) Provide a statement on the purpose of the proposed display, including a brief description of:

(i) The need for the fur seal(s);

(ii) How they will be used.

(5) Provide a description of each animal desired, including the age, sex, and size; and a list of the desired dates of delivery.

(6) Describe the manner of transportation of fur seals including:

(i) Mode of transportation;

(ii) Name of transportation company;

(iii) Length of time in transit for the transfer of the animals from the capture site to the display facility;

(iv) Length of time in transit for any future move or transfer of the animals that is planned;

(v) The qualifications of the common carrier or agent used for transportation of the animals;

(vi) A description of the pen, container, cage, cradle, or other devices used to hold the animal before and during transportation; and

(vii) Special care before and during transportation, such as salves, antibiotics and moisture.

(7) Describe the contemplated care and maintenance of any fur seal sought, including a complete description of the the facilities where such anmials will maintained or displayed, including:

(i) The dimensions of the pools or other holding facilities, and the number of animals by species to be held in each;

(ii) The water supply, amount, and quality;

(iii) The diet, amount and type for all animals;

(iv) Sanitation practices used;

(v) Qualifications and experience of the staff; and

(vi) A written certification from a licensed veterinarian knowledgeable in the field of marine mammals that he has personally reviewed the arrangements for transporting and maintaining the animal(s) and that in his opinion they are adequate to provide for the well-being of the animal(s).

(8) Provide a detailed description of the proposed display, including:

(i) A description of the manner, location and number of times per day and per week the animal(s) will be displayed;

(ii) An indication as to whether the display is for profit;

(iii) An estimate of numbers and types of people who it is estimated will benefit by such display;

(iv) A list of any educational or scientific programs connected to the contemplated display; and

(v) A description of the applicant's enterprise and its connections with any governmental, educational, medical, or other scientific entities.

(9) For the year preceding the date of this application, provide the following:

(i) A list of all marine mammals captured, transported or maintained for any purpose by or on behalf of the applicant;

(ii) The numbers of mortalities among such mammals, by species, by date and location of such mortalities;

(iii) The cause(s) of any such mortalities including when available copies of post-mortem reports; and

(iv) The steps which have been taken by the applicant to avoid or reduce such mortalities.

(10) A certification in the following language:

> I hereby certify that the foregoing information is complete, true, and correct to the best of my knowledge and belief. I understand that this information is submitted for the purpose of obtaining a permit under the Fur Seal Act of 1966 and regulations promulgated thereunder, and that any false statement may subject me to the criminal panalties of 18 U.S.C. 1001.

(11) The applicant must sign the application.

(b) Upon receipt of an application for a public display permit, the Director shall forward the application to the Marine Mammal Commission together with a request for the recommendations of the Commission and the Committee of Scientific Advisors on Marine Mammals on the permit application. In order to comply with the time limits provided in these regulations, the Director shall request that such recommendation be submitted within 30 days of receipt of the application by the Commission. If the Commission or the Committee, as the case may be, does not respond within 30 days from the receipt of such application by the Commission, the Director shall advise the Commission in writing that failure to respond within 45 days from original receipt of the application (or such longer time as the Director may establish) shall be considered as a recommendation from the Commission and the Committee that the permit be issued. The Director may also consult with any other person, institution or agency concerning the application.

(c) Permits applied for under this section shall be issued, suspended, modified or revoked pursuant to § 215.13. In determining whether to issue a public display permit, the Director shall, among other criteria, consider whether the proposed taking will be consistent with the policies and purposes of the Act: whether a substantial public benefit will be gained from the display contemplated, taking into account the manner of the display and the anticipated audience on the one hand, and the effect of the proposed taking and the marine ecosystem on the other; and the applicant's qualifications for the proper care and maintenance of and the adequacy of his facilities.

(d) Permits applied for under this section shall contain terms and conditions as the Director may deem appropriate, including:

(1) The methods of transportation, care and maintenance to be used with live marine mammals;

(2) Any requirements for reports or rights of inspection with respect to any activities carried out pursuant to the permit;

(3) The transferability or assignability of the permit; and

(4) The sale or other disposition of the fur seal and its progeny.

§ 215.13 Procedures for the issuance, modification, suspension or revocation of permits.

(a) Whenever a complete application for a permit is received by the Director, he shall, as soon as practicable, publish a notice thereof in the FEDERAL REGISTER. Such notice shall set forth a summary of the information contained in the application. Any interested party may, within 30 days after the date of publication of the notice, submit to the Director his written data or views with respect to the taking or importation proposed in such application and may request a hearing in connection with the action to be taken thereon.

(b) If a request for a hearing is made within the 30-day period referred to in paragraph (a) of this section, or if the Director determines that a hearing would otherwise be advisable, the Director may, within 60 days after the date of publication of the notice referred to in paragraph (a) of this section, afford to such requesting party or parties an opportunity for a hearing. Such hearing shall also be open to participation by any interested members of the public. Notice of the date, time, and place of such hearing shall be published in the FEDERAL REGISTER not less than 15 days in advance of such hearing. Any interested person may appear in person or through representatives at the hearing and may submit any relevant material, data, views, comments, arguments, or exhibits. A summary record of the hearing shall be kept.

(c) As soon as practicable but not later than 30 days after the close of the hearing (or if no hearing is held, as soon as practicable after the end of the 30 days succeeding publication of the notice referred to in paragraph (a) of this section) the Director shall issue or deny issuance of the permit. Notice of the decision of the Director shall be published in the FEDERAL REGISTER within 10 days after the date of the issuance or denial and indicate where copies of the permit, if issued, may be obtained.

(d) Any permit shall be subject to modification, suspension or revocation by the Director in whole or in part in accordance with these regulations and the terms of such permits. The permittee shall be given written notice by registered mail, return receipt requested, of any proposed modification, suspension, or revocation. Such notice shall specify:

(1) The action proposed to be taken and a summary of the reasons therefore;

(2) The steps, if any, which the permittee may take to demonstrate or achieve compliance with all lawful requirements;

(3) Shall advise the permittee that he is entitled to a hearing thereon, if a written request for such a hearing is received by the Director within 10 days after the date of receipt of the aforesaid notice or such other date as may be specified in the notice to the permittee. The time and place for the hearing, if requested by the permittee, shall be determined by the Director and written notice thereof given to the permittee by registered mail, return receipt requested, not less than 15 days prior to the date of the hearing. The Director may, in his discretion, allow participation at the hearing by interested members of the public. The permittee and others participating may submit all relevant material, comments and briefs at the hearing. A summary record shall be kept of the hearing.

(e) The Director shall make a determination regarding the proposed modification, suspension or revocation as soon as practicable after the close of the hearing or if no hearing is held as soon as practicable after the close of the 10-day period during which a hearing could have been requested. Notice of the Director's decision to modify, suspend or revoke shall be published in the FEDERAL REGISTER as soon as practicable.

(f) Any permittee shall have the opportunity to request modification of a permit. An application to modify a permit shall contain, to the extent relevant, the information requested in § 215.13. An application to modify a permit shall be processed in accordance with this section.

§ 215.14 Possession of permits.

(a) Any permit issued under these regulations must be in the possession of the permittee or his authorized representative who accompanies the transit of a fur seal for which the permit was issued.

(b) A duplicate copy of the permit must be physically attached to the container, package, enclosure, or other means of containment in which the fur seal is placed for the purpose of storage, transit, supervision or care.

Subpart C—Administration

§ 215.21 Visits to fur seal rookeries.

From June 1 to October 15 of each year, no person, except those authorized by a representative of the National Marine Fisheries Service, or accompanied by an authorized employee of the National Marine Fisheries Service, shall approach any fur seal rookery or hauling grounds nor pass beyond any posted sign forbidding passage.

§ 215.22 Dogs prohibited.

In order to prevent molestation of fur seal herds, the landing of any dogs at Pribilof Islands is prohibited.

§ 215.23 Importation of birds or mammals.

No mammals or birds, except household cats, canaries and parakeets, shall be imported to the Pribilof Islands without the permission of an authorized representative of the National Marine Fisheries Service.

§ 215.24 Reindeer and foxes.

(a) The reindeer herd on St. Paul Island is Government-owned. When it is determined that a surplus exists, hunting will be allowed to the extent of the surplus.

(b) Foxes may be hunted or trapped when prime during the months of December and January by holders of trapping licenses issued by the State of Alaska.

§ 215.25 Walrus and Otter Islands.

By Executive Order 1044, dated February 27, 1909, Walrus and Otter Islands were set aside as bird reservations. All persons are prohibited to land on these islands except those authorized by the appropriate representative of the National Marine Fisheries Service.

§ 215.26 Local regulations.

Local regulations will be published from time to time and will be brought to the attention of local residents and persons assigned to duty on the Islands by posting in public places and brought to the attention of tourists by personal notice.

JACK W. GEHRINGER,
Deputy Director, National Marine Fisheries Service.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[21 CFR Part 102]

[Docket No. 76N–0336]

SUBSTITUTES FOR MARGARINE (OLEOMARGARINE) OR BUTTER

Common or Usual Name

The Food and Drug Administration (FDA) is proposing to establish a common or usual name for substitutes for margarine (oleomargarine) or butter that contain less fat and/or oil than margarine or butter. For a substitute that is not nutritionally inferior to margarine or butter the name proposed is "---------- spread" with the blank to be filled in with the common or usual name(s) of the fat and/or oil ingredient(s), or a collective (generic) term(s) describing the fat and/or oil ingredients, together with a declaration of the percentage by weight of total fat, e.g., "vegetable oil spread—contains 40 percent fat," "dairy spread—contains 40 percent fat," "vegetable oil and dairy spread—contains 40 percent fat." The proposal is made pursuant to the general principles and procedure in Part 102 (21 CFR Part 102) for establishing common or usual names for nonstandardized foods. Interested persons have until October 29, 1976 to submit comments.

DESCRIPTIVE NAME

In recent years a number of substitutes for margarine or butter have appeared on the market. The substitutes do not conform to the standard of identity for margarine (21 CFR 45.1) or the standard for butter (21 U.S.C. 321a (42 Stat. 1500)) in that the total fat content is less than 80 percent by weight. The substitutes currently on the market have various names: Those with 40 percent fat content may be labeled as "Diet Imitation Margarine," "Diet Spread Imitation Margarine" or "(brand name) Imitation Margarine"; products with 60 percent fat content may be labeled as "60 percent vegetable oil spread" or "(brand name) Spread." These products do not always bear a prominent declaration of fat content as part of the name. A lot of a margarine substitute has been seized on grounds that the food was misbranded because, among other things, the label did not bear a meaningful and descriptive name.

In response to inquiries, advisory letters have stated that a margarine substitute may be labeled with a descriptive common or usual name such as "vegetable oil spread—40 percent fat," and that a butter substitute may be labeled with a name such as "dairy spread—40 percent butterfat." Copies of these advisory letters are on file and may be seen in the office of the Hearing Clerk, Food and Drug Administration, Rm. 4–65, 5600 Fishers Lane, Rockville, MD 20852. However, to remove the uncertainty that may exist in industry as to the correct common or usual name for substitutes for margarine or butter, the Commissioner on his own initiative proposes to establish one common or usual name for both these products.

Representatives from several manufacturers of margarine substitutes met with personnel from FDA and suggested a common or usual name for margarine substitutes. This suggestion has been considered. Copies of the memorandum of meeting and the common or usual name regulation suggested by the representatives of the manufacturers are on file at the office of the Hearing Clerk, Food and Drug Administration.

V 41 169 AUG 30 76 UMI

IMITATION DESIGNATION

Section 403(c) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 343 (c)), as interpreted by § 1.8(e) (21 CFR 1.8(e)), requires a food to be labeled as an imitation of another food if it substitutes for and resembles the other food and is also nutritionally inferior to the other food; § 1.8(e) excludes a reduction in fat or caloric content as a criterion of nutritional inferiority.

The Commissioner of Food and Drugs notes that an intended effect of § 1.8(e) is to discourage the gradual nutritional deterioration of the American diet through the introduction of products that may replace traditional products but are nutritionally inferior to them. When a nutritionally inferior product is introduced, the requirement that it be labeled as an imitation in accordance with the provisions of § 1.8(e) will alert consumers to the inferiority.

A food which resembles margarine or butter in appearance and taste but which fails to meet the respective standards for margarine and butter is inherently a substitute. These products are usually displayed for sale adjacent to margarine and butter; pictorial representations of these products on packages frequently show uses that are identical to common uses of margarine and butter; and directions for use compare the products to margarine and butter. Therefore, the Commissioner concludes that a substantial likelihood of substitution exists and that any substitute that is nutritionally inferior to margarine or butter must be labeled as an imitation to inform consumers of the inferiority.

The nutrients that are present in significant quantities in a serving of approximately one pat of margarine or butter are vitamin A, and sometimes vitamins D and E.

Margarine is required by its standard of identity to contain 15,000 international units of vitamin A per pound, and butter is a natural source of vitamin A and contains an average of approximately 15,000 international units of vitamin A per pound. Consequently, under the proposal, a substitute that does not contain this amount of vitamin A would be considered to be nutritionally inferior to margarine or butter and would be required to be labeled as an imitation.

The Commissioner advises that the vitamin D content of butter varies according to the diet of the cows supplying the milk and that addition of vitamin D to margarine is optional under the standard of identity. Likewise, certain vegetable oils used as ingredients in margarine may contain high levels of vitamin E, but margarine manufactured from animal fats, and butter manufactured from milk produced in the winter may contain low levels of vitamin E. The Food and Drug Administration does not presently have enough information to be able to set a vitamin E value for nutritional equivalence. Therefore, the Commissioner advises that he will not regard a substitute to be nutritionally inferior to margarine or butter solely on account of its vitamin D or E content.

Fat is a valuable constituent in margarine and butter and in substitutes for these foods, and the fat content may have a material bearing on price and consumer acceptance. Because declaration of the fat and/or oil ingredient(s) by name alone would not enable consumers to distinguish among substitutes with different fat contents, the Commissioner proposes that a statement of the percentage by weight of total fat be included in the common or usual name of a substitute for margarine or butter.

The Commissioner advises that he will regard a spread that contains fats and/or oils other than milk fat and bears the common or usual name provided for in the proposed regulation to be a margarine substitute rather than a butter substitute. Accordingly, in the absence of other labeling that suggests the food is offered as a butter substitute, section 407 of the act (21 U.S.C. 347) would not be applicable to such a spread. Spreads containing milk fat as the sole fat and/or oil ingredient are not subject to section 407 of the act when offered as a butter substitute because the spreads are not within the definition of margarine (oleomargarine) found in 15 U.S.C. 55 and § 45.1 (21 CFR 45.1).

The Commissioner has carefully considered the environmental effects of the proposed regulation and, because the proposed action will not significantly affect the quality of the human environment, has concluded that an environmental impact statement is not required. The Commissioner has also carefully considered the inflation impact of the proposed regulation as required by Executive Order 11821, OMB Circular A-107, and the Guidelines issued by the Department of Health, Education, and Welfare, and no major inflation impact has been found. Copies of the FDA environmental and inflation impact assessments are on file with the Hearing Clerk, Food and Drug Administration.

Therefore, under the Federal Food, Drug, and Cosmetic Act (secs. 201(n), 403, 701(a), 52 Stat. 1041, as amended, 1047-1048, as amended, 1055 (21 U.S.C. 321(n), 343, 371 (a))) and under authority delegated to the Commissioner (21 CFR 5.1) (recodification published in the FEDERAL REGISTER of June 15, 1976 (41 FR 24262)),

It is proposed that Part 102 be amended by adding new § 102.27 to read as follows:

§ 102.27 Substitutes for margarine or butter.

(a) The common or usual name of a substitute for margaine (oleomargarine) or butter that contains less than 80 percent by weight of total fat and/or oil shall include the term "----------spread" with the blank to be filled in with a listing (in the order of predominance) of either the specific common or usual name of each fat and/or oil ingredient, or a collective (generic) term(s) that describes the fat and/or oil ingredients, e.g., "vegetable oil spread," "dairy spread."

(b) The common or usual name of a substitute for margarine or butter shall include declaration, in the manner set forth in § 102.1(b), of the percentage by weight of total fat and/or oil, e.g., "vegetable oil spread—contains 40 percent fat."

(c) A substitute for margarine (oleomargaine) or butter that is nutritionally inferior to margarine or butter shall be labeled as an imitation pursuant to § 1.8(e) of this chapter. For purposes of § 1.8(e)(2) of this chapter, a substitute for margarine (oleomargarine) or butter shall not be considered nutritionally inferior due to its vitamin D or E content.

Interested persons may, or or before October 29, 1976, submit to the Hearing Clerk, Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, MD 20852, written comments (preferably in quintuplicate and identified with the Hearing Clerk docket number found in brackets in the heading of this document) regarding this proposal. Received comments may be seen in the above office during working hours, Monday through Friday.

Dated: August 23, 1976.

JOSEPH P. HILE,
Acting Associate Commissioner for Compliance.

DEPARTMENT OF TRANSPORTATION

Coast Guard

[33 CFR Part 117]

[CGD 76-168]

ATCHAFALAYA RIVER, LA

Proposed Drawbridge Operation Regulations

At the request of the Louisiana and Arkansas Railway Company, the Coast Guard is considering revising the regulations for the railroad drawbridge across the Atchafalaya River, mile 133.1, to require at least six hours notice from 4 p.m. to 8 a.m., Monday through Friday, and on Saturday and Sunday. From 8 a.m. to 4 p.m., Monday through Friday, the draw would open on signal. The draw is presently required to open on signal at all times. This change is being considered because of relatively few nighttime openings (an average of 1.4 per week) and weekend openings (an average of .31 per week) over a six month period.

Interested persons may participate in this proposed rule making by submitting written data, views, or arguments to the Commander (oan), Eighth Coast Guard District, Hale Boggs Federal Building, 500 Camp Street, New Orleans, Louisiana 70130. Each person submitting comments should include his name and address, identify the bridge, and give reasons for any recommended change in the proposal. copies of all written communications received will be available for examination by interested persons at the office of the Commander, Eighth Coast Guard District.

The Commander, Eighth Coast Guard District, will forward any comments received before October 1, 1976, with his recommendations to the Chief, Office of Marine Environment and Systems, U.S. Coast Guard Headquarters, Washington, D.C., who will evaluate all communications received and take final action on this proposal. The proposed regulations may be changed in the light of comments received.

In consideration of the foregoing, it is proposed that Part 117 of Title 33 of the Code of Federal Regulations, be amended by adding a new § 117.570 immediately after § 117.560 to read as follows:

§ 117.560 Atchafalaya River, La., bridges.

The swing span of the Louisiana and Arkansas railroad bridge, mile 133.1 shall open on signal from 8 a.m. to 4 p.m. Monday through Friday. At all other times the swing span shall open on signal if at least six hours notice is given.

(Sec. 5, 28 Stat. 362, as amended, sec. 6(g)(2), 80 Stat. 937 (33 U.S.C. 499, 49 U.S.C. 1655(g)(2)); 49 CFR 1.46(c)(5), 33 CFR 1.50-1(c)(4)).

Dated: August 23, 1976.

A. F. FUGARO,
Rear Admiral, U.S. Coast Guard, Chief, Office of Marine Environment and Systems.

Federal Aviation Administration

[14 CFR Part 39]

[Airworthiness Docket No. 76-SW-46]

BELL MODEL 47K HELICOPTERS

Airworthiness Directives

Amendment 428 (27 FR 3844) AD 62-10-1 (published as an amendment to § 507.10(a) of Part 507 of the Regulations of the Administrator (14 CFR Part 507 (1962)) under Regulatory Docket No. 1085) required installation of clevis pins and repetitive inspections of the synchronized elevator on certain Bell Model 47J helicopters, After issuing Amendment 428, AD 62-10-1, the Bell Model 47K helicopters have entered civil service; and these helicopters use a synchronized elevator design similar to the Model 47J. Recently a Model 47K reportedly experienced a fatigue failure of the elevator spar.

Therefore, the agency is considering issuing a new AD for the Bell Model 47K helicopter prescribing requirements similar to those in Amendment 428, AD 62-10-1.

Interested persons are invited to participate in the making of the proposed rule my submitting such written data, views, or comments as they may desire. Communications should identify the docket number and be submitted in triplicate to the Regional Counsel, Southwest Region, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Texas 76101. All communications received on or before September 30, 1976, will be considered by the Director before taking action upon the proposed rule. The proposals contained in this notice may be changed in the light of comments received. All comments will be available, both before and after the closing date for comments in the Office of Regional Counsel for examination by interested persons.

(Secs. 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, 1423) and of Section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).)

In consideration of the foregoing, it is proposed to amend § 39.13 of Part 39 of the Federal Aviation Regulations by adding the following new airworthiness directive:

BELL. Applies to Bell Model 47K helicopters certificated in all categories.

Compliance required as indicated.

A report has been received of fatigue cracking of the tubular spar of the synchronized elevator at the Rollpin hole. To preclude possible separation of the elevator from the helicopter, accomplish the following:

(a) Within 25 hours' time in service after the effective date of this AD:

(1) Remove the elevators from the tail boom in accordance with the Bell Maintenance Manual.

(2) Clean the area around the Rollpin hole and remove any zinc chromate putty from any plugged hole in the tubular spar at B.L. 7.0 for both right and left elevators.

(3) Inspect for cracks in the tubular spar of both elevators at the Rollpin hole at B.L. 7.0 using a 5-power or higher magnifying glass.

(4) Inspect the inboard rib for cracks using a 5-power or higher magnifying glass.

(b) If cracks are found in the tubular spar, modify the elevator with Bell Helicopter Kit No. 47-3746-1 or 47-3746-2, "Improved Design Synchronized Elevator," or FAA engineering approved equivalent prior to further flight.

(c) If no cracks are found in the tubular spar, install clevis pin in accordance with subparagraphs (1) through (4) below or in accordance with item 2 of Bell Helicopter Company Service Bulletin No. 135SB dated July 27, 1961, or later approved revision, and reinspect in accordance with subparagraph (5).

(1) Position coupling assembly P/N 47-267-483-1 on elevators and line drill through Rollpin holes with a "D" (0.2460-inch diameter) drill. Remove sharp edges from holes. Install MS 20392-3-49 clevis pins, AN 960-4162 washers, and AN 381-3-6 cotter pins. A finger tight slip fit of the clevis pins is desired, approximately 0.0005 inch loose.

(2) Reinstall the elevator on the helicopter, shim as required to prevent preload or end play at bearings.

(3) Check clearance between skin and end of clevis pins. Trim skin, if necessary, to obtain clearance.

(4) Rerig elevator is accordance with the Bell Maintenance manual.

(5) Reinspect in accordance with (a)(1) through (a)(3) within each succeeding 50 hours' time in service until Bell Helicopter Kit No. 47-3746-1 or 47-3746-2, "Improved Design Synchronized Elevator," or FAA approved equivalent is installed.

(d) If cracks are found in the inboard rib, repair the elevator as specified below, or modify with Bell Helicopter Kit No. 47-3746-1 or 47-3746-2, or FAA engineering approved equivalent prior to further flight.

(1) Remove the inboard rib by drilling out the rivets and remove the Bell P/N 47-267-404-7 shoulder from the rib by drilling out the rivets.

(2) Add a doubler of 0.032 thickness, or a new rib of 0.032 thickness, material aluminum alloy 2024-0, or a Bell rib P/N 47-267-453-7 (one required per elevator).

(3) Rivet Bell P/N 47-267-404-1 shoulder to the old rib and new doubler or to the new rib. Use the rivet pattern in the shoulder with AN 470-AD3 or -4 rivets.

Install the rib assembly, using the rivet pattern in the elevator skin with MS 20600 AD4 or -5 rivets.

(e) If no cracks are found in the inboard rib:

(1) Reinstall the elevator on the helicopter in accordance with Bell Maintenance Manual.

(2) Reinspect rib for cracks in accordance with (a)(4) within each succeeding 50 hours' time in service until Bell Helicopter Kit No. 47-3746-1 or 47-3746-2, "Improved Design Synchronized Elevator," or FAA engineering approved equivalent is installed.

(f) Upon request of the operator, an FAA maintenance inspector subject to prior approval of the Chief, Engineering and Manufacturing Branch, Southwest Region, may adjust the repetitive inspection intervals specified in this AD to permit compliance at an established inspection period of the operator if the request contains substantiating data to justify the increase for such operator.

Issued in Fort Worth, Texas, on August 19, 1976.

A. H. THURBURN,
Acting Director, Southwest Region.

[FR Doc.76-25095 Filed 8-27-76;8:45 am]

[14 CFR Part 39]

[Docket No. 76-EA-46]

BOEING VERTOL AIRCRAFT

Airworthiness Directive

The Federal Aviation Administration is considering amending § 39.13 of Part 39 of the Federal Aviation Regulations so as to issue an airworthiness directive applicable to Boeing Vertol type 107-II helicopters.

There have been reports of corrosion which could lead to cracks in the main rotor blade of the subject helicopters. Since this deficiency can exist or develop in helicopters of similar design, the proposed airworthiness directive would require a repetitive inspection and alteration or replacement of the main rotor blade.

Interested parties may submit such written data or views as they may desire. Communications should be submitted in triplicate to the Director, Eastern Region, Attn: Chief, Engineering and Manufacturing Branch, Department of Transportation, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, New York 11430. All communications received on or before September 29, 1976 will be considered before action is taken on the proposed amendment. No hearing is contemplated at this time, but arrangements may be made for informal conferences with Federal Aviation Administration officials by contacting the Chief, En-

V 41 169 AUG 30 76 UMI

gineering and Manufacturing Branch, Eastern Region.

Any data or views presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested parties at the Office of Regional Counsel, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, New York.

In consideration of the foregoing, it is proposed to issue a new airworthiness directive as hereinafter set forth:

BOEING VERTOL: Applies to Boeing Vertol Model 107–II Helicopters Certificated in all Categories.

Compliance required as follows:

To detect corrosion which could lead to cracking of the main rotor blade spars accomplish the following within the next 60 days unless already accomplished within the past 34 months and every 36 months thereafter.

(a) Inspect for corrosion, and alter if necessary, main rotor blades P/N's 107R1202 and SK24790 series in accordance with Boeing Vertol Co. Service Bulletin No. 107–333 (R–1) dated July 1, 1976, Section 2 "Accomplishment Instructions" or equivalent procedure approved by the Chief, Engineering and Manufacturing Branch, FAA, Eastern Region.

(b) If spar corrosion exceeds the limits in the service bulletin or those approved by the Chief, Engineering and Manufacturing Branch, FAA, Eastern Region, replace the main rotor blade with one that has been inspected and altered if necessary, in accordance with the service bulletin and/or an acceptable equivalent procedure found acceptable.

(Sec. 313(a), 601 and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421 and 1423), and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).)

Issued in Jamaica, New York, on August 11, 1976.

L. J. CARDINALI,
Acting Director,
Eastern Region.

[FR Doc.76–25098 Filed 8–27–76;8:45 am]

[14 CFR Part 39]

[Docket No. 76–WE–17–AD]

LOCKHEED-CALIFORNIA COMPANY L–1011–385 SERIES AIRPLANES

Airworthiness Directives

The Federal Aviation Administration is considering amending Part 39 of the Federal Aviation Regulations by adding an airworthiness directive applicable to Lockheed-California Company L–1011–385 series airplanes which have C–1A cargo door installed. The latch pins on the latch fittings of the C–1A cargo door surround structure on Lockheed-California Company L–1011–385 series airplanes could be incorrectly installed during maintenance replacements and this could result in a possible in-flight loss of the C–1A cargo door.

Since this condition is likely to exist or develop in other airplanes of the same type design, the proposed airworthiness directive would require installation of latch pin guard assemblies and related components, reidentification of the latch fitting assemblies and check of proximity sensors adjustment on Lockheed-California Company L–1011–385 series airplanes.

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Information on the economic, environmental, and energy impact that might result because of adoption of the proposed rule is required. Communications should identify the docket number and be submitted in duplicate to the Federal Aviation Administration, Office of the Regional Counsel, Attention: Rules Docket, 92007 Worldway Postal Center, Los Angeles, CA 90009. All communications received on or before September 28, 1976, will be considered by the Administrator before taking action upon the proposed rule. The proposals contained in this notice may be changed in the light of comments received. All comments will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons.

(Secs. 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, 1423) and of Section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)))

In consideration of the foregoing, it is proposed to amend § 39.13 of Part 39 of the Federal Aviation Regulations by adding the following new airworthiness directive:

LOCKHEED-CALIFORNIA CO. Applies to Lockheed Model L–1011–385 series airplanes certificated in all categories having C–1A cargo door installed.

Compliance required within the next 300 hours' time in service after the effective date of this AD, unless already accomplished.

To prevent the latch pins on the latch fittings of the C–1A cargo door surround structure from being incorrectly installed during maintenance replacement, which could result in a possible in-flight loss of the C–1A cargo door, accomplish the following:

a. Install latch pin guard assemblies and related components, reidentify the latch fitting assemblies and check proximity sensors adjustment as necessary, on the C–1A cargo door surround structure, in accordance with Lockheed-California Company Service Bulletin 093–52–083 dated May 25, 1976, or later FAA-approved revision or equivalent modification approved by the Chief, Aircraft Engineering Division, FAA Western Region.

b. Airplanes may be flown in accordance with FAR 21.197 to a base where the modification can be performed.

Issued in Los Angeles, California on August 20, 1976.

ROBERT H. STANTON,
Director, FAA Western Region.

[FR Doc.76–25096 Filed 8–27–76;8:45 am]

[14 CFR Part 71]

[Airspace Docket No. 76–SW–45]

CARLSBAD, N. MEX.

Alteration of Control Zone and Transition Area

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation Regulations to alter controlled airspace in the Carlsbad, N. Mex., terminal area.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to Chief, Airspace and Procedures Branch, Air Traffic Division, Southwest Region, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Texas 76101. All communications received on or before September 29. 1976 will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Chief, Airspace and Procedures Branch. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested persons at the Office of the Regional Counsel, Southwest Region, Federal Aviation Administration, Fort Worth, Texas. An informal docket will also be available for examination at the Office of the Chief, Airspace and Procedures Branch, Air Traffic Division.

It is proposed to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth.

1. In § 71.171 (41 FR 355), the Carlsbad, N. Mex., control zone is amended to read:

CARLSBAD, N. MEX.

Within a 5-mile radius of Cavern City Air Terminal (latitude 32°20'14" N., longitude 104°15'46" W.) and within 3.5 miles each side of the Carlsbad VOR 336° and 156° radials extending from the 5-mile-radius zone to 10 miles southeast of the VOR and 2.5 miles each side of the Carlsbad VOR 334° radial extending from the 5-mile-radius zone to 12.5 miles northwest of the VOR.

2. In § 71.181 (41 FR 440), the Carlsbad, N. Mex., transition area is amended to read:

CARLSBAD, N. MEX.

That airspace extending upward from 700 feet above the surface within an 8.5-mile radius of Cavern City Air Terminal (latitude 32°20'14" N., longitude 104°15'46" W.) and within 3.5 miles each side of the Carlsbad VOR 156° radial extending from the 8.5-mile-radius area to 11 miles southeast of the VOR.

These amendments will provide the necessary controlled airspace for the RNAV RWY 14R instrument approach procedure to Cavern City Air Terminal.

(Sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348) and of Sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Fort Worth, TX., on August 10, 1976.

HENRY L. NEWMAN,
Director, Southwest Region.

[FR Doc.76–25097 Filed 8–27–76;8:45 am]

National Highway Traffic Safety Administration

[49 CFR Part 571]

[Docket No. 76–06 Notice 1]

SPEEDOMETERS AND ODOMETERS

Motor Vehicle Safety Standard

This notice proposes a new Federal motor vehicle safety standard that would require vehicles to be equipped with speed and distance indicators, establish accuracy requirements for the indicators, limit the speed indicator scale to 85 mph, and require that distance indicators be tamper-resistant.

On February 22, 1974 (39 FR 6765), the NHTSA published a request for comments on the question whether there should be a rule concerning maximum speedometer indication and, if so, the most appropriate maximum indication. The comments were to take into account the current lower speed limits, the corresponding highway fatality reduction, driver convenience, and the expected effectiveness of such a rule. That notice was not a step in rulemaking procedure and stated that no final action would be taken without further notice and opportunity to comment.

Developments since publication of the previous notice have provided further indications that a speedometer scale limitation would be beneficial. Definitive judgments can now be made concerning the effect of the speed limit reduction to 55 mph on high-speed-related fatalities. The 1974 statistics show 9,400 fewer motor-vehicle related fatalities than in 1973. Further, several studies concerning the effects of the nationwide 55 mph speed limit have shown that slower and more uniform speeds, and not reduced travel, are primarily responsible for the 17 percent drop in the fatality rate.

Congress has now made the 55 mph limit permanent, recognizing not only the fatality reduction and fuel conservation benefits, but also the generally favorable public reaction to lower speeds. This proposed standard for reduced maximum speedometer indication has been initiated to help maintain these lower speeds at minimum costs.

Benefits are expected to be achieved by the proposed standard in several ways. First, whatever temptation present speedometers provide immature drivers to test the top speed of their vehicles will be diminished. Second, shifting the indication for 50 or 60 mph from the center of the speedometer dial nearer to the right end should suggest to drivers that these speeds are near the legal limit. Existing speedometers which indicate speeds of 120 mph or more use more than half of the dial to indicate illegal and dangerous speeds.

Finally, limiting the maximum indication to 85 mph will allow speedometer dials to be more precisely graduated and more readable in the range of speeds normally driven. The NHTSA regards 85 mph as an appropriate maximum indication, since a much higher figure would defeat the desired effect of the rule.

The NHTSA has received indications from the four large domestic automobile manufacturers that they intend to voluntarily reduce maximum speedometer indications on most models in the near future. Two of the manufacturers plan reductions to an 85 mph upper reading, and the other two manufacturers plan reductions to 100 mph. The NHTSA appreciates these voluntary efforts, although a 100 mph maximum reading is not considered a sufficient reduction, as noted earlier. In conjunction with the voluntary efforts on the part of these manufacturers, the NHTSA believes this proposal is necessary to initiate meaningful discussion from the industry as a whole on reduction of the upper readings of their speedometer scales. Reasonable leadtime would be given so that the reductions could be accomplished during normal model-year changes.

The proposed standard also requires a tamper-resistant odometer for all vehicles having a gross vehicle weight rating of 16,000 pounds or less. Vehicles with a GVWR of more than 16,000 pounds are excluded from the odometer requirement. These larger vehicles are routinely driven hundreds of thousands of miles, and maintenance records rather than odometer readings are traditionally used as the means of determining condition.

The purpose of the odometer requirements is twofold. First, it is important that purchasers of used vehicles know the actual road mileage of the vehicle they are buying, in order to ascertain the probable condition of the vehicle. If an odometer has been rolled back to show a false road mileage, the purchaser might be lulled into a false sense of security and forego needed maintenance or repairs. Second, it is important that odometers be accurate so that owners can maintain preventive maintenance schedules and assure that their vehicles are in safe working condition.

In summary, this proposed standard requires all motor vehicles, with the exception noted above, to be equipped with speedometers and odometers. The standard specifies accuracy requirements for the indicators, and limits the speedometer indication scale to 85 mph. Finally, odometers are required to be designed so that they cannot be turned in the reverse direction, for the purpose of preventing consumer fraud and the presence of potentially dangerous vehicles on the nation's highways.

The preliminary Economic Impact Analysis of this proposed standard has been placed in the docket and is available for public inspection. The analysis discusses both the expected costs and the expected benefits of the proposed requirements. The analysis indicates that the limitation of speedometer scales to 85 mph would cause a decrease in high-speed driving and result in an estimated 175 fewer fatal accidents and 1,900 fewer injury accidents. The proposed odometer requirements would result in the prevention of a percentage of the accidents attributable to vehicular defects and mechanical problems resulting from neglected vehicle maintenance. The analysis estimates that the odometer requirements would result in the reduction of 660 accidents.

The economic impact of this proposed standard is estimated to be minimal. With sufficient leadtime, the majority of the requirements could be incorporated during normal model-year changes. The requirement that odometers indicate when 100,000 miles or 100,000 kilometers have been exceeded would result in an annual cost of $1.00 per vehicle, if a six-digit odometer is used to satisfy the requirement. However, if sufficient leadtime is given, the cost of this requirement should be negligible.

In consideration of the foregoing, it is proposed that a new motor vehicle safety standard be added to 49 CFR Part 571 as set forth below.

Interested persons are invited to submit comments on the proposal. Comments should refer to the docket number and be submitted to: Docket Section, National Highway Traffic Safety Administration, Room 5108, 400 Seventh Street, S.W., Washington, D.C. 20590. It is requested but not required that 10 copies be submitted.

All comments received before the close of business on the comment closing date indicated below will be considered, and will be available for examination in the docket at the above address both before and after that date. To the extent possible, comments filed after the closing date will also be considered. However, the rulemaking action may proceed at any time after that date, and comments received after the closing date and too late for consideration in regard to the action will be treated as suggestions for future rulemaking. The NHTSA will continue to file relevant material as it becomes available in the docket after the closing date, and it is recommended that interested persons continue to examine the docket for new material.

Comment closing date: November 29, 1976.

Proposed effective date: September 1, 1979.

(Sec. 103, 119, Pub. L. 89–563, 80 Stat. 718 (15 U.S.C. 1392, 1407); delegations of authority at 49 CFR 1.50 and 49 CFR 501.8)

Issued on August 6, 1976.

ROBERT L. CARTER,
Associate Administrator,
Motor Vehicle Programs.

V41169 AUG 30 76 UMI

MOTOR VEHICLE SAFETY STANDARD NO. —

SPEEDOMETERS AND ODOMETERS

S1. *Scope.* This standard establishes requirements for the installation and accuracy of speedometers and odometers in motor vehicles, limits the speedometer indication scale to 85 mph, and requires that odometers be tamper-resistant.

S2. *Purpose.* The purpose of this standard is to provide each motor vehicle with the instruments needed to maintain safe driving speeds and to maintain proper maintenance schedules, to help ensure that the vehicle is in safe condition.

S3. *Application.* This standard applies to passenger cars, multipurpose passenger vehicles, trucks, buses, and motorcycles, and to speedometers and odometers for use in these vehicles. Motor driven cycles whose speed attainable in one mile is 30 mph or less, and vehicles that are designed and sold exclusively for use by law enforcement agencies, are excluded.

S4. *Definitions.* "Speed attainable in 1 mile" means the speed attainable by accelerating at maximum rate from a standing start for a distance of 1 mile on a level surface.

S5. *Requirements.*

S5.1 *Speedometer.* Each vehicle shall have a speedometer graduated in miles per hour. There may, at the option of the manufacturer, be additional graduation in kilometers per hour.

S5.1.2 The speed indication shall not be more than 4 miles per hour above or below the actual vehicle speed when tested at any speed from 20 mph to a maximum of either (1) 80 mph, or (2) the speed attainable in 1 mile if less than 80 mph, under the test conditions specified in S6.

S5.1.3 The speedometer shall not display values that exceed 85 mph or 137 kph.

S5.2 *Odometers.*

S5.2.1 Each vehicle with a gross vehicle weight rating of 16,000 pounds or less shall have an odometer.

S5.2.2 Each odometer shall be capable of indicating distance traveled (1) from 0 to 99,999 miles in 1-mile units or (2) from 0 to 99,999 kilometers in 1-kilometer units.

S5.2.3 Each odometer shall clearly indicate when (1) the mileage indications have exceeded 100,000 miles or (2) when the kilometer indications have exceeded 100,000 kilometers.

S5.2.4 The odometer shall either indicate when it has been turned in the reverse direction or shall be designed so that it cannot be turned in the reverse direction.

S5.2 The indicated odometer distance shall not be more than 4 percent above or below the actual distance traveled by the vehicle when tested for a distance of 100 miles, at any speed between 20 and 80 mph or the speed attainable in 1 mile, if less than 80 mph, and under the test conditions specified in S6.

S6. *Test Conditions.*

S6.1 The vehicle is at unloaded vehicle weight plus 200 pounds (including driver and instrumentation) for motorcycles or plus 300 pounds (including driver and instrumentation) for other vehicles. The additional weight is distributed in the front seat area.

S6.2 The vehicle is equipped with tires recommended by the manufacturer.

S6.2.1 Tire tread depth is at least 90 percent of the original tread depth.

S6.3 Vehicle adjustments, including tire pressure, are made according to the manufacturer's recommendations.

[FR Doc.76-25109 Filed 8-27-76;8:45 am]

NATIONAL STUDY COMMISSION ON RECORDS AND DOCUMENTS OF FEDERAL OFFICIALS

[5 CFR Parts 2505, 2510]

FREEDOM OF INFORMATION ACT AND PRIVACY ACT

Proposed Implementation

Pursuant to the Privacy Act, 5 U.S.C. 552a, and the Freedom of Information Act, 5 U.S.C. 552, the National Study Commission on Records and Documents of Federal Officials hereby offers the following proposed Regulations for Implementation of the Privacy and Freedom of Information Act for public comment. Any interested person may submit comments on the proposed Regulations on or before September 29, 1976. Such comments should be addressed to the General Counsel, Public Documents Commission, Department of Justice, Room 1127, Washington, D.C. 20530.

Signed this 16th day of August, 1976.

HERBERT BROWNELL,
Chairman.

It is proposed to amend Title 5 of the CFR by adding a new Chapter XV consisting of Part 2505 to read as follows:

PART 2505—PRIVACY ACT

Sec.

2505.1 Purpose and scope.
2505.2 Definitions.
2505.3 Procedures for requests pertaining to individual records in a record system.
2505.4 Times, places and requirements for the identification of the individual making the request.
2505.5 Disclosure of the requested information to the requester.
2505.6 Access to the accounting of disclosures from records.
2505.7 Request for correction or amendment of the record.
2505.8 Agency review of request for correction or amendment of the record.
2505.9 Appeal of an initial adverse agency determination on correction or amendment of the record.
2505.10 Disclosure of record to a person other than the individual to whom the record pertains.
2505.11 Fees.

AUTHORITY: 5 U.S.C. 552a; Pub. L. 93-579.

§ 2505.1 Purpose and scope.

The purposes of these regulations are to:

(a) Establish a procedure by which an individual can determine if the National Study Commission on Records and Documents of Federal Officials (hereafter known as the Commission) maintains a system of records which includes a record pertaining to the individual; and

(b) Establish a procedure by which an individual can gain access to a record pertaining to him for the purpose of review, amendment and/or correction.

§ 2505.2 Definitions.

For the purpose of these regulations—

(a) The term "individual" means a citizen of the United States or an alien lawfully admitted for permanent residence;

(b) The term "maintain" includes maintain, collect, use or disseminate;

(c) The term "record" means any item, collection or grouping of information about an individual that is maintained by the Commission, including, but not limited to, his education, financial transactions, medical history, and criminal or employment history, and that contains his name, or the identifying number, symbol or other identifying particular assigned to the individual such as a social security number;

(d) The term "system of records" means a group of any records under the control of the Commission from which information is retrieved by the name of the individual or by some identifying number, symbol, or other identifying particular assigned to the individual; and

(e) The term "routine use" means, with respect to the disclosure of a record, the use of such record for a purpose which is compatible with the purpose for which it was collected.

§ 2505.3 Procedures for requests pertaining to individual records in a record system.

An individual may submit a request in writing, delivered by mail or in person, to the General Counsel to the Commission, Justice Department, Room 1127, Washington, D.C. 20530, to determine if a system of records named by the individual contains a record pertaining to the individual, or if the Commission maintains any system of records which pertains to the individual. An individual who requires assistance in identifying a system of records, or in preparing a request for access to a system of records, or who needs assistance in requesting amendment of a record, may address such requests to the General Counsel, Justice Department, Room 1127, Washington, D.C. 20530.

§ 2505.4 Times, places, and requirements for the identification of the individual making a request.

An individual who delivers a request in person to the General Counsel to the Commission pursuant to § 2505.3 shall present the request to the Commission office at the Justice Department, Room 1127, Washington, D.C. 20530 on any business day between the hours of 9 a.m. and 5:30 p.m. "The requester should be prepared to identify himself by signature and/or by other evidence of identity." Requests for access to a system of records will be acknowledged within ten (10) days of receipt. The acknowledgment will indicate (1) whether access will be granted, and, (2) that an approved access will be granted within 30 days unless, for good cause shown, the Commission is unable to do so.

§ 2505.5 Disclosure of the requested information to the individual.

Upon verification of a requester's identity by the General Counsel of the Commission, Justice Department, Room 1127, Washington, D.C. 20530, and in accordance with the identification provisions of § 2505.4, the Commission shall disclose to the individual the information contained in the record which pertains to that individual. The individual may be accompanied for the purpose by a person of his choosing; consent for a third party to review a record in any system of records must be in writing. Upon request of the individual to whom the record pertains, all information in the accounting of disclosures will be made available to him. In the event that the Commission denies any individual access to a record, the Commission will inform the individual of his right to judicial review.

§ 2505.6 Access to the accounting of disclosures from records.

An indivdual may request access to a list of those persons to whom records about the individual have been disclosed. An individual seeking access to the accounting of disclosures from records pertaining to him should follow the same procedures as established above for access to the records themselves (see §§ 2505.3, 2505.4, 2505.5).

§ 2505.7 Request for correction or amendment of a record.

An individual should submit a request in writing to the General Counsel to the Commission which states the individual's desire to correct or to amend his record. This request is to be made in accordance with the provisions of § 2505.4.

§ 2505.8 Commission review of request for correction or amendment of the record.

Within ten (10) working days of the receipt of the request to correct or to amend a record, the General Counsel to the Commission will acknowledge in writing such receipt and promptly either—

(a) Make any correction or amendment of any portion thereof which the individual believes is not accurate, relevant, timely, or complete; or

(b) Inform the individual of his refusal to correct or to amend the record in accordance with the request, the reason for the refusal, and the procedures established by the Commission for the individual to request a review of that refusal.

§ 2505.9 Appeal of an initial adverse agency determination on correction or amendment of the record.

An individual who disagrees with the refusal of the General Counsel to the Commission to correct or to amend his record may submit a request for a review of such refusal to the Chairman of the Commission, Justice Department, Room 1127, Washington, D.C. 20530. Not later than thirty (30) working days from the date on which the individual requests such review, the Chairman will complete such review and make a final determination unless, for good cause shown, the Chairman extends such thirty-day period. If, after his review, the Chairman determines not to correct or to amend the record in accordance with the request, the individual may file with the Commission a concise statement setting forth the reasons for his disagreement with the refusal of the Commission and may seek judicial review of the Chairman's determination under 5 U.S.C. 552 (g)(1)(A). A copy of the corrected record or statement of dispute will be provided to prior recipients of the information in question, to the extent that the Commission has an accounting of the disclosure of that information.

§ 2505.10 Disclosure of record to a person other than the individual to whom the record pertains.

The Commission will not disclose a record to any individual other than to the individual to whom the record pertains without receiving the prior written consent of the individual to whom the record pertains, except as required or permitted under 5 U.S.C. 552a(b).

§ 2505.11 Fees.

The general policy of the Commission is to provide a copy or a portion of a record free of charge to an individual upon request. In cases where the records are voluminous, however, the Commission may, at its discretion, charge a fee when the cost would be in excess of five dollars ($5).

It is proposed to amend Title 5 of the CFR by adding Part 2510 to read as follows:

Sec.

2510.1 Purpose and scope.
2510.2 Requests for records.
2510.3 Commission response to requests for records.
2510.4 Appeal procedure within the Commission.
2510.5 Failure to meet administrative deadlines.
2510.6 Fee schedule.
2510.7 Prepayment of fees over $25.
2510.8 Form of payment.

§ 2510.1 Purpose and scope.

The purpose of these regulations is to establish a procedure, pursuant to the Freedom of Information Act, as amended 5 U.S.C. 552 (Pub. L. 90-23, as amended by Pub. L. 93-502,) by which records of the National Study Commission on Records and Documents of Federal Officials (hereafter referred to as the Commission) may be obtained by interested individuals.

§ 2510.2 Requests for records.

(a) Any individual who wishes to inspect or obtain copies of any record of the Commission shall submit a request in writing, addressed to the General Counsel to the Public Documents Commission, Justice Department, Room 1127, Washington, D.C. 20530. To facilitate processing requests, the phrase "FOIA REQUEST" should be placed on the front of the envelope.

(b) A request must reasonably describe the records to enable Commission personnel to locate them with reasonable effort. Where possible, specific information regarding dates, titles, etc. which may help identify the records should be supplied by the requester.

(c) If the Commission determines that a request does not reasonably describe a record, it shall inform the requester of this fact and extend an opportunity to confer promptly with a knowledgeable Commission employee to attempt to identify the records he is seeking.

§ 2510.3 Commission response to requests for records.

(a) The Commission shall inform the requester of its determination concerning that request within ten working days, unless additional time is required because:

(1) The request requires the collection of a substantial number of specified records; or

(2) The request is couched in categorical terms and requires an extensive search for the records responsive to it; or

(3) The request presents a need for consultation, which shall be conducted with all practicable speed, with another Department, agency, or commission having a substantial interest in the determination of the request.

In no event shall the extension exceed a total of ten working days.

(b) If the Commission determines to grant the request, it shall notify the requester of any conditions (e.g., payment of fees) and the approximate date upon which compliance will be effected. If it grants only a portion of the request, it shall treat the portion not granted as a denial.

(c) If the Commission denies the request, it shall immediately inform the requester of that decision and of the following:

(1) The reasons for the denial;

(2) The requester's right to appeal such denial to the Chairman of the Commision's at Justice Department, Room 1127, Washington, D.C. 20530;

(3) The requirement that such appeal be made within forty-five days of the date of denial; and

(4) The name and title or position of each person responsible for denial of the request.

(d) If the reason for not fulfilling the request is that the records requested are the records of another commission, Department, or agency, the Commission shall inform the requester of this fact and shall forward the request to that commission, Department, or agency for processing in accordance with the latter's regulations. If the agency has no knowledge concerning the requested records it shall notify the requester of that fact.

V41I169 AUG 30 76 UMI

(e) 5 U.S.C. 552(b) provides that the requirements of the statute do not apply to matters that are:

(i) Specifically authorized under criteria established by an Executive Order to be kept secret in the interest of national defense or foreign policy and are, in fact, properly classified pursuant to such Executive Order.

(ii) Related solely to the internal personnel rules and practices of an agency.

(iii) Specifically exempted from disclosure by statute.

(iv) Trade secrets and commercial or financial information obtained from a person and privileged or confidential.

(v) Inter-agency or intra-agency memoranda or letters which would not be available by law to a party other than an agency in litigation with the agency.

(vi) Personnel and medical files and similar files the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

(vi) Investigatory records compiled for law enforcement purposes, but only to the extent that the production of such records would:

(A) Interfere with enforcement proceedings;

(B) Deprive a person of a right to a fair trial or an impartial adjudication;

(C) Constitute an unwarranted invasion of personal privacy;

(D) Disclose the identity of a confidential source and, in the case of a record compiled by a criminal law enforcement authority in the course of a criminal investigation, or by an agency conducting a lawful national security intelligence investigation, confidential information furnished only by the confidential source;

(E) Disclose investigative techniques and procedures; or

(F) Endanger the life or physical safety of law enforcement personnel.

(viii) Contained in or related to examination, operating, or condition reports prepared by, on behalf of, or for the use of an agency responsible for the regulation or supervision of financial institutions.

(ix) Geological and geophysical information and data, including maps, concerning wells.

Any reasonably segregable portion of a record shall be provided to any person requesting the record after deletion of the portions which are exempt under this section.

§ 2510.4 Appeal procedure within the Commission.

(a) If a request for records is denied, the person making the request shall have the right to appeal the denial. This appeal must be in writing and addressed to the Chairman of the Public Documents Commission, Justice Department, Room 1127, Washington, D.C. 20530. To facilitate processing of an appeal, the phrase "FOIA APPEAL" should be placed on the front of the envelope.

(b) If an appeal from a denial of an initial request is made to the Chairman, the Chairman shall inform the requester of the determination regarding that appeal within twenty working days of receipt of the appeal, unless the Chairman extends this period for good cause.

(c) If the Chairman grants the appeal, he shall inform the requester of any conditions (e.g., payment of fees) and the approximate date upon which compliance will be effected. If he grants only a portion of the appeal, he shall treat the portion not granted as a denial.

(d) If the Chairman determines to deny the appeal, he immediately shall inform the requester of that decision and of the following:

(1) The reasons for the denial;

(2) The right to judicial review of the denial in accordance with 5 U.S.C. 552 (a)(4); and

(3) The name and title or position of each person responsible for denial of the appeal.

§ 2510.5 Failure to meet administrative deadlines.

In the event the Commission fails to meet either of the administrative deadlines set forth in these regulations, it shall notify the requester, state the reasons for the delay, and the date by which it expects to dispatch determination. Although the requester may be deemed to have exhausted his administrative remedies under 5 U.S.C. 552(a)(6)(C), the Commission shall continue processing the request as expeditiously as possible and will dispatch the determination when it is reached within the applicable deadline.

§ 2510.6 Fee schedule.

In computing applicable fees, the Commission will consider the following costs in providing costs in providing the requested records.

(a) *Reproduction fees.* (1) The fee for reproducing copies of Commission records (by routine electrostatic copying up to and including material 8½ x 14 inches shall be $0.10 per page.

(2) The fee for reproducing copies of any Commission records over 8½ x 14 inches or whose physical characteristics do not permit reproduction by routine electrostatic copying shall be the direct cost of reproducing the records through Government or commercial sources.

(b) *Search fees.* (1) The standard search fee shall be $4 per hour or fraction thereof beyond the initial half hour used to locate the requested records.

(2) When professional staff must be used to search for the requested records because clerical staff would be unable to locate them, the search fee shall be $8 per hour or fraction thereof beyond the initial half hour used to locate the requested records.

§ 2510.7 Prepayment of fees over $25.

When the individual handling a request for Commission records determines that the anticipated total fee (search and reproduction) is likely to exceed $25, the requester shall be notified that the anticipated fee must be prepaid prior to the Commission's making the records available. The Commission will remit the excess paid by the requester or bill the requester for an additional amount according to the variations between the final fee charged and the amount prepaid.

§ 2510.8 Form of payment.

Payment shall be by check or money order payable to the National Study Commission on Records and Documents of Federal Officials and shall be addressed to the individual designated by the Commission in correspondence with the requester.

Fish and Wildlife Service

[50 CFR Part 17]

ENDANGERED AND THREATENED WILDLIFE AND PLANTS

Proposed Determination of Critical Habitat for the American Peregrine Falcon

The Director, United States Fish and Wildlife Service (hereinafter, the Director and the Service, respectively) hereby issues a Proposed Rulemaking which would determine a portion of the Critical Habitat of the American Peregrine Falcon (*Falco peregrinus anatum*). This Proposal is issued pursuant to Section 7 of the Endangered Species Act of 1973 (16 U.S.C. 1531–1543; 87 Stat. 884; hereinafter the Act).

BACKGROUND

The American Peregrine Falcon is among the rarest and most critically Endangered birds in the United States, and has been official listed as Endangered since 1970. Much of the hope for the survival and recovery of this species depends upon the maintenance of suitable, undisturbed nesting sites. The Service recognizes that areas containing such sites may qualify for recognition as Critical Habitat as referred to in section 7 of the Act. A notice of intent to determine Critical Habitat for the American Peregrine Falcon was published by the Service in the FEDERAL REGISTER of May 16, 1975 (40 FR 21499–21500). Subsequently, in late 1975, the Director was notified by the Region 1 Director of the Service in Portland, and by the Director of the California Department of Fish and Game, that certain areas of northern California, used for nesting by the Peregrine, should be designated as Critical Habitat for the species. After evaluating this recommendation and supporting data, the Director determined to proceed with the Proposed Rulemaking.

The areas delineated below have been utilized extensively by Peregrine Falcons within the last few years, and all contain many excellent nesting sites for the species. These areas also have or are adjacent to high concentrations of passerine birds, taken as prey by the Falcons. The named zones referred to below were so designated for convenience by field personnel. It is emphasized that these areas represent only small segments of what may be the overall Critical Habitat of the American Peregrine Falcon in the United States, and that additional areas may be proposed for designation in the near future.

EFFECTS OF THE RULEMAKING

The effects of this determination are involved primarily with Section 7 of the Act, which states:

> The Secretary shall review other programs administered by him and utilize such programs in furtherance of the purposes of this Act. All other Federal departments and agencies shall, in consultation with and with the assistance of the Secretary, utilize their authorities in furtherance of the purposes of his Act by carrying out programs for the conservation of endangered species and threatened species listed pursuant to section 4 of this Act and by taking such action necessary to insure that actions authorized, funded, or carried out by them do not jeopardize the continued existence of such endangered species and threatened species or result in the destruction or modification of habitat of such species which is determined by the Secretary, after consultation as appropriate with the affected States, to be critical.

An interpretation of the term "Critical Habitat" was published by the Fish and Wildlife Service and the National Marine Fisheries Service in the FEDERAL REGISTER of April 22, 1975 (40 FR 17764–17765). Some of the major points of that interpretation are: (1) Critical Habitat could be the entire habitat of a species, or any portion thereof, if any constituent element is necessary to the normal needs or survival of that species; (2) actions by a Federal agency affecting Critical Habitat of a species would not conform with Section 7 if such actions might be expected to result in a reduction in the numbers or distribution of that species of sufficient magnitude to place the species in further jeopardy, or restrict the potential and reasonable recovery of that species; and (3) there may be many kinds of actions which can be carried out within the Critical Habitat of a species which would not be expected to adversely affect that species.

This last point has not been well understood by some persons. There has been widespread and erroneous belief that a Critical Habitat designation is something akin to establishment of a wilderness area or wildlife refuge, and automatically closes an area to most human uses. Actually, a Critical Habitat designation applies only to Federal agencies, and essentially is an official notification to these agencies that their responsibilities pursuant to Section 7 of the Act are applicable in a certain area.

A Critical Habitat designation must be based solely on biological factors. There may be questions of whether and how much habitat is critical, in accordance with the above interpretation, or how to best legally delineate this habitat, but any resultant designation must correspond with the best available biological data. It would not be in accordance with the law to involve other motives; for example, to enlarge a Critical Habitat delineation so as to cover additional habitat under section 7 provisions, or to reduce a delineation so that actions in the omitted area would not be subject to evaluation.

There may indeed be legitimate questions of whether, and to what extent, certain kinds of actions would adversely affect listed species. These questions, however, are not relevant to the biological basis of Critical Habitat delineations. Such questions should, and can more conveniently, be dealt with after Critical Habitat has been designated. In this respect, the Service in cooperation with other Federal agencies has drawn up a set of guidelines which, in part, establish a consultation and assistance process for helping to evaluate the possible effects of actions on Critical Habitat.

PUBLIC COMMENTS SOLICITED

The Director intends that the rules finally adopted be as accurate as possible in delineating the Critical Habitat of the American Peregrine Falcon. The Director, therefore, desires, to obtain the comments and suggestions of the public, other concerned governmental agencies, the scientific community, or any other interested party on these Proposed Rules.

Final promulgation of Critical Habitat regulations will take into consideration the comments received by the Director. Such comments and any additional information received may lead the Director to adopt final regulations that differ from this Proposal.

SUBMITTAL OF WRITTEN COMMENTS

Interested persons may participate in this Rulemaking by submitting written comments, preferably in triplicate, to the Director (FWS/LE), U.S. Fish and Wildlife Service, P.O. Box 19183, Washington, D.C. 20036. All relevant comments received no later than October 29, 1976 will be considered. The Service will attempt to acknowledge receipt of comments, but substantive responses to individual comments may not be provided. Comments received will be available for public inspection during normal business hours at the Service's Office in Suite 600, 1612 K Street, N.W., Washington, D.C.

Dated: August 20, 1976.

LYNN A. GREENWALT,
Director, Fish and Wildlife Service.

Accordingly, it is hereby proposed to amend 50 CFR Part 17:

1. By amending the Table of Sections for Subpart F of Part 17 to read as follows:

Subpart F—Critical Habitat

Sec.

. . . . . .

17.68 American peregrine falcon.

2. By adding a new § 17.68 reading as follows:

§ 17.68 American peregrine falcon.

The following areas are critical habitat for the American Peregrine Falcon (*Falco peregrinus anatum*).

CALIFORNIA—Dry Creek Zone: areas of land, water, and airspace in Sonoma County, with the following components (Mt. Diablo Base Meridian): (a) T10N R11W W½ of SW¼ Sec. 6, W½ of NW¼ Sec. 6, NW¼ of NW¼ Sec. 7; T10N R12W Sec. 1, E½ of NE¼ Sec. 2, SW¼ of NE¼ Sec. 2, SE¼ Sec. 2, E½ of SW¼ Sec. 2, SE¼ of NW¼ Sec. 2, N½ of NE¼ Sec. 11, NE¼ of NW¼ Sec. 11, N½ of NE¼ Sec. 12, N½ of NW¼ Sec. 12; T11N R11W SW¼ of SE¼ Sec. 31, S½ of SW¼ Sec. 31; T11N R12W S½ of SE¼ Sec. 36, SE¼ of SW¼ Sec. 36; (b) T10N R11W NW¼ of SW¼ Sec. 1, W½ of NW¼ Sec. 1, N½ Sec. 2, N½ of SE¼ Sec. 2, N½ of SW¼ Sec. 2, N½ Sec. 3, N½ of SE¼ Sec. 3, N½ of SW¼ Sec. 3, NE¼ Sec. 4, N½ of SE¼ Sec. 4, NE¼ of SW¼ Sec. 4, E½ of NW¼ Sec. 4; T11N R11W E½ of SE¼ Sec. 33, S½ Sec. 34, S½ Sec. 35, W½ of SE¼ Sec. 36, SW¼ Sec. 36; (c) T11N R12W S½ Sec. 19, Sec. 30; T11N R13W SE¼ Sec. 24, E½ of SW¼ Sec. 24, E½ Sec. 25, E½ of SW¼ Sec. 25, E½ of NW¼ Sec. 25.

Palisades-Table Rock Zone: an area of land, water, and airspace in Napa County, with the following components (Mt. Diablo Base Meridian): T9N R6W S½ Sec. 5, S½ Sec. 6, Sec. 7, Sec. 8, Sec. 9, Sec. 16, Sec. 17, Sec. 18, Sec. 19, Sec. 20; T9N R7W E½ Sec. 12, E½ Sec. 13, NE¼ Sec. 24, E½ of SE¼ Sec. 24.

Mount St. Helena Zone: an area of land, water, and airspace in Lake, Napa, and Sonoma counties, with the following components (Mt. Diablo Base Meridian): T9N R7W W½ of NE¼ Sec. 3, W½ of SE¼ Sec. 3, W½ Sec. 3, Sec. 4, E½ Sec. 5, E½ of SW¼ Sec. 5, E½ of NW¼ Sec. 5; T10N R7W that portion of Sec. 20 east of Ida Clayton Road, Sec. 21, W½ of NE¼ Sec. 22, W½ of SE¼ Sec. 22, W½ Sec. 22, W½ of NE¼ Sec. 27, W½ of SE¼ Sec. 27, W½ Sec. 27, Sec. 28, that portion of Sec. 29 east of Ida Clayton Road, that portion of the NE¼ Sec. 32 east and south of Ida Clayton Road, SE¼ Sec. 32, E½ of SW¼ Sec. 32, that portion of the SE¼ of NW¼ Sec. 32 south of the Ida Clayton Road, Sec. 33, W½ of NE¼ Sec. 34, W½ of SE¼ Sec. 34, W½ Sec. 34.

Cobb Mountain Zone: an area of land, water, and airspace in Lake and Sonoma counties, with the following components (Mt. Diablo Base Meridian): T11N R8W S½ of SE¼ Sec. 8, SE¼ of SW¼ Sec. 8, S½ of SW¼ Sec. 9, SW¼ of SE¼ Sec. 14, SW¼ Sec. 14, S½ Sec. 15, W½ of NE¼ Sec. 16, SE¼ Sec. 16, W½ Sec. 16, E½ Sec. 17, E½ of NW¼ Sec. 17, NE¼ Sec. 17, NE¼ of NE¼ Sec. 20, N½ of NE¼ Sec. 21, N½ of NW¼ Sec. 21, N½ Sec. 22, W½ of NE¼ Sec. 23, NW¼ Sec. 23.

[50 CFR Part 17]

ENDANGERED AND THREATENED WILDLIFE AND PLANTS

Proposed Determination of Critical Habitat for the Morro Bay Kangaroo Rat

The Director, United States Fish and Wildlife Service, hereby issues a Proposed Rulemaking which would determine Critical Habitat for the Morro Bay Kangaroo Rat (*Dipodomys heermanni morroensis*) in coastal California. This Proposal is issued pursuant to Section 7 of the Endangered Species Act of 1973 (16 U.S.C. 1531–1543; 87 Stat. 884).

BACKGROUND

A notice of intent to determine Critical Habitat for the Morro Bay Kangaroo Rat was published by the Fish and Wildlife Service in the FEDERAL REGISTER of

V 41 169 AUG 30 76 UMI

May 16, 1975 (40 FR 21499–21500). On January 16, 1976, the Director of the California Department of Fish and Game petitioned the Director of the U.S. Fish and Wildlife Service to designate the area delineated below as Critical Habitat for the Morro Bay Kangaroo Rat. This petition was examined by Fish and Wildlife Service biologists who found that substantial evidence had been presented warranting this Proposed Rulemaking. The designated area contains a significant population of Morro Bay Kangaroo Rats, within an overall biotic community that still exists in a relatively natural state. Studies by the California Department of Fish and Game have found that this area contains all the elements required for the survival and normal needs of the Morro Bay Kangaroo Rat, and that these elements stand a good chance of being maintained if the area can be properly protected. Additions or modifications to the designated area may be proposed in the future.

EFFECTS OF THE RULEMAKING

The effects of this determination are involved primarily with Section 7 of the Act, which states:

> The Secretary shall review other programs administered by him and utilize such programs in furtherance of the purposes of this Act. All other Federal departments and agencies shall, in consultation with and with the assistance of the Secretary, utilize their authorities in furtherance of the purposes of this Act by carrying out programs for the conservation of endangered species and threatened species listed pursuant to section 4 of this Act and by taking such action necessary to insure that actions authorized, funded, or carried out by them do not jeopardize the continued existence of such endangered species and threatened species or result in the destruction or modification of habitat of such species which is determined by the Secretary, after consultation as appropriate with the affected States, to be critical.

An interpretation of the term Critical Habitat was published by the Fish and Wildlife and the National Marine Fisheries Service in the FEDERAL REGISTER of April 22, 1975 (40 FR 17764–17765). Some of the major points of that interpretation are: (1) Critical Habitat could be the entire habitat of a species, or any portion thereof, if any constituent element is necessary to the normal needs or survival of that species; (2) actions by a Federal agency affecting Critical Habitat of a species would not conform with Section 7 if such actions might be expected to result in a reduction in the numbers or distribution of that species of sufficient magnitude to place the species in further jeopardy, or restrict the potential and reasonable recovery of that species; and (3) there may be many kinds of actions which can be carried out within the Critical Habitat of a species which would not be expected to adversely affect that species.

This last point has not been well understood by some persons. There has been widespread and erroneous belief that a Critical Habitat designation is something akin to establishment of a wilderness area or wildlife refuge, and automatically closes an area to most human uses. Actually, a Critical Habitat designation applies only to Federal agencies, and essentially is an official notification to these agencies that their responsibilities pursuant to Section 7 of the Act are applicable in a certain area.

A Critical Habitat designation must be based solely on biological factors. There may be questions of whether and how much habitat is critical, in accordance with the above interpretation, or how to best legally delineate this habitat, but any resultant designation must correspond with the best available biological data. It would not be in accordance with the law to involve other motives; for example, to enlarge a Critical Habitat delineation so as to cover additional habitat under Section 7 provisions, or to reduce a delineation so that actions in the omitted area would not be subject to evaluation.

There may indeed be legitimate questions of whether, and to what extent, certain kinds of actions would adversely affect listed species. These questions, however, are not relevant to the biological basis of Critical Habitat delineations. Such questions should, and can more conveniently, be dealt with after Critical Habitat has been designated. In this respect, the Service in cooperation with other Federal agencies has drawn up a set of guidelines which, in part, establish a consultation and assistance process for helping to evaluate the possible effects of actions on Critical Habitat.

PUBLIC COMMENTS SOLICITED

The Director intends that the rules finally adopted be as accurate as possible in delineating the Critical Habitat of the Morro Bay Kangaroo Rat. The Director, therefore, desires to obtain the comments and suggestions of the public, other concerned governmental agencies, the scientific community, or any other interested party on these Proposed Rules.

Final promulgation of Critical Habitat regulations will take into consideration the comments received by the Director. Such comments and any additional information received may lead the Director to adopt final regulations that differ from this Proposal.

SUBMITTAL OF WRITTEN COMMENTS

Interested persons may participate in this rulemaking by submitting written comments, preferably in triplicate, to the Director (FWS/LE), U.S. Fish and Wildlife Service, P.O. Box 19183, Washington, D.C. 20036. All relevant comments received no later than October 29, 1976, will be considered. The Service will attempt to acknowledge receipt of comments, but substantive responses to individual comments may not be provided. Comments received will be available for public inspection during normal business hours at the Service's Office in Suite 600, 1612 K Street, N.W., Washington, D.C.

Dated: August 20, 1976.

LYNN A. GREENWALT,
Director, Fish and Wildlife Service.

Accordingly, it is hereby proposed to amend 50 CFR Part 17:

1. By amending the Table of Sections for Subpart F of Part 17 to read as follows:

Subpart F—Critical Habitat

Sec.

* * * * * *

17.69 Morro Bay kangaroo rat.

2. By adding a new § 17.69 reading as follows:

§ 17.69 Morro Bay kangaroo rat.

The following area is Critical Habitat for the Morro Bay Kangaroo Rat (*Dipodomys heermanni morroensis*)

California. An area of land, water, and airspace in San Luis Obispo County, with the following components (Mt. Diablo Meridian): T30S R10E S½ Sec. 14, those portions of Sec. 23–24 west of Pecho Valley Road.

[FR Doc.76–25328 Filed 8–27–76;8:45 am]

[50 CFR Part 32]

HUNTING

Proposed Opening of Lake Alice National Wildlife Refuge, North Dakota to Hunting of Migratory Game Birds, Upland Game, Big Game

Notice is hereby given that it is proposed that 50 CFR Part 32 be amended by the addition of the Lake Alice National Wildlife Refuge, North Dakota, to the lists of refuge areas open for the hunting of migratory game birds, upland game, and big game, which are published at 50 CFR § 32.11, § 32.21 and § 32.31.

Pursuant to the authority of 16 U.S.C. 668dd(d), as redelegated to the Director of the United States Fish and Wildlife Service at DM 242.1.1, the Director may open refuge areas to public hunting upon a determination that it would be in accordance with provisions of all laws applicable to the area, would be compatible with the principles of sound wildlife management, would otherwise be in the public interest and that such uses are compatible with the major purposes for which such areas were established. As a general rule, most areas within the National Wildlife Refuge System are closed to hunting until officially opened by regulation. It is the purpose of this proposed rulemaking to allow the hunting of migratory game birds, upland game, and big game on the Lake Alice National Wildlife Refuge, which is presently prohibited.

Furthermore, pursuant to the requirements of § 102(2)(C) of the National Environmental Policy Act of 1969 (42 U.S.C. 4332(2)(C)), an environmental assessment has been prepared on this proposal which will help determine whether this rulemaking constitutes a major Federal action significantly affecting the human environment. A copy of this assessment is available at the address below.

The policy of the Department of the Interior is, whenever practical, to afford the public an opportunity to participate in the rulemaking process. Therefore, interested persons may submit written comments, suggestions, or objections regarding the proposed amendment to the Regional Director, P.O. Box 25486, Denver Federal Center, Denver, Colorado 80225, on or before September 29, 1976. All relevant comments received will be considered by the Director prior to the issuance of final rulemaking.

Accordingly, it is proposed to amend §§ 32.11, 32.21 and 32.31 in Title 50 of the Code of Federal Regulations as set forth below:

§ 32.11 List of open areas; migratory game birds.

NORTH DAKOTA

LAKE ALICE NATIONAL WILDLIFE REFUGE

§ 32.21 List of open areas; upland game.

NORTH DAKOTA

LAKE ALICE NATIONAL WILDLIFE REFUGE

§ 32.31 List of open areas; big game.

NORTH DAKOTA

LAKE ALICE NATIONAL WILDLIFE REFUGE

LYNN A. GREENWALT,
Director, Fish and Wildlife Service.

notices

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF STATE

[CM-6/88]

ADVISORY COMMITTEE TO THE UNITED STATES NATIONAL SECTION OF THE INTERNATIONAL NORTH PACIFIC FISHERIES COMMISSION

Meeting

Notice is hereby given, pursuant to the provisions of Public Law 92-463, that a meeting of the Advisory Committee to the United States Section, International North Pacific Fisheries Commission, will meet on September 27, 1976 in the conference center of the Northwest Fisheries Center, National Marine Fisheries Service, 2725 Montlake Boulevard East, Seattle, Washington at 9:00 A.M. The meeting is to review fishing operations in the Convention Area in 1975, and preparations for the November 1976 annual meeting of the Commission. The meeting on September 27 will be open to the public. Persons wishing to attend the open session may participate in the discussions subject to instructions of the Chairman.

The Advisory Committee will also meet in closed session on September 28, 1976. At this meeting documents classified in accordance with Executive Order 11652 will be circulated and discussed and matters will be considered which the public interest requires be withheld from disclosure as provided in 5 USC 552 (b)(1).

Dated: August 24, 1976.

ROZANNE L. RIDGWAY,
Deputy Assistant Secretary.

STUDY GROUP 1 OF THE U.S. NATIONAL COMMITTEE FOR THE INTERNATIONAL RADIO CONSULTATIVE COMMITTEE (CCIR)

Meeting

The Department of State announces that Study Group 1 of the U.S. National Committee for the International Radio Consultative Committee (CCIR) will meet on September 28, 1976 in the Aspen Conference Room, Office of Telecommunications, U.S. Department of Commerce, 1325 G Street, N.W., Washington, D.C., at 9:30 a.m.

Study Group 1 deals with: matters relating to efficient use of the radio frequency spectrum, and in particular, with problems of frequency sharing, taking into account the attainable characteristics of radio equipment and systems; principles for classifying emissions; and the measurement of emission characteristics and spectrum occupancy. The agenda for the meeting will include the following:

1. Review conclusions of the 1976 International Meeting of Study Group 1;

2. Consider organization for work of U.S. Study Group 1;

3. Initiate program of work for U.S. Study Group 1 looking to the next international meeting.

Members of the general public may attend the meeting and join in the discussions subject to instructions of the Chairman. Admittance of public members will be limited to the seating available.

Dated: August 23, 1976.

GORDON L. HUFFCUTT,
Chairman, U.S. CCIR National Committee.

DEPARTMENT OF THE TREASURY

Comptroller of the Currency

[Delegation Order 19]

FIRST DEPUTY COMPTROLLER OF THE CURRENCY, ET AL.

Order of Succession To Act as Comptroller

By virtue of the authority contained in 12 U.S.C. 4 and by Treasury Department Order No. 129 (Rev. No. 2) dated April 22, 1955, it is hereby ordered as follows:

A. During the absence or disability of the Comptroller of the Currency, or during a vacancy in such office, the First Deputy Comptroller of the Currency, Robert Bloom, shall possess the power and perform the duties attached by law to the office of the Comptroller as provided by 12 U.S.C. 4. The order of succession following the First Deputy Comptroller of the Currency shall be as follows:

(1) H. Joe Selby, First Deputy Comptroller of the Currency for Operations.
(2) Thomas G. DeShazo, Deputy Comptroller of the Currency.
(3) Robert A. Mullin, Deputy Comptroller of the Currency.

B. In the event of an enemy attack on the continental United States, all regional administrators of national banks, including any acting regional administrators, are authorized in their respective regions to perform any function of the Comptroller of the Currency, or the Secretary of the Treasury, whether or not otherwise delegated, which is essential to the carrying out of responsibilities otherwise assigned to them. The respective officers will be notified when they are to cease exercising the authority delegated in this paragraph.

C. Delegation Order No. 18 is hereby repealed.

Dated: August 24, 1976.

ROBERT BLOOM,
Acting Comptroller of the Currency.

Office of the Secretary

CLEAR SHEET GLASS FROM ROMANIA

Antidumping; Extension of Investigatory Period

On March 9, 1976, information was received in proper form that clear sheet glass from Romania was being sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended (19 U.S.C. 160 *et seq.*) (referred to in this notice as "the Act"). This information was the subject of an "Antidumping Proceeding Notice" which was published in the FEDERAL REGISTER of April 8, 1976 (41 F.R. 14909).

The "Antidumping Proceeding Notice" indicated that there was evidence on record concerning injury to, or the likelihood of injury to, or prevention of establishment of an industry in the United States.

Notice is hereby given that the Secretary concludes that the determination provided for in section 201(b)(1) of the Act (19 U.S.C. 160(b)(1)), cannot reasonably be made within 6 months. The determination under section 201(b)(1) of the Act (19 U.S.C. 160(b)(1)), will, therefore, be made within no more than 9 months.

The reasons and basis for the above conclusion are as follows:

The need for the collection of additional data, along with the need for analysis of all submissions, makes it inadvisable to take tentative action at this time.

(Sec. 201(b)(2) of the Act (19 U.S.C. 160(b)(2)), and § 153.32 of the Customs Regulations (19 CFR 153.32))

DAVID R. MACDONALD,
Assistant Secretary of the Treasury.

AUGUST 24, 1976.

[FR Doc.76-25331 Filed 8-27-76;8:45 am]

HUNGARY

Income Tax Treaty Discussions

The Treasury Department announces that representatives of the United States and Hungary will meet in Budapest during the week of September 20, 1976 for preliminary discussions of a prospective income tax treaty between the two countries.

The proposed convention would deal with such issues as the taxation of income from business ventures, investment, and employment in the other country, and would include provisions for nondiscrimination in tax treatment and for administrative cooperation in resolving income tax questions.

Comments are invited on the income tax aspects of doing business in Hungary. Interested persons may wish to refer to the income tax conventions recently concluded by the United States with Romania and Poland and to the model draft treaty issued by the Treasury Department on May 18, 1976. Comments should be submitted in writing to Assistant Secretary for Tax Policy, Charles M. Walker, U.S. Treasury, Washington, D.C. 20220 as promptly as possible so that they may be taken into account in the September discussions.

Dated: August 24, 1976.

DAVID S. FOSTER,
International Tax Counsel and Director, Office of International Tax Affairs.

[FR Doc.76-25288 Filed 8-27-76;8:45 am]

KNITTING MACHINES FOR LADIES' SEAMLESS HOSIERY FROM ITALY

Antidumping; Determination of Sales at Less Than Fair Value

Information was received on July 15, 1975, from Rockwell International, Reading, Pennsylvania, alleging that knitting machines for ladies' seamless hosiery from Italy were being sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended (19 U.S.C. 160 *et seq.*) (referred to in this notice as "the Act"). On the basis of this information and subsequent preliminary investigation by the Customs Service, an "Antidumping Proceeding Notice" was published in the FEDERAL REGISTER of August 15, 1975 (40 F.R. 34424).

The Secretary determined that it was inadvisable to take tentative action within the normal 6-month investigatory period. The investigatory period in this case was therefore extended to 9 months and a "Notice of Extension of Investigatory Period" to that effect was published in the FEDERAL REGISTER of February 12, 1976 (41 F.R. 6289).

A "Withholding of Appraisement Notice" issued by the Secretary of the Treasury was published in the FEDERAL REGISTER of May 21, 1976 (41 F.R. 20899).

DETERMINATION OF SALES AT LESS THAN FAIR VALUE

I hereby determine that, for the reasons stated below, knitting machines for ladies' seamless hosiery from Italy are being, or are likely to be, sold at less than fair value within the meaning of section 201(a) of the Act (19 U.S.C. 160(a)).

STATEMENT OF REASONS ON WHICH THIS DETERMINATION IS BASED

The reasons and bases for the above determination are as follows:

a. *Scope of the Investigation.* It appears that 95 percent of imports of the subject merchandise from Italy were manufactured by either Billi-Matec, S.p.A., Florence, Italy, or DiLonati Francesco & Figli, S.N.C., Brescia, Italy. Therefore, the investigation was limited to these two manufacturers.

b. *Basis of Comparison.* For the purposes of considering whether the merchandise in question is being, or is likely to be, sold at less than fair value within the meaning of the Act, the proper basis of comparison for DiLonati Francesco &, Figli, S.N.C. is between purchase price and the home market price of such or similar merchandise. Purchase price, as defined in section 203 of the Act (19 U.S.C. 162), was used since all export sales were made to non-related customers in the United States. Home market price, as defined in section 153.2, Customs Regulations (19 C.F.R. 153.2), was used since such or similar merchandise appears to be sold in the home market in sufficient quantities to provide a basis of comparison for fair value purposes.

The proper basis for comparison for Billi-Matec, S.p.A., appears to be between purchase price and the constructed value of such or similar merchandise. Constructed value, as defined in section 206 of the Act (19 U.S.C. 165), was used since all sales of such or similar merchandise in the home market and to third countries were at less than cost of production.

c. *Purchase Price.* For the purposes of this final determination of sales at less than fair value, adjustments have been made on the following bases. In accordance with section 153.31(b), Customs Regulations (19 C.F.R. 153.31(b)), pricing information was obtained concerning imports of knitting machines for ladies' seamless hosiery from Italy during the period March 1 through October 31, 1975, from both companies.

In the import transaction, all of the merchandise was purchased, or agreed to be purchased, prior to the time of exportation by the persons by whom or for whose account it was imported, within the meaning of the Act. The purchase price has been calculated on the basis of the c.i.f., duty paid, price to unrelated U.S. purchasers. Deductions have been made for transportation expenses, including Italian inland freight, U.S. import duties, insurance and installation and interest expenses, where applicable. An addition has been made for rebates of indirect taxes made upon the exportation of this product, as appropriate.

d. *Home Market Price.* For the purposes of this final determination of sales at less than fair value, adjustments have been made on the following bases. The home market price for DiLonati Francesco & Figli, S.N.C. was calculated on the basis of the delivered price in the home market to unrelated purchasers. Adjustments have been made for installation expenses, for discounts, and for differences in commissions in the two markets, as appropriate. Adjustment for commissions relates to commissions paid on certain sales in both markets. Adjustment for discounts relates to quantity discounts actually given to home market purchasers.

e. *Constructed Value.* The fair value for Billi-Matec, S.p.A., was calculated on the basis of constructed value. The constructed value is the sum of the costs of materials and of fabrication or other processing involved in producing the merchandise, plus an amount for general expenses equal to that actually incurred by this manufacturer in sales of merchandise of the same general class or kind as the merchandise under consideration plus an amount for profit equal to that required by section 206(a)(2)(B) of the Act, plus the cost of all containers and coverings and all other expenses incidental to placing the merchandise in condition, packed ready for shipment to the United States.

f. *Result of Fair Value Comparisons.* Using the above criteria, purchase price was found to be lower than the home market price or constructed value, as appropriate, of such or similar merchandise. Comparisons were made on approximately 100 percent of sales of the subject merchandise to the United States by both manufacturers during the investigative period. Margins were found, ranging from 45.6 percent to 93.3 percent, with a weighted average margin of 61.78 percent, for sales made by Billi-Matec, S.p.A., on 100 percent of the sales compared, and from 3 percent to 25 percent, with a weighted average margin of 17 percent, for sales made by DiLonati Francesco & Figli, S.N.C., on 95 percent of the sales compared.

The United States International Trade Commission is being advised of this determination.

This determination is being published pursuant to section 201(c) of the Act (19 U.S.C. 160(c)).

DAVID R. MACDONALD,
Assistant Secretary of the Treasury.

AUGUST 24, 1976.

[FR Doc.76-25332 Filed 8-27-76;8:45 am]

PRESSURE SENSITIVE PLASTIC TAPE FROM WEST GERMANY

Antidumping Proceeding Notice

On August 5, 1976, information was received in acceptable form pursuant to sections 153.26 and 153.27, Customs Regulations (19 C.F.R. 153.26, 153.27), from the Minnesota Mining and Manufacturing Company (3M), indicating the possibility that pressure sensitive plastic tape from West Germany is being, or is likely to be, sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended (19 U.S.C. 160 et seq.).

There is evidence on record concerning injury to or likelihood of injury to or prevention of establishment of an industry in the United States. This evidence indicates that decreases in employment and underutilization of production facilities have occurred in the U.S. industry during the last 3 years. The evidence also indicates that the petitioner's share of the U.S. market has declined

V 41 169
AUG 30 76
UMI

since 1972, and that 1976 imports of the subject merchandise from West Germany have increased more than threefold from 1973.

Having conducted a preliminary investigation as required by § 153.29 of the Customs Regulations (19 C.F.R. 153.29), and having determined as a result thereof that there are grounds for so doing, the U.S. Customs Service is instituting an inquiry to verify the information submitted and to obtain the facts necessary to enable the Secretary of the Treasury to reach a determination as to the fact or likelihood of sales at less than fair value.

A summary of information received from all sources is as follows:

The information received tends to indicate that the prices of the merchandise sold for exportation to the United States are less than the constructed value.

This notice is published pursuant to section 153.30 of the Customs Regulations (19 C.F.R. 153.30).

DAVID R. MACDONALD,
Assistant Secretary of the Treasury.

AUGUST 25, 1976.

[Public Debt Series No. 22-76]

TREASURY NOTES OF SERIES E-1980

Interest Rates

AUGUST 25, 1976.

I. INVITATION FOR TENDERS

Dated and bearing interest from September 14, 1976; Due September 30, 1980.

1. The Secretary of the Treasury, pursuant to the authority of the Second Liberty Bond Act, as amended, invites tenders on a yield basis for $2,000,000,000, or thereabouts, of notes of the United States, designated Treasury Notes of Series E-1980 (CUSIP No. 912827 FY 3). The interest rate for the notes will be determined as set forth in Section III, paragraph 3, hereof. Additional amounts of these notes may be issued at the average price of accepted tenders to Government accounts and to Federal Reserve Banks for themselves and as agents of foreign and international monetary authorities. Tenders will be received up to 1:30 p.m., Eastern Daylight Saving time, Tuesday, August 31, 1976, under competitive and noncompetitive bidding, as set forth in Section III hereof.

II. DESCRIPTION OF NOTES

1. The notes will be dated September 14, 1976, and will bear interest from that date, payable on a semiannual basis on March 31 and September 30, 1977, and thereafter on March 31 and September 30 in each year until the principal amount becomes payable. They will mature September 30, 1980, and will not be subject to call for redemption prior to maturity.

2. The income derived from the notes is subject to all taxes imposed under the Internal Revenue Code of 1954. The notes are subject to estate, inheritance, gift or other excise taxes, whether Federal or State, but are exempt from all taxation now or hereafter imposed on the principal or interest thereof by any State, or any of the possessions of the United States, or by any local taxing authority.

3. The notes will be acceptable to secure deposits of public moneys. They will not be acceptable in payment of taxes.

4. Bearer notes with interest coupons attached, and notes registered as to principal and interest, will be issued in denominations of $1,000, $5,000, $10,000, $100,000 and $1,000,000. Book-entry notes will be available to eligible bidders in multiples of those amounts. Interchanges of notes of different denominations and of coupon and registered notes, and the transfer of registered notes will be permitted.

5. The notes will be subject to the general regulations of the Department of the Treasury, now or hereafter prescribed, governing United States notes.

III. TENDERS AND ALLOTMENTS

1. Tenders will be received at Federal Reserve Banks and Branches and at the Bureau of the Public Debt, Washington, D.C. 20226, up to the closing hour, 1:30 p.m., Eastern Daylight Saving time, Tuesday, August 31, 1976. Each tender must state the face amount of notes bid for, which must be $1,000 or a multiple thereof, and the yield desired, except that in the case of noncompetitive tenders the term "noncompetitive" should be used in lieu of a yield. In the case of competitive tenders, the yield must be expressed in terms of an annual yield, with two decimals, e.g., 7.11. Fractions may not be used. Noncompetitive tenders from any one bidder may not exceed $500,000.

2. Commercial banks, which for this purpose are defined as banks accepting demand deposits, and dealers who make primary markets in Government securities and report daily to the Federal Reserve Bank of New York their positions with respect to Government securities and borrowings thereon, may submit tenders for account of customers provided the names of the customers are set forth in such tenders. Others will not be permitted to submit tenders except for their own account. Tenders will be received without deposit from banking institutions for their own account, Federally-insured savings and loan associations, States, political subdivisions or instrumentalities thereof, public pension and retirement and other public funds, international organizations in which the United States holds membership, foreign central banks and foreign States, dealers who make primary markets in Government securities and report daily to the Federal Reserve Bank of New York their positions with respect to Government securities and borrowings thereon, and Government accounts. Tenders from others must be accompanied by payment of 5 percent of the face amount of notes applied for.

3. Immediately after the closing hour tenders will be opened, following which public announcement will be made by the Department of the Treasury of the amount and yield range of accepted bids. Those submitting competitive tenders will be advised of the acceptance or rejection thereof. In considering the acceptance of tenders, those with the lowest yields will be accepted to the extent required to attain the amount offered. Tenders at the highest accepted yield will be prorated if necessary. After a determination is made as to which tenders are accepted, a coupon rate will be determined at a ⅛ of one percent increment that translates into an average accepted price close to 100.000 and a lowest accepted price above 99.000. That rate of interest will be paid on all of the notes. Based on such interest rate, the price on each competitive tender allotted will be determined and each successful competitive bidder will be required to pay the price corresponding to the yield bid. Price calculations will be carried to three decimal places on the basis of price per hundred, e.g., 99.923, and the determinations of the Secretary of the Treasury shall be final. The Secretary of the Treasury expressly reserves the right to accept or reject any or all tenders, in whole or in part, including the right to accept tenders for more or less than the $2,000,000,000 of notes offered, and his action in any such respect shall be final. Subject to these reservations, noncompetitive tenders for $500,000 or less without stated yield from any one bidder will be accepted in full at the average price[1] (in three decimals) of accepted competitive tenders.

IV. PAYMENT

1. Settlement for accepted tenders in accordance with the bids must be made or completed on or before September 14, 1976, at the Federal Reserve Bank or Branch or at the Bureau of the Public Debt, Washington, D.C. 20226. Payment must be in cash, in other funds immediately available to the Treasury by September 14, 1976, or by check drawn to the order of the Federal Reserve Bank to which the tender is submitted, or the United States Treasury if the tender is submitted to it, which must be received at such Bank or at the Treasury no later than: (1) Thursday, September 9, 1976, if the check is drawn on a bank in the Federal Reserve District of the Bank to which the check is submitted, or the Fifth Federal Reserve District in the case of the Treasury, or (2) Tuesday, September 7, 1976, if the check is drawn on a bank in another district. Checks received after the dates set forth in the preceding sentence will not be accepted unless they are payable at a Federal Reserve Bank. Payment will not be deemed to have been completed where registered notes are requested if the appropriate identifying number as required on tax returns and other documents submitted to the Internal Revenue Service (an individual's social security number or an employer identification number) is not furnished. In every case where full payment is not completed, the payment with the tender up to 5 percent of the amount of notes allotted shall, upon declaration made by the Secretary of the Treasury in his discretion, be forfeited to the United States.

[1] Average price may be at, or more or less than 100.000.

V. GENERAL PROVISIONS

1. As fiscal agents of the United States, Federal Reserve Banks are authorized and requested to receive tenders, to make such allotments as may be prescribed by the Secretary of the Treasury, to issue such notices as may be necessary, to receive payment for and make delivery of notes on full-paid tenders allotted, and they may issue interim receipts pending delivery of the definitive notes.

2. The Secretary of the Treasury may at any time, or from time to time, prescribe supplemental or amendatory rules and regulations governing the offering, which will be communicated promptly to the Federal Reserve Banks.

EDWIN H. YEO III,
Acting Secretary of the Treasury.

DEPARTMENT OF DEFENSE

Department of the Air Force

USAF SCIENTIFIC ADVISORY BOARD

Meeting

AUGUST 17, 1976.

The USAF Scientific Advisory Board ad hoc Committee on Aeronomy will hold meetings on September 21–22, 1976 at Headquarters Air Defense Command, Colorado Springs, Colorado from 8:30 a.m. to 5:00 p.m. both days.

The Committee will receive classified briefings and hold classified discussions on Aeronomy.

The meetings concern matters listed in Section 552(b) of Title 5, United States Code, specifically subparagraph (1) thereof, and accordingly, will be closed to the public.

For further information contact the Scientific Advisory Board Secretariat at (202) 697-4648.

FRANKIE S. ESTEP,
Air Force Federal Register Liaison Officer, Directorate of Administration.

Defense Privacy Board

GUIDELINES FOR RELEASE OF PERSONAL INFORMATION

Application of the Privacy Act and Exemption of the Freedom of Information Act

General notice is hereby given that the following Department of Defense proposed guideline shall govern the application of the Privacy Act (Public Law 93-579, December 31, 1974) and Exemption 6 of the Freedom of Information Act in responding to requests for information or assistance concerning Department of Defense personnel.

Interested persons are invited to participate in the formulation of the following proposed guideline by submitting written data, views, comments and arguments to the Executive Secretary, Defense Privacy Board, Room 7A-057, Forrestal Building, 1000 Independence Avenue, SW., Washington, D.C. 20314. All material received on or before September 29, 1976 will be considered.

MAURICE W. ROCHE,
Director, Correspondence and Directives OASD (Comptroller).

AUGUST 25, 1976.

GUIDELINES FOR RELEASE OF PERSONAL INFORMATION TO COMMERCIAL ENTERPRISES

1. *Scope.* The provisions of this guideline apply to all individuals requesting personal information or assistance concerning Department of Defense military and civilian personnel. The provisions also apply to all commanders, supervisors, personnel officers, Privacy Act, and Freedom of Information Act officials, administrators and legal counsels within the various components of the Department of Defense.

2. *Background.* It is the policy of the Department of Defense, consistent with the Freedom of Information Act (5 U.S.C. 552) to make available to the public the maximum amount of information concerning its operations and activities. Information may be disclosed without the written consent of the individual to whom the information pertains if such disclosure is required under the Act. Section 552(b)(6) of that Act, however, clearly states that information in personnel, medical and similar files is exempt from the provisions of the Act if disclosure to a member of the public would result in a clearly unwarranted invasion of personal privacy. This guideline attempts to strike a balance between the rights of all requestors under the Freedom of Information Act, to obtain information in Department of Defense records and the rights afforded to individuals pursuant to the Privacy Act of 1974 (5 U.S.C. 552a) and the Freedom of Information Act (5 U.S.C. 552) to avoid an unwarranted invasion of personal privacy by the release of personal information from Department of Defense records. This guideline attempts to advise what personal information concerning individuals of the Department of Defense can and cannot be disclosed. To comply with the Privacy Act, no record contained in a system of reords filed by name or personal identifier, maintained within the Department of Defense can, in general, be disclosed by any means of communication to any person, or to any agency outside the Department of Defense, except as a routine use or pursuant to a written request by, or with the prior written consent of, the individual to whom the record pertains.

3. *Policy guidelines.* Commercial enterprises hold the same position and relationship to their customers and to the Government as they did before the enactment of the Privacy Act. In this connection, banks, branch banks, military banking facilities, credit unions, or any type of commercial facility or concession operating on any Department of Defense installation or facility have no better standing than any other commercial enterprise or public requester in the private sector to obtaining personal information concerning Department of Defense personnel. Within their usual business relationships commercial enterprises are assumed to be responsible for safeguarding the information provided by their clients and for obtaining only such information as is reasonable and necessary to conduct business. This includes normal credit information and proper identification, which may include the Social Security number.

a. *Indebtedness.*—The Department of Defense policy towards personal indebtedness is set forth in DoD Directive 1344.9, July 1, 1969 (32 C.F.R. 43a) for military personnel and the Civil Service Commission Federal Personnel Manual (5 C.F.R. 735.207) for federal civilian employees. The established policy towards indebtedness expressed in these documents is unaffected by the Privacy Act. Department of Defense personnel are expected to pay all just financial obligations in a proper and timely manner.

b. *Releasable information.*—Information which would be released as required under provisions of the Freedom of Information Act is releasable to a member of the public. No vertification of identity shall be required of an individual or commercial enterprise seeking access to information from records which are otherwise available to any member of the public under the Freedom of Information Act (5 U.S.C. 552) unless this is relevant to determining whether a clearly unwarranted invasion of privacy would result from the requested release. Such

V41169 AUG 30 76 UMI

information requests not involving research or duplication may be releasable by telephone. Examples of personal information pertaining to military personnel which normally are releasable under the Freedom of Information Act without an unwarranted invasion of personal privacy are: name, rank, date of rank, salary, present and past duty assignments, future assignments which are final, office phone number, source of commission, military and civilian educational level, and promotion sequence number. Disclosure of personal information pertaining to civilian Department of Defense employees shall be made in accordance with the Civil Service Commission Federal Personnel Manual (5 C.F.R. Part 294). There is nothing to preclude a written request for personal information pursuant to the Freedom of Information Act. However, a formal written request obligates the addressee to various automatic legal obligations should the request be delayed or denied. Search and duplication may require more time for processing and subject the requestor to search and duplication fees (32 C.F.R. 286.10).

c. *Restrictions on release of personal information.*—(1) *Social Security number (SSN)*—Disclosure of the SSN may constitute a clearly unwarranted invasion of personal privacy. The SSN is considered an individual identifier item in accordance with the Privacy Act, which need not be disclosed in all instances without the prior written consent of the individual concerned.

(2) *Home addresses*—The home address of an individual is considered to be personal information, the release of which may be considered a clearly unwarranted invasion of personal privacy. In this regard, an individual's name and address may not be sold or rented unless specifically authorized by law. Lists or compilations of names and home addresses, or single home addresses normally will not be disclosed, without the prior written consent of the individual concerned.

(3) *Home telephone numbers*—An individual's home telephone number falls within the same restrictions imposed on home addresses set forth in (2) above.

(4) *Individual consent*—Disclosure may be authorized for any personal information, including that set forth in c. above, when prior written consent for release is obtained from the individual concerned. There is nothing to preclude commercial enterprises in their direct bilateral negotiations from soliciting any personal information deemed necessary from the individual concerned or from incorporating consent to disclosure of personal information in agreements signed by their potential customers. Such an agreement might require the customer to sign a consent to the release of certain personal information at the time of a conditional sale, agreement or the like. Commercial enterprises may incorporate the following conditions of disclosure of personal information in all agreements honored by the Department of Defense as meeting the prior written consent condition for the release of information:

I hereby authorize the Department of Defense and its various departments and commands to verify my social security number or other identifier and disclose my home address to authorized (name of commercial enterprise) officials so that they may contact me in connection with my financial business with (name of commercial enterprise). All information furnished will be used solely in connection with my financial business relationship with (name of commercial enterprise).

When the commerical enterprise presents such signed authorizations, the military commands or installations shall provide the appropriate information.

e. *Providing locator assistance.*—In those cases where a Department of Defense member with a financial obligation is reassigned, and fails to inform a commercial enterprise or individual of his or her whereabouts, the remedy is to seek the locator assistance of the individual's last known commander or supervisor at the official position or duty station within that particular Department of Defense component. That commander or supervisor is obligated by the Freedom of Information Act to either furnish the individual's new official duty location address to the requestor or to forward, through official channels, any correspondence to the individual's new commander or supervisor for appropriate assistance and response. Correspondence addressed specifically to the individual concerned at his or her last official place of business or duty station is forwarded as provided by postal regulations to the new location, but the individual may choose not to respond. However, once an individual's affiliation with the Department of Defense is terminated through separation or retirement, the locator assistance the Department may render in the disclosure of home address is severely curtailed. At most, the Department may at its discretion forward correspondence to the individual's last known home address. The individual may choose not to respond and the Department of Defense will not act as an intermediary for private matters concerning former Department personnel who are no longer affiliated with it.

DEPARTMENT OF JUSTICE

Drug Enforcement Administration

[Docket No. 76-19]

DONALD H. ANDERSON, M.D., PORTLAND, MICHIGAN

Hearing

Notice is hereby given that on April 30, 1976, the Drug Enforcement Administration, Department of Justice issued to Donald H. Anderson, M.D., Portland, Michigan an Order to Show Cause as to why the Drug Enforcement Administration should not deny the Applications for Registration under the Controlled Substances Act of 1970, of the Respondent executed on May 13, 1974 and May 24, 1975 pursuant to section 303 of the Controlled Substances Act (21 U.S.C. 823).

Thirty days having elapsed since the said Order to Show Cause was received by the Respondent, and written request for a hearing having been filed with the Drug Enforcement Administration, Notice is hereby given that a hearing in this matter will be held commencing at 9:30 a.m. September 9, 1976 or as soon thereafter as other pending matters will allow in the Tax Court Courtroom No. 1017, Federal Building and Courthouse, 231 West Lafayette Street, Detroit, Michigan.

Dated: August 16, 1976.

PETER B. BENSINGER,
Administrator,
Drug Enforcement Administration.

[FR Doc.76-25365 Filed 8-27-76;8:45 am]

IMPORTERS OF CONTROLLED SUBSTANCES

Registration

By Notice dated May 28, 1976, and published in the FEDERAL REGISTER on June 7, 1976; (41 FR 22848), Applied Science Labs., Inc., 139 North Gill Street, Box 440, State College, PA 16801, made application to the Drug Enforcement Administration to be registered as an importer of the basic classes of controlled substances listed below:

Drug:	Schedule
3,4-Methylenedioxy amphetamine	I
Bufotenine	I
Diethyltryptamine	I
Dimethyltryptamine	I
Piminodine	II

No comments or objections have been received. Additionally, there are currently no registered domestic bulk manufacturers or applicants therefor, of the substances listed. The substances, if imported will be supplied exclusively for authorized research or as chemical analysis standards. Therefore, in accordance with 21 U.S.C. 952(a) (2) (B) and 21 CFR Section 1311.42, and pursuant to Section 1008(a) of the Comprehensive Drug Abuse Prevention and Control Act of 1970, the above firm is granted registration as an importer of the basic classes of controlled substances listed above.

Dated: August 23, 1976.

JERRY N. JENSON,
Deputy Administrator,
Drug Enforcement Administration.

[FR Doc.76-25321 Filed 8-27-76;8:45 am]

[Docket No. 75-30]

JOHN H. PERRY HOOKER, M.D.

Revocation of Registrations

On November 11, 1975, the Acting Administrator, Drug Enforcement Administration (DEA) issued to John H. Perry Hooker an Order to Show Cause as to why his registrations (AP1959963 and AP1123481) should not be revoked for the reason that he was convicted on

October 15, 1975, in the United States District Court for the District of Massachusetts of one count of conspiracy to distribute Schedule II controlled substances and twenty-six counts of unlawful distribution of controlled substances, all felonies related to the distribution of controlled substances.

On December 16, through counsel, Dr. John H. Perry Hooker (Respondent) requested a hearing on the Order to Show Cause and on May 18, 1976, a hearing was held in Boston, Massachusetts before Administrative Law Judge Francis L. Young.

On August 6, 1976, Judge Young certified to the Administrator, pursuant to 21 CFR 1316.65 his recommended findings of fact and conclusions of law, a recommended decision, and the record of the proceedings in this matter. The Administrator, pursuant to 21 CFR 1316.66 hereby publishes his final order in this proceeding based upon the findings of fact and conclusions of law set forth below.

The Administrative Law Judge found, inter alia, that on October 15, 1975, in the United States District Court for the District of Massachusetts the Respondent was convicted of one count of conspiracy to distribute Schedule II controlled substances and twenty-six counts of unlawful distribution of a controlled substance. Furthermore, Judge Young stated that it was quite apparent that Respondent was simply selling prescriptions without any effort to prescribe these substances for any legitimate medical need or purpose. The Administrator adopts these findings of fact.

The Administrative Law Judge concluded, as a matter of law, that there is a lawful basis for the Administrator, pursuant to the Controlled Substances Act of 1970, 21 U.S.C. 801 et seq., to revoke the two DEA registrations previously issued to Respondent. The Administrator adopts this conclusion of law.

The Administrative Law Judge recommended that the Administrator revoke Respondent's Registrations AP1959963 and AP1123481. The Administrator accepts this recommendation.

Therefore, under the authority vested in the Attorney General by Section 304 of the Comprehensive Drug Abuse Prevention and Control Act of 1970, 21 U.S.C. 824, and redelegated to the Administrator of the Drug Enforcement Administration by § 0.100, Title 28 Code of Federal Regulations, the Administrator hereby orders that Certificates of Registrations of John H. Perry Hooker (DEA Registrations AP1959963 and AP1123481) be, and hereby are revoked, effective immediately.

Dated: August 24, 1976.

PETER B. BENSINGER,
Administrator.

[FR Doc.76-25319 Filed 8-27-76;8:45 am]

MANUFACTURE OF CONTROLLED SUBSTANCES

Registration

By Notice dated June 14, 1976, and published in the FEDERAL REGISTER on June 18, 1976; (41 FR 24734), Arenol Chemical Corporation, 40-33 23rd Street, Long Island City, N.Y. 11101, made application to the Drug Enforcement Administration to be registered as a bulk manufacturer of the basic class of controlled substances listed below:

Drug:	Schedule
Amphetamine	II
Methamphetamine	II

No comments or objections having been received, and pursuant to Section 303 of the Comprehensive Drug Abuse Prevention and Control Act of 1970 and 21 CFR 1301.54(e), the Deputy Administrator hereby orders that the application submitted by the above firm for registration as a bulk manufacturer of the basic class of controlled substances listed above is granted.

Dated: August 23, 1976.

JERRY N. JENSON,
Deputy Administrator,
Drug Enforcement Administration.

MANUFACTURE OF CONTROLLED SUBSTANCES

Registration

By Notice dated June 14, 1976, and published in the FEDERAL REGISTER on June 18, 1976; (41 FR 24734), Abbott Laboratories, 14th & Sheridan Road, Attn: Customer Service D-345, North Chicago, Illinois 60064, made application to the Drug Enforcement Administration to be registered as a bulk manufacturer of pentobarbital, a basic class controlled substance listed in schedule II.

No comments or objections having been received, and pursuant to Section 303 of the Comprehensive Drug Abuse Prevention and Control Act of 1970 and 21 CFR 1301.54(e), the Deputy Administrator hereby orders that the application submitted by the above firm for registration as a bulk manufacturer of pentobarbital is granted.

Dated: August 23, 1976.

JERRY N. JENSON,
Deputy Administrator,
Drug Enforcement Administration.

[Docket No. 76-4]

REED ALBERT SHANKWILER, D.O., DETROIT, MICHIGAN

Hearing

Notice is hereby given that on January 8, 1976, the Drug Enforcement Administration, Department of Justice issued to Reed Albert Shankwiler, D.O., Detroit, Michigan an Order to Show Cause as to why the Drug Enforcement Administration Registration No. AS 2767309 issued to him pursuant to Section 303 of the Controlled Substances Act (21 U.S.C. 823) should not be revoked.

Thirty days having elapsed since the said Order to Show Cause was received by the Respondent, and written request for a hearing having been filed with the Drug Enforcement Administration, Notice is hereby given that a hearing in this matter will be held commencing at 9:30 a.m., September 8, 1976, in the Tax Court Courtroom No. 1017, Federal Building and Courthouse, 231 West Lafayette Street, Detroit, Michigan.

Dated: August 16, 1976.

PETER B. BENSINGER,
Administrator,
Drug Enforcement Administration.

ALASKA

Alaska Native Claims Selection

AUGUST 5, 1976.

Pursuant to the order from the Alaska Native Claims Appeal Board dated May 26, 1976, the following decision of March 18, 1976 (Lands Proper for Selection, Approved for Interim Conveyance), as modified by decision of March 25, 1976 (Decision Modified in Part), is hereby published once in the FEDERAL REGISTER and once a week for four (4) consecutive weeks in THE TUNDRA TIMES.

CERTIFIED MAIL

RETURN RECEIPT REQUESTED

Ukpeagvik Inupiat Corporation, Box 427, Barrow, Alaska 99723—F-14836-A—Village Selection.

LANDS PROPER FOR SELECTION APPROVED FOR INTERIM CONVEYANCE

On November 15, 1973, the Ukpeagvik Inupiat Corporation, the village of Barrow, filed selection application F-14836-A under the provisions of section 12(a) of the Alaska Native Claims Settlement Act of December 18, 1971, for the surface estate of lands in the Barrow area. On March 25, 1975, patent was issued for a portion of the lands selected containing 2.80 acres.

The application is properly filed and meets the requirements of the act and of the regulations issued pursuant to it. The selected lands described below are unoccupied and do not include any lawful entry perfected under or being maintained in compliance with laws leading to acquisition of title.

In view of the foregoing, the surface estate of the following described lands,

V41169 AUG 30 76 UMI

aggregating approximately 153,791 acres, is considered proper for acquisition by the Ukpeagvik Inupiat Corporation and is hereby approved for interim conveyance pursuant to section 14(a) of the act:

sections 32 and 33, fractional.

The interim conveyance issued for the surface estate of the lands described above shall contain the following reservations to the United States:

1. A right-of-way thereon for ditches and canals constructed by the authority of the United States. Act of August 30, 1890 (26 Stat. 391); 43 U.S.C. 945.

2. A right-of-way thereon for the construction of railroads, telegraph, and telephone lines, as prescribed and directed by the act of March 12, 1914 (38 Stat. 305); 43 U.S.C. 975(d).

3. The subsurface estate therein, and all rights, privilges, immunities and appurtenances, of whatsoever nature, accruing into said estate pursuant to the Alaska Native Claims Settlement Act of December 18, 1971 (85 Stat. 688); 43 U.S.C. 1601–1624.

4. Pursuant to section 17(b) of the Alaska Native Claims Settlement Act of December 18, 1971 (85 Stat. 688); the following easements referenced by easement identification number (EIN) on the easement map in case file F–14836–EE are reserved to the United States and subject to further regulation thereby:

a. A site easement for public purposes and a road easement for use by the public to gain access to said site. The locations of said easements are:

A five (5) acre site easement covering the Rogers-Post Monument (EIN 9–C4) and a road easement one hundred (100) feet in width to said site from the Barrow-Wainwright Road easement (EIN 3–C5, E), and its use is to be controlled by applicable State and Federal law or regulations.

b. A one (1) acre site easement for public purposes covering the site of the original village of Barrow at point Barrow (EIN 10–C4), and its use is to be controlled by applicable State and Federal law or regulations.

c. A trail easement twenty-five (25) feet in width for use by the public to gain access to and from public lands south of the selection. Said easement is located along the route of the existing winter trail along the Chukchi Sea coast from the Division of Aviation tract at Barrow, southerly to the public lands outside the selection and northerly from the boundary of the Navy Arctic Research Laboratory site along the existing truck trail to Point Barrow and extending beyond to the Arctic Research site at Plover Point (EIN 1–C5, E), and its use is to be controlled by applicable State or Federal law or regulations.

d. A road easement one hundred (100) feet in width for the proposed Barrow-Wainwright Road for use by the public to gain access to and from public lands south of the selection. Said easement is located along the alignment proposed by the Alaska Department of Highways from the Emaiksoun Lake road southerly towards Wainwright and including a spur to Emaiksoun Lake (EIN 2–C5, E), and its use is to be controlled by applicable State or Federal law or regulations.

e. A road easement one hundred (100) feet in width for use by the public to gain access to and from public lands east of the selection. Said easement is located along the existing 44 L.D. 513 right-of-way from the Navy Arctic Research Laboratory site to the Navy gas well and continuing easterly to public lands outside the selection (EIN 4–C5, E), and its use is to be controlled by applicable State or Federal law or regulations.

f. A road easement one hundred (100) feet in width for use by the public to gain access to and from public lands south of the selection. Said easement begins from the Barrow-Wainwright Road easement and runs southeasterly along the west shore of Lake Sungovoak to lands south of the selection (EIN 4b–C5, E), and its use is to be controlled by applicable State or Federal law or regulations.

g. A road easement one hundred (100) feet in width for use by the public to gain access to and from public lands to the south and east of the selection. Said easement begins at Barrow and runs southerly along the route proposed by the village corporation, past the east shore of Lake Sungovoak to lands south of the selection (EIN 5–C5, M), and its use is to be controlled by applicable State or Federal law or regulations.

h. The following existing 44 L.D. 513 rights-of-way and appurtenances thereto, constructed by the United States through, over, or upon the land herein described and the right of United States, its agents or employees to maintain, operate, repair, or improve the same so long as needed or used for or by the United States (EIN 11–C4, 44 L.D. 513):
(1) F–013216;
(2) F–022945;
(3) F–026975;
(4) F–031617, Parcels A, B, and C;
(5) F–035319;
(6) F–12605;

(7) F–18794.

i. In addition to the foregoing, the United States reserves:

(1) The general right to enter upon the lands herein granted for cadastral, geodetic, or other survey purposes, together with the right to do all things necessary in connection therewith.

(2) A continuous linear easement twenty-five (25) feet in width upland of and parallel to the mean high tide line in order to provide public access to and along the marine coastline and use of such shore for purposes such as the beaching of watercraft or aircraft, travel along the shore, recreation, and other similar uses (EIN 6–C5). Deviations from the waterline are permitted when specific conditions so require, e.g., impassible topography or waterfront obstruction. This easement is subject to the right of the owner of the servient estate to build upon such easement a facility for public or private purposes, such right to be exercised reasonably and without undue or unnecessary interference with or obstruction of the easement. When access along the marine coastline easement is to be obstructed, the owner of the servient estate will be ogligated to convey to the United States an acceptable alternate access route at no cost to the United States, prior to the creation of such obstruction.

(3) An easement for the transportation of energy, fuel, and natural resources which are the property of the United States or which are intended for delivery to the United States or which are produced by the United States. This easement also includes the right to build any related facilities necessary for the exercise of the right to transport energy, fuel, and natural resources including those related facilities necessary during periods of planning, locating, constructing, operating, maintaining, or terminating transportation systems. The specific location of this easement shall be determined only after consultation with the owner of the servient estate. Whenever the use of such easement will require removal or relocation of any structure owned or authorized by the owner of the servient estate, such use shall not be initiated without the consent of the owner of such improvement, provided, however, that the United States may exercise the right of eminent domain if such consent is not given. Only those portions of this easement that are actually in use or that are expressly authorized on March 3, 1996, shall continue to be in force.

j. Furthermore, the United States incorporates by reference the agreement of May 14, 1974, between the United States Department of the Navy and the Arctic Slope Regional Corporation and four Native village corporations, and reserves those easements necessary to implement said agreement. A copy of the agreement is located in Bureau of Land Management file F–14836–EE.

The grant of lands by the interim conveyance shall be subject to:

1. Issuance of a patient confirming the boundary description of the lands granted after approval and filing by the Bureau of Land Management of the official plat of survey covering such lands.

2. Valid existing rights therein, including but not limited to those created by any lease (including a lease issued under section 6(g) of the Alaska Statehood Act (72 Stat. 339, 341), contract, permit, right-of-way, or easement and the right of the lessee, contractee, permittee, or grantee to the complete enjoyment of all rights, privileges, and benefits thereby granted to him.

3. Requirements of section 14(c) of the Alaska Native Claims Settlement Act, 85 Stat. 688, 703; 43 U.S.C. 1613(c), that the grantee hereunder convey those portions of land hereinafter granted, as prescribed in said section.

Interim conveyance to the lands remaining in the application will be made at a later date. Conveyance to the lands in T. 22 N., R. 18 W., Umiat Meridian covered by special land use permit F–7715 will be made after the permittee has met the stipulations contained in the permit and the lands are restored to their former condition. It should be noted that no interim conveyance will be issued to the Arctic Slope Regional Corporation for the subsurface estate of these lands, since the lands involved are located within Naval Petroleum Reserve No. 4. Section 12(a)(1) of the Alaska Native Claims Settlement Act provides that when a village corporation selects the surface estate to lands within Naval Petroleum Reserve No. 4, the regional corporation may make lieu selections of the subsurface estate, in an equal acreage, from other lands withdrawn by subsection 11(a) of the act. Enclosed is a current status plat showing the lands approved for interim conveyance.

The Ukpeagvik Inupiat Corporation has the right of appeal to the Alaska Native Claims Appeal Board in accordance with the regulations in 43 CFR 4.900. If an appeal is taken, the notice of appeal must be filed with the Alaska Native Claims Appeal Board, P.O. Box 2433, Anchorage, Alaska 99501 and a copy served upon the Bureau of Land Management and the Regional Solicitor, Office of the Solicitor, 1016 West Sixth Avenue, Suite 201, Anchorage, Alaska 99501, within 30 days from receipt of this decision. To avoid summary dismissal of the appeal, there must be strict compliance with the regulations. See enclosed ASO Form 2650–4.

ROBERT E. SORENSON,
Chief, Branch of Lands and Mineral Operations.

In accordance with Departmental regulation 43 CFR 2650.7(d), notice of this decision is being published once in the FEDERAL REGISTER and once a week, for four (4) consecutive weeks, in the THE TUNDRA TIMES. Any party claiming a property interest in land affected by this decision may appeal the decision to the Alaska Native Claims Appeal Board, P.O. Box 2433, Anchorage, Alaska 99510 and with a copy served upon the Bureau of Land Management and the Regional Solicitor, Office of the Solicitor, 1016 West Sixth Avenue, Suite 201, Anchorage, Alaska 99501; also:

1. Any party receiving actual notice of this decision shall have 30 days from the receipt of actual notice to file an appeal.

2. Any unknown parties, any parties unable to be located after reasonable efforts have been expended to locate, and any parties who failed or refused to sign a receipt for actual notice, shall have until September 27, 1976 to file an appeal.

3. Any party known or unknown who may claim a property interest which is adversely affected by this decision shall be deemed to have waived their rights which were adversely affected unless an appeal is timely filed with the Alaska Native Claims Appeal Board.

To avoid summary dismissal of the appeal, there must be strict compliance with the regulations governing such appeal. Further information on the manner of, and requirements for, filing an appeal may be obtained from the Bureau of Land Management, 555 Cordova Street, Anchorage, Alaska 99501.

ROBERT E. SORENSON,
Chief, Branch of Lands, and Minerals Operations.

ALASKA NATIVE SELECTIONS

Waiver of Regulations for Arctic Slope Regional Corp.

AUGUST 25, 1976.

This order permits Arctic Slope Regional Corporation (ASRC) selections F–19148–5, 12, 15, 28, and 30 to be in less than whole township sizes as described in the above-listed selections presently on file with the Alaska State Director, Bureau of Land Management.

The affected townships are:

UMIAT MERIDIAN

Tps. 9, 10, and 11 S., R. 61 W.
Tps. 7 and 8 S., R. 55 W.
Tps. 9 and 10 S., R. 57 W.
Tps. 4, 8, and 9 S., R. 45 W.
Tps. 5, 6, 8, and 9 S., R. 46 W.
Tps. 8 and 9 S., R. 44 W.
T. 1 N., Rs. 42 and 43 W.

Statement of findings. ASRC, a corporation formed pursuant to the Alaska Native Claims Settlement Act (ANCSA), has requested a waiver of the regulations, 43 CFR 2652.3(c), to permit selections in less than whole township sizes in the above-listed townships and selection applications.

ASRC has offered in consideration for said waiver to contribute to the Department of the Interior pursuant to 43 U.S.C. 1364 the actual cost, up to $116,000, of any survey monumentation actually necessary in excess of the actual cost which would have been necessary if it were not for a waiver of regulations, 43 CFR 2652.3(c). Under this commitment, ASRC agrees to contribute the monies after the monumentation work has been completed and the amount of the contribution is established.

The Department has studied this request, decided to accept the offer, has

V 41 169 AUG 30 76 UMI

concluded that in light of the agreement there is no adverse effect on the United States, and that the waiver is in the best interest of ASRC and the United States. Therefore, the Department has decided to grant the waiver.

Pursuant to 43 CFR 2650.0–8 and in consideration of the agreement between ASRC and the United States under 43 U.S.C. 1364: *It is hereby ordered*, That 43 CFR 2652.3(c) is waived for ASRC as to the above listed townships and selection applications.

Signed at Washington, D.C., on August 25, 1976.

KENT FRIZZELL,
Under Secretary of the Interior.

National Park Service

CANAVERAL NATIONAL SEASHORE ADVISORY COMMISSION

Meeting

Notice is hereby given in accordance with the Federal Advisory Committee Act that a meeting of the Canaveral National Seashore Advisory Commission will be held at 2 p.m., e.d.t., on September 16, 1976, at the Holiday Inn, 4951 South Washington Avenue, Titusville, Florida.

The purpose of the Canaveral National Seashore Advisory Commission is to consult and advise with the Secretary of the Interior on all matters of planning, development, and operation of the Canaveral National Seashore.

The members or the Advisory Commission are as follows:

Mr. Ney C. Landrum (Chairman)
Mr. Robert H. Hudson
Ms. Doris Leeper
Mr. Thomas K. Wetherell

The matters to be discussed at this meeting will be input received at the public meetings of August 24 and 25, 1976, and consideration of planning alternatives for Canaveral National Seashore.

The meeting will be open to the public. However, facilities and space for accommodating members of the public are limited and it is expected than not more than 25 persons will be able to attend. Any member of the public may file with the commission a written statement concerning the matters to be discussed.

Persons wishing further information concerning this meeting or who wish to submit written statements may contact Donald Guiton, Superintendent, Canaveral National Seashore, P.O. Box 2583, Titusville, FL 32780. Telephone 305–867–4675. Minutes of the meeting will be available for public inspection approximately 4 weeks after the meeting at Park Headquarters.

Dated: August 20, 1976.

DAVID D. THOMPSON, JR.,
Regional Director, Southeast Region.

[Docket No. WASH 76–1; Rulemaking Proceedings]

STATE OF ALASKA

Notice Revising Dates Previously Announced in Prehearing Order and Resetting Date of Hearing and Dates for Filing

On August 9, 1976, the Judge in the aforementioned proceeding issued an Order to all parties which amended his Prehearing Order published on page 21833 of the FEDERAL REGISTER on May 28, 1976.

The Amended Order reads as follows:

On the Judge's own motion—because of the late date of receipt of the 15 volumes of transcripts of the hearings held in Alaska during June and July—the dates for furnishing direct and rebuttal direct testimony are hereby extended and the previous dates published in the FEDERAL REGISTER, on page 21833 on May 28, 1976, within my Prehearing Order, are canceled.

Accordingly, the date for submission of direct testimony is hereby extended to September 9, 1976. The date for submission of rebuttal direct testimony is extended to September 30, 1976. In accordance with the aforementioned revised dates, the Washington hearings now scheduled to commence on September 21, 1976, are canceled and hereby rescheduled to commence on Tuesday, October 19, 1976, at a place to be announced at a later date.

After the above-quoted notice, the location for the hearings was established. The location is as follows: U.S. Courthouse, 3rd and Constitution Ave., NW., Washington, D.C., Courtroom 9, 4th floor.

MALCOLM P. LITTLEFIELD,
Administrative Law Judge.

DEPARTMENT OF AGRICULTURE

Soil Conservation Service

CANE CREEK WATERSHED PROJECT, LAUDERDALE COUNTY, TENN.

Availability of Negative Declaration

Pursuant to Section 102(2)(c) of the National Environmental Policy Act of 1969; the Council on Environmental Quality Guidelines (40 CFR Part 1500); and the Soil Conservation Service Guidelines (7 CFR Part 650); the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for a portion of the Cane Creek Watershed Project, Lauderdale County, Tennessee.

The environmental assessment of this federal action indicates that this portion of the project will not create significant adverse local, regional, or national impacts on the environment and that no significant controversy is associated with this portion of the project. As a result of these findings, Mr. Donald C. Bivens, State Conservationist, Soil Conservation Service, USDA, 561 United States Courthouse, Nashville, Tennessee 37203, has determined that the preparation and review of an environmental impact statement is not needed for this portion of the project.

The project concerns a plan for watershed protection and flood prevention. Planned works of improvement, as described in this negative declaration, include completion of remaining conservation land treatment supplemented by completion of channel work on that portion of Cane Creek channel upstream from the U.S. Highway 51 bridge north of Ripley, Tennessee. This portion of Cane Creek has intermittent flow.

The negative declaration is being filed with the Council on Environmental Quality and copies are being sent to various federal, state, and local agencies as well as to interested individuals. Basic data developed during the environmental assessment are on file and may be reviewed by interested parties at the Soil Conservation Service, 561 United States Courthouse, Nashville, Tennessee 37203. A limited number of copies of the negative declaration are available from the same address to fill single-copy requests.

No administrative action on implementation of the proposal will be taken until September 14, 1976.

(Catalog of Federal Domestic Assistance Program No. 10.904, Watershed Protection and Flood Prevention Program—Public Law 83–566, 16 USC 1001–1008)

Dated: August 16, 1976.

JOSEPH W. HAAS,
Deputy Administrator for Water Resources, Soil Conservation Service.

DEPARTMENT OF COMMERCE

Economic Development Administration

FRANK H. GUIDER, INC.

Petition for a Determination of Eligibility

A petition by Frank H. Guider, Inc., 39 Church Street, Port Jervis, New York 12771, whose subsidiary, Novelty Slipper Company, is a producer of footwear for women, was accepted for filing on August 23, 1976, under section 251 of the Trade Act of 1974 (Pub. L. 93–618). Consequently, the United States Department of Commerce has initiated an investigation to determine whether increased imports into the United States of articles like or directly competitive with those produced by the petitioning firm contributed importantly to total or partial separation of the firm's workers, or threat thereof, and to a decrease in sales or production of the petitioning firm.

Any party having a substantial interest in the proceedings may request a public hearing on the matter. A request for a hearing must be received by the Chief, Trade Act Certification Division, Economic Development Administration, U.S. Department of Commerce, Washington, D.C. 20230, no later than the close of business of September 9, 1976.

JACK W. OSBURN, JR.,
Chief, Trade Act Certification Division, Office of Planning and Program Support.

National Oceanic and Atmospheric Administration

DETROIT ZOOLOGICAL PARK

Issuance of Permit To Take Marine Mammals

On May 27, 1976, notice was published in the FEDERAL REGISTER (41 F.R. 21665) that an application had been filed with the National Marine Fisheries Service by Detroit Zoological Park, 8450 W. Ten Mile Road, Royal Oak, Michigan 48068, for a permit to take ten (10) California sea lions (*Zalophus californianus*) for the purpose of public display.

Notice is hereby given that, on August 23, 1976, and as authorized by the provisions of the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361–1407), the National Marine Fisheries Service issued a permit for the above taking to Detroit Zoological Park, subject to certain conditions set forth therein.

The Permit is available for review by interested persons in the following offices:

Director, National Marine Fisheries Service, 3300 Whitehaven Street, N.W., Washington, D.C.

Regional Director, National Marine Fisheries Service, Northeast Region, Federal Building, 14 Elm Street, Gloucester, Massachusetts 02673.

[FR Doc.76–25303 Filed 8–27–76;8:45 am]

KINGS PRODUCTIONS

Receipt of Application for Public Display Permit

Notice is hereby given that the following Applicant has applied in due form for a permit to take marine mammals for public display as authorized by the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361–1407) and the Regulations Governing the Taking and Importing of Marine Mammals (50 CFR Part 216).

Kings Productions, Taft Broadcasting Company, 8050 Hosbrook Court, Cincinnati, Ohio 45326, to take eight (8) Atlantic bottlenosed dolphins (*Tursiops truncatus*) for public display.

The dolphins will be taken by a professional collector from the waters off Melbourne, Florida, by means of an encircling net technique.

Of the 8 animals, 4 will be maintained and displayed at Kings Dominion, P.O. Box 166, Doswell, Virginia 23047, and 4 animals will be displayed at Kings Islands, P.O. Box 400, Kings Mills, Ohio 45034, during the operating season (April–October). Both parks are owned and operated by Taft Broadcasting Company.

The 4 dolphins being displayed at Kings Island will be maintained in a circular tank having a radius of fifteen feet with a nine foot depth, giving it a 47,685 gallon capacity. Two holding tanks, 14' x 28' x 5' and 14' x 32' x 5' are available for the animals.

The display at Kings Dominion will maintain the 4 dolphins in a circular tank having a 17'6'' radius with a depth of 9 feet, giving it a 64,905 gallon capacity. Two holding tanks are provided, 10' x 20' x 7'.

At the Kings Island and Kings Dominion facilities, the dolphins will work in teams of two, each team giving six shows daily. Both facilities are profit making organizations with approximately 4 million people visiting the parks seasonally.

During the off-season months, the animals will be maintained under training conditions in natural-water enclosures at Flipper's Sea School, Marathon Shores, Florida. Two enclosures, each having a surface area of 2,700 and 3,300 feet respectively. with an average minimum depth of 12 feet, will each house 4 dolphins. Although the 8 dolphins, being maintained and trained here during the winter months, will not be used as a scheduled part of the Sea School show, they will be displayed to the public. Flipper's Sea School is a profit organization, open year round to the public with four daily shows.

The arrangements and facilities for transporting and maintaining the marine mammals requested in the above described application have been inspected by a licensed veterinarian, who has certified that such arrangements and facilities are adequate to provide for the well-being of the marine mammals involved.

Documents submitted in connection with the above application are available for review in the following offices:

Director, National Marine Fisheries Service, 3300 Whitehaven Street, N.W., Washington, D.C.

Regional Director, National Marine Fisheries Service, Northeast Region, Federal Building, 14 Elm Street, Gloucester, Massachusetts 01930.

Regional Director, National Marine Fisheries Service, Southeast Region, Duval Building, 9450 Gandy Boulevard, St. Petersburg, Florida 33702.

Concurrent with the publication of this notice in the FEDERAL REGISTER, the Secretary of Commerce is forwarding copies of the application to the Marine Mammal Commission and its committee of Scientific Advisors.

Interested parties may submit written data or views, or requests for a public hearing on this application to the Director, National Marine Fisheries Service, Department of Commerce, Washington, D.C. 20235, on or before September 29, 1976. Those individuals requesting a hearing should set forth the specific reasons why a hearing in this particular application would be appropriate. The holding of such hearing is at the discretion of the Director.

All statements and opinions contained in this notice in support of this application are summaries of those of the Applicant and do not necessarily reflect the views of the National Marine Fisheries Service.

HARVEY M. HUTCHINGS,
Acting Associate Director for Resource Management, National Marine Fisheries Service.

AUGUST 24, 1976.

[FR Doc.76–25300 Filed 8–27–76;8:45 am]

METROPARKS ZOO

Issuance of Permit To Take Marine Mammals

On June 21, 1976, notice was published in the FEDERAL REGISTER (41 F.R. 24927) that an application had been filed with the National Marine Fisheries Service by Metroparks Zoo, Brookside Park, Cleveland, Ohio 44109, for a permit to take four (4) California sea lions (*Zalophus californianus*) for the purpose of public display.

Notice is hereby given that on August 19, 1976, and as authorized by the provisions of the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361–1407), the National Marine Fisheries Service issued a permit for the above taking to Metroparks Zoo subject to certain conditions set forth therein. The Permit is available for review by interested persons in the following offices:

Director, National Marine Fisheries Service, 3300 Whitehaven Street, N.W., Washington, D.C.;

Regional Director, National Marine Fisheries Service, Southwest Region, 300 South Ferry Street, Terminal Island, California 90731; and

Regional Director, National Marine Fisheries Service, Northeast Region, Federal Building, 14 Elm Street, Gloucester, Massachusetts 01930.

JACK W. GEHRINGER,
Deputy Director, National Marine Fisheries Service.

AUGUST 19, 1976.

[FR Doc.76–25302 Filed 8–27–76;8:45 am]

PORT ELIZABETH MUSEUM

Receipt of Application for a Scientific Research and Public Display Permit

Notice is hereby given that the following Applicant has applied in due form for a permit to take marine mammals for scientific research and public display as authorized by the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361–1407) and the Regulations Governing the Taking and Importing of Marine Mammals (50 CFR Part 216).

Scott R. Rutherford, Port Elizabeth Museum, Humewood, Port Elizabeth, South Africa, to participate in the taking of twleve (12) bottlenosed dolphins (*Tursiops truncatus* cf. *aduncus*), for the purpose of public display and scientific research.

Mr. Rutherford, a U.S. citizen is a Consultant Curator of the Oceanarium of the Port Elizabeth Museum. He will be involved in the capture of three (3) dolphins to be maintained at the ocea-

V 41 169 AUG 30 76 UMI

narium for display and research, and nine (9) dolphins to be taken, measured, freeze branded and released. The 3 dolphins to be captured for research and display will be freeze branded, measured, and weighed. In addition, along with digestive function and physiology studies, each animal will be given a week-long course of oxytetracycline daily to provide a marker for teeth age studies. Only animals between 2.0–2.3m in length will be considered for captivity.

Capture will be under the direction of Mr. Rutherford. Capture site will be Algoa Bay, off Port Elizabeth by means of a hoop-net technique.

At the facility the animals will be maintained in a quarantine circular pool, 1.6m in depth with a 6.43 square-meter surface area, until the animals are in satisfactory condition. After such time the animals will then be released into the main pool. The main pool, with resting areas, has a 1355 square-meter surface area with varying depths from 3 to 4.3m. The facilities daily display is for non-profit with annual attendance over 170,000 visitors.

Nine dolphins not less than 1.8m in length will be captured, freeze branded, given a 10mg/kg/body weight dosage of oxytetracycline that provides a dentine mark for later age determination in the event of recovery, and released. Copper brands will be applied to both sides of the dorsal fin. It is hoped the re-sighting of marked animals will provide insight into the seasonal population shifts, thus, compiling information essential for intended population estimates of this area.

The arrangements and facilities for transporting and maintaining the marine mammals requested in the above-described application have been inspected by a licensed veterinarian, who has certified that such arrangements and facilities are adequate to provide for the well-being of the marine mammals involved.

Documents submitted in connection with the above application are available for review in the following office:

Director, National Marine Fisheries Service, 3300 Whitehaven Street NW., Washington, D.C.

Written data or views, or requests for a public hearing on this application should be submitted to the Director, National Marine Fisheries Service, Department of Commerce, Washington, D.C. 20235, on or before September 29, 1976. Those individuals requesting a hearing should set forth the specific reasons why a hearing on this particular application would be appropriate. The holding of such hearing is at the discretion of the Director.

All statements and opinions contained in this notice in support of this application are summaries of those of the Applicant and do not necessarily reflect the views of the National Marine Fisheries Service.

HARVEY M. HUTCHINGS,
Director for Resource Management, National Marine Fisheries Service.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Alcohol, Drug Abuse, and Mental Health Administration

MINORITY ADVISORY COMMITTEE

Meeting

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (5 U.S.C. Appendix I), announcement is made of the following National Advisory body scheduled to assemble during the month of September 1976:

MINORITY ADVISORY COMMITTEE, ADAMHA

September 15–17—OPEN Meeting
September 15, 1:00 p.m., Conference Room C, Parklawn Building, 5600 Fishers Lane, Rockville, Md.
September 16, 9:00 a.m., Conference Room C, Parklawn Building
September 17, 9:00 a.m., Room 403, Marvin Center, George Washington University, 800 21st Street, NW., Washington, D.C.

Contact: Ernest F. Hurst, Parklawn Building, Room 13C–15, 5600 Fishers Lane, Rockville, Md. 20852, 301–443–3838.

Purpose. The Minority Advisory Committee, ADAMHA, advises the Secretary, Department of Health, Education, and Welfare, and the Administrator, Alcohol, Drug Abuse, and Mental Health Administration, on needs, programs, and activities regarding minority alcohol, drug abuse, and mental health matters, and makes recommendations for possible solutions which meet the needs and concerns of minority groups throughout the United States. The Committee functions in an advisory capacity to the Administrator, ADAMHA, on these matters which relate to the National Institute on Alcohol Abuse and Alcoholism, National Institute on Drug Abuse and the National Institute of Mental Health.

Agenda. This meeting will be open to the public. On September 15, there will be a report from the Executive Secretary and discussion of administrative matters. On September 16, the agenda will include discussion on Health Planning Systems, Community Mental Health Centers Legislation, a presentation by staff of the Center for Minority Group Mental Health Programs, National Institute of Mental Health, and discussions with the Directors of the National Institute on Alcohol Abuse and Alcoholism, National Institute on Drug Abuse, and National Institute of Mental Health. On September 17, the Committee will meet at the George Washington University for a planning session on fiscal year 1977 operations, priority issues, and objectives and responsibilities. Agenda items are subject to change as priorities dictate. Attendance by the public will be limited to space available.

Substantive program information may be obtained from the contact person listed above.

Mr. James C. Helsing, Deputy Director, Office of Public Affairs, ADAMHA, will furnish, on request, summaries of the meeting and a roster of the committee members. Mr. Helsing is located in Room 16–95, Parklawn Building, 5600 Fishers Lane, Rockville, Maryland 20852, 301–443–3783.

Dated: August 24, 1976.

CAROLYN T. EVANS,
Committee Management Officer, Alcohol, Drug Abuse, and Mental Health Administration.

[FR Doc.76-25290 Filed 8-27-76;8:45 am]

MINORITY GROUP MENTAL HEALTH PROGRAMS REVIEW COMMITTEE

Renewal

Pursuant to the Federal Advisory Committee Act of October 6, 1972 (5 U.S.C. Appendix I), the Alcohol, Drug Abuse and Mental Health Administration announces the renewal by the Secretary, Department of Health, Education, and Welfare, with the concurrence of the Office of Management and Budget Committee Management Secretariat, of the Minority Group Mental Health Programs Review Committee.

Authority for this committee will expire August 27, 1978, unless the Secretary formally determines that continuance is in the public interest.

Dated: August 24, 1976.

FRANCIS N. WALDROP,
Acting Administrator, Alcohol, Drug Abuse, and Mental Health Administration.

[FR Doc.76-25291 Filed 8-27-76;8:45 am]

Public Health Service

FEASIBILITY OF CERTIFYING COMPONENT PARTS FOR SELF-CONTAINED BREATHING APPARATUS

Public Meeting

The Secretary of the Interior, through the Mining Enforcement and Safety Administration (MESA) and the Secretary of Health, Education, and Welfare, through the National Institute for Occupational Safety and Health (NIOSH) conduct a testing and approval program for respirators used in hazardous atmospheres pursuant to regulations contained in 30 CFR Part 11 issued jointly by the Secretaries (37 FR 6244).

Section 11.30(a) of Part 11 states that "MESA and the Institute shall issue certificates of approval pursuant to the provisions of this subpart only for individual, completely assembled respirators which have been examined, inspected, and tested, and which meet the minimum requirements set forth in Subparts H through M of this part, as applicable." In accordance with this requirement, MESA and NIOSH have issued approvals only for complete respirators.

The National Institute for Occupational Safety and Health has received a request from The All-Gas and Equipment Company of Hartford, Connecticut, which desires to obtain approvals on replacement gas container (cylinder) and valve assemblies for use with approved self-contained breathing apparatus. The Institute has investigated this possibility and concluded that from an engineering standpoint, it may be feasible to use separate cylinder and valve assemblies manufactured by one company with approved self-contained breathing apparatus manufactured by another company. In such a case, component approval might be issued to one applicant, for example, for a cylinder and valve assembly that is identical in shape, size, material, and performance with the cylinder and valve assembly provided by another applicant as part of a complete approved apparatus. Each applicant would be subject to the same quality assurance requirements for construction and assembly of cylinder and valve assembly. However, there may be objections or legitimate reasons why certification of cylinder and valve assemblies for self-contained breathing apparatus should not be permitted under Subpart H of 30 CFR Part 11.

Notice is hereby given that NIOSH and MESA will hold a public meeting to obtain information and views on engineering feasibility, benefits, legalities, and liabilities associated with the intermixing of cylinder and valve assemblies or of other parts or components from different manufacturers. The meeting will be held on October 22, 1976, beginning at 9:30 a.m. in Conference Room E (3rd Floor) of the Department of Health, Education, and Welfare's Parklawn Building, 5600 Fishers Lane, Rockville, Maryland.

Interested persons who wish to present pertinent oral comments at the meeting, should write to the Deputy Director, NIOSH, 5600 Fishers Lane, (Park Bldg. Rm. 3–32), Rockville, Md. 208582, not later than 14 days before the meeting, advising of the approximate time needed to present such comments. For those persons who cannot participate in the meeting, written comments may be submitted to the Deputy Director at the foregoing address. A verbatim transcript of the proceedings will be maintained and all written statements and data received by October 29, will be made part of the record.

All material received into the record will be reviewed and either a notice of proposed rulemaking to amend § 11.30 (a) and Subpart H of 30 CFR Part 11 to permit certification of component parts, or a notice setting forth the reasons why such an amendment is not feasible, will be published in the FEDERAL REGISTER.

Dated: August 23, 1976.

EDWARD J. BAIER,
Acting Director, National Institute for Occupational Safety and Health.

Social Security Administration

PHYSICAL THERAPY SERVICES UNDER THE HEALTH INSURANCE PROGRAM

Schedule of Guidelines

Notice is hereby given of a revision in the effective date of the updated schedule of guidelines for evaluating the costs of physical therapy services furnished under arrangements in the Medicare program. As authorized in Part 405, Chapter III of Title 20 of the Code of Federal Regulations, § 405.432(b), the revised schedule was established by the Commissioner of Social Security, and published in the FEDERAL REGISTER on February 19, 1976 (41 FR 7542).

The updated schedule for physical therapy services will be effective for services performed on or after April 1, 1976, without regard to the beginning dates of providers' cost reporting periods (rather than for provider cost reporting periods beginning on or after April 1, 1976), and will remain in effect until the effective date of any revised schedule that may be published. Providers with cost reporting periods that straddle the periods covered by the schedules will utilize both the guideline schedules. For example, for a provider in Maryland, regardless of the beginning date of its costs reporting period, the services performed before April 1, 1976, will be evaluated at the adjusted hourly salary equivalency amount of $9.80 and the services performed on or after April 1, 1976, will be evaluated at the hourly salary equivalency amount of $10.80.

The adjusted hourly salary equivalency amounts and the standard travel allowances in the updated schedule published in the FEDERAL REGISTER on February 19, 1976, remain unchanged, but are republished for reference.

This revision, establishing a uniform effective date, will avoid inequities both to physical therapists and providers that might have occurred had different rates been applied to providers in an area solely on the basis of the beginning dates of such providers' cost reporting periods. Thus, all providers will have the benefit of the higher limits at the same time.

V 41 169 AUG 30 76 UMI

DEPARTMENT OF TRANSPORTATION

Coast Guard

[CGD 76-010 FH; CGD 76-011 FH]

LOOP, INC. AND SEADOCK, INC.

Deepwater Port License Applications; Final Public Hearing

Notice is hereby given that a final public hearing under section 5 (g) and (i) of the Deepwater Port Act of 1974 (the Act) (33 U.S.C. 1504 (g) and (i) will be held beginning at 9:00 a.m. on Tuesday, September 21, 1976 in Room 2232, 400 Seventh Street, SW, Washington, D.C. 20590. The hearing will be informal and conducted jointly by the U.S. Coast Guard and the U.S. Department of Transportation, Office of Deepwater Ports.

The purpose of this hearing is to provide an opportunity for all interested parties to submit views not heretofore presented concerning the issuance or denial by the Secretary of Transportation of deepwater port licenses which would authorize the ownership, construction and operation of the LOOP, Inc., and Seadock, Inc. projects in the Gulf of Mexico, off the coasts of Louisiana and Texas, respectively.

The LOOP, Inc. and Seadock, Inc. deepwater port license applications have been the subject of draft environmental impact statements (EIS's) made available for public comment in April 1976 and general public hearings conducted in May 1976 in the States of Louisiana and Texas. Both license applications, including supporting materials, the draft EIS's and comments thereon, the transcripts of previous hearings, and other documents of the license application processes are available for public inspection during normal business hours in room 6125 at Coast Guard Headquarters, 400 Seventh Street, SW, Washington, D.C. 20590.

The final phase of the deepwater port license application process commences with this public hearing. Section 5(g) of the Act requires all public hearings on all applications for any designated application to be concluded not later than 240 days after notice of the initial application has been published in the FEDERAL REGISTER. Notices of the filing of both the LOOP, Inc. and Seadock, Inc. deepwater port license applications, the availability thereof for public inspection and the designation of the respective application areas, appeared in the FEDERAL REGISTER of January 26, 1976 (41 FR 3768-69). All public hearings in these license application processes must therefore be concluded by September 22, 1976.

Federal agencies and States having duties and responsibilities under the Act have a period of 45 days from the date of the final public hearing announced heerin, or until November 5, 1976, to submit their final recommendations, including recommended license conditions, as appropriate, to the Coast Guard application staff, Commandant (G-WDWP/61), 400 Seventh Street, SW., Washington, D.C. 20590. The Secretary of Transportation will thereafter approve or deny within 45 days, or by December 20, 1976, the license applications under consideration.

Any person desiring to appear and be heard at this public hearing may do so. However, only new information and material directly relevant to the issuance or denial of the deepwater port licenses and other related Federal authorizations is desired. Information and comments concerning either or both deepwater port proposals previously submitted in response to earlier notices, public hearings, and the EIS's should not be duplicated at this proceeding.

Interested persons may submit briefs and make oral arguments relevant to the subject matter of this hearing at a time determined by the Presiding Officer during the hearing. Time limitations, if necessary, may be imposed by the Presiding Officer on those making presentations, within his sole discretion, at any time during the hearing. The order of speakers at this hearing will generally be a random order, based upon registration cards filled out at the door immediately prior to the beginning of the hearing.

A transcript will be made of the hearing. This record will be available for examination by interested persons, during normal business hours, at the address listed in the fifth paragraph of this notice.

(88 Stat. 2134 (33 U.S.C. 1504(g)); (49 CFR 1.46)

Dated: August 25, 1976.

A. F. FUGARO,
Rear Admiral, U.S. Coast Guard, Chief, Office of Marine Environment and Systems.

[FR Doc.76-25346 Filed 8-27-76;8:45 am]

[CGD 76-011 PIN]

PORT OF GALVESTON COMPARATIVE DETERMINATION UNDER THE DEEPWATER PORT ACT OF 1974

Information Regarding Status

Notice is hereby given that the U.S. Coast Guard Deepwater Ports Application Staff, Commandant (G-WDWP/61), U.S. Coast Guard, 400 Seventh Street SW., Washington, D.C. 20590, has prepared an examination of the request submitted by Galveston Wharves, Inc., on behalf of the Port of Galveston, Texas, under § 148.216 of Title 33, Code of Federal Regulations, for a comparative determination under section 4(d) of the Deepwater Port Act of 1974 (the Act) (33 U.S.C. 1504(d)), in respect of the deepwater port license application filed by Seadock, Inc. (41 FR 3769). The purpose of this notice is to advise all interested persons of the 4(d) examination, its relation to the forthcoming decision of the Secretary of Transportation on the Seadock, Inc. deepwater port license application and the availability thereof for public inspection and comment.

Section 4(d) of the Act directs the Secretary of Transportation, before issuing a license for a deepwater port under the Act, upon appropriate application, to examine and compare the economic, social, and environmental effects of the construction and operation of a proposed offshore deepwater port with the similar effects of the construction, expansion, deepening and operation, pursuant to plans for a deep draft channel and harbor, of a port of the State which will be directly connected by pipeline with the proposed deepwater port, and to determine which project best serves the national interest or that both developments are warranted. The Secretary has delegated to the Commandant, U.S. Coast Guard, the responsibility for undertaking the required examination and comparison.

The Coast Guard's findings concerning the economic social and environmental effects of the construction and operation of the proposed Seadock, Inc. deepwater port project as compared with the construction, expansion, deepening and operation of the Port of Galveston are contained in a study, entitled "Section 4(d) Examination, Port of Galveston/Seadock, Inc." Conclusions and recommendations respecting which project best serves the national interest, or that both developments are warranted, will be derived from this study and provide the basis for the determination that must be made prior to the Secretary's decision on the Seadock, Inc. deepwater port license application. It is expected that the license decision will be reached by mid-December 1976 and the Secretary's determination with respect to the Galveston project will be made in concert with the license decision.

The application staff report of the 4(d) examination discussed herein has been provided to the principals involved and will be available about September 1, 1976 to all other interested persons for public inspection during normal business hours, in Room 6125, at the address listed in the first paragraph of this notice. Interested persons may, after review of the study, consult with, or submit comments to, the application staff.

(5 U.S.C. 552)

Dated: August 25, 1976.

A. F. FUGARO,
Rear Admiral, U.S. Coast Guard, Chief, Office of Marine Environment and Systems.

Federal Aviation Administration

BOSTON AIR TRAFFIC CONTROL ADVISORY COMMITTEE

Termination

Notice is hereby given of the termination of the Boston Air Traffic Control Advisory Committee. This committee was sponsored by the Air Traffic Division of the Federal Aviation Administration's (FAA's) New England Region, to provide a forum for discussion and solution of air traffic control service problems involving representatives of the military services, FAA and civil users of the air traffic control system. The Secretary of Transportation has determined that continuation of this advisory committee is no longer in the public interest in connection with the performance of duties imposed on FAA by law.

Issued in Washington, D.C. on July 26, 1976.

E. NOOTENBOOM,
Acting FAA Committee Management Officer.

[FR Doc.76-25271 Filed 8-27-76;8:45 am]

ALASKAN REGION AIR TRAFFIC CONTROL ADVISORY COMMITTEE

Termination

Notice is hereby given of the termination of the Alaskan Region Air Traffic Control Advisory Committee. This committee was sponsored by the Air Traffic Division of the Federal Aviation Administration's (FAA's) Alaskan Region, to provide a forum for discussion and solution of air traffic control service problems involving representatives of the military services, FAA and civil users of the air traffic control system. The Secretary of Transportation has determined that continuation of this advisory committee is no longer in the public interest in connection with the performance of duties imposed on FAA by law.

Issued in Washington, D.C. on July 26, 1976.

E. NOOTENBOOM,
Acting FAA Committee Management Officer.

[FR Doc.76-25272 Filed 8-27-76;8:45 am]

GENERAL AVIATION ACCIDENT PREVENTION ADVISORY COMMITTEE

Termination

Notice is hereby given of the termination of the General Aviation Accident Prevention Advisory Committee. This committee was sponsored by the Flight Standards Service of the Federal Aviation Administration (FAA) to assist in the effort to reduce the general aviation accident rate by providing FAA with advice and recommendations reflecting the knowledge and views of all levels of the general aviation community. The Secretary of Transportation has determined that continuation of this committee is no longer in the public interest in connection with the performance of duties imposed on FAA by law.

Issued in Washington, D.C. on July 26, 1976.

E. NOOTENBOOM,
Acting FAA Committee Management Officer.

[FR Doc.76-25273 Filed 8-27-76;8:45 am]

MICROWAVE LANDING SYSTEM ADVISORY COMMITTEE

Renewal

Notice is hereby given that the Microwave Landing System Advisory Committee is being renewed. The Systems Research and Development Service is the sponsor of the Committee, which consists of a group of 21 experts on the design and use of microwave landing systems. The Committee reviews the developmental efforts which are underway and advises the Director, Systems Research and Development Service, regarding the feasibility of such activities; keeps informed of the operational needs of the users; recommends Government and industry studies, tests, and simulations to verify the system capability for satisfying the operational needs of the users; and provides advice and ideas on, or methods to achieve solutions to, technical problems and concept choices.

The Secretary of Transportation has determined that the formation and use of the Microwave Landing System Advisory Committee are necessary in the public interest in connection with the performance of duties imposed on the Federal Aviation Administration by law. Meetings of the Committee will be open to the public.

Issued in Washington, D.C. on August 16, 1976.

GENE JENSEN,
Executive Director, Microwave Landing System Advisory Committee.

[FR Doc.76-25274 Filed 8-27-76;8:45 am]

OBSTACLE CLEARANCE REQUIREMENTS ADVISORY COMMITTEE FOR THE UNITED STATES

Renewal

Notice is hereby given that the Obstacle Clearance Requirements Advisory Committee for the United States is being renewed. The Flight Standards Service is the sponsor of the Committee which consists of a group of 14 experts on obstacle clearance requirements. The Committee develops information and data in support of proposals to be submitted by the United States to the ICAO Obstacle Clearance Panel for consideration and/or for positions to be taken by the United States with regard to proposed international standards and requirements for prevention of the erection or for the removal of obstacles to air navigation. The Committee's activity is limited to those obstacle clearance matters which have international implications.

The Secretary of Transportation has determined that the formation and use of the Obstacle Clearance Requirements Committee for the United States are necessary in the public interest in connection with the performance of duties imposed on the Federal Aviation Administration by law. Meetings of the Committee will be open to the public.

V 41 169 AUG 30 76 UMI

Issued in Washington, D.C. on August 10, 1976.

GERALD E. GIBSON,
Chairman, Obstacle Clearance Requirements Advisory Committee for the United States.

[FR Doc.76-25275 Filed 8-27-76;8:45 am]

HIGH ALTITUDE POLLUTION PROGRAM TECHNICAL ADVISORY COMMITTEE

Establishment

Notice is hereby given of the establishment of the High Altitude Pollution Program Technical Advisory Committee. The Federal Aviation Administration (FAA) is the sponsor of the committee, and the membership includes foreign and domestic representatives from industry, universities, and governmental agencies. The committee will provide FAA with independent expert advice on the nature and direction of its technical efforts related to the conduct of its High Altitude Pollution Program.

The Secretary of Transportation has determined that the formation and use of the Technical Advisory Committee are necessary in the public interest in connection with the performance of duties imposed on the FAA by law. Meetings of the committee will be open to the public.

Issued in Washington, D.C. on August 16, 1976.

F. A. MEISTER,
Associate Administrator for Policy Development and Review (Acting).

Office of the Secretary

CONSTRUCTION OF I-66 BETWEEN CAPITAL BELTWAY (I-495) AND ROSSLYN, VIRGINIA

Public Hearing

As the Secretary of Transportation, I will be deciding whether an application for a Federal grant should be approved for construction of Interstate Highway 66 between the Capital Beltway (Interstate Highway 495) and Rosslyn, Virginia. The current proposal represents a revision from an earlier proposal which I rejected on August 1, 1975.

The earlier proposal, jointly submitted by the Virginia Department of Highways and Transportation (VDHT) and the Federal Highway Administration of this Department, was for six highway lanes, with truck traffic excluded, and with the Metro line to Vienna running along part of the median of the proposed highway. In rejecting that proposal, I stated:

> This decision is without prejudice to any further consideration on the part of the VDHT of the need for a non-Interstate commuter highway in the I-66 corridor if, after consultation with appropriate metropolitan authorities, the state finds it in the best interest of the metropolitan area to build a highway in the corridor, and if the proposal meets all the appropriate legal tests.[1]

The proposal which is the subject of this public hearing has now been submitted to me for my consideration.

The proposal is set forth in "Proposed Four Lane Multi-Modal Concept, Final Supplemental Environmental/Section 4(f) Statement", which has been prepared jointly by the VDHT and the Federal Highway Administration. A limited number of copies of the statement are available and can be obtained by citizen groups, businesses and governmental bodies potentially affected by the decision. Copies may be obtained by writing to:

Office of Public Affairs (S-80), U.S. Department of Transportation, Washington, D.C. 20590.

Copies of the statement will also be available for review at the following locations:

Arlington County Public Library: Central Library and Shirlington, Westover and Cherrydale Branches.
Fairfax County Public Library: Main Library, Virginia Room, and Thomas Jefferson Branch Library.
Department af Transportation, Visitor Information Center (Room PL 413), 400 Seventh Street SW., Washington, D.C. (8:30 a.m. to 5:00 p.m.).
Federal Highway Administration, 1000 North Glebe Road, Arlington, Virginia (7:45 a.m. to 4:15 p.m.).
Fairbanks Highway Research Station, 6300 Georgetown Pike, McLean, Virginia (7:45 a.m. to 4:15 p.m.).
Federal Aviation Administration, 900 S. Washington Street (Room 200), Falls Church, Virginia (8:00 a.m. to 4:30 p.m.).

In light of the considerable interest and controversy which has surrounded the issue of construction of I-66, and the fact that I personally conducted a public hearing on the matter when it was previously presented to me and issued a decision on it, I shall now conduct a public hearing on the new proposal. Interested elected public officials and representatives of civic organizations will be permitted to express their views. The hearing will be conducted in a manner comparable to a Congressional hearing. It will be held on Saturday, October 2, 1976, at the Departmental Auditorium, Constitution Avenue between 12th and 14th Streets NW., Washington, D.C. I chose Saturday as that day ought to provide the opportunity for greatest public participation without undue inconvenience. The agenda will be:

9:30 a.m.-10:30 a.m.
Elected public officials favoring construction
10:30 a.m.-11:30 a.m.
Elected public officials opposed to construction
1:00 p.m.-2:00 p.m.
Representatives of civic groups favoring construction
2:00 p.m.-3:00 p.m.
Representatives of civic groups opposed to construction

Participants will be permitted a maximum of 10 minutes for each presentation. Those of the same point of view are urged to combine their presentations. Written copies of presentations will be helpful, but are not required. Additionally, written presentations by any interested persons, including those who may not have sufficient time to express their full views at the hearing, may be submitted directly to me (address Secretary of Transportation, 400 Seventh Street, SW., Washington, D.C. 20590, and indicate "I-66 Presentation" on envelope), to be received no later than October 15, 1976.

Any elected public official or representative of a civic, public interest, or industry group desiring to participate at the hearing should write to: Secretary of Transportation (I-66 Hearing), 400 Seventh Street, SW., Washington, D.C. 20590 (telephone 426-4357), to be received no later than September 15, giving the following information:

1. Name.
2. Address.
3. Phone number during normal working hours.
4. Capacity in which presentation will be made (i.e., public official or civic, public interest, or industry group representative, with name of group represented).
5. Position—pro or con.
6. Time (maximum 10 minutes) desired for presentation.

A schedule will be prepared listing the participants in the order in which their presentations will be made. If more requests to testify are made than the time allotted will permit, we will attempt to obtain prior agreement on time allotments, or will allot time through the drawing of names by lot. The public and the press are invited to the hearing. The hearing will be transcribed electronically. The transcription and all written submissions will become a part of the record in this proceeding.

The holding of this hearing is not a precedent for the way in which I will handle similar matters in the future.

Issued in Washington, D.C., August 27, 1976.

WILLIAM T. COLEMAN, Jr.,
Secretary of Transportation.

CIVIL AERONAUTICS BOARD

[Docket No. 27936; Order 76-8-129]

DELTA AIR LINES, INC.

Order Regarding Certificate of Public Convenience and Necessity; Amendment

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 24th day of August 1976.

On June 11, 1975, Delta Air Lines filed an application, pursuant to Subpart N of Part 302 of the Board's Procedural Regulations, for amendment of its certificate of public convenience and necessity for Route 8 so as to permit it to provide nonstop service between Memphis, Tennessee, and Tampa, Florida.[1]

[1] Eastern Air Lines filed a request for dismissal. Trans World Airlines filed an answer stating that it does not object to the grant of Memphis-Tampa authority but requests the imposition of restrictions in beyond-area markets. Broward County's Florida, Tampa, and Memphis filed answers in support of Delta's application.

By Order 75-9-95, September 25, 1975, the Board set Delta's application for further proceedings in accordance with Subpart N expedited procedures. Subsequently, the Board directed Delta to file additional information in support of its application (i.e., estimate of self-diversion and net financial impact and an environmental evaluation).[2] Delta submitted the requested information in the form of separate fiscal 1977 estimates of (1) on-segment results,[3] (2) total system impact of the proposal before self-diversion, and (3) the offsetting (negative) impact of self-diversion.[4]

For purposes of presenting the net results of the data submitted by Delta, we have combined its estimates in a profit and loss statement which is attached as an appendix[5] to this order. As can be seen, Delta projects an operating loss of $1.6 million on net added revenues of $2.8 million, after self-diversion. Concerning this loss, Delta states that the self-diversion represents a load-factor decrease of only four points on the Memphis-Atlanta segment and three points on the Atlanta-Tampa segment, and that these segments would remain profitable. However, no detailed analysis is furnished to substantiate the conclusion of profitability. Delta repeats its argument that (1) the Memphis-Tampa market is large enough to support nonstop service, (2) Delta is willing to provide the service, (3) Delta currently carries virtually all of the Memphis-Tampa passengers, (4) the new routing would contribute to a more efficient air transportation system, and (5) no other carriers would be adversely affected.

Answers in opposition to Delta's submission were filed by Eastern and TWA. Eastern objects to Delta's receiving improved authority in the St. Louis-Tampa market and states that Delta cannot show a profit for the proposed operation when self-diversion is considered. TWA alleges that, during the twelve months ended April 1976, its one-stop Kansas City-Tampa services incurred fully allocated losses in excess of $212,000 and its St. Louis-Tampa segment had a fully allocated loss of $417,00. TWA estimates that Delta would divert $366,000 in gross revenue from it and states that Delta should be two-stop restricted in the Tampa-Kansas City/St. Louis markets.

Upon consideration of the pleadings and of all relevant facts, we have determined that there is a sufficient basis for setting Delta's application for hearing under Subpart N. However, it is clear that the carrier's economic submission does not realistically reflect the service modifications that would have to occur if its application were granted and it were to integrate the new route into its system on a profitable basis. If Delta is to offer the level of service that it proposes[6] for a market of Memphis-Tampa's size,[7] it will surely make offsetting adjustments elsewhere.[8] We believe that the administrative law judge, the parties, and the Board are entitled to a record which fully reflects an applicant's scheduling plans. This is especially true in the oase of an expedited Subpart N proceeding. Therefore, while Delta's application is being set down for hearing, it will not be noticed until Delta submits an analysis of all actual service adjustments which it would make if it were awarded Memphis-Tampa nonstop authority and until interested parties have had a chance to respond.[9]

All information should be filed with the Board and served upon all parties within 30 days from the date of adoption of this order. Answers will be due 15 days thereafter.

Finally, we will deny TWA's request for pretrial restrictions in the Tampa-Kansas City/St. Louis markets. The imposition of such restrictions would limit the Board's flexibility to impose only those restrictions which are found necessary on the basis of an evidentiary record. Moreover, there appears to be no compelling reason here why ordinary beyond-segment rights should be excluded in advance. If there is, in fact, a need for such restrictions, it can be shown at the hearing and the Board will be free to impose them.

Accordingly, it is ordered, That:

1. Delta Air Lines, Inc., be and it hereby is directed to file additional information as set forth in this order within 30 days of the date of adoption of this order. Answers thereto will be due 15 days thereafter;

2. The application of Delta Air Lines, in Docket 27936, be and it hereby is set for hearing before an administrative law judge of the Board at a time and place hereafter disignated, but will not be noticed for hearing until Delta has filed the information ordered by paragraph 1 above and until interested parties have had the opportunity to file answers thereto; and

3. The request of Trans World Airlines, Inc., for pretrial restrictions be and it hereby is denied.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

PHYLLIS T. KAYLOR,
Secretary.

[FR Doc.76-25339 Filed 8-27-76;8:45 am]

[2] Order 76-5-23, May 7, 1976.

[3] A profit and loss statement strictly limited to revenues earned and expenses incurred on that portion of Delta's flights operated over the proposed new nonstop Memphis-Tampa segment.

[4] Delta presents self-diversion both on a projected participation and on a growth-offset basis. While the Board has utilized growth-offset as an alternative method of determining diversion from other carriers in route proceedings, the Board has not utilized growth-offset in computing self-diversion in the context of a forecast year profit and loss estimate. Accordingly, we have disregarded Delta's growth-offset self-diversion estimate.

[5] Filed as part of the original document.

[6] Two daily nonstop round trips with DC-9-30 equipment.

[7] In the year ended June 30, 1975, the Memphis-Tampa market generated 26,150 O&D plus interline connecting passengers or 36 passengers per day each way.

[8] For example, all of the Memphis-Tampa nonstop mileage represents new flying, and Delta has not made the necessary reductions in frequency or equipment gauge in the underlying Memphis-Atlanta and Atlanta-Tampa markets to offset the impact of self-diversion.

[9] In addition, Delta is requested to submit a profit and loss statement in the form set forth in the attached appendix.

OHIO/INDIANA POINTS NONSTOP SERVICE INVESTIGATION

Hearing

Notice is hereby given, pursuant to the provisions of the Federal Aviation Act of 1958, as amended, that a hearing in the above-entitled proceeding will be held on September 30, 1976 at 10:00 a.m. (local time) at the Marriott Inn, 2124 South Hamilton Road, Columbus, Ohio. At the conclusion of the hearing in Columbus, the hearing will be recessed until October 5, 1976 at 10:00 a.m. (local time) in Room 1003, Hearing Room A, Universal Building North, 1875 Connecticut Avenue, NW., Washington, D.C.

The civic parties will be heard in alphabetical order in Columbus. The remainder of the parties will be heard in Washington, D.C.

For details of the issues involved in this proceeding, interested persons are referred to the Prehearing Conference Report, served May 27, 1976, and other documents which are in the docket of this proceeding on file in the Docket Section of the Civil Aeronautics Board.

Dated at Washington, D.C., August 24 1976.

[FRL 608-5]

AMBIENT AIR MONITORING REFERENCE AND EQUIVALENT METHODS

Receipt of Application for Equivalent Method Determination

Notice is hereby given that on August 3, 1976, the Environmental Protection Agency received an application from N. V. Philips' Gloeilampenfabrieken, to determine if its PW9771 ozone analyzer should be designated by the Administrator of the EPA as an equivalent method under 40 CFR Part 53, promulgated February 18, 1975 (40 FR 7044). If, after appropriate technical study, the Administrator determines that this method should be so designated, notice thereof will be given in a subsequent issue of the FEDERAL REGISTER.

Dated: August 24, 1976.

CITY OF JEROME WASTEWATER FACILITIES PROJECT

Availability of Draft Environmental Impact Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Environmental Protection Agency has prepared a draft environmental impact statement (DEIS) for the City of Jerome Wastewater Facilities Project, Jerome County, Idaho.

The proposed action is the awarding of grant funds to provide an adequate wastewater treatment and disposal program for the City of Jerome, Idaho, located near the Snake River in Jerome County, Idaho.

To receive additional public comments, the Environmental Protection Agency, Region X will hold an open public hearing on this DEIS on September 16, at 7:30 p.m. in the Jerome Junior High School Auditorium, Idaho. All interested persons are invited to express their views at these hearings. To ensure the accuracy of the record, oral statements should be accompanied by a written statement. Oral statements should summarize extensive written materials to allow time for all interested persons to be heard.

This DEIS was transmitted to the Council on Environmental Quality (CEQ) on August 20, 1976. In accordance with CEQ's notice of availability, comments are due on October 4, 1976. Copies of the DEIS are available for review and comment from: Mr. Richard R. Thiel, Chief, Environmental Impact Section, M/S 443, Environmental Protection Agency, Region X, 1200 Sixth Avenue, Seattle, Washington 98101 (telephone: 206-442-4011 or FTS 399-4011).

Copies of the DEIS are available for public inspection at the following locations:

Environmental Protection Agency, Region X Library, 1200 Sixth Avenue, Seattle, Washington 98101.
Environmental Protection Agency, Public Information Reference Unit, Room 2922, Waterside Mall, 401 M Street, SW, Washington, DC 20460.
Jerome Civic Club Memorial Library, 100 1st Avenue East, Jerome, Idaho.

Information copies of the DEIS are available at cost from the Environmental Law Institute, 1346 Connecticut Avenue, NW, Washington, DC 20036.

Copies of the DEIS have been sent to various Federal, State, and local agencies, and interested individuals as outlined in the CEQ Guidelines.

Dated: August 23, 1976.

SCIENCE ADVISORY BOARD, ENVIRONMENTAL HEALTH ADVISORY COMMITTEE

Open Meeting

Pursuant to Public Law 92-463, notice is hereby given that a two-day meeting of the Environmental Health Advisory Committee of the Science Advisory Board will be held on September 16 and 17, 1976 in the Auditorium, Environmental Research Center, U.S. Environmental Protection Agency, Research Triangle Park, North Carolina. The meeting will start at 9:00 a.m. on September 16, 1976. The Environmental Research Center is located at the intersection of Highway N.C. 54 and T. W. Alexander Drive. The Auditorium is near the Visitors' Entrance.

The purpose of the meeting will be (1) to acquaint the members with the programs, facilities, and personnel of EPA's Health Effects Research Laboratory located at Research Triangle Park; (2) to hear and consider a report of the Ad Hoc Study Group on Toxic Substances Programs which reviewed certain health-related programs of the Agency's Office of Toxic Substances; and (3) to hear brief progress reports of the committee's Subcommittee on Epidemiologic Studies and Study Group on Mutagenicity Testing. The agenda will also include (4) brief reports and informational items of current interest to the members.

The meeting will be open to the public. Any member of the public wishing to attend or submit a paper should contact the Secretariat, Science Advisory Board (A-101), U.S. Environmental Protection Agency, Washington, D.C. 20460 by c.o.b. September 13, 1976. Please ask for Miss Mary Ann Igou or Mrs. Shirley Smith.

The telephone number is (703) 557-7720.

Dated: August 25, 1976.

[FRL 608-2]

OLENTANGY ENVIRONMENTAL CONTROL CENTER AND INTERCEPTOR SYSTEM

Availability of Final Environmental Impact Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Environmental Protection Agency has prepared a final environmental impact statement (FEIS) for the Olentangy Environmental Control Center and Interceptor System, Delaware County, Ohio.

The proposed action is the construction of a sewage treatment plant of 1.5 MGD to be expanded to 3.0 MGD by the end of the 20-year planning period in South-Central Delaware County, Ohio, between State route 315 and the Olentangy River, immediately above the Delaware County-Franklin County line. The treatment process is a two-stage activated sludge facility, including phosphorus removal measures and tertiary rapid sand filters. The effluent will be ozonated prior to discharge. Sludge will be aerobically digested at the treatment site and then hauled to a State-approved sanitary landfill site. The facility will discharge to the adjacent Olentangy River, just above the county line.

This FEIS was transmitted to the Council on Environmental Quality (CEQ) on August 10, 1976 and in accordance with the provisions of the CEQ Guidelines (40 CFR 1500.11), no administrative action will be taken by this Agency until thirty days after receipt of the FEIS by the Council.

Copies of the FEIS are available for review and comment from: Mr. Gene Wojcik, Environmental Protection Agency, Region V, 12th Floor, 230 S. Dearborn Street, Chicago, Illinois 60604 (telephone 312-353-2157).

Copies of the FEIS are available for public inspection at the following locations:

Environmental Protection Agency, Region V, Library, 14th Floor, 230 S. Dearborn Street, Chicago, Illinois 60604.
Environmental Protection Agency, Public Information Reference Unit, Room 2922, Waterside Mall, 401 M Street, SW, Washington, DC 20460.

Information copies of the FEIS are available at cost from the Environmental Law Institute, 1346 Connecticut Avenue, NW, Washington, DC 20036.

Copies of the FEIS have been sent to various Federal, State, and local agencies, and interested individuals who made substantive comments on the draft EIS or requested a copy of the FEIS as outlined in the CEQ Guidelines.

Dated: August 23, 1976.

REBECCA W. HANMER,
Director,
Office of Federal Activities.

SCIENCE ADVISORY BOARD, TECHNOLOGY ASSESSMENT AND POLLUTION CONTROL ADVISORY COMMITTEE

Open Meeting

Pursuant to Public Law 92-463, notice is hereby given that a meeting of the Technology Assessment and Pollution Control Advisory Committee of the Science Advisory Board will be held beginning at 8:30 a.m., September 13, 14, and 15, 1976, in the auditorium in the visitor's center, U.S. Environmental Protection Agency, Environmental Research Center, Research Triangle Park, North Carolina.

This meeting is a regularly scheduled meeting of the Committee. The purpose of the meeting is to brief the Committee on selected activities of the Industrial Environmental Research Laboratory at RTP, on the control technology activities of the Robert S. Kerr Environmental Research Laboratory, and the Athens, Georgia Environmental Research Laboratory; to discuss control technology concerns relevant to EPA regulatory programs in air and water quality; to discuss the relationships between R&D in control technology with other R&D in EPA laboratories; to brief the Committee on relevant activities of the Science Advisory Board; to discuss plans for assessing the quality of the R&D work related to pollution control technology; and member items of interest.

The meeting is open to the public. Any member of the public wishing to attend or submit a paper should contact Lloyd T. Taylor, Executive Secretary, Technology Assessment and Pollution Control Advisory Committee, (703) 557-7720, by c.o.b. September 7, 1976.

Dated: August 25, 1976.

FEDERAL ENERGY ADMINISTRATION

CASES FILED WITH THE OFFICE OF EXCEPTIONS AND APPEALS

Week of August 6 Through August 13, 1976

Notice is hereby given that during the week of August 6 through August 13, 1976, the appeals and applications for exception or other relief listed in the Appendix to this Notice were filed with the Federal Energy Administration's Office of Exceptions and Appeals.

Under the FEA's procedural regulations, 10 CFR, Part 205, any person who will be aggrieved by the FEA action sought in such cases may file with the FEA written comments on the application within ten days of service of notice, as prescribed in the procedural regulations. For purposes of those regulations, the date of service of notice shall be deemed to be the date of publication of this notice or the date of receipt by an aggrieved person of actual notice, whichever occurs first.

MICHAEL F. BUTLER,
General Counsel.

AUGUST 24, 1976.

APPENDIX.—*List of cases received by the Office of Exceptions and Appeals, week of Aug. 6 through Aug. 13, 1976*

Date	Name and location of applicant	Case No.	Type of submission
Aug. 9, 1976	Brinkerhoff Drilling Co., Inc., Denver Colo. (If granted: Crude oil produced from the track lease, Tule Creek south field, Roosevelt County, Mont., would be sold at upper-tier ceiling prices.)	FEE-2817	Price exception (sec. 212.74)
Do	Cities Service Co., Tulsa, Okla. (If granted: Cities Service Corp. would be permitted to increase its prices for natural gas liquid products to reflect non-product cost increases in excess of $.005 per gal at its following natural gas plants: Adair, Bluitt, Bryans Mill, Chico, Citronelle, Crowley, Dollarhide, East Texas, Garrett, Halley, Lapeyrouse, Lefors, Lehman, May, Maysville, Mermentau, Myrtle Springs, North Cowden, North Rincon, Pampa, Price, Rio Grande City, Robstown, Rodman, St. Amelia, San Antonio Bay, Stonewall, Waco, and Wichita.)	FEE-2849 through FEE-2877	Price exception (sec. 212.165).
Do	Commonwealth Oil Refining Co., Inc., Washington, D.C. (If granted: The FEA's July 9, 1976 decision and order would be modified and the exception relief permitting CORCO to allocate the increased costs incurred as a result of a tax on imports levied by the Commonwealth of Puerto Rico on the prices of refined petroleum products sold in Puerto Rico would be made retroactive to Dec. 22, 1975.)	FEA-0920	Appeal of FEA decision and order in Commonwealth Oil Refining Co., Inc., 3 FEA par. (July 9, 1976).
Do	Moody, Elmer, Macomb, Mo. (If granted: Elmer Moody would be assigned a new, lower-priced supplier of motor gasoline to replace his base period supplier, Cabool Oil Co.)	FEE-2879	Exception to change supplier.
Do	Phillips Petroleum Co., Bartlesville, Okla. (If granted: Phillips Petroleum Co. would be permitted to transfer allocation entitlements among its company owned and operated service stations without regard to the 30 percent limitation provided in sec. 211.106(b)(3)(ii).)	FEE-2848	Allocation exception, sec. 211.106(b)(3)(ii).
Do	Wheeling-Pittsburgh Steel Corp., Wheeling, W. Va. (If granted: The Wheeling-Pittsburgh Steel Corp. would be permitted to burn oil instead of coal in its Steubenville East plant boiler house.)	FEE-2846	Exception to part 215.3 (Note: Part 215 has been deleted from FEA regulations.)
Aug. 10, 1976	Consumers Fuel Co., Inc., Martinsburg, W. Va. (If granted: The FEA's June 23, 1976 remedial order would be rescinded and Consumers Fuel Co., Inc. would not be required to refund overcharges in its sales of heating oil.)	FEA-0921	Appeal of FEA remedial order dated June 23, 1976.
Do	M. J. Mitchell, Dallas, Tex. (If granted: Certain crude oil produced from the Pickrel Ranch Minnelusa Sand unit located in Campbell County, Wyo., would continue to be sold at prices above the lower tier ceiling price.)	FEE-2878	Extension of exception relief in M. J. Mitchell, 3 FEA par. 83, 146 (Apr. 2, 1976).
Do	Mobil Oil Corp., New York, N.Y. (If granted: The FEA's July 12, 1976 information request denial would be modified and Mobil Oil Corp. would receive access to those portions of the FEA Compliance Manual whose release was denied.)	FEA-0922	Appeal of FEA's information request denial.
Do	Texaco, Inc., Houston, Tex. (If granted: Texaco, Inc. would be permitted to increase its prices for natural gas liquid products to reflect non-product cost increases in excess of $.005 per gal at its following natural gas plants: Buckeye, Coalinga Nose, Garvin, Handy, Kettleman Hills, Lisby, Lignite, Maurice, New Hope, Shiells Canyon, South Kermit, Van, and Wilson Creek.)	FEE-2880 through FEE-2892	Price exception (sec. 212.165).
Aug. 11, 1976	Diamond Shamrock Corp., Amarillo, Tex. (If granted: Diamond Shamrock Corp. would be permitted to increase its prices for the natural gas liquid products produced at its McKee plant to reflect non-product cost increases in excess of $.005 per gal.)	FEE-2894	Extension of price relief in Diamond Shamrock Corp., 3 FEA par. 83,212 (June 7, 1976).
Do	Oilco Eastern, Gresham, Oreg. (If granted: Oilco Eastern, Inc. would be assigned a new, lower-priced supplier of motor gasoline to replace its base period supplier, Lion Oil Co.)	FEE-2893	Exception to change supplier.

V 41 169 AUG 30 76 UMI

Date	Name and location of applicant	Case No.	Type of submission
Aug. 12, 1976...	Cities Service Co., Tulsa, Okla. (If granted: Cities Service Co. would be permitted to increase its prices for natural gas liquid products to reflect non-product cost increases in excess of $.005 per gal at its following natural gas plants: Ambrose, Kimball, and Midway.)	FEE-2806 through FEE-2807	Price exception (sec. 212.-165).
Do.....	Exxon Co., U.S.A., Houston, Tex. (If granted: The FEA's July 21, 1976 remedial order would be rescinded and Exxon Co., U.S.A. would not be required to sell crude oil to Husky Oil Co. and Coastal States Gas Corp.)	FEA-0924	Appeal of the FEA's July 21, 1976 remedial order.
Do.....	Hays, Landsman & Head, New York, N.Y. (If granted: The FEA's July 12, 1976 information request denial would be modified and Hays, Landsman & Head would receive access to those portions of the FEA Compliance Manual whose release was denied.)	FEA-0923	Appeal of FEA's information request denial.
Aug. 13, 1976...	Gulf Oil Corp., Houston, Tex. (If granted: The FEA's July 12, 1976 revised remedial order would be rescinded and Gulf would not be required to make a refund for overcharges in its sales of No. 2 fuel oil to VEPCO.)	FEA-0925	Appeal of the FEA's revised remedial order.
Do.....	Loop, Paul R., Tulsa, Okla. (If granted: Crude oil produced from the Dicey McIntosh lease sec. 12 located in Okmulgee County, Okla., would be sold at upper-tier ceiling prices.	FEE-2808	Price exception (sec. 212.74).

[FR Doc.76-25160 Filed 8-24-76;12:15 pm]

EXCEPTION RELIEF UNDER DOMESTIC CRUDE OIL ALLOCATION PROGRAM

Proposed Adjustments to 1975

During 1975, a number of small refiners received exception relief from the purchase requirements of the FEA Old Oil Entitlements Program (10 CFR 211.67). The exception relief which was approved was generally designed to alleviate the adverse impact of the Entitlements Program which would otherwise prevent a firm from achieving the lesser of its historic profit margin or historic return on invested capital during the four fiscal quarters corresponding most closely to the 1975 calendar year. See Delta Ref. Co., 2 FEA Par. 83,275 (September 11, 1975). Since the conclusions reached as to the nature and extent of exception relief were necessarily based on financial projections which could differ significantly from the actual financial results which each firm achieved, the FEA stated that a subsequent review would be conducted at the completion of the calendar year. The FEA also stated that additional benefits would be provided if the firm's actual financial results indicated that it received an insufficient measure of exception relief in the past. Similarly, if the firm's actual financial results indicated that the projections upon which exception relief was approved were erroneous and that an excessive measure of relief had been approved in the past, the firm would be required to purchase entitlements to offset the excess benefit which had been conferred. The listing below sets forth the determination of the FEA based upon its review of the actual financial data which each firm provided as to whether the particular firm received excessive benefits from the exception relief extended and should therefore be required to purchase additional entitlements or whether the firm should be granted additional benefits.

As an initial step in making these determinations, the FEA reviewed the historical and 1975 financial data submitted by each firm to determine whether any adjustments were necessary. In all cases, the entitlement expense (or revenue) reported for 1975 was adjusted to take into account the recalculation of entitlement obligations made by the FEA Office of Regulatory Programs in order to correct for prior reporting errors. In some instances, the profit reported by a firm had to be adjusted to reflect a change in its method of inventory valuation or to eliminate the effect of a substantial increase in the salary paid to an owner or officer who had an equity interest in the firm. In addition, extraordinary items and items not related to a firm's refining and marketing operations were excluded from the financial results reported.

A calculation was then made of the dollar amount by which a firm exceeded its historical profit margin or, in the event that the firm did not achieve its historical profit margin, the difference between its allowable pre-tax profit (the firm's 1975 sales revenue multiplied by its historical profit margin) and the pre-tax profit actually earned in 1975. A similar computation was performed to determine whether the firm had exceeded its historical return on invested capital. In addition, since a firm's entitlement purchase or sales obligation arises prior to any income tax effect, the dollar difference between the firm's allowable return on invested capital and its actual 1975 return was converted to pre-tax dollars by assuming that the firm's marginal tax rate was 48 percent. The FEA also calculated the firm's net entitlement purchase or sales obligation in 1975 and computed the dollar value of the exception relief which had been granted to the firm, i.e., the dollar value of the entitlements which the firm was excused from purchasing during the year as a result of the award of exception relief.

The determination of the entitlement obligations and benefits specified below was made in the following manner. Those firms which exceeded their historical profit margin or historical return on invested capital in 1975 and which were net purchasers of entitlements during the year will be required to purchase entitlements equal in value to the lesser of:

(i) The dollar value of the exception relief which they received in 1975; or

(ii) The larger amount obtained when a calculation is made of the dollar value by which the firm exceeded its historical profit margin or return on invested capital.

In determining the additional obligation for those firms which exceeded their historical profit margin or historical return on invested capital in 1975 and which were net sellers of entitlements during the year, the FEA calculated the lesser of:

(i) The dollar value of the exception relief which they received in 1975; or

(ii) The larger amount obtained when a calculation is made of the dollar value by which the firm exceeded its historical profit margin or return on invested capital.

A further calculation was then made of the lesser of:

(i) The dollar value of the exception relief which they received in 1975; or

(ii) The net value of entitlements actually sold in 1975.

The value of the additional entitlements which a firm in this category will be required to purchase is equivalent to the greater of the dollar amounts arrived at through the two calculations.

Those firms which did not achieve either their historical profit margin or historical return on invested capital in 1975 and which were net sellers of entitlements will be required to purchase entitlements equal in value to the lesser of (i) the dollar value of the exception relief which they received in 1975, or (ii) the net value of entitlements sold in 1975. Firms which fall within this category are now being required to purchase entitlements because it was never the FEA's intention to permit a refiner to become a net seller of entitlements as a result of the approval of exception relief.

Finally, those firms which did not achieve either their historical profit margin or historical return on invested capital in 1975 and which were net purchasers of entitlements are being authorized to sell entitlements equal value to the lesser of (i) the dollar amount by which they were under their historical profit margin or historical return on invested capital whichever amount is smaller, (ii) the value of the exception relief which was denied, i.e., the dollar value of full exception relief for those months for which the firms requested relief on a prospective basis less the dollar value of the relief actually approved, or (iii) the net value of entitlements actually purchased in 1975.

A worksheet has been mailed to each firm listed below setting forth in detail the computation of its additional entitlement obligation or benefit for 1975.

Therefore, the Federal Energy Administration hereby gives notice of its intention to require the following firms to purchase entitlements in order to offset the excessive benefits which they received as a result of exception relief which was granted to them in 1975:

FIRMS RECEIVING EXCESSIVE ENTITLEMENTS RELIEF

Firm/Case No.:	*Entitlement obligation*
Beacon Oil Co., FEX-0059	$2,061,628
Delta Refining Co., FEX-0060	4,559,585
Edgington Oil Co., FEX-0061	1,021,372
Fletcher Oil & Refining Co., FEX-0062	578,336
Good Hope Industries, Inc., FEX-0063	21,981
Husky Oil Co. of Delaware, FEX-0064	5,270,560
Lunday-Thagard Oil Co., FEX-0065	221,377
Midland Cooperatives, Inc., FEX-0066	503,896
Mohawk Petroleum Corp., Inc., FEX-0067	245,602
Newhall Refining Co., FEX-0068	625,601
Pasco, Inc., FEX-0069	4,563,596
Powerine Oil Co., FEX-0070	638,000
Rock Island Refining Corp., FEX-0071	2,642,065
Southland Oil Co., FEX-0072	3,532,452
TOSCO Corp., FEX-0073	1,385,000
Warrior Asphalt Co. of Alabama, Inc., FEX-0074	156,051
West Coast Oil Co., FEX-0075	58,067
Young Refining Corp., FEX-0076	75,843

The FEA also intends to authorize the following firms to sell entitlements on the basis of the analysis set forth above which indicates that they did not receive a sufficient measure of exception relief in 1975:

FIRMS REQUIRING ADDITIONAL ENTITLEMENTS RELIEF

Firm/Case No.:	*Entitlement benefit*
Famariss Oil Corp., FEX-0077	$11,860
Laketon Asphalt Refining, Inc., FEX-0078	55,451
Navajo Refining Co., FEX-0079	697,881
North American Petroleum Corp., FEX-0080	532,965
OKC Corp., FEX-0081	546,643
San Joaquin Refining Corp., FEX-0082	361,059
Sound Refining, Inc., FEX-0083	24,916
Wickett Refining Co., FEX-0084	45,553

Since the following firms received full relief from the purchase requirements of the Entitlements Program for the months for which they sought exception relief and did not exceed either their historical profit margin or historical return on invested capital, the FEA is not requiring that any adjustment be made with respect to the exception relief previously granted these firms in 1975:

FIRMS WITH NO ADJUSTMENT TO ENTITLEMENTS RELIEF

NGL Supply, Inc. (C & H Refinery), Northland Oil & Refining Co.

The entitlement obligations and benefits specified above will become effective with the September 1976 Entitlement Notice which the FEA will issue in the month of November. Obligations and benefits which have a value less than $500,000 will be spread over a three month period; obligations and benefits which exceed $500,000 will be evenly distributed over a twelve month period.

This determination is proposed to be made pursuant to Subpart G of the FEA's procedural regulations. The Federal Energy Administration seeks comments with respect to this proposal. Specifically, the FEA seeks comments with respect to the appropriateness of (i) the FEA's proposed adjustment of 1975 expenses (or revenues) to take into account the recalculation of entitlements obligations made by the FEA Office of Regulatory Programs to correct for reporting errors (41 FR 31793 (July 29, 1976)); and (ii) the proposal that obligations and benefits which have a value of less than $500,000 be spread over a three month period and obligations and benefits which exceed $500,000 be spread over a twelve month period. In addition, any firm which believes that mathematical errors were made in the FEA's calculation of the amount of its additional obligation or benefit should specify the exact nature of those errors to the FEA.

Interested persons are invited to submit data, views, or arguments with respect to the subject of this notice to Executive Communications, Room 3309, Federal Energy Administration, Box IN, Washington, D.C. 20461.

Comments should be identified on the outside of the envelope and on documents submitted to Executive Communications, FEA, with the designation "Corrections for 1975 Entitlement Exception Relief." Ten copies should be submitted. All comments received by September 27, 1976, and all relevant information will be considered by FEA.

Any information or data considered by the person furnishing it to be confidential must be so identified and submitted in writing, one copy only. FEA reserves the right to determine the confidential status of the information or data and to treat it according to its determination.

Any person aggrieved by the FEA's final determination in this matter may file an appeal with the Office of Exceptions and Appeals in accordance with the provisions of 10 CFR, Part 205, Subpart H. A firm may also file an application for stay of the FEA's final determination in accordance with Subpart I. In addition, any firm may file an application for exception in accordance with Subpart D of Part 205.

Issued in Washington, D.C., on August 25, 1976.

MICHAEL F. BUTLER,
General Counsel.

MARTIN OIL SERVICE, INC., ET AL.

Consent Order

I. INTRODUCTION

Pursuant to 10 CFR § 205.197(c), the Federal Energy Administration (FEA) hereby gives notice of a Consent Order which, on June 30, 1976, was executed between Martin Oil Service, Inc., Martin Oil of Indiana, Inc., Martin Oil Company of Texas, and Martin 4-Minute Auto Salon, Inc., (called collectively "Martin") and the FEA. In accordance with that Section, FEA will receive comments with respect to this Consent Order. Although this Consent Order has been signed and tentatively accepted by FEA, the FEA may, after consideration of comments received, withdraw its acceptance of the Consent Order and, if appropriate, attempt to negotiate an alternative Consent Order.

II. THE CONSENT ORDER

Martin Oil Service, Inc., and its named affiliates, is a firm engaged in the resale and retailing of petroleum products subject to FEA regulations. The home office of Martin Oil Service, Inc. is located at 4501 West 127th Street, Blue Island, Illinois 60658.

As a result of an audit conducted by FEA of Martin's pricing practices for the period of November 1, 1973 through August 31, 1974, FEA advised Martin that Martin had apparently sold motor gasoline through its retail outlets and to its wholesale purchasers at prices in excess of those permitted under the Cost of Living Council price rule in 6 CFR § 150.-359 and the FEA price rule in 10 CFR 212.93. FEA contended that those overcharges were the result of Martin's erroneous computations of inventory costs through its premature inclusion of anticipated product costs of certain exchange transactions.

In resolution of the issues raised by the audit results, the FEA and Martin executed a Consent Order on June 30, 1976, the significant terms of which provide that:

(1) Martin shall refund the amounts charged to its wholesale and retail purchasers of gasoline in excess of maximum lawful prices, together with appropriate interest. FEA has computed the total overcharge (excluding interest) at $1,620,104.00. The refund shall be accomplished by a reduction of approximately 1.6¢ per gallon from Martin's average sales price charged to each class of purchaser during the month of February through July 1975. Martin may currently add increased product costs to these average prices only in the proportion that increased product costs were actually recovered during the period of February through July 1975. Martin shall directly refund $359.09 plus interest to its wholesale purchaser-consumers of gasoline.

(2) The total reduction to all affected purchasers shall average not less than $90,000.00 per month and the total time for completing all reductions or refunds shall not exceed 24 months.

(3) Martin shall, for purposes of computing inventory costs, value the product received in exchange transactions at the average unit cost of product in inventory, and shall make cost adjustment to inventory only when incurred exchange costs are known with certainty.

(4) Martin shall notify its refund recipients that the price reductions and refunds are made pursuant to the Consent Order between Martin and FEA.

(5) Martin shall be given credit for any price reduction or refunds made subsequent to January 1, 1976 and prior

V 41 169 AUG 30 76 UMI

to the Consent Order provided Martin demonstrates that such action was taken in expectation of this Consent Order.

(6) The provisions of 10 CFR § 205.-197, including the publication of this Notice, are applicable to the Consent Order.

III. Submission of Written Comments

Interested persons are invited to comment on this Consent Order by submitting such comments in writing to Mr. N. Allen Andersen, Regional Administrator, Region V, Federal Energy Administration, 175 West Jackson Boulevard, Chicago, Illinois 60604. Copies of this Consent Order may be received free of charge by written request to this same address or by calling (312) 353-8770.

Comments should be identified on the outside of the envelope and on documents submitted with the designation "Comments on Martin Consent Order." All comments received by 4:30 p.m. CDT, on or before the thirtieth calendar day following publication of this Notice will be considered by the FEA in evaluating the Consent Order.

Any information or data, which, in the opinion of the person furnishing it, is confidential must be identified as such and submitted in accordance with the procedures outlined in 10 CFR § 205.9(f).

Issued in Washington, D.C., August 25, 1976.

Michael F. Butler,
General Counsel.

FEDERAL COMMUNICATIONS COMMISSION

[Report No. 820]

APPLICATIONS ACCEPTED FOR FILING

Common Carrier Services Information

August 23, 1976.

By the Chief, Common Carrier Bureau:

The applications listed herein have been found, upon initial review, to be acceptable for filing. The Commission reserves the right to return any of these applications, if upon further examination, it is determined they are defective and not in conformance with the Commission's Rules and Regulations or its policies.

Final action will not be taken on any of these applications earlier than 31 days following the date of this notice, except for radio applications not requiring a 30 day notice period (see § 309(c) of the Communications Act), applications filed under Part 68, or as otherwise noted. Unless specified to the contrary, comments or petitions may be filed concerning radio and Section 214 applications within 30 days of the date of this notice and within 20 days for Part 68 applications.

In order for an application filed under Part 21 of the Commission's Rules (Domestic Public Radio Services) to be considered mutually exclusive with any other such application appearing herein, it must be substantially complete and tendered for filing by whichever date is earlier: (a) the close of business one business day preceding the day on which the Commission takes action on the previously filed application; or (b) within 60 days after the date of the public notice listing the first prior filed application (with which the subsequent application is in conflict) as having been accepted for filing. In common carrier radio services other than those listed under Part 21, the cut-off date for filing a mutually exclusive application is the close of business one business day preceding the day on which the previously filed application is designated for hearing. With limited exceptions, an application which is subsequently amended by a major change will be considered as a newly filed application for purposes of the cut-off rule. [See § 1.227(b)(3) and 21.30(b) of the Commission's Rules.]

Federal Communications Commission,

[seal] Vincent J. Mullins,
Secretary.

Domestic Public Land Mobile Radio Service

22643-CD-P-(2)-76, Advanced Radio Communications Company (KQZ755) Resubmitted, C.P. for additional facilities to operate on 454.200 and 454.350 MHz at a new site described as Loc. No. 4 to be located at Riggs Road and First Street, N.E., Washington, D.C.

22644-CD-P-(2)-76, Phillips County Telephone Company (KAQ609), C.P. to change antenna system operating on 152.60 MHz: additional to operate on 152.57 MHz to be located at 249 West Denver St., Holyoke, Colorado.

22645-CD-P-76, Radio Relay Corp.—New Jersey (KEC935), C.P. to change antenna system operating on 35.58 MHz. located at 204 Mountain Horeb Road, Warren Township, New Jersey.

22646-CD-P-76, The Offshore Telephone Company (KUO637), C.P. to relocated facilities operating on 35.62 MHz to be located at Block 309A, High Island, Gulf of Mexico.

22647-CD-P-76, John Rex Wayland d./b. as Live Oak Communications (KUD230), C.P. to change antenna system operating on 152.09 MHz. located 0.75 miles West, George West, Texas.

22648-CD-TC-76, Mountain View Telephone Company Consent to Transfer of Control from Glen Hinkle and Jennie Lou Hinkle, Transferor to Glen Hinkle et cetera, Transferee. Station: KWH314, Mountain View, Arkansas.

22649-CD-P-(2)-76, General Telephone Company of Illinois (KSJ822), C.P. for additional facilities to operate on 152.66 MHz to be located at 0.25 miles South of Olney, Illinois.

22650-CD-P-76, Otis L. Hale d./b. as Mobilfone Communications (New), C.P. for a new 1-way station to operate on 152.24 MHz to be located at Mount Nebo, 4.5 miles west of Dardenelle, Russellville, Arkansas.

22651-CD-P-76, T. D. Miller III (KRH660), C.P. for additional control facilities to operate on 454.350 MHz to be located 358 South Main Street, Burlington, North Carolina.

22652-CD-P-76, Statesboro Telephone Company (New), C.P. for a new 1-way station to operate on 152.84 MHz to be located 76 E Gray Street, Statesboro, Georgia.

22653-CD-MP-(3)-76, Southeast Mobilphone, Inc. (KCI308), C.P. to relocate, change antenna system, and replace transmitter operating on 454.025, 454.050, and 454.125 MHz to be located at View Park Drive, Knoxville, Tennessee.

22654-CD-P-P-76, Western California Telephone Company (KMM656), C.P. to relocate and change antenna system operating on 152.57 MHz to be located at Green Point, 3.3 miles East of Novato, California.

22655-CD-P-76, Mobilefone Northwest (KWT 917), C.P. for additional facilities to operate on 152.24 MHz at a new site described as Loc. No. 2 to be located at Chelan Butte one mile south of Clelan, Washington.

22656-CD-P-76, James C. Wilson, d./b. as Message Central Telephone Answering Service (New), C.P. for a new station to operate on 454.225 MHz to be located at 815 Salinas Street, Laredo, Tex.

22657-CD-P-76, Southwestern Bell Telephone (New), C.P. for a new 1-way signaling station to operate on 152.84 MHz to be located at 1408 Broadway, Lubbock, Texas.

22658-CD-P-76, Westcol Radio Dispatch (KAD511), C.P. for additional facilities to operate on 152.21 MHz at Loc. No. 6 located 241 South 14th Street, Grand Junction, Colorado.

22662-CD-P-76, Airsignal International, Inc. (KMM703), C.P. to relocate facilities; 454.100 MHz (Base), 454.350 MHz Repeater to be located Mount Pluto, 6 miles SSE of Pluto, Truckee, at Loc. No. 1; 459.350 MHz (Control) at Loc. No. 2 to be located at 1014 Blue Lake Avenue, South Lake Tahoe, California.

22660-CD-P-76, Arnold E. Anderson (New), C.P. for a new station to operate on 152.06 MHz, base and 459.025 MHz, repeater to be located 2 miles west of Tenneyson on Lee Rranch, Tenneyson, Texas.

22663-CD-P-(2)-76, Airsignal International, Inc. (KWU278), C.P. to relocate facilities operating on 35.22 MHz, base to be located at Mount Pluto, 6 miles SSE of Pluto, Truckee, California, Loc. No. 1; and for additional facilities to operate on 72.76 MHz, control, to be located at a new site described as Loc. 2: 1014 Blue Lake Avenue, South Lake Tahoe, California.

22664-CD-P-76, Electronic Engineering Company (KAF242), C.P. for additional facilities to operate on 454.350 MHz to be located at a new site described as Loc. No. 3: 28th and Woodland Streets, Des Moines, Iowa.

22665-CD-P-76, James D. and Lawrence D. Garvey d.b.a. Radiofone (KUC975), C.P. to replace transmitter, change antenna system and relocate facilities operating on 454.150 MHz to be located 2 miles WNW of Tickfaw, Louisiana.

22667-CD-AL-(4)-76, Vernon H. Johnson d.b.a. Grants Radiotelephone Service Consent to Assignment of License from Grants Radiotelephone Service, Assignor to Grants Radiotelephone Service, Inc., Assignee. Stations: KKT397, Grants, New Mexico; KUD201 and KUD202, Gallup, New Mexico; and KWU270, Milan, New Mexico.

22671-CD-P-76, H. Y. Robinson d.b.a. Robinson Enterprises (KUD221), C.P. to replace transmitter, change antenna systems and relocate facilities operating on 454.025 MHz to be located near Dogwood Lane and Boettcher Mill Road, Huntsville, Texas.

22673-C-P-76, Carlton L. Holland d.b.a. Mobaphone of New Mexico (KKM582), C.P. for additional facilities to operate on 152.212 MHz at Loc. No. 1; Sandia Mountain Crest, 9 miles NE of Albuquerque, New Mexico.

22674-CD-AL-76, Answerphone, Inc. Consent to Assignment of License from Answerphone, Inc., Assignor to Contact-Denver, Inc., assignee. Station: KFL930, Golden, Colorado.

22675-CD-AL-76, Airway Communications Consent to Assignment of License from Airway Communications, Assignor to Contact-Denver, Inc., Assignee. Station: KQZ796, Thornton, Colorado.

22676-CD-AL-76, Pagephone, Inc. Consent to Assignment of License from Pagephone, Inc., Assignor to Contact-Denver, Inc., Assignee. Station: KTS255, Golden, Colorado.

22661-CD-P-(4)-76, Imperial Communications Corp. (KMA262), C.P. for additional facilities to operate on 454.025, 454.225, 454.250, and 454.275 MHz. (Loc. No. 2) to be located at San Miguel Mountain, 13 miles E of San Diego, California.

22398-CD-MP-L-76, Mt. Shasta Radiotelephone, Inc. (KUS379), Modification of C.P. and License to change the frequencies of 72.02 and 72.22 MHz, Control station at KC Road, 0.25 mile east of Mount Shasta Boulevard, Mount Shasta, to 75.62 and 75.85 MHz respectively. Also change the frequencies of 75.62 MHz and 75.82 Repeater stations at Summit Gray Butte, 7.1 miles NE of Mount Shasta City, Mount Shasta, California to 72.02 and 72.62 MHz respectively.

CORRECTION

22573-CD-P-(2)-76, Lester B. Bibble, Jr. (New), C.P. to correct transmitter relocate to read 1100 Beck Ave., Panama City, Florida. All other particulars remain as reported on PN No. 818, dated August 9, 1976.

MAJOR AMENDMENT

22118-CD-P-(2)-76, Commercial Communications, Inc., Rock Spring, Wyoming (KUS-268), Amend Base frequencies 454.050 and 454.350 MHz to read 454.225 and 454.250 MHz. All other particulars are to remain the same as reported on PN No. 808 dated June 1, 1976.

INFORMATIVE

On July 27, 1976, The Commission adopted Docket 19905 (FCC 76-719). It was released August 10, 1976. Included in this Report and Order is revised Section 21.23. New section 21.23 is titled Amendment of Applications and more clearly defines "Major Amendment" as used in Part 21 of the Rules. New Section 21.27(c)(1) of Docket 19905 indicates new filed applications will also be considered major or minor pursuant to the provisions of Section 21.23, subjecting them to the Public Notice requirements of Section 21.27.

At present FCC Form 401 does not provide a convenient location to indicate whether an application should be considered major or minor pursuant to Section 21.23. Effective September 17, 1976 and until FCC Form 401 is revised, all applications to be considered minor and meeting, the requirements of Section 21.23 should include as part of exhibit No. 1 (The environmental statement) a request that the application be considered minor and not subject to the Public Notice requirements of Section 21.27 (a) and (b) of the Commission's Rules.

Rural Radio Service

60443-CR-AL-76, Vernon H. Johnson, d.b.a. Grants Radiotelephone Service, Consent to Assignment of License from Grants Radiotelephone Service, Assignor to Grants Radiotelephone Service, Inc., Assignee. Station: KOA47, temporary-fixed.

60550-CR-P/L-(2)-76, RCA Alaska Communications, Inc. (New), C.P. for new Rural Subscribed Temporary Fixed station to operate on 77.2 MHz to be located Various Points Within The Territory of the Grantee.

6041-CR-P-76, The Offshore Telephone Company (WGI77), C.P. to relocate facilities to operating on 454.550 MHz to be located at Block 309A, High Island, Gulf of Mexico.

Point to Point Microwave Radio Service

4814-CF-P-76, The Pacific Telephone and Telegraph Company (KMA40), Hollywood, 1429 North Gower Street, Los Angeles, California. Lat. 34°05'49" N., Long. 118°-19'16" W. C.P. to increase tower height and add a point of communication on frequencies 5989.7H 6049.0H MHz toward Beverly Hills, California on azimuth 290.7 degrees.

4815-CF-P-76, Same (new), 2555 Briarcrest Road, Beverly Hills, California. Lat. 34°07'-08" N., Long. 118°23'29" W. C.P. for a new station on frequencies 6241.7V 6301.0V MHz toward Hollywood, California on azimuth 110.7 degrees.

4821-CF-P-76, The Chesapeake and Potomac Telephone Company of Virginia (KJG53), 120 West Bute Street, Norfolk, Virginia. Lat. 36°51'11" N., Long. 76°17'25" W. C.P. to add frequency 11325.0V MHz toward Newport News, Virginia; replace transmitter and increase power output on 11245.0V MHz toward Newport News.

4822-CF-P-76, Same (KJG52), 3305 Huntington Avenue, Newport News, Virginia. Lat. 36°59'01" N., Long. 76°25'57" W. C.P. to add frequency 10875.0V MHz toward Norfolk, Virginia; replace transmitter and increase power output on 10795.0V MHz toward Norfolk.

The following renewal applications for the term ending February 1, 1981, have been received;

BROADCAST SERVICE WORKING GROUPS; 1979 WORLD ADMINISTRATIVE RADIO CONFERENCE

Schedule of Meetings

AUGUST 25, 1976.

Pursuant to Public Law 92-463, notice is hereby given of the following meetings for September 1976.

WARC-79 AM BROADCASTING SERVICE GROUP

Wednesday, September 15, 1976—10:30 AM to 12:30 PM, Room 6331—2025 "M" Street, N.W., Washington, D.C.

Chairman: D.C. Everist
FCC Liaison: Dennis Williams

WARC-79 FM BROADCASTING SERVICE GROUP

Wednesday, September 29, 1976—2:00 PM to 4:00 PM, Room 8009—2025 "M" Street, N.W., Washington, D.C.

Chairman: Gary Hess
FCC Liaison: Hideyuki Noguchi

WARC-79 TV BROADCASTING SERVICE GROUP; WARC-79 AUXILIARY BROADCASTING SERVICE GROUP

A joint meeting of the TV Broadcasting Service Group and the Auxiliary Broadcasting Service Group will be held on: Thursday, September 30, 1976—1:30 PM to 4:00 PM, Room 6331—2025 "M" Street, N.W., Washington, D.C.

TV B/C

Chairman: James D. Parker
FCC Liaison: Charles H. Breig

AUX B/C

Chairman: John Serafin
FCC Liaison: Al Jarratt

WARC-79 SATELLITE BROADCASTING SERVICE GROUP

Thursday, September 30, 1976—9:30 AM to 12:00 PM, Room 6331—2025 "M" Street, NW., Washington, D.C.

Chairman: Edward E. Reinhart
FCC Liaison: Charles H. Breig

WARC-79 INTERNATIONAL BROADCASTING SERVICE GROUP

Tuesday, September 14, 1976—10:00 AM to 12:00 PM, Room A-205—1229 20th St., NW., Washington, D.C.

Chairman: Stanley Leinwoll
FCC Liaison: Lloyd R. Smith

The Agenda for each Service Group will be the same as follows:

1. Call to Order by the Chairman.
2. Approval of Minutes of the previous meeting.
3. Reports from Task Groups.
4. Further Discussion.
5. Next Meeting Date and Adjournment.

The above meetings are open to broadcast industry representatives and interested members of the public.

FEDERAL COMMUNICATIONS COMMISSION,
VINCENT J. MULLINS,
Secretary.

[Report No. I-263]

INTERNATIONAL AND SATELLITE RADIO APPLICATIONS ACCEPTED FOR FILING

Common Carrier Services Information

AUGUST 23, 1976.

By the Chief, Common Carrier Bureau.

The applications listed herein have been found, upon initial review, to be acceptable for filing. The Commission reserves the right to return any of these applications if, upon further examination, it is determined that they are defective and not in conformance with the Commission's Rules, Regulations or its policies. Final action will not be taken on any of these applications earlier than 31 days from the date of this notice. Section 309(d)(1).

FEDERAL COMMUNICATIONS COMMISSION,
VINCENT J. MULLINS,
Secretary.

SATELLITE COMMUNICATIONS SERVICES

471-DSE-P/L-76 Teleprompter Corporation Kalispell, Montana. To construct, own and operate a Domestic Communication satellite receive-only earth station. Lat. 48°12'34'' Long. 114°12'34'' Rec. Freq. 3700-4200 MHz, Emission 36000F9, 10 meter antenna.

472-DSE-P-76 Cox Cable Communications, Inc., El Cajon, California. To construct, own and operate a domestic receive-only earth station Lat. 32°48'39'' Long. 116° 58'41'' Rec. Freq. 3700-4200 MHz, Emission 36000F9 10 meter antenna.

INFORMATIVE

These applications represent the first 14 of as many as 165 construction permit applications for earth station to interconnect Public Broadcasting stations in the contiguous 48 states, Alaska, Hawaii, Puerto Rico and Virgin Islands. In addition to these specific earth station applications a comprehensive document supporting this proposal has been filed entitled "Description of Public Broadcasting Satellite Interconnection Plan." Western Union Telegraph Company has also filed an application (File No. I-T-C-2647) for such section 214 authority as may be necessary in conjunction with this proposal. (See Public Notice I-264)

456-DSE-P-76 Public Broadcasting Service Fairfax County, Virginia. For authority to construct, own and operate a domestic communications satellite transmit-receive earth station at this location. Lat. 38° 47'39'', Long. 77°09'55''. Trans. Freq. 5925-6425 MHz. Rec. Freq. 3700-4200 MHz. Emission 36000F9. Two 11 meter antennas.

457-DSE-P-76 University of Utah, Salt Lake City, Utah. For authority to construct, own and operate a domestic communications satellite receive-only earth station at this location Lat. 40°45'58'', Long. 111°51'03''. Rec. Freq. 3700-4200 MHz. Emission 36000F9. 10 meter antenna.

458-DSE-P-76 University of Houston, Houston, Texas. For authority to construct, own and operate a domestic communications satellite receive-only earth station at this location Lat. 29°42'52'', Long. 95°20'53''. Rec. Freq. 3700-4200 MHz. Emission 36000F9. 10 meter antenna.

459-DSE-P-76 Florida Central East Coast Educational Television, Inc., Orlando, Florida. For authority to construct, own and operate a domestic communications satellite receive-only earth station at this location Lat. 28°28'12'', Long. 81°25'01''. Rec. Freq. 3700-4200 MHz. Emission 36000F9. 10 meter antenna.

460-DSE-P-76 Greater Washington Educational Telecommunications Association, Inc., Arlington, Virginia. For authority to construct, own and operate a domestic communications satellite receive-only earth station at this location Lat. 38°50' 36'', Long. 77°05'17'': Rec. Freq. 3700-4200 MHz. Emission 36000F9. 10 meter antenna.

461-DSE-P-76 Greater New Orleans Educational Television Foundation, New Orleans, Louisiana. For authority to construct, own and operate a domestic communications satellite receive-only earth station at this location Lat. 29°59'18'', Long. 90°06'20''. Rec. Freq. 3700-4200 MHz. Emission 36000F9. 10 meter antenna.

462-DSE-P-76 Oklahoma Educational Television Authority, Oklahoma City, Oklahoma. For authority to construct, own and operate a domestic communications satellite receive-only earth station at this location Lat. 35°32'53'', Long. 97°29'53''. Rec. Freq. 3700-4200 MHz. Emission 36000F9. 10 meter antenna.

463-DSE-P-76 Mississippi Authority for Educational Television, Jackson, Mississippi. For authority to construct, own and operate a domestic communications satellite receive-only earth station at this location Lat. 32°20'16'', Long. 90°08'47''. Rec. Freq. 3700-4200 MHz. Emission 36000F9. 10 meter antenna.

464-DSE-P-76 Nebraska Educational Television Commission, Lincoln, Nebraska. For authority to construct, own and operate a domestic communications satellite receive-only earth station at this location Lat. 40°52'19'', Long. 96°46'35''. Rec. Freq. 3700-4200 MHz. Emission 36000F9. 10 meter antenna.

465-DSE-P-76 Educational Television Association of Metropolitan Cleveland, Cleveland, Ohio. For authority to construct, own and operate a domestic communications satellite receive-only earth station at this location Lat. 41°25'12'', Long. 81°42'54''. Rec. Freq. 3700-4200 MHz. Emission 36000F9 10 meter antenna.

466-DSE-P-76 Arizona Board of Regents, Tempe, Arizona. For authority to construct, own and operate a domestic communications satellite receive-only earth station at this location Lat. 33°25'10'', Long. 111°56'14''. Rec. Freq. 3700-4200 MHz. Emission 36000F9. 10 meter antenna.

467-DSE-P-76 University of South Dakota, Vermillion, South Dakota. For authority to construct, own and operate a domestic communications satellite receive-only earth station at this location Lat. 42°-47'07'', Long. 96°55'42''. Rec. Freq. 3700-4200 MHz. Emission 36000F9. 10 meter antenna.

468-DSE-P-76 Georgia State Board of Education, Atlanta, Georgia. For authority to construct, own and operate a domestic communications satellite receive-only earth station at this location Lat. 33°42'49'' Long. 84°24'08''. Rec. Freq. 3700-4200 MHz. Emission 36000F9. 10 meter antenna.

469-DSE-P-76 St. Louis Educational Television Commission, St. Louis, Missouri. For authority to construct, own and operate a domestic communications satellite receive-only earth station at this location Lat. 38°28'55'' Long. 90°23'50''. Rec. Freq. 3700-4200 MHz. Emission 36000F9. 10 meter antenna.

474-DSE-ML-76 220 Television, Inc. For modification of a receive-only earth station license (Call Sign KB96) to permit shared use of these facilities with KSD/KSD-TV, Inc., licensee of Station KSD-TV, St. Louis, Missouri.

FM AND TV TRANSLATOR APPLICATIONS

Ready and Available for Processing Pursuant to Sections 1.572(c) and 1.573(d) of the Commission's Rules

Adopted: August 17, 1976. Released: August 20, 1976. By the Chief, Broadcast Bureau.

Notice is hereby given pursuant to sections 1.427(c) and 1.573(d) of the Commission's rules, that on October 11, 1976, the TV and FM translator applications listed in the attached Appendix will be considered as ready and available for processing. Pursuant to section 1.227(d) and section 1.519(b) of the Commission's rules, an application, in order to be considered with any application appearing on the attached list or with any other application on file by the close of business on October 8, 1976, which involves a conflict necessitating a hearing with any application on this list, must be substantially complete and submitted for filing at the offices of the Commission in Washington, D.C., by the close of business on October 8, 1976.

The attention of any party in interest desiring to file pleadings concerning any pending TV and FM translator application, pursuant to section 309(d)(1) of the Communications Act of 1934, as amended, is directed to section 1.580(i) of the Commission's rules for provisions governing the time for filing and other requirements relating to such pleadings.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary.

VHF TV TRANSLATOR APPLICATIONS

BPTTV-5567 (New), Plain & Lake Wenatchee area, Washington, Lake Wenatchee T.V., Inc. Req: Channel 10, 1 watt. Primary: KXLY-TV, Spokane, Washington.

BPTTV-5625A (K03CS), Broadus, Montana, Powder River County TV Board. Req: To add Upper Powder River Communities, Montana, to present principal community.

BPTTV-5626A (K07AI), Broadus, Rural Mizpah, Mid Powder River Communities & Upper Powder River Community, Montana, Powder River County TV Board. Req: To add Belle Creek & Biddle Communities, Montana, to present principal community.

BPTTV-5628 (New), Riverton, Arapahoe & Rural Fremont County, Wyoming, Riverton Fremont TV Club, Inc. Req: Channel 3, 10 watts. Primary: KOAT(TV), Denver, Colorado.

OFFICE OF THE FEDERAL REGISTER

HOW TO USE THE FEDERAL REGISTER

Public Briefings in Kansas City, Missouri

"The FEDERAL REGISTER—What It Is and How To Use It" will be the topic of two separate briefings to be offered by the Office of the Federal Register on Tuesday, September 28, and Wednesday, September 29, 1976, from 9:45 a.m. until 12:30 p.m.

The Wednesday briefing will be a repeat of the Tuesday briefing. These sessions will be held in Room 140 of the Federal Building at 601 East 12th Street, Kansas City, Missouri.

Both sessions are open to the general public and Federal agency personnel and should be useful to anyone who uses the FEDERAL REGISTER. Seating is limited and reservations are required. Reservations may be made by telephoning Mrs. Doris Huntington, 816–374–2466.

The sessions will last approximately three hours and will cover the following areas:

1. A brief history of the FEDERAL REGISTER.

2. The difference between legislation and regulations.

3. The relationship of the FEDERAL REGISTER and the CODE OF FEDERAL REGULATIONS.

4. Important elements of a typical FEDERAL REGISTER document.

5. An introduction to the finding aids of the Office of the Federal Register.

In addition, attendees will undertake a practical problem-solving exercise and will be invited to provide information on their uses of FEDERAL REGISTER publications in order to help this office improve its services.

The Office of the Federal Register does not interpret specific agency regulations, and these sessions will not provide a forum for the discussion of substantive questions. Rather, the briefings are designed as an introduction for the person who discovers that he or she must use FEDERAL REGISTER publications to keep track and to gain an understanding of Federal regulations.

FRED J. EMERY,
Director of the Federal Register.

AUGUST 26, 1976.

FEDERAL MARITIME COMMISSION

[Docket No. 76–46; Agreements Nos. T–3191, et al.]

SEA-LAND SERVICES, INC.

Order of Investigation and Hearing

Four agreements relating to the use of marine terminal facilities at Puerto Nuevo, San Juan, Puerto Rico, have been filed with the Commission for approval under section 15 of the Shipping Act, 1916. Agreement No. T–3191, which is between Sea-Land Service, Inc., (Sea-Land) the Puerto Rico Maritime Shipping Authority (PRMSA) and the Puerto Rico Ports Authority (Port) provides for Sea-Land's irrevocable option to substitute itself for PRMSA on the same terms and conditions as set forth in Agreement No. T–3210 (below), an agreement whereby PRMSA has preferential rights at and leases land adjacent to Berth F, Puerto Nuevo, San Juan. Agreement No. T–3193, which is between Sea-Land PRMSA, provides for the preferential interchange of cantainer cranes at Puerto Nuevo, San Juan. Agreement No. T–3199, which is between the Port and Sea-Land, provides for Sea-Land's preferential rights at and the lease of land adjacent to Berth E, Puerto Nuevo, San Juan. Agreement No. T–3210, which is between the Port and PRMSA, provides for PRMSA's preferential rights at and the lease of land adjacent to Berth F, Puerto Nuevo, San Juan. In addition, there exists an agreement entitled the "Puerto Nuevo Contract" which has not been formally filed for Commission approval and provides for various considerations in connection with PRMSA's and Sea-Land's arrangements at Puerto Nuevo under Agreements Nos. T–3193, T–3199 and T–3210.

Notice of the filing of Agreements Nos. T–3191, T–3193, T–3199 and T–3210 (hereinafter Agreements Nos. T–3191, et al.) was published in the FEDERAL REGISTER, and Seatrain Gitmo, Inc., (Seatrain Gitmo) has filed a Protest and Request for Hearing on these agreements. While the Puerto Neuvo Contract (hereafter Contract) has been supplied to our staff for informational purposes, it is the parties' position that the Contract is not subject to section 15, Shipping Act, 1916, and the Contract was not formally filed for Commission action pursuant to section 15, Shipping Act, 1916. Consequently, notice of the Contract has not been published in the FEDERAL REGISTER for comments.

Seatrain Gitmo states, that, as a competitor of Sea-Land and PRMSA, it is vitally affected by the effect that Agreements Nos. T–3191, et al., may have on its efforts to obtain a regular container berth and crane in San Juan, since these agreements' approval would act to aggravate the already untenable situation with which it is confronted in the Port as such approval may preclude Seatrain Gitmo's obtaining a berth or cranes in San Juan until sometime in the distant future. Seatrain Gitmo further alleges that Agreements Nos. T–3191, et al., are discriminatory among carriers and may act to the detriment of the commerce of the United States and be contrary to the public interest within the meaning of section 15, Shipping Act, 1916, and the agreements appear to violate section 16 First, Shipping Act, 1916, by granting the parties thereto various undue and unreasonable preferences and advantages to the detriment of Seatrain Gitmo and other competitors.

Seatrain Gitmo therefore submits that a hearing is required by *Marine Space Enclosures, Inc.* v. *F.M.C.*, 420 F.2d 557 (D.C. Cir. 1969), to determine whether the extent of the restrictions imposed by Agreements Nos. T–3191, et al., in connection with other existing arrangements for berths and cranes in San Juan serve any serious transportation needs which outweigh these agreements' alleged detriment to Seatrain Gitmo and the public interest.

PRMSA, however, argues that the protest is submitted only in the furtherance of Seatrain Gitmo's efforts to secure access to container cranes located at the Isla Grande portion of the ports, therefore the protest raises no issues bearing on the approvability of Agreements Nos. T–3191, et al., since these agreements relate to facilities located in an entirely different portion of the port. In PRMSA's opinion, the adverse impact Seatrain Gitmo claims that approval of Agreements Nos. T–3191, et al., would have on its efforts to obtain a crane at San Juan is nonexistent and wholly speculative; Seatrain Gitmo has failed to demonstrate, other than by conjecture, that the agreements' approval would have any discriminatory impact on Seatrain Gitmo or any other carrier. Further, PRMSA states that it is not aware of any statute, rule or decision requiring that the owner of certain shipping facilities must make those facilities available to its competitors; therefore, PRMSA contends that section 15, Shipping Act, 1916, does not require a hearing on the matters Seatrain Gitmo raises in its protest. Therefore, PRMSA urges the Commission to deny Seatrain Gitmo's request for a hearing and approve Agreements Nos. T–3191, et al., or in the alternative, requests that the Commission grant interim approval of Agreements Nos. T–3191, et al., pending the outcome of any proceeding.

Seatrain Gitmo's protest appears to raise legitimate issues with respect to the effect Agreements Nos. T–3191, et al., may have on the future use of marine terminal facilities at San Juan if they are implemented. Therefore, the Commission is of the opinion that Agreements Nos. T–3191, et al., should be made the subject of a public investigation and hearing to determine the effect these agreements may have on other users of the Port of San Juan, and to determine (a) whether these agreements should be approved, disapproved, or modified, under the standards set by section 15, Shipping Act, 1916; and (b) to determine whether these agreements violate section 16 First, Shipping Act, 1916.

We are including the Puerto Nuevo Contract in this proceeding since the considerations provided for by the Contract appear to be an integral component of the overall transactions contemplated by protested Agreements Nos. T–3193, T–3199 and T–3210. Accordingly, the investigation and hearing ordered herein will also determine (a) whether the Puerto Nuevo Contract is subject to section 15, Shipping Act, 1916, and, if so, whether it should be approved, disapproved or modified pursuant to section 15, Shipping Act, 1916; and (b) whether the Puerto Nuevo Contract, together with Agreements Nos. T–3191, et al., constitutes the parties' complete understanding with respect to their use of marine terminal facilities at Puerto Nuevo, San Juan, Puerto Rico.

As noted above, PRMSA has requested that we grant Agreements Nos. T–3191, et al., interim approval pending the outcome of any proceeding on this matter. We are denying this request since the parties have not shown that interim approval of Agreements Nos. T–3191, et al., is necessitated by any emergency condition or other overriding public interest consideration. Order Denying Petition for Reconsideration, Canadian-American Working Arrangement, et al., Docket No. 75–56 (February 26, 1976).

Now, therefore, it is ordered, That the Commission enter upon an investigation and hearing pursuant to sections 15, 16 and 22 of the Shipping Act, 1916, to determine whether Agreements Nos. T–3191, T–3193, T–3199 or T–3210 are unjustly discriminatory or unfair as between carriers, shippers, exporters, or importers, or operate to the detriment of the commerce of the United States, or are contrary to the public interest; or are otherwise in violation of the Shipping Act, 1916, and whether Agreements Nos. T–3191, T–3193, T–3199 or T–3210 should be approved, disapproved or modified;

It is further ordered, That it be determined whether the Puerto Nuevo Contract is subject to section 15 and, if so, whether it should be approved, disapproved or modified pursuant to section 15, Shipping Act, 1916;

It is further ordered, That it be determined whether Agreements Nos. T–3191, T–3193, T–3199, T–3210 and the Puerto Nuevo Contract constitute the parties' complete understanding with respect to their use of marine terminal facilities at Puerto Nuevo, San Juan, Puerto Rico;

It is further ordered, That it be determined whether Agreements Nos. T–3191, T–3193, T–3199, T–3210 or the Puerto Nuevo Contract together or separately make or give any undue or unreasonable preference or advantage to any particular person or subject any particular person to any undue or unreasonable prejudice or disadvantage in violation of section 16, First, Shipping Act, 1916;

It is further ordered, That PRMSA's request for interim approval of Agreements Nos. T–3191, T–3193, T–3199 and T–3210 be and hereby is denied;

It is further ordered, That in the event any modification of Agreements Nos. T–3191, T–3193, T–3199, T–3210 or the Puerto Nuevo Contract is filed with the Commission, such modification shall be made subject to this investigation for approval, disapproval or modification under the standards of section 15 of the Shipping Act, 1916;

It is further ordered, That the Puerto-Rico Ports Authority, the Puerto Rico Maritime Shipping Authority and Sea-Land Service, Inc., be named as Respondents herein;

It is further ordered, That Seatrain Gitmo, Inc., be named Petitioner herein;

It is further ordered, That a public hearing be held in this proceeding to commence on or before February 24, 1977, and that this matter be assigned for such hearing and Initial Decision by an Administrative Law Judge of the Commission's Office of Administrative Law Judges;

It is further ordered, That a copy of this Order be forthwith served upon Respondents and Petitioner herein, and upon the Commission's Bureau of Hearing Counsel, and be published in the FEDERAL REGISTER; and that the Respondents, Petitioner, and Hearing Counsel be duly served with notice of time and place of the hearing;

It is further ordered, That any person other than Respondents, Petitioner, and Hearing Counsel, having an interest and desiring to participate in this proceeding shall file a petition for leave to intervene in accordance with Rule 5(1) (46 C.F.R. § 502.72) of the Commission's Rules of Practice and Procedure.

Pursuant to these Rules, absent good cause shown, parties must commence discovery procedures on or before September 29, 1976, and any intervenor desiring to utilize the discovery procedures prescribed by Subpart L thereof, must commence doing so not later than 15 days after his petition for leave to intervene has been granted. If petition for leave to intervene is filed later than 30 days after the date of publication of this Order in the FEDERAL REGISTER, petitioner will be deemed to have waived his right to utilize such procedures unless good cause is shown for the failure to file the petition within the 30-day period (46 C.F.R. 502.72(b)).

By the Commission.

[SEAL] JOSEPH C. POLKING,
Assistant Secretary.

FEDERAL POWER COMMISSION

National Gas Survey

TRANSMISSION, DISTRIBUTION & STORAGE-TECHNICAL ADVISORY TASK FORCE—RATE DESIGN

Agenda of Meeting

North Building—Room 3401, Federal Power Commission, Union Plaza Building, 941 North Capitol Street, NE., Washington, D.C. 20426.

September 14, 1976, 9:30 a.m.

Presiding: Mr. John F. Craig, FPC Coordinating Representative and Secretary.

1—Call to order: Mr. John F. Craig.

2—Review of recommendations presented May 21, 1976, by Subgroups 1A and 1B.

3—Receive preliminary comments of the other Subgroups on remaining initial agenda items.

4—Discussion of procedure for drafting the report.

5—Establishing next meeting date and agenda.

6—Discussion of other matters.

7—Adjournment: Mr. John F. Craig.

This meeting is open to the public. Any interested person may attend, appear before, or file statements with the Committee—which statements, if in written form, may be filed before or after the meeting, or if oral, at the time and in the manner permitted by the Committee.

KENNETH F. PLUMB,
Secretary.

Assistant Secretary of the Board.

[FR Doc.76-25305 Filed 8-27-76;8:45 am]

BANCAL TRI-STATE CORP.

BanCal Tri-State Corporation "Tri-State"), San Francisco, California, a bank holding company within the meaning of section 2(a) of the Bank Holding Company Act of 1956, as amended (12 U.S.C. 1841(a)) ("Act"), by virtue of its ownership of 99.95 per cent of the issued and outstanding voting shares of The Bank of California, N.A. ("Bank"), San Francisco, California, has requested a determination, pursuant to Section 2(g)(3) of the Act (12 U.S.C. 1841(g)(3)), that neither Tri-State nor Bank is in fact capable of controlling Western Pacific Financial Corporation ("West Pac"), San Bernardino, California, notwithstanding the fact that West Pac is indebted to Bank. Bank has sold all of its stock-holdings in BanCal Mortgage Company, formerly a direct subsidiary of Bank, pursuant to an agreement dated November 5, 1975.

Under the provisions of section 2(g)(3) of the Act (12 U.S.C. 1841(g)(3)), shares transferred after January 1, 1966, by any bank holding company to a transferee that is indebted to the transferor or has one or more officers, directors, trustees, or beneficiaries in common with or subject to control by the transferor, are deemed to be indirectly owned or controlled by the transferor unless the Board, after opportunity for hearing, determines that the transferor is not in fact capable of controlling the transferee.

Tri-State has submitted to the Board evidence to support its contention that Tri-State does not in fact control West Pac.

Notice of an opportunity for hearing with respect to Tri-State's request for a determination under Section 2(g)(3) was published on January 15, 1976 (41 FR 2279 (1976)). The time provided for requesting a hearing has expired. No such request has been received by the Board.

It is hereby determined that neither Tri-State nor Bank is in fact capable of controlling West Pac. This determination is based upon the evidence of record in this matter, including the following facts. West Pac is a publicly-owned corporation of substantial size and is unaffiliated with Tri-State or Bank. West Pac has historically maintained a credit relationship with Bank, although this has not appeared to have conferred control by Bank over West Pac, but rather was established in the normal course of business to aid West Pac in the independent conduct of its mortgage financing operations. No security interest was retained in the assets of Mortgage transferred to West Pac, and although Bank increased the line of credit it made available to West Pac following the transfer, the increase was not extended to provide West Pac with funds for the purchase of Mortgage, but rather was made to assist West Pac in the servicing of the business it acquired through Mortgage. West Pac's initial borrowings on this increased line of credit have already been significantly repaid. Furthermore, the sale of Mortgage to West Pac appears to have been the result of arms-length negotiations, and there are no interlocking officer or director relationships between Tri-State or its subsidiaries and West Pac. The

[3] 4(c)(8) and 4(c)(12) notifications processed by Reserve Bank on behalf of the Board of Governors under delegated authority.

V 41 169
AUG 30 76
UMI

board of directors of West Pac has submitted a resolution disclaiming control over West Pac by Tri-State or its subsidiaries, and a similar resolution by the board of directors of Tri-State was submitted disclaiming control over West Pac.

Accordingly, it is ordered, That the request of Tri-State for a determination pursuant to Section 2(g)(3) be and hereby is granted: Any material change in the facts or circumstances relied upon by the Board in making this determination or any material breach of any of the commitments upon which the Board based its decision could result in the Board reconsidering the determination made herein.

By order of the Board of Governors, acting through its General Counsel, pursuant to delegated authority (12 CFR 265.2(b)(1)), effective August 24, 1976.

GRIFFITH L. GARWOOD,
Assistant Secretary of the Board.

[FR Doc.76-25309 Filed 8-27-76;8:45 am]

MICHIGAN NATIONAL CORP.

Order Denying Acquisition of Bank

Michigan National Corporation, Bloomfield Hills, Michigan, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act to acquire all of the voting shares (less directors' qualifying shares) of the successor by merger to Peoples Bank and Trust, National Association, Trenton, Michigan ("Bank"). The bank into which Bank is to be merged has no significance except as a means to facilitate the acquisition of the voting shares of Bank. Accordingly, the proposed acquisition of shares of the successor organization is treated herein as the proposed acquisition of the shares of Bank.

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and the Board has considered the application and all comments received, including those of the United States Department of Justice and the Financial Institutions Bureau of the Michigan Department of Commerce, in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant, the second largest banking organization and bank holding company in Michigan, controls 16 banks with aggregate deposits of approximately $2.9 billion, representing 9.9 percent of the total commercial bank deposits in the

State.[1] Acquisition of Bank ($119.0 million in deposits) would increase Applicant's share of Statewide deposits to 10.3 percent without changing its ranking in the State. Although consummation of this transaction would not significantly increase the concentration of banking resources in Michigan it would have adverse effects upon concentration in the relevant market.

Bank is the larger of the two banks located in the city of Trenton, a southern suburb of Detroit, and is the 14th largest of 36 banking organizations operating in the Detroit banking market (the relevant market).[2] Applicant has a significant presence in the Detroit market as it operates seven banks with 88 banking offices in the market, and controls $1.3 billion in deposits. Applicant is the fourth largest banking organization in the Detroit market controlling approximately 8.5 percent of total market deposits. Approval of the application would increase Applicant's market share to 9.2 percent.

The Detroit banking market is a concentrated market in which the four largest banking organizations hold approximately 71.0 percent of market deposits. Consummation of the proposal would result in a further increase in this concentration, to 71.7 percent. The facts of record show the proposal would result in the elimination of existing competition. Furthermore, in Wayne County, where the city of Trenton is located, Bank operates 15 out of its 16 banking offices and Applicant has three subsidiary banks with 45 offices. Thus, consummation of this transaction would eliminate existing competition between Applicant and Bank, and would increase the concentration of banking resources in the market.

Bank ranks among the top 10 percent of all Michigan banks in deposit size[3] and approval of the proposal would remove an attractive entry vehicle for a Michigan bank holding company not currently represented in the Detroit market, Michigan's largest market. Thus, approval would lessen the possibility of future market deconcentration through the entry of another banking organization into the market. This factor is even more significant when considered in light of the fact that the overall market is not particularly attractive for *de novo* entry by other banking organizations seeking to gain access to the Detroit banking market. Approval of the proposal would also continue the decline in the number of banking organizations competing in the market, which number has been reduced by 20 per cent from June 1970 to June 1975.[4] Furthermore, the proposal would foreclose the development of future competition by removing Bank as an independent competitor within the Detroit market. As an alternative to acquiring Bank, Applicant could enter *de novo* one of the townships contiguous to Trenton or by branching into one of those townships where home-office protection would not be a bar. On the basis of the foregoing and other facts of record, the Board concludes that approval of the application would have significantly adverse competitive effects.

In acting on this application, the Board has considered the comments of the Department of Justice and the Financial Institutions Bureau of the Michigan Department of Commerce and Applicant's responses thereto. The Justice Department indicated that, in its opinion, the proposed acquisition would eliminate existing and future competition and lead to an increase in the concentration of commercial banking in Wayne County. Applicant responded that, as set forth in the submission by the Michigan Financial Institutions Bureau, Trenton, where Bank is headquartered, is not part of the Detroit banking market and that the market in which to analyze the competitive effects of this proposal is defined as southern Wayne County and the majority of Monroe County, Michigan. It is the Board's opinion, however, that the relevant market for analyzing the competitive effects of this proposal is the Detroit banking market which is approximated by Michigan counties of Macomb, Oakland, and Wayne.[5] In making such an analysis the Board finds, based on the foregoing and other facts of record, that competitive considerations relating to this application weigh sufficiently against approval so that it should not be approved unless the anticompetitive effects are clearly outweighed by benefits to the public in meeting the convenience and needs of the communities to be served.

The financial and managerial resources and prospects of Bank are satisfactory. The financial condition and managerial resources and prospects of Applicant and its subsidiary banks are regarded as generally satisfactory. Although certain of Applicant's subsidiaries are in need of additional capital, Applicant has continued to show meaningful progress in strengthening the overall capital position of the holding company and its subsidiaries. Thus, the Board views banking factors as not providing any weight either toward approval or denial of the application.

Considerations relating to the convenience and needs of the communities to be served, at best, add only slight weight toward approval, as the only definite benefits that apparently will be derived from affiliation are some managerial and technical assistance that Applicant would provide Bank.[6] The Board finds that neither the considerations relating to banking factors nor to convenience and needs are sufficient to outweigh the significantly adverse competitive effects of Applicant's proposal.

On the basis of the facts in the record, and in light of the factors set forth in section 3(c) of the Act, it is the Board's judgment that approval of the proposal would not be in the public interest. Accordingly, the application is denied for the reasons summarized above.

By order of the Board of Governors,[7] effective August 24, 1976.

GRIFFITH L. GARWOOD,
Assistant Secretary of the Board.

[FR Doc.76-25311 Filed 8-27-76;8:45 am]

SECURITY BANCSHARES, INC.

Formation of Bank Holding Company

Security Bancshares, Inc., Tulsa, Oklahoma, has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) to become a bank holding company through acquisition of 100 percent (less directors' qualifying shares) of the voting shares of Security Bank, Tulsa, Oklahoma. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Kansas City. Any person wishing to comment on the application should submit views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551 to be received no later than September 15, 1976.

Board of Governors of the Federal Reserve System, August 24, 1976.

GRIFFITH L. GARWOOD,
Assistant Secretary of the Board.

[FR Doc.76-25313 Filed 8-27-76;8:45 am]

[1] All banking data are as of December 31, 1975, and reflect banking holding company formations and acquisitions approved through June 30, 1976.

[2] The Detroit banking market is approximated by Macomb, Oakland and Wayne Counties.

[3] Bank ranks 35th out of the 351 banks in Michigan.

[4] In June 1970, there were 45 banking organizations operating in the Detroit market; by June 1975, there were 36 banking organizations in the market.

[5] The Federal Reserve Bank of Chicago undertook a field investigation in the Detroit area to determine the correct market. This investigation was in response to Applicant's defining the Detroit market as comprising the Detroit metropolitan area with the exception of the southern section of Wayne County which includes Trenton. As a result of the field investigation and analysis of all the facts of record, the proper definition of the market for analyzing the competitive effects of the subject proposal is the three-county market.

[6] Applicant has indicated that it intends to suggest certain changes to Bank concerning its operations which changes, if implemented by Bank's management, would result in some benefits to the public. Most of the changes could be made presently by Bank, but even if they were to be made only upon acquisition by Applicant, they would not provide significant support for approval.

[7] Voting for this action: Vice Chairman Gardner and Governors Wallich, Coldwell, Jackson, Partee and Lilly. Absent and not voting: Chairman Burns.

STANDARD PRUDENTIAL CORP.

Request for Determination and Notice Providing Opportunity for Hearing

Notice is hereby given that a request has been made to the Board of Governors of the Federal Reserve System, pursuant to the provisions of section 2(g)(3) of the Bank Holding Company Act of 1956 (12 U.S.C. 1841(g)(3)) ("the Act"), by Standard Prudential Corporation, New York, New York ("Standard"), for a determination that it is not nor will be in fact capable of controlling Uintah National Corporation, Salt Lake City, Utah ("Uintah"), by virtue of the sale of 1,600,000 shares of Talcott National Corporation, New York, New York ("Talcott"), to Uintah.

Section 2(g)(3) of the Act provides that shares transferred after January 1, 1966, by any bank holding company (or any company which but for such transfer, would be a bank holding company) directly or indirectly to any transferee that is indebted to the transferor or has one or more officers, directors, trustees, or beneficiaries in common with or subject to control by the tranferor, shall be deemed to be indirectly owned or controlled by the transferor, unless the Boad, after opportunity for hearing, determines that the transferor is not, in fact, capable of controlling the transferee.

Notice is hereby given, that, pursuant to section 2(g)(3) of the Act, an opportunity is provided for filing a request for oral hearing. Any such request or written comments on the application should be submitted in writing (in duplicate) to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received no later than September 22, 1976. If a request for oral hearing is filed, each request should contain a statement of the nature of the requesting person's interest in the matter, his reasons for wishing to appear at an oral hearing, and a summary of the matters concerning which such person wishes to give testimony. The Board subsequently will designate a time and place for any hearing it orders, and will give notice of such hearing to the transferor, the transferee, and all persons that have requested an oral hearing. In the absence of a request for an oral hearing, the Board will consider the requested determination on the basis of documentary evidence filed in connection with the application.

Board of Governors of the Federal Reserve System, August 24, 1976.

GRIFFITH L. GARWOOD,
Assistant Secretary of the Board.

[FR Doc.76-25314 Filed 8-27-76;8:45 am]

GENERAL ACCOUNTING OFFICE

REGULATORY REPORTS REVIEW

Receipt of Report Proposals

The following requests for clearance of reports intended for use in collecting information from the public were received by the Regulatory Reports Review Staff, GAO, on August 20, 1976 (SEC) and August 23, 1976 (CAB). See 44 U.S.C. 3512 (c) and (d). The purpose of publishing this notice in the Federal Register is to inform the public of such receipt.

The notice includes the title of each request received; the name of the agency sponsoring the proposed collection of information; the agency form number, if applicable; and the frequency with which the information is proposed to be collected.

Written comments on the proposed SEC and CAB requests are invited from all interested persons, organizations, public interest groups, and affected businesses. Because of the limited amount of time GAO has to review the proposed requests, comments (in triplicate) must be received on or before September 17, 1976, and should be addressed to Mr. John M. Lovelady, Acting Assistant Director, Regulatory Reports Review, Room 5216, 425 I Street, NW, Washington, DC 20548.

Further information may be obtained from Patsy J. Stuart of the Regulatory Reports Review Staff, 202-376-5425.

SECURITIES AND EXCHANGE COMMISSION

SEC requests clearance of a new "Bank Study Questionnaire" pursuant to section 11A(c) of the Securities and Exchange Act of 1934 (15 U.S.C. 78k-1(e)) which authorizes SEC to make a study of the extent to which persons excluded from the definitions of "broker" and "dealer" maintain accounts on behalf of public customers for buying and selling securities registered under section 12 of the Securities and Exchange Act, and whether such exclusions are consistent with the protection of investors. The survey questionnaire relates to brokerage-type, investment management and advisory, and corporate financing services offered by banks and trust companies. The potential respondents for the questionnaire are banks as defined in Section 3(a)(6) of the Securities Exchange Act of 1934, including (a) banking institutions organized under the laws of the United States; (b) member banks of the Federal Reserve System; (c) any other banking institutions, whether incorporated or not, doing business under the laws of any State of the United States, a substantial portion of the business of which consists of receiving deposits or exercising a fiduciary power similar to those permitted to national banks under Section 11(k) of the Federal Reserve Act, as amended, and which are supervised and examined by State or Federal authority having supervision over banks; and (d) a receiver, conservator, or other liquidating agent of any institution or firm included in clauses (a), (b), or (c) above. There are 14,500 banks of which 245 will be surveyed based on a stratified sampling. The reporting burden is estimated by SEC to average 66 hours per respondent.

CIVIL AERONAUTICS BOARD

CAB requests an extension no change clearance of Form 41, Report of Financial and Operating Statistics for Certificated Air Carriers. Form 41 contains the basic data which the CAB uses in fulfilling its regulatory responsibilities under the Federal Aviation Act of 1958, as amended. Submission of Form 41 is mandatory under Section 407 of the Act. Respondents are approximately 44 certificated air carriers and CAB estimates the reporting burden (which includes the burden for all monthly, quarterly, semi-annual and annual filings of schedules in Form 41) to be 2,087 hours annually per respondent.

NORMAN F. HEYL,
Regulatory Reports Review Officer.

ADVISORY COUNCIL ON HISTORIC PRESERVATION

PUBLIC INFORMATION

Meeting

Notice is hereby given in accordance with the Federal Advisory Committee Act (P.L. 92-463) and § 800.5(c) of the Advisory Council's "Procedures for the Protection of Historic and Cultural Properties" (36 C.F.R., Part 800) that on September 14, 1976, at 7:30 p.m., a public information meeting will be held at the Auditorium of the White Plains High School, North Street, White Plains, New York. The purpose of this meeting is to provide an opportunity for representatives of national, State, and local units of government, representatives of public and private organizations and interested citizens to receive information and express their views on the Central Urban Renewal Project, an undertaking assisted by the Department of Housing and Urban Development as it affects the Westchester County Courthouse Complex, White Plains, New York, a property included in the National Register of Historic Places. The urban renewal project proposes the demolition of this National Register property.

A summary of the agenda of the public information meeting follows:

I. An explanation of the procedures and purpose of the meeting by a representative of the Executive Director of the Advisory Council.

II. An account of the history of the project, description of the undertaking, an evaluation of its effects on the property, and a presentation of the study of alternatives to demolition by the Department of Housing and Urban Development.

III. A statement by the New York State Historic Preservation Officer.

IV. Statements by other interested Federal and State agencies, if any.

V. Statements by a representative of the White Plains Urban Renewal Agency and of a representative of the City of White Plains.

VI. A statement by a representative of the Save the Courthouse Committee.

VII. Statements from the public on the undertaking as it affects the National Register property.

VIII. A general question period.

Members of the public who desire to speak at this meeting should notify the Director, New York Area Office, Department of Housing and Urban Development, 666 Fifth Avenue, New York, New York, 10019, by close of business Friday, September 10, 1976. Speakers should limit their statements to approximately five minutes. Written statements in lieu of or in furtherance of oral remarks will be accepted by the Council at the time of the meeting, and such statements may also be sent to the Director, New York Area Office, Department of Housing and Urban Development, 666 Fifth Avenue, New York, New York, 10019, where they will be received until close of business October 5, 1976. Additional information regarding the meeting is available from the Executive Director, Advisory Council on Historic Preservation, 1522 K Street NW., Washington, D.C. 20005, (202-254-3380).

ROBERT R. GARVEY, Jr.,
Executive Director.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice No. 76-69]

SPACE PROGRAM ADVISORY COUNCIL, SPACE SYSTEMS COMMITTEE

Meeting

The Space Systems Committee of the NASA Space Program Advisory Council will meet on September 20-21, 1976, at the Rockwell International Space Division, Building 1, Executive Conference Room, 12214 Lakewood Boulevard, Downey, California.

The meeting is open to members of the public from 8:00 a.m. to 5:00 p.m. on September 20, 1976, and from 9:00 a.m. to 5:00 p.m. on September 21, 1976, on a first-come, first-served basis to about 40 which is the seating capacity of the room. Visitors will be requested to sign a visitor's register.

The NASA Space Systems Committee serves in an advisory capacity only. It is concerned with the development of space transportation systems and multi-disciplinary space-based systems including consideration of the man machine interface. The group also considers the interrelationships between such systems and their payloads in support of space flight missions. The current chairman is Professor Courtland D. Perkins. There are presently seven (7) members.

For further information regarding the meeting, please contact Mr. Daniel Nebrig, Executive Secretary to the Space Systems Committee on 202/755-2453, or Ms. Rose M. Lovelace, Executive Staff Assistant to the Associate Administrator for Space Flight, National Aeronautics and Space Administration, Washington, D.C. 20546, on 202/755-6919.

The agenda for the meeting is as follows:

September 20, 1976	Topic
9:00 a.m.-9:45 a.m.	Opening Remarks—(Purpose: Introductory Remarks.)
9:45 a.m.-10:00 a.m.	Space Transportation System (STS) Operations Overview — (Purpose: To present a current overview on STS Operations.)
10:00 a.m.-11:00 a.m.	Transition from Expendable Launch Vehicles to Space Shuttle — (Purpose: To obtain comments and suggestions on transition plans from expendable launch vehicles to Shuttle.)
11:00 a.m.-12:30 p.m.	Space Shuttle Program Overview including Space Shuttle Main Engine (SSME) Subsynchronous Whirl — (Purpose: To present current overview on Space Shuttle and to obtain comments and recommendations on the SSME rotor whirl situation.)
1:30 p.m.-3:00 p.m.	Orbiter Avionics Software Review—(Purpose: To continue discussions from the last meeting on computer software and to receive recommendations and suggestions.)
3:00 p.m.-4:00 p.m.	Planning for Approach and Landing Test (ALT) Program — (Purpose: To advise status of planning for ALT and to receive comments and recommendations.)
4:00 p.m.-5:00 p.m.	External Tank (ET)/Orbiter Interface — (Purpose: To discuss interface between the Orbiter and External Tank.)
5:00 p.m.	Adjourn.
September 21, 1976	**Topic**
9:00 a.m.-10:30 a.m.	General Discussion—(Purpose: To discuss issues and recommendations from the meeting.)
10:30 a.m.-5:00 p.m.	Tour of the On-Site Hardware and Facilities at Rockwell International, Downey, Rocketdyne, and Palmdale — (Purpose: To physically observe and review status of on-site Space Shuttle hardware and facilities.)
5:00 p.m.	Adjourn.

WILLIAM W. SNAVELY,
Assistant Administrator for DoD and Interagency Affairs.

AUGUST 24, 1976.

NATIONAL SCIENCE FOUNDATION

ADVISORY PANEL FOR ASTRONOMY, SUBPANEL MEETING ON OPTICAL AND INFRARED ASTRONOMY

Open Meeting

In accordance with the Federal Advisory Committee Act, P.L. 92-463, the National Science Foundation announces the following meeting:

Name: Astronomy Advisory Subpanel Meeting on Optical & Infrared Astronomy.

Date: September 17-18, 1976.

Time: 9:00 AM.

Place: Steward Observatory, Room 108, University of Arizona, Tucson, Arizona 85721.

Type of meeting: Open—September 17 (9:00 AM-5 PM). September 18 (9:00 AM-3 PM/Adjourn).

Contact: Dr. Peter A. Strittmatter, Steward Observatory, University of Arizona, Tucson, Arizona 85721. 602 884-1764 or, Dr. James P. Wright, National Science Foundation, Division of Astronomical Sciences, Rm. 615, Washington, D.C. 20550. 202 632-4192.

Summary minutes: May be obtained from the Committee Management Coordination Staff, Division of Personnel and Management, Room 212, National Science Foundation, Washington, D.C. 20550.

Purpose: To review NSF programs in optical and infrared astronomy.

Agenda: Will include the following discussion and presentations:

SEPTEMBER 17, 1976

9:00 AM: Discussion of objectives to be accomplished.

10:00 AM: Review of current problems and opportunities in infrared and optical astronomy.

12 Noon: Lunch.

1:00 PM: Review of current problems and opportunities in infrared and optical astronomy (continued).

3:00 PM: Discussion of problems, alternatives, and solutions in the operation of groundbased observatories.

SEPTEMBER 18, 1976

9:00 AM: Discussion and review of prospective major new observatory facilities, their need and priority.

12 Noon: Lunch.

1 PM: Outline draft of recommendations emanating from this meeting.

Dated: August 25, 1976.

BECKY WINKLER,
Acting Committee Management Officer.

NUCLEAR REGULATORY COMMISSION

[Docket No. PRM-73-1]

BABCOCK & WILCOX

Denial of Petition for Rulemaking

Notice is hereby given that the Nuclear Regulatory Commission (NRC) has denied a petition for rulemaking sub-

V41I169 AUG 30 76 UMI

mitted by letter dated November 10, 1975; by Babcock & Wilcox (B&W), 609 North Warren Avenue, Apollo, Pennsylvania. A notice of filing of petition, Docket No. PRM–73–1; was published in the FEDERAL REGISTER on January 20, 1976 (41 FR 2871). Interested persons were invited to submit written comments or suggestions on the petition. Letters from Transnuclear, Inc. and Westinghouse Electric Corporation were received which supported the petition.

B&W petitioned the Commission to amend its regulations 10 CFR Part 73, to (1) change the term "special nuclear material" to "strategic special nuclear material" wherever the term appears; (2) add a new paragraph to § 73.2 defining "strategic special nuclear material"; and (3) replace the phrase "either uranium–235 (contained in uranium enriched to 20 percent or more in the U–235 isotope), uranium–233, or plutonium, or any combination of these materials which is 5,000 grams or more computed by the formula, grams=(grams contained U–235) +2.5 (grams U–233+grams plutonium)" with the term "strategic special nuclear material" wherever the phrase appears.

The petitioner stated that the requested changes would clarify the contents and reading of 10 CFR Part 73 and that the use of the term "strategic special nuclear material" instead of "special nuclear material" would provide a clear line of demarcation between special nuclear material that must be protected by security measures and nuclear material that does not fall under the requirements of 10 CFR Part 73. The term "special nuclear material" is used in 10 CFR Part 73 in its statutory meaning which is, of course, not restricted to strategic quantities of special nuclear material. Although most of the sections in Part 73 apply to persons who possess strategic quantities of special nuclear material, other sections of Part 73 apply to substrategic amounts. For example, 10 CFR 73.1(B) (3) and 73.32, Shipment by Air, cover lesser quantities: (1) 20 grams or 20 curies, whichever is less, of plutonium or uranium–233, or (2) 350 grams of uranium–235 (contained in uranium enriched to 20 percent or more of the U–235 isotope). The recommended change would leave the status of these substrategic quantities in doubt. Likewise, Sections 73.70 and 73.71, which require records to be kept and reports on theft to be made by Part 73 licensees, would be ambiguous with regard to those sub-strategic quantities.

While for these reasons, the specific recommendation made by Babcock & Wilcox has not been adopted, the Commission is engaged in a thorough reassessment of its safeguards rules and the question of more specific differentiation between various types of special nuclear material is being given close attention. Any proposed changes will be the subject of later notice of proposed rulemaking.

In view of the foregoing, the Commission has denied the petition for rulemaking filed by Babcock & Wilcox on November 10, 1975. Copies of the petition for rulemaking, the comments thereon, and the Commission's letter of denial are available for public inspection in the Commission's Public Document Room at 1717 H Street, NW., Washington, D.C.

For the Nuclear Regulatory Commission.

Dated at Washington, D.C. this 24th day of August, 1976.

SAMUEL J. CHILK,
Secretary of the Commission.

OFFICE OF MANAGEMENT AND BUDGET

CLEARANCE OF REPORTS

List of Requests

The following is a list of request for clearance of reports intended for use in collecting information from the public received by the Office of Management and Budget on August 24, 1976 (44 USC 3509). The purpose of publishing this list in the FEDERAL REGISTER is to inform the public.

The list includes the title of each request received; the name of the agency sponsoring the proposed collection of information; the agency form number(s), if applicable; the frequency with which the information is proposed to be collected; the name of the reviewer or reviewing division within OMB, and an indication of who will be the respondents to the proposed collection.

Requests for extension which appear to raise no significant issues are to be approved after brief notice through this release.

Further information about the items on this daily list may be obtained from the Clearance Office, Office of Management and Budget, Washington, D.C. 20503, (202–395–4529), or from the reviewer listed.

NEW FORMS

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

National Institutes of Health, guide for interviews with unfunded investigators, NIH–OD–9, single-time, faculty of medical schools, Human Resources Division, Reese B. F., 395–3532.

National Center for Education Statistics, National Longitudinal Study of the High School Class of 1972—third follow-up questionnaire, NCES–2367–5, single-time, National Sample of High School Seniors of 1972, Kathy Wallman, 395–6140.

Office of Education, Indian Student Enrollment Certification, OE–506, annually, LEA's, SEA's, Kathy Wallman, 395–6140.

Health Resources Administration, Health Professions and Nursing Student Loan Repayment Programs (3 forms), on occasion, nurses and health professions, lenders, employers, Lowry, R. L., 395–3772.

Public Health Service:
Report of Construction Progress and Claim for Cost Reimbursement, other (see SF–83), Health Professions Schools and Research Institutions, Lowry, R. L., 395–3772.
Annual Evaluation of the Education and Training in Team Programs, annually, team program administrator's, students and faculty, Human Resources Division, Reese, B. F., 395–3532.

Office of Human Development, Program Progress Review Report, quarterly, tribal governments; Indian urban centers, Lowry, R. L., 395–3772.

DEPARTMENT OF JUSTICE

Law Enforcement Assistance Administration, High Crime Area Survey, Series 2300 (8–76), single-time, local criminal justice planning units in jurisdictions of 250,000 or more, George Hall, 395–6140.

REVISIONS

DEPARTMENT OF AGRICULTURE

Food and Nutrition Service: Statistical Sampling and Reporting of Review Findings, QC program (food stamp program), FNS–247–1, 2, 3 FNS–248, semi-annually, state agencies, Human Resources Division, Warren Topelius, 395–3532.

Law Enforcement Assistance Administration, High Crime Area Survey, series 2300 (8–76), single-time, local criminal justice planning units in jurisdictions of 250,000 or more, George Hall, 395–6140.

Household Data Sheet (Food stamp program), FNS–245, monthly, food stamp participants, applicants and state agencies, Human Resources Division, Warren Topelius, 395–3532.

DEPARTMENT OF COMMERCE

Bureau of Census, Privacy and Confidentiality Opinion Survey, Privacy and Confidentiality Objective Survey, PCS–100, 200, single-time, national probability sample of households, Maria Gonzalez, 395–6132.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

National Institutes of Health, Framingham Heart Study-Senile Dementia and Functional Disability, ISNIH–HL–22, single-time, persons aged 55–85 in Framingham, Mass., Richard Eisinger, 395–6140.

Alcohol, Drug Abuse and Mental Health Administration, Behavior Checklist, single-time, Households in D.C. metropolitan area, Richard Eisinger, 395–6140.

Health Resources Administration, Influenza Supplemental Questionnaire to the 1976 Health Interview, NCHS 1014, other (see SF–83), sample of households in general population, George Hall, 395–6140.

EXTENSIONS

DEPARTMENT OF COMMERCE

Economic Development Administration, Application for Working Capital Guarantee, ED 203, on occasion, banks or other commercial/individual lenders, Lowry, R. L. 395–3772.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Health Services Administration, Migrant Hospitalization Demonstration Program Referral Form, HSA–T1, on occasion, clients of migrant health centers requiring hospitalization, Lowry, R. L. 395–3772.

PHILIP D. LARSEN,
Budget and Management Officer.

NEW FORMS

U.S. ENERGY RESEARCH AND DEVELOPMENT ADMINISTRATION

Questionnaire for Sub-Regional Study of Citizen Attitudes Toward Geothermal Energy, single-time, individuals and sector interviews: 3 counties, George Hall, Maria Gonzalez, 395–6140.

NATIONAL COMMISSION ON LIBRARIES AND INFORMATION SCIENCE

Photocopying Characteristics Survey Forms: Volume LOG, Characteristics Form, ILL Borrowing Form, single-time, sample of academic, federal, public and special libraries, Kathy Wallman, 395–6140.

Photocopying Characteristics Survey Forms—Screening Form, single-time, sample of academic, federal, public and special libraries, Kathy Wallman, 395–6140.

NATIONAL CENTER FOR PRODUCTIVITY AND QUALITY OF WORKING LIFE

Survey of Productivity and Human Resource Development, single-time, personnel managers private sector, Arnold Strasser, 395–5867.

DEPARTMENT OF AGRICULTURE

Farmer Cooperative Service, Questionnaire on Transportation by Farmer Cooperatives, single-time, Roye L. Lowry, 395–3772.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Policy Development and Research, Survey Questionnaires for HUD Residential Solar Heating and Cooling Demonstration Program, other (see SF–83), HUD demonstration participants, community and veterans affairs, Milo Sunderhauff, 395–3532.

DEPARTMENT OF LABOR

International Labor Affairs, Questionnaire for Producers of Hanging Planters, ILAB–79, single-time, producers of hanging planters, Laverne Collins, 395–5867.

DEPARTMENT OF TRANSPORTATION

Federal Highway Administration, Survey Questionnaire "Collection of a Disaggregate Travel Demand Dataset," single-time, sample of households in the Baltimore area, Arnold Strasser, 395–5867.

REVISIONS

VETERANS ADMINISTRATION

Financial Statement, 26–6807, on occasion, borrower, Warren Topelius, 395–5872.

Matured Endowment Notification, 29–5767, on occassion, insured veteran, Warren Topelius, 395–5872.

VA Report of Nursing Home Care, 10–1204–B, monthly, community nursing homes, Warren Topelius, 395–5872.

DEPARTMENT OF AGRICULTURE

Animal and Plant Health Inspection Service, Veterinarian's Report of Excused Horse, VS–19–4, on occasion, Doctors of Veterinary Medicine—Designated Horse Show Judges, Roye L. Lowry, 395–3772.

EXTENSIONS

ENERGY RESEARCH AND DEVELOPMENT ADMINISTRATION

Personal History Statement, personal background information, ERDA–324, 324A, on occasion, U.S. ERDA and contractor employees, Roye L. Lowry, 395–3772.

RAILROAD RETIREMENT BOARD

Employee Registration, CER–1, on occasion, railroad employers, Warren Topelius, 395–5872.

Application for Childs Insurance Annuity—Full-Time Student, AA–19S, on occasion, annuity applicant, Warren Topelius, 395–5872.

Employer's Supplemental Report of Service and Compensation, G–88E, on occasion, railroad employers, Warren Topelius, 395–5872.

Application for Child's Insurance Annuity, AA–19, on occasion, annuity applicant, Warren Topelius, 395–5872.

Annuitant's Report About Dependents, AA–1E, on occasion, Railroad Act annuitants, Warren Topelius, 395–5872.

DEPARTMENT OF DEFENSE

National Security Agency, COMSEC Material Report, SF153, other (see SF–83), Roye L. Lowry, 395–3772.

SMALL BUSINESS ADMINISTRATION

[License No. 09/14–0085]

BANCAL CAPITAL CORP. (NOW OCEANIC CAPITAL CORP.)

Approval of Application for Transfer of Control of a Licensed Small Business Investment Company

Pursuant to the provisions of § 107.701 of the Small Business Administration's (SBA) Rules and Regulations (13 CFR 107.701 (1976)), a Notice of filing of an Application for Transfer of Control of BanCal Capital Corporation (BanCal), 845 South Figueroa Street, Los Angeles, California 91342, was published in the FEDERAL REGISTER on May 26, 1976 (41 FR 21531). Two Directors whose names were listed in the Notice, Messrs. Eijiro Hoashi and Yoshiyasu Iwasa, will not serve as Directors.

Interested parties were invited to send their written comments to SBA on the proprosed transfer of control. No comments were received.

Upon consideration of the application and other relevant information, SBA hereby approves the transfer of control of BanCal Capital Corporation and simultaneously the name change to Oceanic Capital Corporation, effective August 16, 1976. In connection with the transfer of control, the office of the licensee will be moved to 300 Montgomery Street, Suite 908, San Francisco, California 94104.

(Catalog of Federal Domestic Assistance Program No. 59.011, Small Business Investment Companies.)

Dated: August 20, 1976.

GERALD L. FEIGEN,
Acting Deputy Associate Administrator for Investment.

[FR Doc.76–25336 Filed 8–27–76;8:45 am]

[License No. 09/12–0002]

CONTINENTAL CAPITAL CORP.

Filing of Application for Approval of Conflict of Interest Transaction Between Associates

Notice is hereby given that Continental Capital Corporation (CCC), 555 California Street, San Francisco, California 94104, a Federal licensee under the Small Business Investment Act of 1958, as amended (Act), has filed with the Small Business Administration (SBA) an application pursuant to § 107.1004 of the regulations governing small business investment companies (13 CFR 107.1004 (1976)), for approval of a conflict of interest transaction.

CCC will purchase 250,000 shares of convertible preferred stock of Baron Data Systems (Baron), 2230 Livingston Street, Oakland, California 94606, for $2.00 per share. Upon conversion of the preferred stock, CCC would own 31.25 percent of Baron. The transaction falls within the purview of § 107.1004(b)(1) of the regulations and requires prior written approval by SBA because Mr.

V 41 169 AUG 30 76 UMI

Charles G. Davis, Jr., is a director (resigned this position on July 16, 1976, but is considered an associate of CCC for six months after resignation) and stockholder of CCC and the president, a director, and a stockholder of Baron. Assuming consummation of the transaction described herein and conversion of the CCC preferred stock, Mr. Davis would initially own 38.8 percent of Baron's outstanding common stock.

Notice is hereby given that any person may, not later than 15 days from the date of this Notice, submit to SBA in writing, comments on the proposed transaction. Any such comments should be addressed to: Associate Administrator for Finance and Investment, Small Business Administration, 1441 L Street, NW., Washington, D.C. 20416.

A copy of this Notice shall be published in a newspaper of general circulation in San Francisco, California.

(Catalog of Federal Domestic Assistance Program No. 59.011, Small Business Investment Companies.)

Dated: August 19, 1976.

GERALD L. FEIGEN,
Acting Deputy Associate Administrator for Investment.

INTERSTATE COMMERCE COMMISSION

[Notice No. 132]

ASSIGNMENT OF HEARINGS

AUGUST 25, 1976.

Cases assigned for hearing, postponement, cancellation or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested.

AB 33 (Sub-No. 9), Union Pacific Railroad Company Abandonment Between Arnold and Stapleton, Nebraska In Custer and Logan Counties, Nebraska, now assigned November 1, 1976, at North Platte, Nebr. is postponed to December 6, 1976 (1 week), at North Platte, Nebr.; in a hearing room to be later designated.

MC-C-9025, Kane Transfer Company-v-Jacobs Transfer, Inc., now assigned October 5, 1976 at Washington, D.C., is postponed to October 19, 1976, at the Offices of the Interstate Commerce Commission, Washington, D.C.

MC 115730 Sub 14, The Mickow Corp., now being assigned November 30, 1976 (1 day), at Omaha, Nebr., in a hearing room to be later designated.

MC 114211 Sub 257, Warren Transport, Inc., now being assigned December 1, 1976 (3 days), at Omaha, Nebr., in a hearing room to be later designated.

MC 129387 (Sub-No. 22), Bill Payne, d/b/a Bill Payne Trucking Company, now being assigned November 30, 1976 (2 days) at San Francisco, California; in a hearing room to be later designated.

MC 138274 (Sub-No. 29), Shippers Best Express, Inc., now being assigned December 2, 1976 (2 days) at San Francisco, California; in a hearing room to be later designated.

MC 129032 (Sub-No. 19), Tom Inman Trucking, Inc., now being assigned December 6, 1976 (1 week) at San Francisco, California; in a hearing room to be later designated.

MC 138018 (Sub-No. 28), Refrigerated Foods, Inc., now being assigned December 13, 1976 (2 days) at Seattle, Washington; in a hearing room to be later designated.

MC 114730 (Sub-No. 4), V. Van Dyke, d/b/a Van Dyke Truck Lines, now being assigned December 15, 1976 (3 days) at Seattle, Washington; in a hearing room to be later designated.

H. GORDON HOMME, JR.,
Acting Secretary.

[Ex Parte No. 330]

INCREASED FREIGHT RATES—WEST AND INTERTERRITORIAL—1976

Authority To File Master Tariff

At a general session of the Interstate Commerce Commission, held at its office in Washington, D.C., on the 25th day of August, 1976.

It appearing, That by petition and verified statements filed August 20, 1976, the railroads listed in Appendix I of the petition and certain water and motor carriers having joint rates with the Appendix I railroads, request the Commission to institute an investigation into the adequacy of freight rates and charges of all railroad common carriers within the United States; to make all such railroad common carriers respondents therein; and to authorize and permit increases in freight rates and charges primarily within the West, and from, to, and within all territories of 5 percent, effective September 20, 1976, to offset labor cost increases and increases in the cost of materials, supplies, and certain other items, subject to exceptions and holddowns set forth in Appendix II of the petition;

It further appearing, That petitioners seek permission to make the proposed increases effective September 20, 1976, subject to the condition that refunds shall be made in the event that, after such investigation as the Commission deems necessary, no increase or a lesser increase than that requested in the present petition is authorized, and they seek entry of an order modifying all outstanding Commission orders to the extent necessary to enable the railroads to file and make effective the proposed increased rates and charges, and the entry of appropriate orders under Sections 4 and 6 of the Interstate Commerce Act;

It further appearing, That petitioners have filed and served 22 verified statements constituting their evidential case pursuant to the requirements set forth in Procedures Governing Rail Carrier General Increase Proceedings, 49 CFR 1102, including certain financial data suggested in Appendix B of the report and order in Ex Parte No. 281, Increased Freight Rates and Charges, 1972, 341 I.C.C. 288;

It further appearing, That petitioners have submitted data of the type called for in Ex Parte No. 290 (Sub-No. 1), Procedures—Rail Car General Increase Proceedings, 349 I.C.C. 22, namely detailed information on estimated revenues which would have been obtained had the last authorized increase been fully applied, and the actual total increase in revenues realized by application of the last authorized general increase;

It further appearing, That petitioners have given notice of the petition and have furnished data to the public in compliance with Ex Parte No. 286, Notice of Increases in Frt. Rates and Pass. Fares, 349 I.C.C. 741;

It further appearing, That petitioners contend that the requested increases will have no significant adverse effects upon the movement of the traffic or transportation of recyclable commodities by rail;

It further appearing, That petitioners have submitted information of the type called for in Ex Parte No. 55 (Sub-No. 4), Revised Guidelines for the Implementation of the National Environmental Policy Act of 1969, 352 I.C.C. 451, and 49 CFR 1108, namely a supplemental evaluation of environmental considerations vis-a-vis petitioners' proposal herein;

It further appearing, That any person or persons believing that the requested increases, if allowed to become effective, would have a significant impact upon the quality of the human environment are hereby invited to comment upon this matter in the protests or verified statements authorized to be filed pursuant to this order, and that environmental matters and requirements of the National Environmental Policy Act of 1969 will be fully considered by the Commission in any subsequent action on the merits of the requested general increases;

And it further appearing, That by Special Permission Order No. 77-600 served herewith, the Commission is authorizing the filing of tariff schedules increasing rates and charges sought in the petition, to become effective upon not less than 30 days' notice to the Commission and the general public, subject to protest and possible suspension as provided by the Interstate Commerce Act, and modifying outstanding orders to the extent necessary to permit that filing, and good cause appearing therefor;

It is ordered, That all common carriers by railroad be, and they are hereby, made respondents to this proceeding.

It is further ordered, That pursuant to the special permission authority granted this date, the schedules shall be published and filed upon not less than 30 days' notice effective not earlier than September 27 nor later than November 1,

1976,[1] subject to protest and possible suspension by the Commission, said schedules to contain an appropriate refund provision. Protests and/or verified statements shall be filed on or before September 14, 1976, in accordance with procedures hereinafter set forth;

It is further ordered, That any person opposing or wishing to comment on the proposed 5 percent increase in rates and charges shall file and serve verified statements, complaints, and protests,[2] as provided below, on or before September 14, 1976.

(a) The verified statements shall contain all evidence relevant and material to the issues in this proceeding which the parties desire to have considered by the Commission and will be considered as submitted in evidence along with the verified statements of the respondents, as a basis for a decision by the Commission on the merits. Any submission on asserted environmental impact shall be set forth under an appropriate subheading in order to identify properly such subject matter.

(b) Verified statements may include arguments in support of an affiant's position but such argument shall be set forth in a separate section of the document containing the verified statement. If desired, such argument may be contained in a separate document simultaneously filed and served. Request for oral argument, if any, will be disposed of by further order of the Commission.

(c) Each verified statement shall be signed in ink by affiant and verified (notarized) in the manner provided by Rule 50 and Form No. 6 of the Commission's General Rules of Practice (See 49 CFR 1100.50 and Appendix B, Form No. 6, to 49 CFR 1100). The post office address of affiant or his counsel shall be shown.

(d) Verified statements and arguments shall be filed and served as follows:

The original and 24 copies of each such document for the use of the Commission shall be sent to the Secretary, Interstate Commerce Commission, Washington, D.C. 20423, except that a lesser number of copies may be filed upon showing of good cause.

One copy shall be served upon the representative of the petitioning railroads, Harry L. DeLung, Jr., Esq., 527 American Railroads Building, 1920 "L" Street, N.W., Washington, D.C. 20036, which service shall constitute service upon all respondents. However, all parties able to do so shall serve 25 copies upon the railroads' representative.

In all cases, where service is made by mail, the document shall be mailed in time to be received by the respective due dates.

(e) Each verified statement shall contain a certificate of service stating that it has been timely served on opposing parties, as herein provided, and verified statements not so served will not be considered.

(f) Verified statements and arguments by persons opposed to the proposed increases in rates and charges shall include all matters which they desire the Commission to consider with respect to statutory suspension of the rates pending completion of the investigation, as well as evidence relevant to the ultimate decision.

It is further ordered, That on or before September 20, 1976, the respondents shall file with the Commission and serve upon opposing parties such replies to protests or other pleadings seeking suspension, and rebuttal evidence on the merits of the proceeding as they desire to present. Such evidence shall be in the form and served in the same manner as the opening statements filed in accordance with the regulation published in 49 CFR 1102, except that replies and rebuttal evidence need be served only upon the party (and his counsel if known) to whose evidence the reply or rebuttal is directed. Such statements shall, however, be furnished to other interested parties upon request.

It is further ordered, That the request for fourth-section relief will be considered following the filing of protests and statements in opposition and replies thereto;

And it is further ordered, That in all other respects the petition be, and it is hereby, denied.

SPECIAL PERMISSION No. 77-600

It is ordered, for good cause shown:

1. All railroads, and water and motor carriers to the extent they have joint rates with the railroads, and their tariff-publishing agents, be, and they are hereby, except as otherwise provided herein, authorized to depart from the Commission's tariff publishing rules in Tariff Circular No. 20 (49 CFR 1300), when publishing and filing tariffs, and tariff amendments, to become effective upon not less than 30 days' notice to the Commission and the public but not earlier than September 27, 1976, nor later than November 1, 1976, providing for increased rates and charges as set forth in the petition:

(a) By publishing and filing a master tariff of increased rates and charges, and supplements thereto, providing increases by means of conversion tables of rates and charges, which shall include, and maintain in effect, a refund provision reading as follows:

In the event any increases resulting from the application of this tariff exceed the increases subsequently approved or prescribed by the Interstate Commerce Commission, the carriers will refund the difference between the increase resulting from the application thereof and any increases which may subsequently be approved or prescribed by the Interstate Commerce Commission with ____ percent interest.[3]

In the event any increase resulting from the application of this tariff is disapproved by the Commission and no increase is authorized, the carriers will refund the full amount of the increase collected with ____ percent increase.[3]

The master tariff shall be indicated to expire on interstate and foreign commerce with a date not beyond one year after the effective date, which may not be extended or cancelled except upon specific authorization of this Commission, and all relief herein expires with that date. The master tariff must initially contain all provisions for application of the increases (including provisions for no increase, part of the overall proposal) following which (unless suspended) any provisions other than those of a general character may be cancelled and transferred to the particular tariff affected upon a common effective date with appropriate notation to that effect in the master tariff amendment.

(b) By publication and filing of a connecting link suplement to each tariff to be made subject to the master tariff, connecting such tariffs with the master. Such supplements may be blanket supplements (a common supplement issued to two or more tariffs), provided each copy officialy filed is hand marked in the appropriate places as to the supplement number and the I.C.C. number of the tariff it supplements.

(c) The master tariff and connecting link supplements issued and filed hereunder shall not provide for nonapplication on interstate traffic competitive with intrastate traffic between the same points unless the interstate rates and routes are specifically identified in the connecting link supplements.

(d) The provisions of connecting link supplements that apply in connection with the master tariff authorized may be brought forward, upon statutory notice, as numbered items, replacing the maintenance of separate connecting link supplements, subject to the restriction in (c) above.

(e) By publication and filing of tariffs or amendments to tariffs effective concurrently with the master tariffs and upon the same notice which provide specifically increased rates and charges but which do not result in an increase in charges for transportation and other services greater than those specified in the petition, provided all such publication is identified in the tariffs and made subject to a refund clause worded substantially as in paragraph 1(a) herein.

[1] In the event the tariff is not filed prior to August 29, 1976, the due date specified for filing of protests and verified statements will be extended to a date 13 days prior to the effective date. Replies will be due 6 days thereafter.

[2] Section 202 of the Railroad Revitalization and Regulatory Reform Act of 1976 specifically requires the filing of verified complaints seeking suspension of proposed rate changes.

[3] The interest rate in the refund provision shall be equal to the average yield (on the date such schedule is filed) of marketable securities of the United States which have a duration of 90 days. See Section 202 of the Railroad Revitalization and Regulatory Reform Act of 1976.

V 41 169
AUG 30 76
UMI

(f) By publication of provisions in tariffs or amendments thereto subjecting rates and charges therein to the provisions of the master tariff, subject to the restriction in (c) above.

2. (a) The master tariff, as amended and all other tariffs and amendments to tariffs, that employ the short-form methods authorized herein shall bear the notation:

Form of publication authorized, I.C.C. permission No. 77–600.

(b) Tariffs or amendments to tariffs publishing specifically increased rates or charges hereunder shall bear a notation reading:

Publication made in accordance with I.C.C. permission No. 77–600.

3. Connecting-link supplements authorized herein shall be exempted from the Commission's tariff-publishing rules governing the number of supplements and the volume of supplemental matter permissible.

4. The master tariff filed hereunder shall not be amended except to correct errors and to comply with findings and orders of the Commission, except when specifically authorized to do so. The terms of rule 9(e) (49 CFR 1300.9(e)) are not waived as to supplements to the master tariff.

5. Outstanding orders of the Commission are hereby modified only to the extent necessary to permit the filing of tariff publications containing the proposed increases, and all tariff publications filed shall be subject to protest and possible suspension and rejection. In that regard, we direct petitioners' attention to our admonitions in prior general increase proceedings concerning maintenance and preservation of existing port relationships. See, for example, Increased Freight Rates and Charges, 1972, 341 I.C.C. 288, 336, and Increased Freight Rates, 1970 and 1971, 339 I.C.C. 125, 188. The rate increase table on grain shall progress in one-half cent increments.

It is further ordered, That future orders and notices of the Commission in this proceeding will be sent only to those participating as herein provided, and those interested persons who specifically request to be included on the service list.

And it is further ordered, That notice of this order be given by serving a copy thereof on each party to the proceeding in Ex Parte No. 318, to the Governor and public utilitiy regulatory body of each State, the Environmental Protection Agency, the Special Assitant to the President for Consumer Affairs, and by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing a copy with the Director, Office of the Federal Register for publication in the FEDERAL REGISTER.

By the Commission (Commissioners Murphy, Hardin, and O'Neal did not participate).

H. GORDON HOMME, JR.,
Acting Secretary.

[Notice No. 111]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

AUGUST 25, 1976.

The following are notices of filing of applications for temporary authority under Section 210(a) of the Interstate Commerce Act provided for under the provisions of 49 CFR 1131.3. These rules provide that an original and six (6) copies of protests to an application may be filed with the field official named in the FEDERAL REGISTER publication no later than the 15th calendar day after the date the notice of the filing of the application is published in the FEDERAL REGISTER. One copy of the protest must be served on the applicant, or its authorized representative, if any, and the protestant must certify that such service has been made. The protest must identify the operating authority upon which it is predicated, specifying the "MC" docket and "Sub" number and quoting the particular portion of authority upon which it relies. Also, the protestant shall specify the service it can and will provide and the amount and type of equipment it will make available for use in connection with the service contemplated by the TA application. The weight accorded a protest shall be governed by the completeness and pertinence of the protestant's information.

Except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in the ICC Field Office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 2368 (Sub-No. 57TA), filed August 18, 1976. Applicant: BRALLEY-WILLETT TANK LINES, INC., 2212 Deepwater Terminal Road, P.O. Box 495, Richmond, Va. 23204. Applicant's representative: William T. Marshburn (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Animal oils, animal oil products, by-products and blends*, in bulk, in tank vehicles, between Portsmouth, Va., on the one hand, and, on the other, points in Delaware, Georgia, Maryland, New Jersey, New York, North Carolina, Pennsylvania, South Carolina, Virginia, West Virginia and the District of Columbia, for 180 days. Supporting shipper: Crowder M. Epps, Traffic Manager, Murro Chemical Co., Inc., 910 Benjamin Fox Pavilion, Jenkintown, Pa. 19046. Send protests to: Paul D. Collins, District Supervisor, Bureau of Operations, Room 10–502 Federal Bldg., 400 North 8th St., Richmond, Va. 23240.

No. MC 16903 (Sub-No. 43TA), filed August 16, 1976. Applicant: MOON FREIGHT LINES, INC., 120 W. Grimes, P.O. Box 1275, Bloomington, Ind. 47401. Applicant's representative: Donald W. Smith, Suite 2465—One Indiana Square, Indianapolis, Ind. 46204. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Wood chips*, from the sawmill facilities of Empire Wocd Company, in Martin and Monroe Counties, Ind., to Hawesville, Ky., for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Empire Wood Company, R. R. 1, Williams, Ind. Send protests to: Fran Sterling, Interstate Commerce Commission, Federal Bldg., & U.S. Courthouse, Room 429, 46 East Ohio St., Indianapolis, Ind. 46204.

No. MC 30887 (Sub-No. 226TA), filed August 18, 1976. Applicant: SHIPLEY TRANSFER, INC., 1550 E. Patapsco Ave., P.O. Box 3483, Baltimore, Md. 21225. Applicant's representative: William B. Eckels (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid natural latex*, in bulk, in tank vehicles, from Baltimore, Md., to Kingstree, S.C., for 180 days. Supporting shipper: C. C. Harless, Manager, Traffic Service, The Goodyear Tire & Rubber Company, 1144 E. Market St., Akron, Ohio 44316. Send protests to: William L. Hughes, District Supervisor, Interstate Commerce Commission, 814–B Federal Bldg., Baltimore, Md. 21201.

No. MC 71902 (Sub-No. 84TA), filed August 18, 1976. Applicant: UNITED TRANSPORTS, INC., 4900 N. Santa Fe, P.O. Box 18547, Oklahoma City, Okla. 73118. Applicant's representative: John R. Sims, Jr., 915 Penn Bldg., 425–13th St., N.W., Washington, D.C. 20004. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *New motor vehicles*, in initial movements, in truckaway service, from the plantsite or facilities of the Chrysler Corporation, at or near Belvidere, Ill., to points in Kansas and Kansas City, Mo., Commercial Zone, for 180 days. Supporting shipper: Chrsyler Corporation, P.O. Box 1976, Detroit, Mich. 48231. Send protests to: Joe Green, District Supervisor, Room 240 Old Post Office Bldg., 215 Northwest Third St., Oklahoma City, Okla. 73102.

No. MC 83539 (Sub-No. 437TA), filed August 18, 1976. Applicant: C & H TRANSPORTATION CO., INC., 1936–2010 West Commerce St., P.O. Box 5976, Dallas, Tex. 75222. Applicant's representative: Thomas E. James (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lumber, lumber products, wood products and millwork*, from the plantsite and facilities of Willamette Industries, Inc., and Brooks-Willamette Corp., at Sweet Home, Foster, Lebanon, Griggs, Springfield, Albany, Millersburg, Dallas, Wilsonville, Redmond and Bend, Oreg., to points in North Dakota, South Dakota, Minnesota, Nebraska, Michigan, Illinois, Indiana and Iowa, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Willamette Industries, Inc., P.O. Box 907, Albany, Oreg. 97321. Send protests to: Opal M. Jones, Transportation Assistant, Interstate Commerce Commission, 1100 Commerce St., Room 13C12, Dallas, Tex. 75242.

No. MC 98000 (Sub-No. 2TA), filed August 18, 1976. Applicant: HUNTER'S DELIVERY, INC., 500 Michigan Ave., Buffalo, N.Y. 14203. Applicant's representative: Robert D. Gunderman, Suite 710, Statler Hilton, Buffalo, N.Y. 14202. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities*, limited to individual articles not exceeding 100 lbs. in weight, moving as shipments not exceeding 500 lbs. in weight from one consignor to one consignee in a single day, on bills of lading of surface, interstate freight forwarders, between points in (1) Niagara Erie, Chautauqua, Orleans, Genesee, Wyoming, Cattaraugus, Monroe, Livingston, Alleghany, Wayne, Ontario, Steuben, Cayuga, Seneca, Yates, Schuyler, Chemung, Oswego, Onodaga, Cortland, Tompkins, Tioga and Broome Counties, N.Y.; (2) Erie, Crawford, Mercer and Venango Counties, Pa.; and (3) Geauga, Ashtabula, Trumbull, Portage, Mahoning, Cuyhoga and Lake Counties, Ohio, for 180 days. Supporting shipper: American Delivery Systems, Inc., 300 E. Seven Mile Road, Detroit, Mich. 48203. Send protests to: George M. Parker, District Supervisor, 910 Federal Office Bldg., 111 West Huron St., Buffalo, N.Y. 14202.

No. MC 106674 (Sub-No. 205TA), filed August 16, 1976. Applicant: SCHILLI MOTOR LINES, INC., P.O. Box 123, Remington, Ind. 47977. Applicant's representative: Jerry L. Johnson (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Standard wheat Middlings*, from Indianapolis, Ind., to points in Kentucky, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Acme-Evans Company, Division of General Grain, Inc., 902 West Washington Ave., Indianapolis, Ind. 46204. Send protests to: J. H. Gray, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 345 West Wayne St., Room 204, Fort Wayne, Ind. 46802.

No. MC 107515 (Sub-No. 1020TA), filed August 18, 1976. Applicant: REFRIGERATED TRANSPORT CO., INC., P.O. Box 308, 3901 Jonesboro Road, S.E., Forest Park, Ga. 30050. Applicant's representative: Alan E. Serby, 3379 Peachtree Road, N.E., Suite 375, Atlanta, Ga. 30326. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs*, in vehicles equipped with mechanical refrigeration (except commodities in bulk, in tank vehicles), from the plantsite and/or warehouse facilities of Kraftco Corporation, at Champaign, Ill., to points in Maine, New Hampshire, Vermont, New York, Massachusetts, Rhode Island, Connecticut, Pennsylvania, New Jersey, Delaware, Virginia, Maryland, and the District of Columbia, restricted to the transportation of traffic originating at the named origin points and destined to the named destination points, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Kraftco Corp., 500 Peshtigo Ct., Chicago, Ill. 60609. Send protests to: Sara K. Davis, Transportation Assistant, Bureau of Operations, Interstate Commerce Commission, 1252 W. Peachtree St., N.W., Room 546, Atlanta, Ga. 30309.

No. MC 109821 (Sub-No. 48TA), filed August 19, 1976. Applicant: H. W. TAYNTON COMPANY, INC., 40 Main St., Wellsboro, Pa. 16901. Applicant's representative: Dewey Whiteford (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Steel cans and tin cans and parts thereof*, from the facilities of the Borden Co., in Lyons, N.Y., to Allentown, Pa., for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Borden, Inc., Can Operations, Borden Foods Division, Lyons, N.Y. 14489. Send protests to: Paul J. Kenworthy, District Supervisor, Interstate Commerce Commission, 314 U.S. Post Office Bldg., Scranton, Pa. 18503.

No. MC 113666 (Sub-No. 108TA), filed August 18, 1976. Applicant: FREEPORT TRANSPORT, INC., 1200 Butler Road, Freeport, Pa. 16229. Applicant's representative: William H. Shawn, 1730 M St., NW., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dry acrylic resin*, from ports of entry on the International Boundary line between the United States and Canada, located in New York and Michigan, to Buffalo, N.Y.; Sheffield, Mass.; Anderson, Ind.; Perkasie, Pa.; Edison and Linden, N.J.; Chicago and Franklin Park, Ill.; Saline, Mich.; Addison, Tex.; and Sandusky, Columbus and Xenia, Ohio, for 180 days. Supporting shipper: CY/RO Industries, a partnership of Cyanamid Plastics and Rohacryl, Inc., Berdan Ave., Wayne, N.J. 70470. Send protests to: John J. England, District Supervisor, Interstate Commerce Commission, 211 Federal Bldg., 1000 Liberty Ave., Pittsburgh, Pa. 15222.

No. MC 117119 (Sub-No. 592TA), filed August 17, 1976. Applicant: WILLIS SHAW FROZEN EXPRESS, INC., P.O. Box 188, Elm Springs, Ark. 72728. Applicant's representative: L. M. McLean (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fruit juice and fruit drinks*, chilled, not frozen, in paper inner cartons, in vehicles equipped with mechanical refrigeration (except commodities in bulk), from Anaheim, Calif., to points in Oregon and Washington, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: The Coca-Cola Company, Foods Division, P.O. Box 2079, Houston, Tex. 77001. Send protests to: William H. Land, Jr., District Supervisor, 3108 Federal Office Bldg., 700 West Capitol, Little Rock, Ark. 72201.

No. MC 119118 (Sub-No. 52TA), filed August 16, 1976. Applicant: McCURDY TRUCKING, INC., P.O. Box 388, R.D. No. 4, Latrobe, Pa. 15650. Applicant's representative: Lawrence C. Maston (same address as applicant). Office of Human Development

DEVELOPMENTAL DISABILITIES PROGRAM

Proposed Policies and Procedures Regarding Grants to States, Nonprofit Agencies, Organizations, Colleges and Universities

V 41 169 AUG 30 76 UMI

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Office of Human Development

[45 CFR Parts 1385, 1386, 1387]

DEVELOPMENTAL DISABILITIES PROGRAM

Proposed Policies and Procedures Regarding Grants to States, Nonprofit Agencies, Organizations, Colleges and Universities

Notice is hereby given that the regulations set forth in tentative form below are proposed by the Assistant Secretary for Human Development with the approval of the Secretary of Health, Education, and Welfare.

The purpose of the proposed regulations is to implement provisions of the Developmental Disabilities Services and Facilities Construction Act of 1970 (Pub. L. 91-517), as amended by the Developmentally Disabled Assistance and Bill of Rights Act of 1975 (Pub. L. 94-103), hereafter referred to as "the Act." The program is administered by the Developmental Disabilities Office, Office of Human Development.

The new Act is designed to assist States to develop a comprehensive plan which will bring together all available resources so that the developmentally disabled may be served in the most effective, efficient way. The new Act does not provide for separate funds to meet all the needs of the target population; rather it establishes the means for accessing the systems already in use for the general population and encourages special adaptations of these generic services. Funds are to be used to fill gaps in existing generic services and to expand the reach of existing services to new groups of individuals.

Other provisions include establishment of the State planning council as the means for accessing and coordinating generic services, for identifying gaps in services, and for planning ways of filling the gaps. State planning council requirements include supervision of the development of the State plan; approval, mointoring, and evaluation of the implementation of the plan; review, to the extent possible, of all plans in the State which relate to programs affecting persons with development disabilities; and submission of regular reports on its activities. The State planning council is required to serve as an advocate for persons with developmental disabilities. The Act calls for the State plan to designate one or more State agencies to administer the State plan.

The Act adds a new program of special projects and a new formula grant program for the protection and advocacy of *individual* rights of the developmentally disabled. Other changes brought about by the new Act include a broadened definition of developmental disabilities; increased emphasis on deinstitutionalization of the developmentally disabled by alternative community placement, where possible, and improvement of institutional services; establishment of a State data base and ongoing evaluation activities; increase in the program focus on urban and rural areas of poverty; and establishment and protection of the rights of persons with developmental disabilities (section 113 of the Act), including implementation of individualized habilitation plans and advocacy of individual rights.

Regulations for the new programs and concepts are herewith included. These regulations have been divided into separate Parts to make clear to the general public which specific regulations apply to the different programs administered by the Developmental Disabilities Office, and include a general part to make it easier for the public to locate those regulatory provisions which apply to all or almost all of the different program areas.

The principal purpose of these regulations is to ensure the continued targeting of funds and resources to developmentally disabled individuals through a national, State, and local partnership. To this end, the goal of the program is to enable States to increase the provision of quality services to persons with developmental disabilities through the designs and implementation of a comprehensive and continuing State plan which makes optimal use of Federal, State, local, and private resources, and assures the rights and dignity of all those being served.

A second, but not secondary, purpose is to specify the rights of the developmentally disabled: That developmentally disabled persons have the right to appropriate treatment, services, and habilitation; that programs should be designed to maximize the developmental potential of the person; and that the Federal Government and the States have an obligation to assure that public funds are not provided in programs which do not deliver appropriate treatment, services, and habilitation or do not meet appropriate minimum standards as specified in the Act.

Certain sections of the Act are not included in these proposed regulations. These parts of the Act direct the Secretary to carry out certain activities which are general and administrative in character and do not directly or immediately affect grantees. Accordingly, regulations are not developed for the amendments which revise the components and functions of the National Advisory Council on Services and Facilities for the Developmentally Disabled, hereafter referred to as the National Advisory Council; the conduct of special studies required by the Act, which will be guided by the general policies and procedures governing such activities, modified, as necessary, by the specific requirements of the law; and the administrative aspects of the special projects authority for projects of national significance. Additional information will be published in the FEDERAL REGISTER from time to time as necessary.

It should be noted that the regulations for formula grants to States and grants to university affiliated facilities are removed from Chapter IV of Title 45 of the Code of Federal Regulations and are relocated in Chapter XIII, which covers all programs administered by the Office of Human Development within the Department of Health, Education, and Welfare.

PART 1385—GENERAL

The purpose of this general part of the regulations is to bring together in one place those provisions which are applicable to the other parts of the regulations. The basis for this is the Department's belief that this will make it easier for members of the public to locate such provisions, and that it will avoid unnecessary duplication which would occur if each of the provisions of general applicability had to be repeated in the other parts of the proposed regulations.

This part sets forth the policies and procedures which apply to all of the subsequent parts, such as definition of terms, grant procedures, and other administrative concerns. Part 1385 essentially follows standard Federal policies and procedures, except where specific differences, such as assurances regarding an evaluation system, are required by the Act.

Section 1385.1 of these regulations is aimed at stating the Department's view of the purposes of the Act and is based on the Department's belief that such an expression clearly sets the ground rules and the context for the rest of the regulations.

Section 1385.2 contains definitions of terms applicable to all of the other parts of the regulations.

Section 1385.3 incorporates the provisions of 45 CFR Part 74 and is based upon the Department's belief that it is advantageous to all concerned to follow uniform administrative requirements and cost principles to avoid or minimize mistakes and misinterpretations of administrative provisions since States are generally familiar with Part 74 requirements.

Sections 1385.4, 1385.5 and 1385.6 incorporate into the regulations provisions contained in the statute itself. The Department believes that these provisions (judicial review, State control of operations, and employment of handicapped individuals) are mandatory and that it is helpful, from the standpoint of clarity, to restate these requirements in the regulations.

Sections 1385.7, 1385.8, 1385.9, and 1385.10 also incorporate provisions contained in the statute. The purpose of restating these requirements (recovery, good cause for other use of facility, cooperative or joint effort between States and agencies, and awards) is to avoid any possibility of oversight by the public about these requirements. The basis of these regulations is the belief that they will help alert public and private agencies and members of the public to the existence of these requirements.

Lastly, § 1385.11, concerning assurances regarding evaluation systems, is also for the purpose of incorporating in the regulations an express, statutory provision. The Department believes it is advisable to make clear that compliance with the requirement for the development of an evaluation system is a condition for the receipt of Federal financial assistance under the other parts of the regulations. The purpose of this regulation is to make that point absolutely clear. The Department believes that any condition of Federal financial participation or assistance should be expressly stated in regulations.

PART 1386—FORMULA GRANT PROGRAMS

The purpose of this part of the proposed regulations is to govern the conduct of the Formula Grant Programs and to take cognizance of and implement the changes brought about by the 1975 amendments. Part 1386 is divided into four basic Subparts as described below.

The general provisions of Subpart A, pertaining to State plans, consist of §§ 1386.1 through 1386.4. These regulations are designed to implement the requirements of section 133 of the Act pertaining to State plans, and to define further what that provision requires. The Department believes that these regulations give the greatest assurance that States will, in fact, submit approvable State plans prior to the beginning of the fiscal year, and that the Department will have adequate time to review such submissions properly.

In addition, the Department believes it necessary to make it clear to all States that submission of a State plan at the beginning of a fiscal year is a requirement for Federal financial participation, and that failure actually to submit such a plan will result in the loss of Federal funds for that period of time during which there is no approved State plan in effect.

It is the Department's belief that it is the intention of Congress that the State plan be a viable management tool that reflects the State planning process and the rationale through which expressed needs, priorities, and resource allocations are determined so as to provide the basis for the expenditure of funds under the program. Performance standards, to be issued by the Secretary, will provide criteria for evaluation and approval of the State plan. They may also be used as a tool by the State planning council to develop the State plan.

The Department further believes that Congress has intended that money be paid to States only pursuant to an approved State plan. In the past, some States have failed to submit their plans in a timely manner and this has resulted in a decreased ability on the part of the Department to assure that funds are, in fact, properly paid and properly utilized. Thus, § 1386.2 requires States to submit proposed plans 60 days prior to the fiscal year to which the plan applies. This time period was selected because of the Department's experience that such a time period would be reasonable to allow for review of proposed State plans.

Furthermore, to ensure that States comply with these requirements, this regulation is designed to make it clear that no Federal financial participation will be provided to a State for any period of time during a fiscal year in which an approved State plan is not in effect. The purpose of this regulation is to encourage States to do advance planning, and it is based on the Department's belief that such an approach is necessary to ensure compliance with the statutory requirement for an annual State plan. This position represents a departure from past practice and is believed necessary because several States have, in the past, failed to submit approvable plans until a significant portion of the fiscal year had elapsed.

This subpart also effectuates the amendments to the basic formula grant program which had been in operation for five years and details the requirements which a State must meet in its State plan to participate in the program. These proposed regulations are based on the Department's belief that they best implement key Congressional policies associated with the formula grant programs.

For example, based upon the legislative history, the Department believes that Congress wished to highlight the crucial advocacy role and strengthen the supervisory, planning, and monitoring functions of the State planning councils to meet increased responsibilities effectuated by the 1975 amendments, leaving the actual day-to-day administration of the programs to the designated State agencies. The Department also believes that the regulations in Subpart A accomplish that goal.

The next section under Subpart A is concerned with allotments, Federal share, and payments of Federal money to the States. These provisions, which encompass §§ 1386.10 through 1386.17, essentially are designed to implement various statutory provisions and do not constitute any major innovations brought about by the statute or by interpretations of the statutory provisions. However, particular attention is directed to proposed § 1386.10(b) which defines the need factor referred to in section 132(a) of the Act. The Act itself refers to allotments being made to States on the basis of the population, the extent of need for services and facilities for persons with developmental disabilities, and the financial needs of the respective States. The statute, however, does not define what is meant by "need" and the purpose of this regulation is to do so. It is based upon the advice of the National Advisory Council and represents what the Department believes to be the best approach available at this time based upon information and comments currently before the Agency.

For the first year of the program, the measure of need adopted was the incidence of developmental disability as reflected by the proportion of the population in the State under age 18. This age was substituted for the age 21 factor used in the former mental retardation program formula, because it corresponds to the age criterion in the definition of developmental disabilities in the Act. The data for measuring need utilized after the first year came from the Social Security Disability Applicant Statistics published by the Social Security Administration and updated periodically. The actual data selected are the number of beneficiaries in the State under the Adult Disabled Child Program as an index of relative need of the State for services and facilities for the developmentally disabled. It is the Department's belief that these data are the best that are available. Suggesions for alternative need data, or for definition of need to determine the extent of need for services and facilties for persons with developmental disabilities for State allocation purposes, are solicited during the comment period.

Further attention is directed to proposed § 1386.14 which relates to nonduplication of funds and which implements section 136 of the Act. This provision differs from preceding provisions due to a change in the law which no longer permits the use of Federal funds for matching even though other Federal legislation allows it:

> In determining the amount of any State's Federal share of the expenditures incurred by it under a State plan approved under section 133, there shall be disregarded (1) any portion under any provision of law other than section 132, and (2) the amount of any non-Federal funds required to be expended as a condition of receipt of such Federal funds.

This will bring about a change in past Department practice, and funds which had been used in the past for matching will, in some cases, no longer be able to be used in such a manner. An example would be funds provided under the Appalachian Regional Development Act. All questions arising under this regulation will, absent an express reference to this Act in subsequent Federal legislation, be referred to the Department's Office of General Counsel for opinion and/or interpretation.

It should be noted that § 1386.17(a), "Standards for services for persons with developmental disabilities," will be published in the FEDERAL REGISTER upon completion of a special study mandated by the Act.

The next subdivision of Subpart A relates to "State Plan Requirements—Methods of Administration," and includes §§ 1386.20 through 1386.31. These regulations are based on the Department's belief that carrying out the purposes of the Act in this area is best accomplished by incorporating in the regulations the requirements and provisions of the Act, clarifying exactly what the Act requires, and, in the case of § 1386.24, specifying the reports which the Secretary deems necessary in this area for purposes of assuring proper operation of the State plan.

The regulations pertaining to personnel administration, special assistance to poverty areas. use of volunteers, protection of employees' interests, etc., are based strictly on the statute and upon the Department's belief that these essentially straightforward provisions allow the greatest flexibility in carrying out technical matters.

V 41 169 AUG 30 76 UMI

The purpose of § 1386.23 is to restate the statutory requirement that the State plan provide that special financial and technical assistance be given to areas of urban or rural poverty in providing services and facilities for persons with developmental disabilities who are residents of such areas. The Joint Conference Report No. 94–473 (page 28) notes that Congressional intent is that these regulations define the poverty areas in the manner required by the National Health Planning and Resources Development Act (Pub. L. 93–641.) Regulations implementing this latter Act have not yet been issued by the Department, and under that Act, until the areas can be determined for the entire country, it cannot be determined on a State-by-State basis. Accordingly, in the interim, until regulations are issued for Pub. L. 93–641, the Department in only requiring that State plans provide for this special financial and technical assistance to areas of urban or rural poverty.

This provides States the maximum flexibility possible until such time as Pub. L. 93–641 regulations are issued. When they are issued, such changes as may be necessary to these regulations will be announced through standard FEDERAL REGISTER procedures. It was deemed advisable not to attempt to spell out in § 1386.24 all of the reports that the Department would or might require, but rather to leave such additional detail to subsequent instructions from the Department.

Sections 1386.28 through 1386.31 incorporate substantive aspects required in the statute for a State plan: Membership of the State planning council, identification of State council staff, review of all other State plans, and systematic review of the State plan. The purpose of these regulations is to emphasize that State planning councils, the core planning authority in the State essential to the maximum effective utilization of available existing and potential resources, can best function when adequately staffed and in an environment of coordination and mutual cooperation with all State agencies concerned with planning or implementation processes related to the program. The basis for these regulations is the Department's belief that the Act is designed so that the State planning council can have the capacity for getting cross-agency cooperation in carrying out its duties.

The Department further believes that this requires that the State planning council and State agency(ies) complement each other's functions through effective working relationships. These regulations restate the statutory requirements to make it clear that planning council members and staff are required to review their own and other State plans, and that such analysis, as a component of a systematic planning process, contributes information on needs, actual and potential resources, and to the development of short-term objectives to meet long-term goals. It also contributes to the development of council insight into the best methods to effect cross-agency coordination to develop a reliable system of services for the developmentally disabled persons in the State.

The next major area of concern relates to the provision of services and construction of facilities and consists of the proposed regulations found in §§ 1386.40 through 1386.49. The purpose of this subdivision of Subpart A is to insure that, through the description of clearly defined long-range goals and measurable short-term objectives, with primary consideration given to implementing the goals of the Act (deinstitutionalization of the developmentally disabled, early identification of those needing assistance, and provision of protective services, advocacy, and follow-along services) allocations of funds can be based on State priorities. At the heart of these provisions are the regulations at §§ 1386.42 through 1386.45.

The Department believes that detailed requirements are advisable in § 1386.46, dealing with the quality, extent, and scope of services, based upon the assumption that knowledge of such requirements will compel careful consideration of the types of services and assistance being provided to the developmentally disabled.

Similar reasoning relates to § 1386.47, dealing with habilitation plans which are required by the statute. In order to eliminate or reduce the possibility of confusion as to what is meant by a habilitation plan, it was deemed advisable to incorporate the statutory details in the regulations in order to give the greatest guidance with respect to this requirement.

Section 1386.48, dealing with the program for construction of facilities, is designed to set forth the purposes for which such construction programs are proper, and to require assessment of relative need and assignment of priority in order of relative need. It is the Department's belief that such a requirement will help to ensure planning for the best use of limited funds.

The last regulation in this group is § 1386.49 which, consistent with the statute, requires States to afford opportunities for appeal and hearing to applicants for construction projects who are dissatisfied with any action of the State with respect to an application for such a project.

The last subdivision of this subpart, § 1386.50, deals with the design for the implementation of the State plan. This provision is based on section 133(b)(25) of the Act. The purpose of the regulation is to set forth the Department's view as to what must be included in a design for implementation of the State plan in order for it to meet statutory requirements through the selection of the best methodology to achieve the goals and objectives developed by the State planning council. The Department believes that this regulation accomplishes the purpose of informing the States of the essential elements of a valid design, especially the review of alternative strategies, without denying them the flexibility to tailor such a design for implementing the State plan to their specific needs.

Subpart B relates to State planning councils. Proposed §§ 1386.60 through 1386.63 are designed to implement section 137 of the Act which sets forth the duties and responsibilities of State planning councils. These provisions, especially those found in §§ 1386.60 and 1386.63, are based on the Department's belief that the 1975 amendments (Pub. L. 94–103) broadened the responsibility of State planning councils in advocacy, planning, and evaluation. These regulatory provisions provide the statutory specificity regarding the role of the State planning councils, membership, and duties of those councils.

The basis for specifying in § 1386.61(b) the Federal/ State program membership on State planning councils is section 133(b)(A) of the Act which requires that a State plan describe the quality, extent, and scope of services provided, or to be provided, under other State plans, but in any case to include the nine programs listed. It is the Department's belief that this requirement in the statute necessitates State council representation of at least these nine programs. The purpose of this regulation is to enable States to meet the statutory requirement to develop an approvable State plan. The Department further believes that this provision, which supports Congressional intent, allows for maximum flexibility in council membership since in many States one member could represent more than one of these program areas and since there is no restriction on the number of council members that may be appointed.

One of the purposes of the Department in promulgating § 1386.63 is to ensure that State planning councils supervise the development of State plans through the provision of guidance, the establishment of goals and objectives, identification of gaps, and the setting of priorities for the allocation of funds. The day-to-day implementation of the State plan is the responsibility of the State agency(ies) designated to administer it. The activities of these designated agencies will be monitored and evaluated through the methods established by the State councils to ensure that goals and objectives established in the State plan are being achieved.

Subpart C concerns the protection and advocacy of individual rights and consists of a single proposed regulation, § 1386.70. The purpose of this regulation is to implement section 113 of the Act by incorporating into the regulatory structure the statutory requirements. The regulation includes provisions for assurances that the States will have a system in effect by October 1, 1977, to protect and advocate the rights of individuals with developmental disabilities as specified in the statute, and that such a system will be independent of any State agency which provides treatment, services, or habilitation to such persons.

The regulation does not attempt to establish a single method of implementing the statutory provisions. It is the Department's belief that different approaches may be utilized in order to achieve the substantive goal of establishing an independent agency to pursue the rights of the developmentally disabled. The Department believes it desirable to give States flexibility in the development of such a system. However, guidelines which will assist in the development of an advocacy plan will be issued by the Department to insure that the statutory provisions of section 113 are implemented. This regulation imposes no restrictions on the choice of the agency to plan the system. Rigid restrictions, however, are placed on the agency to be selected or established to implement the system by the Act.

The basis for this is to avoid all possibility of conflict of interest because this system has been established in section 113 of the Act for the purpose of addressing problems of individuals. It is the Department's belief that the State council's advocacy role is to be carried out on behalf of the developmentally disabled population as a whole within a State, and that the basic principle underlying the establishment of the protection and advocacy system in each State is that individuals who are developmentally disabled need to be able to reach outside the system of services in order to assure that their rights are not violated or diminished.

The Act makes these findings respecting the rights of developmentally disabled persons:

(1) Persons with developmental disabilities have a right to appropriate treatment, services, and habilitation for such disabilities.

(2) The treatment, services, and habilitation for a person with developmental disabilities should be designed to maximize the developmental potential of the person and should be provided in the setting that is least restrictive of the person's personal liberty.

(3) The Federal Government and the States both have an obligation to assure that public funds are not provided to any institutional or other residential program for persons with developmental disabilities that—

(A) Does not provide treatment, services, and habilitation which is appropriate to the needs of such persons; or

(B) Does not meet the following minimum standards:

(i) Provision of a nourishing, well-balanced daily diet to the persons with developmental disabilities being served by the program.

(ii) Provision to such persons of appropriate and sufficient medical and dental services.

(iii) Prohibition of the use of physical restraint on such persons unless absolutely necessary and prohibition of the use of such restraint as a punishment or as a substitute for a habilitation program.

(iv) Prohibition on the excessive use of chemical restraints on such persons and the use of such restraints as punishment or as a substitute for a habilitation program or in quantities that interfere with services, treatment, or habilitation for such persons.

(v) Permission for close relatives of such persons to visit them at reasonable hours without prior notice.

(vi) Compliance with adequate fire and safety standards as may be promulgated by the Secretary.

(4) All programs for persons with developmental disabilities should meet standards which are designed to assure the most favorable possible outcome for those served, and—

(A) In the case of residential programs serving persons in need of comprehensive health-related, habilitative, or rehabilitative services, which are at least equivalent to those standards applicable to intermediate care facilities for the mentally retarded promulgated in regulations of the Secretary on January 17, 1974 (39 FR pt. II), as appropriate when taking into account the size of the institutions and the service delivery arrangements of the facilities of the programs;

(B) In the case of other residential programs for persons with developmental disabilities, which assure that care is appropriate to the needs of the persons being served by such programs, assure that the persons admitted to facilities of such programs are persons whose needs can be met through services provided by such facilities, and assure that the facilities under such programs provide for the humane care of the residents of the facilities are sanitary, and protect their rights; and

(C) In the case of nonresidential programs, which assure the care provided by such programs is appropriate to the persons served by the programs.

Subpart D establishes the practice and procedure for hearings pertaining to State conformity with State plans for the developmentally disabled and with Federal requirements. These regulations are found in §§ 1386.80 through 1386.112. The purpose of these regulations is to create in advance of any hearing, regular procedures for the initiation of hearings, for the determination of the requisite notice and parties, and for the rules which will govern the conduct of the hearing itself and post-hearing actions of the parties and of the Presiding Officer and/or Director of the Developmental Disabilities Office.

The Department believes that these regulations, which are followed by other agencies within the Department, such as the Social and Rehabilitation Service and the Administration on Aging (the latter on an *ad hoc* basis), are fair to all the parties concerned and protect the interests of all potential parties with the least amount of delay and expense consistent with the protection of the rights of all concerned.

PART 1387—DISCRETIONARY GRANTS PROGRAM

Subpart A of proposed Part 1387 addresses university affiliated facilities and is divided into two subdivisions, "Demonstration and training grants" and "Construction programs." Sections 1387.1 through 1387.4 deal with demonstration and training grants. The essential purpose of these regulations is to incorporate the requirements of Part B, Subpart 1 of the Act, as amended. The Department believes that little material additional to that contained in the statute is required or desirable for the purpose of implementing this part of the Act. Section 1387.2 does detail what an application for a demonstration and a training grant must contain. The Department believes that this carries out the directive of section 122(a) of the Act which requires the Secretary to establish the form and manner of making an application and of the required contents of an application. Section 1387.4 is proposed for the purpose of implementing what the Department believes to be the Congressional purpose of section 122(b): Of giving priority to applications for programs which will provide services within a community rather than in an institutional setting. The Department believes that this Congressional purpose is best served by repetition of that priority in the regulations, even though the statutory provision just noted is clear.

Subpart 2 of Part B of the Act deals with construction programs and is implemented in §§ 1387.10 through 1387.14 of the proposed regulations. Section 1387.11 implements the statutory mandate found in section 126 of the Act, as amended, which directs the Secretary to establish the form and manner of submitting an application and the information which such an application must contain.

The purpose of the remaining regulations of this subdivision is to implement the statutory directives found in Subpart 2 of the Act. The Department bases these regulations on its belief that little change is necessary because the statute itself is clear with respect to assurances that are required and the purposes of the program. Section 1387.11, dealing with the form of the application, provides that it will be in such form and manner, and contain such information, as the Secretary may require. This is based upon the Department's belief that flexibility is required in the construction program. The applications will be expected to contain, as a minimum, however, the assurances regarding consistency with the State plan, State planning council review, construction standards, and other statutory requirements detailed in § 1387.12.

Subpart B of Part 1387 pertains to special project grants. The purpose of this Subpart, which consists of the regulations at §§ 1387.20 through 1387.23, is to incorporate into the regulations the statutory purposes for which such grants may be made as set forth in section 145(a) of the Act. These provisions are based upon the Departments' belief that the statute clearly sets forth what are acceptable purposes of special project grants.

Eligible applicants are described in § 1387.22 and are limited to public and other nonprofit agencies, organizations, and institutions. This definition is consistent with, and implements section 145(a) of the Act.

Section 1387.23 deals with the application content and the procedures for submitting applications. The purpose of this regulation is to make clear that the Secretary, through guidelines, has the authority to elaborate on the content and procedures. The reason for leaving this to guidelines is that, since this Subpart relates to specific applications for special projects, as opposed to Statewide

V 41 169 AUG 30 76 UMI

plans, greater diversity in permissible or required content is desirable; therefore criteria will be carefully developed. The Department believes that this can be accomplished more efficiently through guidelines than through the regulatory process, particularly since guidelines afford greater flexibility to both the Department and the applicant.

Paragraph (b), of § 1387.23 of this proposed regulation expressly requires a copy of any application for special project grant (other than projects of national significance) to be submitted to the State planning council for review and comment in order to ensure that the proposed project is consistent with the State plan goals and objectives and the comprehensive planning and monitoring responsibilities of the State planning council.

In summary, many of these proposed rulemaking provisions are restated from the Act. The Department has sought to provide States with maximum flexibility within the terms of the Act and to avoid imposing additional burdens beyond those required by the law. The detailed provisions concerning the content of State plans included in these proposed regulations are required by the statute itself.

Prior to the adoption of the proposed regulations, consideration will be given to any comments, suggestions, or objections thereto which are submitted in writing to the Director, Developmental Disabilities Office, Department of Health, Education, and Welfare, 330 C Street, SW., Washington, D.C. 20201, on or before October 12, 1976. Comments received will be available for public inspection in Room 3070, Mary E. Switzer Building, of the Department's offices at 330 C Street, SW., Washington, D.C. 20201, on Monday through Friday of each week from 8:30 a.m. to 5 p.m. (202/245-0335).

DEVELOPMENTAL DISABILITIES PROGRAM

PART 1385—GENERAL

Sec.

1385.1 Purpose of Act.
1385.2 Terms.
1385.3 Grants administrative requirements.
1385.4 Judicial review.
1385.5 State control of operations.
1385.6 Employment of handicapped individuals.
1385.7 Recovery.
1385.8 Good cause for other use of facility.
1385.9 Cooperative or joint effort between States and agencies.
1385.10 Awards.
1385.11 Assurances regarding evaluation system.

AUTHORITY: Pub. L. 91-517; Pub. L. 94-103.

§ 1385.1 Purpose of Act.

The purpose of the Act is to improve and coordinate the provision of services to persons with developmental disabilities and to establish a system for the protection and advocacy of rights for persons with developmental disabilities through:

(a) Grants to assist the States in developing and implementing a comprehensive and continuing plan for meeting the needs of the developmentally disabled;

(b) Support of activities which contribute to improving the condition of persons with developmental disabilities;

(c) Renovation and modernization of university affiliated facilities which demonstrate the provision of services for the developmentally disabled and support demonstration and training programs in institutions of higher education;

(d) Training specialized personnel needed for providing such services;

(e) Development of regional community programs for the developmentally disabled;

(f) Provision of technical assistance in the establishment of services and facilities for the developmentally disabled; and

(g) Development and demonstration of new and improved techniques for providing such services.

To these ends, Federal financial assistance is available through (1) basic support formula grants to States; (2) formula grants to States for effecting a system to protect and advocate the rights of developmentally disabled persons; (3) grants to university affiliated facilities and for satellite centers; and (4) grants to public and private nonprofit groups for demonstration projects and projects of national significance.

§ 1385.2 Terms.

(a) For purposes of Parts 1386 and 1387 of this chapter, the terms below are defined as follows:

(1) "Act" means the Developmental Disabilities Services and Facilities Construction Act, as amended by the Developmentally Disabled Assistance and Bill of Rights Act;

(2) "Construction" means (i) the construction of new buildings, acquisition, expansion, remodeling, and alteration of existing buildings, (ii) initial equipment for such buildings including medical and other transportation facilities, and (iii) architect's fees in connection with an approved project. Construction does not include the cost of offsite improvements or the cost of the acquisition of land;

(3) "Costs of administration and operation," for purposes of Part 1387 of this chapter, means those administrative and operating costs of university affiliated facilities which are necessary to support interdisciplinary training programs and demonstration facilities providing services to developmentally disabled persons. Eligible costs shall be specified in guidelines to be issued by the Secretary;

(4) "Cost of construction" means the amount found by the Secretary to be necessary for the construction of a project, approved under Parts 1386 and 1387 of this chapter;

(5) "Demonstration" means, for the purposes of Part 1387 of this chapter, (i) a pilot study or experimental attempt to provide more and better services than are available, for the purpose of testing or establishing standards or methods of service that are practicable and effective for general application in the developmental disabilities program; (ii) provision of a special type of service in order to test its value and to provide information on costs, methods of administration, methods of providing services, or techniques; or (iii) application in new settings of the results derived from previous research or practice for the purpose of determining the effectiveness of new procedures;

(6) "Developmental disability" means a disability of a person which (i) is attributable to mental retardation, cerebral palsy, epilepsy, or autism; (ii) is attributable to any other condition of a person found to be closely related to mental retardation because such condition results in similar impairment of general intellectual functioning or adaptive behavior to that of mentally retarded persons or requires treatment and services similar to those required for such persons; or (iii) is attributable to dyslexia resulting from a disability described in paragraph (a) (i) or (ii); (iv) originates before such person attains age eighteen; (v) has continued or can be expected to continue indefinitely; and (vi) constitutes a substantial handicap to such person's ability to function normally in society;

(7) "Director" means the Director of the Developmental Disabilities Office, Office of Human Development.

(8) "Equipment," for the purposes of construction under Parts 1386 and 1387 of this Chapter, means those items which are necessary for the initial operation of the facility, but does not include supplies such as food, fuel, drugs, and paper;

(9) "Exemplary services" means those specialized services, including adaptation of generic services, for the diagnosis, treatment, education, training, habilitation, and care of persons with developmental disabilities, conducted in or in conjunction with a university affiliated facility (or satellite) for purposes of demonstration or training, which are of replicable high quality;

(10) "Facility for persons with developmental disabilities" means a facility, or a specified portion of a facility, designed primarily for the delivery of one or more services to persons with one or more developmental disabilities;

(11) "Interdisciplinary training" means an integrated educational program utilized reciprocally by two or more disciplines each of which is knowledgeable about or possesses, in relationship to common fields of endeavor, a basic language, a core body of knowledge, certain relevant skills, and an understanding of the attitudes, values, and methods of partcipating disciplines. Interdsciplinary training includes training with practicums which enhance the skills of the trainee in collaboration with or complementing the services rendered by members of other disciplines;

(12) "National Advisory Council" means the National Advisory Council on Services and Facilities for the Developmentally Disabled;

(13) "Nonprofit facility for persons with developmental disabilities" and "nonprofit private institution of higher learning" mean, respectively, a facility for persons with developmental disabilities and an institution of higher learning which are owned and operated by one or more nonprofit corporations or associations no part of the net earnings of which inures, or may lawfully inure, to the benefit of any private shareholder or individual; and the term "nonprofit private agency or organization" means an agency or organization which is such a corporation or association or which is owned and operated by one or more of such corporations or associations;

(14) "Population" as applied to any State means the population of that State as determined by the most recent official estimates by the U.S. Department of Commerce made available to the Secretary;

(15) "Project period" means the period of time, not exceeding three years, for which a project is approved for grant support with Federal funds. Such period may be extended by the Secretary beyond three years for a period not to exceed twelve months, and with or without additional funding, in order to permit continuation or completion of the same approved project. The approval and support of a project for the maximum project period shall not preclude additional support of that project beyond such period if such support of the continued project is requested, evaluated, and approved on the same basis as a new or initial application in acordance with § 1387.22 of this chapter;

(16) "Projects of national significance" means projects (i) designed to have a direct impact on developmental disabilities programs throughout the country; or (ii) having an objective or objectives which if achieved could be replicated or result in an improved delivery system for developmental disabilities services or affect national policies or standards; or (iii) involving activities to be conducted in a number of sites in various parts of the country as part of a unified program;

(17) "Public agency" means any State, unit of local government, combination of such States or units, or any department, agency, or instrumentality of any of the foregoing, including State institutions of higher education and hospitals, or any Indian tribal government;

(18) "Satellite center" means an entity which is associated with one or more university affiliated facilities and which functions as a community or regional extension of such university affiliated facilities in the delivery of training, services, and programs to the developmentally disabled and their families, to personnel of State agencies concerned with developmental disabilities, and to others responsible for the care of persons with developmental disabilities;

(19) "Secretary" means the Secretary of Health, Education, and Welfare, or a designee;

(20) "Services for persons with developmental disabilities" means specialized services or special adaptations of generic services directed toward the alleviation of a developmental disability or toward the social, personal, physical, or economic habilitation or rehabilitation of an individual with such a disability. Such services include: Diagnosis, evaluation, treatment, personal care, day care, domiciliary care, special living arrangements, training, education, sheltered employment, recreation, counseling of the individual with a developmental disability and of his family, protective and other social and socio-legal services, information and referral services, follow-along services, and transportation services necessary to assure delivery of services to persons of all ages with developmental disabilities;

(21) "State" means the several States, the District of Columbia, Puerto Rico, the Virgin Islands, Guam, American Samoa, and the Trust Territory of the Pacific Islands;

(22) "State agency(ies)" means the State agency or agencies designated in the State plan to administer or supervise the administration of all or designated portions of the State plan;

(23) "State agency for construction" means the sole State agency designated to administer or supervise the administration of grants for construction of facilities for the developmentally disabled under the State plan;

(24) "State plan" means the document or documents submitted by the State to comply with the requirements for participation under Parts 1386 and 1387 of this chapter;

(25) "State planning council" (referred to alternately as "State council" or "council") means that body, the members of which are appointed by the Governor, which is responsible for supervising the development of comprehensive planning for persons with developmental disabilities, monitoring of the plan, and evaluating its results, and which serves as an advocate for persons with developmental disabilities;

(26) "Substantial handicap" means a physical and mental disability of such severity that, alone or in connection with social, legal, or economic constraints, it requires the provision of specialized services over an extended period of time directed toward the individual's social, personal, physical, or economic habilitation or rehabilitation;

(27) "Technical assistance" means the furnishing of consultative, technical, and informational services to States, local or other public or private agencies, organizations, or individuals in matters pertaining to planning, provision of services, construction of facilities, and the organization and management of facilities and programs for developmentally disabled persons;

(28) "Title" (except when it refers to the Code of Federal Regulations) means a fee simple, or such other estate or interest (including a leasehold on which the rental does not exceed 4 per centum of the value of the land) as the Secretary finds sufficient to assure for a period of not less than fifty years undisturbed use and possession for the purposes of construction and operation of the project;

(29) "University affiliated facility" means a public or other non-profit facility which is associated with, or is an integral of, a college or university, which aids in demonstrating the provision of specialized services for the diagnosis and treatment of persons with developmental disabilities, and which provides education and training (including interdisciplinary training) of personnel needed to render servces to persons with developmental disabilities;

(30) "Urban or rural poverty area" means a geographic area in which a percentage of the residents of the area have incomes below the poverty level as defined by the Secretary of Commerce;

(31) "Volunteer" means a person who provides a service on a non-paid basis, except for reimbursement of actual expenses, and who works in concert with other services toward shared objectives on an individual or group assignment.

§ 1385.3 Grants administrative requirements.

(a) The provisions of 45 CFR Part 74, establishing uniform administrative requirements and cost principles for grants to State and local governments, shall apply to all grants funded under Parts 1386 and 1387 of this chapter.

(b) Attention is called to the applicability, as cited therein, of the provisions of the following parts of Title 45 CFR to grants funded under Parts 1386 and 1387 of this chapter:

45 CFR Part 16—Department Grant Appeals Process
45 CFR Part 46—Protection of Human Subjects
45 CFR Part 75—Informal Grant Appeals Procedures, Subpart A—Indirect Cost Appeals
45 CFR Part 80—Nondiscrimination under Programs Receiving Federal Assistance through the Department of Health, Education, and Welfare—Effectuation of Title VI of Civil Rights Act of 1964
45 CFR Part 81—Practice and Procedure for Hearings under Part 80 of this Title.

(c) Each recipient of assistance under these Parts shall keep records (1) which fully disclose (i) the amount and disposition by such recipient of the proceeds of such assistance, (ii) the total cost of the project or undertaking in connection

V 41 169 AUG 30 76 UMI

with which such assistance is given or used, and (iii) the amount of that portion of the cost of the project or undertaking supplied by other sources, and (2) such other records as will facilitate an effective audit.

§ 1385.4 Judicial review.

If any State is dissatisfied with the Secretary's action under § 1386.2 or § 1386.15 such State may appeal to the United States Court of Appeals for the circuit in which such State is located, by filing a petition with such court within sixty days after such action, in accordance with 42 U.S.C. 2694.

§ 1385.5 State control of operations.

Except as otherwise specifically provided, nothing in Parts 1386 and 1387 of this chapter shall be construed as conferring on any Federal officer or employee the right to exercise any supervision or control over the administration, personnel, maintenance, or operation of any facility for persons with developmental disabilities with respect to which any funds have been or may be expended under these parts.

§ 1385.6 Employment of handicapped individuals.

As a condition for the receipt of financial assistance under Parts 1386 and 1387 of this chapter each recipient of such assistance shall take affirmative action to employ and advance in employment qualified handicapped individuals on the same terms and conditions required with respect to the employment of such individuals by the provisions of the Rehabilitation Act of 1973 which govern employment (a) by State rehabilitation agencies and rehabilitation facilities, and (b) under Federal contracts and subcontracts.

§ 1385.7 Recovery.

The State council shall promptly notify the Secretary in writing if, any time within 20 years after the completion of construction, any facility which received funds under Part 1386, Subpart A and Part 1387, Subpart A of this chapter is sold or transferred to any person, agency, or organization not qualified to file an application under the Act or not approved as a transferee by the State agency; or (b) ceases to be a public or other nonprofit facility for persons with developmental disabilities. Unless there is good cause, in conformance with § 1385.8, for releasing the applicant or other owner from obligation to continue such facility as a facility for developmentally disabled persons, the United States shall be entitled to recover from either the transferor or the transferee (or, in the case of a facility which has ceased to be a public or other nonprofit facility for persons with developmental disabilities, from the owners thereof) an amount bearing the same ratio to the then value (as determined by the agreement of the parties or by action brought in the district court of the United States for the district in which the facility is situated) of so much of such facility as constituted an approved project or projects, as the amount of the Federal participation bore to the cost of the construction of such project or projects. Such right of recovery shall not constitute a lien upon such facility prior to judgment.

§ 1385.8 Good cause for other use of facility.

If, within 20 years after completion of any construction for which a construction grant under the Act has been made, the facility shall cease to be a public or nonprofit facility for persons with developmental disabilities, the Secretary in determining whether there is good cause for releasing the applicant or other owner of the facility from the obligation to continue such facility as a public or other nonprofit facility for persons with developmental disabilities, shall take into consideration the extent to which:

(a) The facility will be devoted by the applicant or other owner to use for another public purpose which will promote the purposes of the Act; or

(b) There are reasonable assurances that for the remainder of the 20 year period other facilities not previously utilized for the care of persons with developmental disabilities will be so utilized and are substantially equivalent in nature and extent for such purposes.

§ 1385.9 Cooperative or joint effort between States and agencies.

An application providing for participating in a joint effort between States or among public or private agencies, or by any combination of such entities, shall be in accordance with the agreements in writing between the entities involved.

§ 1385.10 Awards.

All awards under Parts 1386 and 1387 of this chapter shall be in writing and shall set forth the amount awarded. Awards under Part 1387 of this chapter shall also specify the project period for which support is contemplated.

(a) Federal financial participation shall be available under Parts 1386 and 1387 of this chapter only for those activities approved in the grant award and only in the total amount approved in the award.

(b) Under Part 1386, Subpart A of this chapter, Federal financial participation may be available in expenditures made under the State plan including expenditures for the State council and the administration of the State plan, in accordance with applicable State laws, rules, regulations, and standards governing expenditures by State and local agencies. As a condition for Federal financial participation, the annual revision of the State plan and other required reports must be submitted by the State planning council and approved by the Secretary.

§ 1385.11 Assurances regarding evaluation system.

(a) Within six months after the development by the Secretary of an evaluation system in accordance with the Act, as a condition to the receipt of Federal financial assistance under Parts 1386 and 1387 of this chapter, each State shall submit to the Secretary a proposal for a time-phased method of implementing the system. Proposals shall be submitted in the form and at the time set forth in guidelines which will be issued by the Secretary.

(b) Within two years after the date of the development of such a system, each State shall provide assurances satisfactory to the Secretary that the State is using such a system.

PART 1386—FORMULA GRANT PROGRAMS

Subpart A—The State Plan

GENERAL

Sec.
1386.1 Purpose and assurances.
1386.2 Plan submission and approval.
1386.3 Designation of State agency(ies) for administration.
1386.4 Identification of administrative program unit.

ALLOTMENTS, FEDERAL SHARE, AND PAYMENTS

1386.10 Allotments to States.
1386.11 Reallotment of funds.
1386.12 Conditions on uses of allotments.
1386.13 Federal share.
1386.14 Nonduplication.
1386.15 Payments for planning, administration, services, and construction.
1386.16 Withholding of payments.
1386.17 Standards for services and construction of facilities.

STATE PLAN REQUIREMENTS—METHODS OF ADMINISTRATION

1386.20 Methods of administration.
1386.21 Personnel administration.
1386.22 Fiscal administration.
1386.23 Special financial and technical assistance to poverty areas.
1386.24 Reports.
1386.25 Methods of evaluation.
1386.26 Use of volunteers.
1386.27 Protection of employees' interests.
1386.28 Membership of State planning council.
1386.29 Identification of State planning council staff.
1386.30 Review of all other State plans.
1386.31 Review of State plan.

PROVISION OF SERVICES AND CONSTRUCTION OF FACILITIES

1386.40 Goals and objectives.
1386.41 Allocation of grant funds based on State priorities.
1386.42 Deinstitutionalization.
1386.43 Establishment of community program alternatives to institutionalization.
1386.44 Early screening, diagnosis, and evaluation.
1386.45 Counseling, program coordination, advocacy, follow-along, and protective services.
1386.46 Quality, extent, and scope of services being provided or to be provided.
1386.47 Habilitation plans.
1386.48 Program for construction of facilities.
1386.49 Opportunity for appeal and hearing.

DESIGN FOR IMPLEMENTATION

1386.50 Design for implementation of State plan.

Subpart B—State Planning Council

1386.60 Role of State planning council.
1386.61 Establishment of State planning council.
1386.62 Adequate staff.
1386.63 Duties of the State planning council.

Subpart C—Protection and Advocacy of Individual Rights

1386.70 State system for protection and advocacy of individual rights.

Subpart D—Practice and Procedure for Hearings to States on Conformity of Developmental Disabilities Plans to Federal Requirements

GENERAL

1386.80 Definitions.
1386.81 Scope of rules.
1386.82 Records to be public.
1386.83 Use of gender and number.
1386.84 Suspension of rules.
1386.85 Filing and service of papers.

PRELIMINARY MATTERS—NOTICE AND PARTIES

1386.90 Notice of hearing or opportunity for hearing.
1386.91 Time of hearing.
1386.92 Place.
1386.93 Issues at hearing.
1386.94 Request to participate in hearing.

HEARING PROCEDURES

1386.100 Who presides.
1386.101 Authority of presiding officer.
1386.102 Rights of parties.
1386.103 Discovery.
1386.104 Evidentiary purpose.
1386.105 Evidence.
1386.106 Exclusion from hearing for misconduct.
1386.107 Unsponsored written material.
1386.108 Official transcript.
1386.109 Record for decision.

POSTHEARING PROCEDURES, DECISIONS

1386.110 Posthearing briefs.
1386.111 Decisions following hearing.
1386.112 Effective date of decision by Secretary's delegate.

AUTHORITY: Pub. L. 91-517, Pub. L. 94-103.

Subpart A—The State Plan

GENERAL

§ 1386.1 Purpose and assurances.

(a) *General.* Any State wishing to take advantage of Federal financial assistance under this Subpart must have a State plan approved annually by the Secretary.

(b) *Form and content.* The State plan shall contain, in the form prescribed by the Secretary, a specific description of the State's program, the plans and policies to the followed in carrying out the program, a description of the planning process as developed by the State council and utilized in developing the program, and such other information as prescribed by the Secretary. Basic principles for the planning processes and suggested alternative models will be described in guidelines issued by the Secretary. The State plan shall consist of the following parts which shall be amended, reaffirmed, or updated annually as applicable:

(1) A part setting forth data necessary to comply with assurances required in the Act, and all regulations, policies, and procedures which shall be established by the Secretary;

(2) A part which describes the State goals, annual objectives to achieve the goals, priorities, evaluation methods, and the rationale for annual changes;

(3) A part containing measurable objectives and strategies (i) to reduce and eventually eliminate inappropriate institutional placement of people with developmental disabilities; and (ii) to improve the quality of care and state of surroundings of persons for whom institutional care is appropriate;

(4) A part containing a design for implementation of the plan as set forth in § 1386.50; and

(5) A part containing the following assurances: (i) Authority of the State agency(ies): The State plan shall certify that the State agency(ies) has authority to administer or supervise the administration of all or portions of the State plan, and that nothing in the State plan is inconsistent with State law;

(ii) Funds made available to other agencies: (A) Part of the funds paid to the State will be made available to other public agencies or other nonprofit private agencies, institutions, and organizations for the purposes of carrying out the Act; (B) Such funds shall be expended in accordance with State procedures and standards and in accordance with the requirements obtained in these regulations and policies established by the Secretary;

(iii) State participation in carrying out the State plan: That there will be reasonable State financial participation in the cost of carrying out the State plan. Reasonable State participation shall include evidence of the following: (A) That there is an organizational unit responsible for program administration; (B) That adequate staff is available for administration of the plan; and (C) That State appropriated funds will be used in part to support the activities included under the State plan;

(iv) Anticipated contribution toward strengthening services: That the funds paid to the State will be used to make significant contribution toward strengthening services for persons with developmental disabilities in the various political subdivisions of the State, in order to improve the quality, extent, and scope of services.

(v) Maintenance of effort: That funds paid the State under the State plan will be used to supplement and, to the extent practicable, increase the level of funds that would otherwise be made available for the purposes for which the Federal funds are provided, and not to supplant such non-Federal funds. Compliance with such assurance will be deemed to have been met if the aggregate level of State, local, and private non-profit funds available in the State for activities supported under the approved State plan is at least no lower for any fiscal year than it was for the immediately preceding fiscal year as reported in required financial reports, provided that the Secretary may also take into consideration the extent to which the level of such funds for any fiscal year may have included emergency or other funds for an activity of a non-recurring nature;

(vi) Human rights and welfare of individuals receiving services: That the human rights of all persons (especially those without familiar protection) receiving services under Parts 1386 and 1387 of this chapter will be protected;

(vii) Services for persons unable to pay: That a reasonable volume of services will be furnished to persons unable to pay therefor. As used in this section, "persons unable to pay therefor" includes persons who are otherwise self-supporting but are unable to pay the full cost of needed services. Such services may be paid for wholly or partly out of public funds or contributions of individuals and private and charitable organizations, or may be contributed at the expense of the provider of services itself. In determining what constitutes a reasonable volume of services to persons unable to pay therefor, there shall be considered the amount of services that may be available through generic agencies. The requirements may be waived if it is demonstrated to the satisfaction of the State agency, subject to subsequent approval by the Secretary, that to furnish such services is not feasible financially;

(viii) Financial support for facilities: That adequate financial support will be available to complete the construction of, and to maintain and operate the facility when such construction is completed. Compliance with this assurance may be made by a showing from the grantee that adequate funds are or will be on deposit in a bank, or that program income from services provided is or will be adequate, or that State and local funds will be made available for maintenance and operation upon completion of construction; (ix) Payment of construction workers: That all laborers and mechanics employed by contractors or subcontractors in the performance of work on any construction project assisted with funds under this subpart and Subpart A, Part 1387 of this Chapter will be paid at rates not less than those prevailing on similar construction in the locality as determined by the Secretary of Labor in accordance with the Act of March 3, 1931 (40 U.S.C. 276a–276a–5, known as the Davis-Bacon Act); and the Secretary of Labor shall have with respect to the labor standards specified in this paragraph the authority and functions set forth in Reorganization Plan Numbered 14 of 1950 (15 FR 3176; 5 U.S.C. Appendix) and section 2 of the Act of June 13, 1934 (40 U.S.C. 276c)"; and

(x) Compliance with assurance for habilitation plans for developmentally disabled persons: Each State receiving an allotment under this Subpart after September 30, 1976, shall satisfactorily assure the Secretary that each program (including programs of any agency, facility, or project) which receives funds from the State's allotment under this Subpart has in effect for each developmentally disabled person who receives services from or under the program a habilitation plan and that such plans are reviewed annually.

(6) A part containing those requirements in §§ 1386.20 through 1386.49.

V 41 169 AUG 30 76 UMI

§ 1386.2 Plan submission and approval.

(a) The State plan (and its annual revisions) shall be submitted by the chairperson of the State council to the Secretary 60 days prior to the fiscal year for which the plan is applicable.

(b) Failure to submit an approvable plan or annual revision prior to the fiscal year for which the plan is applicable shall result in the loss of Federal financial participation in the cost of expenditures during the period of the fiscal year for which an approvable plan or annual or other revision has not been submitted.

(c) Any State plan, amendment, or revision meeting the requirements of the Act, this Subpart, and performance standards to be issued by the Secretary shall be approved.

(d) Final disapproval of any State plan or annual or other revision shall be determined by the Secretary; except that no State plan or any revision thereof shall be finally disapproved until after the State has been given reasonable notice and opportunity for a hearing in accordance with Subpart D of this part.

§ 1386.3 Designation of State agency(cies) for administration.

(a) The State plan shall name the designated State agency(ies) which shall administer all or designated portions of the State plan: provided, that a sole State agency is to be designated for administering or supervising the administration of grants for construction.

(b) If the State plan designates more than one State agency to administer the State plan, it shall set forth the portion of the program for which each State agency is responsible.

(c) The State may apportion its allotment among such agencies in proportion to the responsibilities assigned to such agencies for carrying out activities approved under the State plan. Funds so apportioned may be combined with other State or Federal funds authorized to be spent for other purposes of this part for which the funds are combined.

§ 1386.4 Identification of administrative program unit.

The State plan shall provide for and identify a program unit within the designated State administering agency, which has primary responsibility for proper and efficient administration of the State plan.

ALLOTMENTS, FEDERAL SHARE, AND PAYMENTS

§ 1386.10 Allotments to States.

The allotment to the several States shall be computed by the following formula:

(a) Two-thirds on the basis of total population weighted by financial need determined by the relative per capita income as shown by data supplied by the U.S. Department of Commerce for the three most recent consecutive years for which satisfactory data are available.

(b) One-third on the basis of a need factor based on the ratio of beneficiaries in the State receiving benefits under the Adult Disabled Child Program (section 202(d)(1)(B)(ii) of the Social Security Act) related to population of the State age 18–65 as bearing on the national total of such population weighted by the total population of the State.

(c) For the Virgin Islands, American Samoa, Guam, and the Trust Territory of the Pacific Islands, the allotment in any fiscal year beginning July 1, 1975, shall not be less than $50,000. The allotment of each other State in any fiscal year shall not be less than the greater of $150,000, or the amount of the allotment received by the State for the fiscal year ending June 30, 1974.

(d) If the amount appropriated for State allotments for any fiscal year exceeds $50,000,000, the minimum allotment of a State for such fiscal year shall be increased by an amount which bears the same ratio to the amount determined for such State as the difference between the amount so appropriated and the amount authorized to be appropriated for such fiscal year bears to $50,000,000.

§ 1386.11 Reallotment of funds.

The amount of an allotment to a State for a fiscal year which the Secretary determines will not be required by the State during the period for which it is available for the purpose for which allotted shall be available for reallotment by the Secretary from time to time, on such date or dates as may be fixed (but not earlier than thirty days after notice has been published of the Secretary's intention to make such reallotment in the FEDERAL REGISTER), to other States with respect to which such a determination has not been made, in proportion to the original allotments of such States for such fiscal year, but with such proportionate amount for any of such other States being reduced to the extent it exceeds the sum the Secretary estimates such State needs and will be able to use during such period; and the total of such reductions shall be similarly reallotted among the States whose proportionate amounts were not so reduced. Any amount so reallotted to a State for a fiscal year shall be deemed to be a part of its allotment for such fiscal year.

§ 1386.12 Conditions on uses of allotments.

(a) For the fiscal year ending June 30, 1976, not less than 10 per centum of each State's allotment shall be expended for the purpose of assisting in developing and implementing plans designed to eliminate inappropriate placement in institutions of persons with developmental disabilities. For each succeeding fiscal year, 30 per centum of the State's allotment shall be used for these purposes.

(b) Designation of allotment for construction. The State plan shall specify the per centum of the State's allotment in any fiscal year which is to be devoted to construction of facilities. Such per centum shall be not more than 10 per centum of the State's allotment or such lesser per centum as the Secretary may from time to time prescribe.

(c) Sums allotted to a State in a fiscal year and designated by it for construction and remaining unobligated at the end of such year shall remain available to such State for such purpose in the next fiscal year (and in such year only), in addition to the sums allotted to such State in such next fiscal year; except that if the maximum amount which may be specified for construction for a year plus any part of the amount so specified pursuant to such section for the preceding fiscal year and remaining unobligated at the end of such fiscal year is not sufficient to pay the Federal share of the cost of construction of a specific facility included in the construction program of the State, the amount specified for such preceding year shall remain available for a second additional year for the purpose of paying the Federal share of the cost of construction of such facility.

(d) Expenditures for proper and efficient administration of the State plan. (1) At the request of the designated State agency, a portion of the State's allotment shall be made available by the Secretary to pay not more than one-half of the expenditures described in this paragraph for proper and efficient administration of the approved State plan: *Provided*, That not more than 5 per centum or $50,000, whichever is less, shall be available for this purpose. (2) Payments under this section shall be made only on the condition that expenditures from State appropriations for administration of the State plan shall not be less than State expenditures for the fiscal year ending June 30, 1975. (3) Costs identified in the approved State plan as necessary for the administration of the program shall not include costs applicable to provision of services, planning or construction.

§ 1386.13 Federal share.

(a) Except as provided for in paragraph (b) of this section, the Federal share for a State may not exceed 75 per centum of the expenditures incurred by the State under the State plan.

(b) In the case of any project, program, or activity located in an area within a State determined by the Secretary to be an urban or rural poverty area, the Federal share may not exceed 90 per centum of the expenditures incurred by the State under the State plan.

(c) The non-Federal share of any project, program, or activity assisted by a grant under this Subpart may be provided in kind.

(d) For the purpose of determining the Federal share with respect to any activity, program, or project described in the State plan, expenditures on that activity, program, or project by a political subdivision of a State or by a nonprofit private entity shall be deemed to be expenditures by such State, subject to the condition that such expenditures may be included only when made by a political subdivision or nonprofit private agency, organization, or group to which the State agency has made available funds from Federal or State sources for carrying out

the approved State plan for the fiscal year.

§ 1386.14 Nonduplication.

In determining the amount of any State's Federal share of the expenditures incurred by it under its approved State plan, there shall be disregarded (a) any portion of such expenditures which are financed by Federal funds provided under any provision of the law other than this subpart, and (b) the amount of any non-Federal funds required to be expended as a condition of receipt of such Federal funds, except as otherwise provided by statute enacted subsequent to the effective date of Pub. L. 94–103, December 18, 1975.

§ 1386.15 Payments for planning, administration, services, and construction.

(a) From each State's allotment for a fiscal year under this subpart, the State shall be paid the Federal share of the expenditures, other than expenditures for construction, incurred during such year under its State plan approved under this part. Such payments shall be made from time to time in advance on the basis of estimates by the Secretary of the sums the State will expend under the State plan, except that such adjustments as may be necessary shall be made on account of previously made underpayments or overpayments under this section.

(b)(1) Payments for construction projects shall be made upon certification by the designated State agency for construction that, based upon its inspection, work has been performed upon a project, or purchases have been made in accordance with plans and specifications approved by the State agency and payment of an installment is due. If the State is not authorized by law to make payments to the applicant, the payment shall be made directly to the applicant. Certification shall be submitted to the Secretary in such form and at such times as required. Final payment for a project shall be made only upon certification by the State agency authorized by State law and designated by the Governor to administer construction grants that appropriate, periodic, and final inspections have been made by appropriate authorities in the State and that all applicable construction standards and other applicable standards and codes have been met. (2) If the Secretary, after investigation or otherwise, has reason to believe that any act (or failure to act) has occurred requiring withholding of payments (§ 1386.16) payment may be withheld in whole or in part, pending corrective action or action based on such hearing, after notice has been given to the designated State agency of opportunity for a hearing.

§ 1386.16 Withholding of payments.

(a) Whenever the Secretary, after reasonable notice and opportunity for hearing to the State council and the appropriate State agency(ies), finds that (1) there is a failure to comply substantially with any of the provisions required to be included in the State plan; (2) there is a failure to comply substantially with any regulations of the Secretary which are applicable to this Part, the Secretary shall notify such State council and agency(ies) that further payments will not be made to the State under this Subpart (or, in his discretion, that further payments will not be made to the State for activities in which there is such failure) until he is satisfied that there will no longer be such failure. Until he is so satisfied, the Secretary shall make no further payment under this Subpart to the State or shall limit further payment under this subpart to such State to activities in which there is no such failure.

(b) The State council shall review the actions of the State for the purpose of determining if the State is complying with the requirements of the State plan and its design for implementation. For the purpose of assisting the Secretary in the implementation of this section, the State council shall notify the Secretary of the results of its review.

§ 1386.17 Standards for services and construction of facilities.

(a) Standards for services for persons with developmental disabilities. [Reserved].

(b) Standards for construction and equipment of facilities.

(1) *General.* (i) The standards set forth in this section shall apply to all projects receiving Federal assistance under Subpart A, Part 1386 and Subpart A, Part 1387 of this chapter for construction of new buildings, acquisition, modernization, expansion, remodeling, and alteration of existing buildings and initial equipment for such buildings.

(ii) The designated State agency for construction shall determine in writing the occupancy classification of the building under the Life Safety Code (National Fire Protection Association (NFPA) Bulletin No. 101) 1973 edition or such future revisions as may be approved by the Secretary, to ensure the capability of building occupants to respond in emergencies and for self-preservation.

(iii) The site location of any facility shall be community-based and comply with the National Environmental Policy Act, Pub. L. 91–190.

(2) *Design and construction of facilities.* (i) Project design and construction of facilities shall be done in accordance with one of the following model codes:

The Building Officials Conference of America—(BOCA).
The Uniform Building Code—(UBC).
The Southern Standard Building Code—(SSB).
The National Building Code—(NBC).

(ii) The codes listed below shall be used with respect to the following specific details:

Life safety: The National Fire Protection Association (NFPA), The Life Safety Code, Bulletin No. 101;
Air conditioning and ventilation systems: NFPA Standards, Nos. 90A or 90B;
Plumbing—National Standard Plumbing Code, (NAPHCC);
Electrical systems—National Electrical Code, NFPA Standard No. 70;
Elevators—American Standard Safety Code for Elevators, Dumbwaiters, and Escalators, ASA–A17 1960.

(3) *Special details.* (i) All doors to toilet rooms and bathrooms shall be equipped with hardware that will permit access in an emergency.

(ii) Hot water at the discharge spigot, faucet, or shower head where there is likelihood of direct skin contact (personal hygiene) shall not exceed 110 degrees Fahrenheit.

(iii) All paint and applied finishes used in furniture and furnishing shall be free of lead or other materials which may be harmful if ingested by humans, in accordance with Pub. L. 91–695, the Lead-Based Paint Poisoning Prevention Act;

(4) *Equipment.* Initial equipment of the kind and in the quantity necessary shall be provided for the complete functioning of the facility.

(5) *Architectural Barriers.* The building to be constructed, renovated, or modernized will comply with revised standards of the American National Standards Institute, Inc., adopted pursuant to the Architectural Barriers Act of 1968, 42 U.S.C. 4151–4156.

(6) *Hazards—Relocation.* The application, facility, and the operation thereof shall comply, as appropriate, with the following:

(i) Uniform Relocation Assistance Act— Pub. L. 91–646.
(ii) Historic Sites—Pub. L. 89–665.
(iii) Flood Insurance—Pub. L. 93–234.
(iv) Flood Hazards—Executive Order 11296.

STATE PLAN REQUIREMENTS—METHODS OF ADMINISTRATION

§ 1386.20 Methods of administration.

The State plan shall provide for such strategies, policies, and procedures as are necessary for the proper and efficient administration of the State plan. It shall include methods of informing the general public in the State of the kinds and locations of services and facilities which are available under the State plan, and that the State plan is available to interested parties in the State for their information.

§ 1386.21 Personnel administration.

(a) The State plan shall provide that methods of personnel administration will be established and maintained (in the State agencies administering or supervising the administration of the program and in local agencies administering the program) in conformity with the standards for a Merit System of Personnel Administration, 45 CFR Part 70, and any standards prescribed by the U.S. Civil Service Commission pursuant to section 208 of the Intergovernmental Personnel Act of 1970 modifying or superseding such standards.

(b) The State plan shall provide that the State agency will develop and implement an affirmative action plan for equal employment opportunity in all aspects

V 41 169 AUG 30 76 UMI

of personnel administration as specified in 45 CFR 70.4, Equal employment opportunity. The affirmative action plan will provide for specific action steps and timetables to assure equal employment opportunity. This plan shall be made available for review upon request.

§ 1386.22 Fiscal administration.

The State plan shall provide for such fiscal control and fund accounting procedures as may be necessary to assure the proper disbursement of and accounting for funds paid to the State under this Subpart.

§ 1386.23 Special financial and technical assistance to poverty areas.

The State plan shall provide that special financial and technical assistance shall be given to areas of urban or rural poverty in providing services and facilities for persons with developmental disabilities who are residents of such areas.

§ 1386.24 Reports.

The State plan shall provide that the State agency will make such reports in such form and containing such information, and at such time, as the Secretary may require, and will comply with such provisions as he may find necessary to assure the correctness and verification of such reports. These reports include, but are not limited to, (a) the Developmental Disabilities Office's program performance report and (b) financial reports.

§ 1386.25 Methods of evaluation.

(a) The State plan shall describe the methods to be used to assess the effectiveness and accomplishments of the State in meeting the needs of persons with developmental disabilities in the State.

(b) The State plan shall provide for the implementation of an evaluation system in accordance with § 1385.11 of this chapter.

§ 1386.26 Use of volunteers.

The State plan shall provide for the maximum utilization of all available community resources including volunteers serving under the Domestic Volunteer Services Act of 1973 (87 Stat. 394), and other appropriate voluntary organizations. The use of such services shall supplement, but shall not be in lieu of, paid employees.

§ 1386.27 Protection of employees' interests.

The State plan shall provide for fair and equitable arrangements (as determined by the Secretary after consultation with the Secretary of Labor) to protect the interests of employees affected by actions to carry out the plan described in § 1386.42 including arrangements designed to preserve employee rights and benefits and to provide training and retraining of such employees where necessary and arrangements under which maximum efforts will be made to guarantee the employment of such employees.

§ 1386.28 Membership of State planning council.

The State plan shall contain a current listing of the members of the State council, their names, and the constituency, agency, or organization each represents.

§ 1386.29 Identification of State planning council staff.

The State plan shall provide that the State council will be adequately staffed consistent with its duties and responsibilities and shall identify the staff assigned to the council.

§ 1386.30 Review of all other State plans.

The State plan shall provide, to the maximum extent feasible, for an opportunity for prior review and comment by the State council of all State plans of the State which relate to programs affecting persons with developmental disabilities. The State council's responsibilities in obtaining timely access to these other State plans, and the council's recourse if the plans are not made available will be detailed in guidelines to be issued by the Secretary.

§ 1386.31 Review of State plan.

The State plan shall provide that the State council will from time to time, but not less often than annually, review and evaluate its State plan approved under this subpart and submit appropriate revisions to the Secretary.

PROVISION OF SERVICES AND CONSTRUCTION OF FACILITIES

§ 1386.40 Goals and objectives.

The State plan shall describe clearly defined long-range goals and measurable short-term objectives, with primary consideration given to §§ 1386.42 through 1386.45 and to goals which may be established by the Secretary.

§ 1386.41 Allocation of grant funds based on State priorities.

(a) The State plan shall set forth priorities, policies, and procedures for the allocation and expenditure of funds under the plan, based on the established goals and objectives.

(b) Special consideration shall be given to those activities (1) which are located in areas of urban or rural poverty, or (2) which provide services to the more severly handicapped persons.

(c) The State plan shall provide that high priority for approval shall be given to those activities that hold significant promise toward the alleviation of a developmental disability or toward the social, personal, physical, or economic habilitation or rehabilitation of individuals with such a disability.

§ 1386.42 Deinstitutionalization.

The State plan goals, objectives, and strategies shall address: (a) The elimination of inappropriate placement in institutions of persons with developmental disabilities, and (b) the improvement of the quality of care and the state of surroundings of persons who are appropriately placed in institutions.

§ 1386.43 Establishment of community program alternatives to institutionalization.

The State plan shall support the establishment of community programs as alternatives to institutionalization and support such programs designed to provide services for the care and habilitation of persons with developmental disabilities, and which utilize, to the maximum extent feasible, the resources and personnel in related community programs to assure full coordination with such programs and to assure the provision of appropriate supplemental health, educational, or social services for persons with developmental disabilities.

§ 1386.44 Early screening, diagnosis, and evaluation.

The State plan shall provide for early screening, diagnosis, and evaluation (including maternal care, developmental screening, home care, infant and preschool stimulation programs, and parent counseling and training) of developmentally disabled infants and preschool children, particularly those with multiple handicaps.

§ 1386.45 Counseling, program coordination, advocacy, follow-along, and protective services.

The State plan shall provide for counseling, program coordination, follow-along services, protective services, and personal advocacy on behalf of developmentally disabled adults.

§ 1386.46 Quality, extent, and scope of services being provided or to be provided.

(a) The State plan shall describe the quality, extent, and scope of services being provided, or to be provided, in implementing the State plan, under such other State plans for Federally assisted State programs as may be specified by the Secretary, but in any case including the following Federally assisted programs: Education for the handicapped, vocational rehabilitation, public assistance, medical assistance, social services, maternal and child health, crippled children's services, and comprehensive health and mental health plans.

(b) The State plan shall describe the quality, extent, and scope of treatment, services, and habilitation being provided or to be provided in implementing the State plan to person with developmental disabilities from funds under this part.

(1) *Quality.* The State plan shall provide that services and facilities furnished under the State plan for persons with developmental disabilities will be in accordance with the standards set forth in § 1386.17.

(2) *Extent.* The State plan shall describe the extent of services to be provided under the plan including: (i) The kinds of needs to be met, and individuals to be served (such as type and severity of disabilities, age groups, economic status), (ii) the geographic location, distribution, and accessibility of services, and (iii) other relevant factors.

(3) *Scope.* The State plan shall describe the scope of the services to be provided, taking into account Federally-aided State and local programs involved, manpower, and financial resources, and other factors, directed toward the alleviation of developmental disabilities, or toward the social, personal, physical or economic habilitation, or rehabilitation of individuals with such disabilities.

(c) The State plan shall describe how Federal funds allotted to the State will be used to complement and augment rather than duplicate or replace services and facilities which are eligible for Federal assistance under other State programs.

§ 1386.47 Habilitation plans.

For the purpose of complying with the assurance regarding individual habilitation plans (§ 1386.1(b)(5)(x)), the State plan shall describe the methods to be used to facilitate an annual review of the individual plans. The State plan shall also describe the requirements of the habilitation plan which shall include at least the following: (a) The plan shall be in writing.

(b) The plan shall be developed jointly by (1) a representative(s) of the program primarily repsonsible for delivering or coordinating the delivery of services to the person for whom the plan is established, (2) such person, and (3) where appropriate, such person's parents or guardian or other representative.

(c) Such plan shall contain a statement of the long-term habilitation goals for the person and the intermediate habilitation objectives relating to the attainment of such goals. Such objectives shall be stated specifically and in sequence and shall be expressed in behavorial or other terms that provide measurable indices of progress. The plan shall (1) describe how the objectives will be achieved and the barriers that might intrefere with the achievement of them, (2) state objective criteria and an evaluation procedure and schedule for determining whether such goals and objectives are being achieved, and (3) provide for a program coordinator who will be responsible for the implementation of the plan.

(d) The plan shall contain a statement (in readily understandable form) of specific habilitation services to be provided, shall identify each agency which will deliver such services, shall describe the personnel (and their qualifications) necessary for the provision of such services, and shall specify the date of the initiation of each service to be provided and the anticipated duration of each such service.

(e) The plan shall specify the role and objectives of all parties to the implementation of the plan.

(f) Each habilitation plan shall be reviewed at least annually by the agency primarily responsible for the delivery of services to the person for whom the plan was established or responsible for the coordination of the delivery of services to such person. In the course of the review, such person and the person's parents or guardian or other representative shall be given an opportunity to review such plan and to participate in its revision.

§ 1386.48 Program for construction of facilities.

When a specific portion of the State's allotment is set aside for construction, the State plan shall provide for the development of a program of construction, renovation, or modernization of facilities for the provision of services for persons with developmental disabilities. Such a program shall (a) be based on a statewide inventory of existing facilities and a survey of need; (b) set forth the relative need in accordance with § 1386.41; (c) assign priority to the construction of projects in order of relative need insofar as funds are available for costs of construction and costs of maintenance and operation of such projects.

§ 1386.49 Opportunity for appeal and hearing.

The State plan shall provide for an opportunity for appeal to and hearing before the State agency for construction to every applicant for a construction project who is dissatisfied with any action of the State agency for construction regarding its application.

DESIGN FOR IMPLEMENTATION

§ 1386.50 Design for implementation of State plan.

(a) The State plan shall contain a design for implementation which shall include (1) details of the methods to be used to implement the State plan, (2) specific objectives to achieve the goals set forth in the State plan, (3) a listing of the programs and resources to be used to meet such objectives, (4) priorities for spending of funds provided under this Subpart, (5) a detailed plan for the use of such funds, and (6) a method for periodic evaluation of the design's effectiveness in meeting such objectives.

(b) The designated State agency is responsible for selecting from alternative strategies those best methods which will achieve the goals and annual objectives as developed by the State council. The design for implementation shall identify the programs and activities related to each of the objectives set forth in accordance with §§ 1386.40 through 1386.45 and the amount of funds allocated to each objective. The expenses of the State council are to be included in the design for implementation.

(c) The design for implementation is to be submitted annually as part of the annual State plan revision. Revisions to the design for implementation may be made as necessary by the designated State administering agency and shall be approved by the State council prior to submission to the Secretary.

Subpart B—State Planning Council

§ 1386.60 Role of State planning council.

The role of the State council is to supervise the development of the State plan by the designated State agency(ies) by providing guidance through the establishment of goals and objectives, identification of gaps, and the setting of priorities for the allocation of funds. In order to establish credible goals, the State council shall be responsible for needs assessment, analysis of programs currently and potentially capable of providing services to the developmentally disabled, and establishment of priorities to deal with identified gaps. The State council shall establish methods for monitoring and evaluating the implementation of the State plan to ensure that established goals and objectives are being achieved.

§ 1386.61 Establishment of State planning council.

(a) Each State which receives assistance under this part shall establish a State council which will serve as an advocate for persons with developmental disabilities. The members shall be appointed by the Governor of the State.

(b) Membership. Each State planning council shall at all times include in its membership representatives of the principal State agencies, local agencies, and nongovernmental agencies, and groups concerned with services to persons with developmental disabilities. As a minimum, the following Federal/State programs must be represented by the State agency membership on the council: Education of the handicapped, vocational rehabilitation, public assistance, medical assistance, social services, maternal and child health, crippled children's services, comprehensive health planning, and mental health. At least one-third of the membership of such a council shall consist of persons with developmental disabilities, or their parents or guardians, who are not officers or directors of an entity, or employees of any State agency or of any other entity, which receives funds or provides services under this part.

§ 1386.62 Adequate staff.

Each State receiving assistance under this Part shall engage for its State council personnel adequate to insure that the council has the capacity to fulfill its responsibilities.

§ 1386.63 Duties of the State planning council.

The State council shall—

(a) Supervise the development of and approve the State plan required by this part;

(b) Monitor and evaluate the implementation of such State plan;

(c) To the maximum extent feasible, review and comment on all State plans in the State which relate to programs affecting persons with developmental disabilities;

(d) Submit to the Secretary, through the Governor, such periodic reports as the Secretary may reasonably request; and

(e) Submit revisions of the State plan to the Secretary.

V 41 169 AUG 30 76 UMI

Subpart C—Protection and Advocacy of Individual Rights

§ 1386.70 State system for protection and advocacy of individual rights.

(a) As a condition to a State's receiving an allotment under Subpart A of this part, the State shall provide assurances satisfactory to the Secretary that not later than October 1, 1977, (1) the State will have in effect a system to protect and advocate the rights of persons with developmental disabilities, (2) such system will have the authority to pursue legal, administrative, and other appropriate remedies to insure the protection of the rights of such persons who are receiving treatment, services, or habilitation within the State, and (3) such system will be independent of any State agency which provides treatment, services, or habilitation to persons with developmental disabilities. The Secretary shall not make an allotment under Subpart A of this part to a State for any fiscal year beginning after September 30, 1977, unless the State has in effect such a system.

(b) The Governor shall designate the agency responsible for administering the protection and advocacy system and shall approve the advocacy plan prior to the approval of the Secretary. Such plan is to be submitted in accordance with this section and guidelines established by the Secretary.

(c) The allotment to the State shall be computed in accordance with § 1386.10 (a), (b) except that the allotment to a State in any fiscal year shall not be less than $20,000.

Subpart D—Practice and Procedure for Hearings to States on Conformity of Developmental Disabilities Plans to Federal Requirements

GENERAL

§ 1386.80 Definitions.

For purposes of this Subpart only:

(a) The term "DDO" means Developmental Disabilities Office.

(b) The term "designee" means any other individual so designated by the Secretary's delegate.

(c) The term "Secretary" means the Secretary of the Department of Health, Education, and Welfare.

(d) The term "Secretary's delegate" means the Assistant Secretary for Human Development, or the Director, Developmental Disabilities Office.

§ 1386.81 Scope of rules.

(a) The rules of procedure in this Subpart govern the practice for hearings afforded by the Department to States pursuant to § 1386.2 or § 1386.15, and the practice relating to decisions upon such hearings.

(b) Nothing in this part is intended to preclude or limit negotiations between the Department and the State, whether before, during, or after the hearing to resolve the issues which are, or otherwise would be, considered at the hearing. Such negotiations and resolution of issues are not part of the hearing, and are not governed by the rules in this subpart, except as expressly provided herein.

§ 1386.82 Records to be public.

All pleadings, correspondence, exhibits, transcripts of testimony, exceptions, briefs, decisions, and other documents filed in the docket in any proceeding may be inspected and copied in the office of the DDO Hearing Clerk. Inquiries may be made at the Central Information Center, Department of Health, Education, and Welfare, 330 Independence Avenue, S.W., Washington. D.C. 20201.

§ 1386.83 Use of gender and number.

As used in this part, words importing the singular number may extend and be applied to several persons or things, and vice versa. Words importing the masculine gender may be applied to females or organizations.

§ 1386.84 Suspension of rules.

Upon notice to all parties, the Secretary's delegate or the presiding officer, with respect to matters pending before him and within his jurisdiction, may modify or waive any rule in this part, unless otherwise expressly provided, upon determination that no party will be unduly prejudiced and the ends of justice will thereby be served.

§ 1386.85 Filing and service of papers.

(a) All papers in the proceedings shall be filed with the DDO Hearing Clerk in an original and two copies. Originals only of exhibits and transcripts of testimony need be filed.

(b) All papers in the proceedings shall be served on all parties by personal delivery or by mail. Service on the party's designated representative will be deemed service upon the party.

PRELIMINARY MATTERS—NOTICE AND PARTIES

§ 1386.90 Notice of hearing or opportunity for hearing.

Proceedings are commenced by mailing a notice of hearing or opportunity for hearing from the Secretary's delegate to the State. The notice shall state the time and place for the hearing, and the issues which will be considered, and shall be published in the FEDERAL REGISTER.

§ 1386.91 Time of hearing.

The hearing shall be scheduled not less than 30 days nor more than 60 days after the date notice of the hearing is furnished to the State.

§ 1386.92 Place.

The hearing shall be held in the city in which the regional office of the Department is located or in such other place as is fixed by the Secretary's delegate in light of the circumstances of the case, with due regard for the convenience and necessity of the parties or their representatives.

§ 1386.93 Issues at hearing.

(a) The Secretary's delegate may, prior to a hearing under § 1386.2 or § 1386.15, notify the State in writing of additional issues which will be considered at the hearing, and such notice shall be published in the FEDERAL REGISTER. If such notice is furnished to the State less than 20 days before the date of the hearing, the State or any other party, at its request, shall be granted a postponement of the hearing to a date 20 days after such notice was furnished, or such later date as may be agreed to by the Secretary's delegate.

(b) If, as a result of negotiations between the Department and the State, the submittal of a plan amendment, a change in the State program or other actions by the State, any issue is resolved in whole or in part, but new or modified issues are presented, as specified by the Secretary's delegate, the hearing shall proceed on such new or modified issues.

(c) (1) If at any time, whether prior to during or after the hearing the Secretary's delegate finds that the State has come into compliance with Federal requirements on any issue in whole or in part he shall remove such issue from the proceedings in whole or in part as may be appropriate. If all issues are removed he shall terminate the hearing.

(2) Prior to the removal of any issue from the hearing in whole or in part the Secretary's delegate shall provide all parties other than the Department and the State (see § 1386.94(b)) with the statement of his intention and the reasons therefor and a copy of the proposed State plan provision on which the State and he have settled and the parties shall have oportunity to submit in writing within 15 days, for the consideration of the Secretary's delegate and for the record, their views as to, or any information bearing upon, the merits of the proposed plan provision and the merits of the reasons of the Secretary's delegate for removing the issue from the hearing.

(d) The issues considered at the hearing shall be limited to those issues of which the State is notified as provided in § 1386.90 and paragraph (a) of this section, and new or modified issues described in paragraph (b) of this section, and shall not include issues or parts of issues removed from the proceedings pursuant to paragraph (c) of this section.

§ 1386.94 Request to participate in hearing.

(a) The Department and the State are parties to the hearing without making a specific request to participate.

(b) (1) Other individuals or groups may be recognized as parties, if the issues to be considered at the hearing have caused them injury and their is within the zone of interests to be protected by the governing Federal statute.

(2) Any individual or group wishing to participate as a party shall file a petition with the DDO Hearing Clerk within 15 days after notice of the hearing has been published in the FEDERAL REGISTER, and shall serve a copy on each party of record at that time in accordance with § 1386.85(b). Such petition shall concisely state (i) petitioner's interest in the proceeding, (ii) who will appear for petitioner, (iii) the issues on which petitioner wishes to participate, and (iv) whether petitioner intends to present witnesses.

(3) Any party may, within 5 days of receipt of such petition, file comments thereon.

(4) The presiding officer shall promptly determine whether each petitioner has the requisite interest in the proceedings and shall permit or deny participation accordingly. Where petitions to participate as parties are made by individuals or groups with common interests, the presiding officer may request all such petitioners to designate a single representative, or he may recognize one or more of such petitioners to represent all such petitioners. The presiding officer shall give each petitioner written notice of the decision on his petition, and if the petition is denied, he shall briefly state the grounds for denial.

(c) (1) Any interested person or organization wishing to participate as amicus curiae shall file a petition with the DDO Hearing Clerk before the commencement of the hearing. Such petition shall concisely state (i) the petitioner's interest in the hearing, (ii) who will represent the petitioner, and (iii) the issues on which petitioner intends to present argument. The presiding officer may grant the petition if he finds that the petitioner has a legitimate interest in the proceedings, that such participation will not unduly delay the outcome and may contribute materially to the proper disposition of the issues. An amicus curiae is not a party but may participate as provided in this paragraph.

(2) An amicus curiae may present a brief oral statement at the hearing, at the point in the proceedings specified by the presiding officer. He may submit a written statement of position to the presiding officer prior to the beginning of a hearing, and shall serve a copy on each party. He may also submit a brief or written statement at such time as the parties submit briefs, and shall serve a copy on each party.

HEARING PROCEDURES

§ 1386.100 Who presides.

(a) The presiding officer at a hearing shall be the Secretary's delegate or his designee.

(b) The designation of the presiding officer shall be in writing. A copy of the designation shall be served on all parties.

§ 1386.101 Authority of presiding officer.

(a) The presiding officer shall have the duty to conduct a fair hearing, to avoid delay, maintain order, and make a record of the proceedings. He shall have all powers necessary to accomplish these ends, including, but not limited to, the power to:

(1) Change the date, time, and place of the hearing, upon due notice to the parties. This includes the power to continue the hearing in whole or in part.

(2) Hold conferences to settle or simplify the issues in a proceeding, or to consider other matters that may aid in the expeditious disposition of the proceeding.

(3) Regulate participation of parties and amici curiae and require parties and amici curiae to state their position with respect to the various issues in the proceeding.

(4) Administer oaths and affirmations.

(5) Rule on motions and other procedural items on matters pending before him, including issuance of protective orders or other relief to a party against whom discovery is sought.

(6) Regulate the course of the hearing and conduct of counsel therein.

(7) Examine witnesses.

(8) Receive, rule on, exclude, or limit evidence or discovery.

(9) Fix the time for filing motions, petitions, briefs, or other items in matters pending before him.

(10) If the presiding officer is the Secretary's delegate, make a final decision.

(11) If the presiding officer is a hearing examiner, certify the entire record including his recommended findings and proposed decision to the Secretary's delegate.

(12) Take any action authorized by the rules in this part or in conformance with the provisions of 5 U.S.C. 551–559.

(b) The presiding officer does not have authority to compel by subpoena the production of witnesses, papers, or other evidence.

(c) If the presiding officer is a hearing examiner, his authority pertains to the issues of compliance by a State with Federal requirements which are to be considered at the hearing, and does not extend to the question of whether, in case of any noncompliance, Federal payments will not be made in respect to the entire State plan or will be limited to categories under or parts of the State plan affected by such noncompliance.

§ 1386.102 Rights of parties.

All parties may:

(a) Appear by counsel or other authorized representative, in all hearing proceedings.

(b) Participate in any prehearing conference held by the presiding officer.

(c) Agree to stipulations as to facts which will be made a part of the record.

(d) Make opening statements at the hearing.

(e) Present relevant evidence on the issues at the hearing.

(f) Present witnesses who then must be available for cross-examination by all other parties.

(g) Present oral arguments at the hearing.

(h) Submit written briefs, proposed findings of fact, and proposed conclusions of law, after the hearing.

§ 1386.103 Discovery.

The Department and any party named in the Notice issued pursuant to § 1386.90 shall have the right to conduct discovery (including depositions) against opposing parties. Rules 26–37 of the Federal Rules of Civil Procedure shall apply to such proceedings; there will be no fixed rule on priority of discovery. Upon written motion, the presiding officer shall promptly rule upon any objection to such discovery action initiated pursuant to this section. The presiding officer shall also have the power to grant a protective order or relief to any party against whom discovery is sought and to restrict or control discovery so as to prevent undue delay in the conduct of the hearing. Upon the failure of any party to make discovery, the presiding officer may, in his discretion, issue any order and impose any sanction (other than contempt orders) authorized by Rule 37 of the Federal Rules of Civil Procedure.

§ 1386.104 Evidentiary purpose.

The hearing is directed to receiving factual evidence and expert opinion testimony related to the issues in the proceeding. Argument will not be received in evidence; rather it should be presented in statements, memoranda, or briefs, as determined by the presiding officer. Brief opening statements, which shall be limited to statement of the party's position and what he intends to prove, may be made at hearings.

§ 1386.105 Evidence.

(a) *Testimony.* Testimony shall be given orally under oath or affirmation by witnesses at the hearing. Witnesses shall be available at the hearing for cross-examination by all parties.

(b) *Stipulations and exhibits.* Two or more parties may agree to stipulations of fact. Such stipulations, or any exhibit proposed by any party, shall be exchanged at the prehearing conference or otherwise prior to the hearing if the presiding officer so requires.

(c) *Rules of evidence.* Technical rules of evidence shall not apply to hearings conducted pursuant to this part, but rules or principles designed to assure production of the most credible evidence available and to subject testimony to test by cross-examination shall be applied where reasonably necessary by the presiding officer. A witness may be cross-examined on any matter material to the proceeding without regard to the scope of his direct examination. The presiding officer may exclude irrelevant, immaterial, or unduly repetitious evidence. All documents and other evidence offered or taken for the record shall be open to examination by the parties and opportunity shall be given to refute facts and arguments advanced on either side of the issues.

§ 1386.106 Exclusion from hearing for misconduct.

Disrespectful, disorderly, or contumacious language or contemptuous conduct, refusal to comply with directions, or continued use of dilatory tactics by any person at the hearing before a presiding officer shall constitute grounds for immediate exclusion of such person from the hearing by the presiding officer.

§ 1386.107 Unsponsored written material.

Letters expressing views or urging action and other unsponsored written material regarding matters in issue in a hearing will be placed in the correspondence section of the docket of the

V 41 169 AUG 30 76 UMI

proceeding. These data are not deemed part of the evidence or record in the hearing.

§ 1386.108 Official transcript.

The Department will designate the official reporter for all hearings. The official transcripts of testimony taken, together with any stipulations, exhibits, briefs, or memoranda of law filed therewith shall be filed with the Department. Transcripts of testimony in hearings may be obtained from the official reporter by the parties and the public at rates not to exceed the maximum rates fixed by the contract between the Department and the reporter. Upon notice to all parties, the presiding officer may authorize corrections to the transcript which involve matters of substance.

§ 1386.109 Record for decision.

The transcript of testimony, exhibits, and all papers and requests filed in the proceedings, except the correspondence section of the docket, including rulings and any recommended or initial decision shall constitute the exclusive record for decision.

POSTHEARING PROCEDURES, DECISIONS

§ 1386.110 Posthearing briefs.

The presiding officer shall fix the time for filing posthearing briefs which shall not exceed 20 days after termination of the hearing. Such briefs may contain proposed findings of fact and conclusions of law, and, if permitted, reply briefs.

§ 1386.111 Decisions following hearing.

(a) If the Secretary's delegate is the presiding officer, he shall, when the time for submission of posthearing briefs has expired, issue his decision within 60 days.

(b) (1) If a hearing examiner is the presiding officer, he shall, within 30 days of the time for submission of posthearing briefs has expired, certify the entire record, including his recommended findings and proposed decision, to the Secretary's delegate. The Secretary's delegate shall serve a copy of the recommended findings and proposed decision upon all parties, and amici, if any.

(2) Any party may, within 20 days, file with the Secretary's delegate exceptions to the recommended findings and proposed decision and a supporting brief or statement.

(3) The Secretary's delegate shall thereupon review the recommended decision and, within 60 days of its issuance, issue his own decision.

(c) If the Secretary's delegate concludes:

(1) In the case of a hearing under § 1386.2, that a State plan does not comply with Federal requirements, he shall also specify whether the State's total allotment for the fiscal year will not be authorized for the State or whether, in the exercise of his discretion, the allotment will be limited to categories under or parts of the State plan not affected by such noncompliance;

(2) In the case of a hearing pursuant to § 1386.15, that the State is not complying with requirements of the State plan he shall also specify whether further payments will not be made to the State or whether, in the exercise of his discretion, payments will be limited to categories under or parts of the State plan not affected by such noncompliance. The Secretary's delegate may ask the parties for recommendations or briefs or may hold conferences of the parties on these questions.

(d) The decision of the Secretary's delegate under this section shall be the final decision of the Secretary and shall constitute "final agency action" within the meaning of 5 U.S.C. 704 and the "Secretary's action" within the meaning of section 138 of the Act. The Secretary's delegate's decision shall be promptly served on all parties, and amici, if any.

§ 1386.112 Effective date of decision by Secretary's delegate.

(a) If, in the case of a hearing pursuant to § 1386.2, the Secretary's delegate concludes that a State plan does not comply with Federal requirements, and his decision provides that the allotment will be authorized but limited to categories under or parts of the State plan not affected by such noncompliance, his decision shall specify the effective date for the authorization of the allotment.

(b) If, in the case of a hearing pursuant to § 1386.15, the Secretary's delegate concludes that the State is not complying with requirements of the State plan, his decision that further payments will not be made to the State, or payments will be limited to categories under or parts of the State plan not affected, shall specify the effective date for the withholding of Federal funds.

(c) The effective date shall not be earlier than the date of the decision of the Secretary's delegate and shall not be later than the first day of the next calendar quarter.

(d) The provisions of this section may not be waived pursuant to § 1386.84.

PART 1387—DISCRETIONARY GRANT PROGRAMS

Subpart A—University Affiliated Facilities

DEMONSTRATION AND TRAINING GRANTS

Sec.

1387.1 Purpose of grant funds.
1387.2 Application content.
1387.3 Eligible applicants.
1387.4 Priority.

CONSTRUCTION PROGRAM

1387.10 Purpose.
1387.11 Application form.
1387.12 Application assurances.
1387.13 Approval of applications.
1387.14 Priority.

Subpart B—Special Project Grants

1387.20 Eligible projects.
1387.21 Nonduplication of Federal funds.
1387.22 Eligible applicants.
1387.23 Application content and procedures.

AUTHORITY: Pub. L. 91-517; Pub. L. 94-103.

Subpart A—University Affiliated Facilities

DEMONSTRATION AND TRAINING GRANTS

§ 1387.1 Purpose of grant funds.

Demonstration and training grants authorized under the Act may be made for the purpose of:

(a) Assisting university affiliated facilities in meeting the cost of administering and operating demonstration facilities for the provision of exemplary services for persons with developmental disabilities, or for interdisciplinary training programs for personnel needed to render specialized services for persons with developmental disabilities;

(b) Supplementing one or more university affiliated facilities funded under these regulations to conduct a feasibility study of the ways in which a satellite center can be established and operated in areas not presently served by a university affiliated facility. These satellite centers shall provide services to persons with developmental disabilities in coordination with existing facilities funded under these regulations or from any other Federally supported program. Supplemental grants to university affiliated facilities for a feasibility study may not exceed $25,000; and

(c) Paying part of the costs of establishing and assisting satellite centers in meeting part of their administration and operation costs.

§ 1387.2 Application content.

Applications for demonstration and training grants may be submitted at the time and in the manner and detail prescribed by the Secretary in guidelines, and shall include the following:

(a) In the case of grants to university affiliated facilities for administration and operation and demonstration facilities and interdisciplinary training programs, evidence of how such university affiliated facility shall provide (1) interdisciplinary training programs for personnel needed to render specialized services to persons with developmental disabilities, and (2) services for persons with developmental disabilities by the operation of demonstration facilities;

(b) In the case of applications for an increase in the amount of a demonstration and training grant to meet the cost of conducting a feasibility study, assurances that such study shall be carried out in consultation with the State planning council for the State in which the facility is located and where the satellite center would be established; and according to guidelines to be issued by the Secretary;

(c) In the case of an application for a grant to establish or to administer and operate a satellite center(s), a copy of the feasibility study which documents the need for such satellite, conducted in accordance with section 121(a)(2) of the Act;

(d) For all applications, an assurance that the services and training programs to be supported are licensed, if necessary, according to the applicable State law(s) and also meet appropriate accreditation standards;

(e) For all applications, reasonable assurance that the grant will not result in decreased State, local, or other non-Federal funds for services for persons with developmental disabilities and for the training of personnel to provide such services; and

(f) For all applications, a statement describing the general methodology by which the project will be evaluated to determine whether objectives have been achieved.

§ 1387.3 Eligible applicants.

The applicant must be a public or nonprofit university affiliated facility or a satellite which has been found eligible to operate such a center.

§ 1387.4 Priority.

In approving applications, the Secretary shall give priority consideration to those programs which demonstrate an ability and commitment to provide within a community, rather than in an institution, services for persons with developmental disabilities.

CONSTRUCTION PROGRAM

§ 1387.10 Purpose.

The Secretary may make grants to university affiliated facilities to assist (a) in meeting the costs of the renovation or modernization of buildings which are being used in connection with an activity assisted by a demonstration and training grant; and (b) for the construction, renovation, or modernization of buildings to be used as satellite centers.

§ 1387.11 Application form.

An application shall be submitted in such form and manner and contain such information as the Secretary may require in addition to assurances required in § 1387.12.

§ 1387.12 Application assurances.

An application for a construction grant under this subpart may be approved by the Secretary only if it is supported by such reasonable assurances as may be required by law or executive order:

(a) The application for assistance is consistent with the appropriate State developmental disabilities plan;

(b) The application has been reviewed and commented upon by the appropriate State council;

(c) The facilities upon completion of construction will meet standards set forth in § 1386.17;

(d) The plans and specifications for the project to be assisted by the grant applied for are in accordance with § 1386.17(b);

(e) Title to the site for such project is or will be vested in the applicant or, in the case of a satellite center, in a public or other nonprofit entity which is to operate the center;

(f) Adequate financial support will be available in conformance with requirements of § 1386.1(b)(5)(viii) of these regulations;

(g) All laborers and mechanics will be paid in accordance with requirements set forth in § 1386.1(b)(5)(ix);

(h) No amendment to an approved application resulting in a substantial change in scope of work, function, or safety of the facility shall be put into effect without prior approval of the Secretary.

§ 1387.13 Approval of applications.

Applications under this subpart shall be reviewed by the Secretary who shall approve or disapprove the proposed project in whole or in part on the basis of established criteria.

§ 1387.14 Priority.

In approving applications under this subpart, the Secretary shall give priority consideration to university affiliated facilities funded under this Subpart for costs of renovating or modernizing existing buildings to enable them to comply with the Architectural Barriers Act of 1968.

Subpart B—Special Project Grants

§ 1387.20 Eligible projects.

Special project grants may be made to assist in meeting the costs of conducting an activity or program, hereinafter referred to as "project," that is intended and designed to benefit persons with developmental disabilities. No project (other than projects of national significance) shall be eligible unless the State or States in which it will be conducted has a State plan approved under Part 1386, Subpart A of this chapter, and unless it addresses one or more of the following:

(a) Demonstrations (and research and evaluation in connection therewith) for establishing programs which hold promise of expanding or otherwise improving services to persons with developmental disabilities (especially those who are disadvantaged or multihandicapped), including programs for parent counseling and training, early screening and intervention, infant and preschool children, seizure control systems, legal advocacy, and community-based counseling, care, housing, and other services or systems necessary to maintain a person with developmental disabilities in the community;

(b) Public awareness and public education programs to assist in the elimination of social, attitudinal, and environmental barriers confronted by persons with developmental disabilities;

(c) Coordinating and using all availability community resources in meeting the needs of persons with developmental disabilities (especially those from disadvantaged backgrounds);

(d) Demonstrations of the provision of services to persons with developmental disabilities who are also disadvantaged because of their economic status;

(e) Technical assistance relating to services and facilities for persons with developmental disabilities, including assistance in State and local planning or administration respecting such services and facilities;

(f) Training of specialized personnel needed for the provision of services for persons with developmental disabilities or for research directly related to such training;

(g) Developing or demonstrating new or improved techniques for the provision of services to persons with developmental disabilities (including model integrated service projects);

(h) Gathering and disseminating information relating to developmental disabilities; and

(i) Improving the quality of services provided in and the administration of programs for such persons.

The Secretary may establish criteria for projects designed to achieve the purposes of the Act to the fullest extent possible within the limitation of available Federal resources.

§ 1387.21 Nonduplication of Federal funds.

In determining the amount of any grant for the costs of any project under this subpart, there shall be excluded, except as otherwise provided by statute enacted subsequent to December 18, 1975, from such costs an amount equal to the sum of (a) the amount of any other Federal grant which the applicant has obtained, or is assured of obtaining, with respect to such project under any provision of law enacted prior to October 4, 1975, and (b) the amount of any non-Federal funds required to be expended as a condition of such other Federal grant.

§ 1387.22 Eligible applicants.

Applications may be made by public and other nonprofit agencies, organizations, and institutions.

§ 1387.23 Application content and procedures.

(a) Applications for grants under this subpart shall be submitted in the form and detail, and in accordance with procedures and deadline dates, as prescribed by the Secretary in guidelines.

(b) The applicant shall provide, concurrently, a copy of an application for a grant under this Subpart to the appropriate State planning council for review and comment at the time the application is submitted to the Secretary. Comment with regard to a particular application must be submitted to the Secretary by the State planning council within 30 days from the date of submission by the applicant in order to assure consideration of such comments.

ENVIRONMENTAL PROTECTION AGENCY

■

PETROLEUM REFINERY FLUID CATALYTIC CRACKING UNIT CATALYST REGENERATORS

Proposed Standards of Performance for New Stationary Sources

V41 I169 AUG 30 76 UMI

ENVIRONMENTAL PROTECTION AGENCY

[40 CFR Part 60]

[FRL 594-4]

STANDARDS OF PERFORMANCE FOR NEW STATIONARY SOURCES

Petroleum Refinery Fluid Catalytic Cracking Unit Catalyst Regenerators

Under the authority of section 111 of the Clean Air Act, as amended, the Administrator is proposing a revision to 40 CFR 60.102(a)(2), and 60.105(e)(1), opacity standard of performance for new, modified, and reconstructed petroleum refinery fluid catalytic cracking unit catalyst regenerators.

PROPOSED REVISION

The proposed revision would change the opacity standard from 30 percent, except for three minutes in any one hour, to 25 percent, except for two six-minute average opacity readings in any one hour. The revised standard would be neither more nor less stringent than the present standard, but would be consistent with the new provisions for determining the opacity of emissions.

RATIONALE

On June 29, 1973, the U.S. Court of Appeals for the District of Columbia circuit remanded to EPA the new source performance standard for portland cement plants (40 CFR 60.62) promulgated under section 111 of the Clean Air Act (*Portland Cement Association v. Ruckelshaus*, 486 F. 2d 375). One of the issues remanded was the use of opacity standards. On November 12, 1974, EPA responded to the remand (39 FR 39872); and on May 22, 1975, the Court affirmed the use of opacity standards (513 F. 2d 506).

In the response, EPA reconsidered the use of opacity standards and concluded that they are a reliable, inexpensive, and useful means of ensuring that control equipment is properly maintained and operated at all times. EPA also made changes to the general provisions of 40 CFR Part 60 and to the test method for determining the opacity of emissions to eliminate the possibility of a properly maintained and operated source being in violation of the applicable opacity standard while concurrently meeting a mass or concentration emission standard applicable to the source.

The principal revisions to the regulations (40 CFR Part 60, Standards of Performance for New Stationary Sources) which apply to all opacity standards are as follows:

1. Reference Method 9 (the opacity test method) was revised to base compliance on the average of 24 consecutive opacity observations, each taken at 15-second intervals (six-minute average), and to define the maximum error associated with each set of opacity observtaions. The revision changing the averaging time to six minutes was included to require sufficient observation to ensure acceptable accuracy within the maximum average error referenced in Method 9. The use of sets of opacity data will preclude a single high reading from being cited as a violation.

2. Section 60.11(e) was added to provide a generally applicable mechanism for any owner or operator to petition the Administrator to obtain a higher opacity standard for any facility that demonstrates compliance with the mass or concentration emission standard concurrent with failure to comply with the opacity standard. This provision provides relief to those source owners and operators who install unusually large diameter stacks or whose emissions have unusual characteristics which could cause the opacity of the emissions to be greater than is typical for other plants in the same source category. The provision allows the promulgated opacity standards to be based on the maximum effects of particle characteristics and stack diameters at well-controlled new installations, and ensures that no owner or operator of an affected facility will be prejudiced if the facility is not able to meet the opacity standard while meeting the mass or concentration emission standard.

As a result of the revisions to Method 9, EPA has reevaluated the opacity standard for fluid catalytic cracking unit catalyst regenerators and concluded that it should be revised. This proposed revision of the opacity standard is consistent with the particulate emission standard for fluid catalytic cracking unit catalyst regenerators of 1.0 kilogram per 1000 kilograms of coke burn-off in the catalyst regenerator.

The proposed revision of the opacity standard is based primarily upon a reevaluation of the data gathered on facility A of the background document supporting promulgation of the opacity standard (*Background Information for New Source Performance Standards: Asphalt Concrete Plants, Petroleum Refineries, et al., Volume 3, Promulgated standards*, EPA-450/2-74-003, February 1973). Six-minute average opacity readings calculated from these data indicated that opacity seldom exceeded 20 percent, except during periods of soot blowing. Emission testing clearly indicated that this facility was meeting the particulate emission standard at the time these opacity data were gathered.

Three different emission control systems can be installed to comply with the particulate and carbon monoxide standards of performance. These systems are shown in Figure 1. The volume of gases discharged from control system 3 is about 30 percent greater than the volume of gases discharged from either control system 1 or 2. Consequently, the opacity of the gases discharged from system 3 is lower than that of the gases discharged from the other two systems. Facility A employed emission control system 3.

The opacity observed at facility A, therefore, is somewhat lower than that which would be observed at facilities which employed either emission control system 1 or 2. Extrapolating the opacity data from facility A using Bouger's Law indicates that the opacity at facilities using either of these other two emission control systems would not exceed 25 percent. Thus, the revised opacity standard is proposed at 25 percent.

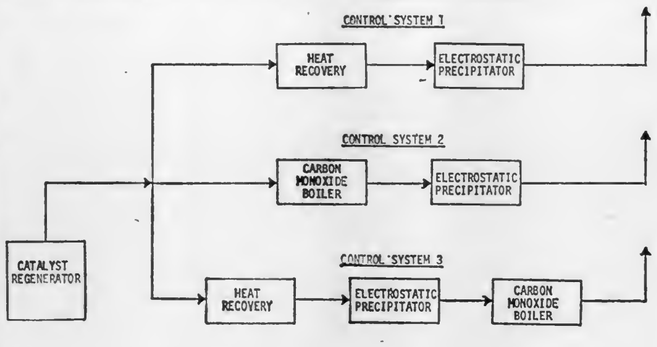

FIGURE 1. Alternative Emission Control Systems

Another factor which influences opacity, but not particulate emissions (in terms of the emission standard), is stack diameter. Generally, the larger the size of a fluid catalytic cracking unit, the larger the stack diameter. Facility A is about 50,000 barrels per day. Although the size of fluid catalytic cracking units may vary from 5,000 to 95,000 barrels per day, the typical facility within the petroleum refining industry is in the range of 25,000 to 50,000 barrels per day. The influence of this wide range in the size of fluid catalytic cracking units on opacity of the gases discharged from the catalyst regenerator can be calculated using Bouguer's Law. With particulate emissions of 1.0 kilogram per 1000 kilograms of coke burn-off, the opacity varies from as little as 10 percent for the smallest units (5,000 barrels per day) to as much as 40 percent for the largest units (95,000 barrels per day).

New fluid catalytic cracking units, however, are expected to be in the range of 25,000 to 50,000 barrels per day. Currently, there is only one 95,000 barrels-per-day unit, and only a few larger than 50,000 barrels per day. The proposed revision of the opacity standard, therefore, is based on the largest new fluid catalytic cracking unit that is likely to be built (i.e. 50,000 barrels per day). If fluid catalytic cracking units larger than

50,000 barrels per day are built, or existing units are modified or reconstructed, and these facilities have trouble meeting the proposed revised opacity standard, relief can be obtained through the mechanism of § 60.11(e).

At most fluid catalytic cracking units, carbon monoxide emissions are controlled by carbon monoxide boilers. Periodically, the boiler tubes require soot blowing to remove dust or soot deposited on these tubes. Soot blowing increases the opacity of the plume from the catalyst regenerator dramatically, although only momentarily. Rather than increase the level of the opacity standard to include soot blowing, therefore, it is more appropriate to provide an exemption from the standard. The opacity data indicate that an exemption of two six-minute average opacity readings per hour is necessary to permit soot blowing. Thus, an exemption for soot blowing is included in the proposed revision to the opacity standard.

It should be noted that standards of performance for new sources established under section 111 of the Clean Air Act reflect emission limits achievable with the best adequately demonstrated systems of emission reduction considering the cost of such system. State implementation plans (SIP's) approved or promulgated under section 110 of the Act, on the other hand, must provide for the attainment and maintenance of national ambient air quality standards (NAAQS) designed to protect public health and welfare. For that purpose SIP's must in some cases require greater emission reductions than those required by standards of performance for new sources. In addition, States are free under section 116 of the Act to establish more stringent emission limits than those established under section 111 or thos necessary to attain or maintain the NAAQS under section 110. Thus, new and existing sources may in some cases be subject to limitations more stringent than EPA's standards of performance under section 111.

PUBLIC PARTICIPATION

Interested persons may participate in this proposed rulemaking by submitting written comments (in triplicate) to the Emission Standards and Engineering Division, U.S. Environmental Protection Agency, Research Triangle Park, North Carolina 27711, Attention: Mr. Don R. Goodwin. The Administrator will welcome comments on all aspects of the proposed revision.

All relevant comments received on or before October 29, 1976 will be considered. Comments received will be available for public inspection and copying at the EPA Public Information Reference Unit, Room 2922 (EPA Library), 401 M Street, S.W., Washington, D.C.

Background information on this proposed revision of the opacity standard for petroleum refinery fluid catalytic cracking unit catalyst regenerators has been published in a document "Reevaluation of Opacity Standards of Performance: Petroleum Refinery Fluid Catalytic Cracking Unit Catalyst Regenerators." Copies of this document may be obtained by writing to the Public Information Center (PM-215), U.S. Environmental Protection Agency, Washington, D.C. 20460 (specify Reevaluation of Opacity Standards of Performance: Petroleum Refinery Fluid Catalytic Cracking Unit Catalyst Regenerators).

AUTHORITY

This notice of proposed rulemaking is issued under authority of sections 111, 114, and 301(a) of the Clean Air Act, as amended by section 4(a) of Public Law 91-604, 84 Stat. 1678 and by section 15(c)(2) of Public Law 91-604, 84 Stat. 1713 (42 U.S.C. 1857c-6, 1857c-9, and 1857g(a)).

Dated: August 19, 1976.

RUSSELL E. TRAIN,
Administrator.

It is proposed to amend Part 60, Chapter I of Title 40 of the Code of Federal Regulations as follows:

1. Section 60.102(a)(2) is revised to read as follows:

§ 60.102 Standard for particulate matter.

(a) * * *

(2) Gases exhibiting greater than 25 percent opacity, except for two six-minute average opacity readings in any one hour. Where the presence of uncombined water is the only reason for failure to meet the requirements of this subparagraph, such failure shall not be a violation of this section.

* * * * * *

2. Section 60.105(e)(1) is revised to read as follows:

§ 60.105 Emission monitoring.

* * * * * *

(e) * * *

(1) *Opacity.* All hourly periods in which there are three or more six-minute average opacity readings during which the average opacity of the gases discharged into the atmosphere from any fluid catalytic cracking unit catalyst regenerator subject to § 60.102 exceeds 25 percent.

* * * * * *

PART IV:

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of Assistant Secretary for Housing—Federal Housing Commissioner

■

MUTUAL MORTGAGE INSURANCE

Servicing Requirements

V41I169
AUG 30 76
UMI

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of Assistant Secretary for Housing—Federal Housing Commissioner

[24 CFR Part 203]

[Docket No. R–76–406]

MUTUAL MORTGAGE INSURANCE

Servicing Requirements

Notice is hereby given that the Secretary of Housing and Urban Development proposes to amend the regulations appearing in Part 203 of Chapter II of 24 CFR concerning Mutual Mortgage Insurance and Insured Home Improvement Loans to update these regulations and include therein certain mortgage servicing requirements. With minor exceptions all of these proposed changes reflect existing requirements developed over the course of years which heretofore have been set forth in HUD notices and handbooks without any corresponding revision of the program regulations. These proposed amendments would update some provisions of the regulations and establish a new Subpart C devoted to mortgage servicing concerns.

The numbering of the following discussion of the changes made by the proposed amendments corresponds to the paragraphs of the proposed amendments.

1. The table of sections for Part 203 of Chapter II of 24 CFR is modified to reflect certain changes in Subparts A and B and list the contents of the Subpart C on mortgage servicing.

2. Section 203.7 is amended to add as an additional basis for the withdrawal of mortgagee approval the breach of duties imposed by or the violation of prohibitions contained in any section of Part 203. This clarification of the existing rule is proposed in order to make mortgagees more clearly aware of the conduct expected of them and the availability of the sanction of withdrawal of mortgagee approval to deal with those whose conduct does not measure up to appropriate standards. It is proposed to make this clarification effective thirty days following publication of the final rule.

3. The substance of § 203.9 on mortgage servicing will be treated in Subpart C. See §§ 203.500(b), 203.502 and 203.604(a), for the disposition of the substance of § 203.9. A new § 203.9 dealing with approval requirements as to staffing and facilities is derived in part from Paragraph 5 of HUD Handbook 4191.1, "Administration of Insured Home Mortgagees," hereinafter "Handbook".

4. Section 203.23 dealing with the monthly charges to be paid by the mortgagor would be amended to protect against charging mortgagors with the premium for insurance which is solely for the benefit of the mortgagees. This requirement is currently stated in Paragraph 28 of HUD Handbook 4191.1.

5. Section 203.25 would be amended to increase the late charge from two to four per cent. While a late charge would not be deductible from the initial installment payment to which it is attributable, such a charge would be collectible by deduction from subsequent payments as provided in Section 203.554 of the regulations as amended. The increase in the amount of the late charge which can be provided for in future mortgages is intended to cover the increased expenses involved in collecting and handling delinquent payments. Increased charges will also encourage prompt payment and bring these charges in line with those obtaining in certain conventional and VA loans.

6. Section 10 of the Real Estate Settlement Procedures Act, 12 U.S.C. 2609, now governs advance deposits in escrow accounts. Section 203.26 of the regulations would be amended to make that Section consistent with RESPA particularly as the regulation is applied in jurisdictions where taxes are collected the year following the tax year.

7. Subpart B of the regulations constitutes the insurance contract between the mortgagee and HUD. The seventh amendment would make a technical correction consistent with this arrangement of the regulations.

8. Section 203.261 on calculation of the annual mortgage insurance premium is amended to add the substance of the last sentence of § 203.345. The remaining provisions of that Section are being moved to § 203.610 in Subpart C.

9. Section 203.330 would be amended to change its caption from "Definition of default" to "Delinquency and default" and to provide that a mortgage account is delinquent any time a payment is due and not paid. See Paragraph 102a of the Handbook.

10. Section 203.332 would be amended to conform to the installation of HUD's new Single Family Default and monitoring System. The caption would be amended consistent with the delinquency reporting provided for.

11. Section 203.333 on reinstatement of defaulted mortgages would be deleted from Subpart B as this subject will be dealt with in § 203.608 in Subpart C.

12. Sections 203.340 and 203.342 on conditions of special forebearance relief and recasting of mortgages would be deleted from Subpart B as the substance thereof will be included in §§ 203.614 and 203.616, in Subpart C.

13. Section 203.341 would be redesignated as Section 203.402a under the heading of "Payment of Insurance Benefits", a more appropriate location for this rule. The first sentence has been modified to cross reference § 203.614 on "Conditions of Special Forbearance" in Subpart C.

14. A new § 203.343 would be added dealing with the release, addition or substitution of security. These regulatory materials are now found in Paragraphs 45 and 47 of the Handbook.

15. Sections 203.345, 203.346 and 203.350 would be deleted from Subpart B as forbearance relief for military personnel would be treated in § 203.610 in Subpart C. Section 203.350a would be renumbered 203.350 and modified to refer to the provisions of Subpart C dealing with assignments of mortgages to the Secretary.

16. Section 203.355 on acquisition of mortgaged property would be amended to include requirements now found in Paragraphs 141 and 142 of the Handbook.

17. Section 203.375 would be renumbered 203.378 and a new § 203.377 would be added to set forth the duty of mortgagees to take appropriate action to inspect, protect and preserve vacant and abandoned properties. Compare Paragraphs 112 and 145 of the Handbook.

18. A new sentence would be added to § 203.375(b), redesignated as 203.378(b), to avoid any inconsistency with § 203.377 concerning the responsibility of mortgagees with respect to damage to or destruction of security properties. Fiscal responsibility would apply prospectively.

19. The section heading and first sentence of § 203.379 on adjustment for fire, flood, earthquake or tornado damage, would be amended to make this section consistent with §§ 203.377 and 203.378 as they would be added and amended respectively.

20. Paragraph (b)(3) of § 203.379 would be amended to update its language and to include requirements now contained in Paragraph 29 of the Handbook.

21. The first sentence of § 203.380 on certificate of property condition would be adjusted to require that the mortgagee's certification as to the condition of security property, when the property is transferred to HUD or the mortgage is assigned to HUD, include the condition of property which was damaged due to its failure to exercise the precautions required by § 203.377 on a prospective basis. Alternatively a copy of HUD's authorization to convey the property in damaged condition could be furnished.

22. A new paragraph (o) would be added to § 203.389 on waived title objections to deal with outstanding Federal Tax liens and associated rights of redemption. Compare Paragraph 144c of the Handbook.

23. Section 203.402(f) would be amended by adding a sentence making it clear that eviction costs are reimbursable in the insurance settlement. Compare Paragraph 145(a)(1) of the Handbook. Paragraph (g) would authorize reimbursement for reasonable costs of inspections required by § 203.377.

24. Amendment 22 would add a new Subpart C on mortgage servicing responsibilities to Part 203 of 24 CFR. The derivation or purpose of these Subpart C provisions is explained in succeeding subparagraphs.

a. Section 203.500(a) on mortgage servicing generally is taken from the first sentence of § 203.9 of the current regulations with the addition of a reference to the servicing requirements of Subpart C. Paragraphs (b), (c) and (d) dealing with servicing staff and the education of borrowers or mortgagors reiterate existing requirements found in Paragraphs 5 and 6 of the Handbook.

b. Section 203.502 sets forth existing practice with respect to the utilization of mortgage servicers. This Section restates requirements currently found in Paragraphs 3 and 4 of the Handbook and in Mortgagee Letter 75–10.

c. Section 203.506 dealing with assumption with or without the release of the mortgagor sets forth the mortgagees authority to release a mortgagor and related notice requirements. Compare Paragraph 94 of the Handbook.

d. Section 203.508 concerns the obligation of an insured mortgagee to provide information. See Mortgagee Letter 75–10.

e. Section 203.510 makes clear the mortgagee's obligation to inspect, protect and preserve vacant and abandoned security property regardless of the date on which the relevant loans were insured.

f. Section 203.550 dealing with escrow accounts includes requirements now found in Paragraphs 21 through 27 of the Handbook.

g. Section 203.552 on fees and charges after endorsement is derived from Paragraphs 61–62 and 64–71 of the Handbook.

h. Section 203.554 would direct that a mortgagee not institute foreclosure when the only default on the part of a mortgagor is his failure to pay a late charge or charges. A late charge would not be deductible from the installment to which the late charge is attributable. However, it could be collected by deduction from a subsequent installment or installments if the mortgagee gives notice as provided therein that the late charge is due and if this is not inconsistent with the terms of the mortgage.

i. Section 203.556 is derived primarily from Mortgagee Letter 75–10 with respect to the handling of partial payments. Adjustment has been made for the deduction of late charges as provided in § 203.554 but with the provision that the mortgagee not return or initiate foreclosure on account of payments which are rendered partial payments solely because of the deduction of late charges.

j. Section 203.558 includes instructions covering the handling of partial prepayments. See Paragraph 81 of the Handbook.

k. Section 203.600 on collecting mortgagee accounts follows Paragraphs 101 and 104 of the Handbook.

l. Section 203.602 imposes a definite duty upon mortgagees to furnish defaulting mortgagors a delinquency notice as a minimum notice requirement. Compare Paragraph 107c of the Handbook and the revised form of notice provided with Mortgagee Letter 75–10.

m. Section 203.604, which is taken primarily from Paragraph 107 of the Handbook and Paragraph 4b of Mortgagee Letter 75–10, specifies the actions which the mortgagee must take to contact the delinquent mortgagor and have a face-to-face meeting with him if possible.

n. Section 203.606 on pre-foreclosure review, which is added for the protection of mortgagors, restates the substance of Mortgagee Letter 75–10 and Paragraph 110 of the Handbook.

o. Section 203.608 incorporates requirements of Mortgagee Letter 75–10 with respect to reinstatement.

p. Section 203.610 on relief for mortgagor in military service reiterates the substance of Section 203.345 and that part of § 203.346, which would be eliminated from Subpart B.

q. Section 203.612 entitled "Forbearance by the mortgagee" is derived in part from Mortgagee Letter 75–10 and Paragraph 110 of the Handbook.

r. Section 203.614 on "Conditions for Special Forbearance" is derived from § 203.340 which would be deleted from Subpart B.

s. Section 203.616 on recasting is derived from § 203.342 now in Subpart B.

t. Sections 203.650 through 203.662 are taken from HUD's HM Mortgagee Letter 76–9 dated May 17, 1976 and HUD's HM Notice 76–43 dated the same date. Section 203.650 generally states that the Secretary will accept assignments of mortgages in order to avoid foreclosure under the conditions set forth in succeeding sections. Section 203.652 identifies Mortgages which are ineligible for such assignment. Section 203.654 defines the criteria which must be met for a mortgage to be eligible for assignment to HUD under this special program. Section 203.656 specifies when the mortgagor must be given notice by the mortgagee in connection with the assignment program. Section 203.658 outlines procedures for mortgagor applications to HUD when mortgagees do not request that HUD accept assignments under this forbearance program. Section 203.660 outlines requirements with respect to scheduling a conference involving HUD and defaulting mortgagors and the availability of records for examination. Ground rules for the conference are spelled out and provision is made for notifying the mortgagor of the results of the conference. Section 203.662 outlines the cooperation required of mortgagees in connection with the implementation of the assignment program.

u. Section 203.700 would make Subpart C effective thirty days following publication of a final rule in the FEDERAL REGISTER. Most of the requirements of this Subpart are already effective although not in rule form. While the failure of mortgagees to observe the requirements of Subpart C will not result in denial of their mortgage insurance claims, it is important that proper mortgage servicing standards be observed. Failure to observe such standards can be considered in conjunction with the possible withdrawal of approval of mortgagees. See § 203.7 discussed above.

Consideration has been given to the measures which can be taken to enforce mortgage servicing requirements. The strengthening of the sanction of withdrawal of mortgagee approval is the first line of approach to assuring mortgagee compliance with these regulations. As just noted, this strengthened sanction would be applied almost immediately. The sanction of requiring repair or the pro tanto denial of insurance claims for failure to inspect, protect and repair provided by §§ 203.277 through 203.279 would be applicable with respect to properties on which mortgages are insured or commitments to insure are issued after the effective date of these regulations. This specific sanction could not be made effective immediately because of Constitutional constraints. However, failure to properly inspect, protect and repair vacant and abandoned properties would be a factor which could be considered in connection with the possible withdrawal of mortgagee approval on an almost immediate basis. These sanctions should provide for substantially improved mortgage servicing performance by those mortgagees who do not already freely and voluntarily observe the standards set forth in the regulations as they would be modified by these proposed amendments.

Interested persons may participate in this rule making by submitting written data, views or arguments to the Rules Docket Clerk, Office of the Secretary, Room 10141, Department of Housing and Urban Development, 451 7th Street, SW., Washington, D.C. 20410. Each person submitting a comment should include his name and address and refer to this document by the docket number indicated in the heading and give reasons for any recommendation. Comments received by October 1, 1976, will be considered before final action is taken on this proposal. Copies of all written comments received will be available for examination by interested persons in the Office of the Rules Docket Clerk at the address listed above. The proposal may be changed in the light of the comments received.

The Department has determined that an Environmental Impact Statement is not required wtih respect to this rule. A copy of the Finding of Inapplicability is available for inspection at the above address.

It is hereby certified that the economic and inflationary impacts of this proposed rule have been carefully evaluated in accordance with OMB Circular A–107.

Accordingly, the Secretary of Housing and Urban Development proposes to amend Part 203, of Chapter II of 24 CFR as follows:

1. The table of sections for Part 203 of Chapter II is amended in the following respects:

(a) Sections 203.333, 203.340, 203.341, 203.342, 203.345, 203.346, 203.350a, and 203.375, and the centered caption preceding § 203.345 are deleted.

(b) The following sections are retitled as shown:

Sec.	
203.9	Staffing and facilities.
203.330	Delinquency and default.
203.332	Notice of delinquency.
203.350	Assignment of defaulted mortgage.
203.377	Inspection and preservation of properties.
203.378	Property condition.
203.379	Adjustment for damage or neglect.
203.402a	Reimbursement for uncollected interest.

(c) A new section 203.343 is added as follows:

Sec.	
203.343	Partial release, addition or substitution of security.

2. Section 203.7 is amended by redesignating paragraph (a)(7) as (a)(8) add-

V 41169
AUG 30 76
UMI

ing a new paragraph (a)(7) and paragraph ( ) to read as follows:

§ 203.7 Withdrawal of approval.

(a) * * *

(7) The breach of duties imposed by or the violation of prohibitions contained in this Part.

* * * * * *

(c) Notwithstanding § 203.249 of this Subpart, Paragraph (a)(7) of this section shall be effective thirty days from the publication of this amendment.

3. Section 203.9 is revised to read:

§ 203.9 Staffing and facilities.

Mortgagees shall have or arrange for adequate staff and facilities with trained personnel competent in all aspects of mortgage lending activities, including underwriting, servicing and field collection activities.

4. Section 203.23 is amended by redesignating paragraph (b) as paragraph (c) and by inserting a new paragraph (b) reading as follows:

§ 203.23 Mortgagor's payments to include other charges.

* * * * * *

(b) The mortgagor shall not be required to pay premiums for fire or other hazard insurancee which protects only the interests of the mortgagee or for life or disability income insurance or fees charged for the furnishing of information necessary for payment of property taxes.

* * * * * *

5. Section 203.25 is revised to read:

§ 203.25 Late charge.

The mortgage may provide for the collection by the mortgagee of a late charge, not to exceed four per cent of the amount of each payment more than 15 days in arrears, to cover the extra expense involved in collecting and handling delinquent payments and as an incentive for timely payment.

6. Section 203.26 is revised to read as follows:

§ 203.26 Mortgagor's payments when mortgage is executed.

The mortgagor must pay to the mortgagee, upon execution of the mortgage, a sum that will be sufficient to pay the ground rents, if any, the estimated taxes, special assessments, flood insurance premiums, if required, and fire and other hazard insurance premiums for the period beginning on the last date on which each such charge would have been paid under the normal lending practices of the lender and local custom (if each such date constitutes prudent lending practice), and ending on the due date of the first full installment payment under the mortgage, plus an amount sufficient to pay the mortgage insurance premium from the date of closing the loan to the date of the first monthly payment under the mortgage. The mortgagee may also collect from the mortgagor a sum not exceeding one-sixth of the estimated total amount of such taxes, special assessments, insurance premiums and other charges to be paid during the ensuing 12 month period.

§§ 203.251 and 203.257 [Amended]

7. Sections 203.251(j) and 203.257 are amended by changing the words "part" therein to read "Subpart".

8. Section 203.261 is amended to add the following sentence at the end thereof:

§ 203.261 Calculation of MIP.

* * * A written agreement to postpone payments during the military service of the mortgagor (§ 203.610) will in no way affect the amount of the annual MIP which will continue to be calculated in accordance with the original amortization provisions of the mortgage.

9. Section 203.330 is revised to read:

§ 203.330 Delinquency and default.

A mortgage account is delinquent any time a payment is due and not paid. If the mortgagor fails to make any payment, or to perform any other obligation under the mortgage, and such failure continues for a period of 30 days, the mortgage shall be considered in default for the purposes of this Part.

10. Section 203.332 is to read:

§ 203.332 Notice of delinquency.

Once each month the mortgagee shall report or cause to be reported all mortgages insured under this part which are 90 or more days delinquent and concerning the status of all mortgages which were reported as 90 or more days delinquent the previous month. Such reports shall be made on a form approved by the Commissioner.

§ 203.333 [Removed]

11. Section 203.333 is hereby deleted from Subpart B.

§§ 203.340 and 203.342 [Removed]

12. Sections 203.340 and 203.342 and the caption "Special Forbearance Relief" immediately preceding § 203.340 are hereby deleted from Subpart B.

13. A new § 203.343 is added reading as follows:

§ 203.343 Partial release, addition or substitution of security.

(a) Except as provided in § 203.389(n), a mortgagee shall not release the security, or any part thereof, wthout the prior consent of the Commissioner.

(b) A mortgagee may, with the prior consent of the Commissioner, accept an addition to, or substitution of, security for the purpose of removing the dwelling to a new lot under the following conditions:

(1) The mortgagee obtain a good and valid first lien on the property to which the dwelling is removed.

(2) All damages to the structure are repaired without cost to HUD.

(3) The property to which the dwelling is removed is in an area known to be reasonably free from natural hazards or, if in a flood zone, the mortgagor will insure or reinsure under the Federal Flood Insurance Program.

(c) A mortgagee may, without the prior consent of the Commissioner, accept an addition to, or substitution of, security for the purpose of removing the dwelling to a new lot under the following conditions.

(1) The dwelling has survived an earthquake or other disaster with little damage, but continued location on the property might be hazardous.

(2) The mortgagee reasonably believes that the conditions stated in paragraph (b) of this section exist.

(3) Immediately following the emergency removal the mortgagee notifies the Commissioner of the reasons for removal.

§§ 203.345, 203.346, and 203.350 [Removed]

14. §§ 203.345, 203.346 and 203.350 and the caption "Forbearance Relief for Military Personnel" preceding § 203.345 are deleted from Subpart B.

15. Section 203.350a is redesignated as § 203.350 and amended to read:

§ 203.350 Assignment of defaulted mortgage.

When the assignment of a defaulted mortgage to the Commissioner is accomplished pursuant to § 203.650 the mortgagee shall file the assignment of the mortgage to the Commissioner for record within 30 days of the Commissioner's written approval of such assignment.

16. Section 203.355 is revised to read:

§ 203.355 Acquisition of property.

The mortgagee shall take prompt action to acquire the mortgaged property when the mortgagor has defaulted and either cannot or will not resume and complete payments. In any event, one of the following actions shall be taken by the mortgagee within one year from the date of default, or within such additional period of time as may be approved by the Secretary or authorized by §§ 203.610 or 203.662(d).

(a) The mortgagee shall obtain a deed in lieu of foreclosure (see §§ 203.357, 203.389 and 203.402(f)) with title being taken in the name of the mortgagee or the Secretary:

(b) The mortgagee shall commence foreclosure; or

(c) If the laws of the State in which the mortgaged property is situated do not permit the commencement of foreclosure within one year from the date of default, the mortgagee shall commence foreclosure within sixty days after the expiration of the time during which such foreclosure is prohibited by such laws.

17. Section 203.377 is added as follows:

§ 203.377 Inspection and preservation of properties.

The mortgagee shall arrange for the periodic inspection of security properties which may be vacated or abandoned, if the loans thereon, which are insured under this Part, are in default. The mortgagee shall protect and preserve vacated or abandoned security properties until their conveyance to the Commissioner if such action does not constitute an illegal trespass.

18. Section 203.375 is redesignated as § 203.378 and paragraph (b) is amended by adding the following sentence at the end thereof.

§ 203.378 Property condition.

* * * * * *

(b) * * * However, the mortgagee shall be responsible for damage to or destruction of security properties on which the loans insured under this Part are in default and which properties are vacated or abandoned if the mortgagee fails to take action as required by § 203.377, as to all mortgages insured or for which commitments to insure are issued on and after ( ).

19. The section heading and the introductory text of § 203.379 are amended to read:

§ 203.379 Adjustment for damage or neglect.

If the security property has been damaged by fire, flood, earthquake, or tornado, or as to mortgages insured or for which commitments to insure are issued on or after , has suffered damage due to failure of the mortgagee to take action as required by § 203.377, such damage shall be repaired prior to conveyance of the property to the Secretary, except in the following instances:

* * * * * *

20. Paragraph (b)(3) of § 203.379 is amended to:

(a) Insert the words "including coverage under the FAIR Plan" after the words "competitive rates" in the last sentence, and

(b) Add the following additional language at the end thereof: A "reasonable rate" is a rate not more than 25 percent in excess of the rate or the advisory rate filed or used by the principal rating organization doing business in the State. When hazard insurance coverage has been cancelled or renewal has been refused after the mortgage is insured, and other hazard insurance coverage cannot be obtained in an amount equal to the unpaid principal balance of the loan but insurance can be obtained in a reduced amount from a FAIR Plan or another insurance carrier, the Commissioner will accept the reduced coverage without reduction of mortgage insurance benefits, if the rates do not exceed the guidelines stated herein. If coverage in any amount is only available at rates in excess of a reasonable rate as defined herein, the mortgagor shall be given the option of purchasing such coverage. If coverage is purchased, the amount of any claim for insurance benefits under this Part shall be reduced by the amount of any recovery of hazard insurance benefits.

21. The first first sentence of § 203.380 is amended to read:

§ 203.380 Certificate of property condition.

The mortgagee shall either certify that as of the date of the filing of deed for record, or assignment of the mortgage to the Commissioner, the property was (a) undamaged by fire, flood, earthquake, or tornado, and (b) as to mortgages insured or for which commitments to insure are issued on or after ----------, undamaged, due to failure of the mortgagee to take action as required by § 203.377, or its claim shall be accompanied by a copy of the Commissioner's authorization to convey the property in damaged condition. * * *

22. Section 203.389 is amended by adding a new paragraph (o) at the end thereof as follows:

§ 203.389 Waived title objections.

* * * * * *

(o) Federal Tax liens and rights of redemption arising therefrom if the following conditions are observed. If the mortgagee acquires the property by foreclosure the mortgagee shall give notice to the Internal Revenue Service (IRS) of the foreclosure action. The Commissioner will not object to an outstanding right of redemption in IRS if (1) the Federal tax lien was perfected subsequent to the date of the mortgage lien, and (2) the mortgagee has bid an amount sufficient to make the mortgagee whole if the property is in fact redeemed by the IRS.

23. Section 203.402 is amended by adding sentences at the end of paragraphs (f) and (g) to read as follows:

§ 203.402 Items included in payment—conveyed properties.

* * * * * *

(f) * * * Reasonable costs incurred in evicting occupants and the removing of personal property from acquired properties are considered to be foreclosure costs. Costs of acquiring the property otherwise than by foreclosure may include not to exceed $200 paid to the mortgagors as consideration for their execution of a deed in lieu of foreclosure.

(g) * * * Reasonable costs for performing the inspections required by § 203.377 are considered to be costs of protecting, operating or preserving the property.

* * * * * *

24. Section 203.341 is redesignated as § 203.402a and the first sentence thereof is amended to read:

§ 203.402a Reimbursement for uncollected interest.

The mortgagee shall be entitled to receive an allowance in the insurance settlement for unpaid mortgage interest, if the mortgagor fails to meet the requirements of a forbearance agreement entered into pursuant to § 203.614 and such failure continues for a period of 60 days. * * *

25. Subpart C is added to Part 203 to read as follows:

Subpart C—Servicing Responsibilities

GENERAL REQUIREMENTS

Sec.
203.500 Mortgage servicing generally.
203.502 Responsibility for servicing.
203.506 Assumption with or without release of mortgagor.
203.508 Providing information.
203.510 Care of properties.

PAYMENTS, CHARGES AND ACCOUNTS

203.550 Escrow accounts.
203.552 Fees and charges after endorsement.
203.554 Enforcement of late charges.
203.556 Return of partial payments.
203.558 Handling irregular prepayments.

MORTGAGEE ACTION AND FORBEARANCE

203.600 Mortgage collection action.
203.602 Delinquency notice to mortgagor.
203.604 Contact with the mortgagor.
203.606 Pre-foreclosure review.
203.608 Reinstatement.
203.610 Relief for mortgagor in military service.
203.612 Forbearance by the mortgagor.
203.614 Conditions of special forbearance.
203.616 Recasting of mortgage.

ASSIGNMENTS TO HUD FOR FORBEARANCE

203.650 Assignments to HUD for forbearance—generally.
203.652 Mortgages ineligible for assignment.
203.654 Mortgages eligible for assignment to HUD.
203.656 Notice to mortgagor.
203.658 Mortgagor's request that HUD accept assignment.
203.660 Mortgagor's conference with HUD.
203.662 Cooperation of mortgagees in assignment program.

AUTHORITY: Sections 203, 211 of the National Housing Act, as amended, 12 U.S.C. 1709, 1715b; Section 7(d) of the Department of HUD ACT, (42 U.S.C. 3535(d)).

Subpart C—Servicing Responsibilities

GENERAL REQUIREMENTS

§ 203.500 Mortgage servicing generally.

(a) This Subpart identifies servicing practices which the Secretary considers acceptable mortgage servicing practices of prudent lending institutions. Failure to comply with the provisions of this Subpart or instructions of the Secretary issued pursuant to this Subpart shall not be a basis for defense to foreclosure or ground for denial of the payment of insurance benefits but may be cause for withdrawal of a mortgagee's approval.

(b) All approved mortgagees are required to service insured loans in accordance with acceptable mortgage servicing practices of prudent lending institutions and in accordance with this Part.

(c) Mortgagees shall provide competent and aggressive servicing to reduce the number of defaults and required foreclosures.

(d) Mortgagees shall develop effective means of educating borrowers, including through face-to-face discussions, as early as the initial closing.

(e) Mortgagees shall develop and utilize effective controls to assure compliance with the fiscal requirements of the Secretary for the payment of fees and premiums, reporting sales of mortgages and transfers of servicing, reporting

V 41 169 AUG 30 76 UMI

mortgage terminations and filing claims for insurance benefits.

§ 203.502 Responsibility for servicing.

(a) A mortgagee may utilize any individual or firm to service its Secretary-insured mortgage loans. However, the servicer employed must fully discharge the servicing responsibilities of the mortgagee as outlined in this Part. The Mortgagee shall remain fully responsible to the Secretary for proper servicing and the actions of its servicer shall be considered to be the actions of the mortgagee. If the servicer is an approved mortgagee, it shall also be fully responsible to the Secretary for its acts as a servicers as though it were the mortgagee, except to the extent that it acts in accordance with specific written instructions from the mortgagee.

(b) Whenever servicing of any mortgage is transferred from one mortgagee or servicer to another, or the mortgage is assigned to another, the mortgagee effecting the transfer or assignment shall notify or arrange to notify the mortgagor in advance of the transfer. The notification shall provide the mortgagor with the name, address and telephone number of the new servicer or mortgagee and include any special instructions for the handling of payments during the conversion period. Notification pursuant to this Paragraph must be mailed to reach the mortgagor no later than ten days prior to the due date of the first payment due the new servicer or mortgagee. The mortgagee effecting the transfer or assignment shall also notify the Secretary within thirty days thereof on a form approved by the Secretary.

§ 203.506 Assumption with or without release of mortgagor.

The mortgagee may effect the release of a mortgagor while retaining the benefits of insurance under this Part if it obtains the Secretary's approval of the substitute mortgagor (assumptor). If the mortgagee wishes to have further notices of annual mortgage insurance premiums reflect the name of the substitute mortgagor (assumptor), whether or not there is a release of the prior mortgagor, the mortgagee shall give notice to the Secretary on a form approved by the Secretary within thirty days of the record change.

§ 203.508 Providing information.

(a) Mortgagees shall provide loan information to mortgagors on request and arrange for individual loan consultation. The mortgagee must establish written procedures and controls to assure prompt responses to inquiries. One or more of the following means of making information readily available to mortgagors is required:

(1) An office staffed with competent personnel located in the area of the property, capable of providing timely responses to requests for information. Complete records need not be maintained in such an office if the staff is able to secure needed information and pass it on to the mortgagor.

(2) Toll-free telephone service, including WATS service, or acceptance of collect telephone calls from mortgagors, at an office capable of providing needed information.

All mortgagors must be informed of the system available for obtaining answers to loan inquiries, the office from which needed information may be obtained and reminded of the system at least annually. The mortgagee need not accept collect telephone calls from a mortgagor other than at the office designated to serve the mortgagor nor from points more distant than the security property.

(b) Mortgagees shall furnish an adequate statement of the interest paid and taxes disbursed from the escrow account on a timely basis each year to aid the mortgagor in filing income tax returns. At the mortgagor's request, the mortgagee shall furnish a statement of the escrow account sufficient to enable the mortgagor to reconcile the account.

(c) Mortgagees must respond to HUD requests for information concerning individual accounts on request.

§ 203.510 Care of properties.

Failure of the mortgagee to inspect, protect and preserve a vacated or abandoned security property on which the loan is in default (§ 203.377) shall be considered as one of the bases for withdrawal of mortgagee approval pursuant to § 203.7 regardless of the date upon which the loan for such property was insured by the Secretary.

PAYMENTS, CHARGES AND ACCOUNTS

§ 203.550 Escrow accounts.

(a) Mortgagees shall establish escrow accounts to assure timely payments in accordance with § 203.24. If the lender is a non-supervised mortgagee, escrow funds shall be deposited in a special account or accounts in a bank whose deposits are insured by the FDIC or in a savings and loan association whose deposits are insured by the FSLIC. As a part of the loan closing the mortgagee shall establish an adequate accrual amount for each escrow item which will be payable from the escrow fund.

(b) An escrow fund shall be used only for the payment of the expenses for which the fund was established and no other. It is the mortgagee's responsibility to make escrow disbursements as bills become payable. Mortgagees must establish controls to insure that bills are received on a timely basis. Penalties for late payments for items payable from the escrow account must not be charged to the mortgagor unless it can be shown that the penalty was the direct result of the mortgagor's error or omission. Early payment of bills to take advantage of discounts should be made whenever it is to the mortgagor's benefit, if escrow funds are available.

(c) Not later than the end of the second loan year the mortgagee shall establish a system for the periodic analysis of the escrow account which analysis shall be accomplished at least once a year thereafter. The monthly escrow payment shall be adjusted, after analysis, to provide a sufficient accumulation of escrow funds to make anticipated disbursements during the ensuing year. The mortgagor shall be given at least ten days notice of adjustment in monthly payments and an adequate explanation of the reasons for any change.

(d) The mortgagee's estimate of escrow requirements shall be based on the best information available as to probable payments which will be required to be made from the account in the coming year. If actual disbursements during the preceding year are used as the basis, the resulting estimate may deviate from those disbursements by as much as ten percent. The mortgagee may maintain a continuing surplus of up to one-sixth of the current total annual requirement, but larger amounts shall not be held by the mortgagee unless expressly requested by the mortgagor. When the escrow account is analyzed in accordance with paragraph (c) of this section, any surplus or shortage shall be refunded to or collected from the mortgagor as provided for in the security instrument. If a surplus is to be refunded, application of the surplus to delinquent payments shall be considered as a cash refund to the mortgagor.

(e) The mortgagee shall not institute foreclosure when the only default of the noncorporate mortgagor is his present inability to pay a substantial accrual escrow shortage in a lump sum. When the contract of mortgage insurance is terminated voluntarily as, for example, in the case of prepayment in full, sums in the escrow account to pay the mortgage insurance premium shall be retained pending notice from the Secretary. Sums held in escrow for taxes and hazard insurance shall be released immediately.

§ 203.552 Fees and charges after endorsement.

(a) The mortgagee may collect reasonable and customary fees and charges from the mortgagor after insurance endorsement only as follows:

(1) Late charges as set forth in § 203.25;

(2) Charges for processing or reprocessing a check returned as uncollectible; (Where bank policy permits, the mortgagee must process a check a second time before assessing a bad check charge.);

(3) Fees for recording a change of ownership of the mortgaged property;

(4) Fees and charges for arranging a substitution of liability under the mortgage in connection with the sale or transfer of the property;

(5) Charges for processing a request for credit approval of an assumptor or substitute mortgagor;

(6) Charges for substitution of a hazard insurance policy at other than the expiration of term of the existing hazard insurance policy;

(7) Charges for modification of the mortgage involving a recorded agreement for extension of term or reamortization;

(8) Fees and charges for processing partial release of the mortgaged property;

(9) Attorney's fee and expenses actually incurred when a case has been referred for foreclosure in accordance with the provisions of this Part after a firm decision to foreclose and foreclosure is not completed because of a reinstatement of the account; (No attorney's fee may be charged for the services of the mortgagee's or servicer's staff attorney or for the services of a collection attorney.)

(10) The service charge provided for by § 203.23(b) and escrow charges in accordance with § 203.23(a);

(11) A trustee's fee if the security instrument in deed-of-trust states provides for payment of such a fee when the deed of trust is paid in full; and

(12) Such other reasonable and customary charges as may be authorized by the Secretary. (This shall not include (i) charges for servicing activities of the mortgagee or servicer; (ii) fees charged by independent tax servicer organizations which contract to furnish data and information necessary for the payment of property taxes, (iii) "satisfaction," "termination," or "reconveyance" fees when a mortgage is paid in full, or (iv) the fee for recordation of a satisfaction of the mortgage in states where recordation is the responsibility of the mortgagee.)

(b) "Reasonable and customary" fees must be predicated upon the actual cost of the work performed including out-of-pocket expenses. Directors of HUD Area and Insuring Offices are authorized to establish maximum fees and charges which are reasonable and customary in their areas. Except as provided in this Part, no fee or charge shall be based on a percentage of either the face amount of the mortgage or the unpaid principal balance due on the mortgage.

§ 203.554 Enforcement of late charges.

A mortgagee shall not commence foreclosure when the only default on the part of the mortgagor is the failure to pay a late charge or charges (§ 203.25). A late charge attributable to a particular installment payment due under the mortgage shall not be deducted from that installment. However, if the mortgagee thereafter notifies the mortgagor of his obligation to pay a late charge, such a charge may be deducted from any subsequent payment or payments submitted by the mortgagor or on his behalf if this is not inconsistent with the terms of the mortgage. Partial payments shall be treated as provided in § 203.556.

§ 203.556 Return of partial payments.

(a) A partial payment is a payment of any amount less than the full amount due (including late charges authorized to be deducted in accordance with § 203.554) when the payment is tendered. If the mortgagee returns a partial payment before the account is in default (§ 203.330), the payment returned shall be accompanied by a letter of explanation. No payment which becomes a partial payment solely by virtue of the deduction of a late charge or charges therefrom as provided in § 203.554, shall be rejected or returned by the mortgagee. The mortgagee shall not initiate foreclosure action on account of a payment which is rendered a partial payment solely by virtue of the deduction of late charges. Foreclosure is initiated or commenced when the first action required for foreclosure under applicable law is undertaken.

(b) The mortgagee shall accept, identify with the mortgagor's account, and either apply or hold in a trust account for disposition any payment tendered on a mortgage account in default and before foreclosure action is commenced, if the payment aggregates 50 percent or more of the amount due, aside from late charges, unless (1) four or more monthly installments are due and unpaid, (2) there has been a continuing delinquency of any amount which has continued for at least six months since the account first became delinquent, or (3) a mortgagor submits less than the amount agreed to in a repayment plan. The foregoing requirement does not apply if the mortgagee knows that a tenant is paying rentals on the property and such rentals are not being applied to the mortgage payments.

(c) When partial payments accepted by the mortgagee for disposition aggregate a full monthly installment, they shall be applied to the mortgage account thus advancing the date of the oldest unpaid installment, but not the date on which the account first became delinquent.

(d) After foreclosure action has been commenced, the mortgagee is free to return any payment which represents less than the full amount due, including late charges, if the mortgagee has given advance written notice to the mortagor of the full amount due and the mortgagee's intention to return a payment which is less than the full amount due together with any late charges. Such advance notice must be mailed to the mortgagor at least fourteen days before the due date of the latest payment included in the statement of the full amount due. If the mortgagor thereafter continues to tender partial payments which are returned, the mortgagee shall maintain records of the amounts and the dates of both receipt and return of such payments.

§ 203.558 Handling irregular prepayments.

Notwithstanding the terms of the mortgage, the mortgagee may accept a prepayment at any time and in any amount so long as monthly interest on the debt is calculated on the actual unpaid principal balance of the loan as of the first date of the month. If a mortgagee will not accept a prepayment until the first day of the month following expiration of the thirty-day notice period (§ 203.22), unless interest is paid to that date, the mortgagee's response to the mortgagor's inquiry, request for pay-off figures, or tender must clearly advise the mortgagor of this fact. If the mortgagor's notice of intention to prepay or prepayment is required to be delivered on a nonworking day, the notice or prepayment shall be timely if delivered on the next working day.

MORTGAGEE ACTION AND FORBEARANCE

§ 203.600 Mortgage collection action.

Mortgagees shall take prompt action to collect amounts due from mortgagors to minimize the number of accounts in a delinquent or default status. Collection techniques must be adapted to individual differences in mortgagors and take account of the circumstances peculiar to each mortgagor.

§ 203.602 Delinquency notice to mortgagor.

The mortgagee shall give notice to each delinquent mortgagor on a form approved by the Secretary no later than the end of the second month of any delinquency in payments under the mortgage. If an account is reinstated and again becomes delinquent, the delinquency notice shall be sent to the mortgagor again, except that the mortgagee is not required to send a second delinquency notice to the same mortgagor more often than once each six months. The mortgagee may issue additional or more frequent notices of delinquency at its option.

§ 203.604 Contact with the mortgagor.

(a) The mortgagee shall be able to contact the mortgagor in the event of default. Contact with the mortgagor must be attempted as early as possible when there is a delinquency.

(b) The mortgagee must have a face-to-face interview with the mortgagor, or make a reasonable effort to arrange such a meeting, before three full monthly installments due on the mortgage are unpaid after application of any partial payments which have been accepted but not applied to the mortgage account. If default occurs in a repayment plan arranged other than during a personal interview, the mortgagee must have a face-to-face meeting with the mortgagor, or make a reasonable attempt to arrange such a meeting, within thirty days after such default and at least thirty days before foreclosure is commenced.

(c) A face-to-face meeting is not required if (1) the mortgagor does not reside within 200 miles of the mortgagee, its servicer, or a branch office of either, (2) the mortgagor has clearly indicated he will not cooperate in the interview, (3) a repayment plan consistent with the mortgagor's circumstances is entered into with the mortgagor to bring the mortgagor's account current thus making a meeting unnecessary, and payments thereunder are current, or (4) a reasonable effort to arrange a meeting is unsuccessful.

(d) A reasonable effort to arrange a face-to-face meeting with the mortgagor shall consist at a minimum of one letter sent to the mortgagor certified by the Postal Service as having been dispatched. Such a reasonable effort to arrange a face-to-face meeting shall also include at least one trip to see the mortgagor at

V 41 169 AUG 30 76 UMI

the mortgaged property or at the mortgagor's other place of residence, unless the mortgagor's residence is more than 200 miles from the mortgagee, its servicer, or a branch office of either.

§ 203.606 Pre-foreclosure review.

Foreclosure of a mortgage shall only be undertaken after the mortgagee or servicer has assured itself that the case has been handled in accordance with the servicing requirements outlined in Subpart C. The mortgagee shall not commence foreclosure unless at least three full monthly installments due on the mortgage are unpaid after application of any partial payments which may have been accepted but not yet applied to the mortgage account. No delay in the commencement of foreclosure is required if the mortgagee ascertains that the mortgaged property has been abandoned or the mortgagor has clearly stated that he has no intention of honoring his mortgage obligation.

§ 203.608 Reinstatement.

The mortgagee shall permit reinstatement of a mortgage, even after the institution of foreclosure proceedings, if the mortgagor tenders in a lump sum all amounts required to bring the account current, including foreclosure costs and reasonable attorney's fees properly associated with the foreclosure action, unless the mortgagee has accepted reinstatement after the institution of foreclosure proceedings within two years immediately preceding the commencement of the current foreclosure action. If the mortgage account is reinstated as provided in the preceding sentence, or notwithstanding the institution of foreclosure proceedings within two years immediately preceding the commencement of the current foreclosure action, the mortgage insurance shall continue as if a default had not occurred.

§ 203.610 Relief for mortgagor in military service.

(a) If the mortgagor is a person in the military service, as defined in the Soldiers' and Sailors' Civil Relief Act of 1940, as amended (50 U.S.C. App. 501–590), the mortgagee may, by written agreement with the mortgagor, postpone for the period of the mortgagor's military service and for three months thereafter any part of the monthly payments which represents amortization of the principal indebtedness. The agreement shall contain a provision for the resumption of monthly payments thereafter in amounts which will completely amortize the mortgage indebtedness within its original maturity. The agreement shall in no way affect the amount of the annual mortgage insurance premium which shall continue to be calculated in accordance with the original amortization provisions of the mortgage.

(b) If at any time during default the mortgagor is a "person in military service" as such term is defined in the Soldiers' and Sailors' Civil Relief Act of 1940 (50 U.S.C. App. 501–590), the period during which he is in such service may be excluded in computing the one-year period within which the mortgagee shall commence foreclosure or acquire the property by other means as provided in § 203.355 of Subpart B.

§ 203.612 Forbearance by the mortgagee.

(a) The mortgagee shall not initiate foreclosure until the relief measures outlined in this Part have all been considered and the mortgagee has determined that none of these measures is likely to make it possible for the mortgagor to avoid foreclosure of the security property.

(b) No delay in the foreclosure or acquisition of the security property is required if the property has been abandoned or if the mortgagor states that he has no intention of honoring his mortgage obligation.

§ 203.614 Conditions of special forbearance.

(a) The Secretary may approve special forbearance relief by the mortgagee with respect to any loan insured under this Part if the Secretary finds that default was due to circumstances beyond the mortgagor's control. Approval is conditioned on the execution by the mortgagor and mortgagee of a special forbearance agreement providing for:

(1) The reduction, or suspension of regular mortgage payments for a specified forbearance period;

(2) The resumption of regular mortgage payments after the expiration of the forbearance period; and

(3) The payment of the total unpaid amount accruing prior to and during the forbearance period on or before the maturity date of the mortgage or on or before a date subsequent to the maturity date which is approved by the Secretary.

(b) The mortgagee may grant special forbearance relief without the approval of the Secretary subject to the following conditions:

(1) The mortgagor shall establish to the satisfaction of the mortgagee, whose finding shall be conclusive, that:

(i) The mortgagor does not own other property subject to a mortgage insured by the Secretary; and

(ii) The default was caused by circumstances beyond the control of the mortgagor.

(2) The written forbearance agreement shall:

(i) Be limited to a period of 18 months;

(ii) Provide for the resumption of regular mortgage payments after the expiration of the forbearance period; and

(iii) Provide for repayment of the total unpaid amount accruing prior to and during the forbearance period on or before a date extending beyond the original maturity for a period no greater than the period of forbearance.

§ 203.616 Recasting of mortgage.

(a) In addition to the special forbearance relief afforded in § 203.614, if the Secretary makes the finding required in paragraph (a) of that section, the Secretary may approve a modification of the terms of the mortgage for the purpose of changing the amortization provisions by recasting the total unpaid amount due over the remaining term of the mortgage or over such longer period of time as the Secretary may approve. The modification agreement may be effective when executed or upon the termination of a forbearance period.

(b) The Secretary's approval for a recasting of a mortgage for the purpose of changing the amortization provisions shall not be required where the mortgagee make the findings prescribed in § 203.614(b)(1). In such instances, the recasting shall be limited to the remaining term of the mortgage or a term extending not more than 10 years beyond the original maturity date. The Secretary shall be given notice of such modification within 30 days of the execution of the modification agreement.

(c) When a mortgage is modified, the principal amount of the mortgage, as modified:

(1) Shall not include any amounts assessed against the mortgagor as a late charge; and

(2) Shall be considered to be the "original principal of the mortgage" as that term is used in § 203.401.

ASSIGNMENT TO HUD FOR FORBEARANCE

§ 203.650 Assignment to HUD for forbearance—generally.

The Secretary will accept assignments of mortgages insured under this Part which are in default in order to avoid foreclosure when the conditions set forth in §§ 203.650 through 203.662 are met.

§ 203.652 Mortgages ineligible for assignment.

In any case in which the mortgagor has voluntarily abandoned the mortgaged property, or states that he has no intention of honoring his mortgage obligation, the mortgage shall be ineligible for assignment under §§ 203.650 through 203.662 and the mortgagee may proceed with foreclosure.

§ 203.654 Mortgages eligible for assignment to HUD.

The mortgagee shall request that the Secretary accept assignment of a mortgage not otherwise ineligible for assignment pursuant to § 203.652 and the Secretary will accept such assignment, if the following criteria are fully met:

(a) The mortgagee must have informed the mortgagor that it intends to foreclose the mortgage;

(b) At least three monthly installments on the mortgage must be due and unpaid;

(c) The property must be the mortgagor's principal place of residence and mortgagor must not own other property subject to a mortgage insured or held by the Secretary, unless this latter criterion is waived by the Secretary.

(d) The mortgagor's default must have been caused by circumstances or a set of circumstances beyond the mortgagor's control and which temporarily

renders the mortgagor and his family unable to cure the delinquency within a reasonable time or make full mortgage payments; and

(e) There must be a reasonable prospect that the mortgagor will be able to resume full mortgage payments after a temporary period of reduced or suspended payments not exceeding 36 months, and will be able to pay the mortgage in full by its maturity date, extended, if necessary, by up to ten years if on the date of assignment ten or more years have elapsed since the due date of the first payment under the mortgage.

§ 203.656 Notice to mortgagor.

A mortgagee shall notify the mortgagor when (a) it is considering whether or not to ask that the Secretary accept an assignment of the mortgage pursuant to §§ 203.650 through 203.662, (b) it asks that the Secretary accept such an assignment, and (c) it has decided not to ask that the Secretary accept an assignment. Notice shall be given on forms approved by the Secretary or by notices consistent with such forms.

§ 203.658 Mortgagor's request that HUD accept assignment.

If the mortgagee determines that it will not ask the Secretary to accept an assignment of the mortgage pursuant to §§ 203.650 through 203.662, the mortgagor may apply directly to the Secretary requesting that the Secretary accept such an assignment. The mortgagor's request must be received by the Secretary within fifteen calendar days of the date of the mortgagee's notice to the mortgagor that he may ask the Secretary directly to accept assignment of the mortgage. If the mortgagor's last day for contacting the Secretary falls on a Saturday, Sunday or legal holiday he may make that contact on the next following regular work day.

§ 203.660 Mortgagor's conference with HUD.

(a) The mortgagor seeking the assignment of his mortgage to the Secretary pursuant to §§ 203.650 through 203.662 should be entitled to a conference with a representative of the Secretary before the mortgage is foreclosed unless (1) the mortgage is ineligible for assignment pursuant to § 203.652, (2) the Secretary agrees to accept assignment without such a conference, or (3) the mortgagor responds to a notice of preliminary negative decision of the Secretary by indicating that he prefers to present his arguments by telephone or in writing.

(b) When the mortgagor eligible for a conference under paragraph (a) of this section indicates his desire for a conference prior to foreclosure to discuss the assignment of his mortgage to the Secretary, the Secretaary will schedule such a conference at an early date at the Area or Insuring Office, if within 200 miles of the mortgagor's residence, or, if he resides more than 200 miles from the Office, the conference will be held at a mutually convenient site.

(c) The mortgagor shall be entitled to examine the material on which the Secretary's preliminary negative decision is based.

(d) The mortgagor(s) may be present for the hearing and may be represented by one attorney or other representative. The Secretary's representative conducting the conference may prohibit the presentation of cumulative, repetitious or immaterial arguments or materials. When the Secretary's representative conducting the conference announces willingness to accept an assignment, the conference may be terminated immediately without the presentation of further arguments or evidence. The conference shall be informal and shall not be subject to rules of evidence or procedure except as herein provided.

(e) The mortgagor shall be advised by telephone or letter of the Secretary's determination to accept assignment of his mortgage. If it is determined that an assignment will not be accepted, the mortgagor shall be notified in writing of the Secretary's decision with a statement of (1) the Secretary's findings as to the mortgagor's default, financial status and situation, and (2) the criteria required for assignment as set forth in § 203.654 which were not met by the mortgagor. Field Office Directors shall act for the Secretary in all matters relating to such assignment determinations. The decision of a Field Office Director shall be final and not subject to further administrative review on the petition of the mortgagor.

§ 203.662 Cooperation of mortgagees in assignment program.

(a) Mortgagees shall cooperate in the implementation of the assignment program outlined in §§ 203.650 through 203.662 by reviewing each case in which it is decided to foreclose to determine whether or not the mortgage involved is eligible for assignment to the Secretary and requesting that the Secretary accept assignments of eligible mortgages when the criteria outlined in § 203.654 are met.

(b) No sooner than five days after the date when three full monthly installments are due and unpaid under a mortgage, but in any event prior to the commencement of foreclosure or the acquisition of the mortgage property, the mortgagee shall obtain data from the mortgagor, on a form approved by the Secretary or the substance of the information contained on such a form, relevant to the determination of whether the Secretary should be asked to accept an assignment.

(c) When the mortgagee determines that it will not ask the Secretary to accept an assignment of a mortgage, it shall notify the mortgagor on a form approved by the Secretary, or in substance as provided in such a form, which communication shall advise the mortgagor of the criteria set forth in § 203.654 which were not met in his case. The mortgagee shall also advise the mortgagor that he may petition the Secretary to accept an assignment of the mortgage, if such an application is filed within fifteen days of the mortgagee's communication as more fully set forth in § 203.660.

(d) The mortgagee shall cooperate by delaying foreclosure action on the Secretary's request until the Secretary's consideration of whether to accept an assignment is complete, if the mortgagor files a timely request pursuant to paragraph (c) of this section, and shall promptly provide the Secretary with information from its file which will enable the Secretary to reach a determination with respect to accepting an assignment of the mortgage.

(d) If the Secretary elects to accept an assignment of a mortgage pursuant to §§ 203.650 through 203.662, the mortgagee shall terminate any foreclosure action that may have been initiated and assign the mortgage to the Secretary.

Issued at Washington, D.C., August 23, 1976.

JAMES L. YOUNG,
Assistant Secretary for Housing,
Federal Housing Commissioner.

OFFICE OF MANAGEMENT AND BUDGET

BUDGET RESCISSIONS AND DEFERRALS

TO THE CONGRESS OF THE UNITED STATES:

In accordance with the Impoundment Control Act of 1974, I report revisions to two deferrals previously transmitted.

Both of the revised reports reflect routine increases to the amounts deferred. The Federal Aviation Administration's Facilities and equipment deferral has been increased by $193.8 million, and a deferral for the State and local government fiscal assistance trust fund in the Department of the Treasury has been increased by $1.4 million.

The details of each revised deferral are contained in the attached reports.

Gerald R. Ford

THE WHITE HOUSE, *August 24, 1976.*

CONTENTS OF SPECIAL MESSAGE
(in thousands of dollars)

D76-23B

SUPPLEMENTARY REPORT

Report Pursuant to Section 1014(c) of P.L. 93-344

This report updates Deferral No. D76-23A transmitted to the Congress on July 6, 1976, and printed as House Document 94-548 and Senate Document 94-232.

The amount deferred for the Federal Aviation Administration's Facilities and equipment program has been increased by $193,761,000 to a new total of $276,101,000. This amount reflects a net increase resulting from: (1) budgetary resources available in the transition quarter that are higher than previously estimated (in part the result of the enactment of the Airport and Airways Development Act Amendments of 1976), and (2) an increased amount made available for obligation in the quarter.

Deferral No: D76-23B

DEFERRAL OF BUDGET AUTHORITY
Report Pursuant to Section 1013 of P.L. 93-344

*Justification

Funds from this account are used to procure specific Congressionally approved facilities and equipment for the expansion and modernization of the national airway system. Projects financed from this account include construction of buildings and purchase of new equipment for new or improved air traffic control towers, automation of the en-route airway control system, and expansion and improvement in the navigational and landing aid systems. These funds were appropriated in the Department of Transportation and Related Agencies Appropriation Acts of 1976 and prior years. None of the deferred funds lapse in the transition quarter. The estimated total cost for each project is traditionally included in the budget submission and appropriation for the year in which it is requested. Because of the lengthy procurement and construction time for interrelated new facilities and complex equipment systems, it is not possible to obligate all funds necessary to complete each project in the year funds are appropriated. Therefore, it is necessary to apportion funds so that sufficient resources will be available in future periods to complete these projects. This deferral action is consistent with the Congressional intent to provide multi-year funding for the total costs of these projects and is taken under provisions of the Antideficiency Act (31 U.S.C. 665) which authorize the establishment of reserves for contingencies.

*1/ Of this amount, the budgetary resources available in the transition quarter equal $418,101,000. These resources include $416,101,000 in estimated unobligated balances and $2,000,000 in anticipated reimbursements.

* Revised from previous report.

D76-23B

2

Estimated Effects

This deferral action is consistent with normal operations for this program. The amount deferred could not be economically used if made available in the transition quarter because of the planned multi-year procurement, construction and installation cycle.

* Outlay Effect (estimated in millions of dollars)

Comparison with President's 1977 Budget:	
1. Budget outlay estimate for TQ	51.3
2. Outlay savings, if any, included in the budget outlay estimate	-0-
Current Outlay Estimates for TQ:	
3. Without deferral	70.0
4. With deferral	70.0
Current outlay savings (line 3 - line 4)	-0-
Outlay savings for 1977	-0-
Outlay savings for 1978	-0-

* Revised from previous report.

D76-24B

Supplementary Report
Report Pursuant to Section 1014(c) of P.L. 93-344

This report updates Deferral No. D76-24A transmitted to the Congress on July 6, 1976, and printed as House Document No 94-548 and Senate Document No. 94-232.

This report for the State and local government fiscal assistance trust fund in the Office of the Secretary of the Treasury increases the amount deferred by $1,407,250. This is the result of a higher actual unobligated balance brought forward into the transition quarter than had been previously estimated.

Justification

The Secretary of the Treasury must hold a portion of this account in reserve to meet valid claims from State and local governments that past general revenue sharing payments to them were too small. Because the total amount appropriated for all governments is fixed, the alternative to such a reserve is recurring recomputations of entitlements of 39,000 governments for prior entitlement periods. Accordingly, the Office of Revenue Sharing has withheld from obligation an amount equal to one-half of one percent of the amounts appropriated for each entitlement period through FY 1975.

This cumulative unobligated reserve, totaling $82.4 million* is available to the Secretary of the Treasury to satisfy legitimate claims against the Trust Fund for prior entitlement periods. The unobligated amount retained in the Trust Fund will be reduced whenever the Secretary determines the amount is adequate to meet foreseeable liabilities against the Trust Fund. The reduction will be made by paying the additional amount to recipients as part of a regular distribution.

1/ * Of this amount, the budgetary resources available on July 1, 1976, equaled $1,744,695,000 These resources include $1,662,287,750 in new budget authority and $82,407,250 in estimated unobligated balances.
2/ While some amount of this reserve may be released before September 30, 1976, as valid claims are approved, there is no sound basis for estimating that amount.
* Revised from previous report.

D76-24B

2

Estimated Effect

This action will postpone distribution of the amount of the reserve until necessary adjustments and corrections have been identified. It will also avoid substantial confusion and complexities in the administration of the program.

Outlay Effect (estimated in millions of dollars)

Comparison with President's 1977 Budget:

1. Budget outlay estimate for the transition quarter	1,626.6
2. Outlay savings, if any, included in the budget outlay estimate	-0-

Current Outlay Estimates for the Transition Quarter

3. Without deferral	1,626.6
4. With deferral	1,626.6
5. Current outlay savings (line 3 - line 4)	.0
Outlay savings for 1977	.0
Outlay savings for 1978	.0

PART VI:

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Federal Insurance Administration

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Rule Making

V 41 169 AUG 30 76 UMI

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Federal Insurance Administration

[24 CFR Parts 1911, 1921, 1922, 1923, 1924]

[Docket No. R-76-414]

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Rule Making

The Secretary of Housing and Urban Development hereby proposes the amendment of Chapter X of Title 24 of the Code of Federal Regulations to clarify the respective roles of the Administrator of the Federal Insurance Administration and the National Flood Insurers Association (hereafter NFIA) which sells flood insurance policies and adjusts insurance claims. The regulations published for comment would prescribe the forms of Standard Flood Insurance Policy used in the program as part of the FIA regulations, and would clarify the role of the FIA in interpreting the Act and the Standard Flood Insurance Policies. The regulations would also prescribe requirements regarding subcontracting procedures for subcontracts let by the NFIA. The roles of the Administrator of the Federal Insurance Administration (hereafter FIA) and NFIA would be appropriately clarified.

Congress has entrusted the Secretary of Housing and Urban Development (hereafter the Secretary) with very broad power and responsibility "to establish and carry out a national flood insurance program." Section 1304(a), of the National Flood Insurance Act of 1968, as amended (42 U.S.C. 4011(a)), hereafter the Act. The Secretary is specifically authorized to provide "for the general terms and conditions of insurability" and "the nature and limits of loss or damage * * * which may be covered by such insurance." Section 1306(a) of the Act (42 U.S.C. 4013). It is the Secretary who establishes premium rates for such insurance. Sections 1307 and 1308 of the Act (42 U.S.C. 4014 and 4015).

The Secretary has broad authority to arrange for the financing and administration of the flood insurance program and the method or methods by which claims for losses may be adjusted and paid for. Sections 1309–1312 of the Act (42 U.S.C. 4016–4019). The Secretary is authorized to prescribe "appropriate requirements for insurance companies and other insurers" when they are permitted to participate in a pool to provide flood insurance coverage. Section 1331 of the Act (42 U.S.C. 4054). The Secretary is authorized to enter into such agreements with the pool as she deems necessary to carry out the purposes of the program. Section 1332(a) of the Act (42 U.S.C. 4052(a)).

The Secretary is authorized to utilize the facilities and services of insurance companies and other insurers, insurance agents, brokers or insurance adjustment organizations "on such terms and conditions as may be agreed upon." Section 1345 of the Act (42 U.S.C. 4081).

The Authority of the Secretary with respect to the National Flood Insurance Program (the Program) provided for by the Act has been delegated to the Administrator of the Federal Insurance Administration (34 F.R. 2680).

When the Program was originally established by Congress in 1968, the participation of communities and property owners was voluntary. In order to assure broader use of the original Program by the public, the promotional efforts of as large a group as possible of participating insurers was sought. The contract negotiated between FIA and NFIA, which is still in effect, was arrived at with a view toward encouraging such participation by insurers. The Flood Disaster Protection Act of 1973 (Public Law 93–234) made the purchase of flood insurance essentially mandatory by requiring that direct and indirect Federal financial assistance or federally related financial assistance, including any secured loan on improved realty from a federally regulated lender, be denied to any person with respect to property located in a flood hazard area of a participating community unless such person purchases insurance under the Program.

Under the existing arrangements between FIA and NFIA, the participating insurers are basically not at risk. The cost of any expense and flood insurance coverage is borne primarily by the insured property owners and the government. In fact, the "promised risk capital," upon the basis of which companies that are members of the NFIA receive a profit, is not paid in by the member insurers and since 1968, when the program began, no participating insurer has expended any of its promised risk capital.

An individual policyholder often may not be able to afford to litigate decisions of NFIA which deny or reduce benefits, particularly when the claims are not large. Also, unlike many other types of insurance which are subject to the jurisdiction of State insurance regulatory authorities, the flood insurance policyholder cannot obtain relief from State insurance regulatory officials since such officials lack authority with respect to this Federal Program.

In light of this background, FIA has an obligation to assure the fair treatment of policyholders. One of the means utilized to provide fair treatment for policyholders has been the exercise by FIA of the Secretary's authority to interpret the scope of coverage of the Standard Flood Insurance Policy. In former years NFIA followed these interpretations of FIA, in such matters as erosion and mudslide claims when disputes arose between insurers and policyholders. Recently, however, NFIA has asserted that it is not subject to FIA interpretations of flood insurance policy coverage. It is appropriate, therefore, to clairfy the respective roles of FIA and NFIA.

The need for the exercise of the FIA role to protect the best interests of the policyholder who has suffered a loss is illustrated by NFIA's refusal to comply with an interpretation that the FIA issued in connection with NFIA's disclaimer of coverage for the insured's expense in removing insured personal property from insured premises in imminent danger from flood. Upon initial consideration of this issue on a specific case, FIA accepted NFIA's opinion that such claims were not covered. However, upon thorough research and analysis, FIA determined that the Standard Flood Insurance Policy does cover such claims. Among other bases for the FIA interpretation in favor of coverage for removal expense under certain conditions, FIA considered the portion of the Standard Flood Insurance Policy which deprives the insured of coverage for flood loss "caused directly or indirectly by neglect of the insured to use all reasonable means to save and preserve the property at the time of and after an occurrence of * * * [flood]." FIA also examined the financial implications and the FIA analysis indicated that coverage of such claims under the interpretation issued would possibly save money by reducing claims for flood loss. NFIA refused to comply with the FIA interpretation and at the time of the flooding in Minot, North Dakota, earlier this year NFIA caused announcements to be made throughout the affected area that removal costs would not be compensated under flood insurance policies, thus discouraging the filing of such claims.

The regulations published for comment would provide for issuance by the Administrator, from time to time, of interpretations of the terms of the Standard Flood Insurance Policy, as referenced at 24 CFR 1911.4(a)(1). When issued, such interpretations are to be published as appendixes to and incorporated by reference as a part of these regulations.

Legal authority for the issuance of such interpretations is implicit in the Administrator's authority to promulgate the policy and implement the Act. Such interpretations will be interpretative rules of general applicability under the terms of the Administrative Procedure Act, 5 U.S.C. 551, et seq (hereinafter referred to as the "APA"). As such, they are subject to the requirement that they be published in the FEDERAL REGISTER. 5 U.S.C. 552. However, they are not subject to the notice or hearing requirements of the APA applicable to rulemaking and need not be published in the FEDERAL REGISTER in advance of their effective date. 5 U.S.C. 553. As interpretations they apply to any Standard Flood Insurance Policy regardless of the date of execution of such policy, and apply to any claim under such a policy regardless of the date on which it arose.

From time to time, the Administrator may decide that there is a need to change the terms of the Standard Flood Insurance Policy. Such changes will be issued by the Administrator pursuant to the rulemaking requirements of the APA, including prior notice and public procedure, publication at least thirty (30) days prior to effective date where practicable, and prospective operation. 5 U.S.C. 553.

A further major concern relates to NFIA's subcontracting. The second part of the regulations published for comment would require all subcontracts to be in writing and would further require that prior to executing any subcontract involving an amount in excess of $10,000, NFIA must notify the Administrator of its intent to enter into or execute such subcontract and furnish a copy thereof to him together with a statement of the NFIA as to how the subcontractor was selected, the degree of competition entering into the selection, and an analysis as to the reasonability of subcontractor costs or price. The proposed rule would allow expenses incurred by NFIA in violation of the rule's requirements to be reimbursed by the Administrator only upon a determination made by him that the expenses were incurred for good cause shown and that NFIA had no reasonable opportunity to provide the required written documentation in advance.

The regulations would provide that any insurers, insurance agents and brokers, or insurance adjustment organizations servicing the Program may serve the Program only after being awarded the contract for such service under a competitive bidding process.

NFIA has refused to follow competitive bidding practices, notwithstanding the insistence of FIA, thereby lessening competition and possibly increasing the cost to the taxpayer of the Program. It has not made firm written contract arrangements which tie down requirements imposed on subcontractors, nor has it obtained firm contract terms regarding duration and pricing. FIA questions the adequacy of supervision by NFIA of the subcontracts which have been let.

HUD's Office of the Inspector General has found, as to one sizeable subcontract, that the agreement was quite informal; it was open-ended as to time and services; no rates were specified except generally as customary billing rates; and there was no provision for termination for default. The documents did not reserve the right to examine supporting records or billings, and did not specify a completion date.

The regulations published for comment with respect to competitive bid procurement for services are intended to enhance competition and promote fairness in the contracting procedures for procuring the services of insurers. At present sixteen members of the 124 members of NFIA share approximately 70 percent of the profit of NFIA. Of the sixteen, fifteen currently have representatives on NFIA's executive committee. FIA estimates that twelve of these stand to share, as individual servicing companies under subcontract to the NFIA, 80 percent of the servicing revenue which will be earned in the 33 jurisdictions producing the most fees. FIA estimates that five of these twelve can be expected to share 70 percent of the 80 percent servicing fee revenues and almost 30 percent of the profit.

The regulations published for comment are intended to clarify the respective roles of FIA and NFIA and to improve the Program in other respects as indicated above. It is the intention of the Secretary and FIA to negotiate a revised contract to conform with such revised regulations as they are published for effect and include other appropriate provisions in order to insure that the Program is carried out in accord with the intent of Congress.

Interested persons may participate in the instant rule making by submitting written data, views, or arguments to the Rules Docket Clerk, Office of the Secretary, Room 10141, Department of Housing and Urban Development, 451 7th Street, S.W., Washington, D.C. 20410. Each person submitting a comment should include his name and address and refer to the document by the docket number indicated in the heading and give reasons for any recommendations. Comments received by September 29, 1976 will be considered before final action is taken on the proposal. Copies of all written comments will be available for examination by interested persons in the Office of the Rules Docket Clerk at the address listed above. The proposal may be changed in the light of the comments received.

The Department has determined that an Environmental Impact Statement is not required with respect to this rule. A copy of the Finding of Inapplicability is available for inspection at the above address.

It is hereby certified that the economic and inflationary impacts of this proposed rule have been carefully evaluated in accordance with OMB Circular A–107 and that these amendments do not have an economic impact. A copy of the Finding of Inapplicability is available for inspection at the above address.

Accordingly, the Secretary of Housing and Urban Development proposes to amend Chapter X of 24 CFR as follows:

PART 1911—INSURANCE COVERAGE AND RATES

1. § 1911.13 is added to Part 1911—Insurance Coverage and Rates to read as follows:

§ 1911.13 Standard Flood Insurance Policy.

(a) Each of the Standard Flood Insurance Policy forms included in Appendix "A" hereto ("General Property" and "Dwelling Building and Contents") and by reference incorporated herein shall, within its appropriate sphere, constitute the Standard Flood Insurance Policy.

(b) Any endorsements appended hereto in the said Appendix A, and by reference incorporated herein, are the amendatory endorsements through which the policy may be amended, and no other endorsements shall amend or modify such policy.

(c) The renewal certificate appended hereto, and by reference incorporated herein, shall be the only renewal certificate for use with the Standard Flood Insurance Policy, and no other renewal certificate form shall be effective. (Appendix "B").

(d) The application and renewal application forms appended hereto and by reference incorporated herein shall be the only application forms used in connection with the Standard Flood Insurance Policy. (See Appendix "C").

(e) The Standard Flood Insurance Policy and required endorsements must be used in the Flood Insurance Program, and no provision of the said documents, shall be altered or waived other than through the issuance of an appropriate amendatory endorsement approved by the Administrator as to form and substance for uniform use and countersigned by NFIA or the authorized servicing company.

(f) No oral binder or contract shall be effective in respect to NFIA or the servicing company. No written binder shall be effective unless issued with express authorization of, and countersigned by, NFIA or the authorized servicing company; the inception date of any new or added coverage or of any increase in the amount of insurance shall be at least 15 calendar days after the date of application, except that the 15-day waiting period shall not apply to renewal policies (except as to additions to coverage) nor during the initial 30 calendar days from the effective date of first availability of flood insurance in any designated community.

2. § 1911.14 is added to read as follows:

§ 1911.14 Standard Flood Insurance Policy Interpretations by the Federal Insurance Administrator.

The Administrator shall from time to time issue interpertative rules regarding the provisions of the Standard Flood Insurance Policy. Such interpretations shall be published in the FEDERAL REGISTER, made a part of Appendix D to these regulations, and incorporated by reference as part of these regulations. These interpretative rules shall be effective with respect to all policies regardless of the date of issuance, and with respect to all affected claims regardless of the date on which they arise. NFIA and other affected parties shall comply with such interpretative rules in the investigation and adjustment of flood insurance claims brought under the National Flood Insurance Program.

PART 1921—SUB-CONTRACTS

3. A new Part 1921—Sub-Contracts is added and a new § 1921.1—Sub-Contracts with the Department's Prime Contractor, the NFIA, is added under that new Part to read as follows:

§ 1921.1 Sub-contracts with the Department's prime contractor, the NFIA.

(a) The NFIA, prior to execution of any sub-contract, agreement or other arrangement, involving, or which may involve, an amount of $10,000.00 or more, shall provide the Administrator with written notification that it proposes to enter into and/or executive such sub-

V 41 169 AUG 30 76 UMI

contract, agreement or other arrangement.

(b) The notification provided for in paragraph (a) of this section shall include a copy of the proposed sub-contract, agreement or other arrangement, a statement by NFIA relative to the scope of work to be performed under the subcontract, a statement as to how the proposed sub-cotractor was selected, including the degree of competition obtained, and NFIA's analysis of the reasonableness of the sub-contractor's cost or price.

(c) Expenses incurred by NFIA in violation of paragraphs (a) and/or (b) of this section may only be reimbursed to the NFIA by the Administrator upon a determination by the Administrator that such expenses were incurred for good cause shown and without a reasonable opportunity to provide the Administrator with the written documentation, in advance of the proposed sub-contract, required under paragraphs (a) and (b) of this section.

(d) All sub-contracts entered into by NFIA must be in writing.

PART 1922—SECRETARY'S AUTHORITY

4. A new Part 1922—Secretary's Authority is added and a new Section 1922.1—Services by Insurance Industry Under Agreements With Secretary is added under that new Part to read as follows:

§ 1922.1 Services by insurance industry under agreements with Secretary.

(a) The Secretary has established and carries out, as authorized by the Congress, all aspects, including the insurance facets, of the National Flood Insurance Program utilizing, among other things, insurance companies and other insurers, insurance agents and brokers, and insurance adjustment organizations in accordance with the provisions of the National Flood Insurance Act of 1968 Pub. L. 90–448, (42 U.S.C. 4001–4128) relating to the Administration of the program, including the services to be provided by the insurance industry under the direction and control of the Secretary as to the program, including its insurance elements.

(b) The Secretary, in furtherance of the purposes of paragraph (a) of this section, has entered into an agreement with the NFIA under which the NFIA renders service and assistance to the Department in the marketing and selling of flood insurance policies and the adjustment of claims pursuant to the coverage afforded under the Standard Flood Insurance Policy, as interpreted when appropriate by the Administrator.

(c) National Flood Insurance Program functions and responsibilities not expressly delegated to NFIA by paragraph (b) of this section or expressly set forth in the current Agreement by and between the Department and NFIA, which may be examined at the Office of the Federal Insurance Administrator, Room 5138, Department of Housing and Urban Development, Washington, D.C., are reserved to the Secretary.

PART 1923—ADMINISTRATOR'S AUTHORITY OVER COMPETITIVE BIDDING

5. A new Part 1923—Administrator's Authority Over Competitive Bidding is added and a new § 1923.1—When Agreements for Services by Insurance Industry Are Subject to Competitive Bidding is added to that new Part to read as follows:

§ 1923.1 When agreements for services by insurance industry are subject to competitive bidding.

(a) In administering the flood insurance program, the Administrator is authorized to require that any insurance companies or other insurers, insurance agents and brokers, or insurance adjustment organizations servicing, under formal written contract or otherwise, the National Flood Insurance Program may serve the program only after being awarded the contract for such service under a competitive bidding process.

(b) At the Administrator's option and under such terms and conditions as the Administrator may deem proper, the Administrator is authorized to permit the National Flood Insurers Association to conduct any competitive bidding processes as may be required by the Administrator under paragraph (a) of this section, with the Administrator presiding over all elements of the competitive bidding process, including the preparation of the proposed contractual documents, the final form of which shall be subject to the prior approval of the Administrator; except that should the Administrator deem it necessary or appropriate, he may enter into any such contracts, agreements, or other arrangements, as may have been entered into by the NFIA under paragraph (a) of this section, with the use of competitive bidding processes or without regard to any provision of law requiring competitive bidding.

(c) Any services by the insurance industry which may be utilized pursuant to paragraphs (a) (b) of this section are deemed to be in furtherance of the purposes of the 1968 Act and the Agreement (referenced at § 1922.1(b) hereof) by and between the Department and the NFIA, which association of insurers shall continue to use its best efforts to market flood insurance policies and adjust claims utilizing the services obtained under paragraphs (a) and/or (b) of this section.

PART 1924—SECRETARY'S AUTHORITY OVER CLAIMS

6. A new Part 1924—Secretary's Authority Over Claims is added and a new Section 1924.1—Adjustment and Payment of Claims is added to that new Part to read as follows:

§ 1924.1 Adjustment and payment of claims.

(a) The Secretary, in establishing the general method or methods by which claims for losses may be adjusted and paid for any damage to or loss of property which is covered by flood insurance, may direct the National Flood Insurers Association or any of its sub-contractors to submit, for review and approval or disapproval by the Secretary, complete documentation (the "claim file") with respect to any claim, series or types of claims made by any persons insured by the Standard Flood Insurance Policy;

(b) The Secretary, or her delegate, the Administrator, may, upon a review of a claim file made pursuant to paragraph (a) of this section, order and direct the National Flood Insurers Association or any sub-contractor of the association to pay, or not to pay, for damages claimed by an insured consumer to have been incurred as a result of a flooding event covered, as determined by the Secretary or the Administrator, by the terms and conditions of the Standard Flood Insurance Policy. Disaster Protection Act of 1973 (Pub. L. 93–234), National Flood Insurance Act of 1968 (title XIII of the Housing and Urban Development Act of 1968), (33 FR 17804), as amended, 42 U.S.C. 4001–4128; and (34 FR 2680).

Issued: August 26, 1976.

J. ROBERT HUNTER,
Acting Federal Insurance Administrator.

STANDARD FLOOD INSURANCE POLICY

(Issued Pursuant to the National Flood Insurance Act of 1968, or Any Acts Amendatory Thereof)

INSURANCE COMPANIES MEMBERS OF
NATIONAL FLOOD INSURERS ASSOCIATION
NEW YORK, N. Y.
(HEREIN CALLED THE COMPANY)

DWELLING BUILDING AND CONTENTS

APPENDIX A (1)

IN CONSIDERATION OF THE PAYMENT OF THE PREMIUM, IN RELIANCE UPON THE STATEMENTS IN THE APPLICATION AND DECLARATIONS FORM MADE A PART HEREOF AND SUBJECT TO ALL THE TERMS OF THIS POLICY, THE COMPANY DOES INSURE the Insured named and legal representatives, to the extent of the actual cash value of the property at the time of loss, but not exceeding the amount which it would cost to repair or replace the property with material of like kind and quality within a reasonable time after such loss, without allowance for any increased cost of repair or reconstruction by reason of any ordinance or law regulating construction or repair, and without compensation for loss resulting from interruption of business or manufacture, nor in any event for more than the interest of the insured, against all DIRECT LOSS BY "FLOOD" as defined herein, to the property described while located or contained as described in the application and declarations form attached hereto, or pro rata for 30 days at each proper place to which any of the property shall necessarily be removed for preservation from the peril of "Flood", but not elsewhere.

Assignment of this policy shall not be valid except with the written consent of this Company.

DEFINITION OF "FLOOD"

Wherever in this policy the term "flood" occurs, it shall be held to mean

A. A general and temporary condition of partial or complete inundation of normally dry land areas from:

1. The overflow of inland or tidal waters.
2. The unusual and rapid accumulation or runoff of surface waters from any source.
3. Mudslides (i.e., mudflows) which are proximately caused or precipitated by accumulations of water on or under the ground.

B. The collapse or subsidence of land along the shore of a lake or other body of water as a result of erosion or undermining caused by waves or currents of water exceeding the cyclical levels which result in flooding as defined in A-1 above.

PERILS EXCLUDED

This Company shall not be liable for loss:

A. By (1) rain, snow, sleet, hail or water spray; (2) freezing, thawing or by the pressure or weight of ice or water, except where the property covered has been simultaneously damaged by flood; or (3) water, moisture or mudslide damage of any kind resulting primarily from conditions, causes or occurrences which are solely related to the described premises or are within the control of the Insured (including but not limited to design, structural or mechanical defects, failures, stoppages or breakages of water or sewer lines, drains, pumps, fixtures or equipment, seepage or backup of water, or hydrostatic pressure) or any condition which causes flooding which is substantially confined to the described premises or properties immediately adjacent thereto;

B. Caused directly or indirectly by (1) hostile or warlike action in time of peace or war, including action in hindering, combating or defending against an actual, impending or expected attack, (a) by any government or sovereign power (de jure or de facto), or by any authority maintaining or using military, naval or air forces, or (b) by military, naval or air forces, or (c) by an agent of any such government, power, authority or forces, it being understood that any discharge, explosion or use of any weapon of war employing nuclear fission or fusion shall be conclusively presumed to be such a hostile or warlike action by such a government, power, authority or forces; (2) insurrection, rebellion, revolution, civil war, usurped power, or action taken by governmental authority in hindering, combating or defending against such an occurrence;

C. By nuclear reaction or nuclear radiation or radioactive contamination, all whether controlled or uncontrolled, or due to any act or condition incident to any of the foregoing, whether such loss be direct or indirect, proximate or remote, or be in whole or in part caused by, contributed to, or aggravated by the peril insured against by this policy;

D. By theft or by fire, windstorm, explosion, earthquake, landslide or any other earth movement except such mudslide or erosion as is covered under the peril of flood;

E. Caused by or resulting from power, heating or cooling failure, unless such failure results from physical damage to power, heating or cooling equipment situated on premises where the property covered is located, caused by the peril insured against;

F. Occasioned directly or indirectly by enforcement of any local or state ordinance or law regulating the construction, repair or demolition of building(s) or structure(s);

G. Caused directly or indirectly by neglect of the Insured to use all reasonable means to save and preserve the property at the time of and after an occurrence of the peril insured against by this policy.

PROPERTY COVERED

A. **Dwelling:** The term "dwelling" shall mean a residential building designed for the occupancy of from 1 to 4 families and occupied principally for dwelling purposes by the number of families stated herein.

When the insurance under this policy covers a dwelling, such insurance shall include additions in contact therewith; also, if the property of the owner of the described dwelling and when not otherwise covered, building equipment, fixtures and outdoor equipment, all pertaining to the service of the described premises and while within an enclosed structure located on the described premises; also, materials and supplies while within an enclosed structure located on the described premises or adjacent thereto, intended for use in construction, alteration or repair of such dwelling or appurtenant private structures on the described premises.

The Insured may apply up to 10% of the amount of insurance applicable to the dwelling covered under this policy, not as an additional amount of insurance, to cover loss to appurtenant private structures (other than the described dwelling and additions in contact therewith) located on the described premises. This extension of coverage shall not apply to structures (other than structures used exclusively for private garage purposes) which are rented or leased in whole or in part, or held for such rental or lease, to other than a tenant of the described dwelling, or which are used in whole or in part for commercial, manufacturing or farming purposes.

B. **Contents:** When the insurance under this policy covers contents, such insurance shall cover all household and personal property usual or incidental to the occupancy of the premises as a dwelling—except other property not covered under the provisions of this policy, and any property more specifically covered in whole or in part by other insurance including the peril insured against in this policy; belonging to the Insured or members of the Insured's family of the same household, or for which the Insured may be liable, or, at the option of the Insured, belonging to a servant or guest of the Insured; all while within an enclosed structure located on the described premises.

The Insured may apply up to 10% of the amount of insurance applicable to the contents covered under this policy, not as an additional amount of insurance, as follows:

(a) If not the owner of the described premises, to cover loss to improvement, alterations, and additions to the described dwelling and appurtenant enclosed private structures as described above.

(b) If an individual condominium unit owner of the described premises, to cover loss to the interior walls, floors, and ceilings that are not otherwise covered under a condominium association policy on the described dwelling and appurtenant enclosed private structures as described above.

NFIA-1 (Ed. 7-74)

V 41 169 AUG 30 76 UMI

ATTACH APPLICATION AND DECLARATIONS FORM HERE

APPENDIX A (1) DWELLING BUILDING AND CONTENTS

This Company shall not be liable for loss in any one occurrence for more than:

1. $500.00 in the aggregate on paintings, etchings, pictures, tapestries, art glass windows and other works of art (such as but not limited to statuary, marbles, bronzes, antique furniture, rare books, antique silver, porcelains, rare glass or bric-a-brac);
2. $500.00 in the aggregate on jewelry, watches, necklaces, bracelets, gems, precious and semi-precious stones, articles of gold, silver or platinum and furs or any article containing fur which represents its principal value.

C. Debris Removal: This insurance covers expense incurred in the removal of debris of or on the dwelling, appurtenant enclosed private structures or contents covered hereunder, which may be occasioned by loss caused by the peril insured against in this policy.

The total liability under this policy for both loss to property and debris removal expense shall not exceed the amount of insurance applying under this policy to the property covered.

PROPERTY NOT COVERED

This policy shall not cover:

A. Accounts, bills, currency, deeds, evidences of debt, money, securities, bullion, manuscripts or other valuable papers or records, numismatic or philatelic property.

B. Fences, retaining walls, seawalls, outdoor swimming pools, bulkheads, wharves, piers, bridges, docks; other open structures located on or partially over water; or personal property in the open.

C. Land values; lawn, trees, shrubs or plants, growing crops, or livestock; underground structures or underground equipment, and those portions of walks, driveways and other paved surfaces outside the foundation walls of the structure.

D. Animals, birds, fish, aircraft, motor vehicles (other than motorized equipment pertaining to the service of the premises and not licensed for highway use), trailers on wheels, watercraft including their furnishings and equipment; or business property.

DEDUCTIBLES

A. With respect to loss to the dwelling, appurtenant enclosed private structures or debris removal covered hereunder, this Company shall be liable for only the amount of loss in any one occurrence which is in excess of (a) $200. or (b) 2% of the amount of loss to the dwelling, whichever is the greater.

B. With respect to loss to contents or debris removal covered hereunder, this Company shall be liable for only the amount of loss in any one occurrence which is in excess of (a) $200. or (b) 2% of the amount of loss to the contents, whichever is the greater.

REPLACEMENT COST PROVISIONS

With respect only to a Single Family Dwelling Structure covered hereunder, the term "actual cash value" shall mean replacement cost, subject to following provisions. Outdoor radio and television antennas and aerials, carpeting, awnings, domestic appliances and outdoor equipment, all whether attached to the building structure or not, are excluded from these provisions.

A. If at the time of loss the whole amount of insurance applicable to said building structure is 80% or more of the full replacement cost of such building structure, or is the maximum amount of insurance available under the National Flood Insurance Program, the coverage of this policy applicable to such building structure is extended to include the full cost of repair or replacement (without deduction for depreciation).

B. If at the time of loss the whole amount of insurance applicable to said building structure is less than 80% of the full replacement cost of such building structure and less than the maximum amount of insurance available under the National Flood Insurance Program, this Company's liability for loss under this policy shall not exceed the larger of the following amounts:

1. the actual cash value of that part of the building structure damaged or destroyed; or
2. (a) that proportion of the full cost of repair or replacement without deduction for depreciation of that part of the building structure damaged or destroyed, which the whole amount of insurance applicable to said building structure bears to 80% of the full replacement cost of such building structure; or

   (b) the maximum amount of insurance available under the National Flood Insurance Program,

   whichever is larger.

C. This Company's liability for loss under this policy shall not exceed the smallest of the following amounts:

1. the limit of liability of this policy applicable to the damaged or destroyed building structure;
2. the replacement cost of the building structure of any part thereof identical with such building structure on the same premises and intended for the same occupancy and use; or
3. the amount actually and necessarily expended in repairing or replacing said building structure or any part thereof intended for the same occupancy and use.

D. When the full cost of repair or replacement is more than $1,000 or more than 5% of the whole amount of insurance applicable to said building structure, this Company shall not be liable for any loss under paragraph A or subparagraph 2 of paragraph B of these provisions unless and until actual repair or replacement is completed.

E. In determining if the whole amount of insurance applicable to said building structure is 80% or more of the full replacement cost of such building structure, the cost of excavations, underground flues and pipes, underground wiring and drains, and brick, stone and concrete foundations, piers and other supports which are below the under surface of the lowest basement floor, or where there is no basement, which are below the surface of the ground inside the foundation walls, shall be disregarded.

F. The Named Insured may elect to disregard this condition in making claim hereunder, but such election shall not prejudice the Named Insured's right to make further claim within 180 days after loss for any additional liability brought about by these provisions.

GENERAL CONDITIONS AND PROVISIONS

A. Pair and Set Clause—If there is loss of an article which is part of a pair or set, the measure of loss shall be a reasonable and fair proportion of the total value of the pair or set, giving consideration to the importance of said article, but such loss shall not be construed to mean total loss of the pair or set.

B. Concealment, Fraud—This entire policy shall be void if, whether before or after a loss, the Insured has willfully concealed or misrepresented any material fact or circumstance concerning this insurance or the subject thereof, or the interest of the Insured therein, or in case of any fraud or false swearing by the Insured relating thereto.

C. Other Insurance—This Company shall not be liable for a greater proportion of any loss, less the amount of deductible, from the peril of flood than the amount of insurance under this policy bears to the whole amount of flood insurance (excluding therefrom any amount of "excess insurance" as hereinafter defined) covering the property, or which would have covered the property except for the existence of this insurance, whether collectible or not.

In the event that the whole amount of flood insurance (excluding therefrom any amount of "excess insurance" as hereinafter defined) covering the property exceeds the maximum amount of insurance permitted under the provisions of the National Flood Insurance Act of 1968, or any acts amendatory thereof, it is hereby understood and agreed that the insurance under this policy shall be limited to a proportionate share of the maximum amount of insurance permitted on such property under said Act, and that a refund of any extra premium paid, computed on a pro rata basis, shall be made by this Company upon request in writing submitted not later than 2 years after the expiration of the policy term during which such extra amount of insurance was in effect.

"Excess Insurance" as used herein shall be held to mean insurance of such part of the actual cash value of the property as is in excess of the maximum amount of insurance permitted under the said Act with respect to such property.

D. Added and Waiver Provisions—The extent of the application of insurance under this policy and of the contribution to be made by this Company in case of loss, and any other provision or agreement not inconsistent with the provisions of this policy, may be provided for in writing added hereto, but no provision may be waived except such as by the terms of this policy is subject to change.

No permission affecting this insurance shall exist, or waiver of any provision be valid, unless granted herein or expressed in writing added hereto. No provision, stipulation or forfeiture shall be held to be waived by any requirement or proceeding on the part of this Company relating to appraisal or to any examination provided for herein.

E. Cancellation of Policy or Reduction in Amount of Insurance—This policy may be cancelled at any time at the request of the Insured, in which case this Company shall, upon demand and surrender of this policy, refund the excess of paid premiums above the customary short rates for the expired time; provided, however, that the premium paid for the then current policy term shall be fully earned if the Insured retains an interest in the property covered at the location described in the application and declarations form.

The amount of insurance under this policy may be reduced at any time at the request of the Insured, in which case this Company shall, upon demand, refund the excess of paid premiums above the customary short rates for the expired time for the amount of the reduction; provided, however, that the premium paid for the then current policy term shall be fully earned to the extent that the Insured retains an interest in the property covered at the location described in the application and declarations form.

This policy may be cancelled by this Company for non-payment of the premium by giving to the Insured a 20-days' written notice of cancellation.

F. Conditions Suspending or Restricting Insurance—Unless otherwise provided in writing added hereto, this Company shall not be liable for loss occurring while the hazard is increased by any means within the control or knowledge of the Insured, provided, however, this insurance shall not be prejudiced by any act or neglect of any person (other than the Insured), when such act or neglect is not within the control of the Insured.

G. Alterations and Repairs—Permission is granted to make alterations, additions and repairs, and to complete structures in course of construction. In the event of loss hereunder, the Insured is permitted to make reasonable repairs, temporary or permanent, provided such repairs are confined solely to the protection of the property from further damage and provided further that the Insured shall keep an accurate record of such repair expenditures. The cost of any such repairs directly attributable to damage by the peril insured against shall be included in determining the amount of loss hereunder. Nothing herein contained is intended to modify the policy requirements applicable in case loss occurs, and in particular the requirement that in case loss occurs the Insured shall protect the property from further damage.

APPENDIX A (1) DWELLING BUILDING AND CONTENTS

H. Property of Others—Unless otherwise provided in writing added hereto, loss to any property of others covered under this policy shall be adjusted with the Insured for the account of the owners of said property, except that the right to adjust such loss with said owners is reserved to this Company. Any such insurance under this policy shall not inure directly or indirectly to the benefit of any carrier or other bailee for hire.

I. Liberalization Clause—If during the period that insurance is in force under this policy, or within 45 days prior to the inception date thereof, on behalf of this Company there be adopted under the National Flood Insurance Act of 1968, or any acts amendatory thereof, any forms, endorsements, rules or regulations by which this policy could be extended or broadened, without additional premium charge, by endorsement or substitution of form, then such extended or broadened insurance shall inure to the benefit of the Insured hereunder as though such endorsement or substitution of form had been made.

J. Statutory Provisions—Any terms of this policy which are in conflict with the statutes of the State wherein the property is located are hereby amended to conform to such statutes, except that in cases of conflict with applicable Federal law or regulation, such Federal law or regulation shall control the terms of this policy.

K. Loss Clause—Payment of any loss under this policy shall not reduce the amount of insurance applicable to any other loss during the policy term which arises out of a separate occurrence of the peril insured against hereunder; provided, that all loss arising out of a continuous or protracted occurrence shall be deemed to constitute loss arising out of a single occurrence.

L. Mortgage Clause (Applicable to building items only and effective only when policy is made payable to a mortgagee (or trustee) named in the application and declarations form attached to this policy.)—

Loss, if any, under this policy, shall be payable to the aforesaid as mortgagee (or trustee) as interest may appear under all present or future mortgages upon the property described in which the aforesaid may have an interest as mortgagee (or trustee), in order of precedence of said mortgages, and this insurance, as to the interest of the mortgagee (or trustee) only therein, shall not be invalidated by any act or neglect of the mortgagor or owner of the described property, nor by any foreclosure or other proceedings or notice of sale relating to the property, nor by any change in the title or ownership of the property, nor by the occupation of the premises for purposes more hazardous than are permitted by this policy; provided, that in case the mortgagor or owner shall neglect to pay any premium due under this policy, the mortgagee (or trustee) shall, on demand, pay the same.

Provided, also, that the mortgagee (or trustee) shall notify this Company of any change of ownership or occupancy or increase of hazard which shall come to the knowledge of said mortgagee (or trustee) and, unless permitted by this policy, it shall be noted thereon and the mortgagee (or trustee) shall, on demand, pay the premium for such increased hazard for the term of the use thereof; otherwise this policy shall be null and void.

If this policy is cancelled by this Company, it shall continue in force for the benefit only of the mortgagee (or trustee) for 20 days after written notice to the mortgagee (or trustee) of such cancellation and shall then cease, and this Company shall have the right, on like notice, to cancel this agreement.

Whenever this Company shall pay the mortgagee (or trustee) any sum for loss under this policy and shall claim that, as to the mortgagor or owner, no liability therefor existed, this Company shall, to the extent of such payment, be thereupon legally subrogated to all the rights of the party to whom such payment shall be made, under all securities held as collateral to the mortgage debt, or may, at its option, pay to the mortgagee (or trustee) the whole principal due or to grow due on the mortgage with interest, and shall thereupon receive a full assignment and transfer of the mortgage and of all such other securities; but no subrogation shall impair the right of the mortgagee (or trustee) to recover the full amount of said mortgagee's (or trustee's) claim.

M. Mortgagee Obligations—If the Insured fails to render proof of loss, the named mortgagee (or trustee), upon notice, shall render proof of loss in the form herein specified within 60 days thereafter and shall be subject to the provisions of this policy relating to appraisal and time of payment and of bringing suit.

N. Requirements in Case of Loss—The Insured shall give written notice, as soon as practicable, to this Company of any loss, protect the property from further damage, forthwith separate the damaged and undamaged property and put it in the best possible order. Within 60 days after the loss, unless such time is extended in writing by this Company, the Insured shall render to this Company a proof of loss, signed and sworn to by the Insured, stating the knowledge and belief of the Insured as to the following: the time and origin of the loss, the interest of the Insured and of all others in the property, the actual cash value of each item thereof and the amount of loss thereto, all encumbrances thereon, all other contracts of insurance, whether valid or not, covering any of said property, any changes in the title, use, occupation, location, possession or exposures of said property since the issuing of this policy, by whom and for what purpose any building herein described and the several parts thereof were occupied at the time of loss. The Insured, at the option of this Company, may be required to furnish a complete inventory of the destroyed, damaged and undamaged property, showing in detail quantities, costs, actual cash value and amount of loss claimed, and verified plans and specifications of any building, fixtures or machinery destroyed or damaged.

The Insured, as often as may be reasonably required, shall exhibit to any person designated by this Company all that remains of any property herein described, and submit to examinations under oath by any person named by this Company, and subscribe the same; and, as often as may be reasonably required, shall produce for examination all books of account, bills, invoices and other vouchers, or certified copies thereof if originals be lost, at such reasonable time and place as may be designated by this Company or its representative, and shall permit extracts and copies thereof to be made.

O. Appraisal—In case the Insured and this Company shall fail to agree as to the actual cash value or the amount of loss, then, on the written demand of either, each shall select a competent and disinterested appraiser and notify the other of the appraiser selected within 20 days of such demand. The appraisers shall first select a competent and disinterested umpire; and failing for 15 days to agree upon such umpire, then, on request of the Insured or this Company, such umpire shall be selected by a judge of a court of record in the State in which the insured property is located. The appraisers shall then appraise the loss, stating separately actual cash value and loss to each item; and, failing to agree, shall submit their differences, only, to the umpire. An award in writing, so itemized, of any two when filed with this Company shall determine the amount of actual cash value and loss. Each appraiser shall be paid by the party selecting him and the expenses of appraisal and umpire shall be paid by the parties equally.

P. Company's Options—It shall be optional with this Company to take all, or any part, of the property at the agreed or appraised value, and also to repair, rebuild or replace the property destroyed or damaged with other of like kind and quality within a reasonable time, on giving notice of its intention so to do within 30 days after the receipt of the proof of loss herein required.

Q. Abandonment—There shall be no abandonment to this Company of any property.

R. When Loss Payable—The amount of loss for which this Company may be liable shall be payable 60 days after proof of loss, as herein provided, is received by this Company and ascertainment of the loss is made either by agreement between the Insured and this Company expressed in writing or by the filing with this Company of an award as herein provided.

S. Action Against the Company—No suit or action on this policy for the recovery of any claim shall be sustainable in any court of law or equity unless all the requirements of this policy shall have been complied with, and unless commenced within 12 months next after the date of mailing of notice of disallowance or partial disallowance of the claim. An action on such claim against the Company may be instituted, without regard to the amount in controversy, in the United States District Court for the district in which the property shall have been situated.

T. Subrogation—In the event of any payment under this policy, this Company shall be subrogated to all of the Insured's right of recovery therefor against any party, and this Company may require from the Insured an assignment of all right of recovery against any party for loss to the extent that payment therefor is made by this Company. The Insured shall do nothing after loss to prejudice such right; however, this insurance shall not be invalidated should the Insured waive in writing prior to a loss any or all right of recovery against any party for loss occurring to the described property.

IN WITNESS WHEREOF, this Company has executed and attested these presents; but this policy shall not be valid unless countersigned by the duly authorized representative of this Company.

W. H. Williams

Attorney-in-Fact for the Insurance Companies
Members of National Flood Insurers Association

SPECIAL PROVISIONS

A. A list of all Insurance Companies members of the National Flood Insurers Association is on file in the office of the State Insurance Department of the State where the property covered is located and a copy may be obtained upon request from the office of the National Flood Insurers Association, 160 Water Street, New York, N. Y. 10038.

B. All notices or other communications required by this policy to be given to the Company shall be given to the Servicing Company designated on the Application and Declarations Form attached to this policy, and such notice shall be considered to constitute notice to the Company.

V 41 169 AUG 30 76 UMI

STANDARD FLOOD INSURANCE POLICY

(Issued Pursuant to the National Flood Insurance Act of 1968, or Any Acts Amendatory Thereof)

INSURANCE COMPANIES MEMBERS OF
NATIONAL FLOOD INSURERS ASSOCIATION
NEW YORK, N. Y.
(HEREIN CALLED THE COMPANY)

APPENDIX A (2)

GENERAL PROPERTY

IN CONSIDERATION OF THE PAYMENT OF THE PREMIUM, IN RELIANCE UPON THE STATEMENTS IN THE APPLICATION AND DECLARATIONS FORM MADE A PART HEREOF AND SUBJECT TO ALL THE TERMS OF THIS POLICY, THE COMPANY DOES INSURE the Insured named and legal representatives, to the extent of the actual cash value of the property at the time of loss, but not exceeding the amount which it would cost to repair or replace the property with material of like kind and quality within a reasonable time after such loss, without allowance for any increased cost of repair or reconstruction by reason of any ordinance or law regulating construction or repair, and without compensation for loss resulting from interruption of business or manufacture, nor in any event for more than the interest of the insured, against all **DIRECT LOSS BY "FLOOD"** as defined herein, to the property described while located or contained as described in the application and declarations form attached hereto, or pro rata for 30 days at each proper place to which any of the property shall necessarily be removed for preservation from the peril of "Flood", but not elsewhere.

Assignment of this policy shall not be valid except with the written consent of this Company.

DEFINITION OF "FLOOD"

Wherever in this policy the term "flood" occurs, it shall be held to mean

A. A general and temporary condition of partial or complete inundation of normally dry land areas from:

1. The overflow of inland or tidal waters.
2. The unusual and rapid accumulation or runoff of surface waters from any source.
3. Mudslides (i.e., mudflows) which are proximately caused or precipitated by accumulations of water on or under the ground.

B. The collapse or subsidence of land along the shore of a lake or other body of water as a result of erosion or undermining caused by waves or currents of water exceeding the cyclical levels which result in flooding as defined in A-1 above.

PERILS EXCLUDED

This Company shall not be liable for loss:

A. By (1) rain, snow, sleet, hail or water spray; (2) freezing, thawing or by the pressure or weight of ice or water, except where the property covered has been simultaneously damaged by flood; or (3) water, moisture or mudslide damage of any kind resulting primarily from conditions, causes or occurrences which are solely related to the described premises or are within the control of the Insured (including but not limited to design, structural or mechanical defects, failures, stoppages or breakages of water or sewer lines, drains, pumps, fixtures or equipment, seepage or backup of water, or hydrostatic pressure) or any condition which causes flooding which is substantially confined to the described premises or properties immediately adjacent thereto;

B. Caused directly or indirectly by (1) hostile or warlike action in time of peace or war, including action in hindering, combating or defending against an actual, impending or expected attack, (a) by any government or sovereign power (de jure or de facto), or by any authority maintaining or using military, naval or air forces, or (b) by military, naval or air forces, or (c) by an agent of any such government, power, authority or forces, it being understood that any discharge, explosion or use of any weapon of war employing nuclear fission or fusion shall be conclusively presumed to be such a hostile or warlike action by such a government, power, authority or forces; (2) insurrection, rebellion, revolution, civil war, usurped power, or action taken by governmental authority in hindering, combating or defending against such an occurrence;

C. By nuclear reaction or nuclear radiation or radioactive contamination, all whether controlled or uncontrolled, or due to any act or condition incident to any of the foregoing, whether such loss be direct or indirect, proximate or remote, or be in whole or in part caused by, contributed to, or aggravated by the peril insured against by this policy;

D. By theft or by fire, windstorm, explosion, earthquake, landslide or any other earth movement except such mudslide or erosion as is covered under the peril of flood;

E. Caused by or resulting from power, heating or cooling failure, unless such failure results from physical damage to power, heating or cooling equipment situated on premises where the property covered is located, caused by the peril insured against;

F. Occasioned directly or indirectly by enforcement of any local or state ordinance or law regulating the construction, repair or demolition of building(s) or structure(s);

G. Caused directly or indirectly by neglect of the Insured to use all reasonable means to save and preserve the property at the time of and after an occurrence of the peril insured against by this policy.

PROPERTY COVERED

A. Building: When the insurance under this policy covers a building, such insurance shall include additions and extensions attached thereto; permanent fixtures, machinery and equipment forming a part of and pertaining to the service of the building; personal property of the insured as landlord used for the maintenance or service of the building including fire extinguishing apparatus, floor coverings, refrigerating and ventilating equipment, all while within the described building; also, materials and supplies while within an enclosed structure located on the described premises or adjacent thereto, intended for use in construction, alteration or repair of such building or appurtenant private structures on the described premises.

When the insurance under this policy covers a building used for residential purposes, the insured may apply up to 10% of the amount of insurance, applicable to such building, not as an additional amount of insurance, to cover loss to appurtenant private structures (other than the described building and additions and extensions attached thereto) located on the described premises. This extension of coverage shall not apply to structures (other than structures used exclusively for private garage purposes) which are rented or leased in whole or in part, or held for such rental or lease, to other than a tenant of the described building, or which are used in whole or in part for commercial, manufacturing or farming purposes.

B. Contents: When the insurance under this policy covers contents, coverage shall be for either household contents or other than household contents, but not for both.

1. When the insurance under this policy covers other than household contents, such insurance shall cover merchandise and stock, materials and stock supplies of every description; furniture, fixtures, machinery and equipment of every description all owned by the insured; improvements and betterments (as hereinafter defined) to the building if the insured is not the owner of the building and when not otherwise covered; all while within the described enclosed building.
2. When the insurance under this policy covers household contents, such insurance shall cover all household and personal property usual or incidental to the occupancy of the premises as a residence—except animals, birds, fish, business property, other property not covered under the provisions of this policy, and any property more specifically covered in whole or in part by other insurance including the peril insured against in this policy; belonging to the insured or members of the insured's family of the same household, or for which the insured may be liable, or, at the option of the insured, belonging to a servant or guest of the insured; all while within the described building.

The insured, if not the owner of the described building, may apply up to 10% of the amount of insurance applicable to the household contents covered under this item, not as an additional amount of insurance, to cover loss to improvements and betterments (as hereinafter defined) to the described building.

The insured, if an individual condominum unit owner in the described building, may apply up to 10% of the amount of insurance on contents covered under this policy, not as an additional amount of insurance, to cover loss to the interior walls, floors, and ceilings that are not otherwise covered under a condominium association policy on the described building.

ATTACH APPLICATION AND DECLARATIONS FORM HERE

APPENDIX A (2)
GENERAL PROPERTY

This Company shall not be liable for loss in any one occurrence for more than:

(a) $500.00 in the aggregate on paintings, etchings, pictures, tapestries, art glass windows and other works of art (such as but not limited to statuary, marbles, bronzes, antique furniture, rare books, antique silver, porcelains, rare glass or bric-a-brac);

(b) $500.00 in the aggregate on jewelry, watches, necklaces, bracelets, gems, precious and semi-precious stones, articles of gold, silver or platinum and furs or any article containing fur which represents its principal value.

3. When the insurance under this policy covers improvements and betterments, such insurance shall cover the Insured's used interest in improvements and betterments to the described building.

(a) The term "improvements and betterments" wherever used in this policy is defined as fixtures, alterations, installations, or additions comprising a part of the described building and made, or acquired, at the expense of the Insured exclusive of rent paid by the Insured, but which are not legally subject to removal by the Insured.

(b) The word "lease" wherever used in this policy shall mean the lease or rental agreement, whether written or oral, in effect as of the time of loss.

(c) In the event improvements and betterments are damaged or destroyed during the term of this policy by the peril insured against, the liability of this Company shall be determined as follows:

(1) If repaired or replaced at the expense of the Insured within a reasonable time after such loss, the actual cash value of the damaged or destroyed improvements and betterments.

(2) If not repaired or replaced within a reasonable time after such loss, that proportion of the original cost at time of installation of the damaged or destroyed improvements and betterments which the unexpired term of the lease at the time of loss bears to the period(s) from the date(s) such improvements and betterments were made to the expiration date of the lease.

(3) If repaired or replaced at the expense of others for the use of the Insured, there shall be no liability hereunder.

C. Debris Removal: This insurance covers expense incurred in the removal of debris of or on the building or contents covered hereunder, which may be occasioned by loss caused by the peril insured against in this policy.

The total liability under this policy for both loss to property and debris removal expense shall not exceed the amount of insurance applying under this policy to the property covered.

PROPERTY NOT COVERED

This policy shall not cover:

A. Accounts, bills, currency, deeds, evidences of debt, money, securities, bullion, manuscripts or other valuable papers or records, numismatic or philatelic property.

B. Fences, retaining walls, seawalls, outdoor swimming pools, bulkheads, wharves, piers, bridges, docks; other open structures located on or partially over water; or personal property in the open.

C. Land values; lawn, trees, shrubs or plants, growing crops, or livestock; underground structures or underground equipment, and those portions of walks, driveways and other paved surfaces outside the foundation walls of the structure.

D. Automobiles; any self-propelled vehicles or machines, except motorized equipment not licensed for use on public thoroughfares and operated principally on the premises of the Insured; watercraft or aircraft.

E. Contents specifically covered by other insurance except for the excess of value of such property above the amount of such insurance.

DEDUCTIBLES

A. With respect to loss to the building or debris removal covered hereunder, this Company shall be liable for only the amount of loss in any one occurrence which is in excess of (a) $200. or (b) 2% of the amount of loss to the building, whichever is the greater.

B. With respect to loss to contents or debris removal covered hereunder, this Company shall be liable for only the amount of loss in any one occurrence which is in excess of (a) $200. or (b) 2% of the amount of loss to the contents, whichever is the greater.

GENERAL CONDITIONS AND PROVISIONS

A. Pair and Set Clause—If there is loss of an article which is part of a pair or set, the measure of loss shall be a reasonable and fair proportion of the total value of the pair or set, giving consideration to the importance of said article, but such loss shall not be construed to mean total loss of the pair or set.

B. Concealment, Fraud—This entire policy shall be void if, whether before or after a loss, the Insured has willfully concealed or misrepresented any material fact or circumstance concerning this insurance or the subject thereof, or the interest of the Insured therein, or in case of any fraud or false swearing by the Insured relating thereto.

C. Other Insurance—This Company shall not be liable for a greater proportion of any loss, less the amount of deductible, from the peril of flood than the amount of insurance under this policy bears to the whole amount of flood insurance (excluding therefrom any amount of "excess insurance" as hereinafter defined) covering the property, or which would have covered the property except for the existence of this insurance, whether collectible or not.

In the event that the whole amount of flood insurance (excluding therefrom any amount of "excess insurance" as hereinafter defined) covering the property exceeds the maximum amount of insurance permitted under the provisions of the National Flood Insurance Act of 1968, or any acts amendatory thereof, it is hereby understood and agreed that the insurance under this policy shall be limited to a proportionate share of the maximum amount of insurance permitted on such property under said Act, and that a refund of any extra premium paid, computed on a pro rata basis, shall be made by this Company upon request in writing submitted not later than 2 years after the expiration of the policy term during which such extra amount of insurance was in effect.

"Excess Insurance" as used herein shall be held to mean insurance of such part of the actual cash value of the property as is in excess of the maximum amount of insurance permitted under the said Act with respect to such property.

D. Added and Waiver Provisions—The extent of the application of insurance under this policy and of the contribution to be made by this Company in case of loss, and any other provision or agreement not inconsistent with the provisions of this policy, may be provided for in writing added hereto, but no provision may be waived except such as by the terms of this policy is subject to change.

No permission affecting this insurance shall exist, or waiver of any provision be valid, unless granted herein or expressed in writing added hereto. No provision, stipulation or forfeiture shall be held to be waived by any requirement or proceeding on the part of this Company relating to appraisal or to any examination provided for herein.

E. Cancellation of Policy or Reduction in Amount of Insurance—This policy may be cancelled at any time at the request of the Insured, in which case this Company shall, upon demand and surrender of this policy, refund the excess of paid premiums above the customary short rates for the expired time; provided, however, that the premium paid for the then current policy term shall be fully earned if the Insured retains an interest in the property covered at the location described in the application and declarations form.

The amount of insurance under this policy may be reduced at any time at the request of the Insured, in which case this Company shall, upon demand, refund the excess of paid premiums above the customary short rates for the expired time for the amount of the reduction; provided, however, that the premium paid for the then current policy term shall be fully earned to the extent that the Insured retains an interest in the property covered at the location described in the application and declarations form.

This policy may be cancelled by this Company for non-payment of the premium by giving to the Insured a 20-days' written notice of cancellation.

F. Conditions Suspending or Restricting Insurance—Unless otherwise provided in writing added hereto, this Company shall not be liable for loss occurring while the hazard is increased by any means within the control or knowledge of the Insured, provided, however, this insurance shall not be prejudiced by any act or neglect of any person (other than the Insured), when such act or neglect is not within the control of the Insured.

G. Alterations and Repairs—Permission is granted to make alterations, additions and repairs, and to complete structures in course of construction. In the event of loss hereunder, the Insured is permitted to make reasonable repairs, temporary or permanent, provided such repairs are confined solely to the protection of the property from further damage and provided further that the Insured shall keep an accurate record of such repair expenditures. The cost of any such repairs directly attributable to damage by the peril insured against shall be included in determining the amount of loss hereunder. Nothing herein contained is intended to modify the policy requirements applicable in case loss occurs, and in particular the requirement that in case loss occurs the Insured shall protect the property from further damage.

H. Property of Others—Unless otherwise provided in writing added hereto, loss to any property of others covered under this policy shall be adjusted with the Insured for the account of the owners of said property, except that the right to adjust such loss with said owners is reserved to this Company. Any such insurance under this policy shall not inure directly or indirectly to the benefit of any carrier or other bailee for hire.

I. Liberalization Clause—If during the period that insurance is in force under this policy, or within 45 days prior to the inception date thereof, on behalf of this Company there be adopted under the National Flood Insurance Act of 1968, or any acts amendatory thereof, any forms, endorsements, rules or regulations by which this policy could be extended or broadened, without additional premium charge, by endorsement or substitution of form, then such extended or broadened insurance shall inure to the benefit of the Insured hereunder as though such endorsement or substitution of form had been made.

J. Statutory Provisions—Any terms of this policy which are in conflict with the statutes of the State wherein the property is located are hereby amended to conform to such statutes, except that in cases of conflict with applicable Federal law or regulation, such Federal law or regulation shall control the terms of this policy.

K. Loss Clause—Payment of any loss under this policy shall not reduce the amount of insurance applicable to any other loss during the policy term which arises out of a separate occurrence of the peril insured against hereunder; provided, that all loss arising out of a continuous or protracted occurrence shall be deemed to constitute loss arising out of a single occurrence.

V 41 169 AUG 30 76 A UMI

APPENDIX A (2) GENERAL PROPERTY

L. Mortgagee Clause (Applicable to building items only and effective only when policy is made payable to a mortgagee (or trustee) named in the application and declarations form attached to this policy.)—

Loss, if any, under this policy, shall be payable to the aforesaid as mortgagee (or trustee) as interest may appear under all present or future mortgages upon the property described in which the aforesaid may have an interest as mortgagee (or trustee), in order of precedence of said mortgages, and this insurance, as to the interest of the mortgagee (or trustee) only therein, shall not be invalidated by any act or neglect of the mortgagor or owner of the described property, nor by any foreclosure or other proceedings or notice of sale relating to the property, nor by any change in the title or ownership of the property, nor by the occupation of the premises for purposes more hazardous than are permitted by this policy; provided, that in case the mortgagor or owner shall neglect to pay any premium due under this policy, the mortgagee (or trustee) shall, on demand, pay the same.

Provided, also, that the mortgagee (or trustee) shall notify this Company of any change of ownership or occupancy or increase of hazard which shall come to the knowledge of said mortgagee (or trustee) and, unless permitted by this policy, it shall be noted thereon and the mortgagee (or trustee) shall, on demand, pay the premium for such increased hazard for the term of the use thereof; otherwise this policy shall be null and void.

If this policy is cancelled by this Company, it shall continue in force for the benefit only of the mortgagee (or trustee) for 20 days after written notice to the mortgagee (or trustee) of such cancellation and shall then cease, and this Company shall have the right, on like notice, to cancel this agreement.

Whenever this Company shall pay the mortgagee (or trustee) any sum for loss under this policy and shall claim that, as to the mortgagor or owner, no liability therefor existed, this Company shall, to the extent of such payment, be thereupon legally subrogated to all the rights of the party to whom such payment shall be made, under all securities held as collateral to the mortgage debt, or may, at its option, pay to the mortgagee (or trustee) the whole principal due or to grow due on the mortgage with interest, and shall thereupon receive a full assignment and transfer of the mortgage and of all such other securities; but no subrogation shall impair the right of the mortgagee (or trustee) to recover the full amount of said mortgagee's (or trustee's) claim.

M. Mortgagee Obligations—If the Insured fails to render proof of loss, the named mortgagee (or trustee), upon notice, shall render proof of loss in the form herein specified within 60 days thereafter and shall be subject to the provisions of this policy relating to appraisal and time of payment and of bringing suit.

N. Loss Payable Clause
(Applicable to contents item only and effective only when a loss payee is named In Application and Declarations Form.)
Loss, if any, shall be adjusted with the Insured and shall be payable to the Insured and loss payee as their interests may appear.

O. Requirements in Case of Loss—The Insured shall give written notice, as soon as practicable, to this Company of any loss, protect the property from further damage, forthwith separate the damaged and undamaged property and put it in the best possible order. Within 60 days after the loss, unless such time is extended in writing by this Company, the Insured shall render to this Company a proof of loss, signed and sworn to by the Insured, stating the knowledge and belief of the Insured as to the following: the time and origin of the loss, the interest of the Insured and of all others in the property, the actual cash value of each item thereof and the amount of loss thereto, all encumbrances thereon, all other contracts of insurance, whether valid or not, covering any of said property, any changes in the title, use, occupation, location, possession or exposures of said property since the issuing of this policy, by whom and for what purpose any building herein described and the several parts thereof were occupied at the time of loss. The Insured, at the option of this Company, may be required to furnish a complete inventory of the destroyed, damaged and undamaged property, showing in detail quantities, costs, actual cash value and amount of loss claimed, and verified plans and specifications of any building, fixtures or machinery destroyed or damaged.

The Insured, as often as may be reasonably required, shall exhibit to any person designated by this Company all that remains of any property herein described, and submit to examinations under oath by any person named by this Company, and subscribe the same; and, as often as may be reasonably required, shall produce for examination all books of account, bills, invoices and other vouchers, or certified copies thereof if originals be lost, at such reasonable time and place as may be designated by this Company or its representative, and shall permit extracts and copies thereof to be made.

P. Appraisal—In case the Insured and this Company shall fail to agree as to the actual cash value or the amount of loss, then, on the written demand of either, each shall select a competent and disinterested appraiser and notify the other of the appraiser selected within 20 days of such demand. The appraisers shall first select a competent and disinterested umpire; and failing for 15 days to agree upon such umpire, then, on request of the Insured or this Company, such umpire shall be selected by a judge of a court of record in the State in which the insured property is located. The appraisers shall then appraise the loss, stating separately actual cash value and loss to each item; and, failing to agree, shall submit their differences, only, to the umpire. An award in writing, so itemized, of any two when filed with this Company shall determine the amount of actual cash value and loss. Each appraiser shall be paid by the party selecting him and the expenses of appraisal and umpire shall be paid by the parties equally.

Q. Company's Options—It shall be optional with this Company to take all, or any part, of the property at the agreed or appraised value, and also to repair, rebuild or replace the property destroyed or damaged with other of like kind and quality within a reasonable time, on giving notice of its intention so to do within 30 days after the receipt of the proof of loss herein required.

R. Abandonment—There shall be no abandonment to this Company of any property.

S. When Loss Payable—The amount of loss for which this Company may be liable shall be payable 60 days after proof of loss, as herein provided, is received by this Company and ascertainment of the loss is made either by agreement between the Insured and this Company expressed in writing or by the filing with this Company of an award as herein provided.

T. Action Against the Company—No suit or action on this policy for the recovery of any claim shall be sustainable in any court of law or equity unless all the requirements of this policy shall have been complied with, and unless commenced within 12 months next after the date of mailing of notice of disallowance or partial disallowance of the claim. An action on such claim against the Company may be instituted, without regard to the amount in controversy, in the United States District Court for the district in which the property shall have been situated.

U. Subrogation—In the event of any payment under this policy, this Company shall be subrogated to all of the Insured's right of recovery therefor against any party, and this Company may require from the Insured an assignment of all right of recovery against any party for loss to the extent that payment therefor is made by this Company. The Insured shall do nothing after loss to prejudice such right; however, this insurance shall not be invalidated should the Insured waive in writing prior to a loss any or all right of recovery against any party for loss occurring to the described property.

IN WITNESS WHEREOF, this Company has executed and attested these presents; but this policy shall not be valid unless countersigned by the duly authorized representative of this Company.

W. H. Williams

Attorney-in-Fact for the Insurance Companies
Members of National Flood Insurers Association

SPECIAL PROVISIONS

A. A list of all Insurance Companies members of the National Flood Insurers Association is on file in the office of the State Insurance Department of the State where the property covered is located and a copy may be obtained upon request from the office of the National Flood Insurers Association, 160 Water Street, New York, N. Y. 10038.

B. All notices or other communications required by this policy to be given to the Company shall be given to the Servicing Company designated on the Application and Declarations Form attached to this policy, and such notice shall be considered to constitute notice to the Company.

9.1 PREMIUM NOTICE (PAYOR)—NFIA-50—50-A — APPENDIX B

Approximately one and a half months before expiration of a policy for which the NFIA is able to determine rates and calculate renewal premiums, the payor (insured or mortgagee) is sent a premium notice advising him of the approaching expiration and specifying renewal premium amounts. The bottom of the form is a detachable renewal stub to be returned to the NFIA with the premium. Instructions for preparing the form are printed on its back. Samples of the front and back of the form are presented below and on the following page. NFIA-50A, marked "Agent's Copy," is sent to the agent at the same time as the premium notice is sent to payor; it is identical to the payor's copy.

MORTGAGEE'S COPY

V 41 169 AUG 30 76 UMI

APPENDIX D

(1) *Mudslide.* The term "mudslide" shall be interpreted to mean mudflow, a condition where there is actually a flow of mud down a slope.

The occasion for the amendment of the flood policy to include mudslides was the devastating mudflows that had occurred in a number of Southern California communities in 1969 (notably in Glendore, California, which mudflow catastrophe was graphically depicted in the October, 1969 issue of the "National Geographic" magazine), as a result of a record number of grass and brush fires during the summer of 1968, followed by record rains from mid-January until early March the next year. Homes were washed down hills or inundated by what were literally rivers of mud coming down from the hills. Unfortunately, the press and other media at the time characterized these mudflows as "mudslides," a term more identified, really, with landslides.

Thus, the "mudslide" peril was added to flood coverage in the 1969 Housing Act. But it was not added as a peril completely separate from the notion of flood; rather, it was considered analogous to, and essentially a part of, the flooding condition, and was therefore, added by the Congress as an additional meaning of the term "flood" itself. Consequently, we have construed the Congressional intent in the light of the context in which the peril was added, i.e., as a result of the mudflow losses that had occurred in Southern California. Blanket coverage for all types of earth movement was not intended to be covered, and no coverage is provided for improper building or use of fill where rainfall alone is the proximate cause of loss.

Mudflow, on the other hand, tends to involve an abnormal condition akin to flooding, where there would usually be a combination of loss of grass and brush cover, followed by a period of unusually heavy or sustained rains, causing the loosened soil to turn to mud and to begin its flow down the hillside. Such an occurrence is clearly the more fortuitous kind of event that property insurance is normally intended to cover. FIA has consistently adhered to the principle that under the definition of "flood" (which includes mudslides) in the policy there is no mudslide occurrence unless and until there exists a condition of inundation by mudslide in the area in which the insured property is located and that inundation by mudslide necessarily involves a mudflow and not merely a landslide or erosion, whether gradual or sudden. It is with these concepts in mind that the Standard Flood Insurance Policy was amended on July 1, 1974, to specifically add the "mudflow" concept by defining the mudslide peril as being a "flood," as follows: "A general and temporary condition of partial or complete inundation of normally dry land areas from * * * 3 Mudslides (i.e., mudflows) which are proximately caused or precipitated by accumulations of water on or under the ground." Loss by landslide or any other earth movement is still excluded under the policy.

In recognition of the need for a restatement of the Congressional intent underlying the addition of the mudslide coverage to the policy, the United States Senate in its Report on the Flood Disaster Protection Act of 1973 affirmed that FIA had correctly construed the term "mudslide" in the 1969 amendment to mean "mudflow; namely, a condition where there is actually a river, or flow, of 'liquid mud' down a hillside, usually as a result of a dual condition of loss of brush cover and subsequent heavy rains" and that "Clearly, the committee intended this condition to be covered when it added the mudslide amendment to the Act in 1969." The Committee also stressed, at pages 13 and 14 of the Report, that FIA would be expected to pay for mudflow losses that occur unexpectedly while a landslide is in progress, so long as the mudflow and not the landslide is the proximate cause of the damage. See Senate Report No. 93-583, 93rd Congress, 1st Session (November 29, 1973).

(2) *Loss in progress.* Basically, under the Standard Flood Insurance Policy, buildings and contents are insured against all direct loss by flood. If a loss is in progress at the time of the inception of coverage, the coverage does not apply to such loss.

The determination as to whether a loss shall be considered to have been in progress at the inception of the contract of insurance turns on the test of when the damage occurred:

If the bulding had already sustained damage by flood, mudflow, or flood related erosion ("flow") at the time of the inception of the policy, coverage will not apply for that loss.

If the building had not been damaged at the inception time, even though the flood may already have entered the land of the owner or caused damage to the land, coverage will apply.

If the building had already sustained damage at the policy's inception time, then subsequently, due to a new flood occurrence, sustained additional damage, the additional damage occasioned by the new event is a covered loss.

Damage to the insured's land, or damage to his neighbor's land or buildings, is immaterial. The test is concerned with the time of damage to the insured's building or contents in relation to the inception time of the policy.

(3) *Flood related erosion.* Under the Standard Flood Insurance Policy, property damage resulting from wave action along a lake or other body of water would be considered a direct loss by flood if the proximate cause of the damage were a general and temporary condition of partial or complete inundation of normally dry land areas from the overflow of inland or tidal waters or the unusual rapid accumulation or runoff of surface waters from any source.

When a sudden surge or force of nature, such as a severe storm, deluge, or hurricane, accelerates the normal wave action or otherwise causes an abnormally rapid and severe inundation and/or sudden washing away of normally dry land areas by water, any structural property damage proximately caused thereby would be covered under the flood insurance policy. However, where normal, continuous wave action, accompanied by ordinary erosion or the gradual and anticipated wearing away of the land, is the proximate cause of structural property damage, there is no coverage.

The Congress, in recognition of these principles, codified the definition of covered flood related erosion, in § 108 of the Flood Disaster Protection Act of 1973, which has been included in the Standard Flood Insurance Policy as follows: "Definition of 'Flood'—B. The collapse or subsidence of land along the shore of a lake or other body of water exceeding the cyclical levels which result in flooding as defined in A–1 above."

Thus, the concept of flood now includes a type of erosion; an erosion caused by high levels of water in a lake or other body of water. The fact situation for coverage to apply does not require surface flooding, nor severe storm conditions. The touchstone for coverage is a finding of waves or currents of water exceeding anticipated cyclical levels. This latter phrase admittedly presents certain technical difficulties in its application; however, we believe that the compilation and interpretation of the necessary data are not beyond the ken of particular experts in the field. The information can then be matched to the specific claim file, and if relevant, a showing of erosion or undermining causing collapse or subsidence with resulting property damage, would establish a prime facie case.

(4) *Sewer and drain back-up coverage.* First, it is clear that the program does not cover drain back-up that is unrelated to a general condition of flooding as defined in the policy. The two kinds of flooding (other than mudslide and erosion) defined in the policy, of course, are tidal, lake, or stream overflow and surface flooding.

Drain back-up related to surface flooding requires an actual condition of surface flooding in the community or area where the drain back-up occurs. Example. Thus, if a sudden heavy rain fills gutters and overloads sewer systems within a community, causing considerable damage from residential drain-back-up, but there is no evidence of damage from general surface flooding within the community (such as that caused by water entering through basement windows) then no coverage is provided under the policy.

On the other hand, if there has obviously been a flash flood and substantial damage from surface runoff is evident, then related sewer back-up losses are also covered, and there is no need for the adjuster to separate out damage caused by drain back-up from that caused, for example, by water entering through the basement windows, as long as he is satisfied that the damage has not resulted primarily from causes on the insured's own property.

Drain back-up directly related to rising waters or the overflow of natural bodies of water is similarly covered. All that must be shown is that the drain back-up loss was proximately caused by rising waters in an identifiable body of water that is at or above flood stage. "Flood stage" is generally defined as the stage or elevation at which the overflow of the *natural* banks of a stream or body of water begins, *in the reach or area in which the elevation is measured* (Emphasis supplied.)

Example. Thus, if the Mississippi River is at flood stage and is prevented from overflowing its banks at a particular location by a levee, but the waters back up into a nearby tributary, flooding adjacent properties either through the overflow of the tributary or the back-up of water into the sewers emptying into the tributary, then all of the resulting damage would be covered under the policy, since no damage would have occurred but for the fact that the Mississippi River was at flood stage.

To recapitulate, it is proper under the policy to pay drain back-up losses which, like erosion losses or mudslide losses (both of which have now been added by statute), are directly and proximately caused by a covered form of flooding. It makes no sense to deny coverage for the relatively minor damage to properties caused by drain back-up at locations where levees have been built, while at the same time paying for major structural damage to properties at locations where levees have not been built, when both types of losses are caused by the same water level in the same stream.

(5) *Seepage and high water table coverage.* The program does not cover losses which are causally related solely to high water tables or or seepage. The Standard Flood Insurance Policy only covers losses arising out of a general condition of flooding. The two kinds of flooding (other than mudslides and erosion) defined in the Standard Flood Insurance Policy are surface flooding, tidal, lake or stream overflow. For damage related to seepage or a high water table to be covered, in the case of surface flooding, the event must be proximately caused by and be a part of a natural condition of surface flooding in the

community or area where the seepage damage or high water table occurs. Example A. Thus, if a sudden, heavy rain increases the water table in a given area and causes seepage of water, resulting in considerable damage, but there is no evidence of damage from a general surface flooding within the community (such as that caused by water entering through basement windows), then no coverage is provided under the policy. On the other hand, if there has obviously been a flash flood and substantial damage from surface water runoff is evident in the community or area, then, related high water table and seepage losses, so long as they are part of the same flooding event are also covered. In addition, there is no need, in such cases, for the adjuster to separate out damage caused by seepage from that caused, for example, by water entering the basement window as long as he is satisfied that the damage has not resulted primarily from causes on the insured's own property and that there was a general condition of flooding in the community or area which was the proximate cause of the loss.

Seepage and high water table damage directly related to rising waters or the overflow of natural bodies of water is similarly covered. All that must be shown is that the loss was proximately caused by rising waters in an identifiable body of water that is at or above flood stage. "Flood stage" is generally defined as the stage or elevation at which the overflow of the *natural* banks of a stream or body of water begins, *in the reach or area in which the elevation is measured.* (Emphasis supplied.)

Example B. Thus, while an identifiable body of water is at or above flood stage and is prevented from overflowing its banks at a particular location by a levee, but the waters (either through back-up of a nearby tributary, or the creation of an unusually high water table) flood adjacent properties through seepage of water into buildings in the area, then all of the resulting damage would be covered under the policy, since no damage would have occurred but for the fact that the Mississippi River, for example, was at flood stage.

To recapitulate, it is proper under the policy to pay seepage and high water table losses which, like erosion losses or mudslide loses (both of which have now been added by statute), are directly and proximately caused by a covered form of flooding.

(6) *Coverage for expenses incurred in removing insured contents away from the peril of flood.* Insureds who take the precaution of removing insured contents or personalty away from the peril of flood are to be compensated for the reasonable expenses of removing the contents of an insured structure from the path of a flood which is of such imminence as to lead a person of common prudence to apprehend damage to such contents inasmuch as such loss or expense constitutes loss proximately resulting from flood under the Standard Flood Insurance Policy.

PART VII:

DEPARTMENT OF COMMERCE

Economic Development Administration

■

LOCAL PUBLIC WORKS CAPITAL DEVELOPMENT AND INVESTMENT PROGRAM

V 41 169 AUG 30 76 UMI

Title 13—Business Credit and Assistance

CHAPTER III—ECONOMIC DEVELOPMENT ADMINISTRATION, DEPARTMENT OF COMMERCE

PART 316—LOCAL PUBLIC WORKS CAPITAL DEVELOPMENT AND INVESTMENT PROGRAM

The Economic Development Administration, pursuant to Title I of the Public Works Employment Act of 1976, hereby amends 13 CFR 316.2, 316.10 and 316.13 for the purposes of defining a "general purpose unit of local government;" adding to the "basic rank" of the "project selection formula" the fourth factor, which was previously omitted; and to correct the references to specified subsections.

Section 316.2 is amended to add a definition for a "general purpose unit of local government."

Section 316.10(a)(2)(i) is amended by adding a new paragraph (D) to provide for consideration of the level of income prevailing in the project area as the fourth factor, constituting 15 percent, of a project's basic rank.

Section 316.13(a)(2) is amended to change the references to "subsections C and D" to "subsections (iii) and (iv)", respectively.

In that the material contained herein is a matter relating to an EDA grant program and because these amendments are corrections of existing regulations, the relevant provisions of the Administrative Procedure Act (5 U.S.C. 553) requiring notice of proposed rulemaking opportunity for public participation and delay in effective date are inapplicable.

In accordance with the spirit of the public policy set forth in 5 U.S.C. 553, interested persons may submit written comments or suggestions regarding these amendments to the Assistant Secretary for Economic Development, U.S. Department of Commerce, Room 7800B, Washington, D.C. 20230, on or before September 21, 1976. All suggestions will be considered in revising or amending these regulations. Until such time as further changes are made, however, the amended regulations shall remain in effect, thus permitting the public business to proceed more expeditiously.

Consideration has been given as to whether matters set forth in these amendments constitute a major proposal with an inflationary impact within the meaning of OMB Circular No. A-107 and the interpretative guidelines issued by the Department of Commerce. It has been determined that these regulations do not constitute action requiring an inflationary impact statement.

In consideration of the foregoing, 13 CFR Chapter III is hereby amended as follows:

1. Section 316.2 is amended by adding after the definition of "Assistant Secretary" the following new definition:

§ 316.2 Definitions.

* * * * *

General purpose unit of local government means any city, county, town, parish, Indian tribe, or any other "unit of general local government" as included within the definition of that term by section 4201(4) of the Intergovernmental Cooperation Act of 1968. (42 U.S.C. 4201 et seq.)

* * * * *

2. Section 316.10(a)(2)(i) is amended by adding the following new paragraph (D):

§ 316.10 General considerations and requirements for assistance.

(a) * * *
(2) * * *
(i) * * *

(D) The level of income prevailing in the project area. This factor will constitute 15 percent of a project's basic rank.

* * * * *

§ 316.13 [Amended]

3. Section 316.13(a)(2) is amended to change the references to subsections "C and D" to "(iii) and (iv)", respectively.

(Title I, Pub. L. 94-369 (July 22, 1976); 42 U.S.C. 6701 et seq.; 90 Stat. 999; and Department of Commerce Organization Order 10-4 (September 30, 1975) as amended (40 FR 56702, as amended at 40 FR 58878 and at 41 FR 35548).)

Effective date: This amendment becomes effective on August 30, 1976.

It is hereby certified that the economic and inflationary impacts of this regulation have been carefully evaluated in accordance with OMB Circular No. A-107.

JOHN W. EDEN,
Assistant Secretary for Economic Development.

AUGUST 26, 1976.

reminders

(The items in this list were editorially compiled as an aid to FEDERAL REGISTER users. Inclusion or exclusion from this list has no legal significance. Since this list is intended as a reminder, it does not include effective dates that occur within 14 days of publication.)

Rules Going Into Effect Today

Commerce/PTO—Patent cases; interference practices..... 27832; 7–7–76

FCC—Broadcast stations; remote pickup. 29681; 7–19–76

FDIC—Securities of insured state nonmember banks; quarterly report. 25887; 7–23–76

SEC—Authority delegation; Directors, Division of Market Regulation; Office of Reports and Information Service. 32736; 8–5–76

List of Public Laws

NOTE: No public bills which have become law were received by the Office of the Federal Register for inclusion in today's LIST OF PUBLIC LAWS.

AGENCY PUBLICATION ON ASSIGNED DAYS OF THE WEEK

The six-month trial period ended August 6. The program is being continued on a voluntary basis (see OFR notice, 41 FR 32914, August 6, 1976). The following agencies have agreed to remain in the program:

Monday	Tuesday	Wednesday	Thursday	Friday
NRC	USDA/ASCS		NRC	USDA/ASCS
DOT/COAST GUARD	USDA/APHIS		DOT/COAST GUARD	USDA/APHIS
DOT/NHTSA	USDA/FNS		DOT/NHTSA	USDA/FNS
DOT/FAA	USDA/REA		DOT/FAA	USDA/REA
DOT/OHMO	CSC		DOT/OHMO	CSC
DOT/OPSO	LABOR		DOT/OPSO	LABOR

Documents normally scheduled on a day that will be a Federal holiday will be published the next work day following the holiday.

Comments on this program are still invited. Comments should be submitted to the Day-of-the-Week Program Coordinator, National Archives and Records Service, General Services Administration, Washington, D.C. 20408.

ATTENTION: Questions, corrections, or requests for information regarding the contents of this issue only may be made by dialing 202–523–5286. For information on obtaining extra copies, please call 202–523–5240. To obtain advance information from recorded highlights of selected documents to appear in the next issue, dial 202–523–5022.

federal register

Area Code 202 Phone 523–5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $5.00 per month or $50 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

HIGHLIGHTS—Continued

Title 3—The President

PROCLAMATION 4451

Women's Equality Day, 1976

By the President of the United States of America

A Proclamation

During this Bicentennial Year we celebrate a dynamic history which began with that inspirational declaration that all individuals are "endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty and the pursuit of Happiness."

To give substance and form to those self-evident truths, "We the People of the United States" created a constitutional republic to "secure the Blessings of Liberty to ourselves and our Posterity."

However, it was not until August 26, 1920, that the Nineteenth Amendment to our Constitution unambiguously secured for each of us, regardless of sex, that precious mark of liberty—the right to vote.

In October 1971 and March 1972, the House of Representatives and the Senate of the United States proposed a new amendment for our consideration—an amendment, completing the process begun by the Nineteenth, which would secure "equality of rights under the law" regardless of sex, for men and women.

Several more States need to ratify that Equal Rights Amendment before it becomes part of our Constitution. It would be most fitting for this to be accomplished as we begin our third century. In this Land of the Free, it is right, and by nature it ought to be, that all men and all women are equal before the law.

NOW, THEREFORE, I, GERALD R. FORD, President of the United States of America, to remind all Americans that it is fitting and just to secure legal equality for all women and men, do hereby designate and proclaim August 26, 1976, as Women's Equality Day.

I call upon all the citizens of the United States to mark this day with appropriate activities, and I call upon those States who have not ratified the Equal Rights Amendment to give serious consideration to its ratification and the upholding of our Nation's heritage.

IN WITNESS WHEREOF, I have hereunto set my hand this twenty-fifth day of August, in the year of our Lord nineteen hundred and seventy-six, and of the Independence of the United States of America the two hundred and first.

Gerald R. Ford

Executive Order 11933 • August 25, 1976

Termination of the Federal Energy Office

By virtue of the authority vested in me by the Constitution and statutes of the United States of America, and as President of the United States of America, it is hereby ordered as follows:

SECTION 1. Executive Order No. 11930 of July 30, 1976, which established the Federal Energy Office, is, consistent with the Federal Energy Administration Act Amendments of 1976 (Title I of Public Law 94-385), hereby revoked as of the date of its issuance.

SEC. 2. All orders, rules, regulations, rulings, interpretations, and other directives issued or pending, all rule making, judicial and administrative proceedings commenced or pending, all voluntary agreements, plans of action, and all other actions of whatever nature taken, continued, confirmed, ratified or made effective under Executive Order 11930, shall, in accordance with the Federal Energy Administration Act Amendments of 1976, be deemed to have been actions of the Federal Energy Administration and shall continue and remain in full force and effect, unless amended or revoked by the Federal Energy Administration.

SEC. 3. All authority and responsibility vested in the Federal Energy Administration by Executive order or proclamation prior to July 31, 1976 was not revoked by Executive Order No. 11930, subsists in the Federal Energy Administration, and shall be deemed to have been continuously vested in the Federal Energy Administration, whose existence has been retroactively extended by the Federal Energy Administration Act Amendments of 1976.

Gerald R. Ford

THE WHITE HOUSE,
August 25, 1976.

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 5—Administrative Personnel

CHAPTER I—CIVIL SERVICE COMMISSION

PART 213—EXCEPTED SERVICE

Small Business Administration

Section 213.3332 is amended to show that one position of Director, Office of Public Communications, is excepted under Schedule C.

Effective August 31, 1976, § 213.3332 (w) is added as set out below:

§ 213.3332 Small Business Administration.

* * * * * *

(w) One Director, Office of Public Communications.

(5 U.S.C. 3301, 3302; EO 10577, 3 CFR 1954–1958 Comp., p. 218)

UNITED STATES CIVIL SERVICE COMMISSION
JAMES C. SPRY,
Executive Assistant to the Commissioners.

[FR Doc.76–25587 Filed 8–30–76;8:45 am]

Title 7—Agriculture

CHAPTER VII—AGRICULTURAL STABILIZATION AND CONSERVATION SERVICE (AGRICULTURAL ADJUSTMENT), DEPARTMENT OF AGRICULTURE

SUBCHAPTER B—FARM MARKETING QUOTAS AND ACREAGE ALLOTMENTS

[Amdt. 3]

PART 725—FLUE-CURED TOBACCO

Subpart—Flue-Cured Tobacco Acreage Allotment and Marketing Quota Regulations, 1973–74 and Subsequent Marketing Years

1975–76 AVERAGE MARKET PRICE AND 1976–77 PENALTY RATE

This amendment contains the average market price received by producer for the 1975–76 marketings and the penalty rate for excess tobacco for the 1976–77 marketing year. Also contained in this amendment is a minor word deletion which does not materially affect the 1976–77 or subsequent crops of flue-cured tobacco.

1. Section 725.72(c) (4) (i) is amended to provide that the farm acreage allotment rather than effective farm acreage allotment will be used in determining the eligibility for approval of a transfer agreement.

2. Section 725.92 is revised to include the 1975–76 average market price producers received for flue-cured tobacco and to incorporate the 1976–77 penalty rate for excess flue-cured tobacco.

Since the 1975–76 average market price producers received for flue-cured tobacco and the rate of penalty reflect mathematical computations rather than substantive changes, it is hereby determined and found that compliance with the notice, public rulemaking procedure, and effective date requirements contained in 5 U.S.C. 553 is unnecessary and contrary to the public interest. Accordingly, this document shall become effective August 31, 1976.

The following changes and additions are made in 7 CFR Part 725:

1. Section 725.72(c) (4) (i) is amended to read as follows:

§ 725.72 Lease and transfer of tobacco marketing quotas.

* * * * * *

(c) *Filing and approval of transfer agreement.* * * *

(4) *Transfers not to be approved.* (i) Except for transfer agreements filed after June 14, a transfer shall not be approved if after the transfer the lessee farm acreage allotment, plus the acres obtained by dividing the pounds transferred to the lessee farm by the current year's farm yield for such farm, would exceed 50 percent of the cropland on such farm.

* * * * * *

2. Section 725.92 is amended by revising paragraph (b) to read as follows:

§ 725.92 Rate of penalty.

* * * * * *

(b) (1) *Average market price.* The average market price as determined by the Crop Reporting Board for the marketing year specified was:

AVERAGE MARKET PRICE

Marketing year:	*Cents per pound*
1972 to 1973	85.3
1973 to 1974	88.1
1974 to 1975	105.0
1975 to 1976	99.8

(2) *Rate of penalty per pound.* The penalty per pound upon marketings of excess tobacco subject to marketing quotas during the marketing year specified shall be:

RATE OF PENALTY

Marketing year:	*Cents per pound*
1973 to 1974	64
1974 to 1975	66
1975 to 1976	79
1976 to 1977	75

(Secs. 301, 313, 314, 316, 317, 363, 372–375, 377, 378, 52 Stat. 38, as amended, 47, as amended, 48, as amended, 75 Stat. 469, as amended, 79 Stat. 66, 52 Stat. 63, as amended, 65–66, as amended, 72 Stat. 995; sec. 401, 63 Stat. 1054, as amended, secs. 106, 112, 125, 70 Stat. 191, 195, 198, as amended, sec. 16(e), 76 Stat. 606; (7 U.S.C. 1301, 1313, 1314, 1314b, 1314c, 1363, 1372–1375, 1377, 1378, 1421, 1613, 1824, 1836, 16 U.S.C. 590p(e)).)

Effective date: August 31, 1976.

Signed at Washington, D.C., on August 25, 1976.

KENNETH E. FRICK,
Administrator, Agricultural Stabilization and Conservation Service.

[FR Doc.76–25477 Filed 8–30–76;8:45 am]

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

PART 930—CHERRIES GROWN IN MICHIGAN, NEW YORK, WISCONSIN, PENNSYLVANIA, OHIO, VIRGINIA, WEST VIRGINIA, AND MARYLAND

Expenses and Rate of Assessment

This document authorizes expenses of $94,245 for the Cherry Administrative Board, under Marketing Order No. 930, for the 1976–77 fiscal period and fixes the rate of assessment of $1.50 per ton of cherries handled. Such assessment is to be paid to the committee by each handler as his pro rata share of program expenses.

On August 4, 1976, notice of proposed rulemaking was published in the FEDERAL REGISTER (41 FR 32606) regarding proposed expenses and the related rate of assessment for the period May 1, 1976, through April 30, 1977, under the marketing agreement and Order No. 930 (7 CFR Part 930) regulating the handling of cherries grown in Michigan, New York, Wisconsin, Pennsylvania, Ohio, Virginia, West Virginia, and Maryland. The notice invited interested persons to file written data, views, or arguments through August 20, 1976. No such material was received. This regulatory program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674).

After consideration of all relevant matter presented, including that in the notice, the information and recommendations submitted by the Cherry Administrative Board (established under the marketing agreement and Order No. 930), and other available information, it is found and determined that:

§ 930.206 Expenses and rate of assessment.

(a) *Expenses.* Expenses that are reasonable and likely to be incurred by the Cherry Administrative Board during the

V 41 170 AUG 31 76 UMI

period May 1, 1976, through April 30, 1977, will amount to $94,245.

(b) *Rate of assessment.* The rate of assessment for said period, payable by each first handler in accordance with § 930.41, is fixed at $1.50 per ton of cherries.

(c) *Terms.* Terms used in the marketing agreement and order shall, when used herein, have the same meaning as is given to the respective terms in the marketing agreement and order; and "ton of cherries" shall mean 2,000 pounds of raw unpitted cherries.

It is further found that good cause exists for not postponing the effective time of this action until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) in that: (1) Handling of the current crop of cherries grown in the production area is now underway; (2) the relevant provisions of the marketing agreement and Order No. 930 require that the rate of assessment fixed for a particular fiscal period shall be applicable to all assessable cherries handled from the beginning of that fiscal period; and (3) the current fiscal period began on May 1, 1976, and the rate of assessment will automatically apply to all such cherries beginning with such date.

(Secs. 1–19, 48 Stat. 31, as amended; (7 U.S.C. 601–674).)

Dated: August 26, 1976.

CHARLES R. BRADER,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.76-25476 Filed 8-30-76;8:45 am]

PART 993—DRIED PRUNES PRODUCED IN CALIFORNIA

Expenses of the Prune Administrative Committee and the Rate of Assessment for the 1976–77 Crop Year

Notice was published in the August 9, 1976, issue of the FEDERAL REGISTER (41 FR 33275) regarding expenses of the Prune Administrative Committee and the rate of assessment for the 1976–77 crop year under §§ 993.80 and 993.81 of the marketing agreement, as amended, and Order No. 993, as amended (7 CFR Part 993), regulating the handling of dried prunes produced in California. The amended marketing agreement and order are effective under the Agricultural Marketing Agreement Act of 1937, as amended (6 U.S.C. 601–674).

Interested persons were given until August 20, 1976, in which to submit written data, views, or arguments with respect to the proposal. None were received.

The proposal was based on a unanimous recommendation of the Prune Administrative Committee. Expenses of the Committee for the 1976–77 crop year were proposed at $222,500. Also, the assessment rate was proposed to be $1.51 per ton of assessable prunes.

After consideration of all relevant matter presented, including that in the notice, the information and recommendations submitted by the Prune Administrative Committee, and other available information, it is found that the expenses of the Prune Administrative Committee and the rate of assessment for the crop year beginning August 1, 1976, shall be as hereinafter set forth.

It is further found that good cause exists for not postponing the effective time of this action until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) in that: (1) The relevant provisions of said marketing agreement and this part require that the rate of assessment fixed for a particular crop year shall be applicable to all salable prunes handled by handlers as the first handlers thereof; and (2) the current crop year began on August 1, 1976, and the rate of assessment hereinafter fixed will automatically apply to all such prunes beginning with that date.

The expenses and assessment rate as set forth in § 993.327 are as follows:

§ 993.327 Expenses of the Prune Administrative Committee and rate of assessment for the 1976–77 crop year.

(a) *Expenses.* Expenses in the amount of $222,500 are reasonable and likely to be incurred by the Prune Administrative Committee during the crop year beginning August 1, 1976, for its maintenance and functioning and for such other purposes as the Secretary may, pursuant to the applicable provisions of the marketing agreement, as amended, and this part, determine to be appropriate.

(b) *Rate of assessment.* The rate of assessment for such crop year which each handler is required, pursuant to § 993.81, to pay to the Prune Administrative Committee as his pro rata share of the said expenses is fixed at $1.51 per ton of salable prunes handled by him as the first handler thereof.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674.)

Dated: August 25, 1976.

CHARLES R. BRADER,
Deputy Director, Fruit and Vegetable Division.

[FR Doc.76-25422 Filed 8-30-76;8:45 am]

Title 9—Animals and Animal Products

CHAPTER I—ANIMAL AND PLANT HEALTH INSPECTION SERVICE, DEPARTMENT OF AGRICULTURE

SUBCHAPTER C—INTERSTATE TRANSPORTATION OF ANIMALS (INCLUDING POULTRY) AND ANIMAL PRODUCTS

PART 78—BRUCELLOSIS

Subpart D—Designation of Brucellosis Areas, Specifically Approved Stockyards, and Slaughtering Establishments

BRUCELLOSIS AREAS

The amendments delete the following areas from the list of Noncertified Areas in § 78.22 and add such areas to the list designated as Modified Certified Brucellosis Areas in § 78.21 because it has been determined that they again come within the definition of a Modified Certified Brucellosis Area in § 78.1(m): Van Zandt County in Texas.

The amendments delete the following areas from the list of Certified Brucellosis-Free Areas in § 78.20 and add such areas to the list designated as Modified Certified Brucellosis Areas in § 78.21 because it has been determined that they now come within the definition of a Modified Certified Brucellosis Area in § 78.1(m):

Ashley County in Arkansas; Mesa County in Colorado; Butte, Elmore, Gooding, Jefferson, and Minidoka Counties in Idaho.

The amendments delete the following areas from the list of Modified Certified Brucellosis Areas in § 78.21 and add such areas to the list designated as Certified Brucellosis-Free Areas in § 78.20 because it has been determined that they now come within the definition of a Certified Brucellosis-Free Area in § 78.1(l): Jackson, Marshall, and Pottawattamie Counties in Iowa.

Accordingly, §§ 78.20, 78.21, and 78.22 of Part 78, Title 9, Code of Federal Regulations, designating Certified Brucellosis-Free Areas, Modified Certified Brucellosis Areas, and Noncertified Areas, respectively, are amended to read as follows:

§ 78.20 Certified Brucellosis-Free Areas.

The following States, or specified portions thereof, are hereby designated as Certified Brucellosis-Free Areas:

(a) *Entire States.* Arizona, California, Connecticut, Delaware, Hawaii, Indiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Montana, Nevada, New Hampshire, New Jersey, New York, North Carolina, North Dakota, Ohio, Oregon, Pennsylvania, Rhode Island, South Carolina, Vermont, Virginia, Washington, West Virginia, Wisconsin, Virgin Islands.

South Dakota, Aurora, Bennett, Bon Homme, Brookings, Brown, Brule, Buffalo, Butte, Campbell, Charles Mix, Clark, Clay, Codington, Corson, Custer, Davison, Day, Deuel, Dewey, Douglas, Edmunds, Fall River, Faulk, Grant, Gregory, Haakon, Hamlin, Hand, Hanson, Harding, Hughes, Hutchinson, Hyde, Jackson, Jerauld, Kingsbury, Lake, Lawrence, Lincoln, Lyman, Marshall, McCook, McPherson, Meade, Mellette, Miner, Minnehaha, Moody, Pennington, Perkins, Potter, Roberts, Sanborn, Shannon, Spink, Sully, Todd, Tripp, Turner, Union, Walworth, Washabaugh, Yankton, Ziebach.

Tennessee. Anderson, Bledsoe, Blount, Campbell, Carter, Cheatham, Claiborne, Davidson, Decatur, Dickson, Fentress, Grainger, Greene, Grundy, Hamblen, Hancock, Hardin, Houston, Jackson, Jefferson, Johnson, Knox, Lake, Lincoln, Meigs, Monroe, Morgan, Polk, Roane, Robertson, Rutherford, Scott, Sequatchie, Sevier, Sullivan, Unicoi, Union, Van Buren, Warren, Washington, White.

Texas. Brewster, Childress, Comal, Crane, Ector, Gray, Hansford, Hartley, Hemphill, Irion, Jeff Davis, Kerr, Kimble, Lipscomb, Llano, Loving, Mason, Newton, Pecos, Reagan, Reeves, Roberts, Sterling, Terrell, Val Verde, Ward, Winkler.

Utah. Beaver, Carbon, Daggett, Davis, Duchesne, Emery, Garfield, Grand, Iron, Juab, Kane, Millard, Morgan, Piute, Rich, Salt Lake, San Juan, Sanpete, Sevier, Summit, Tooele, Uintah, Utah, Wasatch, Washington, Wayne Weber.

Wyoming. Albany, Big Horn, Campbell, Carbon, Converse, Crook, Fremont, Goshen, Hot Springs, Johnson, Laramie, Natrona, Niobrara, Park, Platte, Sheridan, Sublette, Sweetwater, Teton, Uinta, Washakie, Weston.

Puerto Rico. Adjuntas, Aguada, Aguadilla, Aguas Buenas, Aibonito, Anasco, Arroyo, Barceloneta, Barranquitas, Bayamon, Cabo Rojo, Caguas, Camuy, Canovanas (Loiza), Catano, Cayey, Ceiba, Ciales, Cidra, Coamo, Comerio, Corozal, Culebra, Dorado, Fajardo, Guanica, Guayama, Guayanilla, Gurabo, Hormigueros, Humacao, Isabela, Jayuya, Juana Diaz, Lajas, Lares, Las Marias, Luquillo, Manati, Maricao, Maunabo, Mayaguez, Moca, Morovis, Naranjito, Orocovis, Patillas, Penuelas, Ponce, Quebradillas, Rincon, Rio Grande, Rio Pieddras, Sabana Grande, Salinas, San German, San Juan, San Lorenzo, San Sebastian, Santa Isabel, Toa Alta, Toa Baja Trujillo, Alto, Utuado, Vega Alta, Vega Baja, Villalba, Yabucoa, Yauco.

§ 78.21 Modified Certified Brucellosis Areas.

The following States, or specified portions thereof, are hereby designated as Modified Certified Brucellosis Areas:

(a) *Entire States.* Alaska, Louisiana, Nebraska, Oklahoma.

(b) *Specific counties within States.*

Alabama. Autauga, Baldwin, Bibb, Blount, Bullock, Butler, Calhoun, Chambers Chilton, Choctaw, Clarke, Coffee, Colbert, Conecuh, Coosa, Covington, Crenshaw, Cullman, Dallas, De Kalb, Elmore, Escambia, Fayette, Franklin, Greene, Hale, Houston, Jackson, Jefferson, Lamar, Lauderdale, Lawrence, Limestone, Lowndes, Macon, Madison, Marengo, Marion, Marshall, Mobile, Monroe, Montgomery, Morgan, Perry, Pickens, Pike, Randolph, St. Clair, Shelby, Sumter, Talladega, Tallapoosa, Tuscaloosa, Walker, Washington, Wilcox, Winston.

Arkansas. Arkansas, Ashley, Chicot, Clark, Cleburne, Craighead, Crawford, Crittenden, Cross, Desha, Faulkner, Franklin, Hempstead, Hot Spring, Howard, Independence, Izard, Jefferson, Lawrence, Lee, Lincoln, Little River, Logan, Lonoke, Miller, Mississippi, Nevada, Phillips, Poinsett, Pope, Pulaski, Randolph, Saline, Scott, St. Francis, Sebastian, Sevier, Van Buren, Washington, White.

Colorado. Kiowa, Mesa, Pueblo, Yuma.

Florida. Alachua, Bradford, Broward, Charlotte, Citrus, Clay, Collier, Columbia, De Soto, Duval, Flagler, Gilchrist, Glades, Hardee, Hendry, Hernando, Highlands, Hillsborough, Indian River, Jefferson, Lafayette, Lake, Lee, Levy, Madison, Manatee, Marion, Martin, Nassau, Okeechobee, Osceola, Palm Beach, Pinellas, Polk, Putnam, St. Johns, St. Lucie, Sarasota, Suwannee, Union Volusia.

Georgia. Baker, Baldwin, Barrow, Bartow, Ben Hill, Berrien, Bibb, Bleckley, Brooks, Calhoun, Carroll, Catoosa, Chattooga, Cherokee, Clay, Clinch, Cobb, Coffee, Colquitt, Columbia, Coweta, Crisp, Dade, Decatur, Dodge, Dooly, Dougherty, Douglas, Early, Elbert, Emanuel, Fayette, Floyd, Forsyth, Fulton, Gilmer, Gordon, Grady, Gwinnett, Hall, Hancock, Haralson, Harris, Hart, Heard, Houston, Irwin, Jackson, Jasper, Jefferson, Jenkins, Lamar, Lee, Lincoln, Lowndes, Lumpkin, Macon, Madison, Marion, McDuffie, Meriwether, Miller, Mitchell, Montgomery, Morgan, Murray, Muscogee, Newton, Oconee, Oglethorpe, Paulding, Pickens, Pierce, Pike, Polk, Pulaski, Putnam, Quitman, Randolph, Rockdale, Seminole, Spalding, Stewart, Sumter, Talbot, Taliaferro, Tattnall, Terrell, Thomas, Tift, Towns, Troup, Turner, Union, Walker, Walton, Warren, Webster, Whitfield, Wilcox, Wilkes, Worth.

Idaho. Ada, Bannock, Bingham, Bonneville, Butte, Clark, Elmore, Franklin, Gem, Gooding, Jefferson, Lincoln, Madison, Minidoka, Twin Falls.

Illinois. Brown, Effingham, Hardin, Pike, Pope, Wayne, Williamson.

Iowa. Allamakee, Appanoose, Benton, Buchanan, Carroll, Cedar, Cerro Gordo, Crawford, Dallas, Decatur, Floyd, Guth-

V41170 AUG 31 76 UMI

rie, Harrison, Linn, Monona, Monroe, Poweshiek, Ringgold, Sac, Sioux, Story, Warren, Wayne.

Kansas. Allen, Anderson, Atchison, Barber, Barton, Bourbon, Brown, Butler, Chase, Chautauqua, Cherokee, Cheyenne, Clark, Clay, Cloud, Coffey, Cowley, Crawford, Decatur, Dickinson, Douglas, Edwards, Elk, Ellis, Ellsworth, Finney, Franklin, Geary, Graham, Grant, Gray, Greeley, Greenwood, Hamilton, Harper, Harvey, Jackson, Jefferson, Jewell, Kearny, Kingman, Kiowa, Labette, Leavenworth, Lincoln, Linn, Logan, Lyon, Marion, McPherson, Meade, Miami, Mitchell, Montgomery, Morris, Morton, Nemaha, Neosho, Ness, Norton, Osage, Osborne, Ottawa, Pottawatomie, Pratt, Rawlins, Reno, Republic, Rice, Rooks, Rush, Russell, Saline, Sedgwick, Seward, Shawnee, Sheridan, Sherman, Smith, Stafford, Stanton, Stevens, Sumner, Thomas, Wabaunsee, Wallace, Wichita, Wilson, Woodson, Wyandotte.

Kentucky. Adair, Allen, Anderson, Ballard, Barren, Bath, Boone, Bourbon, Boyd, Boyle, Bracken, Breckinridge, Bullitt, Butler, Caldwell, Calloway, Carlisle, Carroll, Carter, Casey, Christian, Clark, Clinton, Crittenden, Cumberland, Davies, Elliott, Estill, Fayette, Fleming, Franklin, Fulton, Gallatin, Garrard, Grant, Graves, Grayson, Green, Greenup, Hancock, Hardin, Harrison, Hart, Henderson, Henry, Hickman, Hopkins, Jefferson, Jessamine, Larue, Laurel, Lincoln, Livingston, Logan, Lyon, Madison, Marion, Marshall, Mason, McCracken, McLean, Meade, Mercer, Metcalfe, oMnroe, Montgomery, Muhlenberg, Nelson, Nicholas, Ohio, Oldham, Owen, Powell, Pulaski, Rockcastle, Rowan, Russell, Scott, Shelby, Simpson, Spencer, Taylor, Todd, Trigg, Union, Warren, Washington, Wayne, Webster, Woodford.

Mississippi. Adams, Amite, Attala, Benton, Bolivar, Calhoun, Carroll, Chickasaw, Choctaw, Claiborne, Clarke, Clay, Coahoma, Copiah, Covington, De Soto, Forrest, Franklin, George, Greene, Grenada, Hinds, Holmes, Humphreys, Issaquena, Itawamba, Jasper, Jefferson, Jefferson Davis, Jones, Kemper, Lafayette, Lamar, Lauderdale, Lawrence, Leake, Lee, LeFlore, Lincoln, Lowndes, Madison, Marion, Marshall, Monroe, Montgomery, Neshoba, Newton, Noxubee, Oktibbeha, Panola, Pearl River, Perry, Pike, Pontotoc, Prentiss, Quitman, Rankin, Scott, Sharkey, Simpson, Smith, Sunflower, Tallahatchie, Tate, Tippah, Tunica, Union, Walthall, Warren, Washington, Wayne, Webster, Wilkinson, Winston, Yalobusha, Yazoo.

Missouri. Adair, Andrew, Atchison, Barry, Barton, Bates, Benton, Bollinger, Boone, Buchanan, Butler, Caldwell, Callaway, Camden, Cape Girardeau, Carroll, Cass, Cedar, Chariton, Christian, Clark, Clay, Clinton, Cole, Cooper, Crawford, Dade, Daviess, De Kalb, Dent, Gentry, Greene, Grundy, Harrison, Henry, Holt, Howard, Howell, Jasper, Jefferson, Johnson, Knox, Lafayette, Lawrence, Lincoln, Linn, Livingston, Macon, Madison, Maries, McDonald, Mercer, Mississippi, Monroe, Morgan, New Madrid, Newton, Nodaway, Oregon, Osage, Ozark, Pemiscot, Pettis, Phelps, Pike, Polk, Putnam, Ralls, Randolph, Ray, Reynolds, Ripley, St. Charles, St. Clair, St. Francois, St. Genevieve, Saline, Scotland, Scott, Shannon, Stoddard, Stone, Sullivan, Taney, Texas, Vernon, Warren, Washington, Wayne, Webster, Worth, Wright.

New Mexico. Chaves, Curry, De Baca, Eddy, Guadalupe, Lea, Mora, Quay, Roosevelt, San Miguel, Union, Valencia.

South Dakota. Beadle, Jones, Stanley.

Tennessee. Bedford, Benton, Bradley, Cannon, Carroll, Chester, Clay, Cocke, Coffee, Crockett, Cumberland, DeKalb, Dyer, Fayette, Franklin, Gibson, Giles, Hamilton, Hardeman, Hawkins, Haywood, Henderson, Henry, Hickman, Humphreys, Lauderdale, Lawrence, Lewis, Loudon, Macon, Madison, Marion, Marshall, Maury, McMinn, McNairy, Montgomery, Moore, Obion, Overton, Perry, Pickett, Putnam, Rhea, Shelby, Smith, Stewart, Sumner, Tipton, Trousdale, Wayne, Weakley, Williamson, Wilson.

Texas. Anderson, Andrews, Angelina, Aransas, Archer, Armstrong, Atascosa, Austin, Bailey, Bandera, Bastrop, Baylor, Bee, Bell, Bexar Blanco, Borden, Bosque, Bowie, Brazoria, Brazos, Briscoe, Brooks, Brown, Burleson, Burnet, Caldwell, Calhoun, Callahan, Cameron, Camp, Carson, Cass, Castro, Chambers, Cherokee, Clay, Cochran, Coke, Coleman, Collin, Collingsworth, Colorado, Comanche, Concho, Cooke, Coryell, Cottle, Crockett, Crosby, Culberson, Dallam, Dallas, Dawson, Deaf Smith, Delta, Denton, De Witt, Dickens, Dimmitt, Donley, Duval, Eastland, Edwards, Ellis, El Paso, Erath, Falls, Fannin, Fayette, Fisher, Floyd, Foard, Fort Bend, Franklin, Freestone, Frio, Gaines, Galveston, Garza, Gillespie, Glasscock, Goliad, Gonzales, Grayson, Gregg, Grimes, Guadalupe, Hale, Hall, Hamilton, Hardeman, Hardin, Harris, Harrison, Haskell, Hays, Henderson, Hidalgo, Hill, Hockley, Hood, Hopkins, Houston, Howard, Hudspeth, Hunt, Hutchinson, Jack, Jackson, Jasper, Jefferson, Jim Hogg, Jim Wells, Johnson, Jones, Karnes, Kaufman, Kendall, Kenedy, Kent, King, Kinney, Kleberg, Knox, Lamar, Lamb, Lampasas, La Salle, Lavaca, Lee, Leon, Liberty, Limestone, Live Oak, Lubbock, Lynn, McCulloch, McLennan, McMullen, Madison, Marion, Martin, Matagorda, Maverick, Medina, Menard, Midland, Milam, Mills, Mitchell, Montague, Montgomery, Moore, Morris, Motley, Nacogdoches, Navarro, Nolan, Nueces, Ochiltree, Oldham, Orange, Palo Pinto, Panola, Parker, Parmer, Polk, Potter, Presidio, Rains, Randall, Real, Red River, Reeves, Refugio, Robertson, Rockwall, Runnels, Rusk, Sabine, San Augustine, San Jacinto, San Patricio, San Saba, Schleicher, Scurry, Shackelford, Shelby, Sherman, Smith, Somervell, Starr, Stephens, Stonewall, Sutton, Swisher, Tarrant, Taylor, Terry, Throckmorton, Titus, Tom Green, Travis, Trinity, Tyler, Upshur, Upton, Uvalde, Van Zandt, Victoria, Walker, Waller, Washington, Webb, Wharton, Wheeler, Wichita, Wilbarger, Willacy, Williamson, Wilson, Wise, Wood, Yoakum, Young, Zapata, Zavala.

Utah. Box Elder, Cache.

Wyoming. Lincoln.

Puerto Rico. Arecibo, Carolina, Guaynabo, Hatillo, Juncos, Las Piedras, Naguabo.

§ 78.22 Noncertified Areas.

The following States, or specified portions thereof, are hereby designated as Noncertified Brucellosis Areas:

(a) *Entire States.*

(b) *Specific counties within States.*

Puerto Rico. Vieques.

(Secs. 4–7, 23 Stat. 32, as amended; secs. 1 and 2, 32 Stat. 791–792, as amended; sec. 3, 33 Stat. 1265, as amended; sec. 2, 65 Stat. 693; and secs. 3 and 11, 76 Stat. 130, 132; (21 U.S.C. 111–113, 114a–1, 115, 117, 120, 121, 125, 134b, 134f); 37 FR 28464, 28477; 38 FR 19141, 9 CFR 78.25.)

Effective date. The foregoing amendments shall become effective August 31, 1976.

The amendments impose certain restrictions necessary to prevent the spread of brucellosis in cattle and relieve certain restrictions presently imposed. They should be made effective promptly in order to accomplish their purpose in the public interest and to be of maximum benefit to persons subject to the restrictions which are relieved. It does not appear that public participation in this rulemaking proceeding would make additional relevant information available to the Department.

Accordingly, under the administrative procedure provisions of 5 U.S.C. 553, it is found upon good cause that notice and other public procedure with respect to the amendments are impracticable, unnecessary, and contrary to the public interest, and good cause is found for making them effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 25th day of August, 1976.

PIERRE A. CHALOUX,
Acting Deputy Administrator, Veterinary Services.

Title 10—Energy

CHAPTER II—FEDERAL ENERGY ADMINISTRATION

PART 205—ADMINISTRATIVE PROCEDURES AND SANCTIONS

Administrative Procedures Relating to International Voluntary Agreements

On July 1, 1976, the Federal Energy Administration issued proposed amendments to Part 205 of Chapter II, Title 10, Code of Federal Regulations, providing for administrative procedures applicable to Part 209 (International Voluntary Agreements) in accordance with section 523 of the Energy Policy and Conservation Act (EPCA), (41 FR 27976, July 8, 1976). The public hearing scheduled with respect to this proposal was cancelled for lack of interest, and no public comments were received. On the basis of the foregoing, FEA hereby adopts such amendments as proposed, with one technical change to be explained below.

Amendments to part 205. First, in accordance with section 523(a)(4) of the EPCA, which requires FEA to establish procedures "to prevent special hardship, inequity, or an unfair distribution of burdens" with respect to persons affected by Part 209, § 205.1 is amended so that the affected persons may utilize all of the procedures established in Part 205 to provide for such adjustments. Such procedures, which include exceptions, exemptions, interpretations, as well as other forms of relief, were established pursuant to a substantively identical mandate in the Federal Energy Administration Act, with regard to all regulations implemented by FEA. In addition, § 205.1 is amended to remove the list of provisions in Part 205 which are not of general application. In view of the fact that certain other limited provisions of Part 205 are not included in the list, it is potentially confusing, and therefore FEA has determined that in the interests of consistency, all such limitations will be set out under the specific provisions to which they relate.

Second, in accordance with the requirement in section 523(c) of the EPCA that any person may obtain a written opinion setting forth the facts and legal basis supporting the grant or denial of an exception or exemption, §§ 205.56 and 205.76 are amended so that any person may obtain a copy of the decision and order issued by FEA in such proceedings. Such decisions contain a detailed explanation of the facts and legal considerations applicable in each case, and are also available in accordance with the procedures for public inspection and copying contained in § 202.2. The address to which such requests should be sent has been changed from that given in the proposal, in order to reflect changes in FEA's organization.

Third, § 205.160 is amended to provide that rulemaking proceedings under the EPCA be undertaken in accordance with the procedures contained therein.

Finally, § 205.190 is amended, and a section on the purpose and scope of Subpart P (Investigations, Violations, Sanctions, and Judicial Actions) is added, in order to provide that the provisions relating to sanctions in Subpart P, as well as all of the provisions in Subpart O (Notice of Probable Violation, Remedial Order, Notice of Proposed Disallowance, and Order of Disallowance) do not apply with respect to Part 209. These provisions apply with respect to violations of regulations issued pursuant to the Emergency Petroleum Allocation Act, as amended by the EPCA. The sanctions provided in section 525 of the EPCA with respect to violations of Part 209 shall, of course, apply. The section on the purpose and scope of Subpart P now also contains the exemption from that subpart for proceedings under Part 213, which exemption had previously been contained in § 205.204, which is now deleted.

(Federal Energy Administration Act of 1974, Pub. L. 93–275, as amended; E.O. 11790, 39 FR 23185; E.O. 11930, 41 FR 32399; Energy Policy and Conservation Act, Pub. L. 94–163; E.O. 11912, 41 FR 15825.)

In consideration of the foregoing, Part 205 of Chapter II, Title 10 of the Code of Federal Regulations is amended as set forth below, effective immediately.

Issued in Washington, D.C., August 27, 1976.

MICHAEL F. BUTLER,
General Counsel, Federal Energy Administration.

1. Section 205.1 is amended to read as follows:

§ 205.1 Purpose and scope.

This part establishes the procedures to be utilized and identifies the sanctions that are available in proceedings before the Federal Energy Administration and State Offices, in accordance with Parts 209 through 214 of this chapter.

2. Section 205.2 is amended by inserting the following text after the definition of "EPAA":

§ 205.2 Definitions.

* * * * * * *

"EPCA" means the Energy Policy and Conservation Act (Pub. L. 94–163).

* * * * * * *

3. Section 205.56 is amended by adding paragraph (d) to read as follows:

§ 205.56 Decision and order.

* * * * * * *

(d) In addition to the procedures provided in § 202.2 of this chapter, upon the written request of any person filed after any grant or denial of a request for an exception under Part 209, FEA shall furnish such person, within thirty (30) days after the date on which such request is filed, with a copy of the decision and order. All such requests shall be directed to the Office of Management and Administration, Federal Energy Office, Washington, D.C. 20461, and shall be clearly marked on the envelope: "Attention: Information Access Officer." The fees for providing such decision and order shall be determined in accordance with § 202.8 of this chapter.

4. Section 205.76 is amended by adding paragraph (c) to read as follows:

§ 205.76 Decision and order.

* * * * * * *

(c) In addition to the procedures provided in § 202.2 of this chapter, upon the written request of any person, which request is filed after any grant or denial of a request for an exemption under Part 209, FEA shall furnish such person, within thirty (30) days after the date on which such request is filed, with a copy of the decision and order. All such requests shall be directed to the Director of Public Affairs, Federal Energy Office, Washington, D.C. 20461, and shall be clearly marked on the envelope: "Attention: Information Access Officer." The fees for providing such decision and order shall be determined in accordance with § 202.8 of this chapter.

5. Section 205.160 is amended in paragraph (b) to read as follows:

§ 205.160 Purpose and scope.

* * * * * * *

(b) Rulemaking by the FEA shall be in accordance with the Administrative Procedure Act (5 U.S.C. 551, et. seq. (1970)), the FEAA, and the EPCA.

6. Section 205.190 is amended in paragraph (a) to read as follows:

§ 205.190 Purpose and scope.

(a) This subpart establishes the procedures for determining the nature and extent of violations of the FEA regulations and the procedures for issuance of a notice of probable violation, a remedial order or a remedial order for immediate compliance, except that it shall not apply with respect to violations of Parts 209 and 213.

* * * * * * *

§§ 205.200–205.203 [Redesignated]

7. Sections 205.200 through 205.203 are redesignated as 205.201 through 205.204 respectively.

8. A new section 205.200 is added to read as follows:

§ 205.200 Purpose and scope.

This subpart establishes the procedures relating to investigations, violations, sanctions, and judicial actions under this chapter, except that the provisions of this subpart shall not apply with respect to sanctions under Part 209, and with respect to investigations, violations, sanctions, and judicial actions under Part 213.

§ 205.204 [Removed]

9. Section 205.204 is deleted.

[FR Doc.76–25482 Filed 8–27–76;8:45 am]

[Ruling 1976–5]

Retail Sales Outlet Operator's Entitlement to Motor Gasoline

Facts. Firm A operates five branded retail sales outlets of motor gasoline. Each outlet has traditionally offered customers not only gasoline, but also lubricants, automobile accessories, including tires and batteries, and the services of a mechanic. As part of a change in marketing operations, Firm A is planning to remodel all of its stations and to offer self-service sales of gasoline only. Firm A will operate the stations under a different brand name than the name currently used. None of the other goods and services now offered will continue to be offered once the newly remodeled stations are put into operation. The changeover will require the closing of the stations for two months.

In addition to the five branded retail sales outlets it operates as described above, Firm A also leased one nonbranded retail sales outlet to Firm B. Firm B operated the retail sales outlet as a "full service" station until June 30,

V41170 AUG 31 76 UMI

1976. On that date, the lease expired and Firm A chose not to renew the lease. Firm B did not attempt to open another retail sales outlet. Firm A occupied the site and immediately made preparations to convert the station to "self service" only, consistent with its overall marketing operations.

Firm C, an independent, non-branded wholesale purchaser-reseller of motor gasoline, operated one retail sales outlet of motor gasoline until June, 1974, when Firm C went out of business and closed the station. The building and land comprising the station's site were sold to Firm D, which planned to erect an office building on the site. Firm D razed the building in preparation for the new construction. However, after experiencing delays for several months in making final arrangements with contractors, Firm D abandoned its plans to erect an office building and instead built a service station which it now wishes to operate as a non-branded independent marketer. The station will offer the same services as the station formerly operated on the site by Firm C.

Issues. (1) After remodeling its five retail sales outlets and changing marketing operations, will Firm A be considered a new wholesale purchaser-reseller at each station site?

(2) After taking over the retail sales outlet from its former tenant and changing its marketing operations, will Firm A be considered a new wholesale purchaser-reseller at that station site?

(3) Is Firm D considered a new wholesale purchaser-reseller at the site formerly occupied by Firm C?

Ruling. Issue (1).—The Mandatory Petroleum Allocation Regulations state that

> [e]ach firm or part of a firm which operates an ongoing business at a retail sales outlet shall be considered a separate firm with respect to each such outlet for purposes of [the motor gasoline allocation regulations] and, therefore, shall be a separate wholesale purchaser-reseller. 10 CFR 211.106(b)(1).

The regulations further provide that

> [a] wholesale purchaser-reseller which operates a retail sales outlet shall be deemed to have gone out of business with respect to that outlet • • • if it vacates the site on which it conducts such business. 10 CFR 211.106(c)(1).

Whether a particular retail sales outlet has gone out of business depends upon the facts in each case. However, in those instances where as part of an overall plan to alter marketing techniques, a marketer changes its retail outlets from traditional service stations to high volume sales outlets only, the remodeled stations would not be considered "new" retail sales outlets. It is true that a self-service station may very well appeal to a different type of customer than one who frequents the traditional outlet. However, the fact that different customers will be attracted to the remodeled, high-volume station does not lead to the conclusion that a new business has been established at the site of the old station. Retail sales of motor gasoline were conducted prior to and after the change in marketing.

Therefore, the operator of such a retail sales outlet, such as Firm A, is deemed to be conducting an on-going business and is not a new wholesale purchaser-reseller at the site of the old station.

Because Firm A is not a new wholesale purchaser-reseller, it may not apply for assignment of a supplier and base period volume as provided by 10 CFR 211.12(e). Each remodeled outlet which Firm A operates is entitled to the same quantities of motor gasoline it had a right to purchase under the Mandatory Petroleum Allocation Regulations prior to the changeover to gasoline sales only method of operations.

If Firm A wishes to obtain greater quantities of motor gasoline to be offered for sale to the public, it may take two steps. It may purchase surplus motor gasoline under 10 CFR 211.10(g). Firm A should bear in mind that § 211.10(g)(5) restricts a supplier from distributing surplus product through its owned and operated outlets until the supplier's purchasers who are independent marketers have been afforded the opportunity to purchase surplus product in an amount determined in accordance with 10 CFR 211.10(g)(5).

Firm A may also under 10 CFR 211.13(e) seek an exception to FEA's regulations to provide an adjustment to base period use for each retail sales outlet. Requests for exception should be prepared in accordance with Subpart D of Part 205 (Administrative Procedures and Sanctions, 10 CFR 205.50 et seq.).

Issue (2).—The Mandatory Petroleum Allocation Regulations provide that

> • • • [w]henever a wholesale purchaser-reseller of motor gasoline] is deemed to have gone out of business • • • the right to an allocation with respect to the retail sales outlet shall be deemed to have been transferred to its successor on the site, provided such successor established the same ongoing business on the site within a reasonable period of time, as determined by FEA, after its predecessor vacates the premises. 10 CFR 211.106(e).

Thus, when Firm B's lease expired and Firm A succeeded Firm B on the site, Firm B's entitlement was transferred to Firm A. The transferee on the site may be engaged in a new business, but it is not a new wholesale purchaser-reseller for purposes of the Mandatory Petroleum Allocation Regulations, since it is considered to be the continuation of an already existing entity. The amount of the entitlement at the site does not increase upon transfer. Hence, the amount of Firm A's entitlement will be the same as what it would have been if Firm B were still operating the retail sales outlet. Firm A would not have a right to an increased entitlement simply because it plans to modify the marketing operation at the site. Modifying the mode of marketing does not change the nature of the business, which is the retail sale of motor gasoline. As previously discussed, Firm A could supplement its entitlement by purchasing surplus motor gasoline pursuant to 10 CFR 211.10(g) or by seeking an adjustment to its base period use in accordance with 10 CFR 205.50 et seq.

Issue (3).—The situation presented by Firm D is significantly different from that presented by Firm A. The intent of the parties was clearly to cease operations of a retail gasoline sales outlet on the site. Firm C went out of business; Firm D razed the building and initially intended to erect a new building for purposes completely unrelated to the retail sale of motor gasoline. A relatively long period of time passed before Firm D changed its intention and built a new station. Under these circumstances Firm D may apply for assignment of a supplier and base period use pursuant to 10 CFR 211.12(e). Assignment of a base period supplier and determination of the station's base period use will be made by FEA in accordance with the "Guidelines for Evaluation of Applications for Assignment of Supplier and Base Period Use to New Gasoline Retail Sales Outlets" (40 FR 20342; May 9, 1975).

As in the case of Firm A, Firm D may operate its new station using surplus product. Of course, Firm D would not establish any supplier/purchaser relationship with the supplier of surplus product, nor would Firm D establish a base period use if it relied on the purchase of surplus gasoline to operate its retail sales outlet without requesting the assignment of a base period supplier.

Dated: August 25, 1976.

MICHAEL F. BUTLER,
General Counsel.

[FR Doc.76-25416 Filed 8-26-76;11:14 am]

Title 16—Commercial Practices

CHAPTER II—CONSUMER PRODUCT SAFETY COMMISSION

SUBCHAPTER A—GENERAL

PART 1017—PROCEDURES FOR SAFEGUARDING CONFIDENTIAL INFORMATION

Chemical Formulations for Consumer Products

Pursuant to section 6(a)(2) of the Consumer Product Safety Act (14 U.S.C. 2055(a)(2)), 16 CFR Part 1017, setting forth the Consumer Product Safety Commission's procedures for safeguarding certain confidential information, is hereby promulgated.

Section 6(a)(2) of the act reads in part as follows:

> All information reported to or otherwise obtained by the Commission or its representative under this act which information contains or relates to a trade secret or other matter referred to in 18 U.S.C. 1905 shall be considered confidential and shall not be disclosed, except that such information may be disclosed to other officers or employees concerned with carrying out this act or when relevant to any proceeding under this act.

The procedures described in Part 1017 below apply specifically to proprietary, product ingredient formula information reported to the Commission as required by its special order of August 21, 1975 (40 FR 36617). The information required by that special order is for the Commission's use in readily evaluating actual or potential hazards associated with the subject products or their composite ingredients. The procedures described below will also apply to formulae submitted in response to any future special orders issued by the Commission for the same purpose.

Because this addition to 16 CFR is intended solely to notify the public of procedures which have already been implemented within the Commission, notice and public procedure and a delayed effective date are considered unnecessary.

Therefore, pursuant to provisions of the Consumer Product Safety Act (sec. 6(a)(2), Pub. L. 92-573, 86 Stat. 1212; 15 U.S.C. 2055(a)(2)), a new Part 1017 is added to Title 16, Chapter II, Subpart A, as follows:

Subpart A—[Reserved]

Subpart B—Chemical Formulations for Consumer Products

Sec.
1017.11 Purpose and scope.
1017.12 Responsible officials.
1017.13 Internal Commission safeguards.
1017.14 Commission representatives' safeguards.

AUTHORITY: Sec. 6(a)(2), Pub. L. 92-573, 86 Stat. 1212; 15 U.S.C. 2055(a)(2).

Subpart A—[Reserved]

Subpart B—Chemical Formulations for Consumer Products

§ 1017.11 Purpose and scope.

The procedures set forth in this Subpart B describe the measures taken by the Consumer Product Safety Commission (the Commission) to ensure the confidentiality of proprietary chemical product formula information submitted, in any form, to the Commission voluntarily or pursuant to its special order of August 21, 1975 (40 FR 36617), or any similar special order.

§ 1017.12 Responsible officials.

(a) The Director of the Bureau of Biomedical Science, or the Director's designee, in concert with the Executive Director or his designee, is responsible for implementing and supervising the procedures of this Subpart B.

(b) The Bureau Document Control Custodian designated by the Director, Bureau of Biomedical Science, is responsible for keeping a logbook record that shall account for the proprietary information. The logbook record shall also show which employees are authorized to have access to the information and shall reflect each instance of access to the information.

(c) The Commission Security Officer designated by the Executive Director, is responsible for providing facilitative support to the Bureau of Biomedical Science for the physical security of the proprietary information and for assisting in regulating the use of proprietary information by other Commission employees outside the Bureau of Biomedical Science.

§ 1017.13 Internal Commission safeguards.

(a) *Personnel.* In accordance with the statutory restrictions imposed by section 6(a)(2) of the Consumer Product Safety Act, only Commission employees concerned with carrying out the Consumer Product Safety Act may be authorized to have access to the proprietary information. The Director, Bureau of Biomedical Science, shall determine on an individual basis which employees are so authorized and to what information the employees may have access. These determinations shall be communicated in writing to the Bureau Document Control Custodian and the Commission Security Officer.

(b) *Facilities and other measures.* (1) Proprietary information shall be kept in a combination lock safe within a security area in the Commission. Additional (backup) copies of the proprietary information shall be stored in a commercial bank vault. The Commission security area shall be a room or rooms that are locked and electronically monitored. Also, after regular business hours, the security area shall be periodically checked by a member of the Commission's building security force. Anytime a Commission employee who knows a combination to a safe leaves the employ of the Commission, the combination will be changed.

(2) Information may be removed from the safe or bank vault only by the Bureau Document Control Custodian or, in the Custodian's absence, by the Director of the Bureau of Biomedical Science or the Commission Security Officer. At no time shall such information be out of the immediate possession of the authorized employee; it may not be removed from the security area except as described in paragraphs (b)(3) and (c)(2) of this section or when being transferred to the bank vault. The information shall be returned to the Bureau Document Control Custodian by the close of business each day or whenever not under the direct surveillance of the authorized employee. The Bureau Document Control Custodian, in turn, shall return the information to the safe or bank vault. Only the Bureau Document Control Custodian or the Bureau Director may authorize making a copy of proprietary information. Any copy made shall be safeguarded in the same manner as required for the original material by this Subpart B and records shall be kept by the Bureau Document Control Custodian on each copy produced.

(3) Disposal or destruction of any form of the proprietary information shall be carried out in the presence of the Bureau Document Control Custodian, the Bureau of Biomedical Science Director or the Commission Security Officer. Disposal or destruction shall be done in a manner that allows no possible extraction or compilation of information contained therein. Records shall be kept of all materials destroyed.

(4) The Bureau Document Control Custodian shall maintain complete records on the use or disposal of proprietary information as specified in § 1017.12(b).

(c) *Computer processing.* (1) Processing of proprietary information shall be done only at a government or contract facility having security procedures that meet or substantially exceed the standards of the DHEW Information Processing Standards Publication No. 3, entitled "ADP System Security Required by the Privacy Act of 1974," dated July 24, 1975 (HEW TN-75.4).

(2) Magnetic tapes containing proprietary information shall be hand-carried by an authorized Commission employee to the appropriate computer facility, and all processing shall be done under that employee's supervision and in that employee's presence. After completion of the processing, no proprietary information shall remain in the computer.

(3) The Bureau Document Control Custodian shall maintain complete records on instances of computer processing of the material, citing the location of the facility, the employee witnessing the computer processing of the material, and the date and time.

§ 1017.14 Commission representatives' safeguards.

A representative of the Commission, whether another governmental entity or a private contractor, when collecting or processing proprietary information for the Commission, shall be subject to the procedures of this section. Before any entity may act as the Commission's representative for collecting or processing proprietary information, the following requirements must be met:

(a) *Facilities and other measures.* The Director, Bureau of Biomedical Science, and/or the Bureau Document Control Custodian and the Commission Security Officer shall inspect and approve in writing the proposed representative's facilities and control measures to ensure that they are adequate to safeguard the confidentiality of the proprietary information.

(b) *Computer processing.* The Director, Bureau of Biomedical Science, and the Bureau Document Control Custodian shall inspect and approve the computer processing methods of the proposed representative to ensure that they are adequate to safeguard the confidentiality of the proprietary information. Approval shall not be given unless the methods meet the standards described in § 1017.13(c)(1).

(c) *Personnel.* The Director, Bureau of Biomedical Science, and the Bureau Document Control Custodian shall take steps to ensure that any access to information by employees of a Commission representative is strictly controlled. If the representative is a private contractor, these steps shall include requiring each employee who is permitted to have access to the proprietary information to first execute an affidavit of nondisclosure. The

V41I170 AUG 31 76 UMI

Commission Security Officer shall review records or affidavits relating to the use of proprietary information by Commission representatives sufficiently to ensure accuracy and completeness.

(d) *Subcontractors.* Use of a subcontractor by a Commission representative must have the approval, in writing, of the Director, Bureau of Biomedical Science, if the subcontractor will handle proprietary information. The Director, in concert with the Commission Security Officer, shall ensure that the requirement of paragraphs (a), (b), and (c) of this section are met as to each subcontractor.

(e) *Agreements.* Every agreement between the Commission and its representative and between the representative and a subcontractor which will handle proprietary information shall include provisions adequate to ensure that measures adequate to safeguard proprietary information are maintained.

(Sec. 6(a)(2), Pub. L. 92-573, 86 Stat. 1212; 15 U.S.C. 2055(a)(2).)

Effective date. This new Part 1017 shall be effective on August 31, 1976.

Dated: August 27, 1976.

SADYE E. DUNN,
Secretary, Consumer Product Safety Commission.

SUBCHAPTER E—ANIMAL DRUGS, FEEDS, AND RELATED PRODUCTS

[Docket No. 75N-0356]

PART 510—NEW ANIMAL DRUGS

Medicated Blocks

Correction

In FR Doc. 76-22225, appearing at page 32213 in the issue of Monday, August 2, 1976, the application approval date in the first paragraph reading "March 19, 1977" should read "February 28, 1977".

Title 24—Housing and Urban Development

CHAPTER V—OFFICE OF THE ASSISTANT SECRETARY FOR COMMUNITY PLANNING AND DEVELOPMENT, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. R-76-292]

PART 570—COMMUNITY DEVELOPMENT BLOCK GRANTS

Applications and Criteria for Discretionary Grants

On page 10592 of the FEDERAL REGISTER of March 11, 1976 there was published an interim rule revising 24 CFR § 570.406(b) and (c).

The revision describes the application requirements and the general criteria and review factors used to determine the innovative nature and the relative merit of applications for discretionary grants for innovative community development projects under section 107(a)(4) of the Housing and Community Development Act of 1974.

Interested persons were given 30 days in which to submit written comments, data and suggestions regarding the interim rule.

Environmental and economic and inflationary impact statements with respect to the interim rule remain applicable.

No substantive comments or objections have been received and the interim rule is hereby adopted without change and is set forth below.

Effective date: This regulation shall be effective August 31, 1976.

DAVID O. MEEKER, JR.,
Assistant Secretary for Community Planning and Development.

1. 24 CFR 570.406(b) and (c) are revised to read as follows:

§ 570.406 Innovative projects.

* * * * *

(b) *Criteria for selection.*—(1) *General.* An innovative community development project may take any of several forms. It may be a product, a process, an organizational arrangement or a technique. The innovation should encompass a concept that is untried, unique, and/or advances the state of the community development art. Proposed projects which have been demonstrated before or are in use elsewhere at the present may be considered for demonstration if the application identifies and addresses the question of the special nature or circumstances surrounding the proposed project which would warrant its consideration for funding under Innovative Projects.

(2) *Review Factors.* Applications for funding will be evaluated by such criteria as:

(i) The overall technical merit of the proposed project including the specific impact of the innovation.

(ii) The unique capabilities, related experiences, facilities or techniques and the commitment which the applicant possesses and offers for achieving the objectives of the project.

(iii) The extent to which the identified problem is common to a substantial number of communities and the proposed approach can be adopted and replicated in a significant number of other community environments.

(iv) The availability of discretionary grant funding for innovative projects in light of competing needs.

(3) *Priority Programs.* In view of the national scope of Innovative Projects and limitations on the amount of funds for projects, HUD in announcing each annual program, shall establish areas of national significance which will be given priority consideration in the review of applications in the Innovative Projects and may utilize specific selection criteria enumerated in the announcement of the annual program in the review of applications and the award of grants in lieu of, or in addition to, the above criteria.

(c) *Application Requirements.* Applications shall be submitted to HUD's Office of Policy Development and Research in accordance with the directions provided in the annual program announcement. Applications shall be in a format approved by HUD and shall include the following:

(1) A brief letter of transmittal containing the signatures of the Chief Executive(s) of the Applicant and designated project leader who will be primarily responsible for execution of the project.

(2) A one page abstract of the project summarizing the proposal.

(3) A project narrative statement describing the nature of the problem, the goals and objectives of the project, the proposed solution, the resources to be used, the management plan, the tasks to be carried out, the plan for evaluation and such other elements as are necessary to describe applicant activities for other elements which may be required in priority programs.

(4) A proposed budget clearly showing the proposed expenditure of HUD funds.

(5) The certifications required by § 570.303(e) except for (4) and (6). In addition, the applicant must certify that citizens likely to be affected by the project, particularly low and moderate income persons, have been provided an opportunity to comment on the application.

* * * * *

Title 28—Judicial Administration

CHAPTER I—DEPARTMENT OF JUSTICE

[Order No. 663-76]

PART 0—ORGANIZATION OF THE DEPARTMENT OF JUSTICE

United States Parole Commission

Correction

In FR Doc. 76-24360, appearing at page 35183 in the issue of Friday, August 20, 1976, the sixth line of the first full paragraph on page 35184 should read "Appeals Board and to designate one Commissioner to serve as Regional Commissioner in each re-".

Title 29—Labor

CHAPTER XVII—OCCUPATIONAL SAFETY AND HEALTH ADMINISTRATION, DEPARTMENT OF LABOR

PART 1952—APPROVED STATE PLANS FOR ENFORCEMENT OF STATE STANDARDS

Minnesota Plan—Approval of Supplements

1. *Background.* Part 1953 of Title 29, Code of Federal Regulations, provides procedures under section 18 of the Occupational Safety and Health Act of 1970 (29 U.S.C. 667) (hereinafter referred to as the Act) for review of changes and progress in the development and implementation of State plans for the enforcement of State occupational safety and health standards which have been approved in accordance with section 18(c) of the Act and Part 1902 of this chapter. On June 8, 1973, a notice was published

in the FEDERAL REGISTER (38 FR 15076) of the approval of the Minnesota plan and of the adoption of Subpart N of Part 1952 describing the plan and containing the approval decision. On April 28, May 30, June 30, and September 10, 1975, the State of Minnesota submitted supplements to its plan involving State-initiated changes (see Subpart E of 29 CFR Part 1953) and on June 30, 1975 the State submitted supplements involving the completion of several developmental steps (see Subpart B of 29 CFR Part 1953). On October 23, 1975, a notice was published in the FEDERAL REGISTER (40 FR 49581) concerning the submission of these supplements to the Assistant Secretary of Labor for Occupational Safety and Health (hereinafter referred to as the Assistant Secretary) and the fact that the question of their approval was in issue before him. In addition, on August 20 and October 21, 1975, and January 16, 1976, the State submitted supplements to its plan involving the completion of developmental steps and on January 19, 1976, the State submitted a copy of its amended occupational safety and health poster.

2. *Description of the supplements.* The supplement submitted by the State on April 28, 1975, concerned a revision of the State's personnel structure. Among other things, the State will change the number of personnel in the consultation program from three (3) to no more than one-fifth of the number of personnel in the enforcement section.

The supplement submitted on May 30, 1975, concerned a number of revisions to the State's compliance manual. The manual was revised to incorporate all State policy directives which were issued since the original manual was published, correct inaccuracies in the original manual and to reflect changes to that date which have been made in the Federal compliance manual.

The supplement submitted on September 10, 1975, concerned amendments to the Minnesota Occupational Safety and Health Act, Chapter 182, Minnesota Statutes Annotated, regarding employee discrimination complaints and violations. The first amendment, HF 161, amends section 182.669 of the Minnesota Statutes to provide that upon the completion of an employee discrimination complaint investigation, the Commissioner of the Department of Labor and Industry may bring an action in the district court of the State for appropriate relief. This amendment became effective on July 1, 1975. A second amendment, HF 661, which became effective on August 1, 1975, amends sections 182.652, Subdivision 12; 182.66, Subdivision 2; and 182.661, Subdivisions 1 and 3 of the Minnesota Statutes to provide for the following:

1. Expansion of the definition of a serious violation to include violations of standards not of a de minimus nature which resulted in a fatality;

2. Posting of penalty notices as well as the citation;

3. Posting of the citation and penalty notices for at least 15 days;

4. Requirement that a copy of the notices of citation and penalty be furnished to an employee representative and, in the case of a fatality, to the next of kin or a designated representative, if requested;

5. Right of employees to contest the citation, type of violation and penalty, in addition to the right to contest proposed abatement periods.

The supplements submitted by the State on June 30, and August 20, 1975, concerned the completion of a number of developmental steps. Most of the steps were reviewed and approved at the time of plan approval. However, the State's regulations concerning variance procedures, Chapter 23 of the Minnesota Occupational Safety and Health Code, had not been approved previously and were in issue before the Assistant Secretary. Among the developmental steps completed were the retraining of State personnel, public employee/employer seminars, the management information system and the implementation of enabling legislation.

The supplements submitted by the State on October 21, 1975, and January 16, 1976, concerned the completion of developmental steps. The developmental steps which were completed under the October 21, 1975, supplement concerned the promulgation of the Rules of Procedure of the Minnesota Occupational Safety and Health Review Commission (Chapter 20, Minnesota Occupational Safety and Health Code), and regulations concerning inspections, citations and proposed penalties (Chapter 21, Minnesota Occupational Safety and Health Code).

The supplement submitted on January 16, 1976, concerned a downward revision of the projected increase in personnel for fiscal year 1976 due to a lesser than anticipated increase of funding by the Minnesota legislature. Instead of increasing enforcement personnel by 17 as contemplated at the time of plan approval, the enforcement staff will be increased with the addition of 3 safety and health investigators, still meeting the Federal compliance staffing requirements for the State.

The State poster was revised and resubmitted on January 19, 1976. The State originally submitted a poster on January 27, 1975, which was approved by the Assistant Secretary on March 25, 1975 (40 FR 13211). In response to the legislative amendments described above, a provision was added to the State poster providing that citations and notices of proposed penalties must be posted at or near the place of alleged violation for 15 days or until the violation is corrected, whichever is later. In addition, the locations of the Minnesota area offices were listed on the revised poster.

3. *Issues.* No public comments were submitted concerning the supplements of April 28, May 30, and June 30, 1975. However, our review raised some issues concerning the compliance manual and the variance regulations. With regard to the compliance manual, the State provided for a two-day limit on the number of days an employer may be cited for failure to abate penalties. This provision was in sharp contrast to the Federal practice of having no specific limit on the number of days an employer may be penalized for failure to abate a violation. By letter dated May 20, 1976, from Russell B. Swanson, Deputy Commissioner of the Minnesota Department of Labor and Industry, to Irving Weisblatt, Director, Office of State Programs, the State agreed to remove the two-day maximum from the failure-to-abate penalties.

With regard to the variance regulations, it was found that the Minnesota regulations did not precisely track the Federal variance regulations of 29 CFR Part 1905 in that there appeared to be no provisions for employers to request a hearing on their variance applications, no requirement that the applicant state the address of the place of employment involved in a variance application and interim renewals of variance applications could be longer than is the case under Federal practice. Although State regulations do not have to be identical to those under the Federal program, they must be at least as effective as the Federal regulations in assuring worker protection while providing for variances from State standards. By letter dated February 23, 1976, from Russell B. Swanson, Deputy Commissioner, to Thomas E. Levenhagen, Associate Assistant Regional Director, the State addressed these criticisms by stating that the Minnesota Statute provides for hearings on variance applications, the need for information concerning the address of the establishment for which a variance is requested is obvious months for an interim order 123456v-o-and that a maximum period of six months for an interim order and for a maximum of one year for a temporary order with the possibility of two renewals would be provided.

Public comments were received from the Conwed Corporation, the FMC Corporation and the United States Steel Corporation concerning the legislative amendments under HF 661. There were no requests for a public hearing. The comments particularly objected to the revision to the definition of a serious violation to include any violation of a standard which is not of a de mimimus nature but which is the proximate cause of the death of an employee, the posting requirements for penalties and citations and the provision requiring that copies of citations and proposed penalties be issued to employee representatives and in the case of the death of an employee, to the next of kin of the employee, if requested. The comments objected to the revision of the definition of a serious violation on the grounds that it would have an ex post facto result, that citations and penalties should result from violations observed by a competent inspector rather than an automatic provision based upon an occurrence and that the revision would serve no useful purpose.

In addition, the comments were critical of the requirement concerning the posting of proposal penalties and the 15-day

V 41 I 170 AUG 31 76 UMI

posting requirement for citations and proposal penalties on the grounds that they would serve no useful purpose and would encourage employees to contest cases, that there are no similar Federal requirements, and that there is already a proliferation of materials and regulations requiring posting. With regard to sending copies of citations and proposed penalties to employer representatives and, in the case of the death of an employee, to the next of kin, the comments were critical on the grounds that they would encourage civil suits, invite criticism and cause further mental anguish to the survivor. Finally, the comments objected to the right of employees and their representatives to contest the citation and proposed penalty in addition to the abatement periods on the grounds that there is no comparable right under the Federal program and it would invite unnecessary conflict between employers and employees.

Although the amendments to the Minnesota enabling legislation under HF 661 result in an enforcement program somewhat different from that at the Federal level, they do not appear to detract from the requirement of 29 CFR 1902.3(d) that State enforcement programs are to be at least as effective as the Federal enforcement program. It is apparent that the revised definition of a serious violation as including a non-serious violation "which is the proximate cause of the death of an employee" is more stringent than that defined under section 17(k) of the Act. Practical considerations, including those raised in the comments, might mitigate against the effectiveness of the revised definition. However, the use of the definition by the State will be closely monitored and if experience indicates that the implementation of this definition has an adverse impact on the enforcement of standards under the Minnesota program, the State will be required to make the appropriate changes in its legislation.

With regard to the right of employees to contest citations and proposed penalties issued to employers, including the reasonableness of abatement periods fixed in the citation, State plans may provide for more stringent enforcement provisions if such additional provisions appear to be reasonably calculated to increase the effectiveness of the State's program and are consistent with the Act. The Minnesota employee contest provisions appear to meet this test in that they would serve as an added check to secure enforcement of safe and healthful working conditions. Such provisions have been approved in the past (see Tennessee approval decision 38 FR 17838). Any undue administrative burden resulting from this employee contest right would bring about a reconsideration in the course of evaluation of the actual operations under the plan.

With regard to sending copies of citations and proposed penalties to employee representatives and, in the case of the death of an employee, to the next of kin, it is observed that under Federal practice, copies of citations and proposed penalties are available under the provisions of the Freedom of Information Act (5 U.S.C. 552).

4. *Location of the plan and its supplements for inspection and copying.* A copy of the plan and its supplements may be inspected and copied during normal business hours at the following locations: Office of the Associate Assistant Secretary for Regional Programs, Occupational Safety and Health Administration, Room N-3608, 200 Constitution Ave., NW., Washington, D.C. 20210; Office of the Regional Administrator, Occupational Safety and Health Administration, 230 South Dearborn Street, Chicago, Illinois 60604; and the State of Minnesota, Department of Labor and Industry, 444 Lafayette Road, St. Paul, Minnesota 55101.

5. *Decision.* After careful consideration, the supplements submitted by the State on April 28, May 30, June 30 and September 10, 1975 are hereby approved under Part 1953. As indicated above, the application of the revised definition of a serious violation will be closely monitored to assure that it does not derogate from the effectiveness of the Minnesota enforcement program.

With regard to the supplements submitted on October 21, 1975, January 16 and 19, 1976, under § 1953.2(c) of this chapter, the Assistant Secretary may prescribe alternative procedures to expedite the review process or for any other good cause which may be consistent with applicable law. The Assistant Secretary finds good cause for approving the Rules of Procedure for the Occupational Safety and Health Review Commission and the regulations concerning inspections, citations and proposed penalties because they have been adopted in accordance with the procedural requirements of State law, which included public comment, and further public participation would be unnecessary and they are substantially identical to the comparable Federal regulations. With regard to the State occupational safety and health poster, further public participation is believed unnecessary because the poster had been approved previously (40 FR 13211) and merely incorporated a recent amendment to the Minnesota enabling legislation and is in conformity with the poster requirements of 29 CFR 1952.10(a)(5) and 29 CFR 1903.2(a)(3). Accordingly, § 1952.204 (c)-(k) of Subpart N of Part 1952 is amended to read as follows:

§ 1952.204 Completed developmental steps.

* * * * *

(c) State occupational safety and health personnel were retrained during March–May 1973.

(d) Training sessions for public employers and employees were held during April–June 1973.

(e) The Minnesota enabling legislation became effective on August 1, 1973. In addition, amendments to the legislation which concerned employee discrimination complaints and violations became effective on July 1, 1975, and a second amendment concerning the definition of a serious violation, posting of citations and penalties, right of employees to contest a citation and penalty, and furnishing copies of citations and notices of penalties to employer representatives and, in the case of a fatality, to the next of kin or a designated representative, became effective on August 1, 1975.

(f) Regulations on variances were promulgated on February 20, 1974, and were approved with assurances by the Assistant Secretary on August 31, 1976.

(g) The management information system became operable in August 1973.

(h) Coverage and enforcement of agricultural standards commenced on July 1, 1975.

(i) The Rules of Procedure of the Minnesota Occupational Safety and Health Review Commission, Chapter 20, Minnesota Occupational Safety and Health Code, and regulations concerning inspections, citations, and proposed penalties, Chapter 21, Minnesota Occupational Safety and Health Code, were approved by the Assistant Secretary on August 31, 1976.

(j) The downward revision of the projected increase in personnel for fiscal year 1976 due to a lesser than anticipated increase of funding by the Minnesota legislature, was approved by the Assistant Secretary as meeting current required staffing on August 31, 1976.

(k) The State poster approved on March 25, 1975 (40 FR 13211) which was revised in response to legislative amendments described above, to provide that citations and notices of penalties must be posted at or near the place of the alleged violation for 15 days or until the violation is corrected, whichever is later, and which lists additional Minnesota area offices, was approved by the Assistant Secretary on August 31, 1976.

(Secs. 8(g)(2), Pub. L. 91-596, 84 Stat. 1600, 1608 (29 U.S.C. 657(g)(2) (667)).)

Signed at Washington, D.C., this 20th day of August 1976.

MORTON CORN,
Assistant Secretary of Labor.

[FR Doc.76-25471 Filed 8-30-76;8:45 am]

Title 40—Protection of Environment

CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

PART 52—APPROVAL AND PROMULGATION OF STATE IMPLEMENTATION PLANS

Wyoming Plan Revisions

On May 31, 1972 (37 FR 10842) pursuant to section 110 of the Clean Air Act and 40 CFR Part 51, the Administrator approved, with specific exceptions, the Wyoming plan for implementation of the national ambient air quality standards. On October 23, 1973 (38 FR 29296), July 3, 1974 (39 FR 24504) and on June 10, 1975 (40 FR 24726), the Administrator approved supplemental information and plan revisions submitted by Wyoming.

On February 19, 1976, Wyoming submitted further revisions to its Implementation Plan which had been adopted on September 11, 1975. Additional information was provided on March 15 and April 2, 1976 clarifying portions of the original submittal. These revisions amend the legal authority, public availability of emission data, and compliance schedule portions of Wyoming's plan. Although Wyoming has not complied with our requirement (§ 51.6(d) of this title) that plan revisions must be submitted no later than sixty days after their adoption, we are waiving this requirement inasmuch as the spirit and intent of the sixty day rule were not being circumvented.

On May 27, 1976 (40 FR 21651), the Administrator proposed to approve all the revisions submitted on February 19, 1976. No comments regarding the revisions were received.

The legal authority revisions include provisions for public availability of emission data, changes in variance procedures for granting variances to the state's sulfur dioxide emission standards, and a change in the state's enforcement procedures to allow for discretionary conferences after discovery of a violation. The revision relating to public availability of emission data complies with the requirements of 40 CFR 51.10(e) and hence replaces the Federal provisions discussed in 40 CFR 52.2624 which is subsequently revoked. With respect to the changes in variance procedures, it should be noted that EPA will treat all variances as plan revisions and will review them on a case by case basis.

The revisions to the compliance schedule portion of Wyoming's plan establish new dates by which an individual air pollution source must comply with a specified emission limitation for particulate matter. In § 52.2625 below, the final compliance date is listed for each source for which a compliance schedule has been proposed. While the table does not show incremental steps toward compliance, the actual schedules do. Three of the above listed sources—Black Hills Power and Light, Holly Sugar, and Wycon Chemical—have final compliance dates which go beyond the attainment dates for ambient standards. Such schedule changes are approvable, since the state has shown that secondary standards will not be exceeded in the vicinity of these sources after the attainment date. These compliance schedule revisions are consistent with the approved control strategies and satisfy the requirements of 40 CFR Part 51 concerning public hearings and plan revisions.

The Administrator finds that the Wyoming SIP revisions meet the substantive and procedural requirements of section 110 of the Clean Air Act and 40 CFR Part 51. Therefore, the Administrator approves the Wyoming SIP revisions as set forth in this rulemaking.

This rulemaking will be effective August 31, 1976. The Agency finds that good cause exists for not deferring the effective date of this rulemaking because it is already in effect under State law and Federal approval imposes no new burdens.

(Sec. 110 of the Clean Air Act; as amended, 42 U.S.C. 1857c-5.)

Dated: August 20, 1976.

JOHN QUARLES,
Acting Administrator.

Part 52 of Chapter I, Title 40 of the Code of Federal Regulations is amended as follows:

Subpart ZZ—Wyoming

1. In § 52.2620, paragraph (c)(9) is revised to read as follows:

§ 52.2620 Identification of plan.

* * * * *

(c) * * *

(9) Legal authority additions and compliance schedule revisions submitted on February 19, 1976, by the Governor.

2. § 52.2624 is revoked and reserved as follows:

§ 52.2624 [Reserved]

3. In § 52.2625, paragraph (a) is revised and paragraph (b) is deleted. As amended, § 52.2625 reads as follows:

§ 52.2625 Compliance schedules.

(a) The compliance schedules for the sources identified below are approved as meeting the requirements of § 51.15 of this chapter. All regulations cited are found in the "Wyoming Air Quality Standards and Regulations, 1975."

Wyoming

SUBCHAPTER N—EFFLUENT GUIDELINES AND STANDARDS

[FRL 601-3]

PART 436—MINERAL MINING AND PROCESSING POINT SOURCE CATEGORY

Extension of Comment Period and Notice of Availability

On June 10, 1976 the Agency published a notice of interim final rulemaking (41 FR 23552) establishing effluent limitations and guidelines for the mineral mining and processing point source category, based upon use of best practicable control technology currently available. The due date for comments provided in the notice was August 9, 1976.

The Agency anticipated that the document entitled "Economic Impact for Interim Final and Proposed Effluent Guidelines for the Mineral Mining and Processing Point Source Category," which contains information on the analysis undertaken in support of the regulations, would be available to the public throughout the comment period. Production difficulties delayed the availability of this document. Copies of the document are now available and have been forwarded to those persons having submitted written requests to the Environmental Protection Agency. A limited number of additional copies are available for distribution from the Environmental Protection Agency, Effluent Guidelines Division, Washington, D.C. 20460, At-

V 41 170 AUG 31 76 UMI

tention: Distribution Officer, WH–552.

This extension and notice of availability is published pursuant to sections 301, 304(b) and (c), 306(b) and 307(c) of the Federal Water Pollution Control Act as amended 33 U.S.C. 1251, 1311, 1314(b) and (c), 1316(b), and 1317(c); 86 Stat. 816 et seq.; P.L. 92–500 (the Act).

Accordingly, the date for submission of comments is hereby extended to September 30, 1976.

Dated: August 13, 1976.

ANDREW W. BREIDENBACH,
Assistant Administrator for Water and Hazardous Materials.

Title 41—Public Contracts and Property Management

CHAPTER I—FEDERAL PROCUREMENT REGULATIONS

[FPR Amdt. 168]

PART 1–16—PROCUREMENT FORMS

Report on Procurement by Civilian Executive Agencies

This amendment of the Federal Procurement Regulations revises § 1–16.804 to prescribe new reporting dates for the submission of Standard Form 37 (SF 37), Report on Procurement by Civilian Executive Agencies. In the past, the reports have been required at the end of 6- and 12-month periods during the fiscal year (July 1 through June 30). In the future, reports will be required at the end of 6- and 12-month periods during the new fiscal year (October 1 through September 30). In response to a request by the Office of Federal Procurement Policy, the amendment also requires a one-time 3-month report covering the period July 1, 1976, through September 30, 1976.

Section 1–16.804–3 is amended to add paragraph (a)(2)(iv) and to revise paragrah (f), as follows:

§ 1–16.804–3 Standard Form 37, Report on Procurement by Civilian Executive Agencies.

(a) • • •

(2) • • •

(iv) Revise paragrah A of "General Instructions" to reflect the current reporting requirements, as follows:

(A) Submission of Reports. Cumulative reports are to be submitted semiannually within 45 calendar days after the end of each reporting period. One report for the 6-month period ending March 31, and the other report for the 12-month period ending September 30 of each year.

• • • • •

(f) *Frequency and due date for submission of Standard Form 37.* Standard Form 37 shall be prepared and submitted semiannually. One report shall be submitted for the 6-month period October 1 through March 31, and the other report for the 12-month period October 1 through September 30 of each fiscal year. In addition, a one-time report shall be submitted for the 3-month period July 1, 1976, through September 30, 1976. Each report shall be submitted (in the original copy) within 45 calendar days after the close of each period. The Office of Management and Budget Approval Number 29–R 0018 has been assigned to the report required by this regulation. Reports shall be addressed to the General Services Administration (BCC), Washington, DC 20405.

Effective date. This amendment is effective August 16, 1976.

It is hereby certified that the impact does not meet the inflation impact criteria for major rules or regulations.

Dated: August 12, 1976.

JACK ECKERD,
Administrator of General Services.

[FR Doc.76–25433 Filed 8–30–76;8:45 am]

CHAPTER 114—DEPARTMENT OF THE INTERIOR

PART 114–38—MOTOR EQUIPMENT MANAGEMENT

Watercraft

Pursuant to the authority of the Secretary of the Interior contained in 5 U.S.C. 301 and 40 U.S.C. 486(c), a new subpart 114–38.55 is added to Chapter 114, Title 41 of the Code of Federal Regulations, as set forth below.

It has been determined that the public rulemaking procedure is unnecessary because this subpart relates only to matters of internal Department practice. Accordingly, this new subpart shall become effective August 31, 1976.

ALBERT C. ZAPANTA,
Assistant Secretary of the Interior.

AUGUST 23, 1976.

Subpart 114–38.55—Watercraft

Sec.

114–38.5500 Scope of Subpart.
114–38.5501 Definition.
114–38.5502 Official use.
114–38.5503 Responsibility.
114–38.5504 Purchasing new watercraft.
114–38.5505 Modifying other than new watercraft.
114–38.5506 Displaying identification and other markings.
114–38.5507 Personal flotation devices.
114–38.5508 Firefighting equipment.
114–38.5509 Other associated equipment requirements.
114–38.5510 Inspection requirements.
114–38.5511 Operating requirements.

Subpart 114–38.55—Watercraft

§ 114–38.5500 Scope of subpart.

This subpart establishes uniform regulations and procedures for the acquisition, management, and safe operation of watercraft.

§ 114–38.5501 Definition.

As used in this subpart, the term "watercraft" means boats and ships collectively, including airboats and every description of watercraft (other than a seaplane) that is:

(a) Used, or capable to being used, as a means of transportation on water, and

(b) propelled by machinery whether or not such machinery is the principle source of propulsion.

§ 114–38.5502 Official use.

No officer or employee of the Federal Government is permitted to use, or authorize the use of, any Government-owned or -leased watercraft for other than official purposes (114–38.5004).

§ 114–38.5503 Responsibility.

The head of each bureau and office is responsible for the management of watercraft and shall:

(a) Establish operating programs and procedures to ensure compliance with this subpart.

(b) Establish requirements for records and reports needed for management purposes.

(c) Establish a program to ensure that all personnel assigned to watercraft receive training appropriate to the type of work performed, and:

(1) Require that all employees who operate or work in watercraft receive sufficient first aid instruction to ensure the availability of artificial respiration in an emergency. Permanent employees shall be required to take the Standard Red Cross First Aid Course or its equivalent.

(2) Require that all employees who operate watercraft participate, as appropriate, in one or more of the following courses:

(i) U.S. Coast Guard Auxiliary courses in boating safety and seamanship.

(ii) United States Power Squadrons (USPS) Boating Course.

(iii) Water safety courses offered by local chapters of the American National Red Cross.

(iv) State boating safety education programs as available.

(v) The "Skipper's Course", a programmed learning text. ($1.50 by mail. Order from the Government Printing Office, P.O. Box 1821, Washington, D.C. 20013, or from the Consumer Product Information Center, Pueblo, Colorado 81009.)

(Any employee operating watercraft should possess a certificate showing successful completion of either (i) or (ii). When carrying passengers other than bureau employees, the operator should possess a valid U.S. Coast Guard operator's license for the size and type of craft being operated.)

§ 114–38.5504 Purchasing new watercraft.

The requirements of Office of Management and Budget Circular A–76 shall be satisfied prior to the purchase of any watercraft 26 feet or more in length. Purchases shall be monitored and controlled to ensure that any new watercraft purchased:

(a) Meets or exceeds U.S. Coast Guard requirements for comparable watercraft. (Manufacturers of watercraft to which Coast Guard standards apply must affix a certification label on their watercraft attesting to the fact that they meet U.S. Coast Guard standards in effect on the date of certification.)

(b) Complies with environmental regulations concerning the discharge of waste materials into navigable waters.

(For example, the use of marine toilets with overboard discharge is prohibited.)

(c) Has, if less than twenty (20) feet in length, built-in solid positive flotation with sufficient buoyance to maintain the boat, motors, gear, and occupants in a level upright position when the boat is filled to the gunwales with water.

(d) Is powered by an engine that:

(1) Has a horsepower rating not in excess of that recommended by the manufacturer of the hull and shown on the hull identification plate, and

(2) If inboard, is equipped with a U.S. Coast Guard approved flame arrester or bears a label indicating that the Coast Guard has approved the use of that engine without an arrester.

§ 114–38.5505 Modifying other than new watercraft.

All existing watercraft shall be modified to meet the above requirements for new watercraft except in those instances where such modification is neither practicable nor economically feasible. Upon completion of modifications, they shall be inspected by qualified personnel and approved by the U.S. Coast Guard.

§ 114–38.5506 Displaying identification and other markings.

(a) Bureau or Office identification shall be conspicuously displayed on all watercraft except those used in connection with law enforcement undercover work.

(b) Registered watercraft shall have the registration number displayed on each side of the bow in accordance with U.S. Coast Guard instructions.

(c) All watercraft shall be marked to indicate the maximum horsepower allowed for propulsion, the maximum permissible number of occupants, and any other standards for safe loading that may be required to ensure safe operation.

(d) Emergency flotation information shall be prominently displayed on each watercraft when it is determined that such information will serve a useful purpose.

§ 114–38.5507 Personal flotation devices.

(a) Each watercraft shall have aboard, for the operator and each occupant, a wearable Personal Flotation Device (PFD) at least equivalent to Performance Type I, II, or III Personal Flotation Device as specified in U.S. Coast Guard "Requirements for Recreational Boats" (i.e., designed to keep a person afloat in a vertical or slightly backward position and having at least 15.5 pounds of buoyancy).

(b) The operator of each watercraft shall:

(1) Ensure that a serviceable Personal Flotation Device of suitable size is readily available for each occupant.

(2) Require that each occupant wear a Personal Flotation Device while on board any watercraft less than 26 feet in length. This requirement may be waived only when the working conditions are such that the PFD would unduly restrict the movement necessary to perform the work.

(c) Whenever operating watercraft alone, the operator shall be required to wear a Performance Type I Personal Flotation Device (or its equivalent).

(d) Each watercraft 16 feet or more in length shall also be equipped with at least one Type IV (throwable) Personal Flotation Device.

§ 114–38.5508 Firefighting equipment.

Fire Extinguishers (of the type approved by the U.S. Coast Guard) shall be carried in all watercraft constructed in such a manner as to permit the entrapment of explosive or flammable gases or vapors. Examples of such construction are:

(a) Closed compartments under thwarts and seats wherein portable fuel tanks may be stored.

(b) Double bottoms not completely sealed to the hull or which are not completely filled with flotation materials.

(c) Closed living spaces.

(d) Closed stowage compartments in which combustible or flammable material are stored.

(e) Permanently installed fuel tanks.

§ 114–38.5509 Other associated equipment requirements.

(a) *Distress signaling devices.*—Each watercraft shall have aboard distress signaling devices effective for all weather conditions.

(b) *Bailing device.*—Any open-type watercraft less than 26 feet in length shall have aboard and readily available a suitable bailing device.

(c) *Running lights.*—Each watercraft operated during hours of darkness shall display lights meeting U.S. Coast Guard standards for "Lights required on boats underway between sunset and sunrise".

(d) *Radio.*—All watercraft operated on open waters such as coastal areas and the Great Lakes should have ship to shore radio communications capability. For carriage and authorization of such radio equipment, refer to Part 313 of the Departmental Manual and the related Radio Communications Handbook.

(e) *Navigational aids.*—Any watercraft operated outside the sight of land shall be equipped with navigational aids suitable to the mission.

(f) *Dead-man's switch.*—Watercraft frequently used for solo operation shall be equipped with a dead-man's switch (to automatically stop the engine if something happens to the operator).

(g) *Anchor and anchor line.*—Each watercraft shall be equipped with an anchor of suitable weight and design, together with an anchor line of sufficient strength and scope as recommended by the anchor's manufacturer, to hold the watercraft under the most extreme conditions to be expected in the operating area.

§ 114–38.5510 Inspection requirements.

(a) Each watercraft shall be thoroughly inspected at least once annually to determine that the watercraft is seaworthy and being maintained in a safe operating condition. Inspections shall be more frequent in those situations where unusual conditions such as heat, humidity, or ice may have an effect on the hull or engine. Each inspection shall be made by qualified personnel, and U.S. Coast Guard inspection services shall be utilized to the extent they are available.

(b) Each inspection shall include an examination of Personal Flotation Devices to ensure they are being properly treated and maintained in a serviceable condition.

(c) All deficiencies affecting seaworthiness or safety shall be corrected before the watercraft is returned to service.

§ 114–38.5511 Operating requirements.

(a) Watercraft shall be operated at all times with safety as a primary requirement.

(b) The employee in charge of any watercraft shall be responsible for:

(1) Operating the watercraft in a safe manner with due regard to the safety of its crew, passengers and cargo.

(2) Complying with the regulations relating to use for official purposes only and the transportation of non-official passengers.

(3) Complying with Federal, State, and local laws and regulations.

(4) Reporting, without delay, all accidents and incidents in accordance with the following:

(i) Report all accidents and incidents involving watercraft on Form DI–134, Report of Accident/Incident, the Department's official report.

(ii) Use Coast Guard Form CG–3865, Boating Accident Report, to report any accident which results in the loss of life, injury causing incapacitation in excess of 72 hours, or property damage in excess of $100.

(c) The solo operator of any watercraft should, whenever practicable, wear a life line in conjunction with the dead man's switch.

(d) Airboat operators and occupants shall wear some type of hearing protection.

(e) The employee in charge of any watercraft with a crew of three or more (including the captain) shall:

(1) Hold safety meetings at least once each month during the operating season.

(2) Conduct fire and abandon ship drills at least once each month during the operating season, and record each drill in the ship's log.

(3) Post, in a conspicous place, a "Station Bill" covering fire drills, abandon ship drills, man overboard drills, and other emergency procedures.

[FR Doc.76–25381 Filed 8–30–76;8:45 am]

V 41 I 170 AUG 31 76 UMI

Title 49—Transportation

CHAPTER III—FEDERAL HIGHWAY ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

SUBCHAPTER B—FEDERAL MOTOR CARRIER SAFETY REGULATIONS

[Docket No: MC–55; Notice No. 76–20]

PART 391—QUALIFICATIONS OF DRIVERS

Certificate of Qualification for Drivers Who Are Regularly Employed by Another Carrier

● Purpose. This amendment: (1) Simplifies qualification file requirements under 49 CFR 391.51(e), for a carrier which uses a driver whose qualifications are certified by his regularly employing carrier; (2) prescribes, under 49 CFR 391.65, the minimum information for the certificate; and (3) makes clear the certifying carrier's responsibility for accurate information. ●

Under existing regulations, carriers commonly issue 49 CFR 391.65 qualification certificates to their regularly employed drivers to enable them to lawfully drive for other carriers, without limiting the duration of the certificate's validity. Such a certificate will not reflect an intervening lack of qualification, nor does it necessarily reflect the results of required periodic re-evaluations of qualifications. This practice, therefore, invites a misuse of the certificate which compromises operational safety.

This problem was addressed by a notice of proposed rulemaking, published February 12, 1975 (40 FR 6510). Due consideration, including review of comments in response to the notice, has resulted in the following conclusions:

1. The maximum duration of 2 years for the certificate is reasonable if the certifying carrier is responsible for recalling the certificate upon learning that the driver has become disqualified and the certifying carrier is permitted to restrict its certification.

2. It should be made clear that the certifying carrier is responsible for misrepresentation of fact in the certificate.

3. It should be made clear that a driver is in a carrier's employ when he is operating a vehicle under the carrier's control, whether or not the carrier owns the vehicle.

4. It is unnecessary to require the using carrier to retain a copy of the driver's current medical certificate if the regularly employing motor carrier certification is properly controlled.

5. The minimum information necessary in the certificate should be prescribed.

6. A reasonable time should be allowed for carriers to exhaust present forms and transition to the new form.

Accordingly, 49 CFR Part 391 (Part 391 of the Federal Motor Carrier Safety Regulations) is amended as follows:

1. Section 391.51(e) is revised to read as follows:

§ 391.51 Driver qualification files.

• • • • • •

(e) A using carrier's qualification file for a driver who is regularly employed by another motor carrier, and who is employed by the using carrier in accordance with § 391.65 of this part, shall include a copy of a certificate, as prescribed by § 391.65(a)(2) of this part, by the regularly employing carrier that the driver is fully qualified to drive a motor vehicle.

• • • • • •

2. Section 391.65 is revised to read as follows:

§ 391.65 Drivers furnished by other motor carriers.

(a) A motor carrier may employ a driver who is not a regularly employed driver of that motor carrier without complying with the generally applicable driver qualification file requirements in this part, if—

(1) The driver is regularly employed by another motor carrier; and

(2) The motor carrier which regularly employs the driver certifies that the driver is fully qualified to drive a motor vehicle in a written statement which—

(i) Is signed and dated by an officer or authorized employee of the regularly employing carrier;

(ii) Contains the driver's name and signature;

(iii) Certifies that the driver has been employed regularly to drive, as defined in § 391.3(c);

(iv) Certifies that the driver is fully qualified to drive a motor vehicle under the rules in Part 391 of the Federal Motor Carrier Safety Regulations;

(v) States the expiration date of the driver's medical examiner's certificate;

(vi) Specifies an expiration date for the certificate, which shall be not longer than 2 years or, if earlier, the expiration date of the driver's current medical examiner's certificate; and

(vii) After April 1, 1977, is substantially in accordance with the following form:

---------- ----------
(Name of driver) (SS No.)

(Signature of driver)

I certify that the above named driver, as defined in § 391.3(c) is regularly driving a vehicle operated by the below named carrier and is fully qualified under Part 391, Federal Motor Carrier Safety Regulations. His current medical examiner's certificate expires on ---------
(Date)

This certificate expires:

(Date not later than expiration date of medical ceritficate)

Issued on ---------
(Date)

Issued by ----------
(Name of carrier)

(Address)

---------- ----------
(Signature) (Title)

(b) A motor carrier that obtains a certificate in accordance with paragraph (a)(2) of this section shall retain a copy of that certificate in its files for 3 years.

(c) A carrier which certifies a driver's qualifications under this section shall—

(1) Be responsible for the accuracy of the certificate; and

(2) Recall the unexpired certificate carried by a driver immediately upon learning that the driver is no longer qualified under the rules in this part.

(Sec. 204, Interstate Commerce Act (49 USC 304); sec. 6, Department of Transportation Act (49 USC 1655); and the delegations of authority at 49 CFR 1.48(p) and 301.60 respectively.)

Effective date: These amendments become effective October 1, 1976.

Issued on August 20, 1976.

ROBERT A. KAYE,
Director,
Bureau of Motor Carrier Safety.

[FR Doc.76-25384 Filed 8-30-76;8:45 am]

[Docket No. MC–56; Notice 76–21]

PART 393—PARTS AND ACCESSORIES NECESSARY FOR SAFE OPERATION

Exemption From Loading Restrictions for Other Than Front Tires on Special Permit Vehicles

● Purpose. This document amends the conditions under which other than front tires may be loaded in excess of the tire manufacturer's rated capacity. ●

A Notice of Proposed Rulemaking (NPRM), published in the FEDERAL REGISTER on June 17, 1976 (41 FR 24608), proposed the modifications herein adopted to an exemption from tire loading restrictions for special permit vehicles. The present exemption appears in § 393.75(f)(2) of the Federal Motor Carrier Safety Regulations (FMCSR) (49 CFR 393.75(f)(2)). The present exemption, which would become effective on October 1, 1976, would permit continued loading in excess of the tire manufacturer's maximum load rating on other than front tires of those motor vehicles which are operated under the terms of a State-issued special permit that specifies a reduced speed. Since only 24 States now specify a reduced speed in special permits, motor carriers operating in interstate or foreign commerce in more than half of the States would be unable to take advantage of the exemption as presently worded.

To remedy the situation, this amendment permits overloading of other than front tires on vehicles which meet the following conditions:

1. The vehicle is being operated under the terms of a special overweight permit issued by the State; and

2. The vehicle is being operated at a reduced speed which is appropriate to compensate for tire loading in excess of the manufacturer's normal rated capacity. In no case shall the speed exceed 45 m.p.h.

The effective date of the revised exemption is October 1, 1976.

Effectively, this Notice establishes a Federal speed limit which is applicable only to a very special category of vehicles operated in interstate or foreign commerce. Should more of the States adopt reduced speed provisions in special permits, the need for the Federal requirement would be obviated.

Since the matter of establishing speed limits has traditionally been left to the discretion of the individual States, comments on the June 17 NPRM were solicited from appropriate officials in each of the 50 States and the District of Columbia. Thirty-three States and the District of Columbia responded; 10 were essentially opposed to the NPRM, 23 either endorsed or offered no opposition to the proposal, and 2 agencies in the remaining State responded, one having no objection, and the other being in opposition.

The most common argument used by the States against the proposal was that a special speed limit for special permit vehicles would be unenforceable. This argument is discounted by the fact that nearly half of the States presently have special speed provisions for these vehicles, and none of these States reported enforcement difficulties. Further, enforcement of the rule will be carried out by the Bureau of Motor Carrier Safety (BMCS) field staff so that additional enforcement burdens are not imposed on State enforcement activities.

Another concern expressed by several States was that a reduced speed for overloaded vehicles would interrupt the rhythm of the traffic flow. Again, those States with reduced speed limits now in effect for special permit vehicles made no mention of problems associated with speed differentials, and to our knowledge, the proposed upper limit of 45 mph does not conflict with posted minimums on the Nation's highway system.

Six of the States which are opposed to the Proposed Rule expressed the view that overloading of tires beyond the manufacturer's rated capacity should not be allowed under any circumstance. The negative economic implications of such a position are what led the Heavy Specialized Carriers Conference (HSCC) of the American Trucking Associations, Inc., to petition for the rule change at hand. As was indicated in the Preamble to the June 17 NPRM, within reason, tires may be safely overloaded if the vehicle speed is reduced sufficiently to prevent heat buildup.

Five States felt that only the individual States should set criteria for speed restrictions and permit issuance. As mentioned above, should more of the States enact a reduced speed requirement for special permit vehicles operated on overloaded tires, the Federal speed restrictions established by this Notice could be readily removed. In the meantime, however, the Federal Highway Administration's BMCS would be remiss in its responsibility if it condoned the overloading of tires without appropriate speed reductions in States where no speed controls for these vehicles are presently in effect. This Notice does not, and there is no intent on the part of BMCS to, establish criteria for special permit issuance.

Several States indicated confusion as to whether overloading of tires on front axles would be permitted. Available BMCS accident data indicates that front tire failures on heavy commercial vehicles are more likely to result in accidents, particularly severe accidents, than are tire failures at other wheel positions. For this reason, loading of front axle tires in excess of the tire manufacturer's maximum rated capacity is not allowed under any circumstance.

In addition to the States and the District of Columbia, 13 organizations submitted comments on the June 17 NPRM. One commenter, a university affiliate, neither supported nor opposed the proposal, but recommended caution in regulating weight distribution on motor vehicles because of a recent rollover incident involving a fully loaded truck tractor which was being tested. Two of the remaining commenters were opposed to the rule as proposed, and the other 10 commenters were generally supportive.

One supportive commenter, the Rubber Manufacturers Association, requested that a reference to tire industry publications be included in the final rule. These publications contain specific percentage load increases which the industry recognizes for specified reduced speed ranges. The BMCS has decided not to grant this request as it would have the effect of making industry publications into Federal regulations. However, BMCS endorses the use of these publications by motor carriers as a guide in determining what speed reduction is appropriate for an overloaded tire on a special permit vehicle to prevent heat buildup.

The HSCC, whose petition initiated this proceeding, was in favor of the relief granted by the proposed rule, but requested that if any speed restrictions were to be included in the final rule, the restrictions be applicable only to vehicles having gross weights in excess of 100,000 pounds. The BMCS in this proceeding, is not concerned with the gross weight of motor vehicles, only the extent to which individual tires are loaded in excess of the tire manufacturer's rated maximum capacity. Since this overloaded condition can easily occur on vehicles weighing considerably less than 100,000 pounds, the HSCC's request is denied.

One opponent of the proposed rule, Boat Transit, Inc., requested that the exemption be extended to oversize vehicles, as well as those which are overweight. In its operations, Boat Transit apparently loads its axles in excess of the combined rated capacity of the tires, but not necessarily in excess of State axle weight limitations.

The intent of this proceeding was to evaluate the merits of granting relief by allowing overloading of tires on special permit vehicles transporting unusually heavy cargoes if appropriate reductions in speed were observed. The BMCS does not find good cause for broadening the original intent by allowing the overloading of tires on vehicles which are merely oversize. Accordingly, the Boat Transit request is denied.

The final comments opposing the proposed rule were submitted by the law offices of Paulson and Humphreys on behalf of Fleetwood Enterprises, Inc., a manufacturer of mobile homes. A practice of long standing in the mobile home industry has been to load tires by as much as 50 percent in excess of the tire manufacturer's rated maximum capacity. Fleetwood is concerned because the proposed rule would prohibit this practice on mobile homes moved in interstate or foreign commerce.

The BMCS is well aware of mobile home industry practices and has been actively reviewing this particular issue with the U.S. Department of Housing and Urban Development, which is responsible for construction and safety standards for new mobile homes. Any relief the BMCS may decide to grant concerning overloading of mobile home tires would be the subject of another notice.

In view of the foregoing, paragraph (f)(2) of § 393.75 of the FMCSR, Subchapter B, Chapter III of title 49 CFR is amended to read as follows:

§ 393.75 Tires.

• • • • • •

(f) • • •

(2) Other than front wheels. After September 30, 1976, no motor vehicle shall be operated with tires on wheels other than the front wheels which carry a greater weight than that specified for the tire in any of the publications of the standardizing bodies listed in Federal Motor Vehicle Safety Standard No. 119 (49 CFR 571.119) except for a motor vehicle which meets the following conditions:

(i) The vehicle is being operated under the terms of a special overweight permit issued by the State; and

(ii) The vehicle is being operated at a reduced speed which is appropriate to compensate for tire loading in excess of the manufacturer's normal rated capacity. In no case shall the speed exceed 45 m.p.h.

• • • • • •

(Sec. 204 of the Interstate Commerce Act amended (49 U.S.C. 304), sec. 6 of the Department of Transportation Act (49 U.S.C. 1655), and the delegations of authority at 49 CFR 1.48 and 301.60, respectively.)

Effective: October 1, 1976.

Issued on August 24, 1976.

KENNETH L. PIERSON,
Acting Director,
Bureau of Motor Carrier Safety.

CHAPTER V—NATIONAL HIGHWAY TRAFFIC SAFETY ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 71–19; Notice 5]

PART 571—FEDERAL MOTOR VEHICLE SAFETY STANDARDS

Tire Selection and Rims for Motor Vehicles Other Than Passenger Cars

This notice amends Standard No. 120, Tire Selection and Rims for Motor Vehicles Other Than Passenger Cars (49 CFR 571.120), to permit, until Febru-

V 41 170
AUG 31 76
UMI

ary 28, 1977, the equipping of new non-passenger-car vehicles with tires that do not meet certain tire labeling requirements but that otherwise meet all requirements of Standard No. 119 (New Pneumatic Tires for Vehicles Other Than Passenger Cars).

Standard No. 120 was issued on January 19, 1976 (41 FR 3478; January 23, 1976; Docket No. 71–19, Notice 3). It specifies tire and rim selection requirements for multipurpose passenger vehicles, trucks, buses, trailers, and motorcycles, and marking requirements for rims for use on these vehicles. It also adds tire and rim matching information to the items required to appear on such vehicles' certification labels. A staggered sequence of effective dates was set out in Notice 3, beginning with September 1, 1976.

In Notice 4 (41 FR 18659; May 6, 1976), the NHTSA delayed several of these effective dates, to permit manufacturers to defer preparation for compliance with the corresponding requirements pending action on petitions for reconsideration of Notice 3. The NHTSA expects to respond to those petitions in the near future. Notice 4 did not, however, change the basic September 1, 1976, effective date of the tire and rim selection requirements of S5.1. Beginning on that date, S5.1.1 of Standard No. 120 would require, with an exception that is not relevant here, new non-passenger-car vehicles to be equipped with tires that meet either Standard No. 109 (which is applicable to passenger car tires) or Standard No. 119 (which is applicable to all other tires). The practical effect is to require most such vehicles to be equipped with Standard 119 tires, because Standard 109 tires are appropriate for use only on certain non-passenger-car vehicles.

Standard No. 119 became effective on March 1, 1975, with an option to delay implementation of its labeling requirements until March 3, 1975 (see 40 FR 8188; February 26, 1975).

The NHTSA has received petitions for rulemaking from International Harvester (IH) and Ford Motor Company. International Harvester indicated that, in anticipation of the recent strike against the nation's four largest tire manufacturers, it had accumulated an excess inventory of "pre-Standard 119 tires." IH stated that these tires meet the performance requirements of Standard No. 119 but not the labeling requirements. It petitioned for a six-month delay of the September 1, 1976, effective date of Standard No. 120's tire selection requirements, to permit the orderly depletion of this inventory.

Ford's petition focused on the difficulty, due to the strike, in obtaining in the near future sufficient quantities of tires that comply fully with Standard No. 119. Ford indicated that there are similar pre-Standard 119 tires available to it. It petitioned for an amendment to Standard No. 120 to permit the use of such insufficiently labeled tires.

The NHTSA believes that the approach suggested by Ford, because it will provide the necessary relief while preserving the required level of performance, is preferable to a simple delay of the September 1, 1976, effective date. Safety of performance of such tires or of vehicles equipped with them is thus not a major issue. The NHTSA has determined that, while granting the relief requested by these petitions may temporarily make enforcement by this agency more difficult and may postpone the availability of certain tire labeling information to users of new vehicles subject to Standard No. 120, the avoidance of a serious disruption in the truck manufacturing process in this situation is appropriate and in the public interest. Accordingly, this notice adds a new section to Standard No. 120 that permits, for six months, the use of tires that are not properly labeled but otherwise meet all requirements of Standard No. 119.

In accordance with recently enunciated Department of Transportation policy encouraging adequate analysis of the consequencies of regulatory action (41 FR 16200; April 16, 1976), the agency herewith summarizes its evaluation of the economic and other consequences of this action on the public and private sectors, including possible loss of safety benefits. This action imposes no new economic or environmental costs. It creates the benefit of avoidance of serious economic disruption. In light of this benefit and the fact that the required level of tire performance is preserved, any loss in safety benefits would be insignificant in this case.

Because of the imminent effective date of a requirement which would otherwise lead to serious economic disruption, the NHTSA for good cause finds that notice and public procedure on this amendment are impracticable and contrary to the public interest.

In consideration of the foregoing, 49 CFR 571.120 (Standard No. 120, Tire Selection and Rims for Motor Vehicles Other Than Passenger Cars) is amended by the addition of a new section to read as follows:

§ 571.120 Standard No. 120; tire selection and rims for motor vehicles other than passenger cars.

* * * * *

S6. *Vehicles manufactured from September 1, 1976, to February 28, 1977.* Notwithstanding any other provision of this standard, a vehicle to which this standard applies that is manufactured during the period from September 1, 1976, to February 28, 1977, shall meet each requirement of this standard, with the following exception: In place of tires that meet Standard No. 119 (§ 571.119), the vehicle may be equipped with tires that meet every requirement of that standard other than the tire marking requirements of S6.5 of that standard.

Effective date: August 27, 1976. Because this amendment relieves a restriction, it is found, for good cause shown, that an immediate effective date is in the public interest.

(Secs. 103, 112, 114, 119, 201, 202, Pub. L. 89–563, 80 Stat. 718 (15 U.S.C. 1392, 1401, 1403, 1407, 1421, 1422); delegation of authority at 49 CFR 1.50)

Issued on August 27, 1976.

ROBERT L. CARTER,
Acting Administrator.

Title 50—Wildlife and Fisheries

CHAPTER I—U.S. FISH AND WILDLIFE SERVICE, DEPARTMENT OF THE INTERIOR

PART 32—HUNTING

Pathfinder National Wildlife Refuge, Wyo.

The following special regulation is issued and is effective August 31, 1976.

§ 32.32 Special regulations; big game; for individual wildlife refuge areas.

WYOMING

PATHFINDER NATIONAL WILDLIFE REFUGE

Public hunting of antelope on the Pathfinder National Wildlife Refuge, Wyoming, is permitted on the entire refuge in accordance with dates and areas designated in the Wyoming 1976 Orders regulating antelope hunting. Portions of the refuge lying in Area No. 63 will be open from September 14 through September 26, 1976. Portions of the refuge lying in Area No. 48 will be open from September 25 through October 15, 1976. This open area, comprising 16,807 acres, is composed of four separate units and is delineated on maps available at refuge headquarters in Walden, Colorado and from the office of the Area Manager, U.S. Fish and Wildlife Service, Federal Building, Room 2215, Salt Lake City, Utah 84111.

Hunting shall be in accordance with all applicable State regulations covering the hunting of antelope.

The provisions of this regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through October 15, 1976.

V. CARROL DONNER,
Refuge Manager,
Pathfinder National Wildlife Refuge.

AUGUST 19, 1976.

[FR Doc.76–25379 Filed 8–30–76;8:45 am]

PART 32—HUNTING

Pathfinder National Wildlife Refuge, Wyo.

The following special regulation is issued and is effective August 31, 1976.

§ 32.32 Special regulations; big game; for individual wildlife refuge areas.

WYOMING

PATHFINDER NATIONAL WILDLIFE REFUGE

Public hunting of deer on the Pathfinder National Wildlife Refuge, Wyoming, is permitted on the entire refuge in accordance with dates and areas designated in the Wyoming 1976 Orders regulating deer hunting. Portions of the refuge lying in Area No. 87 will be open October 15 through October 25, 1976. Portions of the refuge lying within Area No. 72 will be open October 1 through October 10, 1976. This open area, comprising

16,807 acres, is composed of four separate units and is delineated on maps available at refuge headquarters in Walden, Colorado and from the office of the Area Manager, U.S. Fish and Wildlife Service, Federal Building Room 2215, Salt Lake City, Utah 84111.

Hunting shall be in accordance with all applicable State regulations covering the hunting of deer.

The provisions of this regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through October 25, 1976.

V. CARROL DONNER,
Refuge Manager,
Pathfinder National Wildlife Refuge.

AUGUST 19, 1976.

[FR Doc.76–25380 Filed 8–30–76;8:45 am]

[55760]

PART 32—HUNTING

Rice Lake National Wildlife Refuge, Minn.

The following special regulation is issued and is effective on August 31, 1976.

§ 32.32 Special regulations; upland game; for individual wildlife refuge areas.

MINNESOTA

RICE LAKE NATIONAL WILDLIFE REFUGE

Public hunting of ruffed and spruce grouse on the Rice Lake National Wildlife Refuge in Aitkin County, Minnesota, is permitted from September 18 through December 31, 1976 only in the hunting area designated by (green) signs as open to hunting. The open area comprises about 2,000 acres and is delineated on a map available at refuge headquarters, McGregor, Minnesota and from the Regional Director, Fish and Wildlife Service, Federal Building, Fort Snelling, Twin Cities, Minnesota 55111.

Hunting shall be in accordance with all applicable State regulations governing the hunting of upland game.

DON E. ADAMS,
Refuge Manager,
Rice Lake National Wildlife Refuge.

AUGUST 23, 1976.

[FR Doc.76–25378 Filed 8–30–76;8:45 am]

CHAPTER II—NATIONAL MARINE FISHERIES SERVICE, NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION, DEPARTMENT OF COMMERCE

PART 216—REGULATIONS GOVERNING THE TAKING AND IMPORTING OF MARINE MAMMALS

Approval and Review of State Laws and Regulations

The purpose of this amendment to Part 216, Subchapter C, Chapter II of Title 50, CFR, is to establish a new Subpart H, providing standards and procedures for approving and reviewing State laws and regulations for the management of marine mammal resources. This new subpart implements sections 109(a) (2) and (3) of the Marine Mammal Protection Act ("the Act") (16 U.S.C. 1361 et seq.) and applies to all States. However, because the Act divides jurisdiction over species of marine mammals between the Secretary of Commerce and the Secretary of the Interior, Subpart H is applicable only to whales, porpoises, seals, and sea lions. Section 109(a)(1) of the Act preempts State laws and regulations relating to the taking of marine mammals within the State's jurisdiction. However, section 109(a)(2) of the Act permits reinstatement of State laws and regulations which relate to the preservation and taking of marine mammals if the appropriate Secretary determines they are consistent with the Act and any applicable regulations. Section 109(a)(3) of the Act requires the appropriate Secretary to review and monitor any State laws and regulations approved under section 109(a)(2) of the Act and to resume responsibility for marine mammal management if there is substantial noncompliance.

The Secretary of Commerce has delegated his authority to approve State laws and regulations, as well as to waive the moratorium on the taking of marine mammals under section 101(a)(3)(A) of the Act, to the Administrator of the National Oceanic and Atmospheric Administration who has further delegated this authority to the Director of the National Marine Fisheries Service (NMFS).

The proposal to establish a new Subpart H was announced in a notice in the FEDERAL REGISTER on April 9, 1976 (41 FR 15173), describing the proposal and inviting submission of written comments in accordance with section 553 of the Administrative Procedure Act, 5 U.S.C. 553. Simultaneously, the U.S. Fish and Wildlife Service published a substantively identical proposal (41 FR 15166) to amend Part 18 of Title 50, CFR, by establishing a new Subpart F applicable to those species of marine mammals over which the Secretary of the Interior was given jurisdiction by the Act. A notice of final rulemaking as to the new Subpart F of Part 18 will be published very soon.

Comments were received from the Environmental Defense Fund, the Monitor Consortium, the Animal Protection Institute, the Committee for Humane Legislation, Inc., and Friends of Animals, Inc. After due consideration of these comments, the proposed Subpart H is modified as follows:

1. The title of Subpart H is modified for clarification.

2. Section 216.101 is reworded for clarification.

3. Paragraphs (b), (c) and (d) of § 216.104 are rewritten to show more clearly that a two-step process is involved: first, the Director determines whether a waiver of the moratorium is appropriate based on a formal hearing on the record, and then if a waiver is considered appropriate, the Director must approve the State's laws and regulations before the waiver may take effect.

4. A new § 216.106(d) is added to facilitate public access to material submitted by individual States pursuant to § 216.106 (a), (b), and (c). Because of this additional paragraph, § 216.106 (d), (e), (f), and (g) are redesignated § 216.106 (e), (f), (g), and (h), respectively.

5. Section 216.106 (f), (g) and (h) are broadened to allow increased public participation with respect to affirmative determinations by the Director of NMFS in his review of approved State laws and regulations under § 216.106.

6. Section 216.107 is rewritten to provide notice to the public of receipt by the Director of the notification required by that section.

7. Section 216.4(a) is retained and § 216.4(b) is replaced by a cross-reference to Subpart H. All other paragraphs of § 216.4 are deleted since they are duplicated in § 216.103.

Other recommended changes in the proposal have been carefully considered, but have not been accepted. The following suggestions were not adopted for the following reasons:

1. It was suggested that provision be made for an interagency appeal from the Director's decision under section 216.104 approving State laws which implement a waiver of the moratorium. This suggestion has been rejected on the ground that, because of the application of the Director's expertise to the complex issues raised by a State's request for a waiver of the moratoruim, the decision of the Director is not susceptible to meaningful review.

2. A number of recommendations were not applicable to the new subpart H. Rather these comments pertained to a request by the State of Alaska for a waiver of section 101 of the Act regarding certain marine mammal species, to enable the State to resume management over those species. Proposed regulations related to Alaska's waiver request, a new Subpart I of Part 216, are the subject of public hearings held at the times and places announced on May 28, 1976, at 41 FR 21832.

JACK W. GEHRINGER,
Deputy Director,
National Marine Fisheries Service.

AUGUST 19, 1976.

Accordingly, 50 CFR Part 216, is amended as set forth below.

1. A new Subpart H is added, reading as follows:

Subpart H—Approval and Review of State Laws and Regulations

216.101 Purpose of regulations.
216.102 Scope.
216.103 Review of state laws and regulations—General.
216.104 Review of state laws and regulations implementing waiver.
216.105 Approval of state laws and regulations—Criteria.
216.106 Review of approved state laws and regulations.
216.107 Notification.
216.108 Enforcement.
216.109 [Reserved]

Subpart H—Approval and Review of State Laws and Regulations

§ 216.101 Purpose of regulations.

(a) Section 109 of the Act provides that no State may adopt or enforce any law or regulation which relates to the

V 41 170 AUG 31 76 UMI

taking of marine mammals unless such laws and regulations have been previously reviewed by the Director and determined by him to be consistent with the Act.

(b) This subpart fulfills the requirements of sections 109 and 112 of the Act by prescribing procedures to permit a State to adopt and enforce laws and regulations consistent with the Act which relate to the protection and taking of marine mammals.

§ 216.102 Scope.

(a) The provisions of § 216.103 of this subpart apply whenever a State has requested a determination from the Director, pursuant to section 109(a)(2) of the Act, that the State's proposed or existing laws or regulations relating to the protection and taking of any marine mammal are consistent with the Act and regulations contained in this part, regardless of whether the moratorium imposed by section 101 of the Act must be waived to allow such laws to take effect. The provisions set forth standards and criteria for such determination by the Director.

(b) The provisions of § 216.104 through 216.108 of this subpart apply only when both the Director has waived or is considering waiving the moratorium, and when a State has requested a determination from the Director, pursuant to section 109(a)(2) of the Act, that the State's laws and regulations relating to the protection and taking of any species or population stock of marine mammals are consistent with the waiver of the moratorium, the Act, and the regulations in this part which apply to such species or population stocks. The provisions set forth standards and criteria for such determination by the Director and for waiving the moratorium.

§ 216.103 Review of State laws and regulations—general.

(a) Nothing in this part, nor any permit issued under authority of this part, shall be construed to relieve a person from any other requirements imposed by any statute or regulation of the United States, including any applicable statutes or regulations relating to wildlife and fisheries, health, quarantine, agriculture, or customs.

(b) Section 109 of the Act provides that on or after December 21, 1972, no State may adopt any law or regulation, or enforce any existing law or regulation, which relates to the taking of marine mammals or which in effect nullifies an exemption or exception created by the Act, unless such laws or regulations have been previously reviewed by the Director and determined by him to be consistent with the provisions of the Act and the regulations in this part. In no event, however, will the Director approve any State laws or regulations which:

(1) Purport to authorize a State to issue permits in situations which would require a Federal permit under the Act, unless and until appropriate Federal regulations have been issued under section 103 of the Act, and where appropriate, the Director has waived the moratorium on such taking or importation under section 101(a)(3)(A) of the Act; or

(2) Purport to authorize a State to issue permits for scientific research or public display (except that a State may, under authority of a general scientific research permit granted by the Director, assign individual scientific research permits to State employees or representatives of State universities or other State agencies, subject to the provisions of the general permit).

(c) Any State may obtain a review and determination of its proposed or existing laws and regulations from the Director by submitting a written request to that effect to the Director, National Marine Fisheries Service (NMFS), accompanied by the following documents, unless otherwise specified by the Director.

(1) A complete set of the laws and regulations to be reviewed, certified as complete, true and correct, by the appropriate State official;

(2) A scientific description by species and population stock of the marine mammals to be subjected to such laws and regulations;

(3) A description of the organization, staffing and funding for the administration and enforcement of the laws and regulations to be reviewed;

(4) A description of the procedures to be used in granting or withholding such permits and otherwise enforcing such laws, where such laws and regulations provide for discretionary authority on the part of State officials to issue permits; and

(5) Such other materials and information as the Director may request or which the State may deem necessary or advisable to demonstrate the compatibility of such laws and regulations with the policy and purposes of the Act and the rules and regulations issued thereunder.

(d) In making a determination with respect to any State laws and regulations, the Director shall take into account:

(1) Whether such laws and regulations are consistent with the purposes and policies of the Act and the rules and regulations issued thereunder;

(2) The extent to which such laws and regulations are consistent with, or constitute an integrated management or protection program with, the laws and regulations of other jurisdictions whose activities may affect the same species or stocks of marine mammals; and

(3) The existence of, or preparations for, an overall State program regarding the protection and management of marine mammals to which the laws and regulations under review relate.

(e) To assist States in preparing laws and regulations relating to marine mammals, the Director will also, at the written request of any State, make a preliminary review of any proposed laws or regulations. This review will be advisory in nature and shall not be binding upon the Director. Notwithstanding preliminary review by the Director, once these proposed laws and regulations have been prepared in final form, they shall be subject to a final review under paragraphs (b) through (d) of this section. To be considered for preliminary review, a State shall submit the same documents as required in paragraph (c) of this section, unless otherwise specified by the Director.

(f) The implementation and enforcement of all States laws and regulations previously approved by the Director pursuant to this section shall be subject to continuous monitoring and review by the Director pursuant to such rules and regulations as he may adopt. Any modifications, amendments, deletions or additions to laws or regulations previously approved shall be deemed to be new laws and regulations for the purposes of these regulations and shall require review and approval by the Director before their adoption, except as provided in § 216.104.

(g) Nothing in this part shall prevent (1) the taking of a marine mammal by a State or local government official pursuant to § 216.22 of the regulations in this part, or (2) the adoption or enforcement of any law or regulation relating to any marine mammal taken or imported prior to the effective date of the Act.

§ 216.104 Review of State laws and regulations implementing waiver.

(a) Any State which requests a determination that its laws and regulations are consistent with the Act and applicable regulations in accordance with § 216.103(c) of this subpart, may also request a waiver of the moratorium imposed by section 101 of the Act to the extent necessary to allow such laws and regulations to take effect.

(b) If the Director, after opportunity for agency hearing as required by section 103(d) of the Act, decides to waive the mortorium so as to allow State laws and regulations to take effect, the waiver shall be contingent upon his approval of such State laws and regulations under paragraph (c) of this section and shall not be effective until publication of the notice specified in paragraph (d) of this section.

(c) The Director may approve State laws and regulations which implement a waiver of the moratorium if he determines them to be consistent with the Act, with regulations promulgated under section 103 of the Act, with the criteria of § 216.105 of this part and with all other rules or regulations promulgated pursuant to the Act with respect to marine mammals.

(d) Upon approval of such State laws and regulations, the Director shall publish his decision in the FEDERAL REGISTER. The decision will summarize the management program established by the State laws and regulations, state the extent to which the moratorium is waived in order to allow such State laws and regulations to take effect, and indicate the date the State's annual report is to be submitted.

(e) Any modifications, amendments, deletions, or additions to laws or regulations previously approved, except emergency closing of seasons, shall require review and approval by the Director pursuant to paragraphs (c) through (g) of § 216.106 of these regulations before their adoption.

(f) All determinations by the Director shall be final.

§ 216.105 Approval of State laws and regulations—criteria.

Any State which applies to the Director for approval of its laws and regulations under § 216.104 must demonstrate to the Director's satisfaction, that such laws and regulations:

(a) Provide for a modern scientific resource management program, including, but not limited to, research, census, law enforcement, habitat acquisition and improvement and, when and where appropriate, the periodic or permanent protection of the species of marine mammals affected by the State's application;

(b) Establish a program which is based upon the best scientific evidence available on the relevant marine ecosystem and the role of the affected species of marine mammals in that ecosystem;

(c) Establish a program which is consistent with the primary goal of the Act, to maintain the health and stability of the marine ecosystem;

(d) Establish a program which insures that the affected species or population stock of marine mammals shall not diminish below the range of optimum sustainable population;

(e) Require cessation of taking of the affected species of marine mammals whenever the population is determined to be below the range of optimum sustainable population;

(f) Provide appropriate maximum quotas and seasons, whenever a taking is proposed, unless the State can show that it is more consistent with these criteria to have no quota or season;

(g) Establish quotas, seasons, and other allowances and restrictions as necessary to be consistent with the criteria of this section and in accordance with the following factors:

(1) The seasonal distribution of populations;

(2) Segregation within populations by sex and age;

(3) Discreteness of populations;

(4) Population density;

(5) Critical periods in the species life cycle;

(6) Critical habitat areas;

(7) Productivity of the population;

(8) Species interactions;

(9) Percentage of retrieval by hunters;

(10) Maximization of the utilization of the species;

(11) Other uses of the species, such as recreational use or incidental catch; and

(12) Enforceability of the limitations.

(h) Contain suitable limitations on the means and methods of taking which assure that taking will be by humane means and will maximize the utilization of each animal taken.

(i) Contain provisions for significant public participation within the State in the process of implementing the waiver.

(j) Meet the criteria specified in § 216.103 of this part, to the extent such criteria may differ from those prescribed in this section.

§ 216.106 Review of approved State laws and regulations.

(a) All State laws and regulations and the conservation programs established thereby which have been approved shall be reviewed annually, unless circumstances indicate that an earlier review is appropriate.

(b) In order to facilitate such a review, each State having approved laws and regulations must submit an annual report not later than 60 days after the close of such State's first full fiscal year following the effective date of the waiver of the moratorium and at the same time each following year. The report shall contain the following information current for each reporting period:

(1) Any changes in the State laws or regulations;

(2) Any new data on the marine mammal stocks or the marine ecosystems in question;

(3) All available information relating to harvests under the terms of a waiver;

(4) A summary of all research activity on the stocks or ecosystem affected by a waiver;

(5) Any changes in the information provided with the original request for approval;

(6) A summary of all enforcement activity, including permits issued, skins sealed, reports under permits, investigations undertaken and their dispositions;

(7) Present budget and staffing level for the marine mammal activities; and

(8) Any other information which the Director may request, or which the State deems necessary or advisable.

(c) Each State having approved laws and regulations shall file a special report within 30 days, whenever any of the following occurs:

(1) A proposed change in a relevant State law or regulation (amendments, repealers, or new legislation or regulations), which, with the exception of emergency closing of seasons, shall not be effective until the Director makes a determination pursuant to paragraphs (e) through (g) of this section; or

(2) A significant natural or man-made occurrence affecting the marine ecosystem or the stocks of marine mammals; or

(3) A significant violation of the State management program including any quotas established thereby.

(d) All State laws and regulations and the conservation programs established thereby, as well as annual reports submitted under paragraph (b) and special reports submitted under paragraph (c) of this section, shall be available for inspection and copying at the Office of the Director, National Marine Fisheries Service, 3300 Whitehaven Street NW., Washington, D.C. 20235.

(e) Upon receipt of any report described in paragraphs (b) and (c) of this section, the Director shall, as soon as practicable, in consultation with the Marine Mammal Commission, determine preliminarily whether or not the State laws and regulations and any programs established thereby comply with the requirements of the Act and this subpart.

(f) Whenever the Director preliminarily determines, in consultation with the Marine Mammal Commission, that any State laws, regulations or programs established thereby are or are not in compliance with the requirements of this subpart, he shall publish notice of such preliminary determination in the FEDERAL REGISTER, inviting submission from interested persons, within 30 days of the notice, of written data, views, comments, or requests for hearings with respect to such preliminary determination.

(g) As soon as practicable after the 30-day comment period described in § 216.106(f), the Director, in consultation with the Marine Mammal Commission, shall determine whether to finally approve or disapprove the State laws and regulations. The Director's determination shall be made within 90 days after publication of the notice described in § 216.106(f), unless a hearing is held.

(h) If the Director makes a final determination to disapprove proposed changes in State laws and regulations, the State shall have the option of retaining its initially approved laws and regulations, in which case any waiver shall remain in effect. All final determinations of approval or disapproval shall be published in the FEDERAL REGISTER; upon publication of disapproval, unless a State elects within 30 days to retain its originally approved laws and regulations, any waiver conditioned upon approval of State laws and regulations as provided in this subpart shall terminate, and all provisions of the Act shall be reinstated and supersede such State laws and regulations.

§ 216.107 Notification.

The State shall immediately notify the Director when the mortality rate due to retrieved and unretrieved harvest for any species or population stock of marine mammal reaches 90 percent of the numerical extent of the waiver prescribed by subpart I of this part for that species or population stock. The Director shall publish a Notice of Receipt in the FEDERAL REGISTER concerning such notification as soon after receipt as practicable.

§ 216.108 Enforcement.

The appropriate official in each State shall utilize such methods as he deems appropriate to assure to the maximum extent practicable that the quotas, seasons, and other limitations in approved State laws and regulations are not exceeded. These methods may include, but are not limited to, patrols, surveillance, investigation, permit recordkeeping and

reporting requirements, and tagging and marking requirements.

§ 216.109 [Reserved]

2. Section 216.4 is amended by revising paragraph (b) as follows:

§ 216.4 Other laws and regulations.

• • • • • •

(b) *State laws or regulations.* See Subpart H of this part.

• • • • • •

3. The introductory text of § 216.11 is amended as follows:

§ 216.11 Prohibited taking.

Except as otherwise provided in subparts C, D, and I of this Part 216, it is unlawful for:

• • • • • •

PART 240—REGULATED COMMERCIAL FISHERIES

Size Limit for Sea Scallops

At its annual meeting held in Montreal, Canada, June 8–23, 1976, the International Commission for the Northwest Atlantic Fisheries (ICNAF) recommended that member governments implement conservation measures concerning the retention and landing of sea scallops (*Placopecten magellanicus*) in Division 5Z of Subarea 5 of the Convention Area. The Commission further recognized that in order to achieve the purposes and objectives of the Convention, fishing activity in Division 5Z of Subarea 5 for sea scallops must be conducted in accordance with this proposal as soon as possible in 1976. Therefore, the Commission requests member governments whose vessels conduct fishing operations in the area to implement this conservation measure no later than September 1, 1976. In order to effectively implement the recommendation of the Commission, the conservation measures for sea scallops will also apply in Statistical area 6.

Therefore, it is proposed to amend Subpart G—Squid Fisheries and Shellfish, in the present regulations (41 FR 1067), published in the FEDERAL REGISTER January 6, 1976, to incorporate the proposed conservation measures for sea scallops.

It is proposed in § 240.1 to include sea scallops as a regulated species in Subarea 5 and Statistical area 6. It is proposed in § 240.60 to include sea scallops under the definitions. It is proposed in § 240.66 to include the size restriction and level of incidental catch.

The proposed amendments are described below as follows:

1. Add new subdivisions (XIV) in § 240.1(c) (5) and (6) to read as follows:

§ 240.1 Definitions.

• • • • • •

(c) • • •

(5) • • •

(xiv) Sea Scallops (*Placopecten magellanicus*)

(6) • • •

(vii) § Sea Scallops (*Placopecten magellanicus*)

2. Amend § 240.60(b) to read as follows:

§ 240.60 Definitions.

(a) • • •

(b) Regulations of this section apply to all short-finned squid (*Illex illecebrosus*) and long-finned squid (*Loligo pealei*), and sea scallops (*Placopecten magellanicus*) in Subarea 5 and Statistical area 6, taken by persons or fishing vessels subject to the jurisdiction of the United States.

3. Add new § 240.66 size limits to read as follows:

§ 240.66 Size limits.

(a) Size and weight limitations are placed upon the lengths of shells and weights of the meats of sea scallops permitted to be taken or possessed by persons and fishing vessels subject to the jurisdiction of the United States.

(1) The taking or possession of sea scallops of a shell size of less than 95 mm, measured from the hinge to the opposite margin, is prohibited, except as provided in paragraph (3).

(2) The taking or possession of sea scallops having an average weight of meats less than forty (40) meats per pound is prohibited, except as provided in paragraph (3).

(3) A ten (10) percent allowance is permitted for lengths and weights less than those required in paragraphs (1) and (2), to be determined at the time of inspection by random sampling of the imported shipment or of the total amount of sea scallops on board the fishing vessel at sea or at the time of offloading.

These regulations are issued under the authority contained in the Northwest Atlantic Fisheries Act of 1950 (16 U.S.C. 986). Because of the need for immediate guidance with respect to the provisions contained in these regulations and the fact that they relate to a foreign affairs function of the United States under 5 U.S.C. 553(a)(1), it is found unnecessary to issue a notice of proposed rule making under 5 U.S.C. 553(b) or subject these regulations to the effective date limitation of 5 U.S.C. 553(d).

Therefore, under the provisions of 5 U.S.C. 553(d)(3) and 553(b)(3)(B), these regulations are effective on August 31, 1976.

Issued at Washington, D.C., and dated August 27, 1976.

JACK W. GEHRINGER,
Deputy Director,
National Marine Fisheries Service.

Title 12—Banks and Banking

CHAPTER II—FEDERAL RESERVE SYSTEM

SUBCHAPTER A—BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM

[Reg. Z; Docket No. R–0036]

PART 226—TRUTH IN LENDING

Identification of Transactions; Miscellaneous Amendments

On September 19, 1975, the Board published amendments to Regulation Z in the FEDERAL REGISTER setting forth disclosure requirements for identifying transactions reflected on open end credit account periodic statements and for other purposes (40 FR 4320). Subsequently, questions were raised regarding these requirements and on May 18, 1976, the Board published for comment in the FEDERAL REGISTER (41 FR 20421) proposed amendments intended to clarify certain requirements, add flexibility as necessary, and insure that consumers would be able to procure complete information regarding their open end credit accounts quickly and without undue expense.

Comments were received and analyzed during the comment period, which ended June 18. On the basis of those comments and its own analysis the Board has adopted the regulations which follow:

IDENTIFICATION OF TRANSACTIONS

Under these amendments the requirements for identifying transactions on open end credit periods statements are changed in the following ways:

1. To enhance the clarity of the text, a new section 226.7(k) is added to the Regulation. This new section would contain the requirements for identifying transactions. Section 226.7(b)(1)(ii), which formerly contained the identification of transactions requirements, would merely reference § 226.7(k) and require that the disclosures set forth therein be made on or with periodic statements.

2. As adopted in the September 19 publication, the Regulation required the creditor to provide a reference number or identifying symbol (such as a sales voucher number) which appears on the document evidencing the transaction in those cases in which the primarily required information is not available. Because of questions that were raised regarding the usefulness of the number or symbol to the consumer and regarding the cost to creditors of instituting a capability to capture the number or symbol for potential use in all transactions when it may, in fact, be needed for only a few, the Board proposed in its May 18 publication to permit a creditor to provide an identifying number or symbol when any of the primarily required information is not available or, alternatively, to permit the creditor to disclose only that information which is available and treat any inquiry regarding the description or identification of the transaction as a billing error and an erroneous billing subject to the provisions of § 226.14. Further, under the proposal of May 18, the creditor would have been required to provide documentary evidence of the transaction without charge. These alternatives were to be available to those creditors that have procedures in place adapted to provide the primarily required information.

As finally adopted herein a creditor may not supply merely a voucher number when, despite the maintenance of procedures reasonably adapted to procure the primarily required information, the creditor fails to obtain it. In such cases these amendments require the creditor to treat any inquiry as a billing error and an erroneous billing and, unless previously furnished with a periodic statement, provide copies of documentary evidence of the transaction free of charge. Providing an identifying number or symbol would, of course, be permissible. Further, creditors that use "descriptive" billing systems are required to substitute the date of debiting the amount of a transaction to the account for the primarily required date whenever the primarily required date is not available and treat any inquiry regarding the absence of the date as a billing error and an erroneous billing under the procedures discussed previously herein. Previously, the regulations and proposals for comment had required that the identifying number or symbol be substituted whenever the primarily required date was not available. It seems that the debiting date is a more useful substitute for the primarily required date.

This addition to the Regulation is designed to provide an alternative to the requirement that an identifying number or symbol be provided in all cases when the primarily required information is not available. It is designed to insure a better and more complete description to the customer without financial disadvantage, to provide creditors with an alternative to the costly requirement of developing the additional capability to provide a voucher number for all transactions when their systems are designed to provide the primary information, and to supply an incentive for the creditor to provide a complete description in the first instance. As noted above, under this alternative the creditor remains obligated to maintain procedures reasonably adapted to procure the primarily required information.

3. In the May 18 proposal, the Board asked for comment regarding difficulties, and possible solutions to those difficulties, which creditors may have regarding describing property or services purchased in transactions at merchant establishments which sell a single homogenous line of merchandise or which use a central checkout facility. A significant proportion of the comments received addressed this issue, pointing out that in these two-party situations it is often inconvenient to the customer and burdensome and time consuming to the creditor to itemize the property or services purchased in such transactions. The regulation is, therefore, amended herein to provide that a two-party creditor may freely substitute a voucher number or other identifying symbol which appears on the document evidencing the transaction for the description of property or services. However, if this alternative is used customer inquiries must be treated as billing errors and erroneous billings under § 226.14 and, if a proper written notification of a billing error is received regarding the description of the goods or services, the creditor must provide the customer with documentary evidence of the transaction. This is meant to be a generally available alternative which a creditor may use to program its billing system in the first instance.

This alternative will allow the creditor to evaluate and make its own market judgment as to whether to provide the more complete description and avoid, to a large extent, the billing error resolution process which may otherwise result from using a voucher number system or, alternatively, to institute the voucher number system and face the potential expense of answering the inquiries which may be engendered thereby. This solution to the problem was suggested in some of the comments. As discussed further in a later paragraph herein, a transition period is provided to enable creditors to design systems which will comply with the ultimate requirements of the Act of the Regulation by October 28, 1977. During this transition period some experience may be gained using the voucher number alternative and, to the extent that it may be representative, may aid creditors in determining whether this type of system should be used.

4. This amendment provides an alternative similar to that discussed in paragraph 2 for the transition period which lasts until October 28, 1977, provided to enable creditors to adjust forms, procedures, and computer programs. During the transition phase these amendments allow the creditor to provide that information which is available while requiring that any inquiry regarding the identification of the transaction be treated as a billing error and as an erroneous billing when the primarily required information is not available. The amendments also retain the alternative of supplying the identifying number or symbol when primarily required information regarding the merchant's name and address or description of property or services is not available during the transition period. Further, during the transition period the date of debiting an amount to the account may be substituted for the otherwise required dates.

The language regarding the transition period for compliance, which ends October 28, 1977, has been changed from the September 19 publication in two respects. First, the language has been changed to further clarify the fact that the alternatives provided in the section are generally available and that creditors do not need to institute procedures reasonably adapted to procure the information which will be required to be disclosed after October 28, 1977, during this transition phase.

Second, because of the importance and complexities of the issues involved and the need for interested parties to fully evaluate the requirements of this regulation, the Board has extended the beginning date of the second transition period toward compliance with the ultimate requirements of the regulation to October 28, 1976. The Board believes this to be adequate time, given the earlier rulemaking proceedings on this subject, for interested parties to adapt their procedures to the rule. Because of the need for this added transition period as reflected by the issues raised by the comments, the Board herein rescinds its earlier suspension of the transition period. No requirements other than those embodied in earlier rulemaking proceedings have been imposed during the transition periods.

5. These amendments provide guidance regarding the disclosure of an address for certain types of three-party transactions which are not encompassed within the usual scenario of a purchase made at a fixed seller location. Recognizing that it is often problematic to assign one address or designation which is helpful to customers in all situations (for example, with a transaction that occurs by telephone, mail order, in the customer's home, or at a nonfixed location, such as aboard a public conveyance), the amendments provide some flexibility. They permit the creditor to (a) omit the address in cases where supplying an address would, in itself, be misleading, or (b) supply an address or appropriate designation (such as "mail order"), which, in the creditors opinion, is helpful in identifying the transaction or relating the transaction to a document previously furnished. Use of the disclosure provisions of this paragraph should not be for the purpose of evading or circumventing the Act or Regulation, however.

6. Guidance for disclosing the seller's name for three-party transactions is provided. Previously, the creditor was required to disclose a seller's name which appeared on the sales voucher. The May 18 publication provided that if the name on the voucher was alphabetically abbreviated a more complete spelling could be provided. It further provided that if the name was encoded on the sales voucher in a manner not understandable to customers the encoded symbol and a more complete spelling of the seller's name must be provided on or with the periodic statement. This provision was designed to provide certainty in the method of disclosure and to provide a description which a customer can verify and understand.

Some creditors commented that the regulation needed more flexibility in this respect and that they should be permitted to provide a seller's name other than by reference to what appears on the sales voucher. The regulation as finally adopted provides that disclosure of a seller's name which appears on the sales voucher (or a more complete spelling of such a name if it has been alphabetically abbreviated) is adequate. However, the regulation no longer *requires* that this be the name disclosed. Other names may be

V 41 170
AUG 31 76
UMI

adequate for these purposes as well. The regulation, therefore, provides the certainty that some creditor desire and the flexibility others feel they need.

7. Footnote 9b (footnote 7c as it appeared in the September 19 amendments) has been positioned within the regulation to indicate that all references to "the same person or related persons" in § 226.7(k) are governed by the guidelines set forth in that footnote.

8. Section 226.7(k)(1) regarding "country club" billing has been changed from the May 18 publication by the addition of the words "at the creditor's option" immediately preceding the words "either the date of the transaction or the date the transaction is debited to the customer's account." This is intended to allow "country club" billers to program their systems and to choose between providing the date of transaction or the date of the debiting. Whichever method they choose for any particular types of transactions should be consistent. Should the date which they choose to disclose be unavailable despite procedures instituted to capture that date, the alternative to treat the absence of the information as a billing error and an erroneous billing, as discussed earlier, would be available to them.

9. Recognizing the difficulties of procuring the primarily required information for transactions in foreign countries, the amendment (a) allows the creditor to disclose the date on which the amount of the transaction is debited to the customer's account instead of any other required date and (b) use the error resolution procedure discussed in paragraph (2) in all cases without the obligation to maintain the procedures adapted to procure the information in every instance. This provision is meant to be permissive and a creditor may, of course, disregard it and fully comply with the requirements otherwise imposed by § 226.7(k).

10. The wording in § 226.7(k)(4)(ii) requiring that the creditor maintain procedures reasonably adapted to obtain the primarily required information has been changed from the May 18 proposal by substituting the words "received by" for the words "transmitted to." This is meant to clarify that the alternatives provided in § 226.7(k)(4)(i) are available to two-party as well as three-party creditors. The point was raised in the comments that there is no "transmittal," as such, of the sales voucher to the creditor in a two-party system. No change in the meaning of the Regulation is intended by this change in the wording.

MISCELLANEOUS AMENDMENTS

The miscellaneous amendments as proposed in the May 18 publication are herein adopted.

1. The proposal amends § 226.7(b)(1)(iii) to provide that the date of crediting a payment or credit to the customer's account need not be disclosed in those situations where the failure to credit on any particular day will not result in the imposition of any finance charges or other charges upon the customer. This amendment is adopted in the belief that such a disclosure is of little of no value or economic concern to the consumer but does impose a substantial cost upon creditors to make the necessary changeover for their billing systems if they have not provided such a date heretofore. The requirement that payments to a customer's account be credited promptly, however, are not changed or suspended.

2. The amendment to § 226.7(c)(1) is intended to clarify the Board's intent in its publication of September 19, 1975. The language of § 226.7(c)(1) permits certain information to be disclosed other than on the face of the periodic statement provided that the totals of the respective debits and credits under each of the paragraphs referenced therein are disclosed on the face of the periodic statement. Concern has been expressed that the section, as amended by the September 19 publication, required disclosure of the total of all purchases or other loan transactions and finance charges on the face of the periodic statement. This was not the Board's intent.

3. The amendment to § 226.13(i) adds a footnote to paragraph 4 specifically permitting a creditor to report disputed amounts under § 226.13(i) as "in dispute" but not as "delinquent." This is consistent with the treatment of credit reports under § 226.14 and avoids the implication that creditors must have a dual credit reporting system which would have to reflect the different kinds of disputes that may be raised.

In consideration of the foregoing and pursuant to the authority granted in 15 U.S.C. § 1604 (1970) the Board amends Regulation Z, 12 C.F.R. Part 226 as follows:

1. To fully implement § 411, Title IV, Pub. L. 93-495, § 226.7(b)(1)(ii) will provide, and a new § 226.7(k) will be added, as follows:

§ 226.7 Open End Credit Accounts—Specific Disclosures.

* * * * *

(b) Periodic statements required (1) * * *

* * * * *

(ii) The information required by § 226.7(k)

* * * * *

(k) *Identification of transactions.* (1) Each extension of credit for which an actual copy of the document evidencing the credit transaction (which does not include a so-called "facsimile draft") accompanies the periodic statement on which the transaction is first reflected shall be identified by disclosing on the periodic statement, or on accompanying statement(s) or document(s), the amount of the transaction and, at the creditor's option, either the date of the transaction or the date the transaction is debited to the customer's account.

(2) Each extension of credit for which an actual copy of the document evidencing the credit transaction does not accompany the periodic statement shall be identified by disclosing on or with the periodic statement on which that credit transaction is first reflected at least:

(i) For transactions in which the creditor and the seller are the same person or related persons,[9b] the amount of the transaction, the date on which the transaction took place,[9c] and a brief identification[9d] of any property or services purchased or an identifying number or symbol reasonably unique for that transaction with that creditor which appears on the document evidencing the transaction given to the customer; provided, that, if the creditor discloses such an identifying number or symbol, the absence of the identification of the property or services otherwise required must be treated as a billing error under §§ 226.2(j) and 226.14 and as an erroneous billing under § 226.14(b) if the customer submits a proper written notice of a billing error relating to such absence, and the creditor must provide documentary evidence of the transaction to the customer free of charge whether or not the customer requests it.

(ii) For transactions in which the seller and the creditor are not the same person or related persons, the amount of the transaction, the date on which the transaction took place, and the seller's name and the address (city and State or foreign country, using understandable and generally accepted abbreviations if the creditor desires) where the transaction took place.

(3) Notwithstanding the provisions of §§ 226.7(k)(1) and 226.7(k)(2), transactions involving nonsale credit, such as a cash advance or an overdraft or other checking plan transactions, shall be identified on or with the periodic statement upon which the transaction is first reflected by providing at least:

(i) An actual copy of the document evidencing the transaction which shows the amount of the transaction and either the date of the transaction, the date the transaction was debited to the customer's account, or the date placed on the document or instrument by the customer (if the customer signed the document or instrument); or

(ii) A description of the transaction, which characterizes it as a cash advance, loan, overdraft loan, or other designation as appropriate, and which includes the amount of the transaction and the date of the transaction[9e] or the date which appears on the document or instrument evidencing the transaction (if the customer signed the document or instrument).

(4) If, despite the maintenance of procedures reasonably adapted to procure the information required by §§ 226.7(k)(1), (2) and (3) such information is unavailable to the creditor, the date of debitign the amount to the account shall be substituted for the date otherwise required (except that the date of debiting need not be provided if an actual copy of the document evidencing the transaction is provided with the periodic statement) and the creditor shall disclose as much of the other required information as is available and omit any information which is not available, provided, that, if the customer submits a proper written notification of a billing error relating to the absence of the primarily required date or other information, such absence shall be treated as a billing error under §§ 226.2(j) and 226.14 and as an erroneous billing under § 226.14(b) and, unless previously furnished with a periodic statement, documentary evidence of the transaction must be furnished whether or not the customer requests it, with in the time period allowed in § 226.14 for resolution of a billing error, without charge to the customer.

(5) In any case in which a transaction occurs other than in a State:

(i) The creditor may disclose the date of debiting the amount of the transaction to the open end credit account in place of any other date required elsewhere in § 226.7(k); and

(ii) The provisions of § 226.7(k)(4) shall apply and the creditor need not maintain procedures reasonably adapted to procure the information otherwise required by § 226.7(k).

(6) In complying with the disclosure requirements § 226.7(k)(1), (2), (3), or (4):

(i) The creditor may rely upon and disclose the information supplied by the seller with respect to the date and amount of transactions for which the creditor and the seller are not the same person or related persons.

(ii) With regard to disclosing the seller's address where the transaction took place for purposes of § 226.7(k)(2)(ii), the creditor may omit the address or provide an address or other suitable designation which, in the creditor's opinion, will assist the customer in identifying the transaction or in relating the transaction, as reflected, to a document(s) evidencing the transaction previously furnished when no meaningful address is readily available because the transaction took place at a location which is not fixed (for example, aboard a public conveyance), or in the customer's home (in which case "customer's home" or a similar description is sufficient) or because the transaction was the result of a mail or telephone order (in which case "telephone order," "mail order," or similar description is sufficient); provided that any such disclosure made or omitted shall not be for the purpose of circumvention or evasion of this Part.

(iii) With regard to disclosing the seller's name for purposes of § 226.7(k)(2)(ii), disclosure of a seller's name which appears on the document evidencing the transaction (or a more complete spelling of such a name if the name is alphabetically abbreviated on the document evidencing the transaction) is sufficient for purposes of § 226.7(k)(2)(ii).

(7)(i) As an alternative to the provisions of §§ 226.7(k)(1) through 226.7(k)(5), from October 28, 1976, until October 28, 1977: (A) the creditor may disclose the date of debiting the amount of the transaction to the customer's account for the date of the transaction or the date placed on the document evidencing a credit transaction if, due to operational limitations, either such date is unavailable to the creditor for purposes of billing; and the creditor may disclose an identifying number or symbol which appears on the document evidencing the credit transaction given to or used by the customer at the time of or in connection with the credit transaction in place of the seller's name and address or description of the property or services purchased if, due to operational limitations, such information is unavailable to the creditor for purposes of billing; or (B) the creditor may identify the transaction by disclosing such information as is reasonably available and treating the absence of the information required by §§ 226.7(k)(1), (2), or (3), as applicable, as a billing error, as provided in §§ 226.2(j) and 226.14. If a customer submits a proper written notification of a billing error relating to the absence of such information and the information was, in fact, not disclosed as required by §§ 226.7(k)(1), (2), or (3), as applicable, the transaction shall be treated as an erroneous billing under § 226.14(b) and documentary evidence of the transaction must be furnished whether or not the customer requests it (despite the provisions of §§ 226.2(j) and 226.14(a)(2)), within the time period allowed in § 226.14 for resolution of a billing error, without charge to the customer.

(ii) The effective date of §§ 226.7(k)(1) through 226.7(k)(7)(i), inclusive, is October 28, 1976. Until October 28, 1976, the creditor shall disclose the date of each extension of credit or the date such extension of credit is debited to the account during the billing cycle, the amount of such extension of credit and, unless previously furnished, a brief identification[9f] of any goods or services purchased or the extension of credit.

2. Section 226.7(b)(1)(iii) is amended by the deletion of the period at the end thereof and the addition of the following: ", except that the date of crediting to the customer's account need not be provided if a delay in crediting does not result in the imposition of any finance charges, late payment charges, or other charges for that billing cycle or a later billing cycle."

3. Section 226.7(c)(1) is amended to read:

(c) * * *

(1) The information required to be disclosed under paragraph (b)(1)(ii) of this section and itemization of the amounts and dates required to be disclosed under paragraph (b)(1)(iii) of this section and of the amount of any finance charge required to be disclosed under paragraph (b)(1)(iv) of this section may be made on the reverse side of the periodic statement or on a separate accompanying statement(s), provided that the totals of the respective debits and credits under each of those paragraphs are disclosed on the face of the periodic statement.

4. Section 226.13(i)(4) is amended to add a footnote as follows:

§ 226.13 *Credit Card Transactions—Special Requirements.*

* * * * *

(i) Right of cardholder to assert claims or defenses against card issuer. * * *

(4) If the cardholder refuses to pay the amount of credit outstanding with respect to the property or services which gave rise to the claim(s) or defense(s) under this section, the creditor may not report to any person that particular amount as delinquent until the dispute is settled or judgment is rendered.[9g]

5. Section 226.7(b)(1)(ii), as adopted by the Board on September 15, 1975, and published in the FEDERAL REGISTER on September 19, 1975 (40 FR 43200) is hereby rescinded. The suspension of the effective date of the transition period as adopted by the Board on May 7, 1976, and published in the FEDERAL REGISTER on May 18, 1976 (41 FR 20395) is hereby rescinded.

By order of the Board of Governors, August 27, 1976.

THEODORE E. ALLISON,
Secretary of the Board.

[FR Doc.76-25704 Filed 8-30-76;12:19 pm]

[9b] For purposes of paragraph 226.7(k) a person is not related to the creditor simply because the person and the creditor have an agreement or contract pursuant to which the person is authorized to honor the creditor's credit card under the terms specified in the agreement or contract. Franchised or licensed sellers of a creditor's product shall be considered to be related to the creditor for purposes of paragraph 226.7(k). Sellers who assign or sell open end customer sales accounts to a creditor or arrange for such credit under an open end credit plan which allows the customer to use the credit only in transactions with that seller shall be considered related to the creditor for purposes of § 226.7(k).

[9c] With respect to transactions which are not billed in full on any single statement but for which precomputed instalments are billed periodically, the date the transaction takes place for purposes of paragraph § 226.7(k) shall be deemed to be the date on which the amount is debited to the customer's account.

[9d] For purposes of paragraph § 226.7(k), designations such as "merchandise" or "miscellaneous" shall not be considered sufficient identification of property or services, but a reference to a department in a sales establishment which accurately conveys the identification of the type(s) of property or services which are available in such department shall be sufficient under this paragraph. Identification may be made on an accompanying slip or by symbol relating to an identification list printed on the statement.

[9e] In cases in which an amount is debited to a customer's open end credit account under an overdraft checking plan, the date of debiting the open end credit account shall be considered the date of the transaction for purposes of this paragraph.

[9f] Identification may be made on an accompanying slip or by symbol relating to an identification list printed on the statement.

[9g] Nothing in this paragraph prohibits a creditor from reporting the disputed amount or account as being in dispute.

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF DEFENSE

Department of the Navy

[32 CFR Part 754]

NAVY AFFIRMATIVE SALVAGE CLAIMS

Proposed Miscellaneous Amendments

In accordance with public-participation procedures prescribed for the the Department of Defense in 32 CFR Part 296 (40 FR 4911), notice is hereby given that the Department of the Navy proposes to amend 32 CFR Part 754 pursuant to the authority conferred under 5 U.S.C. 301, 10 U.S.C. 5031 and 7361–7367. Part 754 is based upon an enclosure to a Naval Ships Systems Command Instruction [Enclosure (1) to NAVSHIPS Instruction 4740.4C]. This instruction will be revised by a proposed Naval Sea Systems Command Instruction (NAVSEA Instruction) and these amendments to Part 754 represent the proposed changes to the codified enclosure. The proposed amendments to Part 754 are as follows:

Section 754.1 will reflect the change in the name of the systems command from Naval Ships Systems Command to Naval Sea Systems Command, and the new address for the Assistant Supervisor of Salvage.

Section 754.2 will include the proposed increased per diem rates for salvage services and reflect the Department of the Navy's salvage policy and some changes in nomenclature and wording.

Section 754.3 will reflect the procedures for leasing of Navy salvage and oil pollution abatement equipment that are referred to in the proposed NAVSEA Instruction and are contained in Secretary of the Navy Instruction 4740.1 of August 15, 1975.

Interested persons are invited to participate in the formulation of the proposed amendments by submitting written data, views, comments, and arguments to the Judge Advocate General (Code 133), Navy Department, Washington, DC 20370. All written material received on or before September 30, 1976, will be considered before taking action on the proposed amendments and the proposed amendments may be changed in light of comments received. All comments received in response to these proposed amendments will be available for public inspection during normal business hours at the Law Library of the Office of the Judge Advocate General, room 2527, Navy Arlington Annex (Federal Office Building No. 2), Southgate Road and Columbia Pike, Arlington, Virginia.

These amendments are proposed under the authority of 5 U.S.C. 301; 10 U.S.C. 5031, and 7361–7367.

Accordingly, it is proposed to amend Part 754 of 32 CFR as follows:

1. In the table of contents, the fourth line is changed from "754.3 Per diem for salvage equipment rental." to "754.3 Leasing of Navy salvage and oil pollution abatement equipment."

2. The authority citations are amended to read as follows:

AUTHORITY: 5 U.S.C. 301; 10 U.S.C. 2667, 5031, and 7361–7367.

3. Section 754.1 is revised to read as follows:

§ 754.1 Settlement of Navy affirmative salvage claims.

(a) *Authority.* Under 10 U.S.C. 7365, the Secretary of the Navy, or his designee, may consider, ascertain, adjust, determine, compromise, or settle and receive payment of any claim by the United States for salvage services rendered by the Department of the Navy.

(b) *Delegation of authority.* Each of the following has been designated by the Secretary of the Navy to exercise the authority contained in 10 U.S.C. 7365:

(1) The Commander, Naval Sea Systems Command, Department of the Navy.

(2) The Supervisor of Salvage, Naval Sea Systems Command, Department of Navy.

(3) The Assistant Supervisor of Salvage, Naval Sea Systems Command, Department of the Navy, Room 1313, Federal Office Building, 90 Church Street, New York, New York 10007.

4. In § 754.2, paragraphs (a) and (e) are revised and a new paragraph (g) is added to read as follows:

§ 754.2 Per diem rates for salvage services.

(a) Effective (date of adoption), 1976, and subject to the rules set forth in paragraphs (b) through (g) of this section, the following vessel and deep dive system rates per day of 24 hours or part thereof have been established for salvage services rendered by the Department of the Navy:

(1) *Ships and Tugs:*

Salvage ships (ARS, ATS)	$7,000
Fleet tugs (ATF)	6,000
Large tugs (YTB)	4,000
Medium tugs (YTM)	3,000
Small tugs (YTL)	2,000

Rates for other types of ships used for search, communications, control, and the like will be established on a case by case basis, with consideration being given to their special features as required for the particular operation.

(2) *Harbor clearance craft:* Rates for harbor clearance craft, pulling barges, diving boats and barges, launches, and support equipment in general will be specified on a case by case basis.

(3) *Deep dive systems:* Deep Dive Systems (DDS) used in search and salvage work will be charged at the following rates per day or any portion thereof:

Mark I DDS (2-man)	$5,000
Mark II DDS (4-man)	7,000

Ship time in support of Deep Dive Systems will be charged as above. Bottom habitats, submersible vehicles, special surface navigation systems, and underwater search and navigation systems will be charged at rates to be determined on a case by case basis.

(4) *Supernumerary personnel.* The rates in paragraph (a) (1) of this section for ships and tugs include charges for their normal crews. Additional personnel such as Salvage Masters, Lift Masters, Harbor Clearance Team members, and extra diving crews will be charged for at rates established in the Navy Comptroller Manual and based on normal military pay scales. Per diem and travel expenses will be charged at cost.

* * * * *

(e) The extent of the salvage services rendered by naval activities in any given case will, of necessity, be governed by the magnitude of the salvage effort required and the problems encountered, and the availability of Navy salvage assets. Accordingly, the nature and amount of salvage equipment and other naval equipment, supplies, and materials will vary in each case. In addition, the number of naval personnel, both military and civilian (Civil Service), and their required specialized skills will also vary in each case. For these reasons it is not feasible to detail in this section the rates, costs, or charges for each item of naval equipment, material, supplies or personnel, that may be utilized in any given salvage operation. It is the policy of the Supervisor of Salvage to utilize the Navy Comptroller Manual (NAVSO P–1000) as the basis for determining the costs and charges for naval equipment for which there are no published rates established by this section or previously determined by the Supervisor of Salvage. The Navy Comptroller Manual also provides a basis for computing statistical charges where salvage services are rendered on in-house Navy salvage operations, and to Military Sealift Command, Maritime Administration, and other non-Navy public vessels and aircraft. However, in determining the costs and charges for equipment, supplies, materials, and personnel, the Supervisor of Salvage refers to the Navy Comptroller Manual for guidance only; he is not required to adhere to the rates set forth therein.

* * * * *

(g) The statutory authority of the Secretary of the Navy to provide salvage facilities for private vessels and to settle claims arising from such activity appears in 10 U.S.C. 7361–7367. This authority does not obligate the United States or the Department of the Navy to maintain salvage facilities in excess of its own needs nor to render salvage assistance on all occasions. The policy of the Department of the Navy, however, is to assist in the salvage of private commercial ships when such assistance is required and requested and where adequate privately owned salvage facilities do not exist or are not readily available.

5. Section 754.3 is revised to read as follows:

§ 754.3 Leasing of Navy salvage and oil pollution abatement equipment.

(a) *Purpose.* To delegate the authority for the lease of Navy salvage equipment and oil pollution abatement equipment under control of the Department of the Navy to private salvage companies and to establish policy governing such leases.

(b) *Background.* (1) 10 U.S.C. 7362 authorizes the Secretary of the Navy to charter, lease, or otherwise transfer to private salvage companies salvage equipment to be used to support organized offshore salvage facilities for periods of time that the Secretary considers appropriate. The phrase "offshore salvage" concerns situations involving refloating stranded or sunken ships in exposed locations along the coasts, or on reefs or islands. Leases under the authority of 10 U.S.C. 7362 may involve salvage equipment only.

(2) 10 U.S.C. 2667 authorizes the Secretary of a military department whenever he considers it advantageous to the United States to lease personal property upon such terms as he considers will promote the national defense or be in the public interest. For the purposes of this section, leases under the authority of 10 U.S.C. 2667 may involve both Navy salvage equipment and oil pollution abatement equipment.

(c) *Policies.* (1) Prior to negotiation of a lease pursuant to the authority of 10 U.S.C. 2667 or 7362 it must be determined that:

(i) The equipment is not needed for public use during the period of the lease;

(ii) The proposed lease should not render the property unsuitable for future military use;

(iii) The equipment is not "excess property" as defined by 4 U.S.C. 472;

(iv) The equipment or comparable equipment is not otherwise reasonably available from commercial sources.

(2) The term of any lease entered into pursuant to this section shall not exceed two years.

(3) Leases entered into pursuant to the authority of 10 U.S.C. 2667 require a determination that the lease will be advantageous to the United States and will promote the national defense or be in the public interest. The Secretary determines that such a finding has been made if one or more of the following situations is found to exist:

(i) The presence of a petroleum product or other hazardous substance in United States waters causes by any means which present an imminent danger to human life or property, public health, or the natural environment;

(ii) The grounding, standing, or sinking of any vessel in United States navigable waters or contiguous zones thereof which presents a danger to others, inhibits commerce, or poses an inconvenience to other vessels proceeding in the area;

(iii) The grounding, stranding, or sinking of any vessel which may present the danger of an oil spill of the character referred to in paragraph (c) (3) (i) of this section;

(iv) A situation in other than United States waters involving the grounding, stranding, or sinking of any vessel or the spillage of a petroleum product or other hazardous substance presenting an imminent danger to life, property, or the natural environment where

(A) A United States flag ship or other commercial vessel owned or operated by public or private U.S. interests is involved;

(B) United States treaty obligations require or permit such aid;

(C) The lease of Navy equipment would result in substantial good will being generated towards the United States;

(D) The situation might result in an international incident involving potential adverse consequences to the United States.

(4) Leases executed pursuant to this section shall contain comprehensive indemnification and hold harmless provisions whereby users of Navy salvage equipment or oil pollution abatement equipment shall assume liability, including liability for loss of or damage to the equipment, and for third-party bodily injury and property damage.

(5) The proposed lessee must stipulate in writing that comparable equipment is not reasonably available from commercial sources.

(d) *Lease.* (1) Leases entered into pursuant to the authority of 10 U.S.C. 2667 or 7362 shall contain the following provisions:

(i) A description of the specific commercial salvage operation or pollution incident in which the equipment may be used.

(ii) A stipulation that the equipment may be utilized only in accordance with its designed operational purpose.

(iii) A provision requiring the lessee to maintain, protect, and preserve the equipment in accordance with the best commercial practices.

(iv) A provision permitting the Government to revoke the lease at any time, unless the Secretary shall have determined that the omission of such a provision will promote the national defense or be in the public interest.

(v) A right in the Government to revoke the lease during national emergency declared by the President.

(vi) A provision prohibiting the lease from entering into a sublease without the prior written approval of the Supervisor of Salvage, Naval Sea Systems Command.

(2) In addition to the foregoing terms and conditions:

(i) A lease covering the use of salvage equipment under the authority of 10 U.S.C. 7362 shall provide that the equipment will be used to support offshore salvage facilities for the term of the lease or for such lesser period as the Supervisor of Salvage, Naval Sea Systems Command, considers appropriate.

(ii) A lease of salvage equipment or oil pollution abatement equipment under the authority of 10 U.S.C. 2667 shall provide that, if and to the extent that the leased property is later made taxable by state or local governments under an act of Congress, the lease shall be renegotiated.

(e) *Rates.* (1) Fair market value of the equipment to be leased shall be charged in accordance with Department of Defense Instruction 7230.7.

(2) With respect to salvage equipment leased pursuant to 10 U.S.C. 7362:

(i) Rental rates set forth in § 754.2 shall be used where applicable.

(ii) Money rental received shall be credited to appropriations for maintaining salvage facilities by the Department of the Navy. However, if the amount received in any year exceeds the cost incurred by the Navy during that year in giving and maintaining salvage services, the excess shall be covered into the Treasury.

(3) With respect to salvage equipment or oil pollution abatement equipment leased pursuant to 10 U.S.C. 2667:

(i) The lease may provide for the maintenance, protection, repair, or restoration by the lessee of the equipment leased as part or all of the consideration for the lease.

(ii) Money rentals received directly from the lease shall be covered into the Treasury as miscellaneous receipts.

(iii) Payment for utilities or services furnished to the lessee under the lease by the Government may be covered into the Treasury to the credit of the appropriation from which the cost of furnishing them was paid.

(f) *Delegation.* (1) The Supervisor of Salvage, Naval Sea Systems Command, is authorized to take all necessary action in accordance with this section to grant, execute, amend, administer, and terminate leases of Navy salvage equipment and oil pollution abatement equipment to private salvage companies. The authority delegated herein will be exercised under the direction of the Chief of Naval Operations, the Chief of Naval Material, and the Commander, Naval Sea Systems Command.

(2) Proposed leases of salvage equipment or oil pollution abatement equipment under paragraph (c) (3) (iv) (C) and (D) of this Section or in situations that are of obvious sensitivity or that may be of Secretarial interest should be reported to the Assistant Secretary of the Navy (Installations and Logistics).

(g) *Maintenance of records.* The Supervisor of Salvage, Naval Sea Systems Command, will maintain a record system from which management information regarding leases executed pursuant to this

V 41 170 AUG 31 76 UMI

section may be compiled and furnished, when required.

JOHN S. JENKINS,
Captain, JAGC, U.S. Navy, Assistant Judge Advocate General Civil Law).

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 1002]

[Docket No. AO-71-A72]

MILK IN THE NEW YORK-NEW JERSEY MARKETING AREA

Hearing on Proposed Amendments to Tentative Marketing Agreement and Order

Notice is hereby given of a public hearing to be held in the Conference Room of the Market Administrator's Office, 205 East 42nd Street, New York, New York beginning at 10:00 a.m. on September 16, 1976. with respect to proposed amendments to the tentative marketing agreement and to the order, regulating the handling of milk in the New York-New Jersey marketing area.

The hearing is called pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900).

The purpose of the hearing is to receive evidence with respect to the economic and marketing conditions which relate to the proposed amendments, hereinafter set forth, and any appropriate modifications thereof, to the tentative marketing agreement and to the order.

The proposed amendments, set forth below, have not received the approval of the Secretary of Agriculture.

Proposed by: Eastern Milk Producers Cooperative Association, Inc., Allied Federated Co-ops, Inc., Amsterdam-Fort Hunter Dairy Cooperative, Inc., Fly Creek Valley Cooperative, Inc., Preble Milk Cooperative Association, Inc., and Sussex County Cooperative Milk Producers Association.

PROPOSAL No. 1

In § 1002.50a, amend the introductory language and paragraph (a) to read as follows:

§ 1002.50a Class prices.

For pool milk received during each month from dairy farmers or cooperative associations of producers, each handler shall pay per hundredweight not less than the prices set forth in this section, subject to the differentials and adjustments in §§ 1002.51 and 1002.81. Any handler who purchases or receives milk during the month from a cooperative association of producers which is also a handler shall pay such cooperative association as follows: For milk received during the first 15 days of the month, payment shall be made on or before the 5th day of the following month, at a rate per hundredweight not less than the Class II price for the preceding month, without adjustment pursuant to §§ 1002.80(b), 1002.81 and 1002.82. Final payment shall be made not later than the 16th day of the following month at the minimum class prices pursuant to this section, subject to only the following adjustments: partial payments made pursuant to subparagraph (1) of this paragraph; for receipts from a cooperative association handler which does not operate the plant or unit receiving the milk from producers, the differentials and adjustments set forth in §§ 1002.51, 1002.81, and 1002.82(b) applicable at the location where the milk is received from producers; and for receipts from a cooperative association handler which also operates the plant or the unit receiving the milk from producers, the differentials and adjustments set forth in §§ 1002.51, 1002.81, and 1002.82(b) applicable at the plant at which the milk first is received.

(a) For Class I-A milk the price shall be the basic formula price for the second preceding month plus $2.40.

* * * * *

PROPOSAL No. 2

Amend § 1002.80 by adding new paragraphs (a) and (b) and redesignating existing paragraphs (a) through (d) as (c) through (f). New paragraphs (a) and (b) would read as follows:

§ 1002.80 Time and rate of payment.

(a) Each handler shall make payment, pursuant to paragraphs (a) through (f) of this section, to each producer for all pool milk delivered by such producer as follows:

(1) On or before the 7th day of the month, not less than the amount determined by multiplying the pounds of milk received from such producer during the first 15 days of the preceding month by the Class II price for the second preceding month, without adjustment pursuant to paragraph (b) of this section, or §§ 1002.81 and 1002.82.

(2) On or before the 22nd day of the month, not less than the amounts determined by multiplying the pounds of milk received from such producer during the preceding month by the uniform price, subject to appropriate differentials set forth in §§ 1002.81 and 1002.82 minus the amount of the payment made to the producer pursuant to paragraph (a)(1) of this Section.

(b) For milk received in a bulk tank unit, there may be deducted from the payments pursuant to paragraph (a)(2) of this section, as proper and as authorized in writing by the producer, or by a cooperative association authorized to act on behalf of such producer, a tank truck service (transportation) charge up to ten cents per hundredweight, in no event to exceed in the case of Class II milk on which a transportation credit is applicable pursuant to § 1002.55, actual transportation costs in excess of ten cents and otherwise actual transportation costs in either circumstance only to the extent transportation was actually provided by the handler or at his expense. Any such deduction with respect to bulk tank milk must be made by the handler not later than the date on which the producer is required to be paid for the milk involved. If authorization for such deduction is cancelled by the producer or by the cooperative by notifying the handler in writing, such cancellation shall be effective on the first day of the month following its receipt by the handler.

* * * * *

Proposed by Northeast Dairy Cooperative Federation, Inc., and Dairylea Cooperative, Inc.

PROPOSAL No. 3

§ 1002.50a [Amended]

Amend § 1002.50a to provide for payment by a handler to a cooperative association of producers, from whom it receives milk, on or before the 19th day of the following month instead of as now provided on the 15th day of the following month.

PROPOSAL No. 4

§ 1002.85 [Amended]

Amend § 1002.85 to provide that on or before the 20th day of each month each handler shall make full payment of the debit balance, if any, instead of as now provided on the 18th day of each month.

PROPOSAL No. 5

§ 1002.86 [Amended]

Amend § 1002.86 to provide that on or before the 21st day of each month the market administrator shall make payment to each handler of the credit balance, if any, instead of as now provided on the 20th day of each month.

Proposed by the Dairy Division, Agricultural Marketing Service:

PROPOSAL No. 6

Make such changes as may be necessary to make the entire marketing agreement and the order conform with any amendments thereto that may result from this hearing.

Copies of this notice of hearing and the order may be procured from the Market Administrator, 205 East 42nd Street, New York, New York 10017 or from the Hearing Clerk, Room 112-A, Administration Building, United States Department of Agriculture, Washington, D.C. 20250 or may be there inspected.

Signed at Washington, D.C., on August 26, 1976.

WILLIAM T. MANLEY,
Deputy Administrator, Program Operations.

Rural Electrification Administration

[7 CFR Part 1701]

RURAL ELECTRIC PROGRAM

Irrigation Load Studies

Notice is hereby given that pursuant to the Rural Electrification Act, as amended (7 USC 901 et seq.), REA proposes to issue REA Bulletin 145-1, Development, Approval, and Use of Irrigation Studies. The proposed bulletin is designed to provide REA requirements, procedures and guidelines for special studies of the irrigation loads of REA electric borrowers where those loads are of major significance to the total projected power loads and operations of the borrowers. The Irrigation Studies, approved by REA, would be prerequisite to the development of overall system Power Requirements Studies essential to system planning and financing. Borrowers under the following circumstances would be required to have the Irrigation Studies:

1. Distribution borrowers whose power sales for irrigation purposes exceed or are projected to exceed 15 percent of total sales.

2. Power supply borrowers whose total sales to member distribution systems for irrigation purposes exceed or are projected to exceed 7.5 percent of their total sales.

Borrowers required to have separate Irrigation Studies in accordance with the above formula would no longer be required to prepare REA Form 343, Irrigation Projection, included in REA Bulletin 120-1, Development, Approval, and Use of Power Requirements Studies.

Persons interested in the provisions of proposed REA Bulletin 145-1 may submit written data, views or comments to the Power Survey Officer, Room 3863, South Building, Rural Electrification Administration, U.S. Department of Agriculture Washington, D.C. 20250, on or before September 30, 1976. All written submissions made pursuant to this notice will be made available for public inspection by the Power Survey Officer.

A copy of proposed REA Bulletin 145-1 may be secured in person or by written request from the Power Survey Officer.

Dated: August 23, 1976.

RICHARD F. RICHTER,
Assistant Administrator, Electric.

ENVIRONMENTAL PROTECTION AGENCY

[40 CFR Part 436]

[FRL 601-4]

MINERAL MINING AND PROCESSING POINT SOURCE CATEGORY

Extension of Comment Period and Notice of Availability

On June 10, 1976 the Agency published a notice of proposed rulemaking (41 FR 23561) establishing effluent limitations and guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable for existing sources, standards of performance for new sources and pretreatment standards for new sources for the mineral mining and processing point source category. The due date for comments provided in the notice was July 12, 1976.

The Agency anticipated that the document entitled "Economic Impact for Interim Final and Proposed Effluent Guidelines for the Mineral Mining and Processing Point Source Industry," which contains information on the analysis undertaken in support of the regulations, would be available to the public throughout the comment period. Production difficulties delayed the availability of this document. Copies of the document are now available and have been forwarded to those persons having submitted written requests to the Environmental Protection Agency. A limited number of additional copies are available for distribution from the Environmental Protection Agency, Effluent Guidelines Division, Washington, D.C. 20460, Attention: Distribution Officer, WH-552.

This extension and notice of availability is published pursuant to sections 301, 304 (b) and (c), 306(b) and 307(c) of the Federal Water Pollution Control Act as amended 33 U.S.C. 1251, 1311, 1314 (b) and (c), 1316(b), and 1317(c); 86 Stat. 816 et seq.; P.L. 92-500 (the Act).

Accordingly, the date for submission of comments is hereby extended to September 30, 1976.

Dated: August 13, 1976.

ANDREW W. BREIDENBACH,
Assistant Administrator for Water and Hazardous Materials.

[FR Doc.76-24561 Filed 8-30-76;8:45 am]

SELECTICE SERVICE SYSTEM

Office of the Director

[32 CFR Part 1608]

SELECTIVE SERVICE REGULATIONS

Proposed Amendments

Pursuant to the Military Selective Service Act, as amended (50 App. U.S. Code sections 451 et seq.) and § 1604.1 of Selective Service Regulations (32 CFR 1604.1), the Director of Selective Service hereby gives public notice that consideration is being given to the following proposed amendments to the Selective Service Regulations constituting a portion of Chapter XVI of Title 32 of the Code of Federal Regulations. These Regulations implement the Military Selective Service Act, as amended (50 U.S. Code App., sections 451 et seq.).

Several of the proposed amendments reflect the recent changes of address of the National Headquarters, Selective Service System. Additional and alternate places where information may be obtained are also stated.

Section 1608.13 would be revised in the interest of clarity.

Section 1608.18 would be revised to authorize the legal representative of a deceased as well as an incompetent person to obtain information from the record of the person to whom it pertains. The authority of the Director now stated in paragraph (d) of this section would be eliminated.

All persons who desire to submit views to the Director on the proposals should prepare them in writing and forward them to the Director, Selective Service System, Attn.: MPL(GC), 600 E Street, Northwest, Washington, D.C. 20435. Comments received on or before September 30, 1976 will be considered.

The proposed amendments follow:

1. In § 1608.4 paragraph (c) is revised and paragraph (i) is added to read as follows:

§ 1608.4 Available information.

* * * * *

(c) The Registrants Processing Manual may be inspected at any office of the Selective Service System including the National Headquarters.

* * * * *

(i) Whenever an office referred to in this section is closed, the request for information that otherwise would be submitted to it should be submitted to the National Headquarters, Selective Service System, 600 E Street, N.W., Washington, D.C. 20435.

2. Section 1608.5(b) is amended to read as follows:

§ 1608.5 Places where information may be obtained.

* * * * *

(b) Requests for information concerning the national administration of the Military Selective Service Act should be directed to the National Headquarters, Selective Service System, 600 E Street, N.W., Washington, D.C. 20435.

* * * * *

3. Section 1608.5 is amended by adding paragraph (d) to read as follows:

§ 1608.5 Places where information may be obtained.

* * * * *

(d) Whenever an office referred to in this section is closed, the request for information that otherwise would be submitted to it should be submitted to the National Headquarters, Selective Service System, 600 E Street NW., Washington, D.C. 20435.

4. Section 1608.9(b) is amended to read as follows:

§ 1608.9 Review of denials of requests for information.

* * * * *

(b) A requester whose request for information or documents has not been satisfied may appeal to the Director of Selective Service, 600 E. Street NW., Washington, D.C. 20435.

5. Section 1608.13 is amended to read as follows:

§ 1608.13 Disclosure of requested information to the individual to whom it pertains.

Information contained in records maintained on a specific individual and the records pertaining to such individual will be disclosed to or may be examined by the individual to whom it pertains without charge. Copies of such records will be provided to the individual to whom the records pertain upon payment of the fees prescribed in § 1608.22 of this part.

V 41 170 AUG 31 76 UMI

6. Section 1608.18 is amended to read as follows:

§ 1608.18 Disclosure of record to persons other than the individual to whom it pertains.

(a) Information contained in records in a registrant's file and records pertaining to a specific individual may be disclosed or furnished to, or examined by, the following in addition to the individual to whom they pertain:

(1) His legal representative duly appointed by a court of competent jurisdiction because of his demise or incompetence.

(2) Any person upon submission to the employee responsible for the system of records of the written consent of the individual to whom the record pertains. The authorization must bear a date not earlier than six months prior to the day of its submission to the Selective Service System and the signature of the individual concerned.

(3) All personnel of the Selective Service System while engaged in carrying out the functions of the Selective Service System who have a need for the record in performance of their duties.

(4) A U.S. Attorney and his duly authorized representative, including agents of the Federal Bureau of Investigation, whenever a registrant has been reported to the U.S. Attorney for prosecution for violating the Military Selective Service Act or the rules, regulations, or directions made pursuant thereto.

(b) No information shall be disclosed or furnished to, or examined by, any person under the provisions of this section, until such person has been properly identified as entitled to obtain such information.

BYRON V. PEPITONE,
Director.

notices

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF STATE

Agency for International Development

[Delegation of Authority No. 116]

DIRECTOR, OFFICE OF FOREIGN DISASTER ASSISTANCE

Delegation of Authority

Pursuant to the authority delegated to me by Delegation of Authority No. 104; as amended, dated November 3, 1961 (26 FR 10608), from the Secretary of State and in furtherance of my decision relating to the establishment of an Office of U.S. Foreign Disaster Assistance in the Agency for International Development, as announced in AID General Notice of May 26, 1976, it is hereby ordered as follows:

Section 1. There is hereby delegated to the Director, Office of U.S. Foreign Disaster Assistance all of the authorities and functions which are specified in any regulation (published or upublished), manual order, policy directive or determination, manual circular or circular airgram or instruction or communication of any nature, relating to the furnishing of international disaster assistance under Chapter 9 of Part I of the Foreign Assistance Act of 1961, as amended.

Section 2. The following delegations of Authority are amended as follows:

a. Delegation of Authority No. 95 dated May 24, 1972 (37 FR 11790) to the Assistant Administrator for Population and Humanitarian Assistance is amended by deleting paragraph 1.b.

b. Delegation of Authority No. 99 dated April 27, 1973 (38 FR 12834) concerning contracting and related functions is amended by deleting paragraph 1.D and inserting the following:

D. Authority to sign or approve the following for international disaster assistance purposes subject to the limitations set forth in Handbook 8.

(1) To the Director, Office of U.S. Foreign Disaster Assistance:

(a) Project Implementation Orders—Technical Services (PIO/T);

(b) U.S. Government contracts;

(c) Grants, and any country contracts financed by such grants;

(d) Obligations to reimburse other U.S. Government agencies for their operations in support of international disaster assistance.

(2) To each director of an AID Mission (or in countries where there is no AID Mission, the Chief of the diplomatic mission):

(a) U.S. Government contracts;

(b) Grants, and any country contracts financed by such grants.

Section 3. The authorities made available hereunder may be exercised by an officer serving in an acting capacity and may be redelegated by the Director, Office of U.S. Foreign Disaster Assistance.

Section 4. This Delegation of Authority shall be deemed effective as of May 26, 1976, and actions within the scope of this delegation and any redelegation hereunder taken prior hereto which are consistent with the terms and scope of this delegation of authority are hereby ratified and confirmed.

DANIEL PARKER,
Administrator, AID.

DEPARTMENT OF DEFENSE

Office of the Secretary

BOARD OF ADVISERS OF THE INDUSTRIAL COLLEGE OF THE ARMED FORCES AND BOARD OF CONSULTANTS OF THE NATIONAL WAR COLLEGE

Meeting

The President of the National Defense University has scheduled a joint meeting of the Board of Advisers of the Industrial College of the Armed Forces and the Board of Consultants of The National War College for Wednesday, September 15, 1976, from 0830 to 1630 and on Thursday, September 16, 1976, from 0830 until noon.

The morning meetings will be held in Seminar Room 127 of the Industrial College of the Armed Forces, with afternoon sessions in both The National War College and Industrial College Conference Rooms. The discussions will include a progress report on the National Defense University and the planned curriculums of both Colleges for Academic Year 1976–1977.

The meeting is open to the public, and the limited space available for observers will be allocated on a first-come, first-served basis. To reserve space, interested persons should write the National Defense University, Fort Lesley J. McNair, Washington, D.C. 20319 or phone the Assistant to the President for External Programs at 693–1074.

MAURICE W. ROCHE,
Director, Correspondence and Directives OASD (Comptroller).

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

ALASKA

Filing of Plat of Survey

1. Plat of survey of the lands described below will be officially filed in the Alaska State Office, Anchorage, Alaska, effective at 10:00 a.m., September 30, 1976.

COPPER RIVER MERIDIAN

ALASKA

T. 8 N., R. 1 W.,
Sec. 5: Lots 1, 2, 3, 4, S½N½, S½;
Sec. 6: Lots 1 to 7 inclusive, S½NE¼, SE¼NE¼, E½SW¼, SE¼;
Sec. 7: Lots 1, 2, 3, 4, 5, N½NE¼, SE¼NE¼, NE¼NW¼;
Sec. 8: Lot 1, N½, N½SW¼, SE¼SW¼, SE¼;
Sec. 9: All;
Sec. 10: All;
Sec. 15: All;
Sec. 16: Lots 1, 2, N½, E½SW¼, SE¼;
Sec. 17: Lots 1 to 8 inclusive, NE¼NE¼;

V 41 170 AUG 31 76 UMI

Sec. 20: Lot 1;
Sec. 21: Lots 1, 2, 3, 4, NE¼, E½SE¼;
Sec. 22: All;
Sec. 27: All;
Sec. 28: Lots 1 to 5 inclusive, E½SE¼;
Sec. 33: Lots 1, 2, 3, 4, E½NE¼, SE¼SE¼;
Sec. 34: All.
Containing 7,837.89 acres.

2. The portion surveyed lies on the east side of the Gulkana River, south of Sourdough, Alaska. The Richardson Highway traverses sections 6, 7, 8, 16, 21, 28, and 33. The land is nearly level to gently rolling, with some steep bluffs along the east side of the Gulkana River. The timber is mainly spruce, with alder and willow undergrowth. U.S. Survey No. 4910 is situated in sections 21 and 28.

3. The public lands affected by this order are open to the operation of the public land laws, subject to any valid existing rights, the provisions of existing withdrawals, including Pub. L. 92–203, December 18, 1971, Public Land Order 5418, filed March 28, 1974, and the requirements of applicable law, rules and regulations.

4. Inquiries concerning the lands should be addressed to the Alaska State Office, 555 Cordova Street, Anchorage, Alaska 99501.

CLYDE DUREN, JR.,
Acting Chief,
Division of Cadastral Survey.

AUGUST 17, 1976.

[F–19148–3, F–19148–5, F–19148–8, F–19148–12, F–19148–15, F–19148–26, F–19148–27, F–19148–28 and F–19148–30]

ALASKA

Alaska Native Claims (Regional) Selection

Pursuant to section 12(c)(3) of the Alaska Native Claims Settlement Act of December 18, 1971 (85 Stat. 688), the Arctic Slope Regional Corporation filed certain selection applications covering the surface and subsurface estates of the lands described herein. The applications were timely filed and are serialized as F–19148–3, F–19148–5, F–19148–8, F–19148–12, F–19148–15, F–19148–26, F–19148–27, F–19148–28 and F–19148–30.

Selections F–19148–8, F–19148–26 and F–19148–27 were made in accordance with paragraphs 9 and 13 of the agreement between the Department of the Interior and the Arctic Slope Regional Corporation dated February 26, 1974. Since selection numbers F–19148–5, F–19148–12, F–19148–15, F–19148–28 and F–19148–30 were not made in accordance with paragraph 9 of this agreement (selection of all available lands in any given township, (43 CFR 2652.3(e)), a waiver was requested from the Washington office and published in the FEDERAL REGISTER August 30, 1976.

It has therefore been determined that the applications have been properly filed and meet all the requirements of the act and the regulations issued pursuant to the act, as well as being within the provisions of the special agreement and waiver. The selected lands described below do not include any lawful entry perfected under or being maintained in compliance with laws leading to acquisition of title.

In view of the foregoing, the surface and subsurface estates of the following described lands are considered proper for acquisition by the Arctic Slope Regional Corporation, subject to valid existing rights, and are hereby approved for interim conveyance pursuant to section 14 (e) of the Act:

T. 6 S., R. 49 W.

The area described aggregates approximately 1,503,055 acres.

The interim conveyance issued for the surface and subsurface estate of the lands described above shall contain the following reservations to the United States:

1. A right-of-way thereon for ditches and canals constructed by the authority of the United States. Act of August 30, 1890, 26 Stat. 391, 43 U.S.C. 945.

2. A right-of-way thereon for the construction of railroads, telegraph and telephone lines, as prescribed and directed by the Act of March 12, 1914, 38 Stat. 305, 43 U.S.C. 975(d).

3. Pursuant to section 17(b) of the Alaska Native Claims Settlement Act of December 18, 1971, 85 Stat. 688, the following easements referenced by easement identification number (EIN) on the easement map in case file F–21780 are reserved to the United States and subject to further regulation thereby:

a. (EIN 1–D1, D9, C3, C5) A twenty-five (25) foot trail easement for use by the public to gain access to and from public lands via the existing winter trail along the coast between Barrow and Kotzebue. The use of this trail is to be controlled by applicable State or Federal law or regulations.

b. (EIN 4–C3, D1, D9, C5) A continuous linear easement twenty-five (25) feet in width upland of and parallel to the mean high tide line in order to provide public access to and along the marine coastline and use of such shore for purposes such as beaching of watercraft or aircraft, travel along the shore, recreation, and other similar uses. Deviations from the waterline are permitted when specific conditions so require, e.g., impassable topography or waterfront obstruction. This easement is subject to the right of the owner of the servient estate to build upon such easement a facility for public or private purposes, such right to be exercised reasonably and without undue or unnecessary interference with or obstruction of the easement. When access along the marine coastline easement is to be obstructed, the owner of the servient estate will be obligated to convey to the United States an acecptable alternate access route at no cost to the United States, prior to the creation of such obstruction.

c. (EIN 5–C5 (5a–c)) A trail easement fifty (50) feet in width on an existing trail system for use by the public to gain access to and from public lands. The first segment begins at Point Lay and runs southerly to the Epizetka River. In section 30 of T. 3 N., R. 44 W., Umiat Meridian, the trail system branches into 5b and 5c. Segment 5b follows the Epizetka River to public lands; segment 5c cuts southerwesterly and follows the right bank of the Kukpowruk River south to public lands. Segment 5a leaves EIN 5–C5 approximately four miles east of the village and proceeds easterly to public lands. The use of this trail system is to be controlled by applicable State or Federal law or regulations.

d. (EIN 11–C5, L) A road easement one hundred (100) feet in width for use by the public to gain access from Point Hope EIN 1–C4, C5 to and from public lands in the Upper Kukpuk River area. The use of this road is to be controlled by applicable State or Federal law or regulations.

e. (EIN 15–C5, D9 (15 a & b)) Two (2) fifty (50) foot trail easements for use by the public to gain access to and from public lands, beginning at the southerly boundary of the military withdrawal (Public Land Order 3780) in T. 5 S., R. 50 W., Umiat Meridian. Trail 15a winds in a southerly direction to public lands, while Trail 15b follows Kahkatak Creek easterly to public lands. The use of this trail system is to be controlled by applicable State or Federal law or regulations.

f. (EIN 17–L) A trail easement fifty (50) feet in width for use by the public to gain access from the Arctic coast to and from public lands in the Utcukuk River area north of Point Lay. The trail begins near triangulation station 47 (named Saxon) in T. 7 N., R. 42 W., Umiat Meridian. The use of this trail system is to be controlled by applicable State or Federal law or regulations.

g. (EIN 18–L) A trail easement fifty (50) feet in width for use by the public to gain access from the Arctic coast near Cape Sabine southeasterly to and from public lands along the Pitmegea River, with a five (5) acre site easement on the coast for use by the public as a beaching area for access to public lands

V 41 170
AUG 31 76
UMI

located in approximate section 22, T. 6 S., R. 54 W., Umiat Meridian. The use of this trail is to be controlled by applicable State or Federal law or regulations.

h. (EIN 22–C) The general right to enter upon the lands herein granted for cadastral, geodetic or other survey purposes is reserved together with the right to do all things necessary in connection therewith.

i. (EIN 23–C) An easement for the transportation of energy, fuel and natural resources which are the property of the United States or which are intended for delivery to the United States or which are produced by the United States. This easement also includes the right to build any related facilities necessary for the exercise of the right to transport energy, fuel and natural resources including those related facilities necessary during periods of planning, locating, constructing, operating, maintaining or terminating transportation systems. The specific location of this easement shall be determined only after consultation with the owner of the servient estate. Whenever the use of such easement will require removal or relocation of any structure owned or authorized by the owner of the servient estate, such use shall not be initiated without the consent of the owner of such improvement: *Provided, however,* That the United States may exercise the right of eminent domain if such consent is not given. Only those portions of this easement that are actually in use or that are expressly authorized on March 3, 1996, shall continue to be in force.

j. (EIN 24–C4, E) A five (5) acre site easement at the outlet of Windy Lake for use by the public as a float plane tie up, camping and a staging area for access to public lands. Said easement is located in section 15, T. 9 S., R. 53 W., Umiat Meridian, with three (3) fifty (50) foot ATV trails for use by the public to gain access to and from public lands around Windy Lake. One trail extends to the northwest of the site easement to public lands and one trail extends southerly to public lands. A third trail extends easterly from the east end of Windy Lake to public lands. The use of this trail system is to be controlled by applicable State or Federal law or regulations.

k. (EIN 25–C4) A one hundred (100 foot road for use by the public to gain access to and from public lands, which is an extension of Point Hope EIN 1–C4 after it crosses the Kukpuk River and proceeds northerly into regional selected lands in section 15, 22, 27 and 34 of T. 11 S., R. 61 W., and section 3 of T. 12 S., R. 61 W., Umiat Meridian. The use of this road is to be controlled by applicable State or Federal law or regulations.

l. (EIN 26–C4) A proposed fifty (50) foot ATV trail for use by the public to gain access to public lands, which is an extension of Point Hope EIN 5–C4 as it crosses the Regional selection in an easterly direction through section 10 of T. 10 S., R. 61 W., Umiat Meridian, to public lands. The use of this trail is to be controlled by applicable State or Federal law or regulations.

m. (EIN 27–C4) A proposed fifty (50) foot ATV trail for use by the public to gain access to public lands, going generally along the left bank of Akalolik Creek as an extension of Point Hope EIN 7–C4. The trail leads in an easterly direction across regional selected lands in sections 15, 16 and 21 of T. 11 S., R. 61 W., Umiat Meridian, to public lands. The use of this trail is to be controlled by applicable State or Federal law or regulations.

The grant of lands by the interim conveyance shall be subject to:

1. Issuance of a patent confirming the boundary description of the lands granted after approval and filing by the Bureau of Land Management of the official plat of survey covering such lands.

2. Valid existing rights therein, including but not limited to those created by any lease (including a lease issued under section 6(g) of the Alaska Statehood Act (72 Stat. 339, 341)), contract, permit, right-of-way or easement, and the right of the lessee, contractee, permittee or grantee to the complete enjoyment of all rights, privileges and benefits thereby granted to him.

Interim conveyance to the remaining entitlement for the Arctic Slope Regional Corporation will be made at a later date.

In accordance with Department regulation 43 CFR 2650.7(d), notice of this decision is being published once in the FEDERAL REGISTER and once a week, for four (4) consecutive weeks, in the Tundra Times. Any party claiming a property interest in land affected by this decision may appeal the decision to the Alaska Native Claims Appeal Board, P.O. Box 2433, Anchorage, Alaska 99510, with a copy served upon the Bureau of Land Management and the Regional Solicitor, Office of the Solicitor, 1016 West Sixth Avenue, Suite 201, Anchorage, Alaska 99501; also:

1. Any party receiving actual notice of this decision shall have 30 days from the receipt of actual notice to file an appeal.

2. Any unknown parties, any parties unable to be located after reasonable efforts have been expended to locate, and any parties who failed or refused to sign a receipt for actual notice, shall have until September 30, 1976 to file an appeal.

3. Any party known or unknown who may claim a property interest which is adversely affected by this decision shall be deemed to have waived their rights which were adversely affected unless an appeal is timely filed with the Alaska Native Claims Appeal Board.

To avoid summary dismissal of the appeal, there must be strict compliance with the regulations governing such appeal. Further information on the manner of, and the requirements for, filing an appeal may be obtained from the Bureau of Land Management, 555 Cordova Street, Anchorage, Alaska 99501.

ROBERT E. SORENSON,
Chief, Branch of Lands and Minerals Operations.

COLORADO

Amendment to Pipeline Right-of-Way

AUGUST 18, 1976.

Notice is hereby given that, pursuant to Section 28 of the Mineral Leasing Act of 1920 (41 Stat. 449), as amended (30 U.S.C. 185), Western Slope Gas Company, P.O. Box 840, Denver, Colorado 80201, has applied for a 3-inch natural gas looping pipeline, which is approximately 1,844 linear feet of additional natural gas looping pipeline to be constructed within the existing 50-foot-wide right of way in Rio Blanco County, Colorado. The additional pipeline will be constructed in the NE¼SW¼ and the SE¼NW¼ of Section 3, T. 8 S., R. 104 W., Sixth Principal Meridian, Colorado. The facility will enable applicant to construct, operate and maintain the subject natural gas looping pipeline and meet applicant's customer requirements for additional natural gas. The primary purpose of the proposed pipeline is to enable Western Slope Gas Company to correct an existing fuel supply problem at the Baxter Compressor Station and provide more uniform BTU content than now exists in the natural gas coming from the several wells in the Carbonera Field.

The purposes of this notice are: to inform the public that the Bureau of Land Management will be proceeding with the preparation of environmental and other analyses necessary for determining whether the application should be approved and, if so, under what terms and conditions; to allow interested parties to comment on the application; and to allow any person asserting a claim to the lands or having bona fide objections to the proposed natural gas looping pipeline right of way to file their objections in this office. Any person asserting a claim to the lands or having bona fide objections must include evidence that a copy thereof has been served on the applicant.

Any comment, claim or objections must be filed with the Chief, Branch of Land Operations, Bureau of Land Management, Colorado State Office, Room 700, Colorado State Bank Building, 1600 Broadway, Denver, Colorado, 80202, as promptly as possible after publication of this notice.

ALAN D. CAMPBELL,
Acting Chief, Branch of Land Operations.

[NM 28672 and 28673]

NEW MEXICO

Applications for Pipeline Rights-of-Way

AUGUST 23, 1976.

Notice is hereby given that, pursuant to Section 28 of the Mineral Leasing Act of 1920 (30 U.S.C. 185), as amended by the Act of November 16, 1973 (87 Stat. 576), El Paso Natural Gas Company has applied for two 6-inch and one 6⅝-inch natural gas pipeline rights-of-way across the following lands:

NEW MEXICO PRINCIPAL MERIDIAN,
NEW MEXICO

T. 24 S., R. 26 E.,
Sec. 15, NE¼SW¼.
T. 19 S., R. 32 E.,
Sec. 6, SE¼SW¼ and SW¼SE¼;
Sec. 7, N½NE¼ and SE¼NE¼.

These pipelines will convey natural gas across .980 of a mile of national resource lands in Eddy and Lea Counties, New Mexico.

The purpose of this notice is to inform the public that the Bureau will be proceeding with consideration of whether the application should be approved, and if so, under what terms and conditions.

Interested persons desiring to express their views should promptly send their name and address to the District Manager, Bureau of Land Management, P.O. Box 1397, Roswell, New Mexico 88201.

FRED E. PADILLA,
Chief, Branch of Lands and Minerals Operations.

[FR Doc.76-25437 Filed 8-30-76;8:45 am]

Geological Survey

REGIONAL COAL DEVELOPMENT IN CENTRAL AND SOUTHERN UTAH

Preparation of Environmental Impact Statement

Notice is hereby given that, in accordance with the National Environmental Policy Act of 1969, the U.S. Geological Survey (USGS), Department of the Interior, has commenced the preparation of draft environmental impact statements (EIS's) relating to the cumulative impacts of coal development in all or part of Carbon, Emery, Garfield, Grand, Sanpete, Sevier, Wayne, Iron, Kane, and Washington County, Utah.

These two EIS's are among seven regional coal environmental impact statements to be prepared over the next several years in connection with the Department of Interior's new coal leasing policy.

An interagency task force has been established to prepare the statements.

The draft statements will be circulated for public review, and comments received will be considered in the preparation of the final statements. The final statements will be used as a basis for the Secretary of Interior's selection of tracts to be offered for competitive coal leasing, approval of mining and reclamation plans, and approval of other coal-related development activities for which Federal approval must be given.

All interested agencies, organizations, or persons desiring to submit comments or suggestions for consideration in connection with the preparation of the draft environmental impact statements should submit them to the Director, U.S. Geological Survey, Mail Stop 108, National Center, Reston, Virginia 22092. Comments and views should be received on or before September 15, 1976.

Dated: August 26, 1976.

M. R. KLEPPER,
Acting Director.

[FR Doc.76-25424 Filed 8-30-76;8:45 am]

REGIONAL COAL DEVELOPMENT IN THE POWDER RIVER COAL BASIN OF MONTANA

Preparation of Environmental Impact Statement

Notice is hereby given that, in accordance with the National Environmental Policy Act of 1969, the U.S. Geological Survey (USGS), Department of the Interior, has commenced the preparation of a draft environmental impact statement (EIS) relating to the cumulative impacts of Federal and State coal development actions in all or part of Powder River, Rosebud, Custer, Big Horn, and Treasure County, Montana.

The EIS is among seven regional coal environmental impact statements to be prepared over the next several years in connection with the Department of Interior's new coal leasing policy.

Because of some duplicate or closely related actions pending before Federal and State agencies, and because the Montana Environmental Policy Act is identical to the National Environmental Policy Act, the State of Montana is joining in preparation of the EIS. A joint Federal/State task force has been established to prepare the statement.

The draft statement will be circulated for public review, and comments received will be considered in the preparation of the final statement. The final statement will be used as a basis for the Secretary of Interior's selection of tracts to be offered for competitive coal leasing, approval of mining and reclamation plans, and approval of other coal-related development activities for which Federal approval must be given, and will be used by the State in considering parallel and related permitting actions.

All interested agencies, organizations, or persons desiring to submit comments or suggestions for consideration in connection with the preparation of the draft environmental impact statement should submit them to the Director, U.S. Geological Survey, Mail Stop 108, National Center, Reston, Virginia 22092. Comments and views should be received on or before September 15, 1976.

Dated: August 26, 1976.

M. R. KLEPPER,
Acting Director.

NATIONAL REGISTER OF HISTORIC PLACES

Notification of Pending Nominations

Nominations for the following properties being considered for listing in the National Register were received by the National Park Service before August 19, 1976. Pursuant to § 60.13(a) of 36 CFR Part 60, published in final form on January 9, 1976, written comments concerning the significance of these properties under the National Register criteria for evaluation may be forwarded to the Keeper of the National Register, National Park Service, U.S. Department of the Interior, Washington, D.C. 20240. Written comments or a request for additional time to prepare comments should be submitted on or before September 10, 1976.

Forest Service

CURTIS CREEK UNIT PLAN

Availability of Final Environmental Statement

Pursuant to section 102(2)(c) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a Final Environmental Statement for the Curtis Creek Unit Plan, USDA–FS–R8 FES (adm) 76–10.

The environmental statement concerns a proposed ten-year management plan for the Curtis Creek Unit (14), Grandfather Ranger District, Pisgah National Forest, containing 20,690 acres of National Forest land in McDowell County, North Carolina.

This final environmental statement was transmitted to CEQ on August 23, 1976.

Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service, South Agriculture Bldg., Room 3230, 12th St. & Independence Ave., SW., Washington, D.C. 20250.
USDA, Forest Service, Room 804, 1720 Peachtree Rd., NW., Atlanta, Ga. 30309.
USDA, Forest Service, National Forests in North Carolina, 50 South French Broad Avenue, Post Office Box 2750, Asheville, N.C. 28802.

A limited number of copies are available upon request to Forest Supervisor, National Forests in North Carolina, P.O. Box 2750, Asheville, N.C. 28802.

Copies of the environmental statement have been sent to various Federal, State, and local agencies as outlined in the CEQ guidelines.

ROBERT W. CERMAK,
Forest Supervisor.

AUGUST 23, 1976.

SHASTA-TRINITY NATIONAL FOREST, LAND USE PLAN

Availability of Final Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a final environmental statement for the Land Use Plan, Upper Trinity Unit, Shasta-Trinity National Forest, California USDA–FS–R5 (Adm) 75–1.

The environmental statement concerns a proposed new land use plan for 27,730 acres of National Forest land located within the Shasta-Trinity National Forest. 17,715 acres would be principally managed for the production of wood; 5,600 acres would be principally managed for dispersed recreation and protection of the natural beauty of the sub-alpine area; 2,770 acres would be maintained in their natural environment; and 1,645 acres would be retained in their present condition pending further studies.

This final environmental statement was transmitted to the Council on Environmental Quality on August 24, 1976.

Copies are available for inspection during regular hours at the following locations:

USDA, Forest Service, South Agriculture Bldg., Rm. 3210, 12th St. and Independence Ave., SW., Washington, D.C. 20250.
U.S. Forest Service, 630 Sansome Street, Rm. 529, San Francisco, CA 94111.
Shasta-Trinity National Forest, 1615 Continental Street, Redding, CA 96001.
Weaverville Ranger District, P.O. Box T, Weaverville, CA 96093.
Shasta County Library, 1855 Shasta, Redding, CA 96001.
Shasta College Library, Old Oregon Trail, Redding, CA 96001.
Shasta Lake Ranger District, 6543 Holiday Road, Redding, CA 96001.
College of the Siskiyous Library, 719 4th, Yreka, CA 96097.

A limited number of single copies are available upon request to Forest Supervisor Richard Pfilf, 1615 Continental St., Redding, California 96001.

Copies of the environmental statement have been sent to various Federal, State, and local agencies as outlined in the Council on Environmental Quality guidelines.

T. W. KOSKELLA,
Deputy Regional Forester.

Domestic and International Business Administration

NATIONAL INDUSTRIAL ENERGY COUNCIL Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act, 5 U.S.C. App. I (Supp. IV, 1974) notice is hereby given that the meeting of the National Industrial Energy Council will be held on Wednesday, September 29, 1976, from 1:30 p.m. to 3:30 p.m. in Conference Room 4830, Main Commerce Building, 14th & Constitution Avenue, NW., Washington, D.C. 20230.

The Council will report and advise the Secretary of Commerce on programs and problems within the industrial and commercial sectors relating to energy conservation; provide a forum for the exchange of views on conservation between government and the industry/commercial sectors; advise on policies, plans and actions of government agencies involving energy use and conservation. The Council may identify and evaluate current and potential energy conservation plans within industry.

Agenda items are as follows:

1. Opening remarks by the Secretary of Commerce;
2. Reports by Sub-Councils;
a. Business Awareness,
b. Industry Programs,
c. Prorgam Development,
3. Open discussion;
4. Closing remarks by the Secretary of Commerce.

The meeting is open to public attendance and a limited number of seats will be available on a first-come, first-serve basis. To the extent that time permits, members of the public may present oral statements to the Council. Interested persons are also invited to file written statements with the Council before or after the meeting. Copies of the minutes will be available 30 days after the meeting upon written request addressed to the DIBA Freedom of Information Officer, Freedom of Information Control Desk, Room 3100, U.S. Dept. of Commerce, Wash., D.C.

Inquiries should be addressed to Ms. Kay Courtney, Committee Control Officer, Office of Energy Programs, DIBA Room 2211, U.S. Department of Commerce, 14th & Constitution Avenue, N.W., Washington, D.C. 20230. Tele: 202–377–5001.

Dated: August 25, 1976.

ROBERT M. JACKSON,
Acting Executive Director,
National Industrial Energy Council.

UNIVERSITY OF RICHMOND, ET AL.

Applications for Duty-Free Entry of Scientific Articles

The following are notices of the receipt of applications for duty-free entry of scientific articles pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89–651; 80 Stat. 897). Interested persons may present their views with respect to the question of whether an instrument or apparatus of equivalent scientific value for the purposes for which the article is intended to be used is being manufactured in the United States. Such comments must be filed in triplicate with the Director, Special Import Programs Division, Office of Import Programs, Washington, D.C. 20230, on or before September 20, 1976.

Amended regulations issued under cited Act (15 CFR 301) prescribe the requirements applicable to comments.

A copy of each application is on file, and may be examined during ordinary Commerce Department business hours at the Special Import Programs Division, Department of Commerce, Washington, D.C. 20230.

Docket Number: 76–00491. Applicant: University of Richmond, Richmond, Virginia 23173. Article: Electron Microscope, Model 201C & Plate Camera. Manufacturer: Philips Electronics Instruments NVD, The Netherlands. Intended use of article: The article is intended to be used for the study of pigment cell differentiation in response to various hyperpigmenting agents. In the various conditions under study, there is particular interest in aspects of melansomes biosynthesis as influenced by stresses with nitrogen mustard, psoralens or ultraviolet light. Another project will involve an investigation into the origin of epidermal Langerhans cells. Application received by commissioner of customs: July 26, 1976.

Docket Number: 76–00492. Applicant: Bowman Gray School of Medicine of Wake Forest University, 300 South Hawthorne Road, Winston-Salem, North Carolina 27103. Article: Electron Microscope, Model EM 9S–2. Manufacturer: Carl Zeiss, West Germany. Intended use of article: The article is intended to be used for viewing biological tissue specimens of various types. Research to be conducted will include:

1. The identification and characterization of synaptosomes from specially treated and prepared nervous tissue.
2. The identification of myelin figures by negative staining procedures and research concerning muscle metabolism.
3. Effects of intrauterine devices and prostaglandines on the female reproductive system and regenerative repair in the vertebrate central nervous system.

The article will also play a major role in a training program and will be used as the teaching instrument in an electron microscope course entitled, "Methods in Histological Research—Anatomy 407." Application received by Commissioner of Customs: July 26, 1976.

Docket Number: 76–00493. Applicant: University of Rochester, 110 Hopeman Building, Rochester, New York 14627. Article: Photochron I Image Converter Streak Camera tube with S–1 spectral response photocathode. Manufacturer: Instrument Technology Ltd., United Kingdom. Intended use of article: The article is intended to be used in building a fast streak camera needed for the study of the feasibility of heating targets with a pulsed high power laser to produce thermonuclear reactions. Application received by Commissioner of Customs: July 27, 1976.

Docket Number. 76–00494. Applicant: University of Illinois at the Medical Center, 833 South Wood Street, Chicago, Illinois 60680. Article: Model J–40A Automatic Recording Spectropolarimeter with Alternate Measurement accessory. Manufacturer: Japan Spectroscopic Co. Ltd., Japan. Intended use of article: The article is intended to be used for investigations of the circular dichroism spectra of the peptides and proteins and their complexes with non-covalently bonded molecules. Experiments will be conducted to relate the circular dichroism spectra to the arrangement of molecular groups in three-dimensional space. In turn, the three-dimensional arrangement of molecular groups will be used to derive the basic molecular forces which stabilize the arrangement and the relationships between molecular arrangement and effect of the molecules on biological systems. Application received by Commissioner of Customs: July 27, 1976.

Docket Number: 76–00495. Applicant: University of Rochester, Hopeman 110, Rochester, New York 14627. Article: Photochron I Image Converter Streak Camera tube with S–1 spectral response photocathode. Manufacturer: Instrument Technology Ltd., United Kingdom. Intended use of article: The article is intended to be used in building a fast streak camera needed for the study of the feasibility of heating targets with a pulsed high power laser to produce thermonuclear reactions. Application received by Commissioner of Customs: July 27, 1976.

Docket Number: 76–00496. Applicant: University of Rochester, Hopeman 110, Rochester, New York 14627. Article: Photochron I Image Converter Streak Camera tube with S–1 spectral response photocathode. Manufacturer: Instrument Technology Ltd., United Kingdom. Intended use of article: The article is intended to be used in building a fast streak camera needed for the study of the feasibility of heating targets with a pulsed high power laser to produce thermonuclear reactions. Application received by Commissioner of Customs: July 27, 1976.

Docket Number: 76–00497. Applicant: The Johns Hopkins University, Charles and 34th Street, Baltimore, Md. 21218. Article: T.V. Projector modified for special multiplex operation with Zenon Arc Lamp, Model PGP–561. Manufacturer: PGP Consultants Ltd., Canada. Intended use of article: The article is intended to be used for educational purposes in continuing medical education programs on medical grand rounds, conjoint clinic, clinical pathological conferences, i.e., to assist doctors, interns and students keep abreast of current and updated methods and procedures. The article will be a part of the equipment that will be used to televise information via microwave. Application received by Commissioner of Customs: July 28, 1976.

Docket Number: 76–00498. Applicant: Brookhaven National Laboratory Associated Universities. Inc., Upton, Long Island, New York 11973. Article: Cryogenic turbo-expander unit, equipped with two size C4 turbines, a control alarm with safety box and a gas safety box. Manufacturer: L'Air Liquide, France. Intended use of article: The article is to be incorporated into a cryogenic testing facility for research on superconducting magnet systems intended to operate at two discrete temperature levels. Application received by Commissioner of Customs: July 28, 1976.

Docket Number: 76–00499. Applicant: Brookhaven Natioinal Laboratory Associated Universities, Inc., Upton, Long Island, New York 11973. Article: Cryogenic turbo-expander unit, equipped with two size C3 turbines, a control alarm with

V 41 170 AUG 31 76 UMI

safety box and a gas safety box. Manufacturer: L'Air Liquide, France. Intended use of article: The article is to be incorporated into a cryogenic testing facility for research on superconducting magnet systems intended to operate at two discrete temperature levels. Application received by Commissioner of Customs: July 28, 1976.

Docket Number: 76–00500. Applicant: Lovelace Foundation for Medical Education and Research, 5200 Gibson Blvd. SE, Albuquerque, New Mexico 87112. Article: Scanning Electron Microscope, Model JSM–35U and accessories. Manufacturer: JEOL Ltd., Japan. Intended use of Article: The article is intended to be used in studies of the health effects of inhaled effluents from power plants which use a variety of fuels, such as nuclear fuels or coal in the following three general areas:

(1) Characterization of aerosol particles, both those naturally occurring and those used in experimental studies.

(2) The characterization of normal anatomic structures of the respiratory tract, particularly those that can be correlated with physical and computer models of the lung.

(3) The characterization of lesions induced by inhalation of power plant effluents.

Application received by Commissioner of Customs: July 29, 1976.

Docket Number: 76–00501. Applicant: U.S. Geological Survey, 345 Middlefield Road, Menlo Park, California 94025. Article: Isotope Micromass Model 602C, VG Digital Printer Inlet option C6. Manufacturer: VG Micromass Ltd., United Kingdom. Intended used of article: The article is intended to be used to determine the stable isotope abundances of sulfur, nitrogen, oxygen, and carbon in minute samples of terrestrial and extra terrestrial materials. Application received by Commissioner of Customs: July 29, 1976.

Docket Number: 76–00502. Applicant: Univeristy of California, 405 Hilgard Avenue, Los Angeles, Ca. 90024. Article: Electron Microscope, Model EM 400 and accessories. Manufacturer: Philips Electronics Instruments NVD, The Netherlands. Intended use of article: The article is intended to be used for studies of structure of protein and nucleic acid molecules, microcrystals of protein, DNA-protein complexes, ribosome-antibody complexes. Experiments to be conducted will include the following: Isolation and purification of proteins; their crystallization; examination of crystals by minimum-beam exposure electron microscopy methods; binding of antibodies to ribosomes and viruses in order to localize the components; binding of glutamine synthetase and arabinose regulatory proteins to DNA; determination of the configuration of the bound complexes; both thin and thick sections of protein crystals. The article will also be used in the course Microbiology- 260A, B, Ultrastructure Methods in Molecular Biology to instruct students in research oriented use of high resolution electron microscopy in Molecular and Cell Biology. Application received by Commissioner of Customs: July 29, 1976.

Docket Number: 76–00503. Applicant: Association of Universities for Research in Astronomy, Inc., 950 North Cherry Avenue, P.O. Box 26732, Tucson, Arizona 85726. Article: 4-channel uvby photoelectric photometer, with associated electronic components and wiring. Manufacturer: University of Aarhus, Denmark. Intended use of article: The article is intended to be used for photoelectric uvby photometry of stars brighter than twelfth magnitude. Results from the observational programs will include the distribution of the stars in space, their age, their chemical composition, and the distribution of interstellar absorbing matter in the solar neighborhood. Application received by Commissioner of Customs: August 3, 1976.

Docket Number: 76–00504. Applicant: University of California, Lawrence Berkeley Laboratory, East End of Hearst Avenue, Berkeley, California 94720. Article: Electron Microscope, Model JEM 100C including Water cooled water recirculator, Model EM 100C–MW. Manufacturer: JEOL, Japan. Intended use of article: The article is intended to be used for studies of lipoproteins as biochemical entities specifically to investigate their chemical and physical properties, their structure and ultrastructure, their biochemical and physiological behavior, and their distribution patterns in individuals as related to states of health and disease. Experiments will be conducted to determine the effects of drugs, hormones, pollutants, heredity on fine structure of these macromolecules, tissues and membranes. Application received by Commissioner of Customs: August 3, 1976.

Docket Number: 76–00505. Applicant: M. D. Anderson Hospital and Tumor Institute, Department of Developmental Therapeutics, 6723 Bertner Avenue, Houston, Texas 77030. Article: Impulscytophotometer, ICP–11. Manufacturer: Phywe-AG, West Germany. Intended use of article: The article is intended to be used for analysis of DNA distribution of in vitro cell lines and patients' samples (solid tumor biopsies, bone marrow, and peripheral blood). Experiments to be conducted will include in vitro experiments on long-term cell lines to determine the effect of cancer chemotherapeutic agents on cell cycle progression as well as in vivo investigations on the effect of cancer chemotherapeutic agents on cell cycle progression as well as in vivo investigations on the effect of anticancer agents on cycle progression of malignant and normal tissue. The course in which the article will be used is cell kinetics (for post-doctorate students). Application received by Commissioner of Customs: August 3, 1976.

Docket Number: 76–00506. Applicant: Department of the Interior, U.S.G.S., Br. Electromagnetism and Geomagnetism, P.O. Box 25046, Stop 964, Denver Federal Center, Denver, Colorado 80225. Article: Fluxgate Magnetometers, Model FM 100B (6 each) and 100BR (17 each). Manufacturer: EDA Electronics Ltd., Canada. Intended use of article: The articles are intended to be used for measuring temperal variations in the earth's magnetic field as part of an international study of the magnetosphere to learn more about the morphology and dynamic processes of the magnetosphere. In particular the magnetometer network will be used in a concentrated study of the behavior of substorms. Data from the magnetometers will be used by graduate students in their research. Application received by Commissioner of Customs: August 3, 1976.

Docket Number: 76–00507. Applicant: University of Virginia, Department of Chemistry, McCormick Road, Charlottesville, VA 22901. Article: Split Coil Superconducting Solenoid and Matrix Isolation Accessory System. Manufacturer: The Oxford Instrument Company, Limited, United Kingdom. Intended use of article: The article is intended to be used to make the following measurements in order to increase fundamental knowledge order to increase fundamental knowledge of the magnetic and electronic structural properties of molecules cited below and related systems:

(1) Matrix isolation magnetic circular dichroism (MIMCD).
(2) Magnetic circularly polarized emission (MCPE).
(3) Magnetic linear dichroism (MLD).
(4) Transverse Zeeman effect.
(5) Magnetic linear polarized emission (MLPE).
(6) Optical double resonance.

Among the systems to be investigated are the following: O_2^-, O_3^-, Xe-F, Xe-Cl, Ca_2, ClO_2, SO_2^-, Cl_2^-, F_2^-, CaO, UF_6, CS_2GeF_6:Mn^{4+}, CS_2GeF_6:Ir^{4+}, Os^{4+}, Re^{4+}, Uranocene films, carboranes, UF_6. In addition, the article will be used by graduate students doing research work as part of the requirement for advanced degrees in chemistry (MS, and Ph. D.)

Application received by Commissioner of Customs: August 5, 1976.

National Institutes of Health

NATIONAL ADVISORY EYE COUNCIL

Meeting Change

Notice is hereby given of a change in the meeting of the National Advisory Eye Council, September 13–14, 1976, Conference Room No. 7, Building 31, National Institutes of Health, which was published in the FEDERAL REGISTER on August 2, 1976 (41 FR 32284–32285).

There will be a meeting of the Vision Research Program Planning Subcommittee of the National Advisory Eye Council, National Eye Institute, on Sunday, September 12, 1976, National Institutes of Health, Building 31, Room 6A–21, Bethesda, Maryland.

The meeting will convene at 7:00 p.m., and will be open to the public until adjournment, approximately 10:00 p.m. The meeting will be devoted to review of the status of ongoing vision research program planning activities. Attendance by the public will be limited to space available.

Substantive information may be obtained from Mr. Julian Morris, Head, Office of Scientific Reports and Program Planning Coordination, National Eye Institute, National Institutes of Health, Bethesda, Maryland 20014, Building 31, Room 6A–27, telephone (301) 496–5248.

Dated: August 27, 1976.

SUZANNE L. FREMEAU,
Committee Management Officer,
National Institutes of Health.

Office of Education

ADVISORY COMMITTEE ON ACCREDITATION AND INSTITUTIONAL ELIGIBILITY

Meeting

Notice is hereby given, pursuant to Pub. L. 92–463, that the next meeting of the Advisory Committee on Accreditation and Institutional Eligibility will be held on September 22–24, 1976, beginning at 9:00 a.m., each day, local time at the Old Town Holiday Inn, 480 King Street, Alexandria, Virginia.

The Advisory Committee on Accreditation and Institutional Eligibility is established pursuant to Section 253 of the Veterans' Readjustment Assistance Act (Chapter 33, Title 38, U.S. Code). The Committee is established to advise the Commissioner of Education in fulfilling his statutory obligations to publish a list of nationally recognized accrediting agencies and associations which he determines to be reliable authorities concerning the quality of training offered by education institutions and programs. It also serves to advise the Commissioner in fulfilling his statutory obligatoin to publish a list of State agencies which he has determined to be reliable authorities concerning the quality of public postsecondary vocational education in their respective State, pursuant to section 438(b) of the Higher Education Act of 1965, as amended by Pub. L. 92–318.

The meeting shall be open to the public. The Committee will review petitions by accrediting and State approval agencies for initial or continued recognition by the Commissioner, the Committee will hear presentations by representatives of the petitioning agencies and interested third parties and the Committee will review policy items pertaining to accreditation and institutional eligibility.

Records shall be kept of all Committee proceedings, and these will be available in the Office of the Division of Eligibility and Agency Evaluation, Room 3030, Regional Office Building 3, 7th and D Streets, S.W., Washington, D.C.

Signed at Washington, D.C., on August 23, 1976.

JOHN R. PROFFITT,
Director, Division of
Eligibility and Agency Evaluation.

NATIONAL ADVISORY COUNCIL ON EXTENSION AND CONTINUING EDUCATION

Meeting

Notice is hereby given, pursuant to the Federal Advisory Committee Act, Pub. L. 92–463 that a meeting of the National Advisory Council on Extension and Continuing Education will be held on September 22–24, 1976, at The Wellington Hotel, 2505 Wisconsin Avenue, NW., Washington, D.C. The meetings on September 22 and 23 are scheduled from 9:00 a.m. to 5:00 p.m.; and on September 24, from 9:00 a.m. to 12:30 p.m.

The National Advisory Council on Extension and Continuing Education is authorized under Public Law 89–329. The Council is directed to advise the Commissioner of Education in the preparation of general regulations and with respect to policy matters arising in the administration of Title I, and to report annually to the President on the administration and effectiveness of all federally supported extension and continuing education programs, including community service programs.

The meeting of the Council will be open to the public. The agenda for the meetings will include committee meetings to review and plan activites for the year; the Council's review of the status of the reauthorization of Title I of the Higher Education Act; and the discussion of plans for the Council's major project: a national invitational conference on continuing education and work. All records of Council proceedings are available for public inspection at the Council's staff office, located in Suite 529, 425 Thirteenth Street, NW., Washington, D.C.

Dated: August 23, 1976.

JAMES A. TURMAN,
Executive Director.

CIVIL AERONAUTICS BOARD

[Docket 29572, Agreement CAB 23870–A2, Order 76–8–137]

AIR TRAFFIC CONFERENCE OF AMERICA

Reduced Fees for Transmission of Automated Tickets

AUGUST 25, 1976.

The Air Traffic Conference of America (ATC) on behalf of its members has filed with the Board, pursuant to section 412(a) of the Federal Aviation Act of 1958, as amended (the Act), and Subpart P of the Board's Rules of Practice (14 CFR 302.1601–1608) a resolution (Agreement CAB 23870–A2) relating to a reduction in fees paid by agents for the transmission of individually priced itineraries utilized to mechanically produce tickets.

The effect of the resolution is to amend ATC Resolution 5.93 (Placement of Ticket Issuing Devices In Offices of Travel Agents and Customers) by reducing from $1.00 to 25 cents the fee which ATC members charge travel agents for each individually priced itinerary transmitted. In addition, nonpriced itineraries would now become subject to the same fee.

In support of the agreement, ATC states that several air carriers have performed internal analyses of the cost of transmitting individual itineraries for the preparation of automated tickets, which analyses have shown the cost of such transmissions to be approximately 25 cents per transmission. ATC further states that the purpose of Resolution 5.93 is to allow the carriers to recoup their costs incidental to the transmission of individually priced itineraries. Moreover, according to ATC, recent technological advances have significantly reduced itinerary transmission costs. ATC states that reducing the transmission charges will further encourage the use of automated ticketing devices thereby further reducing ticketing errors, improving the overall cost and efficiency of travel agency ticketing and improving ticketing service to the traveling public.[1]

No additional comments concerning the proposal have been received.

Upon consideration of the foregoing, it has been decided to approve Agreement CAB 23870–A2. In reaching this conclusion it is noted that the proposal now before the Board was adopted by the ATC carriers in an effort to resolve what those same carriers see developing as an undesirable and confusing situation insofar as itinerary transmission fees are concerned. Thus, the carriers acknowledge that transmission costs to certain members have decreased substantially from the $1 fee currently charged for each transmission, and, in an effort to maintain uniformity with respect to those charges, have agreed that a lower specific fee should be established. We believe the carriers proposal for a uniform fee is for the present the best approach for dealing with the matter and that the lower fees could, as ATC has pointed out, result in greater use of the service with consequent improved efficiency, and improved ticketing service to the public.

We have also considered the proposal to include nonpriced itineraries within

[1] ATC has urged prompt action on the proposal stating that two ATC members have withdrawn from Resolution 5.93 effective August 26, 1976, and that the instant agreement would obviate the need for withdrawal.

V 41 170 AUG 31 76 UMI

the transmissions subject to the new fees. Apparently the transmission of such itineraries would also involve costs to the carriers and the application of the fees to such itineraries does not appear unreasonable.

Therefore, pursuant to authority duly delegated by the Board in the Board's Regulations, 14 CFR 385.13 and 385.3, it is found that Agreement CAB 23870–A2 is not adverse to the public interest or in violation of the Act and should be approved.[3]

Accordingly, it is ordered that:

1. Agreement CAB 23870–A2 be and it hereby is approved.

2. This order shall be served upon the American Automobile Association, the American Society of Travel Agents, Inc., the Association of Retail Travel Agents, the Association of Bank Travel Bureaus, and the U.S. Department of Justice.

3. Persons entitled to petition the Board for review of this order pursuant to the Board's Regulations, 14 CFR 385.50, may file such petitions within 10 days of the date of service of this order.

4. This order shall be effective immediately and the filing of such petitions shall not stay its effectiveness.

This order shall be published in the FEDERAL REGISTER.

PHYLLIS T. KAYLOR,
Secretary.

[FR Doc.76-25469 Filed 8-30-76;8:45 am]

[Docket 28980, Order 76-8-124]

CITY OF LUBBOCK, TEX., AND THE LUBBOCK CHAMBER OF COMMERCE

Service Investigation

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 24th day of August, 1976.

On March 12, 1976, the City of Lubbock, Texas, and the Lubbock Chamber of Commerce petitioned the Board to institute an investigation to consider the issue of improved service between Lubbock and points to the east, west, north, and south of Lubbock.[1]

In support of its petition, Lubbock states that service to the West and Northwest is almost nonexistent insofar as direct and/or single-plane service is concerned; that substantially all service between Lubbock and points to the east, northeast, and southeast of Lubbock must go through the Dallas/Ft. Worth air terminal, with the attendant inconveniences of layovers, delays, and changes of plane; that much of the service to the South is hindered by the requirement of stops at Midland/Odessa, due to an impediment in the certificate authority of Continental Air Lines; that Continental is further subject to a point-of-origin restriction on southbound flights, which prevents convenient scheduling;[2] that Lubbock has had meetings with each air carrier now serving Lubbock, but has received little or no encouragement as to the possibility of improved service; and that the relief sought is justified by present and anticipated growth and generation of air travel to and from Lubbock.

Answers in support of Lubbock's petition were filed by the City of Albuquerque and the Albuquerque Chamber of Commerce, as well as the City of San Antonio and the San Antonio Chamber of Commerce. Albuquerque argues that, despite traffic growth averaging eight percent per year since 1970, service in the Albuquerque/Lubbock market has deteriorated from seven single-plane flights in 1971 to two in 1976, and that service in this market is now limited to one inconveniently timed[3] daily nonstop round trip offered by Continental and several connecting flights (via El Paso), requiring time-consuming, circuitous routing. The San Antonio civic parties state that, although traffic from Lubbock to San Antonio has grown 53 percent from 1970 to 1974, no nonstop service is available and the only single-plane service to Lubbock is two morning flights, one via Dallas with a 40 percent time circuity.

Braniff has filed in opposition to the petition. Braniff believes Lubbock receives adequate service given its size and urges the Board to deny its petition. Braniff also notes that the issue of improved service in Texas intrastate markets is the subject of a Southwest Airlines application now pending before the Texas Aeronautics Commission.[4]

Upon consideration of the pleadings and all of the relevant facts, we have decided to dismiss Lubbock's petition for an immediate hearing and to require all interested parties to show cause why the Board should not (a) eliminate the requirement that Continental flights on Route 29 stop at Midland/Odessa on flights in the Lubbock-Austin, Lubbock-Houston, and Lubbock-San Antonio markets, and (b) eliminate the point of origin restriction (condition 10) on Continental's segment 8 of Route 29 with respect to Lubbock-San Antonio/Austin/Houston flights.

In this case, no carrier has applied for authority at Lubbock. Furthermore, on the basis of the facts before us, the service deficiencies alleged by the civic parties do not appear to be so urgent as to constitute a present denial of reasonable access to adequate service by the citizens of the area and to warrant an evidentiary hearing at this time.

In looking at the potential economic self-sufficiency of the service proposed by Lubbock, we cannot ignore the fact that no carrier has indicated an interest in providing the service by filing an application in support of Lubbock's request. Absent a proposal by a carrier, we may conclude that no carrier has the incentive to effectively promote and develop new service to Lubbock, and that the potential economic viability of such operations at Lubbock is limited.

Lubbock does not appear to suffer from a lack of air service per se. Lubbock ranked 99th on the basis of O&D traffic in calendar 1974.[5] With 9,146 departures, Lubbock's quality of service, based on frequency of service, exceeded 16 of the 20 cities ranked just above it.[6] Lubbock's exhibits show that Lubbock ranks eighth in population among Texas cities, yet with 9,146 scheduled departures during 1974, Lubbock received 64 percent more service that Corpus Christi, the seventh ranked Texas city with a 37 percent greater population than Lubbock.[7] Lubbock service was only slightly below Austin, the sixth ranked city (10,579 scheduled departures), although Austin is approximately 69 percent larger than Lubbock.[8] Basing the comparison on in-

[1] It is found, pursuant to section 385.6 of the Board's Regulations, that the action taken herein is governed by prior Board precedent and policy and, because certain ATC members have withdrawn from ATC Resolution 5.93 effective August 26, 1976, immediate action on the agreement is required. Therefore, it is determined that the filing of petitions for review of this order will not preclude this order from becoming effective immediately.

[2] Specifically, Lubbock requests gateways other than Dallas/Fort Worth to the East, Northeast, and Southwest; additional direct service to the South through the removal of the necessity for southbound Continental Air Lines flights to stop at Midland/Odessa, a segment junction point, and the removal of point-of-flight-origin restrictions on those flights; nonstop service to San Francisco and Los Angeles and additional gateways to the West; nonstop service between Lubbock and Denver, Houston, San Antonio and Austin; nonstop service between Lubbock and Memphis; and improved direct service between Lubbock, on the one hand, and the previously mentioned points, and Little Rock, New Orleans, and Atlanta, on the other.

[3] The necessity for stops at Midland/Odessa on Continental flights is due to the fact that Midland is a segment junction point on Continental's Route 29. There is a point-of-origin restriction on Continental flights over segment 8 providing that flights cannot originate or terminate within Texas. The latter restriction does not apply to nonstop flights between El Paso and Houston, and one-stop flights between El Paso and Houston, via San Antonio.

[3] The flight leaves Albuquerque at 7:15 p.m. The return leg leaves Lubbock at 8:35 a.m. the following day.

[4] Southwest Airlines filed an application with the Texas Aeronautics Commission on March 24, 1976, requesting unrestricted nonstop authority between the terminal point El Paso, the alternate intermediate points Midland/Odessa and Lubbock, the intermediate point Dallas, the alternate intermediate points Austin and Houston, and the coterminal points Corpus Christi and Harlingen. If the application is approved, Southwest will become the fourth carrier operating at Lubbock. Initially, Southwest would offer service to Dallas and El Paso, with single-plane or connecting service available to the remaining points on its system. Southwest already serves Dallas, Houston, San Antonio, and Harlingen.

[5] Airport Activity Statistics, December 31, 1974.

[6] Id.

[7] Id.

[8] Id.

come, Lubbock, which ranked tenth among Texas cities,[9] had more air service in 1974 than the fourth, seventh, eighth and ninth ranked cities and was just behind Austin, the fifth ranked city.[10] Also, Lubbock has nonstop service from seven points, compared to four for Corpus Christi.[11] Finally, average load factors in Lubbock's then eight nonstop markets did not exceed 59 percent for fiscal 1975.[12]

Lubbock's most substantial complaint appears to be that it does not have direct service to more points. However, we note that of those markets in which Lubbock seeks new service, only six had more than 10,000 O&D plus connecting passengers in calendar 1974, and each of these markets had one-stop or better single-plane service.[12a] The largest of these, Lubbock-Houston, had 39,660 passengers. Braniff, which holds nonstop authority, presently provides one daily one-stop round trip in that market. With the elimination of Continental's route restrictions, discussed below, there would be a second carrier in this market authorized to provide nonstop service.

Although an investigation does not appear warranted, we intend to use the Board's show-cause procedures to eliminate the two impediments in Continental's certificate which presently prohibit nonstop service between Lubbock and Austin, Houston, and San Antonio. In 1974, Continental's share of local plus connecting traffic in the Lubbock-Houston and Lubbock-San Antonio markets was, respectively, 42 and 47 percent.[13] Given Continental's large market share, continuation of the route impediments in these markets would serve no useful purpose. Although Braniff holds nonstop authority in both markets, neither market has nonstop service and, in view of the fact that Continental has a different pattern of traffic flow from Braniff, the lifting of Continental's restrictions may increase the likelihood that these markets will receive improved service.

There similarly appears to be no sufficient justification to continue Continental's present route restrictions in the Lubbock-Austin market. In calendar 1974, Continental carried only five percent of the local plus connecting traffic.[14] However, the total market is only 17,440 local plus connecting passengers,[15] and elimination of the carrier's route restrictions would expose neither Braniff nor Texas International to substantial diversion. Braniff might be exposed to a maximum diversion of 6,000 annual passengers and Texas International to perhaps an equal amount,[16] and diversion would be even less should Southwest enter the market.

Although there is no basis for concluding that removal of Continental's route impediments will cause Continental to offer additional service, the Board has long adopted a policy that operating restrictions are economically wasteful and undesirable and should be removed in the absence of an affirmative showing that their retention is required.[17] We tentatively find that removal of Continental's route restrictions will not have any significant adverse impact on any other carrier, that there is no reason to maintain them, and that the public convenience and necessity require their removal.[18]

Interested persons will be given thirty days from the date of the adoption of this order to show cause why the tentative findings and conclusions set forth herein should not be made final.[19] We expect such persons to support their objections, if any, with detailed answers, specifically setting forth the tentative findings and conclusions to which objection is taken. Such objections should be accompanied by arguments of fact or law and should be supported by legal precedent or detailed economic analysis. If an evidentiary hearing is requested, the objector should state in detail why such a hearing is considered necessary and what relevant and material facts he would expect to establish through such a hearing that cannot be established in written pleadings. General, vague, or unsupported objections will not be entertained.

Accordingly, it is ordered that:

1. The petition of the City of Lubbock, Texas, and the Lubbock Chamber of Commerce for an investigation of air service be and it hereby is dismissed;

2. All interested persons are directed to show cause why the Board should not issue an order making final the tentative findings and conclusions stated herein and amending the certificate of public convenience and necessity of Continental Air Lines, Inc., for Route 29 to authorize Continental to serve Lubbock-Austin, Lubbock-Houston, and Lubbock-San Antonio (a) without the necessity for stops at Midland/Odessa, a segment junction point, and (b) without application of condition (10), prohibiting the scheduling of flights over segment 8 which originate at one point in Texas and terminate at any other point in Texas;

3. Any interested persons having objections to the issuance of an order making final any of the proposed findings, conclusions, or certificate amendments set forth herein, shall, within 30 days after the date of adoption of this order, file with the Board and serve upon all persons listed in paragraph 6 a statement of objections together with a summary of testimony, statistical data, and other evidence expected to be relied upon to support the stated objections;

4. If timely and properly supported objections are filed, further consideration will be accorded the matters and issues raised by the objections before further action is taken by the Board; [20]

5. In the event no objections are filed, all further procedural steps will be deemed to have been waived, and the Board may proceed to enter an order in accordance with the tentative findings and conclusions set forth herein; and

6. Copies of this order shall be served upon Braniff Airways, Inc., Continental Air Lines, Inc., Texas International Airlines, Inc., The Albuquerque Parties, The Lubbock Parties, and the San Antonio Civic Parties.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

PHYLLIS T. KAYLOR,
Secretary.

[Docket 29684]

EPHRATA-MOSES LAKE DELETION CASE

Prehearing Conference

Notice is hereby given that a prehearing conference in the above-entitled

[9] Survey of Current Business, May 1974.

[10] Id. and Airport Activity Statistics, December 31, 1974.

[11] Official Airline Guide, August 1, 1976.

[12] Fiscal year 1975 load factors in Lubbock's nonstop markets were as follows: Amarillo, 26%; Austin, 58.9%; Clovis, N.M., 22.6%; Dallas/Ft. Worth, 58.9%; El Paso, 42.8%; Midland/Odessa, 34.1%; and Wichita Falls, 42.4%. The average load factor in the Lubbock-Albuquerque market was 53 percent in FY 1975. Texas International discontinued nonstop service in December 1975, leaving only Continental, which had an average load factor of 63 percent in FY 1975. However, our most recent data show that Continental's load factor is trending downward. Furthermore, Continental recently added one one-stop flight daily in the market. Thus, although Texas International has dropped out of the Lubbock-Albuquerque market, Continental's service appears adequate.

[12a] Appendix filed as part of original document.

[13] O&D Survey, Table 10, Calendar Year 1974.

[14] Texas International, with 61% of the market, currently offers five daily nonstop flights, and Braniff, with 34%, offers one one-stop flight. O&D Survey, Table 10, Calendar Year 1974; Official Airline Guide, August 1, 1976. As noted previously, Southwest has petitioned to serve Lubbock also.

[15] O&D Survey, Table 10, Calendar Year 1974.

[16] Assuming Continental instituted two daily nonstop round trips—service comparable to Texas International—Braniff and Texas International retained their present level of service.

[17] Order 69–6–87, June 17, 1969. See also Order 75–7–15, July 2, 1975, page 2.

[18] We further tentatively find that Continental is a citizen of the United States within the meaning of the Act, and is fit, willing, and able properly to perform the transportation proposed herein and to conform to the provisions of the Act and the Board's rules, regulations, and requirements thereunder.

[19] We find and conclude that the Board action here contemplated will not result in a major Federal action significantly affecting the environment within the meaning of the National Environmental Policy Act of 1969.

[20] All motions and/or petitions for reconsideration shall be filed within the period allowed for filing objections and no further such motions, requests, or petitions for reconsideration will be entertained.

CIVIL SERVICE COMMISSION

ADVISORY COMMITTEE ON ADMINISTRATIVE LAW JUDGES

Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act, Pub. L. 92-463, notice is hereby given that the Advisory Committee on Administrative Law Judges will meet at 9:30 a.m. on Friday, September 17, 1976. This meeting will be held in Room 5323 of the U.S. Civil Service Commission Building, 1900 E Street, N.W., Washington, D.C.

The Advisory Committee's agenda will consist of a discussion of rules and procedures for committee activities, since this will be the initial meeting of the Advisory Committee; of the fact-finding study report on Administrative Law Judges completed in July 1974 (the La Macchia report); of recruitment and selection procedures for Administrative Law Judges including qualifications, experience required, and the vouchering system; the desirability of continuing the selective certification procedures; such other matters as members of the Advisory Committee may wish to discuss; and, issues to be considered at future meetings.

This meeting will be open to the public.

Inquiries regarding this notice may be addressed to Arthur L. Burnett, Assistant General Counsel, Legal Advisory Division, Office of General Counsel, Civil Service Commission, 1900 E Street, N.W., Washington, D.C. 20415, telephone: Area Code 202-632-5421 or 632-5422.

UNITED STATES CIVIL SERVICE COMMISSION,
JAMES C. SPRY,
Executive Assistant to the Commissioners.

COMMITTEE FOR PURCHASE FROM THE BLIND AND OTHER SEVERELY HANDICAPPED

PROCUREMENT LIST 1976

Addition to Procurement List

Correction

In FR Doc. 76-24461 appearing on page 35210 in the FEDERAL REGISTER of Friday, August 20, 1976 the following correction should be made: Under the heading "Class 7105" the first line, third word now reading "Food" should read "Wood".

ENVIRONMENTAL PROTECTION AGENCY

ENVIRONMENTAL POLLUTANT MOVEMENT & TRANSFORMATION ADVISORY COMMITTEE

[FRL 608-7]

Meeting

Notice is hereby given that a meeting of the Environmental Pollutant Movement & Transformation Advisory Commitee will be held at the Southeastern Environmental Research Laboratory, Athens, Georgia on September 20, 1976 starting at 10:00 a.m. and ending at 12:30 p.m. The meeting is in conjunction with a site visit to the Laboratory by the Committee members.

The agenda topics are: introductions to the Laboratory's programs, a report of a meeting of an Ad Hoc Study Group of the Science Advisory Board which dealt with a review of the Office of Toxic Substances scientific programs, upcoming Science Advisory Board activities on catalytic converters and air standards for lead, and items of Committee member interest.

The meeting is open to the public. Persons desiring to attend should contact the Executive Secretary, Dr. Joel L. Fisher at (703) 557-7710 by close of business (c.o.b.) on September 10, 1976.

THOMAS D. BATH,
Staff Director, Science Advisory Board.

AUGUST 25, 1976.

PESTICIDE PROGRAMS

Nominations to the Scientific Advisory Panel; Extension of Comment Period

On August 3, 1976, the Environmental Protection Agency (EPA) published a notice which provided the names, addresses, professional affiliations, and selected biographical data of persons nominated to serve on the Scientific Advisory Panel established under section 25 (d) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (86 Stat. 973 and 89 Stat. 751; 7 U.S.C. 136 et seq.). A copy of the charter of the Scientific Advisory Panel was appended to that notice, and the public was invited to comment regarding the qualifications of the nominees relative to the charter.

In order to allow the public adequate opportunity to comment on the nominations, the EPA has decided to extend the comment period until September 8, 1976. Again, to be assured of consideration, such comments should reach EPA on or before September 8, 1976, and should bear the identifying notation OPP-00025. Please address all comments to the Federal Register Section (WH-569), Office of Pesticide Programs, EPA, Room 401, East Tower, 401 M St., SW., Washington, D.C. 20460. All written comments will be available for public inspection in Room 401 from 8:30 a.m. to 4:00 p.m. Monday through Friday.

Dated August 25, 1976.

JAMES M. CONLON,
Acting Deputy Assistant Administrator for Pesticide Programs.

RECEIPT OF APPLICATION FOR PESTICIDE REGISTRATION

Data To Be Considered in Support of Applications

On November 19, 1973, the Environmental Protection Agency (EPA) published in the FEDERAL REGISTER (39 FR 31862) its interim policy with respect to the administration of section 3(c)(1)(D) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended ["Interim Policy Statement"]. On January 22, 1976, EPA published in the FEDERAL REGISTER a document entitled "Registration of a Pesticide Product—Consideration of Data by the Administrator in Support of an Application" [41 FR 3339]. This document described the changes in the Agency's procedures for implementing section 3(c)(1)(D) of FIFRA, as set out in the Interim Policy Statement, which were effectuated by the enactment of the recent amendments to FIFRA on November 28, 1975 [Pub. L. 94-140], and the new regulations governing the registration and re-registration of pesticides which became effective on August 4, 1975 [40 CFR Part 162].

Pursuant to the procedures set forth in these FEDERAL REGISTER documents, EPA hereby gives notice of the applications for pesticide registration listed below. In some cases these applications have recently been received; in other cases, applications have been amended by the submission of additional supporting data, the election of a new method of support, or the submission of new "offer to pay" statements.

In the case of all applications, the labeling furnished by the applicant for the product will be available for inspection at the Environmental Protection Agency, Room 209, East Tower, 401 M Street, SW., Washington DC 20460. In the case of applications subject to the new section 3 regulations, and applications not subject to the new section 3 regulations which utilize either the 2(a) or 2(b) method of support specified in the Interim Policy Statement, all data citations submitted or referenced by the applicant in support of the application will be made available for inspection at the above address. This information (proposed labeling and, where applicable, data citations) will also be supplied by mail, upon request. However, such a request should be made only when circumstances make it inconvenient for the inspection to be made at the Agency offices.

Any person who (a) is or has been an applicant, (b) believes that data he developed and submitted to EPA on or after January 1, 1970, is being used to support an application described in this notice, (c) desires to assert a claim under section 3(c)(1)(D) for such use of his data, and (d) wishes to preserve his right to have the Administrator determine the amount of reasonable compensation to which he is entitled for such use of the data or the status of such data under section 10 must notify the Administrator and the applicant named in the notice in the FEDERAL REGISTER of his claim by certified mail. Notification to the Administrator should be addressed to the Product Control Branch, Registration Division (WH-567), Office of Pesticide Programs, Environmental Protection Agency, 401 M St. SW., Washington DC 20460. Every such claimant must include, at a minimum, the information listed in the Interim Policy Statement of November 19, 1973.

Specific questions concerning applications made to the Agency should be addressed to the designated Product Manager (PM), Registration Division (WH-567), Office of Pesticide Programs, at the above address, or by telephone as follows:

PM 11, 12, & 13—202/755-9315
PM 21 & 22—202/426-2454
PM 24—202/755-2196
PM 31—202/426-2635
PM 33—202/755-9041
PM 15, 16, & 17—202/426-9425
PM 23—202/755-1397
PM 25—202/755-7012
PM 32—202/426-9486
PM 34—202/426-9490

The Interim Policy Statement requires that claims for compensation be filed on or before November 1, 1976. With the exception of 2(c) applications not subject to the new section 3, regulations, and for which a sixty-day hold period for claims is provided, EPA will not delay any registration pending the assertion of claims for compensation or the determination of reasonable compensation. Inquiries and assertions that data relied upon are subject to protection under section 10 of FIFRA, as amended, should be made on or before September 30, 1976.

Dated: August 24, 1976.

JOHN B. RITCH, Jr.,
Director, Registration Division.

APPLICATIONS RECEIVED (OPP-33000/454)

EPA File Symbol 2749-UEU. Aceto Agricultural Chemical Corp., 126-02 Northern Blvd., Flushing NY 11368. PROPAZINE TECHNICAL HERBICIDE. Active Ingredients: 2-Chloro-4,6-bis (isopropylamino)-s-triazine 95%. Method of Support: Application proceeds under 2(b) of interim policy. PM25.

EPA Reg. No. 241-243. American Cyanamid Co., Agricultural Div., PO Box 400, Prince ton NJ 08540. PROWL HERBICIDE. Active Ingredients: [N-(1-ethylpropyl)-3,4-dimethyl-2,6-dinitrobenzamine] 43.8%. Method of Support: Application proceeds under 2(b) of interim policy. Republished: New use. PM25

EPA File Symbol 39259-E. The Aluvis Co., 23996 Clawiter St., Hayward CA 94545. RAT-XP ALL WEATHER RAT BAIT READY TO USE BLOCKS. Active Ingredients: Pival 2-Pivalyl-1,3-Indandione 0.025%. Method of Support: Application proceeds under 2(b) of interim policy. PM11

EPA File Symbol 39259-T. The Aluvis Co. RAT-XP FENCE BLOCK ALL WEATHER ROOF RAT BAIT READY TO USE BLOCKS. Active Ingredients: Pival 2-Pivalyl-1,3-Indandione 0.025%. Method of Support: Application proceeds under 2(b) of interim policy. PM11

EPA File Symbol 150-LA. Anderson Chemical Co., Box 1041, Litchfield MN 55355. ANDROCIDE-PINE. Active Ingredients: n-Alkyl (60% C14, 30% C16, 5% C12, 5% C18) dimethyl benzyl ammonium chlorides 1.6%; n-Alkyl (68% C12, 32% C14) dimethyl ethylbenzyl ammonium chlorides 1.6%; Sodium Carbonate 3.0%; Pine Oil 1.0%. Method of Support: Application proceeds under 2(b) of interim policy. PM32

EPA File Symbol 150-LU. Anderson Chemical Co. TETRACIDE. Active Ingredients: n-Alkyl (60% C14, 30% C16, 5% C12, 5% C18) dimethyl benzyl ammonium chlorides 0.8%; n-Alkyl (68% C12, 32% C14) dimethyl ethylbenzyl ammonium chlorides 0.8%; Sodium Metasilicate 2.4%; Tetrasodium ethylenediamine tetraacetate 1.0%. Method of Support: Application proceeds under 2(b) of interim policy. PM33

EPA Reg. No. 150-47. Anderson Chemical Co. COUNT-MINUS 5. Active Ingredients: n-Alkyl (60% C14, 30% C16, 5% C12, 5% C18) dimethyl benzyl ammonium chlorides 5.0%; n-Alkyl (68% C12, 32% C14) dimethyl ethylbenzyl ammonium chlorides 5.0%; Phosphoric Acid 30.0%. Method of Support: Application proceeds under 2(b) of interim policy. Republished: Revised offer to pay statement submitted. PM32

EPA File Symbol 10276-R. Applegate's Drug Stores, Inc., Highway 71-North, Bentonville, AK 72712. APPLEGATE'S NOSPROUT. Active Ingredients: Isopropyl m-chlorocarbanilate 47%. Method of Support: Application proceeds under 2(b) of interim policy. PM25

EPA File Symbol 5667-RNR. Barrett Chemical Co., "H" & Luzerne Sts., Philadelphia PA 19124. BARRETT'S CLEANER CONCENTRATE #15. Active Ingredients: alpha-(p-Nonylphenyl)-omega - hydroxypoly (oxyethylene)-iodine complex (Providing 1.75% titratable iodine) 18.05%; Phosphoric Acid 16.0%. Method of Support: Application proceeds under 2(b) of interim policy. Republished: Revised offer to pay statement submitted. PM34

EPA File Symbol 5667-RNN. Barrett Chemical Co. BARRETT'S CLEANER CONCENTRATE #16. Active Ingredients: alpha-(p-Nonylphenyl)-omega-hydroxypoly(oxyethylene)-iodine complex (Providing 1.75% titratable iodine) 18.05%; Phosphoric Acid 16.00%. Method of Support: Application proceeds under 2(b) of interim policy. Republished: Revised offer to pay statement submitted. PM34

EPA File Symbol 5667-00. Barrett Chemical Co. BARRETT'S CLEANER CONCENTRATE #18. Active Ingredients: Butoxy polypropoxy polyethoxy ethanol-iodine complex 12.47%; Polyethoxy polypropoxy polyethoxy ethanol-iodine complex (providing 1.6% titratable iodine) 0.37%. Method of Support: Application proceeds under 2(b) of interim policy. Republished: Revised offer to pay statement submitted. PM34

RECEIPT OF APPLICATION FOR PESTICIDE REGISTRATION

Data To Be Considered in Support of Applications

On November 19, 1973, the Environmental Protection Agency (EPA) published in the FEDERAL REGISTER (39 FR 31862) its interim policy with respect to the administration of section 3(c)(1)(D) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended ["Interim Policy Statement"]. On January 22, 1976, EPA published in the FEDERAL REGISTER a document entitled "Registration of a Pesticide Product—Consideration of Data by the Administrator in Support of an Application" [41 FR 3339]. This document described the changes in the Agency's procedures for implementing section 3(c)(1)(D) of FIFRA, as set out in the Interim Policy Statement, which were effectuated by the enactment of the recent amendments to FIFRA on November 28, 1975 [Pub. L. 94–140], and the new regulations governing the registration and re-registration of pesticides which became effective on August 4, 1975 [40 CFR Part 162].

Pursuant to the procedures set forth in these FEDERAL REGISTER documents, EPA hereby gives notice of the applications for pesticide registration listed below. In some cases these applications have recently been received; in other cases, applications have been amended by the submission of additional supporting data, the election of a new method of support, or the submission of new "offer to pay" statements.

In the case of all applications, the labeling furnished by the applicant for the product will be available for inspection at the Environmental Protection Agency, Room 209, East Tower, 401 M Street, SW., a Washington DC 20460. In the case of applications subject to the new section 3 regulations, and applications not subject to the new section 3 regulations which utilize either the 2(a) or 2(b) method of support specified in the Interim Policy Statement, all data citations submitted or referenced by the applicant in support of the application will be made available for inspection at the above address. This information (proposed labeling and, where applicable, data citations) will also be supplied by mail, upon request. However, such a request should be made only when circumstances make it inconvenient for the inspection to be made at the Agency offices.

Any person who (a) is or has been an applicant, (b) believes that data he developed and submitted to EPA on or after January 1, 1970, is being used to support an application described in this notice, (c) desires to assert a claim under section 3(c)(1)(D) for such use of his data, and (d) wishes to preserve his right to have the Administrator determine the amount of reasonable compensation to which he is entitled for such use of the data or the status of such data under section 10 must notify the Administrator and the applicant named in the notice in the FEDERAL REGISTER of his claim by certified mail. Notification to the Administrator should be addressed to the Product Control Branch, Registration Division (WH–567), Office of Pesticide Programs, Environmental Protection Agency, 401 M St. SW, Washington DC 20460. Every such claimant must include, at a minimum, the information listed in the Interim Policy Statement of November 19, 1973.

Specific questions concerning applications made to the Agency should be addressed to the designated Product Manager (PM), Registration Division (WH–567), Office of Pesticide Programs, at the above address, or by telephone as follows:

PM 11, 12, & 13—202/755–9315
PM 21 & 22—202/426–2454
PM 24—202/755–2196
PM 31—202/426–2635
PM 33—202/755–9041
PM 15, 16, & 17—202/426–9425
PM 23—202/755–1397
PM 25—202/755–7012
PM 32—202/426–9486
PM 34—202/426–9490

The Interim Policy Statement requires that claims for compensation be filed on or before November 1, 1976. With the exception of 2(c) applications not subject to the new Section 3 regulations, and for which a sixty-day hold period for claims is provided, EPA will not delay any registration pending the assertion of claims for compensation or the determination of reasonable compensation. Inquiries and assertions that data relied upon are subject to protection under Section 10 of FIFRA, as amended, should be made on or before September 30, 1976.

Dated: August 24, 1976.

JOHN B. RITCH, Jr.,
Director, Registration Division.

EPA Reg. No. 2749–232. Aceto Chem. Co., Inc., Agricultural Chemicals Div., 126–02 Northern Blvd, New York NY 11368. DCPA 75W HERBICIDE. TERRITORY OF GUAM

Submission of State Plan for Certification of Pesticide Applicators

In accordance with the provisions of section 4(a)(2) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (86 Stat. 973; 7 U.S.C. 136) and 40 CFR Part 171 (39 FR 36446 (October 9, 1974) and 40 FR 11698 (March 12, 1975)), the Honorable Ricardo J. Bordallo, Governor of the Territory of Guam has submitted a Territory of Guam State Plan for Certification of Commercial and Private Applicators of Restricted Use Pesticides to the Environmental Protection Agency (EPA) for approval on a contingency basis. Contingency approval is being requested pending enactment of legislation which has been proposed, and promulgation of regulations implementing this new legislation. Copies of the proposed legislation and a description of regulations to be promulgated are attached to the plan.

Notice is hereby given of the intention of the Regional Administrator, EPA Region IX, to approve this plan on a contingency basis.

A summary of this plan follows. The entire plan, together with all attached appendices (except sample examinations), may be examined during normal business hours at the following locations:

Guam, Environmental Protection Agency Post Office Box 2999, Agana, Guam. 96910, (646–8863/64/65).

Room 360, 100 California Street, San Francisco, CA 94111 (Pesticides Branch, Air & Hazardous Materials Control Division, EPA Region IX, (415) 556–3352).

Room 401, East Tower, Waterside Mall, 401 M Street, S.W., Washington, D.C. 20460 (Federal Register Section, Technical Services Division (WH–569), Office of Pesticide Programs, EPA, (202) 755–4854).

SUMMARY OF TERRITORY OF GUAM STATE PLAN

The Guam Environmental Protection Agency (GEPA) has been designated as the Territorial lead agency for the Administration, implementation, coordination and enforcement of the pesticide applicator certification program.

A cooperating agency in the certification program includes the College of Agriculture and Life Sciences, Cooperative Extension Service, University of Guam. The Cooperative Extension Service, in cooperation with GEPA, will prepare a training program for pesticide applicators and oral and auto-tutorial reinforced learning programs for private applicators.

Legal authority for the program is contained in the Guam Pesticides Act of 1975 (proposed legislation). Anticipated date of passage is December, 1976, with final regulations promulgated by June, 1977.

The plan indicates that the Territorial lead agency and cooperating agency will have sufficient qualified personnel and funds necessary to carry out the proposed programs. The GEPA has been awarded an EPA grant for Fiscal Year 1976 in the amount of $39,200 to support certification programs. The University of Guam, College of Agriculture and Life Sciences under the USDA/EPA Cooperative Agreement is scheduled to receive in Fiscal Year 1976 $26,276 to support training programs for commercial and private applicators.

The GEPA estimates that 81 commercial and approximately 100 private applicators will need to be certified. Wallet size identification certificates containing information relating to the type of certification received and its duration will be furnished all applicators, to present to the dealer at the time of restricted use pesticide purchase.

The Territorial lead agency will submit an annual report to EPA by January 1 of each year and any special reports as required by the Administrator.

The commercial categories proposed are those which are listed in 40 CFR 171.3. The lead agency has proposed to utilize seven out of the ten categories listed in 40 CFR 171.3. No new categories are proposed. The categories not to be used in Guam are as follows:

(4) Seed Treatment,
(5) Aquatic Pest Control and,
(10) Demonstration and Research Pest control.

Due to particular agricultural and other pest control operations in Guam the lead agency feels that the three categories listed above will not be needed at this time.

The Territory of Guam plans to certify commercial applicators by means of a written examination that will cover both the Federal general standards or "core" materials and the specific standards as required by 40 CFR 171.4 and 171.6.

Under the authority of Guam Executive Order 75–29 the Territory of Guam has instituted an interim certification program to train commercial applicators in the general standards of competency to allow for partial control of the use of restricted use pesticides until the University of Guam training program in pesticides is available. Under the interim certification program commercial applicators attended a short training course held at the University of Guam and were given a written examination covering specific pesticides being used in Guam and general pesticide safety measures for storing, using, or disposing of pesticides.

For full certification applicators will attend training sessions conducted by the Extension Service. A written examination will be given at the training session and will cover Federal standards 40 CFR 171.4 and 171.6. The EPA core manuals and specific category manuals covering these standards will be utilized by the Extension Service. Information about the courses and examinations may be obtained from Cooperative Extension agents and the Guam Environmental Protection Agency.

Private applicators will be certified by one of two principal certification methods to be utilized in Guam. The Cooperative Extension agents will provide short courses based on the U.S. EPA private

V 41 170
AUG 31 76
UMI

applicator manual which covers the requirements of 40 CFR 171.5(a) and 171.6. The Extension agents will ask review questions and the applicators will respond to these questions on the application for certification forms. The Extension agent will reinforce the learning of the applicator by reviewing and discussing the answers with the applicator. The applicant will correct any wrong responses. This is not intended as an examination, but as a review with reinforced learning to insure participation by the applicator in the training activity. When the application is signed by the Extension agent it will be sent to GEPA for approval and issuance of certificate.

Depending on the availability of funds, an auto-tutorial system may also be offered. A film-strip or slides together with a tape based on the EPA private applicator manual will be presented in the Extension Service office. The applicant will be given review questions to answer on his application form, and will be provided with the answers for correcting his own paper. The Extension agent will sign the application form indicating that the applicant was present, and successfully completed the training program.

Applicators with poor reading comprehension may have someone else read the EPA manual to them, and then take an oral examination given by the Extension Service. Alternatively, they may be tutored by the Extension agent with subsequent discussion of the review questions. Certification issued in this manner will be limited to the specific product for which the applicant is being questioned.

The Territory of Guam State plan indicates that applicators who cannot read pesticide labels will not be allowed to apply restricted use pesticides.

Sample examination questions from the interim certification program are attached to the Guam Plan. The examinations and review questions used in the formal certification program will be submitted to EPA at a later date for evaluation. To preserve the confidentiality of the examination, the Territory of Guam has requested that EPA not make any examinations available for public inspection.

The Territory of Guam State plan also indicates that within sixty days of the final approval of the Government Agency Plan (GAP) by EPA, a statement concerning the acceptance of GAP qualified Federal employees will be forwarded for inclusion in the Guam plan.

Territorial plans for the Trust Territory of the Pacific Islands are not sufficiently developed to properly address the issue of reciprocity; when such are developed Guam will give favorable consideration to the development of reciprocal agreements.

Other regulatory activities listed in the Guam plan which will supplement the Guam certification program are pesticide registration, inspection, and sampling of pesticide products. Under the proposed legislation, dealers handling restricted use pesticides will be licensed. Until enactment of proposed pesticide legislation, Guam has instituted an interim dealer licensing program that took effect on August 1, 1975.

Certified applicators will be required to renew their certificates annually. Although GEPA has not finally decided the method they will utilize for recertification, the Territory of Guam State plan indicates that two recertification options are being considered: re-examination without formal training, or a minimum of three hours training to be completed within the year before certification expires.

Enforcement of the Guam certification program will be carried out by an Environmental Health Specialist II. A regular program of monitoring will be performed and includes such activities as verification of the applicator's credential, review of the product label to assure use compliance, checks on the use of proper safety equipment, and observation of application of pesticides. Product sampling will also be undertaken. Follow-up reports on suspected violations encountered during the regular monitoring program will be considered for enforcement action by GEPA.

PUBLIC COMMENTS

Interested persons are invited to submit written comments on the proposed State plan for the Territory of Guam to the Chief, Pesticides Branch, Air and Hazardous Materials Division, Region IX, Environmental Protection Agency, Room 360, 100 California Street, San Francisco, California 94111. The comments must be received on or before September 30, 1976 and should bear the identifying notation (OPP-42030). All written comments filed pursuant to this notice will be available for public inspection at the above mentioned locations from 8:30 a.m. to 4:30 p.m. Monday through Friday.

Dated: July 28, 1976.

PAUL DEFALCO, JR.,
Regional Administrator,
Region IX.

ENERGY RESEARCH AND DEVELOPMENT ADMINISTRATION

ADVISORY COMMITTEE ON GEOTHERMAL ENERGY

Meeting

In accordance with provisions of Pub. L. 92-463 (Federal Advisory Committee Act), the Advisory Committee on Geothermal Energy (ACGE) will hold its first meeting on Thursday, September 16, 1976, from 9 a.m. to 5 p.m., Suite 285, World Trade Center, 350 South Figueroa Street, Los Angeles, California. This meeting will be open to the public. The purpose of this meeting is: to review plans and activities of the Division of Geothermal Energy, U.S. Energy Research and Development Administration; to discuss and to provide advice on programs and approaches to effective government-industry cooperation in the development of geothermal energy. The tentative agenda for the meeting is as follows:

9:00 a.m.	Opening Remarks — Chairman ACGE, Carel Otte, and ERDA Representatives: J. C. Bresee, R. D. Thorne, F. Howe.
9:30 a.m.	Report on Actions of the Interagency Geothermal Advisory Council and Its Panels—ERDA Representative, J. C. Bresee; Federal Energy Administration, E. A. Kuhn.
10:30 a.m.	Review of Federal Geothermal Program Plans—ERDA Representative, M. N. Mansour.
11:30 a.m.	Status of Loan Guaranty Program — ERDA Representative, M. Silverman.
12:00 noon	Lunch.
1:30 p.m.	Summary of Commercial Activities—Committee Members.
3:00 p.m.	General Discussion of Government-Industry Cooperation—ERDA Representatives: J. C. Bresee, J. W. Salisbury, R. S. H. Toms, L. B. Werner. (a) Proposed Cost-Sharing Initiatives: 1. Role of Demonstration Plants. 2. Joint ERDA-Industry Reservoir Exploration and Assessment. (b) Alternate Cooperative Programs.
4:30 p.m.	Other business—Chairman ACGE, Carel Otte.
5:00 p.m.	Adjournment — Chairman ACGE, Carel Otte.

Practical considerations may dictate alterations in the above agenda or schedule.

The chairman is empowered to conduct the meeting in a manner that in his judgment will facilitate the orderly conduct of business.

With respect to public participation in agenda items, scheduled above the following requirements shall apply:

(a) Persons wishing to submit written statements on agenda items may do so by mailing 12 copies thereof, postmarked no later than September 10, 1976, to the Director, Division of Geothermal Energy, U.S. Energy Research and Development Administration, 20 Massachusetts Avenue NW., Washington, D.C. 20545. Comment shall be directly relevant to the above agenda items. Minutes of the meeting will be kept open for 30 days for the receipt of written statements for the record.

(b) Information as to whether the meeting has been rescheduled or relocated can be obtained by a prepaid telephone call on September 14, 1976 to the Division of Geothermal Energy, Energy Research and Development Administration, Helen Krupovich on (202) 376-4843 between 8:30 a.m. and 5:00 p.m., e.s.t.

(c) Questions at the meeting may be propounded only by members of the Committee and ERDA officials assigned to participate with the Committee in its deliberations.

(d) Seating to the public will be made available on a first-come, first-served basis.

(e) The use of still, movie, and television cameras, the physical installation and presence of which will not interfere with the course of the meeting, will be permitted both before and after the meeting and during any recess. The use of such equipment will not, however, be allowed while the meeting is in session.

(f) Copies of minutes will be made available for copying, following their certification by the Chairman in accordance with the Federal Advisory Committee Act, at the Energy Research and Development Administration's Public Document Room, 20 Massachusetts Avenue, N.W. Washington, D.C. 20545, upon payment of all charges required by law.

HARRY L. PEEBLES,
Deputy Advisory Committee
Management Officer.

FEDERAL ENERGY ADMINISTRATION

APPEALS AND APPLICATIONS FOR EXCEPTIONS

Cases Filed Week of August 13 Through August 20, 1976

Notice is hereby given that during the week of August 13 through August 20, 1976, the appeals and applications for exception or other relief listed in the Appendix to this notice were filed with the Federal Energy Administration's Office of Exceptions and Appeals.

Under the FEA's procedural regulations, 10 CFR, Part 205, any person who will be aggrieved by the FEA action sought in such cases may file with the FEA written comments on the application within ten days of service of notice, as prescribed in the procedural regulations. For purposes of those regulations, the date of service of notice shall be deemed to be the date of publication of this notice or the date of receipt by an aggrieved person of actual notice, whichever occurs first.

MICHAEL F. BUTLER,
General Counsel.

AUGUST 25, 1976.

APPENDIX.—*List of cases received by the Office of Exceptions and Appeals, Aug. 13 to Aug. 20, 1976*

Date	Name and location of applicant	Case No.	Type of submission
Aug. 13, 1976	Arizona Fuels Corp., Salt Lake City, Utah (If granted: The FEA's July 16, 1976, decision and order would be rescinded and Arizona Fuels Corp. would be relieved of any obligation to purchase entitlements for the months of April through October 1976.)	FEA-0928	Appeal of the FEA's decision and order in Arizona Fuels Corp., 4 FEA par. ------ (July 16, 1976).
Do	R. M. Edwards, Tulsa, Okla. (If granted: The Oberle Lease wells located in Rice County, Kans. would be classified as stripper wells.)	FEE-2900	Price exception (sec. 212.74).
Do	Fred Goodstein, Casper, Wyo. (If granted: The crude oil produced from the Fred Goodstein Amoco Federal No. 1 well located in Crook County, Wyo., would be sold at upper-tier ceiling prices.)	FEE-2899	Do.
Do	Henry W. King, Childress, Tex. (If granted: The FEA's July 15, 1976, decision and order would be rescinded and crude oil produced from the Ackerly unit would be sold at upper-tier ceiling prices for the benefit of both the working interest owners and the royalty interest owners.)	FEA-0926	Appeal of the FEA's decision and order in Austral Oil Co., Inc., 4 FEA par. ------ (July 15, 1976).
Do	Redd Fuel Co., Inc., Boston, Mass. (If granted: The FEA's July 22, 1976, remedial order would be rescinded and Redd Oil Co. would not be required to refund any overcharges made in its sales of No. 2 heating oil.)	FEA-0927 FES-0927	Appeal of the FEA's remedial order dated July 22, 1976. Stay requested.
Do	Signal Petroleum, New Orleans, La. (If granted: Exception relief to permit Signal Petroleum to increase its prices for natural gas liquid products produced at the Lake Washington cycling plant to reflect nonproduct cost increases in excess of $0.005/gal. would be extended.)	FEE-2901	Extension of price relief granted in Signal Petroleum, 4 FEA par. ------ (July 19, 1976).
Aug. 16, 1976	Beacon Gasoline Co., Washington, D.C. (If granted: Exception relief to permit Beacon Gasoline Co. to increase its prices for natural gas liquid products to reflect nonproduct cost increases in excess of $0.005/gal. would be extended.)	FEE-2902	Extension of exception relief in Beacon Gasoline Co., 3 FEA par. 83,208 (June 7, 1976).
Do	National Helium Corp., Liberal, Kans. (If granted: National Helium Corp. would receive an extension of the exception relief granted on July 20, 1976, to permit it to increase its prices for natural gas liquid products to reflect nonproduct cost increases in excess of $0.005/gal.)	FEE-2903	Extension of exception relief in National Helium Corp., 4 FEA par. ------ (July 20, 1976).
Aug. 18, 1976	Bryant Oil Co., Huntington Park, Calif. (If granted: Bryant Oil Co. would be assigned a new lower priced supplier of motor gasoline to replace its base period supplier, Tosco.)	FEE-2905	Exception to change supplier.
Do	Coline Gasoline Co., Washington, D.C. (If granted: Coline Gasoline Corp. would receive an extension of the exception relief granted on July 19, 1976, to permit it to increase its prices for natural gas liquid products to reflect nonproduct cost increases in excess of $0.005/gal.)	FEE-2904	Extension of exception relief in Coline Gasoline Corp., 4 FEA par. ------ (July 19, 1976).
Do	Stone, Pigman, Walther, Wittmann & Hutchinson, New Orleans, La. (If granted: Stone, Pigman, Walther, Wittman & Hutchinson would receive access to portions of documents prepared in connection with a complaint against OKC Corp. filed with the FEA by Good Hope Refineries, Inc.)	FEA-0929	Appeal of the FEA's information request denial.
Aug. 19, 1976	Aminoil USA, Inc., Houston, Tex. (If granted: Aminoil USA, would receive an extension of the exception relief granted on July 30, 1976, to permit it to increase its prices to reflect nonproduct cost increases in excess of $0.005 for natural gas liquid products produced at its Aline, Fox, Huntington Beach, Inglewood, Taloga, and Tioga plants.)	FEE-2941—FEE-2946	Extension of exception relief in Aminoil USA, Inc., 4 FEA par. ------ (July 30, 1976).

V 41 170 AUG 31 76 UMI

APPENDIX.—*List of cases received by the Office of Exceptions and Appeals, Aug. 13 to Aug. 20, 1976*

Date	Name and location of applicant	Case No.	Type of submission
Aug. 19, 1976...	Atlantic Richfield Co., Dallas, Tex. (If granted: Atlantic Richfield Co. would receive an extension of the exception relief granted on July 13, 1976, to permit it to increase its prices to reflect nonproduct cost increases in excess of $0.005/gal for natural gas liquid products produced at the following natural gas plants: Covington, Crane, Dayton, Drumright, East Village Mills, Eldorado, Hull, Longview, Midland, Nueces River, Ojai Timber, Price, Riverton Dome, Seminole, Silsbee, South Hampton, Stevens-Calidon, and Taft.)	FEE-2906—FEE-2923	Extension of exception relief in Atlantic Richfield Co., 4 FEA par. ..... (July 13, 1976).
Do.....	Custom Oil Co., Inc., Garfield, N.J. (If granted: Custom Oil Co., Inc., would be assigned a new lower-priced supplier of motor gasoline to replace its base period suppliers, Ashland Oil Co., Allen Oil Co., Supreme Petroleum Co., and Tenneco Oil Co.)	FEE-2927	Exception to change supplier.
Do.....	Gary Operating Co., Englewood, Colo. (If granted: Gary Operating Co. would receive an extension of the exception relief granted on June 24, 1976, to permit it to increase its prices to reflect nonproduct cost increases in excess of $0.005/gal for natural gas liquid products produced at its Altonah and Bluebell gas processing plants.)	FEE-2925—FEE-2926	Extension of exception relief in Gary Operating Co., 3 FEA par. 83,241 (June 24, 1976).
Do.....	Newhall Refining Co., Inc., Newhall, Calif. (If granted: Newhall Refining Co., Inc.'s, entitlement purchase obligation for May 1976 would be reduced.)	FEA-0930	Appeal of the FEA's July 23, 1976 entitlement notice for May 1976.
Do.....	Sun Oil Co., Dallas, Tex. (If granted: Sun Oil Co. would receive an extension of the exception relief granted on July 7, 1976, to permit it to increase its prices to reflect nonproduct cost increases in excess of $0.005 for natural gas liquid product produced at its Burnell, Canales, Carney, Concho, Cowden, Dragon Trail, Heyser, Maurice, Mayfield, Mermentau, Peoria, Steedman, and Tonkawa plants.)	FEE-2928—FEE-2940	Extension of exception relief in Sun Oil Co., 3 FEA par. 83,269 (July 7, 1976).
Do.....	Superior Oil Co. (Rio Bravo), Houston, Tex. (If granted: Superior Oil Co. would receive an extension of the exception relief granted on June 7, 1976, to permit it to increase its prices to reflect nonproduct cost increases in excess of $0.005/gal for natural gas liquid products produced at its Rio Bravo plant.)	FEE-2924	Extension of exception relief in Superior Oil Co. 3 FEA par. 83,218 (June 7, 1976).

APPEALS AND APPLICATIONS FOR EXCEPTIONS

Issuance of Decisions and Orders, Week of August 9 Through August 13, 1976

Notice is hereby given that during the week of August 9 through August 13, 1976, the Decisions and Orders summarized below were issued with respect to Appeals and Applications for Exception or other relief filed with the Office of Exceptions and Appeals of the Federal Energy Administration. The following summary also contains a list of submissions which were dismissed by the Office of Exceptions and Appeals and the basis for the dismissal.

REQUESTS FOR EXCEPTION

City of Long Beach, Calif.; Long Beach, Calif.; FEE-2234; Crude Oil

The City of Long Beach, California (Long Beach) filed an Application for Exception from the provisions of 10 CFR Part 212, Subpart D which, if granted, would permit Long Beach to sell the crude oil produced from Fault Block Units 2, 3, 4, and 5 located on the Wilmington Field at the upper tier ceiling price. In considering the City's contention that there was no economic incentive to continue to operate Fault Block Unit 2, the FEA noted that Long Beach had included in the financial projections for 1976 both a mining tax which it will not pay and production termination costs, which have no bearing on the City's economic incentive to continue production from the Unit. When these projected expenses were excluded, the FEA found that Long Beach's financial projections demonstrated that Unit 2 would generate a positive economic return until December 1976. However, the FEA concluded that since the production data indicated that the City would have no economic incentive to continue production after December 1976, the FEA would consider granting the City exception relief at that time if Long Beach could present additional data showing the Unit's actual operating results through September 1976. In denying without prejudice the City's exception application with respect to Units 3, 4, and 5 the FEA emphasized that Long Beach has projected that those Units will continue to generate economic profits for an even longer period of time than Unit 2. Thus, the FEA determined that it could not at this time determine if Units 3, 4, and 5 will actually incur losses in the months projected by Long Beach.

Great Southern Oil & Gas, Inc.; Lafayette, La.; FEE-2760; crude oil

Great Southern Oil & Gas Company, Inc. (Great Southern) filed an Application for Exception from the provisions of 10 CFR, Part 212, Subpart D. The request, if granted, would result in an extension of the exception relief previously granted to Great Southern and would permit Great Southern to continue to sell a certain portion of the crude oil produced from the Elizabeth Longman No. 1 well (Longman well) at upper tier ceiling prices. See Great Southern Oil & Gas, Inc., 3 FEA Par. 83,124 (March 9, 1976). In considering the exception application, the FEA found that the Longman well was still incurring increased operating costs and the working interests continued to lack the incentive to produce crude oil from the property at the lower tier ceiling price. In view of this situation and on the basis of the operating data presented for the well for the previous six months, the FEA concluded that the working interest owners should be permitted to sell 100 percent of the crude oil produced from the well at upper tier ceiling prices in order to recover the increased operating costs.

J&W Refining, Inc.; Tucker, Tex.; FEE-2720; Crude Oil

J&W Refining, Inc. (J&W) filed an Application for Exception from the provisions of 10 CFR 211.67 (The Old Oil Entitlements Program) which, if granted, would relieve the firm of any obligation to purchase entitlements beginning with the month of April 1976. On June 10, 1976, J&W's entitlement obligations were stayed pending a determination of its exception request. In considering J&W's exception request, the FEA determined that J&W's operations have been conducted by a Receivor under Chapter XI of the Federal Bankruptcy Act since July 1975. The FEA further determined that although the firm's position under the Entitlements Program did not create its continuing financial difficulties, any entitlement purchases which the firm makes will reduce the amount of cash available to the firm to pay its outstanding debts. Moreover, J&W is currently experiencing a deficit in its working capital balance and even without entitlement purchase obligations during its current fiscal year ending March 31, 1977, it will continue to operate with an insufficient working capital balance. The FEA also found that a formal plan for repaying J&W's creditors would be delayed by the receivor until it was apprised of J&W's exact future obligation under the Entitlement's Program and consequently, without exception relief J&W would be operated by the receivor for a longer period of time. The FEA therefore determined that exception relief should be extended to the firm which relieved J&W of its entitlement purchase obligations during the firm's current fiscal year. The FEA also determined that J&W should be awarded sufficient entitlements for the months of August and September 1976 to enable it to satisfy its entitlement obligations for April and May 1976 which were stayed by the June 10, 1976 Order.

Laketon Asphalt Refining, Inc.; Evansville, Ind.; FEE-2558; Crude Oil

Laketon Asphalt Refining, Inc. (Laketon) filed an Application for Exception from the provisions of 10 CFR 211.67 (the Old Oil Entitlements Program). The request, if granted, would have prospectively relieved the firm of any entitlement purchase obligations and retroactively relieved the firm of its obligation to purchase entitlements for its crude oil receipts, and runs to stills for the months of April and May 1976. In considering Laketon's exception request the FEA determined that Laketon's projected entitlements purchase obligations during the remainder of the firm's current fiscal year ending December 31, 1976 would cause it to realize profits which would be less than its historic profit margin and return on invested capital. Under the criteria set forth in Delta Ref. Co., 2 FEA Par. 83,275 (September 11, 1975) and Beacon Oil Co., 3 FEA 83,209 (June 8, 1976), prospective exception relief was therefore appropriate. Accordingly, the FEA approved exception relief which relieved Laketon of its entitlements purchase obligations during the period August 1976 through January 1977. However, in considering Laketon's request for retroactive relief, the FEA determined that despite the ample notice which the FEA provided to firms such as Laketon to enable them to make timely filings for exception relief, Laketon failed to submit its exception application until July 12, 1976. Accordingly the FEA concluded that Laketon must make a very strong showing that it would be so adversely affected in the absence of exception relief for April and May 1976 as to result in severe and irreparable injury to the firm. Since the financial data submitted by Laketon indicated that the firm will have a positive cash flow for the quarter ending September 30, 1976, the FEA determined that Laketon had failed to make the requisite showing of severe and irreparable injury. Laketon's request for retroactive exception relief was therefore denied.

REQUESTS FOR STAY

Atlantic Richfield Co.; Los Angeles, Calif.; FES-0044; Assignment of Motor Gasoline Supplier

The Atlantic Richfield Company (Arco) requested a stay of a June 11, 1976 Decision and Order which granted the UCO Oil Company (UCO) exception relief, pending a determination on Arco's Appeal of that Decision. UCO Oil Company, 3 FEA Par. 83,219 (June 11, 1976). The June 11 Decision required the Regional Administrator of FEA Region IX to issue Assignment Orders directing appropriate firms to supply 10,279,566 gallons of motor gasoline to UCO during the months of June through August 1976. Accordingly on June 28, 1976, the Regional Administrator issued an Assignment Order to Arco directing the firm to supply UCO with 1,414,805 gallons of motor gasoline. In considering Arco's request for Stay, the FEA found that the firm had not submitted any information to demonstrate that the branded marketers which Arco supplies would experience any significant hardship as a result of the June 11 Exception Decision and the June 28 Assignment Order, or that the June 11 Decision erred in determining that the application or FEA regulations was causing UCO a serious financial hardship. The FEA therefore concluded that Arco had not shown a strong likelihood of success on the merits of its Appeal. Therefore the FEA denied Arco's request for a Stay.

Harris Enterprises, Inc.; Portland, Oreg.; FES-2820; Motor Gasoline

Harris Enterprises, Inc. (Harris) requested a stay of the provisions of 10 CFR 211.9 which if granted would result in the immediate assignment of a new supplier of motor gasoline to replace its base period suppliers: Aminoil Oil U.S. (Aminoil); Lion Oil Company (Lion); Powerine Oil Company (Powerine); and Mercury Oil Company (Mercury). Harris requested the stay pending a final determination on an Application for Exception which Harris submitted on the same date. In considering the Application for Stay the FEA determined that Harris had failed to meet the standards specified by Section 205.125(b) for the approval of a stay. In making this determination, the FEA found that the Harris submission did not even specify the overall weighted-average price which the firm was paying for motor gasoline and did not include a representative market sampling of its competitors' prices. Furthermore, Harris did not submit adequate documentation to support the firm's contention that it would be compelled to close certain of its retail outlets unless a stay were issued. In addition, the FEA found that the record in the proceeding indicated that approval of the stay could produce a severe disruption in the business activities of at least one of its base period suppliers. The Application for Stay was therefore denied.

SUPPLEMENTAL ORDERS

Little America Refining Co.; Evansville, Wyo.; FEX-0058; Crude Oil

On June 17, 1976 the FEA granted Little America Refining Company (Larco) exception relief which relieved the firm of any obligation to purchase entitlements under the provisions of 10 CFR 211.67 during June through November 1976. *Little America Ref. Co.*, 3 FEA Par. 83,227 (June 17, 1976). On July 19, 1976 the FEA informed Larco of its intention to rescind the exception relief granted in the June 17 Order regarding the firm's entitlement purchase obligations in September, October, and November 1976 on the ground that the factual basis underlying the approval of exception relief for those months has been considerably altered. In the present supplemental order, the FEA determined that on July 1, 1976 a Larco subsidiary had acquired certain assets of Pasco, Inc. which had tripled the firm's refining capacity and substantially changed the basis for its earlier projections of its crude oil runs to stills, receipts of old oil, and financial results during the period from July through September 1976. The FEA further noted that on August 2, 1976 Larco filed a new exception application and the firm's contention that it should not be required to purchase entitlements will be fully considered in that proceeding. However, the FEA determined that the filing of a new exception request did not justfy the continuation of the prior exception relief which had been approved on the basis of circumstances which have subsequently changed to a significant extent. The June 17 Order was therefore modified to revoke the exception relief for September through November 1976.

Pasco, Inc.; Denver Colo.; FEX-0057; Crude Oil

On June 18, 1976 the FEA granted Pasco, Inc. (Pasco) exception relief which reduced the firm's entitlement purchase obligation during June through November 1976 by $2,157,163 per month. *Pasco, Inc.*, 3 FEA Par. 83,232 (June 18, 1976). On July 21, 1976 the FEA informed Pasco of its intention to rescind the exception relief granted in the June 18 Order regarding the firm's entitlement purchase obligations in September, October, and November 1976 on the ground that the factual basis underlying the approval of exception relief with respect to those months no longer existed. In the present Supplemental Order the FEA determined that, as a result of Pasco's termination of its refining operation on July 1, 1976, the firm will not incur any obligation to purchase entitlements during the period from September through November 1976. The June 18 Order was therefore modified to revoke the exception relief for September through November 1976.

DISMISSALS

The following submissions were dismissed following a statement by the applicant indicating that the relief requested was no longer needed:

Hercules Petroleum Co., Inc.; Choudrant, La.; FEE-2702

PHD Corp.; Washington, D.C.; FEE-2568

Union Oil Co. of Calif.; Palatine, Ill.; FEE-2713

Zack's Gulf Service Station; Wilkes-Barre, Pa.; FEE-2766

The following submission was dismissed for failure to correct deficiencies in the firm's filing as required by the FEA Procedural Regulations:

Dograffenreid's Store; Brumleg, Mo.; FEE-2711

The following submission was dismissed after the applicant repeatedly failed to respond to requests for additional information:

Kamur Industries, Inc.; Oakland, Calif.; FEE-2555

The following submission was dismissed on the grounds that the request is now moot:

Wheeling-Pittsburgh Steel Corp.; Wheeling, W. Va.; FEE-2846

Copies of the full text of these Decisions and Orders are available in the Public Docket Room of the Office of Private Grievances and Redress, Room B-120, 2000 M Street, NW., Washington, D.C. 20461, Monday through Friday, between the hours of 1:00 p.m. and 5:00 p.m., e.s.t., except Federal holidays. They are also available in Energy Management: Federal Energy Guidelines, a commercially published loose leaf reporter system.

MICHAEL F. BUTLER,
General Counsel.

AUGUST 25, 1976.

PUBLIC FORUM ON COAL

Meeting

Notice is hereby given that a Public Forum on Coal will be held Monday, September 20, 1976, 9 a.m., Brown Palace Hotel, Grand Ballroom, 17th and Tremont Place, Denver, Colorado.

The one-day event will focus on the expanding role that coal will play in America's future. Top-level spokesmen for the Department of the Interior, the Environmental Protection Agency, State Energy agencies, utilities and public interest groups will discuss the issues facing coal development and utilization. About 4 hours will be provided for direct public participation.

The agenda for the meeting is as follows:

1. Keynote address.
2. Issues facing coal development—panel discussion and public discussion.
3. Luncheon.
4. Issues facing coal utilization—speech, panel discussion, and public discussion.
5. Open discussion.

The meeting is open to the public. The Program Chairman is empowered to conduct the meeting in a fashion that will, in his opinion, facilitate the orderly conduct of business. Any member of the public who wishes to file a written statement will be permitted to do so, either before or after the meeting. Members of the public who wish to make oral statements should inform Jackie Buckingham, Special Projects Coordinator, Energy Resource Development, at (202) 961-7681 at least 5 days prior to the meeting and reasonable provision will be made for their appearance on the agenda. Further information concerning the forum may be obtained from Mrs. Buckingham.

Transcripts of the proceedings will be made available for public inspection at the Federal Energy Administration.

Issued at Washington, D.C. on August 25, 1976.

MICHAEL F. BUTLER,
General Counsel.

VOL 41 170 AUG 31 76 UMI

FEDERAL MARITIME COMMISSION

[Docket No. 76-32]

ARCTIC LIGHTERAGE CO.

Proposed Initial Tariff in the Western Alaska Trade; Modification of Order

The Commission instituted this proceeding on June 11, 1976, to determine the lawfulness of an initial joint FMC/ICC tariff filed by Arctic Lighterage Company (Arctic) which went into effect as scheduled on June 16, 1976. Arctic's Tariff FMC–F No. 1 provides lighterage rates between ship's anchorage and shore at Nome and Kotzebue, Alaska and commodity rates between ship's anchorage and shore at Nome and Kotzebue and various coastal points in Alaska on the Bering Sea and Arctic Ocean.

In view of the overriding public interest in providing immediate and full service to the western Alaskan points in the trade and notwithstanding its investigation of Arctic's proposed initial tariff, the Commission determined not to suspend that tariff but rather allowed it to go into effect as scheduled. Moreover, in order to take advantage of the financial and revenue data accumulated during the 1976 operating season, the Commission waived Rule 12(a) of the Commission's Rules of Practice and Procedure and postponed the commencement of discovery until the close of Arctic's 1976 operating season in the trade. The Commission likewise waived Rule 5(a) of its Rules requiring that hearings shall commence no later than six months from the date of publication of the Commission's Order in the FEDERAL REGISTER.

On July 12, 1976, attorneys for the twenty-two (22) Complainants[1] in the proceeding filed a Petition for Reconsideration and Modification of our June 11th Order to the extent that it,

"(1) waives two fundamental requirements of the Rules of Practice and Procedure pertaining to the commencement of discovery and oral hearing in a timely and expeditious manner; (2) fails to require Arctic to make prompt refund, without a further proceeding, of any increase charges in excess of those determined in the subject case to be just, reasonable and lawful; and (3) fails to require respondent to submit directly to complainants at the end of each month of the 1976 operating season true copies of all freight bills or billings for all services performed under its initial tariff, F.M.C.–F No. 1.

Specifically, with respect to Item 1 above, Complainants urge the Commission to modify its Order to provide for: (1) the immediate commencement and conclusion of discovery; (2) the prompt scheduling of a prehearing conference at the request of any party before or after completion of discovery; and (3) a hearing promptly upon completion of discovery.

Arctic in its reply argues that as a new carrier it has no operating results to be examined and therefore no useful purpose would be served by requiring discovery prior to the close of the 1976 operating season.

Arctic does agree that the proceeding should be expedited and suggests that a hearing be held as soon as the results of its operations are available following the close of the current navigation season. In this regard, Arctic further suggests that following the submission of briefs the Commission proceed directly to a determination of the case, foregoing the issuance of an initial decision and oral argument before the Commission.

With respect to Complainants' request that Arctic keep an accounting of all freight monies received and make a refund of all increased charges if they should be found to be in excess of those determined after investigation to be just, reasonable and lawful, Arctic takes the position that the Commission lacks the authority to prescribe such an accounting and refund procedure.

Arctic is also opposed to any procedure which would require any disclosure to Complainants of freight bills or billing services performed under its initial tariff, on the grounds that such disclosure would be inconsistent with the statutory provisions of confidentiality set forth in section 20 of the Shipping Act, 1916. Arctic argues that section 20 of the Act makes it unlawful for a carrier to disclose such information to anyone other than the shipper or consignee without such shipper's/consignee's consent because it might be used to the detriment or prejudice of such shipper or consignee or improperly disclose his business transactions to a competitor.

Hearing Counsel support Complainants' position with respect to the commencement and completion of discovery. Hearing Counsel are of the opinion that commencement of the primary phase of discovery prior to the end of the 1976 operating season would not hinder the Commission's effort to accumulate and analyze the financial data required to be submitted by Arctic and would expedite the hearing process by permitting all parties to obtain the basic information necessary to resolve the issues in this proceeding.

However, Hearing Counsel believe that adequate time must be given to the staff after receipt of all the required financial data from Arctic to enable it to fully examine and ascertain what the data reflects with respect to Arctic's service in the trade. Therefore, while they concur in Complainants' request that a prehearing conference be held at the request of any party before or after completion of discovery, they also believe that a hearing date can only be determined after consultations between the Presiding Officer and all the parties as to a reasonable and realistic date.

Hearing Counsel support Arctic's argument that the Commission lacks authority to include any provision for the accounting and refund of transportation charges in its Order of Investigation and Hearing and argues that, absent the filing of a complaint setting forth violations of the Shipping Act and a request for reparation for any injury or damage caused thereby, the Commission is powerless to award reparations.[2]

Finally, Hearing Counsel oppose Complainants' request to obtain copies of all freight bills and billings for Arctic's 1976 operating season. They submit that the proper method for obtaining the documents is through the Commission's discovery procedures and that the privilege of confidentiality, if asserted by Arctic, can be made directly to the Presiding Officer.

We have reviewed the various arguments with respect to Complainants' Petition and are of the opinion that certain modifications to our original June 11th Order are warranted.

First, we will allow discovery to commence immediately. While we believe that meaningful discovery cannot be completed prior to the close of Arctic's 1976 season, commencement of discovery at this time will enable the parties to obtain certain basic information necessary in the proceeding.

Second, while we agree with Complainants that hearings should commence "promptly upon completion of discovery," Hearing Counsel's concern that the staff be afforded sufficient time to review the financial data is well taken. Therefore, we are adopting both Compainants' request that a prehearing conference be held at the request of any party before or after completion of discovery and Hearing Counsel's suggestion that the Presiding Officer, after consultation with all parties at the prehearing conference, set the date for the commencement of the hearing, which should be as soon as possible after completion of discovery. We see no purpose to be served by foregoing the issuance of an initial decision nor do we see any reason to decide, at least at this time, that oral argument before the Commission in this proceeding should be dispensed with.

Third, with respect to Arctic furnishing to Complainants' counsel copies of all freight bills or billings for all services performed, it is our opinion that any determination as to the nature and extent of the material to be furnished should be left to the Presiding Officer, who can make any necessary rulings on the question of confidentiality.

Finally, we are denying Complainants' request that Arctic be directed "to keep accurate account of all monies received by reason of the increased rates permitted to go into effect prior to investigation and make prompt refund of the increased charges in excess of those determined, after investigation to be just, reasonable and lawful." The imposition of a refund requirement is beyond our statutory authority. In the past where accounting and refund provisions have been included in a rate investigation order it has been with the specific concurrence of the carrier involved. General Increases in Alaskan Rates and Charges, 7 F.M.C. 563, 565–66 (1963). While the Interstate Commerce Commission has the express authority to order refunds under section 15(7) of the Interstate Commerce Act, no such provision is contained in either the Shipping Act, 1916 or the Intercoastal Shipping Act of 1933. The absence of any specific authority in our regulatory statutes would appear to preclude our providing for refunds in this proceeding. Complainants' recourse would be to file a complaint under section 22 seeking reparations.

We see no need to pursue the issue whether Arctic should be directed to keep an accounting of funds. Without the refund requirement such as accounting for all shipments possibly affected by the rate increase would be burdensome and serve little purpose.

Therefore, it is ordered, That our June 11, 1976, Order of Investigation and Hearing in Docket No. 76–32 is modified by deleting, in its entirety, the eighth ordering paragraph pertaining to the waiver of Rule 12(a) of the Commission's Rules of Practice and Procedure.

It is further ordered, That prehearing may be held at the request of any party before or after completion of discovery with the date for commencement of hearing to be established by the Administrative Law Judge.

By the Commission.

JOSEPH C. POLKING,
Assistant Secretary.

FEDERAL POWER COMMISSION

[Project No. 2146]

ALABAMA POWER CO.

Application for Approval of Revised Exhibit R

AUGUST 24, 1976.

Public notice is hereby given that an application was filed on October 6, 1975, under the Federal Power Act (16 U.S.C. 791a–825r) by the Alabama Power Company (Correspondence to: Mr. Jesse S. Vogtle, Senior Vice President, Alabama Power Company, P.O. Box 2641, 600 North 18th Street, Birmingham, Alabama 35291) for approval of a revised Exhibit R for the constructed Coosa River Project No. 2146, located on the Coosa River, in Cherokee, Saint Clair, Etowah, Talladega, Chilton, Shelby, Coosa, Calhoun, and Elmore Counties, Alabama, and Floyd County, Georgia, near the cities and towns of Gadsden, Attalla, Anniston, Talladega, Montgomery, Sylacauga, Pell City, Wetumpka, Cedar Bluff, Centre, Childersburg, and Clanton, all in Alabama.

Applicant filed the revised Exhibit R in compliance with provisions of the license for Coosa River Project No. 2146. The existing and proposed recreational facilities are hereinafter described for each hydroelectric development comprising the project:

WEISS RESERVOIR

A fifteen acre tract near the tailrace, including the existing fishing pier and parking area, would be developed for use as a park. Weiss-Cherokee County, Causeway Park, a Company-owned tract located two miles south of Cedar Bluff, now includes a state-run boat launching ramp, with further development being contemplated by the County. The Town of Cedar Bluff is currently considering, with Applicant's technical assistance, development of a 12-acre park to provide picnicking and bathing facilities. The Town of Gaylesville has leased a tract of land from Applicant for development of a park and boat launching facilities. Applicant states that 27 recreational areas currently exist at the Weiss Reservoir, offering a total of 24 boat launching facilities, 15 bathing areas, 15 picnic areas, and camping areas.

H. NEELY HENRY RESERVOIR

Etowah County proposes to develop a 39-acre park on Applicant's land approximately 3.5 miles east of Gadsden (Tillison Bend) to include picnic facilities in addition to the existing boat launching facilities. Applicant states that 21 recreational areas currently exist at the H. Neely Henry Reservoir, offering a total of 23 boat launching ramps, four bathing areas, six picnic areas and five camping areas. The principal existing recreational facilities include a 20-acre park operated by the City of Gadsden and a 28-unit camping area near H. Neely Henry Dam.

LOGAN MARTIN RESERVOIR

Applicant has provided a fishing platform below the dam and proposes to develop an adjacent picnic area. Applicant also proposes to make available for development a 36-acre tract near the dam suitable for camping, swimming, and picnicking. Applicant states that a total of 39 recreational areas currently exist at the Logan Martin Reservoir, offering 38 boat launching ramps, 28 bathing areas, 19 picnic areas, and 15 camping areas.

LAY RESERVOIR

A 100-acre tract near Beeswax Creek, encompassing the existing State-operated boat launching facility, would be developed to include camping, picnicking, and swimming facilities. Applicant has reserved land at two sites (Peckerwood Creek and Talladega Springs) for the development of boat launching and picknicking facilities. Applicant states that 32 recreational areas currently exist at the Lay Reservoir offering a total of 28 boat launching ramps, 11 bathing areas, six picnic areas, and ten camping areas. The principal existing recreational facilities include the Lay-Shelby County Park, the recreational facilities developed by the State and Talladega County on Company-owned land at Glovers Point, three miles northeast of the dam, and the boat launching ramp developed by the State and Coosa County on Company-owned land at Paint Creek, where Applicant has set aside additional space for picnic facilities.

WALTER BOULDIN RESERVOIR

Applicant considers the physical characteristics of the shoreline at this development to be incompatible with any more than casual or limited recreational use. Prior to the 1975 failure of the dam, Applicant maintained and operated a visitors center with tours of the power plant. Applicant states that this activity will resume when the dam is returned to service.

Any person desiring to be heard or to make any protest with reference to said application should, on or before October 12, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 C.F.R. 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules. The application is on file with the Commission and is available for public inspection.

Take further notice that, pursuant to the authority contained in and conferred upon the Federal Power Commission by sections 308 and 309 of the Federal Power Act (16 U.S.C. 825g, 825h) and the Commission's rules of practice and procedure, specifically § 1.32(b) (18 C.F.R. 1.32(b)), as amended by Order No. 518, a hearing may be held without further notice before the Commission on this application if no issue of substance is raised by any request to be heard, protest, or petition filed subsequent to this notice within the time required herein. The apllcant has requested that the shortened procedure provided for under Section 1.32(b) be used. If an issue of

VOL 41 NO 170 AUG 31 76 UM

substance is raised, further notice of hearing will be given.

Under the shortened procedure herein provided for, unless otherwise advised, it will be unnecessary for applicant to appear or be represented at the hearing before the Commission.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-25451 Filed 8-30-76;8:45 am]

[Docket No. CP76-85]

ALGONQUIN GAS TRANSMISSION CO. AND TEXAS EASTERN TRANSMISSION CORP.

Motion

AUGUST 24, 1976.

Take notice that on July 6, 1976,[1] Algonquin Gas Transmission Company (Algonquin), 1284 Soldiers Field Road, Boston, Massachusetts 02135, and Texas Eastern Transmission Corporation (Texas Eastern), P.O. Box 2521, Houston, Texas 77001, filed in Docket No. CP76-85 a motion for a certificate of public convenience and necessity pursuant to section 7(c) of the Natural Gas Act authorizing a continuation of the exchange, transportation, and delivery of certain quantities of gas to The Brooklyn Union Gas Company (Brooklyn Union) through October 31, 1976, subject to the condition that the Commission approves the settlement of the Algonquin exchange-transportation charge in accordance with the settlement agreement (settlement) which was filed with the Presiding Judge herein for certification to the Commission on July 1, 1976, all as more fully set forth in the subject motion which is on file with the Commission and open to public inspection.

It is stated that on September 12, 1975, Algonquin and Texas Eastern filed in the subject docket an application pursuant to section 7(c) of the National Gas Act for a certificate of public convenience and necessity authorizing the transportation-exchange of natural gas for the benefit of Brooklyn Union during the period commencing November 1, 1975, and ending April 30, 1976. It is further stated that on November 10, 1975, Algonquin and Texas Eastern were granted a temporary certificate authorizing the services in the manner set forth in the application, upon the condition that Algonquin's charge for service rendered thereunder be collected subject to refund pending further Commission action. The proceeding was set for formal hearing and hearings were held on January 27, 28, and March 16, 1976, it is indicated. Algonquin and Texas Eastern state that subsequent to completion of hearings, a settlement was negotiated proposing a basis for resolving the Algonquin exchange-transportation charge issue.

Accordingly, subject to Commission approval of the settlement, Algonquin and Texas Eastern seek herein a permanent certificate to authorize the continuation of service for the benefit of Brooklyn Union for the term ending October 31, 1976. It is asserted that the affected parties (Algonquin, Boston Gas Company (Boston Gas), Brooklyn Union, and Texas Eastern) have entered into an arrangement reflected in a pro forma copy of the "Extension To Temporary Exchange-Transportation Agreement" (Extension Agreement) attached as an exhibit to the subject motion. It is indicated that the Extension Agreement has been entered into because the gas to be transported and delivered thereunder is required by Brooklyn Union: (1) To assure its ability to meet the requirements of existing firm customers; (2) to assist it in achieving the fullest and best possible use of available storage capacity; (3) to reduce, to the extent possible, its need for higher cost supplemental supplies; and (4) to mitigate, to the extent possible, current curtailments of human need requirements. It is submitted that deliveries under the extension are anticipated not to exceed 30 billion Btu's per day from July 1, 1976, through October 31, 1976.

It is indicated that the effectiveness of the Extension Agreement is further subject to Distrigas of Massachusetts Corporation's and Distrigas Corporation's having obtained all requisite authorizations for the sale to Brooklyn Union of the quantities of LNG which are the subject of the Extension Agreement, and additionally, the effectiveness of said Extension Agreement is subject to Brooklyn Union's and Boston Gas' having obtained all requisite regulatory authorizations required for the exchange and transportation of gas.

Any person desiring to be heard or to make any protest with reference to said motion should on or before September 22, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules. Persons who have heretofore filed need not file again.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commmission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this motion if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or of the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-25452 Filed 8-30-76;8:45 am]

[Docket No. RP76-10 (PGA76-2)]

ARKANSAS LOUISIANA GAS CO.

Filing of Revised Tariff Sheets

AUGUST 23, 1976.

Take notice that on July 22, 1976, Arkansas Louisiana Gas Company tendered for filing in Docket RP76-10 (PGA76-2) Second Substitute Fourth Revised Sheet No. 185 in its Rate Schedule X-26, FPC Gas Tariff Original Volume No. 3. This revised tariff sheet is to become effective as of May 1, 1976.

The proposed tariff sheet is being filed to reflect the change agreed to in the settlement conference between Arkla and the FPC Staff on July 13, 1976, concerning the base cost of gas in Docket No. RP76-10 (PGA76-1) effective November 2, 1975.

The company states that copies of the revised tariff sheet and supporting data are being mailed to Arkla's jurisdictional customers and other interested parties.

Any person desiring to be heard or to protest said filing should file a Petition to Intervene or Protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before September 10, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-25448 Filed 8-30-76;8:45 am]

[Docket No. RP76-10 (PGA76-3)]

ARKANSAS LOUISIANA GAS CO.

Filing of Revised Tariff Sheets

AUGUST 23, 1976.

Take notice that on July 22, 1976, Arkansas Louisiana Gas Company tendered for filing in Docket RP76-10 (PGA76-3) Substitute Fifth Revised Sheet No. 185 in its Rate Schedule X-26, FPC Gas Tariff Original Volume No. 3. This tariff sheet is to become effective on July 1, 1976.

The proposed tariff sheet is being filed to reflect the change agreed to in the settlement conference between Arkla and the FPC Staff on July 13, 1976, concerning the base cost of gas in Docket No. RP76-10 (PGA76-1) effective November 2, 1975.

The company states that copies of the revised tariff sheet and supporting data are being mailed to Arkla's jurisdictional customers and other interested parties.

Any person desiring to be heard or to protest said filing should file a Petition to Intervene or Protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before September 10, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a Petition to Intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-25449 Filed 8-30-76;8:45 am]

[Docket No. CP76-474]

COLUMBIA GAS TRANSMISSION CORP.

Application

AUGUST 24, 1976.

Take notice that on August 11, 1976, Columbia Gas Transmission Corporation (Applicant), P.O. Box 1273, Charleston, West Virginia 25325, filed in Docket No. CP76-474 an application pursuant to section 7(b) of the Natural Gas Act for permission for and approval of the abandonment of a portion of Applicant's Line 8059 in Randolph and Barbour Counties, West Virginia, and the service rendered therefrom, all as more fully set forth in the application on file with the Commission and open to public inspection.

Applicant proposes to abandon approximately 7.0 miles of 6-inch pipeline which is said to have been originally constructed in 1904 and consists primarily of bare iron pipe with no protection against corrosion. It is stated that the line was constructed to transport local production gas from the Buckhannon production area to the Elkins, West Virginia, market.

The application states that in 1950 Atlantic Seaboard Corporation, a predesessor of Applicant, placed in service a 26-inch high pressure transmission pipeline (B System) from West Virginia to the Washington-Baltimore market area. The B System is said to be located several miles south of the Elkins market area and to have become the principal supply source for that market, thereby replacing a function previously served by the portion of Line 8059 proposed to be abandoned. Further, it is stated, facilities have been constructed which connect the Buckhannon production area to the B System to permit the marketing of excess production by means of the B System. The latter interconnection would also serve as an alternate source to the Buckhannon market area at such time as local production becomes inadequate to maintain that market's requirements, the application states.

Applicant states that the proposed abandonment would result in discontinuance of service to an affiliate, Columbia Gas of West Virginia, Inc., at 19 points of delivery from which the latter serves 19 customers. The application indicates that Columbia Gas of West Virginia, Inc., has advised the customers that there is no reasonable alternative means for providing service and has offered cash payments to these customers.

Any person desiring to be heard or to make any protest with reference to said application should on or before September 9, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-25453 Filed 8-30-76;8:45 am]

[Docket No. CP61-92]

EL PASO NATURAL GAS CO.

Petition To Amend

AUGUST 24, 1976.

Take notice that on August 11, 1976, El Paso Natural Gas Company (Petitioner), P.O. Box 1492, El Paso, Texas 79978, filed in Docket No. CP61-92 a petition to amend the order issuing a certificate of public convenience and necessity in said docket pursuant to section 7(c) of the Natural Gas Act authorizing the exchange of natural gas with Northern Natural Gas Company (Northern), by which petition Petitioner requests authorization to exchange natural gas with Northern at an additional point, all as more fully set forth in the petition to amend on file with the Commission and open to public inspection.

Petitioner proposes to deliver to Northern natural gas from the Campbell No. 1-B well in Hemphill County, Texas, in exchange for equivalent volumes to be delivered by Northern at an existing point of delivery. Petitioner states that both it and Northern are connected to the well and that as the result of a continuing decline in gas pressure from the well Petitioner can produce little or no gas into its system. Accordingly, Petitioner proposes to exchange gas from this well with Northern pursuant to Petitioner's Rate Schedule Z-1. It is estimated that 270,000 Mcf of remaining reserves are committed to Petitioner from the well which would be delivered at the rate of approximately 320 Mcf on an average day.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before September 9, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

[Docket No. ID-1786]

JOHN M. HAYNES

Supplemental Application

AUGUST 25, 1976.

Take notice that on July 26, 1976, John M. Haynes (Applicant), Vice President and Treasurer, Niagara Mohawk Power Corporation, Syracuse, New York, filed a supplemental application pursuant to section 305(b) of the Federal

[1] The motion was tendered for filing July 6, 1976; however, the fee required by § 159.1 of the regulations under the Natural Gas Act (18 CFR 159.1) was not paid until August 17, 1976. Thus, filing was not completed until the latter date.

V 41 170 AUG 31 76 UM

Power Act to hold the following positions:

Vice President and Treasurer, Niagara Mohawk Power Corp. (Niagara Mohawk), public utility.
Treasurer, Empire State Power Resources, Inc. (Empire State), public utility.
Treasurer and Director, Beebee Island Corp. (Beebee Island),[1] public utility.
Treasurer,[2] Moreau Manufacturing Corp. (Moreau),[3] public utility.

Empire State was formed by seven electric uitility companies in New York to construct, own and operate large-scale electric generating facilities within the State of New York. Substantially all of the energy generated will be sold to the sponsoring companies.

Beebee Island owns and operates a hydroelectric generating station located in Watertown, New York. Power generated by the Company is sold to Niagara Mohawk and Knowlton Brothers of Watertown.

Moreau owns and operates a hydroelectric generating station on the Hudson River at Moreau, New York. Power generated is sold to Niagara Mohawk and Finch, Pruyn & Company which owns 33⅓ percent of Moreau's common stock.

Niagara Mohawk furnishes electric and gas services to an area extending from the Pennsylvania line near Jamestown eastward to the Massachusetts boundary beyond Albany and north to the Canadian border. Within this area are 1,284,000 electric and 419,000 gas customers.

The application to hold an interlocking position as Treasurer of Empire State will be deferred at least until such time as a decision on the merits of the Empire State proposal is reached by the New York State Public Service Commission.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before September 20, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. CP71-274]

LONE STAR GATHERING CO. AND LONE STAR GAS CO.

Petition To Amend

AUGUST 25, 1976.

Take notice that on August 16, 1976, Lone Star Gathering Company (Petitioner), 301 South Harwood Street, Dallas, Texas 75201, filed in Docket No. CP71-274 a petition to amend the order issuing a certificate of public convenience and necessity in said docket pursuant to section 7(c) of the Natural Gas Act, by which petition Petitioner requests authorization to transport 55,000 in lieu of 45,000 Mcf of gas per day for Natural Gas Pipeline Company of America (Natural), all as more fully set forth in the petition to amend on file with the Commission and open to public inspection.

Petitioner states that by the order issued in the instant docket on February 9, 1973 (49 FPC 371), Petitioner is authorized to transport for Natural 34,332,995 Mcf of gas per year. Further, Petitioner states, the application for authorization in the instant docket contained a sample transportation agreement which showed a transportation contract demand of 55,000 Mcf of gas per day but the executed agreement on file with the Commission provides for a contract demand of 45,000 Mcf of gas per day. It is stated that the executed agreement contains a lower contract demand because of reduced delivery pressure on Natural's facilities and lower estimated availability of reserves from the Fashing Field in Atascosa County, Texas.

Petitioner states that Natural has acquired the right to purchase additional gas from the Fashing Field and has requested Petitioner to transport the gas. Accordingly, Petitioner proposes to transport for Natural from Gulf Oil Corporation's Warren Plant in the Fashing Field 34 miles to Natural's facilities in Atascosa County an additional contract demand of 10,000 Mcf of gas per day, for a total contract demand of 55,000 Mcf of gas per day, with no change in the annual volume of 34,332,995 Mcf of gas to be transported and with no need for additional facilities.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before September 22, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing herein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-25462 Filed 8-30-76;8:45 am]

[Docket No. ER76-539]

MISSOURI POWER & LIGHT CO.

Renotice of Filing of Proposed Settlement

AUGUST 24, 1976.

Take notice that on May 27, 1976, Missouri Power & Light Company (MPL) submitted a proposed settlement of all issues in this docket. MPL states that the proposed settlement would increase its rates for wholesale municipal customers by $80,647, resulting in $993,106 in total annual revenues from such customers. MPL further states that the Cities of Perry and Owensville, Missouri, will not be affected by the rate increase until such time as MPL is no longer contractually precluded from increasing the cities' rates.

Any person desiring to be heard or to protest said settlement agreement should file comments with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, on or before September 15, 1976. Comments will be considered by the Commission in determining the appropriate action to be taken. Copies of this agreement are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. CP74-64]

MOUNTAIN FUEL SUPPLY CO.

Petition To Amend

AUGUST 24, 1976.

Take notice that on August 5, 1976,[1] Mountain Fuel Supply Company (Mountain Fuel), 180 East First South Street, Salt Lake City, Utah 84139, filed in Docket No. CP74-64 a petition to amend the Commission's order issued February 11, 1976, in said docket pursuant to section 7(c) of the Natural Gas Act by authorizing the enlargement of the dedicated area under the exchange agreement with Colorado Interstate Gas Company (CIG), all as more fully set forth in the petition which is on file with the Commission and open to public inspection.

It is stated that the order of February 11, 1976, authorized an exchange of gas between Mountain Fuel and CIG and that in the original application it was noted that while the Spearhead Ranch Well No. 1 was the first producing well under the agreement, Mountain Fuel anticipated additional future development in the Anadarko-Fox area (since renamed the Spearhead Ranch area) in Converse County, Wyoming. Mountain Fuel requests authorization to enlarge the dedicated area under its Rate Schedule X-4 as set forth in Original Sheet No. 71-B and Second Revised Sheet No. 72 attached to the petition. Mountain Fuel indicates that four wells have been completed in the enlargement of the Spearhead Ranch Area and have been shut-in awaiting authorization. It is further stated that all of the production and gathering facilities necessary for producing these shut-in wells have been completed and that both Applicant and CIG are in need of this gas supply to offset declining supplies from existing sources of supply.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before September 24, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-25456 Filed 8-30-76;8:45 am]

[Docket No. CP61-139]

NORTHERN NATURAL GAS CO.

Petition To Amend

AUGUST 25, 1976.

Take notice that on August 16, 1976, Northern Natural Gas Company (Petitioner), 2223 Dodge Street, Omaha, Nebraska 68102, filed in Docket No. CP-61-139 a petition to amend the order issuing a certificate of public convenience and necessity in said docket pursuant to section 7(c) of the Natural Gas Act, by which petition Petitioner requests authorization to exchange natural gas with El Paso Natural Gas Company (El Paso) at an additional point, all as more fully set forth in the petition to amend on file with the Commission and open to public inspection.

Petitioner is authorized in the instant docket to exchange natural gas with El Paso. Petitioner states that both Petitioner and El Paso are connected to the Campbell No. 1-B well in Hemphill County, Texas, and that due to a recent decline in wellhead pressure relative to El Paso's gathering line pressure El Paso has been unable to receive gas owing to its dedicated interest. Accordingly, Petitioner proposes to receive El Paso's gas from the Campbell No. 1-B well and to add said well as an additional point of exchange between Petitioner and El Paso. The petition to amend states that there would be no increase in the authorized total daily exchange volume.

Any person desiring to be heard or to make any protest with reference to said application should on or before September 24, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

[Docket No. ER76-860]

PACIFIC POWER & LIGHT CO.

Initial Rate Filing

AUGUST 24, 1976.

Take notice that Pacific Power & Light Company (Pacific) on August 16, 1976, tendered for filing, in accordance with § 35.12 of the Commission's regulations, a new rate schedule providing for an exchange of services with Big Horn Rural Electric Company (Big Horn).

This rate schedule provides that Pacific will back up Big Horn 115/34.5 kv transformer at Nahne Jensen Transmission Substation located near Greybull, Wyoming, give up its present rights to all but 2,500 kilowatts in the United States Bureau of Reclamation Basin Substation for Big Horn's use, and pay Big Horn $4,400 annually for use of a section of Big Horn's distribution line. Big Horn grants Pacific the right to transfer up to ten megawatts from the Bureau 115 kv system through its Nahne Jensen Transmission Substation and distribution line to Pacific's system.

Pacific requests that the Commission permit this rate schedule to become effective September 16, 1976, which it claims is the date of commencement of service.

Copies of the filing were supplied to Big Horn Rural Electric Company, Basin, Wyoming.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before September 7, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. ER76-861]

PACIFIC POWER & LIGHT CO.

New Rate Schedule

AUGUST 24, 1976.

Take notice that Pacific Power & Light Company (Pacific) on August 16, 1976, tendered for filing, in accordance with § 35.12 of the Commission's regulations, a new rate schedule for power and energy sales to the Town of Torrington, Wyoming.

The proposed rate schedule is the same as Pacific's rate schedules for service to Cheyenne Light, Fuel and Power Company and Montana-Dakota Utilities Co. designated FPC Nos. 108 and 89 respectively. Torrington is taking service at Pacific's points of interconnection with the United States Bureau of Reclamation and is making transfer arrangements with the Bureau.

Pacific respectfully requests waiver of the Commission's notice requirements to permit the new rate schedule to become effective August 25, 1976, which it claims is the date of commencement of service.

A copy of this filing was supplied to the Town of Torrington, Wyoming.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before September 7, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

PUBLIC SERVICE COMPANY OF OKLAHOMA

Extension of Time

AUGUST 23, 1976.

On August 16, 1976, Grand River Dam Authority filed a motion to extend the date for filing a protest and petition to intervene, fixed by Notice issued August 10, 1976, in the above-designated proceeding.

Upon consideration, notice is hereby given that the date for filing a protest and petition to intervene in the above proceeding is extended to and including September 9, 1976.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-25460 Filed 8-30-76;8:45 am]

[1] 82.78 percent owned by Niagara Mohawk.
[2] Elected to this position on May 13, 1976.
[3] 66.67 percent owned by Niagara Mohawk.

[1] The petition was tendered for filing August 5, 1976; however, the fee required by Section 159.1 of the Regulations under the Natural Gas Act (18 CFR 159.1) was not paid until August 20, 1976. Thus, filing was not completed until the latter date.

V 41 170 AUG 31 76 UMI

[Docket No. CP76-468]

TRANSCONTINENTAL GAS PIPE LINE CORP.

Application

AUGUST 20, 1976

Take notice that on August 2, 1976, Transcontinental Gas Pipe Line Corporation (Applicant), P.O. Box 1396, Houston, Texas 77001, filed in Docket No. CP76-466 an application pursuant to section 7(c) of the Natural Gas Act and § 2.79 of the Commission's general policy and interpretations (18 CFR 2.79) for a certificate of public convenience and necessity authorizing a transportation service for a two-year term for The Torrington Company (Torrington), an existing industrial customer of The City of Union, South Carolina (Union), one of the Applicant's resale customers, all as more fuly set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that it has entered into an agreement, dated June 29, 1976, whereby Applicant has agreed to transport up to 250 Mcf of natural gas per day on an interruptible basis for Torrington. It is indicated that the gas to be transported by Applicant would be purchased from Glenda Petroleum Corporation (Glenda) from the Monroe Field, Union, Ouachita, and Morehouse Parishes, Louisiana, and would be consumed for Priority 2 uses and, to the extent served on an interruptible basis, Priority 3 uses at Torrington's Tyger River Plant in Union. It is further indicated that Torrington would arrange to have the gas delivered to United Gas Pipe Line Company (United) which would make equivalent quantities available to Applicant at a mutually agreeable existing authorized exchange point between the two companies and Applicant would redeliver the transportation volumes to the existing point of deliver to Union for the account of Torrington for delivery at Torrington's plant.

Applicant states that it would retain 3.8 percent of the volumes received for transportation as make-up for compressor fuel and line loss.

The application shows the following information submitted by Applicant:

1. Applicant proposes to transport up to 250 Mcf and 200 Mcf on a peak day and average day, respectively, and annual volumes of up to 71,400 Mcf.

2. Since the volumes to be transported under this and any similar transportation arrangements with customers of the distributors, when added to any volumes being transported for the distributors themselves and the distribution customers' scheduled daily deliveries, shall not exceed the contract entitlement of the distributors from Applicant, there exists sufficient pipeline capacity to perform the service on a peak day, average day and annual basis.

3. The proposed transportation service would have no impact on Applicant's ability to provide system-wide deliveries for Priority 1 markets.

4. The initial rate for the transportation service would be 22.0 cents per Mcf.

5. Applicant did not consider the subject natural gas supply to be available for purchase by it and did not attempt to purchase said gas.

The application shows that Torrington would pay Glenda $1.50 cents per million Btu's of gas purchased.

Any person desiring to be heard or to make any protest with reference to said application should on or before September 3, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-25446 Filed 8-30-76;8:45 am]

[Docket No. CP76-478]

TRANSCONTINENTAL GAS PIPE LINE CORP. AND NATURAL GAS PIPELINE COMPANY OF AMERICA

Application

AUGUST 24, 1976.

Take notice that on August 13, 1976, Transcontinental Gas Pipe Line Corporation (Transco), P.O. Box 1396, Houston, Texas 77001, and Natural Gas Pipeline Company of America (Natural), 122 South Michigan Avenue, Chicago, Illinois 60603, filed in Docket No. CP76-478 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of facilities offshore Texas and the transportation of natural gas, all as more fully set forth in the application on file with the Commission and open to public inspection.

Applicants state that in order to obtain additional supplies of natural gas for their systems from supply sources in adjoining blocks in the Brazos Area, South Addition, offshore Texas, they have agreed to construct jointly as co-owners a pipeline from the southern terminus of Transco's existing Central Texas Gathering System at Brazos Block A-76 to a point near the producer's platform in the Brazos Block A-105 Field where Natural will have a new source of supply available to it. It is stated that, although not proposed in the instant application, it is contemplated that the proposed pipeline would be extended in early 1978 from Block A-105 to the Brazos Block A-133 Field where Transco anticipates that it will have a significant new source of supply available to it.

The application states that the proposed facilities would be constructed and operated by Transco and would consist of approximately 6.66 miles of 20-inch pipeline and appurtenances. The facilities are estimated to cost $5,400,000, which would be shared, as would be ownership and capacity, two-thirds by Transco and one-third by Natural. The application states that financing initially would be by revolving credit, short-term loans, and available cash. It is stated that the costs of service of Applicants associated with the proposed facilities would be borne by Natural until Transco's gas comes on stream or two years from initial deliveries by Natural into the proposed block A-105 facilities, whichever occurs first. Subsequently, each Applicant would bear its own cost of service related to its ownership interest in the proposed facilities.

Applicants state that Natural has executed a gas purchase contract with Union Oil Company of California (Union) covering Union's interest in gas reserves underlying Brazos Blocks A-102 and A-105. It is estimated that initial deliveries from these reserves would be 25,000 Mcf per day. The application states that Transco has agreed to utilize its existing offshore pipeline system to transport Natural's gas onshore from the point of receipt in Block A-76 and to deliver equivalent quantities, less volumes attributable to line loss and processing, at an existing point of interconnection between Applicants at the La Gloria plant in Jim Wells County, Texas. The initial rate for the transportation service would be 6.8 cents per Mcf.

Any person desiring to be heard or to make any protest with reference to said application should on or before September 23, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene, or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by section 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-25459 Filed 8-30-76;8:45 am]

[Docket No. CP76-470]

UNITED GAS PIPE LINE CO.

Application

AUGUST 20, 1976.

Take notice that on August 6, 1976, United Gas Pipe Line Company (Applicant), P.O. Box 1478, Houston, Texas 77001, filed in Docket No. CP76-470 an application pursuant to section 7(b) of the Natural Gas Act and §§ 157.7(e) of the Regulations thereunder (18 CFR 157.7(e)) for permission and approval to abandon during the 12-month period commencing October 1, 1976, direct sale service and facilities no longer required for deliveries of natural gas to Applicant's customers, all as more fully set forth in the application on file with the Commission and open to public inspection.

The stated purpose of this budget-type application is to augment Applicant's ability to act reasonable dispatch in abandoning service and removing direct sale measuring, regulating, and related facilities. Applicant states that it would abandon service and facilities only when deliveries to any one direct sale customer would not have exceeded 100,000 Mcf of natural gas during the last year of service.

The application states that Applicant would not abandon any service unless it would have received a written request or written permission from the customer to terminate service. In the event such request or permission could not be obtained, a statement certifying that the customer has no further need for service would be filed with the commission.

Any person desiring to be heard or to make any protest with reference to said application should on or before September 3, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. RI76-142]

W. R. GRACE & CO.

Petition for Special Relief

AUGUST 24, 1976.

Take notice that on August 9, 1976, W. R. Grace & Co. through its subsidiary Teal Petroleum Company, 810 The Main Building, Houston, Texas filed a petition for special price relief in Docket No. RI76-142 pursuant to § 2.76 of the Commission's general policy and interpretations (18 CFR 2.76).

Petitioner seeks authorization to charge $1.01 per Mcf for the sale of gas from the Seven Sisters Field, Duval County, Texas effective after completion of well reconditioning needed to restore them to full production. The gas from this field is sold to Tennessee Gas Pipeline Company, P.O. Box 2511, Houston, Texas.

Any person desiring to be heard or to make any protest with reference to said petition should on or before September 24, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any party wishing to become a party in any hearing therein, must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-25460 Filed 8-30-76;8:45 am]

FEDERAL RESERVE SYSTEM

BANCAL TRI-STATE CORP.

Order Granting Determination Under the Bank Holding Company Act

BanCal Tri-State Corporation, San Francisco, California ("Tri-State"), which proposes to transfer all of its legal and equitable stockholdings, as well as the stockholdings of The Bank of California, N.A., San Francisco, California ("Bank"), a subsidiary of Tri-State, in Bancal Capital Corporation ("Capital"), a small business investment company, to Oceanic Group, Inc., San Francisco, California ("Oceanic"), a joint venture between Overseas Technology, Inc. ("OTI"), (which is a subsidiary of Overseas Technology Investment Co., Inc., ("OTICI") a Japanese company owned by Industrial Bank of Japan, New Japan Securities Co., Central Glass Co., Toyo Soda Co., Ltd., Dai Nippon Securities and various individuals, all of which are either Japanese corporations or citizens) and Kibun California, Inc. ("KCI"), a subsidiary of Kibun Co., Ltd., ("Kibun") a Japanese corporation, has requested a determination, pursuant to the provisions of section 2(g)(3) of the Bank Holding Company Act of 1956 (12 U.S.C. 1841(g)(3)) ("the Act"), that Tri-State is not in fact capable of controlling Oceanic, notwithstanding the fact that the proposed sale agreement provides that a portion of the purchase price is to be paid by Oceanic in the form of a note, said note being secured by a pledge of the shares being sold.

Under the provisions of section 2(g)(3) of the Act, shares transferred after January 1, 1966, by any bank holding company to a transferee that is indebted to the transferor or has one or more officers, directors, trustees, or beneficiaries in common with or subject to control by the transferor, are deemed to be indirectly owned or controlled by the transferor unless the Board, after opportunity for hearing, determines that the the transferor is not in fact capable of controlling the transferee.

Notice of an opportunity for hearing with respect to Tri-State's request for a determination under section 2(g)(3) was published in the FEDERAL REGISTER on June 17, 1976 (41 FR 24630). The time

V41170 AUG 31 76 UMI

provided for requesting a hearing expired on July 9, 1976. No such request has been received by the Board, nor has any evidence been received to show that Tri-State is in fact capable of controlling Oceanic.

The aggregate amount of debt owed by Oceanic to Tri-State and its subsidiary bank does not constitute a substantial portion of the consolidated debt, consolidated assets or consolidated net worth of Kibun or the principal members of the consortium of corporations and individuals owning OTICI ("Consortium"). Kibun and the corporate members of Consortium are substantial, independent, publicly held corporations. There are no common directors, officers or owners between Tri-State and Oceanic. Although employees of Tri-State and its subsidiaries have been serving Capital as needed, this arrangement will terminate upon consummation of the proposed transaction. There have been no prior business transactions or relationships between Tri-State and Oceanic other than one investment by Capital that is associated with the proposed sale of Capital, and it appears that the proposed sale of Capital was negotiated at arm's length. The terms of the proposed contract of sale gives Tri-State no right to vote, transfer or sell the shares of Capital during the term of the indebtedness unless Oceanic should default on the indebtedness. The Executive Committee of the Board of Directors of Tri-State has passed a resolution to the effect that Tri-State does not, and will not attempt to, exercise a controlling influence over Oceanic and that Tri-State will immediately notify the Board should it exercise its rights to vote, transfer or sell the shares of Capital in the event of such a default or if Tri-State otherwise accomplishes a recision of the proposed transaction. The Board of Directors of Oceanic has passed a resolution to the effect that Tri-State is incapable of controlling Oceanic and that there will be no common directors or officers between Tri-State and Oceanic.

Based on these and other facts of record, it is hereby determined that Tri-State is not in fact capable of controlling Oceanic.

Accordingly it is ordered, That the request of Tri-State for a determination pursuant to section 2(g)(3) be and hereby is granted. Any material change in the facts or circumstances relied upon by the Board in making this determination or any material breach of any of the commitments upon which the Board based its decision could result in the Board reconsidering the determination made herein. In particular, this determination is conditioned upon Oceanic succeeding to the obligations, as well as the rights, of OTI under the Stock Purchase Agreement dated February 27, 1976 between OTI and the sellers of Capital.

By order of the Board of Governors, acting through its General Counsel, pursuant to delegated authority (12 CFR 265.2(b)(1)), effective August 24, 1976.

GRIFFITH L. GARWOOD,
Assistant Secretary of the Board.

CCNB BANCSHARES CORP.

Formation of Bank Holding Company

CCNB Bancshares Corporation, Ozark, Missouri, has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) to become a bank holding company through acquisition of 100 per cent (less directors' qualifying shares) of the voting shares of Christian County National Bank, Ozark, Missouri. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of St. Louis. Any person wishing to comment on the application should submit views in writing to the Reserve Bank, to be received not later than September 20, 1976.

Board of Governors of the Federal Reserve System, August 24, 1976.

GRIFFITH L. GARWOOD,
Assistant Secretary of the Board.

FIRST TENNESSEE NATIONAL CORP.

Divestiture of Ownership of Real Estate

By Order dated September 5, 1973, the Board approved an application of First Tennessee National Corporation, Memphis, Tennessee ("Applicant"), a bank holding company within the meaning of the Bank Holding Company Act, to acquire not less than 99 percent of the voting shares of Pence Mortgage Company, Louisville, Kentucky ("Company"). The Board's Order required divestiture of certain real property held for development by two of Company's subsidiaries within six months after consummation of the acquisition. The acquisition of Company by Applicant was consummated on October 1, 1973. By April 1, 1974, six months after consummation, Applicant had divested all of the property except one tract known as "Stray Winds." By letter dated August 1, 1974, Applicant requested that the Board grant an extension of time during which the remaining property would be divested. In view of the fact that Applicant demonstrated that it had made active efforts to sell the remaining tract of land and the fact that the sale of the tract had been hindered by economic conditions and natural forces in the form of a tornado, the Board granted Applicant's request. By Order dated August 28, 1974, the Board amended the Order of September 5, 1973, authorizing the retention of "Stray Winds" subject to the condition that such real property would be divested no later than 18 months after consummation of the proposal.

By letter dated June 17, 1975, Applicant requested that the Board extend the period for divestiture of the remaining property to December 31, 1975. Applicant indicated that active efforts to sell the property were continuing. By Amended Order dated July 22, 1975, the Board granted this second extension of time to divest "Stray Winds."

On December 26, 1975, Applicant wrote to the Board indicating that the divestiture of "Stray Winds" had still not been accomplished, despite continuous efforts to sell or donate the property. In this letter, Applicant requested an additional six-month extension in which to divest "Stray Winds." In connection with this request, Board staff undertook a detailed examination of the efforts Applicant had undertaken to divest "Stray Winds." After meeting with Board staff, Applicant proposed by letter of June 25, 1976, a plan whereby it remaining ownership interest in "Stray Winds" would be offered for sale at auction or otherwise disposed of before or by the end of 1976. In presenting to the Board a detailed plan of divestiture, Applicant amended its request for a six-month extension of time to divest by requesting an extension of time until December 31, 1976 to dispose of this property.

After examining the divestiture plan proposed by Applicant, the Board has concluded that the request should be granted. Accordingly, the Board's Order of July 22, 1975 is hereby amended to authorize retention of the remaining tract of land known as "Stray Winds," subject to the condition that Applicant divest such real property at the earliest possible date, but in no event later than December 31, 1976.

By order of the Board of Governors,[1] effective August 17, 1976.

GRIFFITH L. GARWOOD,
Assistant Secretary of the Board.

[FR Doc.76-25391 Filed 8-30-76;8:45 am]

HARVARD STATE CO.

Order Approving Formation of Bank Holding Company

Harvard State Company, Harvard Nebraska ("Applicant"), has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) of formation of a bank holding company through acquisition of 80 percent or more of the voting shares of Harvard State Bank, Harvard, Nebraska ("Bank").

Notice of the application, affording an opportunity for interested persons to submit comments and views, has been given in accordance with section 3 of the Act (41 FR 9936). Time for filing comments and views has expired and the application and all comments received have been considered in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Upon acquisition of Bank (deposits of $3.9 million), Applicant would control the 311th largest bank in Nebraska, holding .06 percent of total deposits in commercial banks in the State.[2] Bank is the fifth largest of the six banks located in Clay County, which approximates the relevant banking market, and controls 13.91 percent of deposits therein. Acquisition of Bank would result in no immediate change in banking services available in the relevant market.

Applicant and Bank are affiliated with Hastings State Corporation, a one-bank holding company in Hastings, Nebraska. The subsidiary bank of this holding company is located in a separate banking market. Inasmuch as the proposal to form a bank holding company represents a restructuring of the existing ownership of Bank into corporate form, consummation of the proposal would eliminate neither existing nor potential competition, nor does it appear that there would be any adverse effects on other banks in the trade area.

The financial and managerial resources and future prospects of Applicant, which are dependent on those of Bank, are considered generally satisfactory and consistent with approval. The debt to be incurred by Applicant appears to be serviceable from the income derived from Bank without having an adverse effect on the financial condition of either Applicant or Bank. Accordingly, considerations relating to banking factors are consistent with approval of the application.

Consummation of the transaction would facilitate management succession on a community level by providing for continued local ownership. Convenience and needs considerations are consistent with approval. It has been determined that consummation of the transaction would be in the public interest and that the application to become a bank holding company should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction involving acquisition of shares of Bank shall not be made before the thirtieth calendar day following the effective date of this Order and Bank should not be acquired later than three months after the effective date of this Order, unless such period is extended for good cause by the Board of Governors or by the Federal Reserve Bank of Kansas City pursuant to delegated authority.

By order of the Secretary of the Board, acting pursuant to delegated authority from the Board of Governors, effective August 25, 1976.

GRIFFITH L. GARWOOD.
Assistant Secretary of the Board.

[FR Doc.76-25392 Filed 8-30-76;8:45 am]

[1] Voting for this action: Chairman Burns and Governors Gardner, Wallich, Coldwell, Jackson, Partee, and Lilly.

[2] Unless other indicated, all banking data are as of December 31, 1975.

GENERAL ACCOUNTING OFFICE

REGULATORY REPORTS REVIEW

Receipt of Report Proposal

The following request for clearance of a report intended for use in collecting information from the public was received by the Regulatory Reports Review Staff, GAO, on August 25, 1976. See 44 U.S.C. 3512 (c) and (d). The purpose of publishing this notice in the FEDERAL REGISTER is to inform the public of such receipt.

The notice includes the title of the request received; the name of the agency sponsoring the proposed collection of information; the agency form number, if applicable; and the frequency with which the information is proposed to be collected.

Written comments on the proposed FTC request are invited from all interested persons, organizations, public interest groups, and affected businesses. Because of the limited amount of time GAO has to review the proposed form, comments (in triplicate) must be received on or before September 20, 1976, and should be addressed to Mr. John M. Lovelady, Acting Assistant Director, Regulatory Reports Review, Room 5216, 425 I Street, NW, Washington, D.C. 20548.

Further information may be obtained from Patsy J. Stuart of the Regulatory Reports Review Staff, 202-376-5425.

FEDERAL TRADE COMMISSION

FTC requests clearance of a new single time "Special Report." The Bureau of Consumer Protection of the Federal Trade Commission has requested clearance from GAO of the issuance of a special investigatory report. FTC is proposing to send this report to market research firms and publishing companies as part of the Commission's investigation of the market research industry's use of undisclosed coding practices. There are approximately 300-400 market research firms and publishing companies of which a sample of 47 respondents will be asked to report. Reporting burden is estimated by FTC to average 20 hours per respondent.

NORMAN F. HEYL,
Regulatory Reports Review Officer.

LEGAL SERVICES CORPORATION

COMMITTEE ON APPROPRIATIONS AND AUDIT

Meeting

The next meeting of the Committee on Appropriations and Audit of the Legal Services Corporation Board of Directors will be held on Thursday, September 9, 1976 in the Corporation offices at 733 15th Street NW. (Suite 700), Washington, D.C.

The meeting will convene at 10:00 a.m. for the purpose of discussing the budgets for fiscal years 1977 and 1978.

The meeting is open to the public.

THOMAS EHRLICH,
President.

[FR Doc.76-25703 Filed 8-30-76;12:08 pm]

NATIONAL COMMISSION ON ELECTRONIC FUND TRANSFERS

EXPANDED MEETING

In addition to its regularly scheduled meeting on the second Friday of each month, the National Commission on Electronic Fund Transfers will, in the month of September, also meet on the preceding Thursday. The dates of the meetings are September 9 and 10, 1976. Each meeting will begin at 9:00 a.m. in the Commissioner's Room at the offices of the Federal Communications Commission, located at 1919 M Street NW., Washington, D.C.

The meetings are open to public observation on a first-call basis to the extent that limited space permits. Any person interested in observing the meetings should first call Ms. Janet Miller at (202) 254-7400 to check on the availability of space.

Dated: August 27, 1976.

JAMES O. HOWARD, JR.,
Advisory Committee Management Officer.

NATIONAL CREDIT UNION ADMINISTRATION

NATIONAL CREDIT UNION BOARD

Meeting

Pursuant to the provisions of the Federal Advisory Committee Act, Pub. L. 92-463, 86 Stat. 770, notice is hereby given that the National Credit Union Board will hold its quarterly meeting on September 23-24, 1976, at the offices of the National Credit Union Administration, 2025 M Street, N.W., Washington, DC 20456. The meetings will commence at 9:00 a.m. daily in Room 4210.

V 41 170 AUG 31 76 UMI

The agenda for this meeting will consist of an update briefing regarding the activities of the several offices of the National Credit Union Administration, a briefing on share insurance activities, and other aspects of the Administration.

Matters for consideration will include a review of NCUA publications, reduction of Federal paperwork, and Board rules and/or policies, and a discussion of legislative activities.

This meeting of the National Credit Union Board will be open to the public. Members of the public may file written statements with the Board either before or after the meeting. To the extent that time permits, interested persons may be permitted to present oral statements to the Board only on items listed in the aforementioned agenda. Requests to present such oral statements must be approved in advance by the Chairman of the Board. Such requests should be directed to the Chairman, National Credit Union Board, National Credit Union Administration, Washington, DC 20456.

C. AUSTIN MONTGOMERY,
Administrator.

Occupational Safety and Health Administration

[V-74-28]

INTERLAKE STAMPING CORP.

Grant of Variance

I. BACKGROUND

Interlake Stamping Corporation, 4732 East 355th Street, Willoughby, Ohio 44094 made application pursuant to section 6 (b)(6)(C) of the Occupational Safety and Health Act of 1970 (84 Stat. 1595; 29 U.S.C. 655) for an experimental variance from the safety standard prescribed in 29 CFR 1910.217(c)(3)(iii)(*b*) (formerly 29 CFR 1910.217(c)(3)(iii)(*c*)) which prohibits a presence sensing device from being used as a tripping mechanism in mechanical power presses.

Section 6(b)(6)(C) states:

> The Secretary is authorized to grant a variance from any standard or portion thereof whenever he determines, or the Secretary of Health, Education, and Welfare certifies, that such variance is necessary to permit an employer to participate in an experiment approved by him or the Secretary of Health, Education, and Welfare designed to demonstrate or validate new and improved techniques to safeguard the health or safety of workers.

The facility which would be affected by this application is: Interlake Stamping Corp., 4732 East 355th Street, Willoughby, Ohio 44094.

The application originally was noticed as a request for a permanent variance pursuant to section 6(d) of the Act (84 Stat. 1596; 29 U.S.C. 655) and 29 CFR 1905.11. This notice was published in the FEDERAL REGISTER on May 20, 1974 (39 FR 17806). The application was subsequently amended to include a request for an experimental variance as stated above, and a notice of this was published in the FEDERAL REGISTER on February 3, 1976 (41 FR 4994). Both notices invited interested persons, including affected employers and employees, to submit written data, views and arguments regarding the grant or denial of the variance requested. In addition, affected employers and employees were notified of their right to request a hearing on the application for a variance. No requests for a hearing were received. Fourteen comment letters were received as a result of the first notice; thirteen supported granting the variance. Two comments were received in response to the second notice and both raised questions and expressed objections to granting the variance. These questions and objections will be addressed in more detail below.

II. FACTS

The variance requested by the applicant would permit the use of an Erwin Sick electronic light curtain to function as a combined presence sensing device and tripping mechanism on five Bliss-OBI mechanical power presses. Although § 1910.217(c)(3)(iii) permits the use of a presence sensing device to safeguard the point of operation, § 1910.217(c)(3)(iii)(*b*) prohibits the presence sensing device from being used as a tripping means in order to initiate slide motion.

The following presses will be equipped with the Erwin Sick electronic light curtain and covered by the variance request:

Bliss C-45, 1973 No. H65801—HP 49662
Bliss C-22, 1973 No. H65398—HP 49305
Bliss C-45, 1973 No. H65802—HP 49663
Bliss C-22, 1973 No. H65899—HP 49306
Bliss C-22, 1973 No. H64284—HP 48364

The electronic light curtain would be used by the applicant as a presence sensing device to prevent the press from stroking whenever the operator's hands are within the area protected by the light curtain. However, the light curtain also functions as a means of tripping the press, in that the removal of the operator's hands from the light curtain electronically signals the press to stroke. Rigid guarding surrounds the light curtain on all sides, preventing entry to the die area from any direction except that protected by the light curtain.

The Erwin Sick electronic light curtain is part of a sophisticated electronic system which automatically checks all systems between strokes. If any of the electronic or mechanical systems do not operate properly, the press will shut down without stroking. In addition, the press will automatically shut down if the brake does not stop the press within a predetermined period, or if the operating rhythm is interrupted so that the press does not cycle within a preset time. Before the press can be operated again, necessary repairs or adjustments must be made, and special operating means actuated to restart the press.

The system which the applicant is proposing to use has been used for many years in Sweden and West Germany, and detailed standards, including equipment approval, have been developed. The applicant will use equipment which meets the Swedish approval standards, and will operate the equipment in accordance with the Swedish safety standards governing the use of a light curtain as a means of tripping the press. All other relevant OSHA standards will also be complied with.

The applicant has informed OSHA of an accident that occurred in August 1974, during a demonstration of one of the presses equipped with the light curtain. The press was being operated by a two-hand control mounted above the die area. The top portion of the guarding around the light curtain had been removed for easier operation by the two-hand control method. The foreman switched the key lock to the light curtain trip position, but did not replace the top barrier guard. While operating the press from a standing position the foreman's arm passed into the light curtain, and, because of the angle, it passed through and above the curtain while his hand was in the die area. If the upper guard had been in place, the foreman would have had to lower his arm to reach the die and it would have remained in the sensing field. Investigations by the applicant indicate that there was no malfunction of the press or the light curtain.

As a result of this accident certain design changes have been made to improve the protection of the employees. Rather than being easily removable as before, all parts of the rigid guarding surrounding the light curtain are now screwed or riveted in place. Since this is an extremely sensitive system, it would be almost impossible to tamper with the guarding without disturbing the alignment of the light curtain. The press cannot operate with the light curtain even slightly out of alignment. A larger light curtain would be used which will provide sufficient die access height to eliminate any desire to remove the guarding. In addition, under this variance the presses will be operated exclusively by automatic tripping with the electronic light curtain, and will not be switched to other actuating means. This will also eliminate the need to change the position of the guarding. Access to the die area for maintenance or die change requires opening of the rigid guard and the swinging aside of the light curtain making it impossible to operate the press.

A visit was made to the Interlake Stamping Corporation by representatives from OSHA National, Regional and Area Offices for the purpose of observing the use of the electronic light curtain as a means of tripping the press.

The observations made during the visit verified the adequacy of the rigid guarding surrounding the light curtain; the fact that the light curtain assembly must be swung aside to give access to the die area for maintenance, thus shutting down the press; and the fact that failure of any single component of the system shuts down the press.

III. DECISION

Section 6(b)(6)(C) of the Act authorizes the granting of an experimental variance in situations where the Secretary of Labor or of Health, Education, and Welfare determines that it is necessary in order to allow an employer to participate in an experiment to demonstrate or validate new and improved techniques to safeguard the health and safety of the workers.

Therefore, before a variance can be granted under this section of the Act, the following determinations must be made:

1. There is a proposed experiment designed to demonstrate or validate a new and improved technique to safeguard the health or safety of workers;

2. That such experiment has been or should be approved by either the Secretary of Labor or the Secretary of Health, Education, and Welfare;

3. That, in order to carry out the experiment, the Secretary of Labor has determined, or the Secretary of Health, Education, and Welfare has certified, that it is necessary for the employer to deviate from compliance with the standard or portion thereof.

It is determined that the experimental variance requested by Interlake Stamping Corporation meets the criteria of the Act for granting an experimental variance in the following ways:

1. There is a proposed experiment designed to demonstrate or validate a new and improved technique to safeguard the health or safety of workers.

In the preamble to the revision of § 1910.217 which was published in the FEDERAL REGISTER on December 3, 1974 (39 FR 41841, 41844) OSHA considered and rejected the possibility of deleting the prohibition against using presence sensing devices as a tripping mechanism on mechanical power presses. The rejection at that time was based on the fact that European countries which authorize this method have procedures and facilities for approval of the self-tripping devices. OSHA was not equipped for such approval and thus did not delete the prohibition. However, OSHA further stated that the requirement may be reconsidered if a satisfactory means of approval and a regulation can be implemented.

An experiment of the type which is proposed is designed to demonstrate a total safety system employing an electronic light curtain as a tripping mechanism as it is used in certain European countries, and to validate the accident-free experience with this system. Although this is not a new technique in that it has been in use in Europe for many years, it is a new system in the United States and requires further study in order to determine whether it should be approved and what regulations would be necessary to govern its use.

It is the opinion of OSHA that the system may well prove to be an improved safety technique. A document submitted by the Swedish National Board of Industrial Safety, states that their experience has shown no accidents related to the functioning of the light curtain in this mode. It further appears that the simplicity of the system would reduce worker fatigue, a recognized cause of industrial accidents, by eliminating the need for the press operator to manually operate a two-hand control, foot pedal, or other permissible tripping device. In addition, minimizing the operator's task would appear to eliminate the common inclination of press operators to bypass or inactivate the safeguard. Thus, accidents from these causes could be reduced or eliminated.

The increased productivity possible under this system may also help provide safer working conditions for power press operators, if the experiment should justify general use of the system, in that it would provide an incentive for employers to voluntarily comply with the standard.

In this experiment the light curtain would be used as a tripping mechanism on a limited number of machines with careful records kept. It is anticipated that sufficient additional information will be developed in this way to enable OSHA to determine whether this system should be approved for general use and to develop appropriate regulations governing its use.

2. That such experiment has been or should be approved by either the Secretary of Labor or the Secretary of Health, Education, and Welfare.

The desired objective, in this instance, is the evaluation of the safety of the use of the electronic light curtain as a tripping mechanism on mechanical power presses, and the determination of whether the OSHA standard should be modified to authorize this use. This would include the obtaining of sufficient data to enable OSHA to develop necessary specific regulations governing the use of the electronic light curtain in this mode.

It is determined that the experiment as described is a valid means for OSHA

V 41 170
AUG 31 76
UMI

to evaluate the system, to determine whether the standard should be modified, and to develop any necessary regulations. There is sufficient data from the European use of this system to enable Interlake Stamping Corporation to obtain proper equipment and to utilize operating methods which will serve to prevent the employees from undue exposure to hazards.

A one-year time period has been selected as an appropriate length for this experiment. This will allow the accumulation of a significant amount of data while restricting the length of time employees will be allowed to operate the presses in this mode. It is also desirable to use several presses, in this instance five, in order to accumulate sufficient data and to account for press operator differences and potential minor variations in the presses and their components. In addition, five other presses which will utilize permissible guards or devices will serve as a control group to which the experimental presses will be compared. To the extent feasible, runs on the control group will be similar to runs on the experimental group.

Mr. Wayne Groenstein, President of Interlake Stamping Corporation, has visited Sweden to observe this use of the electronic light curtain. He is familiar with, and will observe, the Swedish standards governing this use. In addition, Mr. Groenstein is a responsible member of the metal stamping industry and serves on the American National Standards Institute committee which writes national consensus safety standards concerning mechanical power presses. Even the comment letters objecting to granting the variance expressed support for the responsible way in which Mr. Groenstein would conduct this experiment. Thus, it is determined that he is a responsible person to be conducting such an experiment.

3. That in order to carry out the experiment, the Secretary of Labor has determined or the Secretary of Health, Education, and Welfare has certified that it is necessary for the employer to deviate from compliance with the standard in whole or in part.

Section 1910.217(c)(3)(iii)(*b*) states that a presence sensing device may not be used as a tripping means to initiate slide motion. This experiment will use an electronic light curtain, which is a presence sensing device, as a means of tripping the press. Thus, it is necessary for the employer to deviate from the standard in order to carry out the experiment as described.

As stated in the Background section above, a total of 16 comment letters were received as a result of notices published in the FEDERAL REGISTER. Thirteen of these letters supported granting the variance, while the other three raised questions or expressed objections to granting the variance.

The issues raised by the three comments objecting to granting the variance are addressed as follows:

1. The suggestion was made that the system described in the Interlake variance request is not truly equivalent to the European systems because of certain differences, such as the European certification of equipment and inspectors. While it is true that there are no facilities for such certification here, the applicant's system would be equivalent to the European system because Interlake has selected equipment which has been certified in Europe and is using it in accordance with the latest European standards.

2. Concern was expressed that a variance may be misinterpreted to mean that blanket permission is granted for the use of any type of automatic tripping device in any worksite. Although misinterpretation may occur, the conclusion is not valid. Any variance is granted only to the named applicant, at the named worksite, for the procedure described in the application and subject to the requirements contained in the Order.

3. The statement was made that nothing would be learned from such an experiment, and the issue of the accident which occurred during a demonstration of the press was raised. As discussed above, the accident was thoroughly investigated and steps taken which would prevent such an accident from happening again. Contrary to the statement that nothing will be learned from such an experiment, it is the opinion of OSHA that sufficient information and data can be obtained to enable the agency to determine whether the applicant's safeguarding system will result in improved safety and, if so, how appropriate modifications in the standard should be drawn so as to insure the integrity of the entire system. It should further be emphasized that there is a strong background of accident-free experience in Europe and standards have been developed governing its use. Therefore, it is not necessary to develop totally new information, but simply to validate this European information in American use.

4. There was disagreement with the idea that this method of tripping the press will "improve safety." OSHA believes that because of the potential for reduced fatigue and ease of operation which may eliminate the temptation to bypass the safety features, this tripping mechanism may indeed constitute an improved technique to safeguard employees.

5. There was objection to the term "new" in reference to the press design and the point was made that those new control features are now required on all presses where their use is appropriate. In terms of the requirements of section 3(b)(6)(C), it is the combination of this type of press with the total safety system employing the electronic light curtain used as a tripping mechanism which is new in this country.

6. One commentor suggested that since the system has been used virtually accident-free in Sweden and West Germany, that this implies that accidents have, in fact, occurred. As stated above, information obtained from Sweden states that there have been no accidents directly related to operation of the press or the light curtain in several years of operation. Accidents which have occurred have been related to lack of guarding around the light curtain to prevent other access to the die area, or to placement of a vertical light curtain at too great a distance from a large press, thus enabling an employee to step completely inside the light curtain triggering the press.

7. There was objection to the use of automatic tripping except in completely automatic operations. At the present time OSHA is in agreement with this, as reflected by the prohibition on the use of presence sensing devices to trip a press. We do believe, however, that technology could develop a method to safely and automatically trip the press. The record of the European use appears to be a good indication that this method of automatic tripping may prove to provide a safe method of automatically tripping a press.

8. The opinion was expressed that where automatic tripping is used and it is necessary for hands to enter the die area, redundant safeguarding should be required. However, the European experience indicates that the automatic self-checking of this system (without redundant safeguarding) does provide safe access to the die area.

9. The statement was made that the proper inspection and maintenance of the total system requires highly skilled technicians, who may not be available in small shops. Properly trained technicians are available to Interlake Stamping Corporation for the purposes of this experiment. This whole area is one that must be studied and evaluated through this experiment in order to determine the feasibility of general use of this system.

Although some of the objections raise questions as to whether it would be appropriate to grant a permanent variance, none are sufficient reason for not granting an experimental variance with the objective of obtaining additional information. For these reasons it is determined that this proposed experiment meets the criteria for an experimental variance and it is hereby approved.

IV. ORDER

Pursuant to the authority in section 6(b)(6)(C) of the Occupational Safety and Health Act of 1970, and in Secretary of Labor's Order No. 8–76 (41 FR 25059), it is ordered that Interlake Stamping Corporation be, and it is hereby, authorized to conduct an experiment at its Willoughby, Ohio facility involving the use of Erwin Sick electronic light curtains as tripping means, as well as presence sensing devices, on five Bliss–OBI power presses in lieu of complying with 29 CFR 1910.217(c)(3)(iii)(*b*). The experiment shall be subject to the following conditions and requirements:

1. The use of the Erwin Sick electronic light curtain as both a protective and tripping device is limited to the following presses:

Bliss C–45, 1973 No. H65801–HP49662
Bliss C–22, 1973 No. M65398–HP40305
Bliss C–45, 1973 No. H65802–HP49663
Bliss C–22, 1973 No. H65899–HP49306
Bliss C–22, 1973 No. H64284–HP48364

2. The applicant shall comply with all other requirements of § 1910.217(c)(3)(iii) as amended in the FEDERAL REGISTER on December 3, 1974 (39 FR 41841) and shall comply with all other applicable OSHA regulations.

3. Rigid barrier guarding, interlocked with the light curtain so that removal or improper positioning will not allow the press to cycle, shall be provided.

4. One individual shall be designated as supervisor on the experiment for overall supervision and to enhance uniformity in the reporting and recordkeeping; one supervisor per shift shall be designated to assure compliance with all regulations.

5(a) All employees participating in the experiment shall be volunteers. "Volunteer" is defined to mean an employee who has willingly agreed to participate in the proposed experiment after being fully informed of the plan of the experiment, its attendant risks, his duties and responsibilities, his rights to refuse to participate or to terminate his participation at any time without adverse action, and any other pertinent information.

(b) The applicant shall obtain from each volunteer employee a signed statement indicating that the employee has been informed of the required information and has willingly agreed to participate in the experiment.

(c) If an employee refuses to participate in the experiment or terminates his participation at any time after signing a statement of voluntary participation, the applicant may not discharge or in any manner discriminate against him on account of such action.

6. The presses and the safeguards shall be inspected for proper adjustment and tested prior to the start of each shift, after the change of operators, and after any new die setup; a check-off/sign-off card shall be used to record these inspections.

7. All participating employees shall be trained in safe operating procedures; operating instructions shall be posted and observed; and Swedish safety standards relating to the light curtain as a tripping mechanism shall be observed. (Sweden's National Board of Industrial Safety, December 1972, Directive No. 35).

8. The routine maintenance and inspection schedules and procedures for the presses and the electronic light curtains which have been submitted to OSHA, shall be followed. All maintenance and inspection records shall be available for inspection.

9. Any injury occurring during operation or maintenance of these presses while equipped with an electronic light curtain used as a tripping device and any instance of malfunction of press, safeguards, or controls which could potentially cause an injury shall be immediately reported by telephone to the Division of Variance Determination, Occupational Safety and Health Administration. The operation of all presses by this mode shall cease immediately until the circumstances of the injury or malfunction have been investigated and permission is granted by OSHA to proceed. A written report shall also be made describing the incident which shall include the time of the incident, the length of time into the shift, the length of time the employee had been working that day, and all other pertinent information concerning the incident.

10. A record shall be made of any time the light curtain system worked to protect anyone in a non-routine situation, e.g., a passer-by, a fall, and the circumstances thereof.

11. A record shall be maintained of all repairs and replacements which are required on these five presses while they are equipped with the light curtain operating as a tripping means. This includes a record of brake functioning and any repairs or adjustments made to the brake.

12. The Occupational and Health Administration may visit the worksites to observe the experiment in operation, to examine records, and to obtain information concerning employee acceptance of the equipment.

13. A record shall be maintained of the productivity of each press while the light curtain is used as a tripping device. This shall include the number of strokes per shift, the number of parts produced per shift, and the number of hours of use.

14. The employer shall designate five other presses equipped with permissible guards or devices as a control group, to which the experimental presses will be compared. All data and records which are maintained for the experimental presses (except for number five of this order) shall be maintained for the control group. Such records shall include a description of the guard or device in use. To the extent feasible, the runs on the control group shall be similar to the runs on the experimental group.

15. A record shall be maintained of any set-ups where it is not feasible to use a light curtain to trip the press, or where additional safeguards were necessary.

16. Reports and records required by this order shall be available for inspection at Interlake Stamping Corporation's Willoughby, Ohio facility and shall be submitted quarterly to the Division of Variance Determination of the Occupational Safety and Health Administration.

17. This variance shall continue in effect for one year, unless revoked.

18. The Assistant Secretary for Occupational Safety and Health reserves the right to revoke or modify this variance for reasons of injury to employees, malfunction of presses or light curtain, failure to comply with the terms of this order, a previously unanticipated hazard being caused by the experiment, or for other good cause. Such revocation or modification shall be effective upon receipt of notice thereof.

Effective date. This order shall become effective on August 31, 1976, and shall remain in effect for one year, unless revoked.

Signed at Washington, D.C. this 23rd day of August, 1976.

MORTON CORN,
Assistant Secretary of Labor.

Wage and Hour Division

[Administrative Order No. 646]

INDUSTRY COMMITTEES FOR VARIOUS INDUSTRIES IN PUERTO RICO

Appointment; Convention; Hearings

1. Pursuant to section 5 of the Fair Labor Standards Act of 1938, as amended (29 U.S.C. 205), Reorganization Plan No. 6 of 1950 (3 CFR 1949–53 Comp., p. 1004), and 29 CFR 511, I hereby appoint the following industry committee for the indicated industries:

Committee No.:	*Industry*
135	Food and kindred products industry in Puerto Rico
136–A	Jewelry and miscellaneous products manufacturing industry in Puerto Rico
136–B	Rubber and miscellaneous plastics products industry in Puerto Rico

2. These industries are defined as follows:

a. (1) The food and kindred products industry in Puerto Rico is defined as follows: The canning, preserving (including freezing, drying, curing, pickling, and similar processes), or other manufacturing or processing, and the packaging in conjunction therewith, of foods, ice, alcoholic and nonalcoholic beverages; the handling, grading, packing, or preparing in their raw or natural state of fresh vegetables, fresh fruits, nuts, or edible field crops; and the gathering of wild plant or animal life; the production of raw sugar, cane juice, molasses, and refined sugar, and incidental by-products, and all railroad transportation activities carried on by a producer of any of these products (or by any firm owned or controlled by, or owning and controlling such producer, or by any firm owned or controlled by the parent company of such producer) where the railroad transportation activities are in whole or in part used for the production or shipment of the products of the industry, and any transportation activities by truck, vessel, or other vehicle performed by a producer of products of such producer: *Provided, however,* That the industry shall not include any product or activity included in the chemical, petroleum, and related products industry; or any transportation activity covered by the wage order for the communications, utilities, and transportation industry, or any transportation activity in which the agricultural exemption contained in section 13(a) of the Act was applicable prior to February 1, 1967; *And provided, further,* That the industry shall not include sugar and other food manufacturing activities covered by the wage order for the government service industry.

(2) The industry includes, but is not limited to, the manufacture or processing of meat products, poultry and poultry products, milk and dairy products, fish and seafood products, fruit and vegetable products, grains and grain products, sugar and confectionary products, fats and oils, bakery products, beverages, and miscellaneous food preparations and kindred products.

b. (1) The jewelry and miscellaneous products manufacturing industry in Puerto Rico is defined as follows: The manufacture of jewelry and jewelry products including the processing of natural or synthetic stone for jewelry or industrial use; the manufacture of artificial flowers except those made of molded plastic, party favors and similar products; straw, hair and related products; and all other manufacturing activities which are not included in the definitions of other manufacturing industries in

V41170 AUG 31 76 UMI

Puerto Rico for which wage orders have been issued: *Provided, however,* That the industry shall not include any activity carried on by an establishment primarily engaged in another industry in Puerto Rico for its own use.

(2) This industry includes, but is not limited to, the manufacture of jewelry and jewelry findings; silverware, plated ware, and stainless steel ware; rosaries, beads, buttons, buckles and hair ornaments and accessories; the processing of stones for jewelry or industrial use; the manufacture of flowers, buds, berries, foliage, leaves, fruits, plants, stems, and branches which are commonly or commercially known as artificial; the manufacture of party favors and ornamnents and decorations for holidays except those made of molded plastics or metal other than metallic chenille, foil or tinsel; and the manufacture of products made wholly or chiefly of straw, raffia, sisal, maguey, palm leaves, rushes, grasses, hair bristles, feathers and similar materials.

c. The rubber and miscellaneous plastics products industry in Puerto Rico is defined as follows: The manufacture from natural, synthetic, or reclaimed rubber or latex rubber products such as, but not limited to, tires and tubes, reclaimed rubber, rubber and plastics hose and belting, industrial and mechanical rubber and plastic goods, rubberized fabrics, recapped and retreaded tires, rubber and plastics cut stock and findings for footwear, and miscellaneous rubber and fabricated plastics products: *Provided, however,* That the industry shall not include any activity in the rubber and plastics footwear industry; the chemical, petroleum and related products industry; the leather, leather goods and related products industry; the gloves and mittens industry; the men's and boys' clothing and related products industry; the corsets, brassieres and allied garments industry; the women's outerwear, needlework and miscellaneous fabricated textile products industry; the textile mill products industry; and the jewelry and miscellaneous products manufacturing industry.

3. Pursuant to section 8 of the Fair Labor Standards Act of 1938 (29 U.S.C. 208), Reorganization Plan No. 6 of 1950 (3 CFR 1949–53 Comp., p. 1004), and 29 CFR Part 511, I hereby:

a. Convene the above-appointed industry committees;

b. Refer to the industry committees the question of the minimum rates of wages to be fixed for the above-mentioned industries in Puetro Rico.

c. Give notice of the hearnigs to be held by the several committees at the times and place indicated. The committees shall investigate conditions in the industries, and the committees, or any authorized subcommittee thereof, shall hear witnesses and receive such evidence as may be necessary or appropriate to enable the committees to perform their duties and functions under the aforementioned Act.

Industry Committee No. 135 will meet in executive session to commence its investigation at 9 a.m. and begin its public hearing at 10 a.m. on Tuesday, October 12, 1976.

Industry Committee No. 136–A will meet in executive session to commence its investigation at 9 a.m. and begin its public hearing at 10 a.m. on Monday, October 18, 1976.

Following this hearing Industry Committee No. 136–B will immediately convene to conduct its investigation and begin its public hearing.

The hearings will take place in the offices of the Wage and Hour Division on the fourth floor of the New Federal Office Building, Carlos Chardon Street, Hato Rey, Puerto Rico.

4. The rate or rates recommended by the committees shall not exceed the rates prescribed by section 6(a) of the Act, namely $2.30 an hour after December 31, 1975, for those classifications covered before the Fair Labor Standards Amendments of 1966; nor those rates prescribed by section 6(b) of the Act, namely, $2.20 an hour during the year beginning January 1, 1976, nor $2.30 an hour after December 31, 1976, for those classifications brought under the Act by the Fair Labor Standards Amendments of 1966.

Each industry committee shall recommend to the Administrator of the Wage and Hour Division of the Department of Labor the highest minimum wage rates for the industry which it determines, having due regard to economic and competitive conditions, will not substantially curtail employment in the industry, and will not give any industry in Puerto Rico a competitive advantage over any industry in the United States outside of Puerto Rico, the Virgin Islands, or American Samoa; except that each committee shall recommend the minimum rates prescribed in section 6(a) or section 6(b), unless there is substantial documentary evidence including pertinent unabridged profit and loss statements and balance sheets for a representative period of years which establishes that the industry or a predominant portion thereof, is unable to pay the wage.

5. Whenever an industry committee finds that a higher minimum wage may be determined for employees engaged in certain activities in the industry than may be determined for other employees in that industry, the committee shall recommend such reasonable classifications within the industry as it determines to be necessary for the purpose of fixing for each classification the highest minimum wage rate that can be determined for it under the principles set forth herein and in 29 CFR 511.10 which will not give a competitive advantage to any group in the industry. No classification shall be made, however, and no minimum wage rate shall be fixed solely on a regional basis or on the basis of age or sex. In determining whether there should be classifications within an industry, in making such classification, and in determining the minimum wage rates for such classifications, the industry committee shall consider, among other relevant factors, the following: (a) Competitive conditions as affected by transportation, living, and production costs; (b) wages established for work of like or comparable character by collective labor agreements negotiated between employers and employees by representatives of their own choosing; and (c) wages paid for work of like or comparable character by employers who voluntarily maintain minimum wage standards in the industry.

6. The Administrator shall prepare an economic report for the industry committees containing such data as he is able to assemble pertinent to the matters referred to them. Copies of such reports may be obtained at the National and Puerto Rican offices of the Wage and Hour Division of the U.S. Department of Labor as soon as they are completed and prior to the hearings. The industry committees shall take official notice of the facts stated in the economic reports to the extent that they are not refuted at the hearing.

7. The procedure of industry committees shall be governed by 29 CFR Part 511. Interested persons wishing to participate in the hearings shall file prehearing statements, as provided in 29 CFR 511.8 containing the data specified in that section not later than 10 days before the first hearing date set for each committee as set forth in this notice of hearing i.e. October 2, 1976 for matters to be considered by Industry Committee No. 135; and October 8, 1976 for matters to be considered by Industry Committees No. 136–A and 136–B.

Signed at Washington, D.C. this 26th day of August 1976.

W. J. USERY, Jr.,
Secretary of Labor.

INTERSTATE COMMERCE COMMISSION

[Notice No. 133]

ASSIGNMENT OF HEARINGS

AUGUST 26, 1976.

Cases assigned for hearing, postponement, cancellation or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested.

No. MC 113908 Sub 241, Erickson Transport Corp., now assigned October 13, 1976, is postponed to January 18, 1977 (9 days) at Kansas City, Mo., in a hearing room to be later designated.

No. 36308, Norman Charles Brinke, dba N. C. Brinke, et al. V. The Central Railroad Company of New Jersey, Robert D. Timpany, Trustee, et al, now assigned September 1, 1976, at Washington, D.C. is postponed to September 8, 1976, at the Offices of the Interstate Commerce Commission, Washington, D.C.

MC 114533 (Sub 341), Bankers Dispatch Corporation now being assigned October 13, 1976 for pre-hearing conference in the Offices of the Interstate Commerce Commission in Washington, D.C.

MC 2359 (Sub 23), Dameo, Inc. and MC 124839 (Sub 27), Building Transport, Inc. now being assigned Novmeber 3, 1976 at the Office of the Interstate Commerce Commission in Washington, D.C.

MC 126276 (Sub 148), Fast Motor Service, Inc. now being assigned November 4, 1976 at the Offices of the Interstate Commerce Commission in Washington, D.C.

MC 136964 (Sub 1), Howard Williams and Thomas Milton, dba Williams-Milton Bus Company now being assigned November 4, 1976 at the Offices of the Interstate Commerce Commission in Washington, D.C.

MC 128582 (Sub 7), KLM, Inc. now being assigned November 4, 1976 at the Offices of the Interstate Commerce Commission in Washington, D.C.

MC 107295 (Sub 813), Pre-Fab Transit Co. now being assigned November 11, 1976 at the Offices of the Interstate Commerce Commission in Washington, D.C.

MC 116763 (Sub-No. 336), Carl Subler Trucking, Inc., now assigned September 14, 1976 at Atlanta, Georgia; will be held in Room 305, 1252 West Peachtree Street, NW.

MC 117956 (Sub-No. 10), Scott Transfer Co., Inc., now assigned September 15, 1976 at Atlanta, Georgia; will be held in Room 305, 1252 West Peachtree Street, NW.

MC 133937 (Sub-No. 16), Carolina Cartage Company, Inc., now assigned September 20, 1976 at Atlanta, Georgia; will be held in Room 305, 1252 West Peachtree Street, NW.

MC 126899 Sub 96, Usher Transport, Inc., now being assigned November 30, 1976 (1 day), at Louisville, Ky., in a hearing room to be later designated.

MC–F 12739, Wilson Freight Company—Purchase (Portion)—Red Star Express Lines of Auburn, Inc., DBA Red Star Express Lines, and MC 13123 Sub 82, Wilson Freight Company; now being assigned December 6, 1976 (1 Week), at Cincinnati, Ohio, in a hearing room to be later designated.

MC 141832, K.I.T. Motor Express, Incorporated, now being assigned December 1, 1976 (1 day), at Louisville, Ky., in a hearing room to be later designated.

MC 118959 Sub 134, Jerry Lipps, Inc., now being assigned December 2, 1976 (2 days), at Louisville, Ky., in a hearing room to be later designated.

H. GORDON HOMME, Jr.,
Acting Secretary.

[FR Doc.76-25487 Filed 8-30-76;8:45 am]

FOURTH SECTION APPLICATIONS FOR RELIEF

AUGUST 26, 1976.

An application, as summarized below, has been filed requesting relief from the requirements of section 4 of the Interstate Commerce Act to permit common carriers named or described in the application to maintain higher rates and charges at intermediate points than those sought to be established at more distant points.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the general rules of practice (49 CFR 1100.40) and filed on or before September 15, 1976.

FSA No. 43225—*Fertilizer Compounds from Wellsville, Colorado.* Filed by Southwestern Freight Bureau, Agent, (No. B–626), for interested rail carriers. Rates on fertilizer compounds (manufactured fertilizers), neibn, liquid or paste, in carloads and tank-car, as described in the application, from Wellsville, Colorado, to points in Arkansas, Louisiana, Missouri, New Mexico, Oklahoma, and Texas. Grounds for relief—Market competition, short-line distance formula and grouping. Tariff—Supplement 55 to Southwestern Freight Bureau, Agent, tariff 273–G, I.C.C. No. 5188. Rates are published to become effective on October 1, 1976.

FSA No. 43226—*Asphalt and Related Articles to Points in WTL Territory.* Filed by Trans-Continental Freight Bureau, Agent, (No. 508), for interested rail carriers. Rates on asphalt and related articles, in tank-car loads, as described in the application, from Cut Bank and Kevin, Montana, to points in western trunk-line territory, and points in Illinois, Indiana, and Kentucky. Grounds for relief—Market competition.

By the Commission.

H. G. HOMME, Jr.,
Acting Secretary.

[FR Doc.76-25480 Filed 8-30-76;8:45 am]

[Notice No. 21]

MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

AUGUST 31, 1976.

Synopses of orders entered by the Motor Carrier Board of the Commission pursuant to sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings on or before September 20, 1976. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC–FC–76163. By order of August 25, 1976, the Motor Carrier Board, on reconsideration, approved the transfer to Inter-Airport Airfreight, Inc., Queens, N.Y., of portion of the operating rights in Certificate No. MC 128383 (Sub-No. 13), issued January 22, 1973, to Pinto Trucking Service, Inc., Sharon Hill, Pa., authorizing the transportation of general commodities (except commodities in bulk and automobiles) between the Greater Buffalo International Airport, Erie County, N.Y., Rochester-Monroe County Airport, Monroe County, N.Y., Clarence E. Hancock Airport, Onondaga County, N.Y., Albany County Airport, Albany County, N.Y., Broome County Airport, Broome County, N.Y., Chemung County Airport, Chemung County, N.Y., Jamestown Municipal Airport, Chautauqua County, N.Y., Schenectady County Airport, Schenectady County, N.Y., Logan International Airport, Boston, Mass., Bowles Agawam Airport, Hampden, Mass., Tweed-New Haven Airport, New Haven County, Conn., Bradley International Airport, Hartford, Conn., and Cleveland-Hopkins Airport, Cuyahoga County, Ohio, restricted against the transportation of shipments between the Greater Buffalo International Airport, Erie County, N.Y., and the Clarence E. Hancock Airport, Onondaga County, N.Y., and to the transportation of shipments having a prior or subsequent movement by air. Steven L. Weiman, 303 N. Frederick Ave., Gaithersburg, Md. 20760, Attorney for applicants.

H. G. HOMME, Jr.,
Acting Secretary.

[FR Doc.76-25479 Filed 8-30-76;8:45 am]

[Notice No. 112]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

AUGUST 26, 1976.

The following are notices of filing of applications for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the provisions of 49 CFR 1131.3. These rules provide that an original and six (6) copies of protests to an application may be filed with the field official named in the FEDERAL REGISTER publication no later than the 15th calendar day after the date the notice of the filing of the application is published in the FEDERAL REGISTER. One copy of the protest must be served on the applicant, or its authorized representative, if any, and the protestant must certify that such service has been made. The protest must identify the operating authority upon which it is predicated, specifying the "MC" docket and "Sub" number and quoting the particular portion of authority upon which it relies. Also, the protestant shall specify the service it can and will provide and the amount and type of equipment it will make available for use in connection with the service contemplated by the TA application. The weight accorded a protest shall be governed by the completeness and pertinence of the protestant's information.

Except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

V 41 170 AUG 31 76 UMI

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in the ICC Field Office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 1515 (Sub-No. 218TA), filed August 19, 1976. Applicant: GREYHOUND LINES, INC., Greyhound Tower, Suite 1602, Phoenix, Ariz. 85077. Applicant's representative: W. L. McCracken (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *Passengers and their baggage, express, and newspapers*, in the same vehicle with passengers, (1) between the junction of Interstate Highway 94 and Business Route Interstate Highway 94 east of Benton Harbor, Mich., and the junction of Interstate Highway 94 and Business Route Interstate Highway 94 south of St. Joseph, Mich., serving all intermediate points; from the junction of Interstate Highway 94 and Business Route Interstate Highway 94 over Interstate Highway 94 to its junction with Business Route Interstate Highway 94 and return over the same route; (2) between the junction of Interstate Highway 94 and Business Route Interstate Highway 94 east of Benton Harbor, Mich., and Benton Harbor, Mich., serving all intermediate points; from the junction of Interstate Highway 94 and Business Route Interstate Highway 94 over Business Route Interstate Highway 94 to Benton Harbor, Mich., and return over the same route; and (3) between the junction of Interstate Highway 94 and Michigan Highway 139 and Benton Harbor, Mich., serving all intermediate points; from the junction of Interstate Highway 94 and Michigan Highway 139 over Michigan Highway 139 to its junction with unnumbered highway, thence over unnumbered highway to Benton Harbor, Mich., and return over the same route. Applicant intends to tack its existing authority with MC 1515 Sub-No. 6. Applicant also intends to interline at Benton Harbor, Mich., for 180 days. Supporting shippers: There are approximately 7 statements of support attached to the application which may be examined at the Interstate Commerce Commission in Washington, D.C., or copies thereof which may be examined at the field office named below. Send protests to: Andrew V. Baylor, District Supervisor, Interstate Commerce Commission, Room 3427 Federal Bldg., 230 N. First Ave., Phoenix, Ariz. 85025.

No. MC 19945 (Sub-No. 58TA), filed August 19, 1976. Applicant: BEHNKEN TRUCK SERVICE, INC., Route No. 13, New Athens, Ill. 62264. Applicant's representative: Ernest A. Brooks II, 1301 Ambassador Bldg., St. Louis, Mo. 63101. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Salt and salt products*, from the plantsite of Cargill, Inc., at Cahokia, Ill., to points in Missouri, for 180 days. Supporting shipper: John Labriola, General transportation Manager, Cargill, Inc., Cargill Bldg., Minneapolis, Minn. 55402. Send protests to: Harold C. Jolliff, District Supervisor, Interstate Commerce Commission, P.O. Box 2418, Springfield, Ill. 62705.

No. MC 107002 (Sub-No. 489TA), filed August 19, 1976. Applicant: MILLER TRANSPORTERS, INC., P.O. Box 1123 (U.S. Highway 80 West), Jackson, Miss. 39205. Applicant's representative: Edward M. Regan (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Pine oil*, in bulk, in tank vehicles, from Hattiesburg, Miss., to Inspiration, Ariz., for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Hercules Incorporated, 900 Life of Georgia Tower, Atlanta, Ga. 30308. Send protests to: Alan C. Tarrant, District Supervisor, Interstate Commerce Commission, Room 212, 145 East Amite Bldg., Jackson, Miss. 39201.

No. MC 114789 (Sub-No. 56TA), filed August 20, 1976. Applicant: NATIONWIDE CARRIERS, INC., P.O. Box 104, Maple Plain, Minn. 55359. Applicant's representative: Allan L. Timmerman (same address as applicant). Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Such commodities* as are dealt in by retail department stores (except foodstuffs), from Columbus, Ohio, to points in Illinois, Indiana, Iowa, Kansas, Missouri, Nebraska, South Dakota, and Wisconsin, under a continuing contract with Gamble-Skogmo Inc., for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Gamble Skogmo, Inc., 5100 Gamble Drive, Minneapolis, Minn. 55461. Send protests to: A. N. Spath, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 414 Federal Bldg. & U.S. Courthouse, 110 S. 4th St., Minneapolis, Minn. 55401.

No. MC 115311 (Sub-No. 193TA), filed August 19, 1976. Applicant: J & M TRANSPORTATION CO., INC., P.O. Box 488, Milledgeville, Ga. 31061. Applicant's representative: K. Edward Wolcott, 1600 First Federal Bldg., Atlanta, Ga. 30303. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Wallboard and paneling*, from the facilities of Textone, Incorporated, at or near North Charleston, S.C., to points in Georgia, Indiana, Maryland, North Carolina, Ohio, Pennsylvania, Tennessee, Texas and Virginia, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Textone, Incorporated, 3 Hock Ave., N. Charleston, S.C. 29406. Send protests to: Sara K. Davis, Transportation Assistant, Bureau of Operations, Interstate Commerce Commission, 1252 W. Peachtree St. NW., Room 546, Atlanta, Ga. 30309.

No. MC 117993 (Sub-No. 5TA), filed August 20, 1976. Applicant: FRUITBELT TRUCKING, INC., 12 Smith St., St. Catharines, Ontario, Canada L20 3H9. Applicant's representative: Robert D. Gunderman, Suite 710, Statler Hilton Buffalo, N.Y. 14202. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen citrus concentrate*, from Dade City, Fla., to points in the Province of Ontario over Ports of entry on the International Boundary line between the United States and Canada in New York and Michigan, for 180 days. Supporting shippers: Jamay Imports Ltd., 25 Overlea Drive, Building No. 3, Thorncliff Square, Toronto, Ontario, Canada. Lykes Pasco Packing Company, P.O. Box 97, Dade City, Fla. 33525. Send protests to: George M. Parker, District Supervisor, Interstate Commerce Commission, Bureau of Operations, Room 910, 111 West Huron St., Buffalo, N.Y. 14202.

No. MC 119789 (Sub-No. 297TA), filed August 20, 1976. Applicant: CARAVAN REFRIGERATED CARGO, INC., P.O. Box 6188, Dallas, Tex. 75222. Applicant's representative: James K. Newbold, Jr. (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Food, food products, and food ingredients*, in mechanical refrigerated equipment (except in bulk), from the plant and warehouse facilities of Archer-Daniels-Midland Company, located in Decatur, Ill., to points in Arkansas, Louisiana, Texas, Oklahoma, and New Mexico, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Archer-Daniels-Midland Company, P.O. Box 1470, Decatur, Ill. 62525. Send protests to: Opal M. Jones, Transportation Assistant, Interstate Commerce Commission, 1100 Commerce St., Room 13C12, Dallas, Tex. 75242.

No. MC 126118 (Sub-No. 22TA), filed August 19, 1976. Applicant: CRETE CARRIER CORPORATION, P.O. Box 81228, Lincoln, Nebr. 68501. Applicant's representative: Ken Adams (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Peppers, pimientos* (unfrozen), *and materials and supplies* used in the production, distribution, and sale of peppers and pimientos (except in bulk), (1) between the plantsite of Moddy Dunbar, Inc., near Limestone, Tenn., on the one hand, and, on the other, points in and west of Minnesota, Iowa, Arkansas, and Louisiana; and (2) from points in Indiana, Ohio, Florida, Maryland, Virginia, and Pennsylvania, to the plantsite of Moody Dunbar, Inc., near Limestone, Tenn., for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Rex Pruitt, Vice-President, Moody Dunbar, Inc., Box 68, Limestone, Tenn. 37681. Send protests to: Max H. Johnston, District Supervisor, 285 Federal Bldg. & Courthouse, Lincoln, Nebr. 68508.

No. MC 133095 (Sub-No. 106TA), filed August 20, 1976. Applicant: TEXAS CONTINENTAL EXPRESS, INC., P.O. Box 434, 2603 W. Euless Blvd., Euless, Tex. 76039. Applicant's representative: Rocky Moore (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Malt beverages*, in vehicles equipped with mechanical refrigeration, from Golden, Colo., to St. Louis, Mo., and Memphis, Tenn., for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Don N. Lee, d./b./a. Lee Distributing, P.O. Box 1383, 3rd and Glover SE., Ardmore, Okla. 73401. Send protests to: H. C. Morrison, Sr., District Supervisor, Interstate Commerce Commission, Room 9A27, Federal Bldg., 819 Taylor St., Fort Worth, Tex. 76102.

No. MC 133221 (Sub-No. 23TA), filed August 18, 1976. Applicant: OVERLAND CO., INC., 1991 Buford Highway, Lawrenceville, Ga. 30245. Applicant's representative: Alvin Button, 2477 N. Decatur Road, Decatur, Ga. 30033. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Telephone cable*, for the account of the American Telephone and Telegraph Co., from points in Anderson, Greenville, Spartanburg, Cherokee, and York Counties, S.C.; and Gaston, Mecklenburg, Cabarrus, Rowan, Davidson, Guilford, Alamance, Orenge, Durham, Granville, and Vance Counties, N.C.; and Marion, Grundy, Coffee, Bedford, Rutherford, Davidson, Cheatham, and Robertson Counties, Tenn., and Todd, Christian, Hopkins, Webster, and Henderson Counties, Ky., and Vanderburg County, Ind.; near or adjacent to the right-of-way of cables of American Telephone and Telegraph Company, to the facilities of Nassau Recycling Corporation, at Gaston, S.C., for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: American Telephone and Telegraph Co., 100 Edgewood Ave. NE., Atlanta, Ga. Send protests to: Sara K. Davis, Transportation Assistant, Bureau of Operations, Interstate Commerce Commission, 1252 W. Peachtree St. NW., Room 546, Atlanta, Ga. 30309.

No. MC 136343 (Sub-No. 90TA), filed August 26, 1976. Applicant: MILTON TRANSPORTATION, INC., P.O. Box 355, R.D. 1, Milton, Pa. 17847. Applicant's representative: George A. Olsen, 69 Tonnele Ave., Jersey City, N.J. 07306. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Printing paper*, from Luke, Md., to Bristol, Danbury, Darby, Farmington, Crystal Lake, New Haven, Stamford, Trumbull, and West Haven, Conn.; Avon, Boston, Cambridge, Chareston, Clinton, East Longmeadow, Everett, Forge Village, Holyoke, Medford, North Abington, North Adams, North Plymouth, Salem, South Boston, South Braintree, Springfield, Taunton, West Hanover, Westford, Worcester, Mass.; Freeport, Lewiston, Maine; Concord, Hanover, Manchester, Nashua, N.J.; New York, N.Y., Commercial Zone as defined by the Commission, Providence, R.I., Brattleboro, Vt., for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Send protests to: Westvaco Corporation, 299 Park Ave., New York, N.Y. 10017. Send protests to: Robert P. Amerine, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 278 Walnut St., P.O. Box 869, Harrisburg, Pa. 17108.

No. MC 136500 (Sub-No. 5TA), filed August 19, 1976. Applicant: HARRY D. DIEPHOLZ, doing business as DIEPHOLZ TRUCKING, 3453 Western Ave., Mattoon, Ill. 61938. Applicant's representative: Robert T. Lawley, 300 Reisch Bldg., Springfield, Ill. 62701. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Equipment and machinery* used for manufacture of concrete products, for the account of Columbia Machine, Inc., from Mattoon, Ill., to Miami, Fla.; New Orleans, La.; Baltimore, Md.; New York City, N.Y.; Portland, Oreg., and Houston, Tex., restricted to traffic having a subsequent movement in foreign commerce, under a continuing contract with Columbia Machine, Inc., Applicant intends to interline to the extent that water carriers would receive the shipments that are all export, for 180 days. Supporting shipper: Kenneth Winings, Traffic Manager, Columbia Machine, Inc., East Route No. 16, P.O. Box 84, Mattoon, Ill. 61938. Send protests to: Harold C. Jolliff, District Supervisor, Interstate Commerce Commission, P.O. Box 2418, Springfield, Ill. 62705.

No. MC 136818 (Sub-No. 11TA), filed August 20, 1976. Applicant: SWIFT TRANSPORTATION COMPANY, INC., 335 West Elwood Road, Phoenix, Ariz. 85031. Applicant's representative: Donald E. Fernaays, Suite 320, 4040 E. McDowell Road, Phoenix, Ariz. 85008. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Grandular cheese*, from Tempe, Ariz., to Springfield, Carthage and Neosho, Mo., for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: United Dairymen of Arizona, 2036 Hardy Drive, Tempe, Ariz. Send protests to: Andrew V. Baylor, District Supervisor, Interstate Commerce Commission, Room 4327, Federal Bldg., 230 N. First Ave., Phoenix, Ariz. 85025.

No. MC 138080 (Sub-No. 5TA), filed August 20, 1976. Applicant: EDWARD R. WOLFE, doing business as WOLFE TRUCKING, 20425 Ahha Lane, Bend, Oreg. 97701. Applicant's representative: Edward R. Wolfe (same address as applicant). Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Lime sludge*, from points in Yakima County, Wash., to points in Linn, Marion, Benton, and Lane Counties, Oreg., under a continuing contract with Soil Conditioners, Inc., for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Soil Conditioners, Inc., P.O. Box 206, Zillah, Wash. Send protests to: W. J. Huetig, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 114 Pioneer Courthouse, Portland, Oreg. 97204.

By the Commission.

GORDON H. HOMME, JR.,
Acting Secretary.

PART II:

ENVIRONMENTAL PROTECTION AGENCY

■

GRANTS FOR STATE UNDERGROUND WATER SOURCE PROTECTION PROGRAMS

STATE UNDERGROUND INJECTION CONTROL PROGRAM

Proposed Regulations

V41-170 AUG 31 76 UMI

ENVIRONMENTAL PROTECTION AGENCY

[40 CFR Part 35]

[FRL 595-8]

GRANTS FOR STATE UNDERGROUND WATER SOURCE PROTECTION PROGRAMS

Proposed Regulations

Notice is hereby given that pursuant to sections 1443(b) and 1450 of the Public Health Service Act ("the Act"), as amended by the Safe Drinking Water Act ("SDWA," Pub. L. 93-523) the Administrator of the Environmental Protection Agency (EPA) proposes to issue additions to 40 CFR Part 35 setting forth regulations governing grants to States to assist in the funding of underground water source protection programs.

The SDWA provides for both direct regulation of public water systems and regulation of underground injection practices which may endanger underground drinking water sources for those systems. The underground water source protection program and the public water system supervision program are two separate programs covered by separate regulations and any State may seek separate primacy for either one or both grant programs. In both cases, Congress sought to leave primary enforcement responsibility to the States, and provided for grants from EPA to State programs meeting certain requirements. Provisions for general program grants are contained in section 1443(b) of the Act.

Regulations for State programs regulating public water systems and for EPA grants supporting those programs were published in the FEDERAL REGISTER on January 20, 1976 at 41 FR 2916. Proposed regulations for State underground injection control programs pursuant to section 1421 of the Act are being published in the FEDERAL REGISTER concurrently with these regulations which contain the requirements for grants to the States to help support "underground water source protection programs." (See FR Doc. 76-24700, infra.)

Some confusion may result from the ues of the terms, "underground injection control program," and "underground water source protection program" found in sections 1421 and 1443 respectively of the Act. They refer to the same basic State program designed to provide broad protection to underground drinking water sources from endangerment by underground injection of contaminants. Thus, section 1443(c)(2) defines the term underground water source protection program as "a program or the adoption and enforcement of a program which meets the requirements of regulations under section 1421 and for keeping records and making reports required by section 1422(b)(1)(A)(ii)." Because the following regulations are proposed principally pursuant to section 1443 of the Act, they will be referred to by the term used in section 1443, "underground water source protection programs" but with the understanding that what is meant is basically the type of underground injection control (U.I.C.) program required under section 1421.

Section 1443(b)(2) of the Act provides that no State may receive its first grant until the Administrator determines that the State has established or will establish within two years from the date of the grant award an underground injection control program pursuant to section 1421 of the Act, and will, within two years, assume primary enforcement for underground water sources within the State.

Section 35.661-1 of the proposed grant regulations provides that an application for the initial grant must be accompanied by a letter from the chief elected official of the State stating whether the State has, or intends to establish within two years, an underground injection control program and affirming the State's intention to assume primary enforcement responsibility within two years. Pursuant to the requirements of the Act, proposed § 35.663 provides that a State cannot receive a grant for a period beginning more than two years after the date of the State's initial grant unless the State has assumed and maintains primary enforcement responsibility.

Section 1422(a) of the Act provides that within 180 days of enactment of the Safe Drinking Water Act the Administrator of the Environmental Protection Agency shall list in the FEDERAL REGISTER "each State for which in his judgment a State underground injection control program may be necessary to assure that underground injection will not endanger drinking water sources."

The Administrator's judgment with respect to each State must be reasoned judgment based on pertinent information. The designation of States requiring underground injection control programs is directly related to the development of regulations for State underground injection control programs pursuant to section 1421 of the Act and to the assessment of information on the incidence of ground-water contamination. The development of those regulations includes the collection of data pertinent to the designation of States requiring control programs. The list of States requiring UIC programs can be amended from time to time.

On July 24, 1975 (40 FR 31034) the Administrator published a notice in the FEDERAL REGISTER deferring designation of the States until the information described above is considered. This will be after publication of the proposed State program regulations, but prior to promulgation of those regulations. The proposed scheduling will enable States to understand the program requirements which would be applicable and to formulate plans for assuming primary program responsibility accordingly.

Those States not listed by the Administrator who wish to apply for a grant to operate a State underground injection control program, in compliance with the regulations promulgated under sections 1421, 1422, 1423 and 1450 of the Act, may do so by petitioning the Administrator to amend his list to include such State. The petition must clearly demonstrate to the Administrator that the State does have a program in operation which meets the requirements of the regulations and that there is substantial compelling evidence that the State needs such a program at this time.

Section 1443(b)(4) of the Act provides that the grant funds will be allotted among the 56 States on the basis of population, geographical area, and "other relevant factors." EPA proposes to allocate grant funds during fiscal year 1977 to the States named by EPA during the fiscal year as requiring underground water source protection programs. The allocation will be made on the basis of population (20 percent weight factor), geographic area (30 percent), and quantity of ground water used for drinking water purposes (50 percent). In subsequent years, EPA proposes to allocate funds to those States named as provided for in section 1422 of the Act, on the basis of the number of injection facilities within a State (30 percent weight factor) as well as on the population (20 percent), geographic area (20 percent), and ground-water withdrawals for drinking water purposes (30 percent) of the State. Statistics on population and geographical area are, of course, readily available. Also, statistics regarding the amount of ground water used for drinking water purposes are available from the most recent U.S. Geological Survey (U.S.G.S.) report on ground water use in the United States. These use figures will be used initially for documenting ground-water withdrawal. However, statistics on the number of underground injection facilities in each State are not yet entirely reliable. The comprehensiveness of underground injection facility inventories varies widely from State to State.

EPA is encouraging the States to complete their injection facilities inventories during the initial grant year. The inventory shall include all industrial and municipal waste disposal wells, subsidence control wells, barrier wells, recharge wells, mining wells, geothermal wells, disposal and recovery wells associated with production of oil or natural gas, agricultural drainage wells and urban run-off wells, as defined in 40 CFR 146.2, State Underground Injection Control Program Regulations, being published concurrently with these regulations. These may be drilled, bored or driven wells or dug wells where the depth is greater than their largest surface dimension. They must have as a principal function the subsurface emplacement of fluids. The inventory shall also include all other dug wells, such as pits, ponds and lagoons, which may function as injection wells.

In the interest of a fair distribution of available grant funds, proposed § 35.655 would define "underground injection facilities" for allocation purposes as underground injection facilities identified to EPA as of April 1, 1977. These regulations provide for the Regional Administrator to award grants based on need in accordance with § 35.655. In no event shall a State's allotment be less than $10,000. Comments on the proposed allocation formula are invited.

"State" is defined in the Act to include the District of Columbia, Puerto Rico, the Virgin Islands, Guam, American Samoa or the Trust Territories of the Pacific Islands.

Proposed § 35.657 would provide that the actual grant to the State will be determined by the Regional Administrator at the time of the grant award. The grant must not exceed 75 percent of the allowable costs of a State program.

Eligibility for grant awards is provided for in § 35.659. Each State named by the Administrator in accordance with the requirements of section 1422 of the Act is eligible to receive a grant award in an amount not to exceed the reasonable cost of carrying out its approved program.

Proposed § 35.655-1(c) provides that the Administrator will reallot, on a national basis, all unobligated funds among eligible States demonstrating a need for additional funds. For fiscal year 1977, this reallotment will be made as soon as possible after May 1, 1977. The unobligated funds will be allocated on the basis of each State's total allocation factor compared to the total allocation factor for the eligible States.

As soon as practicable after June 30 of each fiscal year, funds remaining unobligated and other funds available from reduction of grants will be reallocated to States demonstrating a need for additional funds in accordance with proposed § 35.655-1(d).

Proposed § 35.674 provides that the Regional Administrator may reduce a State's grant if the accomplishments achieved are substantially below the level approved in the State program plan. Any funds retrieved by reduction of a State's grant may be reallotted to other States in the same Region in accordance with proposed § 35.655-1(d).

Program elements of an underground water source protection program are listed in proposed § 35.676-1. Each of these elements is desirable and is an appropriate element for the use of grant funds. Although it is not necessary for a State program to include every element in proposed § 35.676-1 or to produce an accomplishment for every program element, the program of a State with primary enforcement responsibility must include the program elements required by § 146.10 of this chapter. In addition, a State may include other program elements if it can demonstrate that such other elements are appropriate to its program. A State can propose almost any mixture of program elements and accomplishments which can reasonably be considered part of an underground water source protection program. The Regional Administrator will have a great deal of discretion in determining if the amount requested by a State is consistent with the accomplishments the State proposes in its program.

EPA believes that routine monitoring should be the responsibility of the underground injection facility operator. Comments on the need for, or appropriateness of, the use of Federal grant funds for routine monitoring purposes are invited.

In accordance with § 35.663(c), Federal grant funds shall not be used to supplant non-Federal funding used for underground injection control efforts by the State.

Proposed amendments to Subpart B, §§ 35.400 thru 35.425, are being published concurrently with these proposed regulations. The regulations, applying to all EPA program grants, are amended to include the authority for State Underground Water Source Protection Program grants.

EPA has been appropriated $5 million for fiscal year 1977. In addition, $2.5 million in grant funds were appropriated for fiscal year 1976. EPA intends to propose that the unobligated fiscal year 1976 appropriation continue to be available for grant awards.

COMMENTS

Interested persons may participate in this rulemaking process by submitting written comments in triplicate to the Comment Clerk, Underground Injection Control Grant Program, Office of Water Supply (WH-550), Environmental Protection Agency, Washington, D.C. 20460.

Comments on all aspects of the proposed regulations are solicited. In addition to considering public comments, the Agency will hold public hearings to receive comments and statements on the proposed regulations. The hearing room locations, dates and times should be confirmed by interested parties in advance by telephone.

October 6, 1976: EPA, Region VIII, 900 Lincoln Tower Building, 1860 Lincoln Street, Denver, Colorado 80202, Telephone: (303) 837-2731.

October 13, 1976: EPA, Region VI, First International Building, 1201 Elm Street, Dallas, Texas 75270, Telephone: (214) 749-1962.

September 29, 1976: EPA, headquarters, Waterside Mall, 401 M Street SW., Washington, D.C. 20460, Telephone: (202) 426-3934.

All comments received on or before November 15, 1976 will be considered. A copy of all public comments will be available for inspection and copying from the EPA Freedom of Information Center. As provided in 40 CFR Part 2, a reasonable fee may be charged for copying services.

It is hereby certified that the economic and inflationary impacts of these proposed regulations have been carefully evaluated in accordance with OMB Circular A-107.

Dated: August 13, 1976.

RUSSELL E. TRAIN,
Administrator.

40 CFR Part 35 is proposed to be amended by amending Subpart B as indicated below: [1]

Subpart B—Program Grants

Sec.
35.400 Purpose.
35.400-1 Air pollution control agency grant awards.
35.400-2 Water pollution control program grant awards.
35.400-3 Public water system supervision program grant awards.
35.400-4 Underground water source protection program grant awards.
35.404 Annual guidance.
35.405 Criteria for evaluation of program objectives.
35.410 Evaluation of agency performance.

State Underground Water Source Protection Program Grants

35.650 Scope and purpose.
35.653 Definitions.
35.655 Determination of allotments.
35.655-1 Notification of allotments and reallotments.
35.657 Rate of Federal assistance.
35.659 Eligibility for grant awards.
35.661 Application for grant.
35.661-1 State program plan/grant submission.
35.663 Limitation on grant award.
35.670 Allowable costs.
35.672 Budget period.
35.674 Reduction of grant amount.
35.676 State program plan.
35.676-1 Program elements of an underground water source protection program.
35.676-2 Regional administrator's action on grant application.
35.678 Program limitations.
35.680 Assignment of personnel.

AUTHORITY: Secs. 1443 and 1450 of Pub. L. 93-523, 88 Stat. 1660 (42 U.S.C. 300j-2 and 300j-9).

Sections 35.400 thru 35.425, applying to all EPA program grants, are proposed to be amended to include authority for State underground water source protection program grants as follows:

§ 35.400 Purpose.

This subpart establishes and codifies policy and procedures for air pollution, water pollution, public water system supervision program and underground water source protection assistance grants and supplements the EPA general grant regulations and procedures (Part 30 of this chapter). These grants are intended to aid programs for air pollution control, water pollution control, public water system supervision and underground water source protection at the State, interstate, or local level.

§ 35.400-1 Air pollution control agency grant awards.

No change. See 40 CFR 35.

§ 35.400-2 Water pollution control program grant awards.

No change. See 40 CFR 35.

§ 35.400-3 Public water system supervision program grant awards.

No change. See 40 CFR 35.

§ 35.400-4 Underground water source protection program grant awards.

Grants may be awarded to State agencies to assist them in developing or administering programs to protect under-

[1] Section numbers are not consecutively numbered to allow room for modification and insertion of new sections as needed.

V41170 AUG 31 76 UMI

ground sources of drinking water by adoption and enforcement of a program which meets the requirements of regulations under section 1421, and for record-keeping and reporting required by section 1422(b)(1)(A)(ii) of the Act.

§ 35.403 Authority.

This subpart is issued under sections 105 and 301(b) of the Clean Air Act, as amended (42 U.S.C. 1857(c) and 1857(g); sections 106 and 501 of the Federal Water Pollution Control Amendments of 1972 (33 U.S.C. 1256 and 1361); and sections 1443(a), 1443(b) and 1450 of the Safe Drinking Water Act (42 U.S.C. 300j–2).

§ 35.404 Annual guidance.

The Environmental Protection Agency will develop and disseminate annual guidance to be used by the grantee to structure air pollution, water pollution, public water system supervision and underground water source protection programs for the coming Federal fiscal year. The guidance will contain a statement of the national strategy including national objectives and national priorities for the year together with planning figures for Federal program grant assistance based on the EPA budget approved by the President. The annual guidance will be disseminated each year as soon as practicable during the month of February.

§ 35.405 Criteria for evaluation of program objectives.

(a) Programs set out in the application and submitted in accordance with these regulations shall be evaluated in writing by the Regional Administrator to determine:

(1) Consistency and compatibility of objectives and expected results with EPA national and regional priorities in implementing purposes and policies of the Clean Air Act, the Federal Water Pollution Control Act, or the Safe Drinking Water Act.

(2) Feasibility of achieving the objectives and expected results in relation to existing problems, past performance, program authority, organization, resources and procedures.

(b) Approval of the program developed pursuant to § 35.526 (air), or § 35.565 (water pollution), § 35.626 (public water system supervision), or § 35.676 (underground water source protection) shall be based on the extent to which the applicant's program satisfies the above criteria.

§ 35.410 Evaluation of agency performance.

(a) A performance evaluation shall be conducted at least annually by the Regional Administrator and the grantee to provide a basis for measuring progress toward achievement of the approved objectives and outputs described in the program. The evaluation shall be consistent with the requirements of § 35.538 for air pollution control agencies, § 35.570 for water pollution control agencies, § 35.626(d) for public water system supervision agencies, and § 35.676 for underground water source protection agencies.

(b) The Regional Administrator shall prepare a written report of the annual evaluation. The grantee shall be allowed 15 working days from the date of receipt to concur with or comment on the findings.

§ 35.415 Report of project expenditures.

No change. See 40 CFR 35.

§ 35.420 Payment.

No change. See 40 CFR 35.

§ 35.425 Federal and grantee program support.

(a) For purposes of establishing the amount of resources which will be committed by the Agency to particular budget categories or program elements under §§ 35.527 (air), 35.561(a) (water), 35.626–1 (public water system supervision) or 35.676–1 (underground water source protection), Federal and grantee financial contribution shall be considered as combined sums, and shall not be separately identified for each budget category or program element. For purposes of this subpart, and pursuant to § 30.700(a) of this chapter, all project expenditures by the grantee shall be deemed to include the Federal share.

(b) A grantee may not unilaterally reduce the non-Federal share of project costs. In the event of a significant proposed or actual reduction in the non-Federal contribution, the Regional Administrator must consider a reduction in the Federal share or an increase to the Federal percentage.

Subpart B is further amended by adding new §§ 35.650–35.680 as follows:

STATE UNDERGROUND WATER SOURCE PROTECTION PROGRAM GRANTS

§ 35.650 Scope and purpose.

Sections 35.650 through 35.680 establish regulations and procedures for providing program grant funds to the States for the development and administration of underground water source protection programs as authorized by section 1443(b) of the Public Health Service Act. These regulations are intended to foster development of State program plans and programs to assist in implementing Title XIV of the Act (added by the Safe Drinking Water Act). This subpart supplements EPA General Grant Regulations and Procedures set forth in Part 30 of this chapter.

§ 35.653 Definitions.

As used in this part, and except as otherwise specifically provided:

(a) "Act" means the Public Health Service Act.

(b) "Allotment" means the sum reserved for each State from funds appropriated by Congress. The allotment represents the maximum amount of funds potentially available to each State from each annual appropriation.

(c) "State" means one of the States of the United States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, American Samoa, or the Trust Territory of the Pacific Islands.

(d) "State Underground Injection Control Program" (State UIC Program) means a State program for the regulation of the practice of underground injection to protect underground drinking water sources and meeting the requirements of sections 1421 and 1422(b)(1)(A)(ii) of the Act and regulations promulgated pursuant to those provisions of the Act.

(e) "Underground water source protection program" means a program for the adoption and enforcement of a program which meets the requirements of regulations under section 1421 of the Act and for keeping records and making reports required by section 1422(b)(1)(A)(ii) of the Act.

(f) Other terms used herein shall have the same meanings as prescribed in the definitions of terms contained in Part 146 of this chapter except as the context may otherwise require.

§ 35.655 Determinations of allotments.

Funds appropriated in each fiscal year will be allotted as follows:

(a) The initial allotment for fiscal year 1977 will be established on the basis of the following weighted factors:

(1) The population of each State in proportion to the total population of all States (weight factor: 20 percent). Population statistics will be drawn from the 1970 census and tables 4 and 11 of the 1974 Statistical Abstract of the United States.

(2) The land area of each State in proportion to the total land area of all States (weight factor: 30 percent). Land area statistics will be drawn from Table 290 of the 1974 Statistical Abstract of the United States.

(3) The quantity of ground-water withdrawals in each State used for drinking water purposes in proportion to the total quantity of ground-water used for drinking water purposes in all States (weight factor: 50 percent). Water use quantities will be taken from the most recent U.S. Geological Survey (U.S.G.S.) report on ground-water use in the United States.

(b) Initial allotments established for the States based on the weighted ratios in paragraph (a) of this section will be adjusted so that no State allotment will be less than $10,000.

(c) The total increase in initial allotments resulting from application of paragraph (b) of this section shall be offset by an equivalent total decrease in the initial allotments which exceed the $10,000 minimum, such decrease to be apportioned among the States in proportion to the extent to which each State's initial allotment exceeds the $10,000 minimum.

(d) The allotment for fiscal year 1978 and subsequent fiscal years will be established on the basis of the following weighted factors:

(1) The population of each State in proportion to the population of all States (weight factor: 20 percent). Population statistics will be drawn from the most recent census.

(2) The land area of each State in proportion to the total land area of all States (weight factor: 20 percent). Land area statistics will be taken from the latest Statistical Abstract of the United States.

(3) The quantity of ground-water withdrawals in each State used for drinking water purposes in proportion to the total quantity of ground-water used for drinking water purposes in all States (weight factor: 30 percent). Water use quantities will be drawn from the most recent U.S.G.S. report on ground-water use in the United States.

(4) The number of underground injection operations in each eligible State in proportion to the number of such systems in all States (weight factor: 30 percent). Underground injection operation statistics will be drawn from the Inventory of Underground Injection Operations compiled by the States pursuant to § 35.676. For fiscal year 1978 grants, the number of underground injection operations for which inventory data have been submitted on or before April 1, 1977 will apply.

(e) The allotted amounts will be rounded to the nearest hundred dollars.

§ 35.655–1 Notification of allotments and reallotments.

(a) Each year, within thirty days after the President delivers his budget to Congress, the Administrator will issue to each Regional Administrator a tentative regional allocation (planning target) for the next fiscal year. The tentative State allotment shall be promptly communicated to each State by the Regional Administrator. This tentative allotment will be based on the amount of funds requested in the President's budget for this purpose for the next fiscal year.

(b) As soon as practicable after funds are appropriated, the Administrator will issue to each Regional Administrator a final regional allowance for State allotments to all 56 States from funds appropriated for that fiscal year. This final allotment shall be promptly communicated to each State by the Regional Administrator.

(c) As soon as practicable after April 1 of each fiscal year, except for fiscal year 1977, the Administrator will reallot on a national basis all unobligated funds among States which can demonstrate a need for addidtional funds. The unobligated funds will be allocated on the basis of each State's total allocation factor compared to the sum of the total allocation factors for the eligible States. For fiscal year 1977, this reallotment of unobligated funds will be made as soon as practicable after May 1, 1977.

(d) As soon as practicable after June 30 of each fiscal year, funds remaining unobligated under § 35.655–1(c) and other funds made available by reduction of grant amounts shall be available for reallotment within the region to States which can demonstrate a need for additional funds.

§ 35.657 Rate of Federal assistance.

(a) The rate of Federal assistance furnished to a grantee shall not exceed 75 percent of the allowable costs of the State's underground water source protection programs as described in § 35.676.

(b) The actual amount of each State's grant, which shall not exceed the State's allotment, shall be determined at the time of the grant award by the Regional Administrator.

§ 35.659 Eligibility for grant awards.

Each State which is on the Administrator's list pursuant to section 1422 of the Act shall be eligible to receive a grant award from its final allotment in an amount not to exceed the reasonable cost of carrying out its approved program.

§ 35.661 Application for grant.

For fiscal year 1977, States identified on the Administrator's list as eligible applicants pursuant to section 1422 of the Act must submit their grant applications no later than January 1, 1977 for grant awards not to exceed their final allotments. All other States, petitioning the Administrator to amend the list for their inclusion as eligible applicants, must submit their grant applications no later than April 1, 1977. Regional Administrators shall negotiate grant amounts for each State added to the Administrator's list. Grant awards to new States will be prorated against each State allotment pursuant to § 35.655. States wishing to make application for a program grant shall comply with all applicable requirements set forth in Part 30 of this chapter.

(a) All States applying for program grants shall comply with all applicable requirements of Office of Management and Budget (OMB) Circular A–95, pursuant to § 30.305 of this chapter.

(b) Applications shall be made to EPA on such forms as the Administrator may prescribe pursuant to § 30.315 of this chapter.

§ 35.661–1 State program plan/grant submission.

Each State applying for a program grant shall:

(a) Develop an annual program plan (Part IV of the grant application) in accordance with § 35.676.

(b) For fiscal year 1977, submit an application and program plan to the Regional Administrator no later than April 1, 1977.

(c) The application for an initial grant shall include, in addition to the other submissions requested by this subpart, a letter from the chief elected officer of the State, stating whether the State has established or intends to establish, an underground water source protection program. The letter should designate the one State agency to administer the grant and serve as coordinator for dealing with EPA. However, the State may allocate funds among State agencies as it deems appropriate as long as such allocations are generally proportional to their respective share of the approved plan for conducting the State underground water source protection program. The letter shall also affirm the State's intent to assume, within two years from the approval of the initial grant, primary enforcement responsibility in accordance with the requirements of Subpart B, Part 146 of this title.

(d) For fiscal year 1978, or any later fiscal year, submit a (draft) State program plan pursuant to § 35.676 to the Regional Administrator no later than 90 days prior to the start of the Federal fiscal year.

(e) For fiscal year 1978, or any later fiscal year, submit an application which includes the annual State program plan submission for grant award to the Regional Administrator no later than 30 days prior to the start of the Federal fiscal year.

§ 35.663 Limitation on grant award.

(a) Notwithstanding any other provision of this part, the Regional Administrator may not approve an application of a State for its initial grant to carry out an underground water source protection program, unless he determines that the State (1) has established or will establish within two years from the effective date of the grant an underground water source protection program, as defined in section 1421 of the Act, and (2) will, within that two-year period assume primary enforcement responsibility for underground water source protection within the State pursuant to §§ 146.10 through 146.13 of this chapter.

(b) Notwithstanding any other provision of this part, no grant may be made to a State for any period beginning more than two years after the date of the approval of the State's initial grant unless the State has assumed and maintains primary enforcement responsibility within the State pursuant to §§ 146.10 through 146.13 of this chapter.

(c) No grant will be awarded if it is determined by the Regional Administrator that Federal grant funds will supplant rather than supplement non-Federal funding committed to underground water source protection efforts by the State.

§ 35.670 Allowable costs.

Allowable costs shall be determined in accordance with § 30.705 of this part by showing that the costs are reasonable and proper for carrying out an approved grant program.

§ 35.672 Budget period.

The budget period of the grant shall be for the Federal fiscal year.

§ 35.674 Reduction of grant amount.

(a) If the Regional Administrator determines that the grantee has substantially failed or will fail to achieve the planned accomplishments, the grant amount may be reduced accordingly. These funds will be available for use in accordance with § 35.655–1(d).

(b) States shall be notified prior to any reduction, pursuant to paragraph (a) of this section, in the amount of Federal support to that State. This notification should include the reasons for reduction and, if appropriate, what steps the State must take to regain funding including the time frame within which the steps must be taken.

§ 35.676 State program plan.

Any State wishing to apply for a grant shall prepare and submit to the Regional

V41I170 AUG 31 76 UMI

Administrator for approval a program plan which satisfies the requirements of this section and contains planned accomplishments. This program plan is Part IV of the grant application (see § 35.661–1). A State may include in the plan submitted to the Regional Administrator any program element listed in § 35.676–1, and any other program element if the State can demonstrate that such other program element is appropriate for the conduct of its underground water source protection program. The essence of the plan is to relate the utilization of available resources (both Federal and non-Federal) to the achievement of expected accomplishments. The program plan shall describe how the planned accomplishments address the problems in the State and are consistent with the objectives of the Act. Information on the program elements contained in each State's submission shall be presented in summary form and shall include:

(a) The planned accomplishments;

(b) The resources to be expended by the State to produce the planned accomplishments, including anticipated Federal financial and technical assistance;

(c) For fiscal year 1978 the grant application must include an inventory of underground injection facilities;

(d) After fiscal year 1978, an updated summary inventory of underground injection facilities must be provided to EPA prior to April 1 of the preceding calendar year; and

(e) For the second grant and subsequent grants, an analysis of the previous year's State program. This analysis shall compare the planned accomplishments with expected resources, the actual resources expended, and the actual accomplishments.

(f) There will be an annual program evaluation in accordance with § 35.410 of this subpart.

§ 35.676–1 Program elements of an underground water source protection program.

The following program elements are appropriate for carrying out underground water source protection programs. Other program elements may be included in the State program plan if the State can demonstrate that such other program element is appropriate for the conduct of its underground water source protection program. For a State with primary enforcement responsibility, the State program must include program elements satisfying the requirements of § 146.10 of this chapter.

(a) *Administration and program development.* Planning, development and coordination of program activities for the management of an underground water source protection program including general program direction and supervision; development of staffing and budget needs; and development and evaluation of basic underground water source protection legislation, regulations, policies, and public information.

(b) *Surveillance and technical assistance.* Surveys of underground injection operations on an established schedule with written survey reports to the well injection operators; technical assistance to well injection operators, water suppliers, and others regarding the planning, design, operation, maintenance, treatment, quality control; and assessment of underground injection operations.

(c) *Plan review and approval.* A plan review and approval activity for new or proposed underground injection operations and modifications or additions to existing underground injection operations.

(d) *Training.* An activity for the training of State surveillance personnel.

(e) *Enforcement.* An activity for the establishment and implementation of procedures for administrative and judicial enforcement of State primary underground water source protection responsibilities.

(f) *Data management.* A data management activity to maintain essential records needed for conduct of the underground water source protection program and for submission to the Agency; including the maintenance of an inventory for all underground injection operations.

(g) *Surveillance and investigation.* The maintenance of a coordinated activity with State and local agencies to detect, investigate and report suspected ground-water contamination cases.

(h) *Public participation.* Activities conducted by the State to encourage informed public involvement in the planning and conduct of the State underground water source protection program, and establishment of a system to handle citizen complaints.

(i) *Other.*

§ 35.676–2 Regional Administrator's action on grant application.

(a) Each State's final grant application and program plan shall be approved or disapproved by the Regional Administrator within 45 days of receipt.

(b) Should the Regional Administrator's evaluation of the final grant application reveal that the planned accomplishments are not consistent with the level of funding requested, he shall negotiate with the State either to increase the planned accomplishments or to reduce the grant amount. Funds freed by this procedure will remain within the Region to be available for use in accordance with § 35.655–1(c).

§ 35.678 Program limitations.

The provisions of §§ 35.650 through 35.680 are for the sole purpose of assisting the States in providing for protection of underground drinking water sources through an underground water source protection program. These provisions are not intended to assist States in the routine study and monitoring of aquifiers or to assist States to undertake broad geological studies.

§ 35.680 Assignment of personnel.

Upon the written request of a State agency, the Regional Administrator may assign personnel of the Agency to such State agency pursuant to section 1450(c) of the Act. As provided by Office of Management and Budget Circular A–97, the State agency must reimburse the Agency for the salaries and all other identifiable direct or indirect costs of providing the personnel.

STATE UNDERGROUND INJECTION CONTROL PROGRAMS

Proposed Regulations

INTRODUCTION

Notice is hereby given that pursuant to sections 1421, 1422, 1423 and 1450 of the Public Health Service Act, as amended by the Safe Drinking Water Act ("SDWA" or "the Act," Pub. L. 93–523), the Administrator of the Environmental Protection Agency (EPA) proposes to issue a new 40 CFR Part 146 setting forth regulations governing State underground injection control programs.

Approximately 100 million Americans are dependent upon drinking water from underground sources which have historically been relatively free from harmful contaminants. However, in recent years there has been increasing concern over the threat to public health posed by the underground injection of substances which degrade the quality of underground drinking water sources. As a result of this concern, Congress included in the Safe Drinking Water Act, enacted on December 16, 1974, a statutory mandate for the establishment of minimum requirements for effective State programs designed to protect underground drinking water sources from subsurface injection of contaminants.

The intent of the proposed regulations is to establish minimum requirements for effective State programs to protect existing and potential underground sources of drinking water from endangerment from underground injection of fluids.

It is clear from the Act and the legislative history of the SDWA that Congress intended that the States exercise primary enforcement responsibility for the protection of underground sources of drinking water to the extent possible. For this reason the regulations are designed to be administratively compatible with and non-duplicative of existing State programs. The regulations are intended to broaden and strengthen these existing State programs as well as to establish minimum national requirements which reflect good engineering practice.

It is also clear that many differences exist between States, including geological conditions, use and availability of ground water, and intensity of underground injection operations. For this reason the regulations are designed to allow a State to exercise maximum flexibility in order to prevent underground injection practices from contaminating drinking water sources.

LEGAL FRAMEWORK OF THE REGULATIONS

Section 1421 of the Act defines the basic requirements of EPA's regulations for State underground injection control programs. The Administrator must promulgate regulations which contain minimum requirements for effective programs to prevent underground injection practices which endanger potential or present drinking water sources. In accordance with this mandate, the principal purpose of the regulations is to prevent endangerment of underground drinking water sources, and the burden is placed on the underground injection operator to demonstrate that his operation will not result in endangerment. Section 146.2(x) of the proposed regulations seeks to clarify what is meant by "endangerment" by defining that term to include the contamination or potential contamination of an aquifer which may result in the need for additional treatment of water from the aquifer to make it suitable for drinking. Comments on this definition and suggestions for alternative approaches are welcome. EPA believes that the definition of endangerment should be construed liberally so as to effectuate the preventive and public health protection purposes of the Act. Therefore, the proposed regulations seek to prevent the injection of materials which may enter a present or potential drinking water source and pose a threat to human health or otherwise render a present or potential water source unfit for human consumption. Necessarily, the regulations seek to prevent the injection of materials which may force a public water system to expend funds to comply with any national primary drinking water regulation or otherwise to avoid endangerment to the public health.

Section 1421(b)(2) states that regulations for State underground injection programs may not prescribe a requirement which interferes with or impedes underground injection in connection with oil and natural gas production or the secondary or tertiary recovery of oil and natural gas unless such a requirement is essential to assure that underground sources of drinking water will not be endangered by such injection. The House Report accompanying the Act defines the term "interfere with or impede" to mean "stop or substantially delay" (Report 93–1185, at 31).

The Administrator need not demonstrate that a particular requirement is essential unless it can be first shown that the requirement interferes with or impedes oil or gas production. As indicated in the House Report, the Administrator does not have an "impossible" burden in establishing the essentiality of a requirement. (Report 93–1185, at 31) Moreover, as discussed above, the Agency intends to interpret the term "endangerment" broadly so as to effectuate the purposes of the Act. Recognizing the complexity, intensity, age and experience in regulating injection operations as they relate to oil and gas production and the fact that several alternative methods have been demonstrated to be equally effective in protection of underground sources of drinking water proposed § 146.42(c) provides that a State Director may approve an alternative method of protection to specific minimum requirements contained in § 146.42(a), if the operator clearly demonstrates that (i) the requirement would stop or substantially delay oil or natural gas production at his site; and (ii) the requirement is not necessary to assure the protection of an existing or potential source of underground drinking water. Section 146.42(c) applies only to specific wells or injections. Section 146.42(b) provides that the Director may designate specific geographical areas where an alternative method to the requirements in § 146.42(a)(1) or (a)(2) may be employed.

Section 1422(a) of the Act requires the Administrator to list in the FEDERAL REGISTER those States for which a State underground injection control program may be necessary to assure that underground injection will not endanger drinking water sources. Such a determination will not be based on the adequacy of an existing State program but will be initially based on the dependency of a State on ground water as a source of drinking water and the magnitude of underground injection operations in a State. All States will eventually be listed. Under section 1422(b) of the Act, a State so listed must submit a State program to the Administrator within 270 days after being named. If the State program does not fully meet the requirements of the Act and applicable regulations, or if no State program is submitted, the Administrator must prescribe a program for the State within 90 days. The States will be listed within 90 days of the publication of this notice (40 FR 31034, July 24, 1975).

If a portion of a State's program meets the requirements of the Act and these regulations, that fact will be taken into account in the Administrator's prescription and administration of a program for the State. EPA will administer only that portion of an underground injection control program for the State for which the State's program is not adequate. However, section 1421 of the Act makes clear that the State cannot assume overall "primary enforcement authority" unless all of its program is approved by the Administrator. If a State does not assume primary enforcement responsibility, it cannot be awarded program grant funds related to an underground injection control program after an initial two-year period, and the Administrator will have direct enforcement authority in the State pursuant to section 1423 of the Act.

State underground injection control programs under section 1421 of the Act are considered separately from State public water system supervision programs under section 1413. A State does not have to qualify for primary enforcement responsibility for public water systems to qualify for primary enforcement responsibility for underground injection.

Section 1421 of the Act requires the Administrator to promulgate regulations establishing minimum requirements for the State underground injection control programs. Section 1421 also specifies some of those requirements. The regulations must require that a State program, to be approved under section 1422—

(A) Shall prohibit, effective three years after the date of the enactment of this title, any underground injection in such State which is not authorized by a permit issued by the State (except that the regulations may permit a State to authorize underground injection by rule);

(B) Shall require (i) in the case of a program which provides for authorization of underground injection by permit, that the applicant for the permit to inject satisfy the State that the underground injection will not endanger drinking water sources, and (ii) in the case of a program which provides for such an authorization by rule, that no rule may be promulgated which authorizes any underground injection which endangers drinking water sources;

(C) Shall include inspection, monitoring, recordkeeping and reporting requirements; and

(D) Shall apply (i) as prescribed by section 1447(b), to underground injections by Federal agencies, and (ii) to underground injections by any other persons whether or not occurring on property owned or leased by the United States.

Within the framework of section 1421(b), the Agency has based the proposed regulation on its review of thirty-one existing State programs and on technical and policy input from a diverse work group including four State officials (Texas, Kansas, Florida and Michigan), the U.S. Geological Survey, five regional EPA representatives (Regions VI, IX and X), three representatives from USEPA laboratories, and seven representatives from USEPA headquarters. Comments were also solicited from State program officials, industry representatives, and environmental groups.

SCOPE OF THE REGULATIONS

The Act defines "underground injection" as the "subsurface emplacement of fluids by well injection" (Section 1421(d)(1)).

The scope of the coverage of these regulations is determined by the definition of "well injection." The term is not explicitly defined in the Act or the legislative history. Upon examination of the purpose and legislative history of the Act, EPA is including the following definition in proposed § 146.2(r):

Well injection means subsurface emplacement through a bored, drilled, or driven well, or through a dug well where the depth is greater than the largest surface dimension, whenever a principal function of the well is the subsurface emplacement of fluids.

The term "well injection" is defined in terms of the function of a well. As well as including what is normally referred to as the "deep well" injection of industrial or municipal wastes, the proposed definition of "well injection" also includes a number of well injection practices other than "deep well" waste disposal, including the subsurface emplacement of fluids generally, not just waste disposal. This definition is supported by the House Report, which states:

The definition of underground injection is intended to be broad enough to cover any contaminant which may be put below ground level and which flows or moves, whether the

V 41 170
AUG 31 76
UMI

contaminant is semi-sold, liquid, sludge or any other form or state.

This definition is not limited to the injection of wastes or to injection for disposal purposes; it is intended also to cover, among other contaminants, the injection of brines and the injection of contaminants for extraction or other purposes. (Report 93–1185, at 31.)

The proposed definition includes drilled wells, since these are the type of wells used in the practices most often mentioned in the legislative history as requiring regulation. It also covers bored and driven wells, which are similar in concept and are used for the same purposes in appropriate situations.

The proposed definition includes dug wells in the definition of well injection practices only when the depth of the well is at least greater than the largest surface dimension of the well. Imposing this depth-width limitation is an effort to adhere to a common view of a well, that it is substantially deeper than it is wide.

Several factors were considered and rejected in the development of the definition of "well injection." For example, as noted in the legislative history above, the nature of the fluid emplaced is not a controlling factor. Also, the legislative history does not suggest that subsurface emplacement of fluids becomes "underground injection" at some predetermined depth below the surface.

A simple way to define "injection" in the context in which it is used in the statute would be to relate it to mechanically induced pressure. However, the clear purpose of the Act is to prevent the endangerment of underground drinking water sources through the injection of fluids, and there is no reason to distinguish between mechanical pressure and gravity flow injection.

The proposed definition does not cover practices which in many cases endanger underground drinking water because they cannot be deemed to be "underground injection" within the meaning of section 1421(d)(1) of the Act. For example, leakage from sewer mains, septic systems, highway salting and leaching from landfills appear to be very serious sources of contamination of underground drinking water, but they are not underground injection practices and therefore are not regulated by Part C of the Act. It also does not cover a situation such as the construction of an oil or gas production well or those surface impoundments where incidental subsurface emplacement of fluids occurs but is not a principal function of the operation.

In § 146.2(r), the term "dug well" applies only to impoundments where the depth is greater than the largest surface dimension. However, the term "dug well" also can be applied technically to surface impoundments, such as pits, ponds and lagoons, where the depth is less than the largest surface dimension. (*See Meinzer, Outline of Ground-Water Hydrology with Definitions*). What is unclear is whether these dug walls which also have as a principal function the subsurface emplacement of fluids are also covered by the Act.

What is clear is that there are tens of thousands of dug wells—including industrial and municipal pits, ponds and lagoons used for waste treatament, storage or disposal—which pose a very serious potential hazard to underground drinking water. EPA proposes to attack the problem of these dug walls, including pits, ponds and lagoons, in the following manner:

1. Proposed § 146.16(b) requires States to undertake a survey of dug wells to determine the extent to which they function to emplace fluids underground and the hazards they pose to underground drinking water sources.

2. EPA will seek to obtain needed additional data on these dug wells through the study of pits, ponds and lagoons authorized by section 1442 of the Act.

3. When enough data is available to determine which dug wells should be regulated and how they should be regulated, EPA will endeavor to amend the definition of "well injection" to the extent possible to cover additional dug wells or will seek such additional legislation as may be necessary. It is EPA's intention that any broadening of the regulation of dug wells would not take effect for at least two years after the effective date of the initial underground injection control regulations, in the interest of orderly administration of the State programs.

However, it should be noted that EPA could act to prevent such endangerment under section 1431, the emergency powers provision of the Act. EPA is studying the effects of these and other sources of ground-water contamination. In the meantime, the States are encouraged to continue their efforts to regulate a broad range of sources of contamination which do not fall within the meaning of "underground injection" as that term is used in the Act.

Comments are encouraged on ways in which those dug wells which have as a principal function the underground emplacement fluids can be defined and included in an underground injection control program.

Framework of the Regulations

These regulations are established to provide the minimum requirements for regulating the underground injection of fluids by the practice of well injection. The practices which are covered by the proposed regulations include injection through any bored, drilled or driven well, or any dug well, where the depth is greater than the largest surface dimension, whenever a principal function of the well is the subsurface emplacement of fluids.

This covers several hundred industrial and municipal waste disposal wells, wells used to inject materials into underground strata for storage, recharge wells, barrier wells, subsidence control wells, mining wells, geothermal wells, brine disposal wells, injection wells used in connection with oil and gas recovery, and drainage wells used for the purpose of disposal of storm water runoff and irrigation return flow.

The proposed regulations include three categories for different types of underground injection practices. Subpart C includes waste disposal wells, wells used to inject materials into underground strata for storage, recharge wells, barrier wells, subsidence control wells, geothermal wells and mining wells. Permits would be required for all such wells, although wells in existence on the effective date of the State program could be regulated by general rule for a period of up to five years pending review of the well by the State. Subpart D includes underground injection wells associated with oil and gas production. Owing to the unique nature and diversity of these wells, Subpart D allows greater flexibility to the States in regulating these wells. As in the case of Subpart C, a permit would be required for these wells also. Subpart D wells in existence on the effective date of the State program could also be regulated by general rule for a period of up to five years pending review of the wells by the State. Review of existing wells could be conducted on a field-by-field or similar approach by the State to simplify the permitting of existing wells and to avoid duplicative data requirements. Subpart E governs drainage wells. These wells can be regulated by permit or by rule, at the option of the State. Maximum flexibility is given to the States for regulation of these types of underground injection wells.

Comments are invited on the categorization of well injection practices used in the regulations and the adequacy of coverage of the regulations.

Approval of State Programs

Subpart B of the proposed regulations sets forth the procedures for the approval of State programs. Proposed § 146.10 lists the basic requirements for approval. One of those requirements is that a State program must follow the pattern of regulations by rule or permit established in Subparts C, D, and E. In other words, a State program must follow the requirements of Subpart C in its regulation of waste disposal wells and engineering wells. The State program regulating injection wells related to oil and gas production must follow the requirements of Subpart D. With respect to other types of injection wells, the State program may regulate by a permit system or by rules of general applicability or by a combination of the two, so long as it meets the minimum requirements of Subpart E.

Proposed § 146.12 sets out the requirements for an application for a State program. It is not intended that a State include all possible information about its program, but a State must submit the relevant State statutes and regulations and a description of the State's enforcement procedures. This includes designation of geographical areas under §§ 146.11 and 146.42(b).

Under proposed § 146.13, the Administrator will give public notice of a request for approval of a State program, and will invite comment. Action must be taken on the State application within 90 days after its receipt. Opportunity for public hearing is required by section 1422(b)(4) of the Act.

Once a State program is approved by the Administrator, it will remain in effect until such time as the Administrator determines that the program no longer meets applicable requirements. To facilitate the Administrator's consideration of the continued compliance of a State program with applicable requirements, proposed § 146.15 requires that the State retain pertinent records on outstanding State-issued permits and on violations of State requirements. In addition, under proposed § 146.16 a State would be required to submit to the Administrator, for approval, information on any proposed material changes in the State program. This includes designation of geographical areas under §§ 146.11 and 146.42(b). The State also would be required to submit on April 1 of each year a brief annual report updating the State's inventory of underground injections (a summary, not a facility-by-facility description) and summarizing violations of State statutes and regulations and of enforcement actions taken by the State.

Key Provisions of the Proposed Regulations

A. Endangerment of Drinking Water Sources

The goal of any requirement for the protection of underground water sources is set by the statute as preventing the endangerment of drinking water sources. As provided by section 1421(d)(2) of the Act:

> Underground injection endangers drinking water sources if such injection may result in the presence in underground water which supplies or can reasonably be expected to supply any public water system of any contaminant, and if the presence of such contaminant may result in such system's not complying with any national primary drinking water regulation or may otherwise adversely affect the health of persons.

The House Report accompanying the Act provides some guidance as to which underground water sources can reasonably be expected to supply any public water system. The Report indicates that any underground source with a level of total dissolved solids of 10,000 mg/l or less should be protected (Report 93–1185, at 32). Proposed § 146.2(g) defines underground drinking water sources accordingly. However, EPA believes that there should be some means of excluding individual aquifers or parts of aquifers which are not in fact potential sources of drinking water even though they have total dissolved solids levels of less than 10,000 mg/l. For example, an aquifer may be oil-producing even with a TDS level of less than 10,000 mg/l, and in such a case it may be wise to give the oil-producing qualities of the aquifer precedence over its ability to provide drinking water. Also, some aquifers below the 10,000 mg/l level are so contaminated that as a practical matter they are not potential drinking water sources.

Because it would be a misallocation of resources to seek to protect as potential drinking water sources aquifers which in fact will not be used by public water systems, proposed § 146.11(a) provides that a State program may designate one or more aquifers or portions thereof in the State which have a TDS level below 10,000 mg/l but which will not be protected because they are oil-producing, are severely contaminated or located in such a way that use as drinking water is impracticable. The State must demonstrate by compelling evidence that an aquifer is and will continue to be unsuitable as a source of drinking water. As part of the State program, the designation would be subject to public notice and public hearing prior to submission to EPA. The regulations also provide, in § 146.11(b), that a State may designate geographical areas where no underground drinking water sources exist. In such geographical areas, the requirements of Subparts C, D, and E would not apply. Comment is requested on this approach to selecting aquifers which do not require protection as potential drinking water sources.

Once the aquifers to be protected are identified, the question remains as to the degree of protection to be given. The Act defines "endangerment of drinking water sources" to mean the presence of a contaminant which "may result in [a public water] system's not complying with any national primary drinking water regulation or may otherwise adversely affect the health of persons." In the case of existing system using an underground water source, the logical meaning of this provision is that contamination endangers drinking water if it requires the use of new or additional treatment by the system to meet a national primary drinking water regulation or otherwise to prevent a health risk. In many instances there would be a time lag between the time of contamination and the initiation of the new treatment. Diversion of water system resources to deal with such preventable contamination is an inefficient approach to the problem of providing safe drinking water to all persons.

The question of endangerment of underground drinking water sources is more difficult with respect to potential sources not currently used by public water systems. It could be argued that potential sources of underground water are endangered whenever they are degraded. In the case of a potential source of underground water which would meet primary drinking water regulations without treatment, degradation of that water may make treatment necessary. In the case of a potential source of underground water which will require treatment if it is used in the future, degradation may make further treatment necessary or may make the water unsuitable for use as drinking water.

The problem of what constitutes "endangerment" is further complicated by the fact that it is expected that several contaminants not covered by the national interim primary drinking water regulations will be covered within a few years by the revised regulations. It can also be anticipated that new contaminants will be added to the revised regulations from time to time thereafter. How can underground injection control programs protect underground water sources from "endangerment" by contamination with materials which are not now prohibited in any concentration in drinking water but which may be limited by future maximum contaminant levels?

Finally, there is the statutory mandate to protect underground water sources from any contamination which "may otherwise adversely affect the health of persons." The legislative history of the SDWA suggests that this language means, at the least, that contamination by underground injection which causes ground water to be unpalatable is prohibited (Report 93–1185), at 32). The justification for such a prohibition is that it makes little difference that water can meet applicable primary regulations if for aesthetic or other reasons it is undrinkable. Clearly there can be other types of contamination which "may otherwise adversely affect the health of persons." For example, water with offensive taste, odor, or color may force the use of alternative water sources of poorer quality. Also, even if a specific dangerous pesticide or other toxic chemical is not covered by the primary regulations because it is not usually found in drinking water supplies, the contamination of an underground drinking water source by that chemical could adversely affect the health of persons who obtain the drinking water from that source.

Despite the difficulty of defining endangerment of drinking water as that term is used in the statute, the task must be undertaken in these regulations. For although every effort will be made to permit consideration of local geological conditions, local laws and local procedures, the basic health standards to be applied in underground injection control programs should be uniform across the country. It was the intent of Congress to accommodate local differences within the framework of a national policy for the protection of the health of the Nation's citizens.

Endangerment of drinking water sources is defined in proposed § 146.2(x) as follows:

> Underground injection "endangers underground drinking water sources" if (1) such injection may make it necessary for a public water system using an underground drinking water source to increase treatment of the water, or (2) if such injection might make it necessary for a public water system which uses the source in the future to use more extensive treatment of the water than would otherwise have been necessary, or (3) if such injection may otherwise adversely affect the health of persons such as by adding a substance that would make water from the source unfit for human consumption.

It is expected that the application of the definition of endangerment will be different in the case of existing underground injection than in the case of new underground injection. An applicant for a permit for underground injection will be expected to demonstrate to the satisfaction of the State that the injection will not endanger underground drinking

V 41 170
AUG 31 76
UMI

water sources. However, in the case of an existing injection, the applicant normally will be able to show, based on the history of the operation, that continued operation will not require additional treatment of ground water for drinking water use and will not otherwise adversely affect the health of persons such as by making the water unfit for use as drinking water. New underground injections, or a substantial change in an existing underground injection, will be expected to bear a heavier burden of proof.

Comments on the definition of the endangerment of drinking water sources and how that definition might be applied in the regulations are welcomed.

B. COMPARISON OF SUBPARTS C AND D

1. Standards for Existing and New Injection Wells. Existing wells under both Subparts C (waste disposal wells and engineering wells) and D (oil or natural gas production) could be regulated by rule for a period of up to five years after approval of the State program so long as such wells do not endanger underground drinking water sources. Proposed § 146.10(a) would prohibit new underground injection under both subparts without a permit. Section 1421(b)(1)(A) of the Act authorizes EPA to permit a State to regulate underground injection by rule or permit, and the legislative history of this provision states:

> In order to implement these controls to protect drinking sources with minimum administrative redtape, the Committee decided to allow EPA discretion to utilize a permit system, rulemaking, or a combination of the two to control underground injection. (Report 93-1185, at 30)

Accordingly, EPA believes that it is prudent to allow States to phase-in permit procedures for existing wells under Subparts C and D so long as underground sources of drinking water are protected by appropriate rules. Consistent with this effort to minimize redtape, proposed § 146.41(a)(1) provides that a State Director has discretion to require appropriate information in permit applications for existing underground injections under Subpart D. By comparison, the information set out in proposed § 146.47 is required in all permit applications for new injection sites under Subpart D. Similarly, the information set out in proposed § 146.24 under Subpart C is required in permit application for both new and existing operations. The reason behind this distinction is the large number of existing injection wells related to oil or gas production and the vast amount of data already on file in the States. By granting the Director discretion with respect to information requirements for these wells, EPA anticipates that a State will be able to focus its resources on critical existing injection sites without becoming enveloped in an unduly burdensome permit program for existing wells.

2. Permit System Subparts C and D. As noted above, permits would be required for all underground injections which commence operation in a State after approval of the State program ("New underground injections"). Permits would be required for all underground injection operations in operation prior to approval of the State program within five years of approval. Section 1421(b) of the Act does not specify any type of hearing as a prerequisite to the issuance of a permit, but the regulations provide for an opportunity for informal public hearing prior to the issuance of permits under Subparts C (§ 146.28) and D (§ 146.45). Proposed § 146.4 provides the Director with discretion in determining necessary requirements for the renewal of permits after five years. Public notice of the renewal of a permit would be required by proposed § 146.5. It is anticipated that State administrative procedures will provide for judicial review of permit proceedings.

3. Temporary Permits. Section 1421(c)(1) of the Act allows the Administrator to authorize a State to issue temporary permits for existing underground injection operations, effective until December of 1978, when the State is unable to process all permits within the time available. The authority can be given to a State only under the conditions spelled out in section 1421(c)(1), and only under an application for the authority from the Governor of the State. Under the proposed regulations, section 1421(c)(1) authority would not be necessary because the States would be allowed to regulate wells covered by Subparts C and D by rule rather than by permit for up to five years and to regulate drainage wells by rule indefinitely.

Section 1421(c)(2) of the Act permits the Administrator to authorize a State, again only under an application from the Governor of the State, to issue temporary permits amounting to variances from the prohibition of endangerment of underground drinking water sources. As in the case of the section 1421(c)(1) temporary permits, these permits cannot be effective later than December of 1978. Furthermore, a temporary permit under section 1421(c)(2) cannot be issued by a State until the State can find, based on the record of a hearing, that each of the following requirements are met:

(A) That technology (or other means) to permit safe injection of the fluid in accordance with the applicable underground injection control program is not generally available (taking costs into consideration);

(B) That injection of the fluid would be less harmful to health than the use of other available means of disposing of waste or producing the desired product; and

(C) That available technology or other means have been employed (and will be employed) to reduce the volume and toxicity of the fluid and to minimize the potential adverse effect of the injection on the public health.

C. SUBPART E

Proposed Subpart E allows a State program to exercise great flexibility in designing a program for the control of drainage wells. A State may regulate these wells by either rule or permit, or a combination thereof. While seeking to prevent drainage wells from endangering underground water sources, EPA recognizes that the number and diverse characteristics of drainage wells make it extremely difficult to establish specific requirements under Subpart E. Accordingly, EPA has allowed State programs maximum flexibility to deal with drainage wells on a case by case basis, if necessary. As such, EPA intends to monitor State programs under Subpart E and carefully analyze the efficacy of this approach.

D. REMEDIAL ACTION UNDER SUBPARTS C, D AND E

Underground injection operations regulated under Subpart C, D, or E that are found to endanger underground drinking water sources are required to discontinue operations until remedial action is taken unless the Director determines that it is unreasonable and impracticable to discontinue operations while taking remedial action. If the Director permits an endangering operation to continue operation while taking remedial action, the Director must prescribe a compliance schedule which shall require remedial action to be taken as soon as practicable but in no case later than one year following the determination of endangerment. It is expected that State Director will require cessation of injection in cases where an imminent health problem may result from such an injection.

SPECIFIC PROVISIONS OF THE REGULATIONS

A. REVIEW OF COMPLETION AND PLUGGING REPORTS

Proposed § 146.22(f) requires that "all well completion and plugging reports" for wells penetrating the proposed injection zone within a two mile radius of the proposed well injection be reviewed to insure that all wells that, in the judgment of the Director, present a potential threat to underground drinking water sources are properly completed or plugged. In § 146.42(a)(6) dealing with oil and gas production this review is also required except that the radius is reduced to one-half mile. These requirements are intended to prevent the contamination of underground drinking water sources by formation fluids or injected fluids migrating up improperly completed or plugged wells into fresh water formations.

EPA feels that the same minimum regulations should apply to both waste disposal wells and engineering wells because they share common construction, engineering, and operational characteristics. Most States have defined policies for waste disposal wells but few policies exist on the engineering wells. Fourteen States entirely ban the use of waste disposal wells. Twelve States have specific regulations applying to waste disposal wells. The requirements relating to radius of review vary, but a two mile or greater radius is most common. Texas, which now regulates over 40 percent of all such wells, requires a two and one-half mile radius of review. Twenty other States have policies requiring a careful

case by case review of waste disposal wells. Therefore, on the basis of the Texas requirement and the fourteen States which ban waste disposal wells, EPA does not feel that a minimum radius of review below two miles would be appropriate. It is important to note that these regulations neither require those States which ban waste disposal wells to permit them in the future nor require a State such as Texas to adopt less stringent requirements. To the contrary, EPA encourages States to adopt more stringent requirements, if necessary, to prevent the endangerment of underground water sources.

State regulations demonstrate flexibility with respect to injection wells related to oil and gas production. Thirty of the thirty-one oil producing States require a plat denoting ownership and location of all wells including oil, gas, drilling and dry holes. Seventeen of the thirty-one States have specified that all wells within a one-half mile radius of the proposed injection wells should be indicated on a map or plat and that the injected fluid will not cause damage to oil, gas, fresh water or other natural resources. Further, it should be noted that the plugging or completion requirement applies only to those wells penetrating the injection zone which pose a potential danger to underground drinking water sources. It is incumbent on the injector to demonstrate that no hazard exists.

B. SURFACE CASING REQUIREMENTS

Proposed §§ 146.22(a) and 146.42(a)(1) require that "all underground drinking water sources of 3,000 mg/l total dissolved solids or less (be) protected by surface casing cemented to the surface."

The House Report accompanying the SDWA recommended that all ground water up to 10,000 mg/l TDS be protected as potential drinking water sources. Discussion with major oil producing States indicated that existing practice requires protecting ground water containing up to 3,000 mg/l TDS with surface casing as potential drinking water sources. In light of these existing provisions, the 3,000 mg/l limit has been established as a minimum standard. Of course, where underground injection would endanger a present or potential source of drinking water containing up to 10,000 mg/l TDS, EPA expects States to protect such a source.

It is recognized, however, that in oil producing States there are specific areas where alternate methods of protection have been utilized effectively in the past to protect ground water and can be used to do so in the future. Therefore, the Director is given discretion under § 146.42(b) to permit the continued use of this practice within specified areas of the State provided a public hearing is held. Compelling evidence must be adduced at such a hearing to demonstrate that the continued use of the practice will not endanger underground sources of drinking water. The alternative chosen will be applicable to all wells wtihin the specific area.

C. TUBING AND PACKER

Proposed §§ 146.22(c) and 146.42(a)(2) require that "injection is maintained through tubing with a suitable packer set immediately above the injection zone." Most State regulations and those knowledgeable in the field of underground injection recommend that tubing and packer or fluid seal be used to isolate the injection zone from potential drinking water sources which may be endangered as a result of the injection of fluids.

It is recognized, however, that there are some areas where alternative methods of protection have been used and can continue to be used effectively to protect ground water. For this reason, the Director is given the discretion to permit the continued use of this practice under § 146.42(b) provided a public hearing is held. Compelling evidence must be adduced at such a hearing to demonstrate that the continued use of the practice will not endanger underground sources of drinking water. The alternative chosen will be applicable to all wells within the specific area. The Director may also approve alternative methods under § 146.22(c) where they are demonstrated to be equally effective.

D. ANNULAR INJECTION

Section 146.2(z) defines "annular injection" as any injection between strings of casing, between tubing and casing, between strings of tubing and between casing and hole. The following sections deal with the differing types of protection necessary to protect drinking water sources from the three common types of annular injection.

Section 146.42(a)(7) prohibits annular injection between the casing and the hole. With this type of annular injection, there is no protection for underground sources of drinking water.

Section 146.42(a)(8) prohibits annular injection between strings of casing and between tubing and casing, except that the Director may approve such injection provided: (1) there is an annulus between the outer string of casing receiving the injection, and the surface casing which can and will be monitored for leaks; (2) that the surface casing is protected by cement to the surface; and (3) that the injector demonstrates to the satisfaction of the Director that the injection will not endanger underground sources of drinking water.

Section 146.42(a)(9) prohibits annular injection between the surface casing and the next innermost casing or between the surface casing and the tubing, or injection through the surface casing only; except that the Director may approve such injection where: (1) the injection was in operation prior to approval of the proposed State program, and; (2) the injector demonstrates to the satisfaction of the Director that, based on previous history and presentation of compelling evidence collected through fluid injection profile surveys or monitoring wells that the injection has not endangered underground sources of drinking water, nor will its continued use endanger underground sources of drinking water. Comments are solicited on the adequacy of these requirements in protecting underground sources of drinking water and on the impact of these requirements on existing wells.

E. MONITORING WELL

Section 146.42(a)(9) permits presentation of evidence gathered from monitoring wells in support of a demonstration of non-endangerment from an annular injection. These monitoring wells may be drilled specifically for this purpose or they may be producing water wells currently in place providing they draw water from the base of fresh water within the calculated zone of influence of the injection well.

F. SUPPLEMENTAL DATA ACQUISITION

Section 146.47(b) contains a list of additional data which is desirable to have in evaluating an application for well injection. It should be noted, however, that it is not necessary to collect this data in every case. This data should be collected only where necessary to make the necessary determinations.

G. PRESENTATION OF COMPELLING EVIDENCE

Sections 146.22(c), 146.42(a)(9), 146.42(c)(1) and 146.42(c)(2) require the presentation of "compelling evidence." "Compelling evidence" means the types and quantity of data necessary to provide a base such that reasonably qualified people would draw the same conclusion. In § 146.42(c)(1) and (c)(2) "written" compelling evidence is required. This may take the form necessary to satisfy the Director. However, in States where a formal public hearing, including the use of court stenographers and cross examination is required, this procedure may be utilized alone or in support of other requirements by the Director.

H. CATEGORIZATION ANOMALIES

There are several special types of wells such as certain recharge wells and mining wells, where current technology mandates utilization of annual injection, and multiple use wells such as those used for water flood and subsidence control which may not readily fit into the current categorization scheme. Comment is solicited on the extent and nature of these wells and on the necessity of developing different minimum requirements than those currently contained in the regulations.

I. SUMMARY OF SOLICITED COMMENTS

Comments are solicited on specific parts of the regulations. These are summarized below:

1. Definition of "underground drinking water source";
2. Definition of "well injection";
3. Definition of "endangers underground drinking water sources";
4. Requiring data to be kept by States in a form admissible as evidence in enforcement proceeding;
5. Adequacy of time for conducting inventory and analyses of surface impoundments;

V41170 AUG 31 76 UMI

6. Combination rule-permit programmatic staging system for existing injection wells;

7. Handling of confidential information;

8. Adequacy of requirements in preventing endangerment and impact of these requirements on existing annular injection wells; and

9. Alternative methods of determining non-endangerment from wells penetrating injection horizon.

COMMENTS

Interested persons may participate in this rulemaking process by submitting written comments in triplicate to the Office of Water Supply (WH-550), Environmental Protection Agency, Washington, D.C. 20460 Attention: Comment Clerk, State Underground Injection Control Program Regulations.

Comments on all aspects of the proposed regulations are solicited. In addition to considering public comments, the Agency will hold public hearings to receive comments and statements on the proposed regulations. The hearing room locations, dates and times should be confirmed by interested parties in advance by telephone.

October 6, 1976: EPA, Region VIII, 900 Lincoln Tower Building, 1860 Lincoln Street, Denver, Colorado 80202, Telephone: (303) 837-2731.

October 13, 1976: EPA, Region VI, First International Building, 1201 Elm Street, Dallas, Texas 75270, Telephone: (214) 749-1962.

September 29, 1976: EPA, headquarters, Waterside Mall, 401 M Street SW., Washington, D.C. 20460, Telephone: (202) 426-3934.

All comments received on or before November 15, 1976 will be considered. A copy of all public comments will be available for inspection and copying from the EPA Freedom of Information Center. As provided in 40 CFR Part 2, a reasonable fee may be charged for copying services.

It is our judgment that these proposed regulations will not have a significant impact on inflation as specified in the Agency's Guidelines on Inflation Impact Statement. as specified in the Agency's Guidelines. Hence, these regulations are not considered major regulatory actions so that they do not require preparation of an Inflation Impact Statement as set forth in Executive Order 11821. However, an economic evaluation has been prepared.

It is hereby announced that a draft Environmental Impact Statement has been prepared on these proposed regulations. Copies of the statement may be obtained from the Office of Water Supply (WH-550), Environmental Protection Agency, Washington, D.C. 20460, Attention: UIC-EIS.

The Council of Environmental Quality will publish in the FEDERAL REGISTER on the second Friday following proposal of these regulations the duration of the comment period. All comments received on or before the date specified by CEQ will be considered.

Comments should be submitted in triplicate to the Office of Water Supply (WH-550), Environmental Protection Agency, Washington, D.C. 20460, Attention: Comment Clerk Environmental Impact Statement-UIC.

Dated: August 13, 1976.

RUSSELL E. TRAIN,
Administrator.

146.32 Permit conditions and other requirements.
146.33 Monitoring and record-keeping.
146.34 Reporting requirements.

Subpart D Requirements Applicable to Injection Wells Related to Oil and Gas Production

146.40 Underground injection to which subpart applies.
146.41 Review of existing underground injections.
146.42 Requirements for existing and new underground injections.
146.43 Public notice of proposed issuance or denial of UIC permits for existing and new underground injections.
146.44 Notice to other Government agencies.
146.45 Public hearings on existing and new underground injections.
146.46 Public notice of hearings on existing and new underground injections.
146.47 Application for UIC permit for a new underground injection.
146.48 Permit conditions and other requirements.
146.49 Monitoring and record-keeping.
146.50 Reporting requirements.

Subpart E Requirements Applicable to All Drainage Wells

146.70 Underground injections to which subpart applies.
146.71 Regulation by rule or permit.
146.72 Regulation by permit.
146.73 Regulation by rule.
146.74 Remedial action.

Subpart A—General

§ 146.1 Scope and purpose.

(a) Part C of the Safe Drinking Water Act, Pub. L. 93-523, added to the Public Health Service Act ("the Act") provisions for the protection of present and potential underground drinking water sources from contamination by underground injection of contaminants. Public Health Service Act, sections 1421-1424, 42 U.S.C. 300-h through 300-h-3.

(b) Section 1422 of the Act provides that the Administrator shall list in the FEDERAL REGISTER each State for which in his judgment a State underground injection control program may be necessary to assure that underground injection will not endanger drinking water sources. Within 270 days after a State is listed, it must submit to the Administrator a State program adequate to protect underground sources of drinking water. If the State program is not submitted or is not approved by the Administrator, an underground injection control program for the State must be prescribed by the Administrator.

(c) Under sections 1421, 1422 and 1450 of the Act, this part sets forth procedural and substantive requirements which must be met by State programs to obtain the Administrator's approval. Any State program approved by the Administrator will be subject to the requirements of this part. A State with an approved program in effect shall have primary enforcement responsibility for all underground injection activities in the State, except as noted in paragraph (d) of this section.

(d) To qualify for primary enforcement responsibility, a State's program for enforcement of underground injection control regulations must apply to all underground injection practices in the State required to be regulated by this Part, except for:

(1) Underground injection practices on Indian land where the State does not have the necessary jurisdiction or its jurisdiction is in question; or

(2) An underground injection practice operated by or for a Federal agency where the Administrator has waived compliance with all or part of an applicable underground injection control program under section 1447(b) of the Act.

(e) Underground injection to be regulated includes underground injection by municipal and industrial waste disposal wells, storage wells, subsidence control wells, mining wells, geothermal wells, barrier wells, recharge wells; underground injection of brine or other fluids which are brought to the surface in connection with oil or natural gas production and underground injection for the secondary or tertiary recovery of oil or natural gas; and underground injection by drainage wells.

§ 146.2 Definitions.

As used in this part, and except as otherwise specifically provided:

(a) "Act" means the Public Health Service Act.

(b) "Agency" means the United States Environmental Protection Agency.

(c) "Administrator" means the Administrator of the Agency or his authorized representative.

(d) "Regional Administrator" means a Regional Administrator of the Agency.

(e) "Director" means the chief administrative officer of a State groundwater pollution control agency. In the event responsibility for ground-water pollution control and enforcement is divided among two or more State agencies, the term "Director" means the State administrative officer authorized to take the action to which reference is made.

(f) "FWPCA" means the Federal Water Pollution Control Act, as amended, 33 U.S.C. 1314, et seq.

(g) Except as provided in § 146.11, "Underground drinking water source" means (1) an aquifer which currently supplies a public water system, or (2) an aquifer which contains water having less than 10,000 mg/l total dissolved solids.

(NOTE.—Comment is solicited on the adequacy of this definition.)

(h) "Contaminant" means any physical, chemical, biological, or radiological substance or matter in water.

(i) "Public water system" means a system for the provision to the public of piped water for human consumption, if such system has at least fifteen service connections or regularly serves at least twenty-five individuals daily at least 60 days out of the year. Such term includes (1) any collection, treatment, storage, and distribution facilities under control of the operator of such system and used primarily in connection with such system, and (2) any collection or pretreatment storage facilities not under such control which are used primarily in connection with such system.

(j) "State Underground Injection Control Program" (State UIC Program) means a State program for the regulation of the practice of underground injection to protect underground drinking water sources and meeting the requirements of sections 1421 and 1422(b)(1)(A)(ii) of the Act and regulations promulgated under those provisions of the Act.

(k) "Underground Injection Control permit application" (UIC permit application) means the State application form including subsequent additions, revisions, or modifications duly promulgated by the Director for application for a UIC permit.

(l) "Underground Injection Control reporting forms" (UIC reporting forms) means any State reporting forms, including subsequent additions, revisions, or modifications duly promulgated by the Director for reporting data and information pursuant to monitoring and other conditions of UIC permits.

(m) "Underground Injection Control permit" (UIC permit) means any permit or equivalent document issued by the Director, setting forth the terms under which the applicant may inject fluids.

(n) "Aquifer" means a formation, group of formations, or part of a formation that contains sufficient saturated permeable material to yield or be capable of yielding significant quantities of water to wells or springs.

(o) "Total dissolved solids" means the entire quantity of inorganic and organic materials dissolved in water.

(p) "Underground injection" means subsurface emplacement of a fluid, or fluids by well injection.

(q) "Fluid" means material which flows or moves, whether semi-solid, liquid, sludge, or any other form or state.

(r) "Well injection" means subsurface emplacement through a bored, drilled, or driven well, or through a dug well where the depth is greater than the largest surface dimension, whenever a principal function of the well is the subsurface emplacement of fluids.

(NOTE.—Comment is solicited on the adequacy of this definition.)

(s) "Surface Impoundment" means any dug well which has a depth less than the greatest surface dimension and is used for collection, storage, treatment, or disposal of fluids.

(t) "Existing underground injection" means underground injection in operation in a State before the approval of the proposed State program pursuant to section 1422(b) of the Act.

(u) "New underground injection" means underground injection which starts operation in a State after approval of the proposed State program under section 1422(b) of the Act.

(v) "Person" means an individual, corporation, partnership, association, State, municipality, or Federal agency other than the Agency.

(w) "Municipality" means a city, town, or other public body created by or under State law, or an Indian tribal organization authorized by law.

(x) Underground injection "endangers underground drinking water sources" if (1) such injection may make it necessary for a public water system using an underground drinking water source to increase treatment of the water, or (2) if such injection might make it necessary for a public water system which uses the source in the future to use more extensive treatment of the water than would otherwise have been necessary, or (3) if such injection may otherwise adversely affect the health of persons such as by adding a substance that would make water from the source unfit for human consumption.

(NOTE.—Comment is solicited on the adequacy of this definition.)

(y) "Federal agency" means any department, agency, or instrumentality of the United States.

(z) "Annular injection" means any injection between strings of casing, between tubing and casing, between strings of tubing and between casing and hole.

§ 146.3 Duration of permits.

No UIC permit may be issued for a term greater than five years.

§ 146.4 Renewal of UIC permits.

Upon a request by the permittee, the Director may renew a permit, without requiring a formal reapplication by the permittee, after a determination by the Director that the continued operation of the underground injection will not endanger underground sources of drinking water. If the Director determines that the continued operation of the facility may endanger underground sources of drinking water the Director may require the permittee to submit information to demonstrate that the continued operation of the facility will not endanger underground sources of drinking water. If the Director finds that the permittee has failed to demonstrate the continued operation will not endanger underground sources of drinking water, the Director shall refuse to reissue the permit. The Director's decision shall be set forth in writing, and a copy furnished to the applicant.

§ 146.5 Public notice of renewal of UIC permits.

The director shall give public notice of the intent to renew a UIC permit or group of permits under either §§ 146.26(a), 146.43(a) and 146.72(b).

Subpart B—State Underground Injection Control Programs

§ 146.10 Requirements for approval of a State Underground Injection Control Program.

The Administrator will approve a proposed State Underground Injection Control Program under section 1422 of the Act if the State program:

(a) Prohibits, effective December 16, 1977, or as of the time of the Administrator's approval, any underground injection covered by Subparts C or D which is not authorized by a permit issued by the State; except that if underground injection in operation prior to the approval of the State program under section 1422(b) of the Act, the State program may authorize continued operation by rule for a period of up to five years from the date of designation;

(b) Prohibits, effective December 16, 1977, or as of the time of the Administrator's approval, any underground injection covered by Subpart E which is not authorized by a rule or permit issued by the State;

(c) Complies with Subparts C, D and E, which set forth requirements for the various categories of underground injection;

(d) Applies to underground injection by any person within the boundaries of the State, including any Federal agency, except for:

(1) Underground injection practices on Indian land which the State does not

V 41 170
AUG 31 76
UMI

have the necessary jurisdiction or its jurisdiction is in question; or

(2) An underground injection practice operated by or for a Federal agency where the Administrator has waived compliance with all or part of an applicable underground injection control program under section 1447(b) of the Act.

(e) Includes statutory or regulatory enforcement authority adequate to compel compliance with State requirements which seek to prevent the endangerment of underground drinking water sources by underground injection, such authority to include:

(1) Authority to sue in courts of competent jurisdiction to enjoin any threatened, or continuing violation of the State Underground Injection Control regulations;

(2) Right of entry and inspection of underground injection facilities, including the right to monitor or take samples, whether or not the State has evidence that the facility is in violation of an applicable legal requirement;

(3) Authority to require operators of underground injection facilities to keep appropriate records and make appropriate reports to the State; and

(4) Authority to assess civil or criminal penalties for violation of the State's Underground Injection Control regulations including the authority to assess daily penalties or multiple penalties when a violation continues;

(f) Insures that any information on file with the State and pertinent to UIC applications and permits shall be available to the public for inspection and copying subject to appropriate protection of trade secrets;

(g) Includes inspection and surveillance procedures which with reasonable assurance will determine, independent of information supplied by applicants and permittees, compliance or noncompliance with applicable standards and limitations, UIC permit filing requirements, and issued UIC permits or terms or conditions thereof. Such surveillance and inspection support procedures shall include the following:

(1) A supporting survey program with sufficient capability to make systematic surveys of operations subject to the Director's authority in order to identify and locate all operations subject to UIC permit filing requirements;

(2) A supporting inspection program for the periodic inspection of underground injection operations, systems, or facilities. Such inspection shall determine compliance or noncompliance with the terms, conditions, limitations and schedules of compliance in UIC permits; and

(h) Has been adopted after reasonable notice and public hearings.

§ 146.11 Aquifers protected by a State program.

(a) Notwithstanding § 146.2(g) which defines "underground drinking water sources" to encompass aquifers which do not currently supply a public water system but which contain water having less than 10,000 mg/l total dissolved solids—a State program which does not undertake to protect one or more such aquifers or portions thereof may meet the requirements for primary enforcement responsibility if the State can demonstrate to EPA that the aquifer or portion thereof is not an underground drinking water source because the aquifer is either oil-producing; is too contaminated for use as an underground drinking water source; or is in a location which makes future use of the aquifer as an underground drinking water source impracticable, and that the injection into such aquifer would not endanger underground drinking water sources in another part of the aquifer or in another aquifer.

(b) The State program may designate specific geographic areas which do not contain underground sources of drinking water as defined in § 146.2(g), in which underground injection is not subject to these regulations. The State must clearly demonstrate to EPA that within that specified area no underground drinking water sources exist, and further that underground injection in such a geographic area would not endanger underground drinking water sources outside that area.

(c) A complete record of all evidence as well as all analyses of such evidence related to designations under (a) and (b) above shall be submitted to the Administrator upon submission of the State program under section 1422(b) of the Act. All injection wells located in the designated area shall be identified as a part of the submission to the Administrator. Such designations are subject to the requirements of §§ 146.10(h) and 146.14(a). If an area is to be designated after approval of the State program the procedure contained in this paragraph must be followed.

§ 146.12 Request for approval of a State Underground Injection Control Program.

A State may apply to the Administrator for approval of its Underground Injection Control Program under § 146.10. The application shall be as concise as possible, shall describe and document the State's compliance with the requirements set forth in § 146.10, and shall include the following information:

(a) The text of the State's statutory authority and regulations pertaining to the State underground injection control program; and

(b) A brief description, accompanied by appropriate documentation, of the State's procedures for the enforcement of its underground injection control program, including State inspection, monitoring, recordkeeping and reporting requirements.

§ 146.13 Action on request for approval of a state program.

(a)(1) Upon receipt of a request for approval of a State program submitted under § 146.12, the Administrator shall publish notice of the request in the FEDERAL REGISTER and in a newspaper or newspapers of general circulation in the State involved, with a brief summary of the State program, and shall invite comments on the request.

(2) Within 90 days after receipt of the State's completed application, the Administrator shall either approve, disapprove, or approve in part and disapprove in part, the State program. The Administrator's action shall take effect in accordance with § 146.14.

(b)(1) If the Administrator approves the State program, the State shall have primary enforcement responsibility for underground injection control in the State until such time as the approval is terminated under this paragraph (b).

(2) The Administrator shall periodically review, with respect to each State determined to have primary enforcement responsibility, the compliance of the State with the requirements set forth in § 146.10.

(3) When the Administrator's periodic review, or other information available to him, indicates that a State no longer meets the requirements set forth in § 146.10, he shall notify the State in writing of that fact and shall summarize in his notice the information available to him which indicates that the State no longer meets such requirements.

(4) The State notified under subparagraph (3) of this paragraph may, within 30 days of receiving the Administrator's notice, submit to the Administrator evidence demonstrating that the State continues to meet the requirements for primary enforcement responsibility.

(5) After reviewing the submission of the State, if any, made under subparagraph (4) the Administrator shall either determine that the State no longer meets the requirements of § 146.10 or that the State continues to meet those requirements, and shall notify the State of his determination. Any determination that the State no longer meets the requirements of § 146.10 shall not become effective except as provided in § 146.14.

§ 146.14 Public hearing.

(a) Before any determination as to the transfer of authority to a State under § 146.13(a) becomes effective, or any determination pursuant to § 146.13(b) that a State program no longer meets the requirements of § 142.10 becomes effective, the Administrator shall provide an opportunity for public hearing on his determination under section 1422(b)(3) of the Act.

(b) The Administrator shall publish notice of any determination specified in paragraph (a) of this section in the FEDERAL REGISTER and in a newspaper or newspapers of general circulation in the State involved, within 15 days after making such determination, with a statement of his reasons for the determination. The notice shall inform interested persons that they may request a public hearing on the Administrator's determination. Such notice shall also indicate one or more locations in the State where information submitted by the State under § 146.11 is available for inspection by the general public. A public hearing may be requested by any interested person other than a Federal agency.

(c) Requests for hearing under paragraph (b) of this section shall be submitted to the Administrator within 30 days after publication of notice of opportunity for hearing in the FEDERAL REGISTER. Such requests shall include the following information:

(1) The name, address and telephone number of the individual, organization or other entity requesting a hearing;

(2) A brief statement of the requesting person's interest in the Administrator's determination and of information that the person making the request intends to submit at such hearing; and

(3) The signature of the individual making the request; or, if the request is made on behalf of an organization or other entity, the signature of a responsible official of the organization or other entity.

(d) If an appropriate request for hearing is submitted in accordance with paragraph (c) of this section, the Administrator shall give notice in the FEDERAL REGISTER and in a newspaper or newspapers of general circulation in the State involved, of any hearing to be held according to a request submitted by an interested person or on his own motion. Notice of the hearing shall also be sent to the person requesting a hearing, if any, and to the State involved. Notice of the hearing shall include a statement of the purpose of the hearing, information regarding the time and location for the hearing and the address and telephone number of an office at which interested persons may obtain further information concerning the hearing. At least one hearing location specified in the public notice shall be within the involved State. Notice of hearing shall be given not less than 30 days prior to the time scheduled for the hearing.

(e) Hearings convened under paragraph (d) of this section shall be conducted before a hearing officer to be designated by the Administrator. The hearing shall be conducted by the hearing officer in an informal, orderly and expeditious manner. The hearing officer shall call witnesses, receive oral and written testimony and take such other action as may be necessary to assure the efficient conduct of the hearing. Following the conclusion of the hearing, the hearing officer shall forward the record of the hearing to the Administrator.

(f) After reviewing the record of the hearing and other relevant information, the Administrator shall issue an order affirming the determination referred to in paragraph (a) of this section or rescinding such determination. If the determination is affirmed, it shall become effective as of the date of the Administrator's order.

(g) If no timely requests for hearing is received and the Administrator does not determine to hold a hearing on his own motion, the Administrator's determination shall become effective 45 days after notice is issued under paragraph (b) of this section.

(h) If a determination of the Administrator that a State no longer meets the requirements of § 146.10 becomes effective, the State may later apply for a determination that it meets such requirements by submitting to the Administrator information demonstrating that it has remedied the deficiencies found by the Administrator without adversely affecting other aspects of its program required by § 146.10.

(i) Within 270 days after any amendment of a regulation, under section 1421, revising or adding any requirement, each State shall submit a notice to the Administrator containing a showing satisfactory to him that the State program meets the revised added requirement.

§ 146.15 Records kept by States.

(a) Each State which has primary enforcement responsibility under section 1421(b)(1)(c) of the Act shall maintain the following information with respect to each underground injection for which a permit is in effect or for which the Director has received evidence of a violation of applicable requirements:

(1) Reports of any monitoring required by the permit or other surveillance conducted by the Director;

(2) Copies of permits in effect and the applications for those permits; and

(3) Records of any enforcement actions or evidence of violation of applicable requirements.

(b) Records required to be kept under paragraph (a) must be in a form admissible as evidence in State enforcement proceedings.

(NOTE.—Comment is solicited on the feasibility of requiring data to be kept in this form.)

(c) Each State which has enforcement authority for the injection regulated under Subpart D of these regulations shall maintain complete records of all approvals granted under § 146.42(a)(8) and (9) and § 146.42(c).

§ 146.16 Reports by States.

Each State which has primary enforcement responsibility shall submit to the Administrator the following information:

(a) A complete inventory of all underground injections subject to regulation under Subpart C, D, and E of this Part within one year after approval of the program; and

(b) An inventory of existing surface impoundments, and an assessment of the extent to which they function to emplace fluids underground and an evaluation of the hazard they pose to underground drinking water supplies, within eighteen months after approval of the program, and

(NOTE.—Comment is solicited on the adequacy of the time for conducting this inventory and subsequent analysis in defining the problem of underground injection through dug wells including surface impoundments not currently covered by this Regulation.)

(c) An annual report to be submitted by April 1 of every year, consisting of:

(1) A summary of the number of violations of State underground injection control statutes and regulations and of enforcement actions taken by the State;

(2) An updated list of new and abandoned underground injection operations in the State;

(3) A listing of specific permits issued for underground injections in areas designated under §§ 146.11 and 146.42(b).

(4) A listing of specific permits containing approvals granted under §§ 146.42(a)(8), 146.42(a)(9) and 146.42(c).

(5) Information on any proposed material change in the State program, before adoption of the change.

Subpart C—Requirements Applicable to Waste Disposal Wells and Engineering Wells

§ 146.20 Underground injections to which subpart applies.

This subpart sets forth requirements for State programs of underground injection by industrial and municipal waste disposal wells, subsidence control wells, barrier wells, recharge wells, mining wells, storage wells and geothermal wells.

§ 146.21 Review of existing underground injections.

(a) Underground injections which were in operation under approval by the Director under an existing State program before the approval of the proposed State program under section 1422(b) of the Act may, for a period of up to five years after approval, be regulated by rule provided such underground injections will not endanger underground drinking water sources.

(1) The Director shall require applications to be filed under § 146.24 for each existing underground injection which is to continue in operation.

(2) The Director shall systematically review such underground injections to determine that they do not endanger underground drinking water sources. The method of review to be used must be indicated in the program submission to EPA along with a time schedule to assure that all existing underground injections will be reviewed within five years.

(3) Underground injection operations that are found to endanger underground drinking water sources shall discontinue operation pending remedial action unless the Director determines that it is unreasonable or impracticable to discontinue operating pending remedial action. If the Director permits an endangering operation to continue pending remedial action the Director shall prescribe a compliance schedule which shall require remedial action to be taken as soon as practicable but not later than one year following the determination of endangerment.

(b) Pending review by the Director, underground injections must comply at a minimum with State rules in effect on date of proposal of the program by the State.

(NOTE.—Comment is solicited on the practicality and impact of this regulatory approach.)

§ 146.22 Requirements for existing and new underground injections.

The Director shall review data on existing underground injections and on proposed new underground injections to assure that:

(a) All underground drinking water sources of 3,000 mg/l total dissolved

V41170 AUG 31 76 UMI

solids or less are protected by casing cemented to the surface;

(b) The long string is cemented with sufficient cement to assure no migration of injected fluid above or below the injection zone;

(c) Injection is maintained through tubing with a suitable packer set immediately above the injection zone; except that the Director may approve an alternative method of protection where compelling evidence has been presented demonstrating that the alternative method will prevent endangerment of underground drinking water sources. The Director must also offer the opportunity for informal public hearing.

(d) There are no leaks in the system;

(e) Surface injection pressure is limited to preclude the possibility of fracturing the confining strata;

(f) All well completion and plugging reports for wells of record penetrating the proposed injection zone within a two mile radius of the proposed well injection should be thoroughly reviewed to insure that all wells are properly completed and/or plugged that in the judgment of the Director present a potential threat to underground drinking water sources; and

(g) Annular injection is not practiced.

§ 146.23 General permit procedures.

State proceduers for permits subject to this subpart shall insure that every applicant for a permit complies with filing requirements to include the following:

(a) The applicant must submit a complete UIC permit application on forms prescribed by the Director, including data required by § 146.24 except that if the Director determines that the data required is on file with the regulatory agency regulating the injection under consideration, the Director may consider the application complete without resubmission of that specific data.

(b) In the case of new underground injections, a complete UIC permit application must be filed far enough in advance of the date on which it is desired to start the injection to allow adequate consideration of the application, and in sufficient time before starting the injection to insure compliance with any applicable requirement under section 208(b)(2)(K) of the FWPCA, and any other applicable regulations; and

(c) Procedures must be established which (1) enable the Director to require submission of additional information after an application has been filed, and (2) insure that, if any UIC permit application is incomplete or otherwise deficient, processing of the application shall not be completed until such time as the applicant has supplied the missing information or otherwise corrected the deficiency.

§ 146.24 Application for UIC permit.

Each application for a UIC permit covered by this subpart shall include the following information:

(a) Ownership and Location Data. The application shall identify the owner and operator of the proposed underground injection facility, and the location of the facility.

(b) An accurate map showing (i) location and surface elevation of the injection well, (ii) location of all facilities, (iii) property boundaries, and (iv) surfact mineral ownership.

(c) An accurate map showing the location of: water wells; surface bodies of water; oil, gas, exploratory or test wells (with depths of penetration); other injection wells; mines (surface and subsurface) and quarries; and other pertinent surface features including residences, roads, bedrock outcrops, and faults and fractures within a two mile radius of the injection operation.

(d) A tabulation of all wells requested under (c) penetrating the proposed injection zone, showing operator; lease or owner; well number; surface casing size, weight, depth and cementing data for surface, intermediate and long string casings; and plugging data.

(e) Maps and cross sections indicating the vertical and lateral limits of aquifers containing 3,000 mg/l and 10,000 mg/l TDS water quality levels, above and below the injection zone and direction of movement of the water in every underground drinking water source which may be affected by the proposed injection.

(f) Maps and cross sections detailing geologic structure for the local area and generalized maps and cross sections illustrating the regional geologic setting.

(g) Description of chemical, physical, and biological properties and characteristics of the fluid to be injected.

(NOTE.—Comment is solicited on the impact of this requirement. Since some information involves trade secrets, how can confidentiality be protected without unduly restraining public involvement?(1)

(h) Volume, injection rate and injection pressure of the fluid to be injected.

(i) The following geological and physical characteristics of the injection interval and the overlying and underlying confining beds:

(1) Thickness;
(2) Areal extent;
(3) Lithology;
(4) Location, extent and effects of known or suspected faulting, fracturing and natural solution channels;
(5) Formation fluid chemistry, including total dissolved solids; and
(6) Fracturing gradients.

(j) The following engineering data:

(1) Diameter of hole and total depth of the well;
(2) Type, size, weight, and strength of all casing strings;
(3) Proposed cementing procedures and type of cement;
(4) Proposed formation testing program;
(5) Proposed stimulation program;
(6) Proposed injection procedure;
(7) Plans of the surface and subsurface construction details of the system including engineering drawings;
(8) Plans for monitoring both well head and annular fluid pressure, fluids being injected in injection zone and other aquifers;
(9) Expected changes in pressure, native fluid displacement and direction of movement of injected fluid; and
(10) Contingency plans to cope with all shut-ins or well failures to prevent endangerment of underground drinking water sources.

(k) A written evaluation of alternative disposal practices in terms of maximum environmental protection.

§ 146.25 Formulation of preliminary determination and draft UIC permits.

(a) The Director shall prepare a preliminary staff determination with respect to a UIC permit application in advance of public notice of the proposed issuance of a UIC permit. The preliminary determination shall include at least the following:

(1) A proposed determination to issue or deny a UIC permit for the injection described in the UIC permit application;
(2) Name and address of the applicant; name of the facility or operation producing the contaminants to be injected; site or proposed site of the injection; and a list of the alternatives to underground injection which have been considered;
(3) Proposed injection limitations for each major parameter; and
(4) A brief description of any proposed special conditions which will have significant impact upon the injection described in the application.

(b) The Director shall organize the tentative determination, prepared under (a) of this section into a draft UIC permit.

§ 146.26 Public notice of proposed issuance or denial of UIC permits for existing and new underground injections.

(a) The Director shall give public notice of any preliminary determination to issue or deny a UIC permit. The public notice shall be circulated in a manner designed to inform interested persons of the proposed injection and of the preliminary determination to issue or deny a UIC permit for the proposed injection. At a minimum:

(1) The public notice shall be published in a local newspaper of general circulation;
(2) Notice shall be mailed to any person or group of persons upon request;
(3) The Director shall provide a period of not less than 30 days following the date of the public notice, during which time interested persons may submit written comments regarding the preliminary determination with respect to the UIC permit application. All written comments submitted during the comment period shall be retained by the Director and considered in the formulation of his final determination with respect to the UIC permit application.

(b) The contents of public notice of proposed issuance or denial of UIC permits shall include at least the following:

(1) Name and address of the applicant and a brief description of the location of the injection;
(2) Nature of the applicant's activities or operations which result in the fluid to be injected (e.g., municipal waste treatment plant, steel manufacturing, drainage from mining activities);
(3) A physical, chemical, and biological description the fluid to be injected and the rate and pressure of injection;

(NOTE.—Comment is solicited on the impact of this requirement since some information involves trade secrets. How can confidentiality be protected without unduly restraining public involvement?)

(4) Depth and geologic name of the injection zone or formation;
(5) A statement of the Director's preliminary determination to issue or deny the permit and a brief description of the procedures for the formulation of final determinations, including the comment period and any other means by which interested persons may influence or comment upon those determinations; and
(6) Name of the State agency issuing the public notice with address and phone number at which interested persons may obtain further information, and inspect and copy UIC application forms and related documents.

§ 146.27 Notice to other government agencies.

The Director shall also notify other appropriate government agencies of the proposed issuance of a UIC permit and shall provide such agencies an opportunity to submit their written views and recommendations or request a public hearing. Procedures for such notification shall include the following:

(a) At the time of issuance of public notice under § 146.25, a copy of the notice will be transmitted to the Director in any other State whose waters may be affected by the issuance of a UIC permit and, upon request, such State will be provided with a copy of the UIC permit application and a copy of the proposed permit. Each potentially affected State may submit written recommendations to the Director (with copies to the Regional Administrator(s) for the affected Region(s)(1). The Director shall provide the affected State or States (and the Regional Administator(s)) a written explanation of his reasons for failing to accept any such written recommendations;

(b) A procedure, similar to paragraph (a) of this section, for notifying any interstate agency or commission having ground-water quality control authority over waters which may be affected by the issuance of a permit; and

(c) A procedure for mailing a copy of the public notice of an application for a UIC permit to any other Federal, State, or local agency, or any foreign country, upon request, and providing an opportunity to respond, comment, or request a public hearing pursuant to § 146.29. Such agencies shall include at least the following:

(1) The agency responsible for the preparation of an approved plan under section 208(b)(2)(K) of the FWPCA; and

(2) The State or interstate agency responsible for the preparation of a plan pursuant to an approved continuous planning process under section 303(e) of the FWPCA, unless such agency is under the supervision of the Director.

§ 146.28 Public hearings on existing and new underground injections.

(a) The Director shall provide an opportunity for the applicant, any affected State, any affected interstate agency, any affected country, the Regional Administrator, or any interested agency, person, or group of persons to request an informal public hearing with respect to a UIC permit application.

(b) The Director shall hold an informal public hearing on a permit application if he finds there is a significant public interest (including the filing of requests or petitions for such a hearing) in holding such a hearing. Any hearing held under this subsection shall be held in the geographical area of the injection or proposed injection, and may, as appropriate, consider related groups of permit applications.

§ 146.29 Public notice of hearings on existing and new underground injections.

(a) Public notice of any hearing held under § 146.28 shall be circulated at least as widely as was the notice of the UIC permit application and shall be given at least 30 days prior to the hearing date.

(b) The contents of the public notice of any hearing held under § 146.28 shall include at least the following:

(1) A brief description of the nature and purpose of the hearing, including rules and procedures to be followed;
(2) Name and address of the applicant whose application will be considered at the hearing;
(3) Name of formation into which injection is proposed, the injection depth, and a description of the location of the injection;
(4) A description of the fluid to be injected and the rate and pressure of injection;
(5) Nature of the applicant's activities or operations which result in the fluid to be injected (e.g., municipal waste treatment plant, steel manufacturing, drainage from mining activities);
(6) The date, time and location of the hearing;
(7) A concise statement of the issues raised by the person requesting the hearing; and
(8) Name of the agency holding the public hearing with address and phone number at which interested persons may obtain further information.

§ 146.30 Director action on UIC permit applications.

After considering the application for a permit for a new or existing underground injection and all pertinent matters relative thereto, if the Director finds that the applicant has demonstrated that the proposed well injection will not endanger underground drinking water sources, the Director may issue a permit. If the Director finds that the applicant has not demonstrated that the proposed well injection will not endanger underground drinking water sources, the Director shall issue a permit under § 146.21(a)(3). The Director's decision shall be in writing, and a copy furnished to the applicant.

§ 146.31 Prohibited underground injection.

The Director shall insure that no permit shall be issued authoriizng underground injection unless the applicant can demonstrate to the satisfaction of the Director that such injection will not endanger underground drinking water sources.

§ 146.32 Permit conditions and other requirements.

State procedures must insure that the terms and conditions of each issued UIC permit comply with the following:

(a) Adherence to any applicable more stringent limitations including those (i) necessary to meet both treatment standards and schedules of compliance, established under State law or regulation, or (ii) necessary to meet other Federal law or regulation;

(b) Allowance of no underground injection of contaminants until after:

(1) The use of appropriate techniques for construction, operation and maintenance of the injection system; and
(2) Provisions for inspection, monitoring, record-keeping and reporting of the underground injection operation;

(c) Allowance of no contaminant to enter an existing or potential underground drinking water source if the presence of such contaminant may endanger such drinking water source;

(d) Adequate contingency plans to cope with malfunctions or failure of the underground injection system;

(e) Adequate procedures for detecting failure of the system in a timely fashion;

(f) Provisions for such measures as the Director finds necessary to assure the availability of adequate financial resources for dealing with underground injection systems which either are improperly abandoned or may otherwise cause contamination of underground drinking water sources;

(g) That all injections authorized by the UIC permit shall be consistent with the terms and conditions of the permit and that the injection of any contaminant at a greater rate or pressure than that authorized by the permit, or a volume in excess of that authorized by the permit shall constitute a violation of the terms and conditions of the permit;

(h) That the permit may be modified, suspended, or revoked in whole or in part during its term for cause including but not limited to, the following:

(1) The underground injection endangers underground drinking water sources;
(2) Violation of any material terms or conditions of the permit;
(3) Obtaining a permit by misrepresentation or failure to disclose fully all relevant facts; or
(4) A change in any condition that may indicate failure of the underground injection system;

(i) That the permittee shall allow the Director or his authorized representative, upon the presentation of appropriate credentials:

V 41 170
AUG 31 76
UMI

(1) To enter the permittee's premises in which a contaminant source or injection system is located and in which any records are required to be kept under terms and conditions of the permit;

(2) To have access to and copy records required to be kept under terms and conditions of the permit;

(3) To inspect the permittee's facilities, including any monitoring equipment or analytical devices; and

(4) To sample any fluids being injected, and if sampling of the injection zone and other aquifers is required by the permittee under the monitoring plan of the permit, to also have the right to sample those zones;

(j) That the permittee at all times shall maintain in good working order and operate efficiently facilities or systems of control installed by the permittee to achieve compliance with terms and conditions of the permit;

(k) That immediately following the permanent cessation of underground injection or where a well is not completed, the permittee shall notify the Director and follow the procedures prescribed by the Director for plugging and abandonment; and

(l) That the permittee shall submit reports of all remedial work actions to the Director.

§ 146.33 Monitoring and record-keeping.

Each permittee shall keep on forms prescribed by the Director complete and accurate records of:

(a) All monitoring required in the permit which will include, but not be limited to:

(1) Weekly readings of the surface injection pressure;

(2) Weekly readings of the tubing—long string annulus pressure;

(3) Weekly total volume of injected fluid; and

(4) Weekly average injection volume (bbls/day) (liters/day);

(b) All periodic well tests, including but not limited to:

(1) Water analyses;

(2) Measured or calculated bottom hole pressure readings of the injection zone; and

(3) Well conditions;

(c) All shut-in periods, times contingency measures used for handling the fluid to be injected;

(d) The permittee shall retain, for a period of five years, records of all information resulting from any monitoring activities required by the UIC permit or by regulation. This requirement shall continue in effect during the five year period following abandonment of the well. The period of retention shall be extended when requested by the Director; and

(e) Records of monitoring activities and results shall include for all samples; (1) the date, place and time of sampling; (2) the dates analyses were performed; (3) who performed the analyses; (4) the analytical techniques/methods; and (5) the result of such analyses.

§ 146.34 Reporting requirements.

(a) Each permittee shall submit at least the following reports or notification to the Director on forms precribed by the Director:

(1) Notification of the initial injection operation within ten days of the start-up date; and

(2) Quarterly reports which contain the data records required by the Director.

(b) Within ten days after the temporary discontinuance of disposal operations, the permittee shall notify the Director of the date and length of such discontinuance and the reason therefor. The Director will prescribe appropriate procedures to insure that underground drinking water sources are protected.

Subpart D—Requirements Applicable to Injection Wells Related to Oil and Gas Production

§ 146.40 Underground injections to which subpart applies.

This subpart sets forth requirements for State programs with respect to the underground injection of brine or other fluids which are brought to the surface in connection with oil or natural gas production; and underground injection for the secondary or tertiary recovery of oil or natural gas.

§ 146.41 Review of existing underground injections.

(a) Underground injections which were in operation under approval by the Director under an existing State program before the approval of the proposed State program under section 1422(b) of the Act may, for a period of up to five years, after approval, be regulated by rule provided such underground injections will not endanger underground drinking water sources.

(1) The Director shall obtain data necessary to make the determinations required under § 146.42.

(2) The Director shall systematically review such underground injections to determine that they do not endanger underground drinking water sources. The approach for review may be by county, field, age of well or other systematic approach decided upon by the Director.

The method of review to be used must be indicated in the program submission to EPA along with a time schedule to assure that all existing underground injections will be reviewed within five years.

(3) Underground injections reviewed by the Director that do not endanger underground drinking water sources may continue operation under a permit issued in compliance with §§ 146.42 and 146.47.

(4) Underground injection operations that are found to endanger underground drinking water sources shall discontinue operation pending remedial action unless the Director determines that it is unreasonable or impracticable to discontinue operating pending remedial action. If the Director permits an endangering operation to continue pending remedial action the Director shall prescribe a compliance schedule which shall require remedial action to be taken as soon as practicable but in no case later than one year following the determination of endangerment.

(b) Pending review by the Director, underground injections must comply with State rules in effect on the date of proposal of the program.

(NOTE.—Comment is solicited on the practicality and impact of this regulator approach.)

§ 146.42 Requirements for existing and new underground injections.

(a) The Director shall review data on existing underground injection and on proposed new underground injections to assure that:

(1) All underground drinking water sources of 3,000 mg/l total dissolved solids or less are protected by surface casing cemented to the surface;

(2) Injection is maintained through tubing with a suitable packer set immediately above the injection zone;

(3) The long string is cemented with sufficient cement to assure no migration of injected fluid above or below the injection zone;

(4) There are no leaks in the system;

(5) Surface injection pressure is limited to preclude the possibility of fracturing the confining strata;

(6) All well completion and plugging reports for wells of record penetrating the proposed injection zone within a one-half mile radius of the proposed well injection have been thoroughly reviewed to insure that all wells are properly completed and/or plugged that in the judgment of the Director present a potential threat to underground drinking water sources; and

(7) Annular injection between the casing and hole is not practiced.

(8) Annular injection between strings of casing and between tubing and casing is not practiced; except that in specific cases the Director may approve such annular injection providing: (i) there is an annulus between the outer string of casing receiving the injection and the surface casing which can and will be monitored for leaks; (ii) that the surface casing is protected by cement to the surface; and (iii) that the injector demonstrates to the satisfaction of the Director that the injection will not endanger underground drinking water sources.

(9) Annular injection between the surface casing and the next innermost casing or between the surface casing and the tubing, or injection through the surface casing only, is not practiced; except that in specific cases the Director may approve such injection where: (i) the injection was in operation prior to approval of the proposed State program, and (ii) the injector demonstrates to the satisfaction of the Director that, based on previous history and presentation of compelling evidence collected through fluid injection profile surveys and/or monitoring wells that the injection has not endangered underground sources of drinking water, nor will continued use endanger underground sources of drinking water.

(b) The Director may designate specific areas in the State where an alternative method of protection to those required

in paragraphs (a) (1) and (2) of this section has been used and has been demonstrated to be equally effective in the prevention of endangerment to underground drinking water sources provided:

(1) A complete record of all evidence, as well as all analyses of such evidence relative to a designation under this paragraph is submitted to the Administrator upon submission of the State program under section 1422(b) of the Act.

(2) All injection wells located in the designated area and the alternative to be used are identified as a part of the submission to the Administrator. Such designations are subject to the approval of the Administrator and the public hearing requirements of § 146.10(g) and 146.14 (a). If an area is to be designated after approval of the State program the procedure contained in this paragraph must be followed.

(c) The Director may approve an alternative method of protection for a specific well or injection in lieu of those required in paragraphs (a) (1), (2), and (3) provided:

(1) The injector can demonstrate to the Director with written compelling evidence that that specific requirement would interfere with or impede oil and gas production from the production well(s) serviced by that specific injection well;

(2) The injector can demonstrate to the Director with written compelling evidence that that specific requirement is not essential to prevent endangerment to underground drinking water sources resulting from that specific injection;

(3) The injector provides a written assessment of the alternative method of protection to be used; and

(4) The Director provides the opportunity for informal public hearing on that specific well or injection.

(NOTE.—Comment is solicited on the adequacy of these requirements in preventing endangerment to underground drinking water sources, and of the impact on existing wells.)

§ 146.43 Public notice of proposed issuance or denial of UIC permits for existing and new underground injections.

(a) The Director shall give public notice of the intent to issue or deny UIC permits for those existing and new underground injections reviewed under §§ 146.41 and 146.47. The public notice may contain more than one underground injection facility. The approach may be similar to that in § 146.41(a)(3). The public notice shall be circulated in a manner designed to inform interested persons of the proposed injection and of the determination to issue or deny a UIC permit for the proposed injection. Procedures for the circulation of public notices shall include at least the following:

(1) Notice shall be circulated within the geographical area of the proposed injection by publication in a local newspaper of general circulation;

(2) Notice shall be mailed to any person or group upon request;

(3) The Director shall provide a period of not less than 30 days following the date of the public notice, during which time interested persons may submit written comments regarding the determination to issue or deny the UIC permit for an existing underground injection. All written comments submitted during the 30 days comment period shall be retained by the Director and considered in the formation of his final determination with respect to the UIC permit application.

(4) The Director shall provide a period of not less than 14 days following the date of the public notice, during which time interested persons may submit written comments regarding the determination to issue or deny the UIC permit for new underground injections. All written comments submitted during the 14 days comment period shall be retained by the Director and considered in the formation of his final determination with respect to the UIC permit application.

(b) The contents of public notice of issuance or denial of UIC permits shall include at least the following:

(1) Ownership and location data.

(i) Operator of injection well or project; and

(ii) Location by geographic area, or section, township, and range.

(2) Engineering Data.

(i) Purpose of Injection (Disposal, Recovery);

(ii) Estimated volume and type of fluid to be injected (by lease, pool, field or other suitable means); and

(iii) Number of injection wells.

(3) Depth and geologic name of the injection zone or formation;

(4) A statement of the Director's determination to issue or deny the permit and a brief description of the procedures for the formulation of final determinations, including the comment period and any other means by which interested persons may influence or comment upon those determinations; and

(5) Name of the State agency issuing the public notice with address and phone number at which interested persons may obtain further information, and inspect and copy UIC application forms and related documents.

§ 146.44 Notice to other government agencies.

The Director shall also notify other appropriate government agencies of the proposed issuance of a UIC permit and shall provide such agencies an opportunity to submit their written views and recommendations or request a public hearing. Procedures for such notification shall include the following:

(a) At the time of issuance of public notice under § 146.43, a copy of the notice will be transmitted to the Director in any other State or Territory whose waters may be affected by the issuance of a UIC permit and, upon request, such State will be provided with a copy of the UIC permit application and a copy of the proposed permit. Each potentially affected State or Territory may submit written recommendations to the Director (with copies to the Regional Administrator(s) for the potentially affected Region(s)). The Director shall provide the affected State or States (and the Regional Administrator(s)) a written explanation of his reasons for failing to accept any such written recommendations;

(b) A procedure, similar to paragraph (a) of this section, for notifying any interstate agency or commission having ground-water quality control authority over waters which may be affected by issuance of a permit; and

(c) A procedure for mailing a copy of the public notice of an application for a UIC permit to any other Federal, State, or local agency, or any foreign country, upon request, and providing an opportunity to respond, comment, or request a public hearing under § 146.46. Such agencies shall include at least the following:

(1) The agency responsible for the preparation of an approved plan under section 208(b)(2)(K) of the FWPCA, and

(2) The State or interstate agency responsible for the preparation of a plan pursuant to an approved continuous planning process under section 303(e) of the FWPCA, unless such agency is under the supervision of the Director.

§ 146.45 Public hearings on existing and new underground injections.

(a) The Director shall provide an opportunity for the applicant, any affected State, any affected interstate agency, any affected country, the Regional Administrator, or any interested agency, person, or group of persons to request an informal public hearing with respect to a UIC permit application.

(b) The Director shall hold an informal public hearing on a permit application if he finds there is a significant public interest (including the filing of requests or petitions for such hearing) in holding such a hearing. Any hearing held under this subsection shall be held in the geographical area of the injection or proposed injection, and may, as appropriate, consider related groups of permit applications.

§ 146.46 Public notice of hearings on existing and new underground injections.

(a) At least 14 days prior to a public hearing held under § 146.45, the Director shall give notice of such hearing by publication in a newspaper of general circulation within the geographical area of the proposed injection and shall set forth the following:

(1) Ownership and location data.

(i) Operator of injection well or project; and

(ii) The location of the injection well or project by section, township and range, or by a location from the nearest village or town, or in such other manner as will identify the geographical area involved.

(2) Engineering Data.

(i) Purpose of injection (disposal, recovery);

(ii) Volume and type of fluid to be injected; and

V 41 170 AUG 31 76 UMI

(iii) Number of injection wells involved;

(3) Depth and geologic name of the injection zone or formation;

(4) A concise statement of the issues raised by the person requesting the hearing;

(5) The name of the agency issuing the notice and the date, time, and location of the hearing;

(b) The Director shall further supply the information set out above to each State, interstate or Federal agency and to each person or group of persons expressing an interest in the permit to be considered at a hearing.

§ 146.47 Application for UIC permit for a new underground injection.

An application for a UIC permit for a new underground injection shall be filed with the Director on forms prescribed by the Director.

(a) The application form for any new underground injection shall include the following:

(1) Ownership and Location Data. The application shall identify the owner and operator of the proposed underground injection facility, and the location of the facility;

(2) Engineering Data.

(i) A detailed casing and cementing program, or a schematic showing: diameter of hole, total depth of well and ground surface elevation; surface, conductor, and long string casing size and weight, setting depth, top of cement, method used to determine top; tubing size, and setting depth, and method of completion (open hole or perforated);

(ii) A map showing name and location of all producing wells, injection wells, abandoned wells, dry holes, and water wells of record within a one-half mile radius of the proposed injection well; and

(iii) A tabulation of all wells requested under (ii) penetrating the proposed injection zone, showing: operator; lease; well number; surface casing size and weight, depth and cementing data; intermediate casing size and weight, depth and cementing data; long string size and weight, depth and cementing data; and plugging data.

(NOTE.—Comment is solicited on other ways to demonstrate non-endangerment from wells penetrating the proposed injection zone where it is possible that the wells may be an open connection to an underground drinking water source.)

(3) Operating Data.

(i) Depth to top and bottom of injection zone;

(ii) Anticipated daily injection volume, minimum and maximum, in barrels;

(iii) Approximate injection pressure; and

(iv) Type, source and characteristics of injected fluids.

(4) Geologic Data—Injection Zone. Appropriate geologic data on the injection zone and confining beds including such data as geologic names, thickness and areal extent of the zone.

(5) Underground Sources of Drinking Water Which May be Affected by the Injection. Geologic name and depth (below land surface) of aquifers above and below the injection zone containing water of 3,000 mg/1 total dissolved solids or less and aquifers containing water of 10,000 mg/1 total dissolved solids or less.

(6) An electric log on all new wells and on existing wells where available.

(b) The Director may request any of these additional data necessary to make the determinations required in § 146.41.

(1) Engineering Data.

(i) Method to determine rate of corrosion;

(ii) Cement bond log;

(iii) List of all cement squeeze operations, giving interval and number of sacks of cement;

(2) Operating Data.

(i) Whether open or closed system;

(ii) Contingency plans to cope with all shut-ins or well failures;

(3) Geologic Data—Regional Structure. Location, extent and effects of known or suspected faulting, indicating whether faults are sealed or fractured avenues for fluid movement;

(4) Underground Sources of Drinking Water. Lithology of aquifers defined as underground sources of drinking water;

(5) Any surface retention facilities associated with the injection operation;

(6) Reservoir and Fluid Data on Entire Reservoir.

(i) Lithology;

(ii) Original and current bottom hole pressure;

(7) Reservoir and Fluid Data on Lease.

(i) Average horizontal permeability;

(ii) Average porosity;

(8) Production history of reservoir;

(9) Type of injection project and results expected; and

(10) Injection pattern and spacing.

§ 146.48 Permit conditions and other requirements.

State procedures must insure that the terms and conditions of each issued UIC permit including each permit for an existing underground injection, comply with the following:

(a) Adherence to any applicable, more stringent limitations including those (i) necessary to meet treatment standards, or schedules of compliance, established pursuant to State law or regulation, or (ii) necessary to meet other Federal law or regulation;

(b) Allowance of no underground injection of contaminants until after:

(1) The use of appropriate techniques for operation and maintenance of the injection system; and

(2) Provisions have been completed for inspection, monitoring record-keeping and reporting of the underground injection operation;

(c) Allowance of no contaminant to enter an underground drinking water source if the presence of such contaminant may endanger such drinking water source;

(d) Adequate contingency plans to cope with malfunctions or failure of the underground injection system;

(e) Adequate procedures for detecting failure of the system in a timely fashion;

(f) Provisions for such measures as the Director finds necessary to assure the availability of adequate financial resources for dealing with underground injection systems which either are improperly abandoned or may otherwise cause contamination of underground drinking water sources;

(g) That all injections authorized by the UIC permit shall be consistent with the terms and conditions of the permit and that the injection of any contaminant at a greater rate of pressure than that authorized by the permit, or a volume in excess of that authorized by the permit shall constitute a violation of the terms and conditions of the permit;

(h) That the permit may be modified, suspended, or revoked in whole or in part during its term for cause including but not limited to, the following:

(1) The underground injection endangers underground drinking water sources;

(2) Violation of any material terms or conditions of the permit;

(3) Obtaining a permit by misrepresentation or failure to disclose fully all relevant facts; or

(4) A change in any condition that may indicate failure of the underground injection system;

(i) That the permittee shall allow the Director or his authorized representative, upon the presentation of appropriate credentials:

(1) To enter permittee's premises in which a contaminant source or injection system is located and in which any records are required to be kept under terms and conditions of the permit;

(2) To have access to and copy records required to be kept under terms and conditions of the permit;

(3) To inspect the permittee's facilities, including any monitoring equipment or analytical devices; and

(4) To sample any fluids being injected and if sampling of the injection zone and other aquifers is required by the permittee under the monitoring plan of the permit, to also have the right to sample these zones;

(j) That the permittee at all times shall maintain in good working order and operate efficiently the facilities or systems of control installed by the permittee to achieve compliance with terms and conditions of the permit;

(k) That immediately following the permanent cessation of underground injection or where a well is not completed the applicant shall notify the Director and follow the procedures prescribed by the Director for plugging and abandonment; and

(l) That the permittee shall report all remedial work to the Director.

§ 146.49 Monitoring and record-keeping.

Each permittee shall keep on forms prescribed by the Director complete and accurate records of:

(a) All monitoring required in the permit which will include, but not be limited to:

(1) Weekly readings of the surface injection pressure;

(2) Weekly readings of the tubing—long string annulus pressure;

(3) Weekly total volume of injected fluid; and

(4) Weekly average injection volume (bbls/day) (liters/day);

(b) All periodic well tests, including but not limited to:

(1) Water analyses; and

(2) Well conditions;

(c) The permittee shall retain, for a period of five years, records of all information resulting from any monitoring activities required by the UIC permit or by regulation. This requirement shall continue in effect during the five-year period following abandonment of the well. The period of retention shall be extended when requested by the Director; and

(d) Records of monitoring activities and results shall include for all samples; (1) the date, place and time of sampling; (2) the dates analyses were performed; (3) who performed the analyses; (4) the analytical techniques/methods; and (5) the results of such analyses.

§ 146.50 Reporting requirements.

(a) Each permittee shall submit at least the following reports or notification to the Director on forms prescribed by the Director:

(1) Notification of the initial injection operation within ten days of the start-up date; and

(2) Quarterly reports which contain the data records required by the Director.

(b) Within ten days after the temporary discontinuance of disposal operations the permittee shall notify the Director of the date and length of such discontinuance and reason therefor. The Director will prescribe appropriate procedures to insure that underground drinking water sources are protected.

Subpart E Requirements Applicable to All Drainage Wells

§ 146.70 Underground injections to which subpart applies.

This subpart sets forth requirements for State programs with respect to drainage wells used. Underground injections covered by this subpart include injections to dispose of storm water runoff, irrigation return flow, and excess ponded surface waters.

§ 146.71 Regulation by rule or permit.

A State program may regulate any category of underground injection covered by this subpart by rule or by permit system, at the option of the State.

§ 146.72 Regulation by permit.

If a State elects to regulate a category of underground injection covered by this subpart by permit, the permit requirements must include, as a minimum:

(a) That the applicant for the permit to inject must provide such information as the State may require regarding location and design of the facility, nature and volume of the fluid to be injected, and such other information as may be necessary to satisfy the State that the underground injection will not endanger underground drinking water sources.

(b) That the Director will give public notice and provide opportunity for comment and informal public hearing in cases where the Director determines that the application raises substantial question of possible endangerment of underground drinking water sources.

(c) That permits issued will be conditioned on compliance with specified inspection, monitoring, record-keeping and reporting requirements.

§ 146.73 Regulation by rule.

If a State elects to regulate a category of underground injection covered by this subpart by rule, the State regulations applicable to that category shall provide, but not be limited to, the following:

(a) That no underground injection that endangers underground drinking water sources is authorized;

(b) A mechanism for determining the nature and extent of the underground injection activity in the State;

(c) A mechanism for insuring that periodic testing is conducted and test records are maintained in appropriate cases; and

(d) That design, location or construction of underground injection facilities that would be inconsistent with good practice for the protection of underground drinking water sources is prohibited.

§ 146.74 Remedial action.

Underground injection operations that are found to endanger underground drinking water sources shall discontinue operation pending remedial action unless the Director determines that it is unreasonable or impracticable to discontinue operating pending remedial action. If the Director permits an endangering operation to continue pending remedial action, the Director shall prescribe a compliance schedule which shall require remedial action to be taken as soon as practicable but in no case later than one year following the determination of endangerment.

POSTAL RATE COMMISSION

PRIVACY ACT OF 1974

Systems of Records

V 41 170
AUG 31 76
UMI

POSTAL RATE COMMISSION

(Docket No. RM76-8)

PRIVACY ACT OF 1974

Notice Concerning Subject Systems of Records and Proposed New Routine Use for Systems of Records

August 11, 1976.

The Postal Rate Commission is required to publish at least annually a notice of the existence and character of its systems of records which are subject to the requirements of the Privacy Act of 1974 (5 U.S.C. Sec. 552a). The Commission published the first such notice on August 6, 1975 (40 FR 33186), and hereby provides an update. A full description of the Commission's system of records is provided at the conclusion of this notice.

Also included in the description of the subject system of records is a proposed routine use of those records relating to certain Congressional inquiries. The Office of Management and Budget has recommended that this Commission adopt as a routine use of the system a provision which allows disclosure to a Congressional office from an individual's record in response to an inquiry from that office made at the individual's request. A proposed routine use allowing such disclosure has been incorporated in that section of the system description headed "Routine uses of records maintained in the system, including categories of users and the purposes of such uses."

The proposed routine use will become effective (thirty days after publication) unless otherwise announced in the Federal Register. However, the Commission will entertain comments with respect to the proposed routine use which are received before September 30, 1976. Comments should be filed with the Commission's Secretary, at the offices of the Postal Rate Commission, 2000 L Street, N.W., Washington, D.C. 20268.

PRC-1

System name: Official Personnel files—PRC

System location: 2000 L St., N.W., Washington, D.C. 20268

Categories of individuals covered by the system: Personnel of the Postal Rate Commission.

Categories of records in the system: Personnel information, including information supplied on applications, references, records of employment, health records, payroll records, financial reporting records, and information required for affirmative action plans for employment of minorities and handicapped.

Authority for maintenance of the system: 39 U.S.C. 3603, 44 U.S.C. 3101.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Information from this record system is transferred to the U.S. Postal Service to process payroll and to the Civil Service Commission in compliance with financial reporting requirements. Information on the health of Commission employees is maintained by the Public Health Service in connection with its services as the health unit for the Commission. Information on security is developed by submission of appropriate forms with the Civil Service Commission. Other such housekeeping measures may require frequent inter-agency transfers of information.

In the event that information in this record system indicates a violation or potential violation of law, whether civil, criminal or regulatory in nature, and whether arising by general statute or particular program statute, or by regulation, rule or order issued pursuant thereto, the relevant records may be referred, as a routine use, to the appropriate agency, whether federal, state, local or foreign, charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statute, or rule, regulation or order issued pursuant thereto.

In the event that information in this record system is needed in the course of presenting evidence to a court, magistrate, or administrative tribunal, the relevant records may be referred, as a routine use, to the appropriate person to use as evidence.

Information in this record system may be disclosed as a routine use to a federal, state or local agency maintaining civil, criminal or other relevant enforcement information or other pertinent information, such as current licenses, if necessary to obtain information relevant to a Commission decision concerning the hiring or retention of an employee, the letting of a contract, or the issuance of a grant or other benefit.

Information in this record system may be disclosed to a federal agency, in response to its request, in connection with the hiring or retention of an employee, the issuance of a security clearance, the reporting of an investigation of an employee, the letting of a contract, or the issuance of a license, grant, or other benefit by the requesting agency, to the extent that the information is relevant and necessary to the requesting agency's decision on the matter.

Disclosure may be made to a Congressional office from the record of an indivíual in response to an inquiry from the Congressional office made at the request of that indivíual.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Hard copy for official personnel folders and financial statements, mag-tape for payroll records.

Retrievability: Official personnel folders and financial statements by name of employee, payroll by Social Security number of employee.

Safeguards: Approved combination safe for record storage.

Retention and disposal: Official personnel records are maintained by the Commission for the duration of a person's employment with the Commission, follow the employee to new federal jobs, or are retired to the Federal Record Center upon termination of government employment. Financial reports are maintained for a period of four years after termination of the individual's employment with the Commission.

System manager(s) and address: Chief Administrative Officer, 2000 L St., N.W., Washington, D.C. 20268.

Notification procedure: Assistant Administrative Officer, 2000 L St., N.W., Washington, D.C. 20268.

Supply name, date of birth, facsimile of an identifying document such as a driver's license or employee identification card, last agency employing with dates, and a return address.

Record access procedures: Write or call Assistant Administrative Officer, 2000 L St., N.W., Washington, D.C. 20268, telephone (202) 254-3881.

Contesting record procedures: Write or call Assistant Administrative Officer, 2000 L St., N.W., Washington, D.C. 20268, telephone (202) 254-3881.

Record source categories: Applications for employment as submitted by the applicants; data supplied by employees in connection with their employment; records from other agencies in which employees worked; replies from references; responses to security investigations; supervisors' performance evaluations; grades from courses taken under Commission sponsorship; medical records.

By the Commission.

James R. Lindsay,
Secretary.

PART IV:

DEPARTMENT OF THE INTERIOR

Office of the Secretary

■

PRIVACY ACT OF 1974

Proposed Routine Uses

V41I170
AUG 31 76
UMI

DEPARTMENT OF THE INTERIOR

Office of the Secretary

PRIVACY ACT OF 1974

Routine Uses

Pursuant to 5 U.S.C. 301 and 552a and 43 U.S.C. 1461, the Department of the Interior hereby proposes revision of the "Routine Use" paragraphs of the notices describing records which it maintains which are subject to section 3 of the Privacy Act of 1974. The "Routine Use" paragraphs, as they are proposed to be revised, are set out below.

The full texts of the notices to which these "Routine Use" paragraphs pertain may be found in the FEDERAL REGISTER for September 5, 1975 (40 FR 41432–41507), September 19, 1975 (40 FR 43467–43477), October 3, 1975 (40 FR 46066–46074), October 10, 1975 (40 FR 47985–47992), October 29, 1975 (40 FR 50434).

Comments on the revised "Routine Use" paragraphs may be submitted to the Departmental Privacy Act Officer, Office of Management Consulting, U.S. Department of the Interior, 18th and C Streets, NW., Washington, D.C. 20240. All comments received on or before September 14, 1976 will be considered. Copies of any comments which are received will be available for inspection in Room 5350 at the above address.

ALBERT C. ZAPANTA,
Assistant Secretary of the Interior.

AUGUST 23, 1976.

Interior/OS-- 1.

System name: Audit Files and Workpapers -- Interior, Office of the Secretary-- 1.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary uses of the records are to develop audit reports which bring to the attention of management, contractors and grantees existing deficiencies and recommendations for correcting those deficiencies. Disclosures outside the Department of the Interior may be made: (1) to a Federal, State or local government agency who has funds involved to alert that agency to the deficiencies so the agency may take corrective action; (2) by transfer to another Federal agency or a State or local government body having partial or complete jurisdiction over the auditee; (3) to the U. S. Department of Justice when related to litigation or anticipated litigation; (4) for transfer of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license; (5) from the record of an individual in response to an inquiry from a Congressional office made at the request of that individual.

Interior/OS-- 2.

System name: Investigative Records -- Interior, OFFICE OF THE Secretary-- 2.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary uses of the records are to (a) conduct and report investigations stemming from specific complaints of serious misconduct or irregularities to ensure compliance by Departmental employees, prospective employees, contractors, subcontractors (prospective contractors and subcontractors), grantees, subgrantees, and persons doing business with the Department with Federal Statutes, regulations, policies, and procedures; and (b) conduct other fact finding studies as the Secretary may direct. Disclosures outside the Department of the Interior may be made (1) to the U. S. Department of Justice when related to litigation or anticipated litigation involving the records or the subject matter of the records; (2) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulations, order or license; (3) from the record of an individual in response to an inquiry from a Congressional office made at the request of that individual; (4) to a Federal agency which has requested information relevant or necessary to its hiring or retention of an employee, or issuance of a security clearance, license, contract, grant or other benefit; and (5) to Federal, State, or local agencies where necessary to obtain information relevant to the hiring or retention of an employee, or the issuance of a security clearance, contract, license, grant or other benefit.

Interior/OS-- 3.

System name: Financial Interest Statements and Ethics Counselor Decisions - Interior, Office of the Secretary-- 3.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary uses of the records are (a) to review employee financial interests and determine employee compliance or non-compliance with applicable conflict of interest statutes and regulations; (b) to record the fact that the employee has been made aware of specifically directed legislation or regulations covering his organization and that he or she is in compliance with such specific legislation or regulations; and (c) to provide an adequate system of records for Interior auditors performing compliance audits within the Interior Department. Disclosures outside the Department of the Interior may be made; (1) to the U. S. Department of Justice when related to litigation or anticipated litigation, (2) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or, (3) to a Congressional office from the record of an individual in response to an inquiry made at the request of that individual, (4) to Federal, State or local agencies where necessary to obtain information relevant to the hiring or retention of an employee, or the issuance of a security clearance, contract, license, grant or other benefit, (5) to the Civil Service Commission to perform oversight reviews, (6) to the public for those records covered by 43 CFR 30.735-20(c).

Interior/OS-- 5.

System name: Aircraft Instructor Qualification File -- Interior Office of the Secretary -- 5.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary uses of the records are (a) to maintain updated instructor qualification records (b) to refer instructors to DOI Bureaus/Offices. Disclosures outside the Department of the Interior may be made, (1) to the U. S. Department of Justice when related to litigation or anticipated litigation, (2) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license, (3) to a Federal agency which has requested information relevant or necessary to its hiring or retention of an employee, or issuance of a security clearance, license, contract, grant or other benefit, (4) to Federal, State, or local agencies where necessary to obtain information relevant to the hiring or retention of an employee, or the issuance of a security clearance, license, grant or other benefit.

Interior/OS-- 6.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary uses of the records are (a) to prepare payrolls for distribution by the Regional Disbursing Offices of Department of Treasury and (b) to report results to the Civil Service Commission. Disclosures outside the Department of the Interior may be made (1) granting of access or transfer to a Federal, State or local agency, or to an Indian tribal group or any establishment or individual that assumes jurisdiction, whether by contract to the BIA or by legal transfer, of any program under the control of the BIA, (2) to the Department of the Treasury for preparation of (a) payroll checks and (b) payroll deduction and other checks to Federal, State and local government agencies, non-governmental organizations and individuals, (3) to the Internal Revenue Service and to State, Commonwealth, Territorial and local governments for tax purposes, (4) TO THE Civil Service Commission in connection with the Civil Service Retirement System, (5) disclosure to another Federal agency to which an employee has transferred, (6) to the U. S. Department of Justice when related to litigation or anticipated litigation, (7) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license, (8) from the record of an individual in response to an inquiry from a Congressional office made at the request of that individual, (9) to a Federal agency which has requested information relevant or necessary to its hiring or retention of an employee, or issuance of a security clearance, license, contract, grant or other benefit, and (10) to Federal, State or local agencies where necessary to obtain information relevant to the hiring or retention of an employee, or the issuance of a security clearance, contract, license, grant or other benefit.

INTERIOR/BIA--18.

System name: Law Enforcement Services -- Interior, BIA--18.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary use of the records is to identify individuals who have been arrested on Indian Reservations and who have appeared in court for violations of 25 CFR regulations. Disclosures outside the Department of the Interior may be made (1) to the U. S. Department of Justice when related to litigation or anticipated litigation, (2) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license, (3) from the record of an individual in response to an inquiry from a Congressional office made at the request of that individual, (4) to a Federal agency which has requested information relevant or necessary to its hiring or retention of an employee, or issuance of a security clearance, license, contract, grant or other benefit, and (5) to Federal, State or local agencies where necessary to obtain information relevant to the hiring or retention of an employee or the issuance of a security clearance, contract, license, grant or other benefit.

INTERIOR/BIA--19.

System name: Indian Association Stock Purchase Records -- Interior, BIA--19.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary use of the record is to identify individual Indians who have stocks in Indian Associations. Disclosures outside the Department of the Interior may be made (1) to another Federal agency, a State or local government, an Indian tribal group or a contractor that will have jurisdiction over programs now managed by the BIA, (2) to the Economic Development Administration, Farmers Home Administration and Small Business Administration in regard to participating funding between these agencies and the BIA, (3) to the U. S. Department of Justice when related to litigation or anticipated litigation, (4) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license, and (5) from the record of an individual in response to an inquiry from a Congressional office made at the request of that individual.

INTERIOR/BIA--20.

System name: Correspondence Files System -- Interior, BIA--20.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary use of the record is to provide information for use by Department of the Interior; BIA; Indian Tribes; Indian Claims Commission; and the Indian Claims Division, Office of Finance, GSA. Disclosures outside the Department of the Interior may be made (1) to another Federal agency, a State or local government, an Indian Tribal Group or a contractor that will have jurisdiction over programs now controlled by the BIA, (2) to the U. S. Department of Justice when related to litigation or anticipated litigation, (3) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license, and (4) from the record of an individual in response to an inquiry from a Congressional office made at the request of that individual.

INTERIOR/BIA--21.

System name: Correspondence Control System -- Interior, BIA--21.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary use of the record is to provide control for prompt handling or priority correspondence by the Bureau of Indian Affairs. Disclosures outside the Department of the Interior may be made (1) to the U. S. Department of Justice when related to litigation or anticipated litigation, and (2) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license.

INTERIOR/BIA--22.

System name: Indian Student Records -- Interior, BIA--22.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary use of the record is to provide permanent individual student records on all phases of the education of indians in BIA schools or under Government Education Grants. Disclosures outside the Department of the Interior may be made to (1) another federal agency, a State or local government, Indian Tribal Group or to any individual or establishment that will have jurisdiction whether by contract to the BIA, by assumption of Trust Responsibilities or by other means for school programs now controlled by the BIA; (2) to any domestic recognized school, whether public, private, parochial or other, of those portions of students' records specified by the requesting school as being necessary for the acceptance, placement or satisfactory performance of the student at the requesting school, (3) to any individual or establishment of those portions of students' records specified by the requester as necessary for a decision concerning the hiring or retention of the student as an employee of the requester, (4) to a Federal, State or local agency maintaining civil, criminal or other relevant enforcement information, such as current licenses, if necessary to obtain information relevant to an agency

V 41 170 AUG 31 76 UMI

decision concerning the hiring or retention of an employee, the issuance of a security clearance, the letting of a contract, or the issuance of a license, grant or other benefit by the requesting agency, (5) to a Federal agency which has requested information relevant or necessary to its hiring or retention of an employee, or issuance of a security clearance, license, contract, grant or other benefit, (6) to persons having official involvement in conjunction with a student's application for/or grant of financial aid, (7) to parents of a dependent student as defined in section 152 of the Internal Revenue Code of 1954, as amended, (8) to accreditation agencies in order to carry out their accrediting functions, (9) to the Department of Health, Education and Welfare and other governmental education officials when necessary to carry out their functions, (10) to an educational testing center or similar institution as part of validation research authorized by the school involved, (11) to the U. S. Department of Justice when related to litigation or anticipated litigation, (12) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license, and (13) from the record of an individual in response to an inquiry from a Congressional office made at the request of that individual.

INTERIOR/BIA--23.

System name: Employment Assistance Case Files -- Interior, BIA--23.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary uses of the records are (a) to identify individual Indians who are given direct employment or vocational training, and (b) to provide permanent records on Employment Assistance to individual Indians. Disclosures outside the Department of the Interior may be made (1) to another Federal agency, a State or local government, Indian Tribal Group or to any individual or establishment that will have jurisdiction whether by contract to the BIA, by assumption of Trust Responsibilities or by other means, for Employment Assistance Programs now controlled by the BIA, (2) to the U. S. Department of Justice when related to litigation or anticipated litigation, (3) of infromation indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license, (4) from the record of an individual in response to an inquiry from a Congressional office made at the request of that individual, and (5) to Federal, State or local agencies where necessary to obtain information relevant to the hiring or retention of an employee, or the issuance of a security clearance, contract, license, grant or other benefit.

INTERIOR/BIA--24.

System name: Timber Cutting and Fire Trespass Claims Case Files -- Interior, BIA--24.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary uses of the records are (a) to identify unauthorized timber cutting claims filed against trespassers and/or converters, (b) for property damage claims filed against careless or negligent originators of wildfire which trespasses Indian property, and (c) establishing amounts and types of timber trespassed and their value. Disclosures outside the Department of the Interior may be made (1) authorized legal representative of Tribal Groups or members if necessary for litigation, (2) to the Department of Justice when related to litigation or anticipated litigation, (3) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license, and (13) from the record of an individual in response to an inquiry from a Congressional office made at the request of that individual.

INTERIOR/APA-- 1.

System name: Administrative Management and Fiscal Records -- Interior, Alaska Power Administration--1.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary use of the record is for the administrative and fiscal management of the Alaska Power Administration. Disclosures outside the Department of the Interior may be made (1) to the Department of the Treasury for preparation of (a) payroll checks; (b) payroll deduction and other checks to Federal, State and local government agencies, nongovernmental organizations and individuals; and (3) checks for reimbursement of employees and others; (2) to the Internal Revenue Service and to State, Commonwealth, Territorial and local governments for tax purposes; (3) to the Civil Service COmmission to report contributions to the Civil Service Retirement System and other contributions; (4) to another Federal agency to which an employee has transferred; (5) to another Federal agency having a subject matter interest in the records; (6) to the U. S. Department of Justice when related to litigation or anticipated ligation; (7) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license; (8) from the record of an individual in response to an inquiry from a Congressional office made at the request of that individual.

INTERIOR/MINES-- 1.

System name: Payroll -- Interior, Mines--1.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary uses of the records are (a) to provide information and accounting records regarding employee pay and leave for the automated payroll data file; (b) to inform each Bureau office of the composition of their labor cost changes by reporting total payroll changes for each individual made to various cost accounts within the Finance system. This reporting is made every two weeks on a regular payroll cycle. Disclosures outside the Department of the Interior may be made (1) to provide states with pay data relative to claims for unemployment; (2) to the Department of the Treasury for preparation of payroll checks and payroll deductions and other checks to Federal, state and local Government agencies, non-governmental organizations and individuals; (3) to the Internal Revenue Service and to state, commonwealth, territorial and local Governments for tax purposes; (4) to the Civil Service Commission in connection with the Civil Service Retirement System; (5) to another Federal agency to which an employee has transferred; (6) to the U. S. Department of Justice when related to litigation or anticipated litigation involving the records or the subject matter of the records; (7) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, state, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license; (8) from the record of an individual in response to an inquiry from a Congressional office made at the request of that individual; (9) to a Federal agency which has requested information relevant or necessary to its hiring or retention of an employee, or issuance of a security clearance, license, contract, grant or other benefit; (10) to Federal, state, or local agencies where necessary to obtain information relevant to the hiring or retention of an employee, or the issuance of a security clearance, contract, license, grant or other benefit.

INTERIOR/MINES-- 2.

System name: Travel Advance File -- Interior, Mines--2.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary uses of the records are (a) to provide an accounting record of obligations due to the U. S. Government from employees authorized cash advances to defray expenses incurred in official travel. Payments to the traveler and repayments to the Government are reflected in this record; (b) to serve as a backup authority and manually reconciled file to the entries for travel expenses in the automated Finance system; (c) computer data are reported to each Bureau office as part of the detailed composition of monthly expense reports applicable to charges made to cost accounts within the Finance system. Only data pertinent to individual Bureau offices are available to that office. Disclosures outside the Department of the Interior may be made (1) to the U. S. Department of Justice when related to litigation or anticipated litigation involving the records or the subject matter of the records; (2) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license; (3) from the record of an individual in response to an inquiry from a Congressional office made at the request of that individual; (4) to a Federal agency which has requested information relevant or necessary to its hiring or retention of an employee, or issuance of a security clearance, license, contract, grant or other benefit; (5) to Federal, State, or local agencies where necessary to obtain information relevant to the hiring or retention of an employee, or the issuance of a security clearance, contract, license, grant or other benefit.

INTERIOR/MINES-- 3.

System name: Travel Vouchers and Authorizations -- Interior, Mines--3.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary uses of the records are (a) as backup entry data for obligations and disbursements in the automated Finance system of the Bureau of Mines; (b) computer data are reported to each Bureau office as part of the detailed composition of monthly expense reports applicable to charges made to cost accounts within the Finance system. Only data pertinent to individual Bureau offices are available to that office; (c) vouchers are used to determine allowability of expenses within the law authorizing payment of travel expenses. The documents are used to determine which expenses incurred by the traveler can be paid and are sometimes used to report to other Federal agencies summarizations of those types of allowable expenses. Usually, the individual's name is not used in outside reporting but the data is, Disclosures outside the Department of the Interior may be made (1) to the U. S. Department of Justice when related to litigation or anticipated litigation involving the records or the subject matter of the records; (2) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, state, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license; (3) from the record of an individual in response to an inquiry from a Congressional office made at the request of that individual; (4) to a Federal agency which has requested information relevant or necessary to its hiring or retention of an employee, or issuance of a security clearance, license, contract, grant or other benefit; (5) to Federal, state, or local agencies where necessary to obtain information relevant to the hiring or retention of an employee, or the issuance of a security clearance, contract, license, grant or other benefit.

INTERIOR/MINES-- 4.

System name: Property Control -- Interior, Mines--4.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary uses of the records are (a) identification, assignment, and control of Bureau property; (b) assistance in locating carpools; Disclosures outside of the Department of the Interior may be made (1) to the U. S. Department of Justice when related to litigation or anticipated litigation; (2) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license.

INTERIOR/MINES-- 5.

System name: Personnel Identification -- Interior, Mines--5.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary uses of the records are (a) to provide identification cards to employees; (b) locator information provided for use by management to contact employees in case of an emergency. Disclosures outside the Department of the Interior may be made (1) to the U. S. Department of Justice when related to litigation or anticipated litigation; (2) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license.

INTERIOR/MINES-- 6.

System name: Safety Files -- Interior, Mines--6.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary uses of the records are (a) for managerial review of safety related work situations, and (b) for authenticating work related accident, injury, illness, or fatalities for employee compensation purposes. Disclosures outside the Department of the Interior may be made (1) to the U. S. Department of Justice when related to litigation or anticipated litigation; (2) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license.

INTERIOR/MINES-- 7.

System name: Security Files -- Interior, Mines--7.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary use of the records is to identify Mines personnel who have security clearances and their degree of clearance. Disclosures outside the Department of the Interior may be made (1) to a Federal agency which has requested information relevant or necessary to its hiring or retention of an employee, or issuance of a security clearance, license, contract, grant or other benefit; (2) to Federal, State or local agencies where necessary to obtain information relevant to the hiring or retention of an employee, or issuance of a security clearance, contract, license, grant or other benefit; (3) to the U. S. Department of Justice when related to litigation or anticipated litigation; (4) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license.

INTERIOR/MINES-- 9.

System name: Distribution Center and Film Borrower Record Cards -- Interior, Mines--9.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary uses of the records are for (a) reference by Bureau of Mines film distribution personnel in determining locations of films out on loan, (b) scheduling film shipments, and returns, and (c) checking borrower's treatment of films borrowed in the past. Disclosures outside the Department of the Interior may be made (1) to the U. S. Department of Justice when related to litigation or anticipated litigation; (2) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license.

INTERIOR/MINES--10.

System name: Biographical Reference File -- Interior, Mines--10.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary uses of the records are (a) as a public information file on officials of the Bureau of Mines and (b) as background material in preparing public announcements on assignments, transfers or official activities of the named official. Disclosures outside the Department of the Interior may be made (1) to the public and news media seeking biographical information about named officials.

INTERIOR/BPA-- 1.

System name: Travel Records -- Interior, BPA -- 1.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary uses of the records are (a) for the establishment of employee travel or change of station claims for reimbursement; (b) for the determination of available lodging rates whenever BPA employees conduct official travel; and (c) control of amounts of travel advances and repayment of those amounts provided. Disclosures outside the Department of the Interior may be made (1) to the Department of Treasury for reimbursement of travel expenses; (2) to the U. S. Department of Justice when related to litigation or anticipated litigation; (3) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license; (4) from the record of an individual in response to an inquiry from a Congressional office made at the request of that individual.

INTERIOR/BPA-- 2.

System name: Payroll Files -- Interior, BPA -- 2.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary use of the records are (a) to prepare schedule of net pay and record gross pay, leave, retirement, and payroll deductions; (b) to maintain payroll records for GAO and other audits; (c) to provide input for BPA cost accounting for budgeting systems. Disclosures outside the Department of the Interior may be made (1) to transfer earnings and withholding data to State employment agencies as requested for unemployment claims; (2) to transfer earnings for withholding, data to Federal and State income tax authorities; (3) to transfer leave and retirement records to other Federal agencies when employees transfer; (4) to transfer retirement records to the Civil Ser-

V41N170 AUG 31 76 UMI

vice Commission for employees retiring, terminating, or transferring outside the Department; (5) to GAO when BPA requests Comptroller General decisions; (6) to the Department of the Treasury for issuance of checks and distribution of pay according to employee authorizations for savings and allotments and other authorized purposes; (7) to IRS for tax levies; (8) to Office of Federal Employee Compensation for employees injured on duty; (9) to State welfare agencies on written request regarding qualifications for food stamps; (10) to financial organizations for net pay and payroll savings for employees making deposits; (11) to unions of listings of union dues deductions to unions; (12) to the Department of the Treasury for issuance of checks to satisfy court orders authorizing garnishment under provisions of P.L. 93-647; (13) to the U. S. Department of Justice when related to litigation or anticipated litigation; (14) of transfer in the event it is indicated a violation or potential violation of a statute, regulation, rule, order or license, whether civil, criminal, or regulatory in nature, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license; (15) from the record of an individual in response to an inquiry from a Congressional office made at the request of that individual.

INTERIOR/BPA-- 3.

System name: Audiometric Testing Forms -- Interior, BPA -- 3.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary use of the records is to advise employees that they have hearing deficiencies. Disclosures outside the Department of the Interior may be made (1) to the U. S. Department of Justice when related to litigation or anticipated litigation; (2) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license; (3) from the record of an individual in response to an inquiry from a Congressional office made at the request of that individual.

INTERIOR/BPA-- 4.

System name: Automotive Accident Files -- Interior, BPA -- 4.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary uses of the records are (a) to determine the classification of the accident, i.e. preventable, nonpreventable, or reportable incident; (b) to adjudicate tort claims; (c) to determine financial liability and disciplinary action. Disclosures outside the Department of the Interior may be made (1) to General Services Administration for reimbursement; (2) to the U. S. Department of Justice when related to litigation or anticipated litigation; (3) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license; (4) from the record of an individual in response to an inquiry from a Congressional office made at the request of that individual.

INTERIOR/BPA-- 5.

System name: Motor Vehicle Operator Identification Records -- Interior,BPA -- 5.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary use of the record is to determine eligibility for motor vehicle operator identification cards. Disclosures outside the Department of the Interior may be made (1) to the U. S. Department of Justice when related to litigation or anticipated litigation; (2) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license; (3) from the record of an individual in response to an inquiry from a Congressional office made at the request of that individual.

INTERIOR/BPA-- 6.

System name: Industrial Accident Files and Employee Claims Files -- Interior, BPA -- 6.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary uses of the records are (a) to analyze the facts and circumstances surrounding each accident for cause, (b) adjudication of tort and employee claims. Disclosures outside the Department of the Interior may be made (1) to another Federal agency, or a State or local government having partial or complete jurisdiction over the claim or related claims; (2) to the U. S. Department of Justice when related to litigation or anticipated litigation; (3) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, state, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license; (4) from the record of an individual in response to an inquiry from a congressional office made at the request of that individual.

INTERIOR/BPA-- 7.

System name: Safety Training Files -- Interior, BPA -- 7.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary uses of the records are (a) to determine which employees have valid first aid cards; (b) to determine which employees hold certifications to access BPA facilities and (c) to determine which drivers have completed defensive driver courses. Disclosures outside the Department of the Interior may be made (1) to the U. S. Department of Justice when related to litigation or anticipated litigation; (2) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license; (3) from the record of an individual in response to an inquiry from a Congressional office made at the request of that individual.

INTERIOR/BPA-- 8.

System name: Plant Services History Files -- Interior, BPA -- 8.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary uses of the records are (a) to provide a detailed record of costs incurred for labor against any plant services requested on a monthly basis, (b) to provide backup for charges for work performed for other Federal agencies under the cross-servicing agreements authorized by GSA Bulletin FPMR 100.G-23 and (c) to provide backup for charges against contractors and other vendors for corrective work performed by the Branch of Plant Services. Disclosures outside the Department of the Interior may be made (1) to the U. S. Department of Justice when related to litigation or anticipated litigation; (2) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license; (3) from the record of an individual in response to an inquiry from a Congressional office made at the request of that individual.

INTERIOR/BPA-- 9.

System name: Plant Services Personal Accountability Property System -- Interior, BPA -- 9.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary uses of the records are (a) to provide inventories to satisfy other FPMR requirements; (b) to maintain a record of location of emergency equipment; (c) to control equipment assignments authorized under union contracts; (d) to provide management information necessary for the budgeting and allocation of equipment funds; and (e) to provide evidence of assignment, location, and value when government property is stolen. Disclosures outside the Department of the Interior may be made (1) to the U. S. Department of Justice when related to litigation or anticipated litigation; (2) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license; (3) from the record of an individual in response to an inquiry from a Congressional office made at the request of that individual.

INTERIOR/BPA--10.

System name: Land Records--Interior, BPA -- 10.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary uses of the records are (a) to answer questions regarding land rights which BPA has granted to individuals or land rights individuals have granted to BPA; and (b) as a data source used to update maps. Disclosures outside the Department of the Interior may be made (1) to

other Federal agencies as questions arise concerning specific tracts of land; (2) to individuals, companies, or private organizations to answer questions concerning tracts of land; (3) to the U. S. Department of Justice when related to litigation or anticipated litigation; (4) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license; (5) from the record of an individual in response to an inquiry from a Congressional office made at the request of that individual.

INTERIOR/BPA--11.

System name: Accounts Receivable--Interior, BPA -- 11.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary uses of the records are (a) to assure collection of amounts due; (b) to provide data for accounting results; (c) to verify payment activity by individuals; and (d) to verify accuracy of accounting results. Disclosures outside the Department of the Interior may be made (1) to the U. S. Department of Justice when relateE 8 to litigation or anticipated litigation; (2) of information indicating E 8 violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license; (3) from the record of an individual in response to an inquiry from a Congressional office made at the request of that individual.

INTERIOR/BPA--12.

System name: Report of Inventions--Interior, BPA -- 12.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary uses of the records are (a) to determine employee's rights to license invention; (b) to determine status of invention in process of securing patent. Disclosures outside the Department of the Interior may be made (1) to the U. S. Department of Justice when related to litigation or anticipated litigation; (2) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate federal, State, local or foreign agencies responsible for innvestigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license; (3) from the record of an individual in response to an inquiry from a Congressional office made at the request of that individual.

INTERIOR/BPA--13.

System name: Parking Assignment Records--Interior, BPA -- 13.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary use of the record is to assign parking permits and assist in locating car pools. Disclosures outside the Department of the Interior may be made (1) to the U. S. Department of Justice when related to litigation or anticipated litigation; (2) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license; (3) from the record of an individual in response to an inquiry from a Congressional office made at the request of that individual.

INTERIOR/BPA--14.

System name: Security Clearance File--Interior, BPA -- 14.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary use of the record is to document clearances granted to individuals. Disclosures outside the Department of the Interior may be made (1) to the U. S. Department of Justice when related to litigation or anticipated litigation; (2) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license; (3) from the record of an individual in response to an inquiry from a Congressional office made at the request of that individual.

INTERIOR/GS-- 1.

System name: Payroll, Attendance and Leave Records -- Interior, GS--1. (2) Input documents supplied by all facilities of the U.S. Geological Survey. (See Appendix for addresses.)

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: (1) Transmittal of data to U.S. Treasury to issue pay to employees and to distribute pay according to employee directions for allotments, financial institutions, savings bonds, charitable contributions and other authorized purposes. (2) Reporting tax withholdings to IRS and State and local taxing authorities; FICA deductions to SSA; withholdings for health insurance to the Civil Service Commission and carriers; contributions to agents of charitable institutions; dues to labor unions; annual W-2 statements to taxing authorities and the individual. (3) In the event that a system of records maintained by the Survey to carry out its functions indicates a violation or potential violation of law, whether civil, criminal or regulatory in nature, and whether arising by general statute or particular program pursuant thereto, the relevant records in the system of records may be referred, as a routine use, to the appropriate agency, whether Federal, State, local or foreign, charged with the responsibility of investigation or prosecuting such violation or charged with enforcing or implementing the statute, rule, regulation or order issued pursuant thereto. (4) A record from this system of records may be disclosed, as a routine use, to a Federal, State or local agency maintaining civil, criminal or other relevant enforcement information or other pertinent information, such as current licenses if necessary to obtain information relevant to a Survey decision concerning the hiring or retention of an employee, the issuance of a security clearance, the letting of a contract, or the issuance of a license, grant or other benefit. (5) A record from this system of records may be disclosed, as a routine use, to a Federal agency, in response to its request, in connection with the hiring or retention of an employee, the issuance of a security clearance, the reporting of an investigation of an employee, the letting of a contract, or the issuance of a license, grant, or other benefit by the requesting agency, to the extent that the information is relevant and necessary to the requesting agency's decision on the matter. (6) A record in this system of records may be disclosed, as a routine use, to a Member of Congress submitting a request involving the individual when the individual is a constituent of the Member and has requested assistance from the Member with respect to the subject matter of the record. (7) Transfer to the U.S. Department of Justice in the event of litigation involving the records or the subject matter of the records.

INTERIOR/GS-- 2.

System name: Authorized Cashier, Alternate Cashier, Certifying Officer and Cashierand Collection Officers -- Interiorand GS--2.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: (1) Transmittal to U.S. Treasury. (2) Routine uses numbered 3 through 7 listed in the system notice for the Geological Survey Payroll, Attendance and Leave Records System, Interior/GS-1.

INTERIOR/GS-- 3.

System name: Accounts Receivable -- Interior, GS--3.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: (1) Billing debtors. (2) Reporting to the Civil Service Commission. (3) Routine uses numbered 3 through 7 listed in the system notice for the Geological Survey Payroll, Attendance and Leave Records System, Interior/GS-1.

INTERIOR/GS-- 5.

System name: Contract Files -- Interior, GS--5.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Routine uses numbered 3 through 7 listed in the system notice for the Geological Survey Payroll, Attendance and Leave Records System, Interior/GS-1.

INTERIOR/GS-- 6.

System name: RELOS Records -- Interior, GS--6.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: (1) Used to prepare National Center telephone directory, parking permit issuance, carpool assignments, space occupancy reports. (2) Routine uses numbered 3 through 7 listed in the system notice for the Geological Survey Payroll, Attendance and Leave Records System, Interior/GS-1.

INTERIOR/GS-- 7.

System name: Personal Property Accountability Records -- Interior--7.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: (1) To maintain control over bureau owned controlled property; maintain up-to-date inventory and accountability. (2) Routine uses numbered 3 through 7 listed in the system notice for the Geological Survey Payroll, Attendance and Leave Records System, Interior/GS-1.

INTERIOR/GS-- 8.

V41I170 AUG 31 76 UMI

System name: Accident Reports and Investigations -- Interior, GS--8.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Routine uses numbered 3 through 7 listed in the system notice for the Geological Survey Payroll, Attendance and Leave Records System, Interior/GS-1.

INTERIOR/GS-- 9.

System name: National Research Council Grants Program -- Interior, GS--9.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Routine uses numbered 3 through 7 listed in the system notice for the Geological Survey Payroll, Attendance and Leave Records System, Interior/GS-1.

INTERIOR/GS--10.

System name: Lunar Sample -- Interior, GS--10.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Routine uses numbered 3 through 7 listed in the system notice for the Geological Survey Payroll, Attendance and Leave Records System, Interior/GS-1.

INTERIOR/GS--11.

System name: Security -- Interior, GS--11.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Routine uses numbered 3 through 7 listed in the system notice for the Geological Survey Payroll, Attendance and Leave Records System, Interior/GS-1.

INTERIOR/GS--12.

System name: Project Descriptions and Work Plans and Accomplishments -- Interior, GS--12.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Routine uses numbered 3 through 7 listed in the system notice for the Geological Survey Payroll, Attendance and Leave Records System, Interior/GS-1.

INTERIOR/GS--13.

System name: Manuscript Processing -- Interior, GS--13.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: (1) Use by Author, Branch Chiefs, Office Chiefs and Office of Scientific Publications staff. (2) Routine uses numbered 3 through 7 in the system notice for the Geological Survey Payroll, Attendance and Leave Records System, Interior/GS-1.

INTERIOR/GS--14.

System name: Travel Files -- Interior, GS--14.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: (1) Transmittal to U.S. Treasury for payment and to State Department for passports. (2) Routine uses numbered 3 through 7 listed in the system notice for the Geological Survey Payroll, Attendance and Leave Records System, Interior/GS-1.

INTERIOR/GS--15.

System name: Cartographic Information Customer Records -- Interior, GS--15.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: (1) Reference by GS and GS contractor personnel in processing customer inquiries; (2) Transfer to the U.S. Department of Justice in the event of litigation involving the records or the subject matter of the records; (3) Transfer, in the event there is indicated a violation or potential violation of a statute, regulation, rule, order or license, whether civil, criminal or regulatory in nature, to the appropriate agency or agencies, whether Federal, State, local or foreign, charged with the responsibility of investigation or prosecuting such violation or charged with enforcing or implementing the statute, rule, regulation, order or license violated or potentially violated.

INTERIOR/GS--16.

System name: Office of Minerals Exploration (OME) Financial Assistance Applications -- Interior, GS--16.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Routine uses numbered 3 through 7 listed in the system notice for the Geological Survey Payroll, Attendance and Leave Records System, Interior/GS-1.

INTERIOR/GS--17.

System name: Management Information System, Publications Division -- Interior, GS--17.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: (1) Production control, program management, accumulation of costs for billing the pertinent GS divisions. (2) Routine uses numbered 3 through 7 listed in the system notice for the Geological Survey Payroll, Attendance and Leave Records System, Interior/GS-1.

INTERIOR/GS--18.

System name: Computer Services Users -- Interior, GS--18.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: (1) Billing and Mailing to Federal Employees who are Geological Survey Computer Services Users. (2) Transfer to the U.S. Department of Justice in the event of litigation involving the records or the subject matter of the records. (3) Transfer, in the event there is indicated a violation or potential violation of a statute, regulation, rule, order or license, whether civil, criminal or regulatory in nature, to the appropriate agency or agencies, whether Federal, State, local or foreign, charged with the responsibility of investigation or prosecuting such violation or charged with enforcing or implementing the statute, rule, regulation, order or license violated or potentially violated.

INTERIOR/GS--20.

System name: Photo File System -- Interior, GS--20.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: (1) Dissemination to public with press releases and in publications. (2) Routine uses numbered 3 through 7 in system notice for Geological Survey Payroll, Attendance and Leave Records System, Interior/GS--1.

INTERIOR/GS--21.

System name: Mineral Lease and Royalty Accounting Files -- Interior, GS--21.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The primary uses of the records are (a) mineral lease management - supervision of leases and permits, royalty account billings, revenue controls and statistical data. Disclosures outside the Department of the Interior may be made (1) to the U. S. Department of Justice when related to litigation or anticipated litigation of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies, responsibility for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license, and, (2) from the record of an individual in response to an inquiry from a Congressional office made at the request of that individual.

RESOLUTION CHART

100 MILLIMETERS

INSTRUCTIONS Resolution is expressed in terms of the lines per millimeter recorded by a particular film under specified conditions. Numerals in chart indicate the number of lines per millimeter in adjacent "T-shaped" groupings.

In microfilming, it is necessary to determine the reduction ratio and multiply the number of lines in the chart by this value to find the number of lines recorded by the film. As an aid in determining the reduction ratio, the line above is 100 millimeters in length. Measuring this line in the film image and dividing the length into 100 gives the reduction ratio. Example: the line is 20 mm. long in the film image, and 100 ÷ 20 = 5.

Examine "T-shaped" line groupings in the film with microscope, and note the number adjacent to finest lines recorded sharply and distinctly. Multiply this number by the reduction factor to obtain resolving power in lines per millimeter. Example: 7.9 group of lines is clearly recorded while lines in the 10.0 group are not distinctly separated. Reduction ratio is 5, and 7.9 x 5 = 39.5 lines per millimeter recorded satisfactorily. 10.0 x 5 = 50 lines per millimeter which are not recorded satisfactorily. Under the particular conditions, maximum resolution is between 39.5 and 50 lines per millimeter.

Resolution, as measured on the film, is a test of the entire photographic system, including lens, exposure, processing, and other factors. These rarely utilize maximum resolution of the film. Vibrations during exposure, lack of critical focus, and exposures yielding very dense negatives are to be avoided.

THE END
